

STUDENT ACADEMY

Pre-Registration Required — \$5

Contact Sonya Bynoe (sbynoe@aafs.org)
for registration information.

Tuesday

February 23, 2010

8:00 a.m. - 3:00 p.m.

The purpose of the Student Academy of Forensic Sciences is to bring to the attention of local area high school and college students the vital importance of the application of scientific principles to the administration of justice. It acquaints the participants with the role of the forensic science disciplines in the legal system as well as the education and training required for the career in each discipline. All high school and college age students are welcome to attend.
