ANSI/ASB BPR 089
Best Practice Recommendation for Facial Approximation in Forensic Anthropology

Note: a specific Proposed Resolution must accompany each comment or it cannot be considered.

#	Section	Type of Comment (E-Editor	Comments	Proposed Resolution	Final Resolution
2	Foreword	E	The last sentence in the 1st paragraph is a run-on sentence.	consider replacing "and" with a comma between the words "individual" and "are", or start a new sentence after the word "purposes"	Accept
1	4.2	E	the comment resolution document indicated the words "computer-based" would be changed in Foreword and section 4.2 Procedure, and "computer based" still appears in section 4.2	change wording in 2nd paragraph of section 4.2 to match that used in Foreword, specifically, "digital" instead of "computer-based"	Accept with Modification. The word "digital" was included in the second paragraph in the second example.
3	4.3	E, T	It is unclear in this paragraph what is meant by "statements regarding accuracy/success of facial approximation methods should be carefully presented". Are you referring to "accuracy/success" statements made after an unidentified person is scientifically identified (at which time an assessment of the "likeness" of the image may be done), or "accuracy/success" statements made in published articles/books about specific facial approximation methods, or something else?	Please clarify what is intended here, perhaps by adding examples of when and where "accuracy/success" statements have been used (erroneously or correctly)	Accept
