

Deadline for public comments submission: October 3, 2022

ASB Std 153, Standard Practices for Proficiency Testing for Forensic Toxicology Laboratories and Breath Alcohol Programs

#	Section	Type of Comment (E-Editorial, T-Technical)	Comments	Final Resolution
1	3	E	<p>I approve of the standard as written. I recommend an edit to the comment adjudication for row 6, 4.10. Reject: Scientific standards from SDOs are derived independent of state law. The seven year retention period is deemed appropriate [for proficiency and intra-/interlaboratory comparison results] as [proficiency records are necessary to document historical performance for auditing purposes].</p> <p>I don't think case adjudication is the main factor for retaining PT documentation.</p>	<p>Reject: The CB voted to approve the comment adjudication template (Ballot 3) on July 13, 2022. The vote passed.</p>
