

The American Academy of Forensic Sciences

2022 Forensic Science Education Conferences

For Middle and High School STEM Teachers

The American Academy of Forensic Sciences is pleased to present the 2022 Forensic Science Education Conferences for Middle and High School STEM Teachers. FSEC - Helping bring forensic science to the classroom.

In December 2000, the Third International Mathematics and Science Study (TIMSS) was released comparing U.S. students with those of 41 other nations. At the end of 12th grade, our students ranked among the very lowest in math and science of the 42 countries. Keenly aware of the deficiencies, middle and high school STEM teachers are seeking appropriate methods to improve STEM competence in students.

With today's explosion of television programs and media coverage of the latest advancements in the forensic sciences, students have become fascinated with anything relating to the work of the forensic scientist. Wishing to foster a stronger interest in STEM learning among our nation's young people, the **American Academy of Forensic Sciences** now co-sponsors Forensic Science Education Conferences.

The Goal of the conferences is to increase STEM teachers' knowledge of the forensic sciences and to assist them as they enrich and/or develop challenging, innovative curricula.

A limited number of scholarships are available to local area middle and high school teachers. To apply for a scholarship, complete the Scholarship Application Form and return with your registration.

For additional information on the 2022 Forensic Science Educational Conferences, go to www.aafs.org.

Professor David Fisher, MSFS, F-ABC
Forensic Science Program Director
New Jersey Institute of Technology
dfisher@njit.edu

Barbara Elder Weller, Ed.D.
Director of Forensic Science Initiative
NJIT Center for Pre-College Programs
weller@njit.edu

New Jersey Institute of Technology
Department of Chemistry and Environmental Science
and the Center for Pre-College Programs
Newark, NJ

June 27-29, 2022

A full schedule of exciting hands-on learning will be provided at the June 27-29, 2022, FSEC to be held at the New Jersey Institute of Technology campus in Newark, NJ. An array of forensic investigative science topics will be presented. Included will be an overview of basic crime scene procedures, laboratory exercises and instruction on fingerprint recovery, blood spatter analysis, trace evidence, crime scene reconstruction, forensic anthropology, forensic toxicology, environmental forensics, and more, along with current trends in DNA analysis methods. A field exercise will also be included involving the collection and preservation of forensic entomological (insect) evidence and associated taphonomy at the death scene. In addition, attendees will be instructed on preparing and conducting forensic related laboratory experiments from "Forensic Science Laboratory Manual and Workbook" published in 2009 by CRC Press and written by Thomas Kubic and Nicholas Petraco. Attendees will take with them a wealth of information and hands-on training experience for use in their own classrooms and laboratories. Workshop breakouts will include:

- 📅 Crime Scene Investigation Procedures
- 📅 The Forensic Laboratory
- 📅 Forensic Anthropology
- 📅 Environmental Forensics
- 📅 Blood Spatter/Serology and more!
- 📅 Forensic Entomology & Outdoor Scene Photography

Registration Fee: \$350

Limited Space Available

Register now! Print and complete the following registration form and mail, email, or fax to:

SCHOLARSHIP APPLICATION FORM

A limited number of scholarships are available to middle and high school teachers of the host state. Scholarships are available with no more than one complimentary registration per school.

To apply for a scholarship, complete this form and return with your registration.

Name of Applicant: _____

Have you received a FSEC Scholarship in the Past? Yes ____ No ____ First Conference ____

In your essay, please address how you will apply or how you have applied conference knowledge to your teaching. How will you utilize or how you have utilized the forensic sciences in teaching basic scientific principles?

Administrative Approval: _____

(Principal or Department Head)

The American Academy of Forensic Sciences
