STUDENT ACADEMY OF FORENSIC SCIENCES

The purpose of the Student Academy of Forensic Sciences is to bring to the attention of young people the vital importance of the application of scientific principles to the administration of justice. It acquaints the participants with the role of the forensic science disciplines in the legal system as well as the education and training required for a career in each of the disciplines.

The forensic sciences involve the application of scientific skills of examination and evaluation to the resolution of social and legal issues. Law is the common core of the forensic sciences. To be effective, the forensic scientist must not only be an expert in the skills of his discipline, but must also be able to communicate his insights and findings in a court of law and before administrative tribunals.

The American Academy of Forensic Sciences, founded in St. Louis, MO, in 1948, is the only organization in the world that combines all of the various scientific disciplines involved with the administration of justice.

ANTHROPOLOGY — The application of standard techniques of physical anthropology in identifying skeletal or otherwise unidentifiable remains.

CRIMINALISTICS — The analysis, identification, and interpretation of physical evidence. The primary aim of the criminalist is to provide an objective application of the natural and physical sciences to physical evidence in the reconstruction of events to prove a crime, and to connect or eliminate a suspect and/or a victim with that crime.

DIGITAL & MULTIMEDIA SCIENCES — The examination and comparison of digitized numerals, images, analog and digital audio and video.

ENGINEERING SCIENCES — Forensic Engineering involves the sciences and the art of applying scientific principles to the investigation, analysis, and reconstruction of physical events.

FORENSIC NURSING SCIENCE — Active in an extensive range of subspecialties, including pediatric and adult sexual assault, psychiatric mental health, nursing jurisprudence, death investigation, intimate partner violence, child and elder abuse, human trafficking,

GENERAL — A variety of emerging disciplines and investigation sub-specialties are included in this discipline.

JURISPRUDENCE — The study and utilization of forensic science as it applies in a courtroom setting.

ODONTOLOGY — The branch of dentistry which deals with the proper handling and examination of dental evidence, and the proper evaluation and presentation of dental findings in the interest of justice.

PATHOLOGY/BIOLOGY — The investigation and interpretation of injury and death resulting from violence as in homicides, suicides or accidents, or occurring suddenly, unexpectedly, or in an unexplained manner.

PSYCHIATRY & BEHAVIORAL SCIENCE — The practice of psychiatry which deals with the application of psychiatric theory and practice to a variety of legal issues.

QUESTIONED DOCUMENTS — The scientific examination of handwriting, typewriting, printing, ink, paper, or any other aspect of a document for the purpose of determining various legal questions concerning the document.

TOXICOLOGY — The study and understanding of the harmful effects of external substances introduced into living systems with a medicolegal context.

FACULTY

Student Academy Chair

Lynn A. Schneeweis, MS
Massachusetts State Police Crime Laboratory
Maynard, MA

Student Academy Co-Chair

Ginesse A. Listi, PhD
Louisiana State University
Baton Rouge, LA

Anthropology

Lauren R. Pharr Parks, PhD
Memphis, TN

Criminalistics

Kelly L. Knight, MS
George Mason University
Fairfax, VA

Digital & Multimedia Sciences

Douglas Lacey, MS
BEK TEK LLC
Stafford, VA 22556

Engineering Sciences

Roy Crawford, BSME
RR Crawford Engineering, Inc.
Whitesburg, KY

Forensic Nursing Science

TBD

General

Natalie M. Borgan, MS
Flat Rock, MI

Jurisprudence

M.J. McNede, JD, JD
Center For Science Res & Ed
Willow Grove, PA

Odontology

Lillian A. Nawrocki, DDS, DABFO
Orlando, FL

Pathology/Biology

J.C. Upshaw Downs, MD
ForensX, LLC
Savannah, GA

Psychiatry & Behavioral Science *Emily*

D. Gottfried, PhD
Medical University of South Carolina
Charleston, NC

Questioned Documents

Cami Fuglsby, BS
South Dakota State University
Brookings, SD

Toxicology:

Ashraf Mozayani, PharmD., Ph.D. F-ABFT
Texas Southern University
Houston, TX
Ashraf.Mozayani@tsu.edu

George F. Jackson, Ph. D., F-ABFT
NJ Office of the Chief State Medical Examiner
Township, NJ
George.jackson@doh.nj.gov
