ASB Standard 085, Standard for Detection Canine Selection, Kenneling, and Healthcare

#	Section	Type of Comment	Comments	Proposed Resolution	Final Resolution
1	4.2.1.8		Is there a reason for the examples used in 4.2.1.8 when it comes to distractors? The statement includes noise, visual and odor/scent distractors however examples are only for odor/scent - should noise and visual also be on the list with one example as well? why focus on the ones listed?		REJECT: this comment is not directed at this document and is irrelevant
2	7.1.3	T	A "computer" microchip belongs in a computer. Remove "computer" and use simply "microchip" or use "subdermal microchip".		ACCEPT: remove the word 'computer'
