

## Standard for Training and Certification of Canine Detection of Humans: An Aged Trail Using Pre-scented Canines

#	Section	Type of Comment (E-Editorial, T-Technical)	Comments	Proposed Resolution	Final Resolution
10	General		<p>This document has entire sections that repeat word-for-word the already approved Terminology and General Guidelines, which only invites dissonance between this document and those documents based on comments received during the open comment period. This is already the case with Terminology. In the relevant sections, just cite the Terminology and General Guidelines documents and add any discipline-specific elements ONLY.</p> <p>Each document does not have to stand alone. Terms and General Guidelines apply to ALL disciplines. Dah.</p>		<p>The WG discussed this with the CB members in attendance at the 9/16/2020 meeting. The agreement is that if the documents are not stand-alone the practitioners in the field may not take the effort to do the necessary cross-referencing. The document is intended to be used as an all-encompassing, stand-alone document for the practitioners.</p>
11			Title was changed by the WG in response to comments received regarding the title in Std 024, 027 and 026.		Accept
	3.1		Definition for Active alert was updated to be in line with Std 024 and Std 027.		Accept
	3.2		Definition for "double-blind assessment/double-blind testing" was updated to be in line with Std 027		Accept
	3.4		Definition for Active alert was updated to be in line with Std 024 and Std 027. "interpret" was replaced with "recognize".		Accept
	3.6		Definition for Associated scent trail was updated to be in line with Std 27		Accept
	3.14		Definition for Change of Behavior was updated to be in line with Std 024 and Std 027. "interpret" was replaced with "recognize".		Accept
1	3.24	T	revise to maintain consistency with STD 024 & 027	"A particular person's scented article collected for use for investigative purposes."	Accepted by the WG even though it was not redlined. This edit ensured that Std 024, 026 and 027 use the same definition.
	3.28		The definition for "negative control" was updated by removing the word "odor"		Accept
	3.35		Definition for "pre-scenting" was updated to be in line with Std 027 and Std 024		Accept
2	3.40.	T	revise to maintain consistency with STD 024 & 027	Delete second sentence in definition	Accepted by the WG even though it was not redlined. This edit ensured that Std 024, 026 and 027 use the same definition.
3	3.45	E	revise to maintain consistency with STD 024 & 027	"A training exercise in which two subjects walk the same pathway and then split..."	Accept
	3.47		Definition for "target trail" was updated to be in line with Std 024		Accept
	3.49		Definition for "trailing" was updated to be in line with Std 024		Accept
13	4.1.2		4.1.2-a, 5.6.1.1.3, 5.6.1.1.5 and 5.6.1.2.5 replaced "interpret" with "recognize".		Accept: These section were updated. This was not a comment received through the public commenting period or the CB ballot. CB to approve it as an added comment based on the work on Std 027. (not redlined)
12	4.1.2		4.1.2 - i: the reference to TR 084 needs to be removed because that document is on an indeterminate hold. This was in response to a round 1 comment.		Accept: When the CB addressed the round 1 comments, TR 084 was still in process for publication, however, several late comments shared with ASB informed the CB to put TR 084 on hold for the time being. The CB suggests that because relevant case law is constantly changing and it is different for each jurisdiction, legal references should not be included in this document and such case law can be selected based on the document user's location.
	4.1.2 - i		This sub bullet was updated in line with Std 024 and now reads "effect of human scent dispersion"		Accept

#	Section	Type of Comment (E-Editorial, T-Technical)	Comments	Proposed Resolution	Final Resolution
8	4.2		A section 4.3 needs to be added to cover canine team training.		Accepted by the WG even though it was not redlined. This edit ensured that Std 024, 026 and 027 use the same language. Due to this change several redundant sections were deleted from sections 4.1 and 4.2.
6	5.6.1.1	T	There is no time limit suggested to complete the scent rec. in	Add following statement between 5.6.1.1.6.3 and 5.6.1.1.6.4: "The assessment shall be completed within 60 minutes, with a single trail taking no longer than 15 minutes to be completed."	Accept with modification. See resolution for comment #7 below.
7	5.6.1		5.6.1.1.6, 5.6.1.1.6.1, 5.6.1.1.6.2, 5.6.1.1.6.3, 5.6.1.1.6.6, 5.6.1.1.6.10, 5.6.1.1.6.11, and 5.6.1.1.6.15.	The WG provided clarification of scent recognition trails versus overall assessment, even though these sections were not redlined.	Accept with modification. See resolution for comment #7 below. This was not a comment received through the public commenting period or the CB ballot. CB to approve it as an added comment based on the work on Std 027. (not redlined)
	5.6.1.1.6.2		"Split trail" was updated to read "single split trail".		Accept
	5.6.1.2.1		This section was updated by removing "as required by the organization.		Accept
9	6.1	T	Update section 6.1 to maintain consistency with Std 024 and Std 027 (section 6.3)	Certification for the named canine team (one canine handler and one canine) shall be valid for up to one year (365 days or 366 days in a leap year). Canine handlers with more than one canine shall be required to independently certify with each canine.	Accept: Section 6.1 was updated. This was not a comment received through the public commenting period or the CB ballot. CB to approve it as an added comment based on the work on Std 027. (not redlined)
	6.2		This section was updated by adding the word "documented".		Accept
16	6.7		Added a last sentence in Section 6.7.		Accept: This was not a comment received through the public commenting period or the CB ballot. CB to approve it as an added comment based on the work on Std 027. (not redlined)
	6.11.1		section 6.11.1 was merged with 6.11		Accept
14	7.1 b and 9.9		Added sections 7.1-b, and 9.9		Accept: This was not a comment received through the public commenting period or the CB ballot. CB to approve it as an added comment based on the work on Std 027. (not redlined)
	8.1		The word "prevent" was replaced with "minimizes".		Accept
5	8.4	E	better said to align with STD 027	"Scent article materials shall be appropriately disposed of and replenished as required and necessary to prevent odor/scent contamination and/or account for the perishable nature of the material."	Accept with modification. Word "prevent" modified to "minimize" and "materials was deleted. Other modifications accepted.
17			The use of E.g with etc, is not gramatically correct therefore the WG edited sections 9.5-d,f; 96-d,f,k (replaced i.e with e.g); 9.7-d,f,j (replaced i.e with e.g); 9.8-g, j m.		Accept: This was not a comment received through the public commenting period or the CB ballot. CB to approve it as an added comment based on the work on Std 027. (not redlined)
	9.5 f) g) and h)		updated the word target to be optional plural		Accept
	9.7		Should changed to shall		Accept
	9.8 l and j		"suspect" was deleted		Accept
15	9.10		Replaces "capability" with "experience" in section 9.10. (previously section 9.9)		Accept: This was not a comment received through the public commenting period or the CB ballot. CB to approve it as an added comment based on the work on Std 027. (not redlined)
	9.10		this section was updated to be in line with Std 024		Accept
	9.11		this section was updated to be in line with Std 024		Accept
18	Annex B	T	Add reference	Centre for the Protection of National Infrastructure. Why and How to Control Contamination. Detection Dog Guidance Notes (2018). Available online at: <a href="https://www.cpni.gov.uk/canine-detection-guidance-notes">https://www.cpni.gov.uk/canine-detection-guidance-notes</a>	Accept - This was a comment received on Std 024, as the documents are aligned, the reference has been added here as well.
19	Annex B	T	Add reference	Lazarowski L, Krichbaum S, DeGreeff LE, Simon A, Singletary M, Angle C and Waggoner LP (2020) Methodological Considerations in Canine Olfactory Detection Research. Front. Vet. Sci. 7:408. doi: 10.3389/fvets.2020.00408	Accept - This was a comment received on Std 024, as the documents are aligned, the reference has been added here as well.
