A RESPONSIVE ACADEMY
MEETING AND SURPASSING THE CHALLENGES OF A MODERN FORENSIC SCIENCE WORLD

AAFS 2022

FEBRUARY 21-25
SEATTLE, WASHINGTON
Tox Explorer Collection

Screening, identification and quantitation of an ever-expanding list of drugs can be challenging for toxicology laboratories. LC-MS workstreams enable rapid, accurate, easy to use methods to ensure success in toxicology analysis.

Thermo Scientific™ Tox Explorer™ Collection offers:

• Robust, reliable liquid chromatography and mass spectrometry (LC-MS) instruments
• An extensive library of drug compounds and their metabolites
• Proven methods that can enable every toxicology laboratory—for every analyte, matrix type, choice of MS, and user expertise level

We offer accuracy and reliability, backed by comprehensive training and support—it’s time to feel confident with the concise and comprehensive Tox Explorer Collection.

Find out more at thermofisher.com/toxexplorer
WELCOME MESSAGE

It is a privilege to welcome you to the 74th AAFS Annual Scientific Conference in Seattle, Washington. There has been much preparation on the part of the staff and the Board of Directors to get us to this point, following our all-virtual conference last year! We’re offering a hybrid format to allow much of our content to be provided virtually, adding flexibility to those who could not attend in person. This format will be available to all attendees for 60 days past our conference week.

Our variable format provides yet another means to meeting the goals set forth in my theme this year — A Responsive Academy — Meeting and Surpassing the Challenges of a Modern Forensic World. This theme conveys the approach for a new era for the Academy, one in which our organization listens and responds to you, our members, in providing resources, content, value, and opportunities in the most expedient way. This is made possible through streamlining our administrative processes, modernizing our technology, paving an easier path to leadership, and generally rethinking your needs.

Not to miss this week – Please be sure to attend our Diversity Outreach Committee’s (DOC) Session on Tuesday evening and the Plenary Session on Wednesday. The DOC Session following our Welcome Reception, entitled Embracing Diversity for a Modern Forensic Science World, will feature speaker Kelly Knight, Associate Professor at George Mason University, in addition to highlighting our diversity survey results. The Plenary Session will feature DNA Analyst Todd Bille of the Alcohol, Tobacco, Firearms, and Explosives Forensic Science Laboratory, Andy Parsons of Adobe, and a chance for you to be introduced to our new Executive Director, Donna Grogan. Our exhibitors will be available Wednesday through Friday, so don’t forget to visit the exhibitor hall to see the latest in technology and literature!

I thank everyone who made this conference, in both formats, possible this week. This extends to our Program, DOC, and Plenary Committees, our extremely dedicated and hardworking staff, and those of you who are presenting this week. The extra effort to provide a recording for the benefit of those members and guests who will watch online are so very much appreciated by the Board of Directors, me, and all who will be viewing.

Finally, we are still living in precarious times with the COVID-19 pandemic, and I implore you to follow the local regulations through masking and being distance conscious while attending our conference this week. This will help ensure safety for all.

**GENERAL INFORMATION**

**Media Statement:** The American Academy of Forensic Sciences (AAFS) does not comment on forensic cases or Medicolegal investigations. Media releases will be issued by the AAFS Board of Directors only in response to matters deemed pertinent to the business of the Academy. The sitting AAFS President is the only member of the Academy authorized to provide comment on behalf of the Academy. Comments, views, and opinions expressed by all other members of the Academy reflect the comments, views, and opinions of the individual solely.

**Registrant Minimum Age:** Registrants and presenters at the AAFS Annual Conference must be at least 18 years old at the time of the conference.

**Lost Badge Policy:** Lost, misplaced, stolen, or forgotten badges will incur a replacement fee equal to the original purchase amount of your registration. If your badge was complimentary, the fee will be the current, on-site rate.

**Author Information:** The *Journal of Forensic Sciences* encourages authors to submit previously unpublished reports and papers presented at the AAFS annual conference. For full instructions on manuscript preparation, consult the Information for Authors available at: https://www.aafs.org/resources/journal-of-forensic-sciences/information-for-authors/.

Manuscripts must be submitted electronically via the *Journal of Forensic Sciences* Manuscript Central site: http://mc.manuscriptcentral.com/jofs. For questions, please contact: jfs.editor@att.net.

**Reminders:**
- Video and/or audio recording of any session(s) or parts thereof is not permitted without prior approval from the American Academy of Forensic Sciences.
- English is the official language of the AAFS and its meetings; neither oral nor written translations will be provided.
- Although precautions are taken to prevent schedule changes, speakers and program schedules may change due to unforeseen circumstances.
- As a courtesy to others, please silence your cell phone when attending the sessions.

AAFS takes the safety of its meeting attendees seriously, and strives to promote a welcoming experience for all. In order to promote a safe environment for meeting attendees, we have resources for meeting attendees about sexual misconduct.

What is sexual misconduct?
Sexual misconduct is an umbrella term that includes different types of sexual violence including sexual harassment and sexual assault. (https://www.rainn.org/types-sexual-violence)

What is sexual harassment?
Sexual harassment includes unwelcome sexual advances, requests for sexual favors, and other verbal or physical harassment of a sexual nature in the workplace or learning environment, according to the Equal Employment Opportunity Commission. (https://www.rainn.org/articles/sexual-harassment?gclid=CjwKCAjw2P-KBhByEiwADBYWczq0g1E4mRJrXfSTN-EQ-JYXo2Q7US0-Yrtu1c9kUamTmrEtqmOaxBqiQQAvD_BwE)

What is sexual assault?
The term sexual assault refers to sexual contact or behavior that occurs without explicit consent of the victim. (https://www.rainn.org/articles/sexual-assault)

What do I do if I experience sexual misconduct during the annual meeting?
• Call 911.
• Call the AAFS ‘safe person’ Number: or contact another member of the AAFS staff
• Locate security personnel at the conference venue.
• Report conduct to AAFS Ethics Committee.
• Refer to local/national resources list.

What do I do if I have witnessed sexual misconduct during the annual meeting?
• Talk to the victim/survivor. Encourage them to review this resource page.
• Direct them to the AAFS ‘safe person’ or another member of the AAFS staff
• Direct them to security personnel at the conference venue.
• If the person is in immediate danger, call 911.

No member or Affiliate of the Academy shall participate in unacceptable behavior at an annual Academy conference, to include times not specifically in session or at gatherings, social or otherwise, not specifically a part of the Academy program. Unacceptable behavior includes, but may not be limited to, harassment; intimidation; discrimination; physical abuse; physical assault, verbal abuse; inappropriate use of nudity or sexual images; threats; stalking; unwanted sexual comments or advances; orderogatory comments related to gender, gender identity and expression, sexual orientation, disability, physical appearance, body size, race, religion, national origin, or political positions.
AWARDS

The Distinguished Fellow Award and the Outstanding Early Career Achievement in Forensic Science Award will be presented on Wednesday, February 23, during the AAFS Awards Ceremony immediately following the Annual Business Meeting. Please join us in acknowledging your most distinguished colleagues as they are presented with these prestigious awards.

Distinguished Fellow

Bruce A. Goldberger, PhD

Outstanding Early Career Achievement in Forensic Science Award

Kathryn C. Seigfried-Spellar, PhD

The following awards will also be presented on Wednesday, February 23, during the AAFS Awards Ceremony. You will want to be present to congratulate the recipients

Humanitarian and Human Rights Resource Center’s Clyde Snow Award

Cristina Cattaneo, MD, PhD

Ambassador of Forensic Science Award

National Institute of Standards and Technology (NIST)
Special Programs Office

FSF Emerging Forensic Scientist Award

Perla Santillan, MS
Ya-Chih Cheng, MS
Meghan Appley, MS

FSF Warren-Young Scholarship

Ashley E. Shidner, PhD

FSF Jan S. Bashinski Criminalistics Graduate Thesis Assistance Grant

The FSF Jan S. Bashinski Criminalistics Graduate Thesis Assistance Grant will be presented on Wednesday, February 23, during the Criminalistics Section Business Meeting. Teresa will be acknowledged again during the AAFS Awards Ceremony.

Teresa M. Tiedge, MPS

All times are in the U.S. Pacific Time Zone
The Section Awards will be presented during Section Business Meetings on Wednesday, February 23 (see Section Business Meeting start times on page 9). The recipients will be recognized before the entire membership during the AAFS Awards Ceremony.

### 2022 Section Award Honorees

#### Anthropology Section’s
- **T. Dale Stewart Award**
  - Michael W. Warren, PhD
  - Tal Simmons, PhD
- **Outstanding Mentorship Award**
  - Laura C. Fulginiti, PhD
- **Ellis R. Kerley Research Award**
  - Laney Feese, MA
- **Diversity & Inclusion Award**
  - Ilaisah Martinez, BA

#### Criminalistics Section’s
- **Paul L. Kirk Award**
  - Robin W. Cotton, PhD
- **Mary E. Cowan Outstanding Service Award**
  - Chris E. Taylor, BS
- **Meritorious Service Award**
  - Desiree A. Reid, BS

#### Digital & Multimedia Sciences Section’s
- **Outstanding Research Award**
  - Brandon Epstein, BS

#### Engineering & Applied Sciences Section’s
- **Founders Award**
  - David Pienkowski, PhD
- **Andrew H. Payne, Jr. Special Achievement Award**
  - John Nixon, MBA

#### General Section’s
- **Paul W. Kehres Meritorious Service Award**
  - Katherine M. Brown, PhD

#### Odontology Section’s
- **Reidar F. Sognnaes Award**
  - Robert E. Wood, DDS, PhD

#### Pathology/Biology Section’s
- **Milton Helpern Award**
  - Tracey S. Corey, MD
- **Award for Achievement in the Forensic Life Sciences**
  - David O. Carter, PhD
- **Best Resident Paper Award**
  - Zuzanna Gorski, MD
- **Best Resident Paper Award – Honorable Mention**
  - Fabiola A. Righi, DO

#### Psychiatry & Behavioral Science Section’s
- **Rosner Best Paper Award**
  - Nathalie Boulos, MD
- **Rosner Best Paper Award – Honorable Mention**
  - Corina Freitas, MD

#### Questioned Documents Section’s
- **Maureen Casey-Owens Award**
  - Mark Goff, BA

#### Toxicology Section’s
- **Alexander O. Gettler Award**
  - Karl G. Verebey, PhD
- **Irving Sunshine Award**
  - Alex J. Krotulski, PhD
- **Ray Abernethy Award**
  - Dani C. Mata, MS
- **Rolla N. Harger Award**
  - Jeri D. Ropero-Miller, PhD

All times are in the U.S. Pacific Time Zone
DISTINGUISHED FELLOW

Dr. Bruce Goldberger is a Professor and Chief of the Forensic Medicine Division, Department of Pathology, Immunology and Laboratory Medicine in the College of Medicine at the University of Florida in Gainesville. He is the Technical and Administrative Director of the Forensic Toxicology Laboratory. Dr. Goldberger is the Director of UF Health Forensic Medicine, the Program Director of the Florida Emergency Mortuary Operations Response System and a Co-Investigator of the National Drug Early Warning System. Dr. Goldberger is also Director of the University of Florida Forensic Epidemiology Team.

Dr. Goldberger trained under the direction of Dr. Yale Caplan at the University of Maryland School of Medicine. Dr. Goldberger developed many new and innovative methods to solve a myriad of complex analytical problems. He also trained with Edward Cone, PhD, then at the Addiction Research Center in Baltimore, MD, performing seminal research in the detection and disposition of heroin and its metabolites in biological specimens. Dr. Goldberger’s work led to the discovery of heroin and 6-acetylmorphine in the hair of heroin users, an accomplishment that directed future work in the analysis of drugs and drug metabolites in hair.

Dr. Goldberger is a consultant for the nation’s leading public health institution, the Centers for Disease Control and Prevention, and is a member of the White House Office of National Drug Control Policy Emerging Threats Committee. Dr. Goldberger is the Editor-in-Chief of the Journal of Analytical Toxicology, the official journal of the Society of Forensic Toxicologists and The International Association of Forensic Toxicologists. The Journal is the premier international toxicology journal devoted to the timely dissemination of scientific communications concerning the analysis of impairing and toxic substances in biological matrices.

Dr. Goldberger’s career has been unique, merging the academic environment, including research and teaching, with a service component spanning clinical, forensic, and medical toxicology. He is a recognized leader in the field, serving key forensic organizations such as the American Academy of Forensic Sciences, the Society of Forensic Toxicologists, and the Forensic Specialties Accreditation Board with great distinction. He is the current President of the American Board of Forensic Toxicology.

Dr. Goldberger has been prolific in research and publication in the areas of clinical, medical, and forensic toxicology, as well as in the medicolegal investigation of death, including the certification of the cause and manner of death. He has co-edited/co-authored 5 books, 45 book chapters, and 119 peer-reviewed papers.

Dr. Goldberger has received numerous honors and awards, including the American Academy of Forensic Sciences Toxicology Section’s Sunshine Award and Alexander O. Gettler Award in recognition of outstanding contributions to the field and profession of forensic toxicology; the Florida Association of Medical Examiners’ Outstanding Achievement Award; the National Safety Council’s Robert F. Borkenstein Award for outstanding contributions to alcohol- and drug-related traffic safety; and Northeastern University’s Richard Saferstein Memorial Award in Forensic Science.

Dr. Goldberger has been a member of the American Academy of Forensic Sciences Toxicology Section since 1983. He served the Academy holding many leadership positions. He served as Toxicology Section Program Chair, Secretary, and Chairman. He represented the Section on the Academy’s Board of Directors and served as Academy Workshop Chair, Program Chair, Treasurer, Vice President, President-Elect, President, and Past-President. Dr. Goldberger was the Academy’s Media and Public Relations liaison for 13 years; in this position, he was the Academy’s point of contact for all media queries and was responsible for the vetting of all press releases and the planning of the annual Academy public outreach event. Finally, and very notably, as an incoming President, he worked with and advised those who proposed, shaped, and led the new Digital & Multimedia Sciences Section.

Dr. Goldberger is a scientist, a toxicologist, a leader, a teacher, a researcher, an epidemiologist, an academician, and a practitioner. Although his scientific knowledge is exhaustive, Dr. Goldberger’s imagination toward the development and promotion of the forensic sciences has always been his most promising attribute.
BUSINESS MEETINGS

Section Business Meetings will only be available to those participating in person. Quorums will be based on in-person registrants - 25% of registered voting members.

Do not miss the opportunity to win a complimentary meeting registration for the 2023 AAFS Annual Scientific Meeting in Orlando, FL! Each section will award one registration to a voting member who attends their Section Business Meeting.

All times are Pacific Time.

Wednesday, February 23

Attend the AAFS Annual Business Meeting for a Chance to Win a Complimentary Meeting Registration!

The Annual Business Meeting of the Fellows and Members of the AAFS will be held on Wednesday, February 23, at 4:15 p.m. It is essential that all Fellows and Members attend this very important meeting in order to reach a quorum for the voting process. Agenda items include the election of 2022-23 Officers, consideration of bylaw amendments, a summary of AAFS activities during the past year, and plans for the future.

As an incentive to attend, all Fellows and Members present will automatically be entered in a drawing for a complimentary meeting registration to attend the 2023 AAFS Annual Scientific Meeting in Orlando, FL.
The American Academy of Forensic Sciences would like to thank the following for their contribution to the 74th AAFS Annual Scientific Conference:

**PLATINUM SPONSOR**

VEROGEN

**SILVER SPONSORS**

Visit Orlando, Cellebrite

**BRONZE SPONSORS**

Abacus Diagnostics, Agilent, CSAFE, foster + freeman, KDX Forensic Consulting, NMS Labs, RTI International, Thermo Fisher Scientific

**GENERAL SPONSORS**

cfsre, Penn, KUBTEC, UCT, Waters
CONTINUING EDUCATION

General Information

All meeting sessions are lectures with one or more speakers. Continuing professional education credits will be offered for physicians, dentists, and attorneys. Continuing education credit applications will be submitted for physicians, nurses, and dentists. Attorneys may request CLE credit; please see the “Legal” section.

To register for continuing education credit, please complete the appropriate section on the meeting Registration Form. An individual must be a registrant to obtain continuing education credit. Fees charged for continuing education credits are based on projected costs of providing the various types of continuing education credit. The AAFS has adopted a user-pay approach so that those individuals who benefit from the specific continuing education program are responsible for the costs incurred.

In order to be in compliance with accrediting organizations, introductions and breaks have been deducted from the total hours. Please note that continuing education credit is not available for all sessions. All continuing education credit recipients will receive certificates with the number of continuing education hours awarded. Attendance reports are filed with the appropriate state or national agency, as required.

Learning Objectives of the AAFS Continuing Education Program

- Recognize the perspectives and roles of the various forensic science disciplines
- Assess current concepts and practices
- Discuss relevant forensic science issues related to science, evidence and the law
- Identify strategies for researching descriptive studies, technology and methods, diagnostics, interpretation and testimony
- Review administrative functions performed by forensic scientists

American Board of Criminalists Approval

The American Academy of Forensic Sciences (AAFS) is approved by the American Board of Criminalistics (ABC) to offer continuing education points for approved workshops for criminalists and forensic scientists. The ABC maintains responsibility for the program, and credit may be awarded to ABC Fellows, Diplomates, and Affiliates.

Overall Purpose and Objective Statements for Major Aspects of AAFS Programs

Workshops and Special Sessions

Purpose: To provide an opportunity for experts to present material and to lead discussion and practical exercises related to forensic science methods, procedures, diagnosis, investigation, professional relations and practices, communication, administration, and professional development.

Learning Overview: Detailed individually in each workshop and special session announcement and description.

Plenary and Keynote Sessions

Purpose: To provide a multidisciplinary presentation and discussion of issues related to the forensic science profession.

Learning Overview: Attendees will be able to: a) identify the challenges the forensic science profession has faced and will continue to face in terms of ensuring quality; b) identify ways to deal with the variances each challenge presents; and c) identify the entities which have influence over setting the quality standards in the field of forensic science.

Oral and Poster Section Scientific Sessions

Purpose: To provide an opportunity for presentation and discussion of case reports, descriptive studies, review presentations, research, administrative issues, and investigative/diagnostic methods regarding topics and issues of importance to a primary discipline among the forensic sciences.

Learning Overview: To meet the educational objectives stated by each presenter for his/her presentation.

Last Word Society

Purpose: To provide a retrospective forensic analysis of historical events and to provide education about the history and evolution of forensic sciences as well as the modern methods and technologies used to re-examine past events of forensic science interest. Emphasis is placed on the evaluation of the original opinions and case outcome and on the development of newer hypotheses based on the re-analysis.

Learning Overview: To meet the educational objectives stated by each presenter for his/her presentation.

All times are in the U.S. Pacific Time Zone
CONTINUING EDUCATION

Guidelines For Claiming Credit

As the sponsor of Continuing Education Credit, the AAFS recognizes that the forensic science disciplines are inextricably linked and that interdisciplinary knowledge is critical to promote competence in forensic practice. As a result, the claiming of credit for various continuing education activities related to medicine, dentistry, law, and other forensic disciplines need not be limited to one’s primary professional specialty. For example, a forensic pathologist from the Pathology/Biology Section may gain very useful and relevant information by attending a presentation in the Anthropology Section scientific session. It is appropriate to claim continuing medical education credit for that session. Many other examples exist where the claiming of continuing education credit is appropriate for attending sessions that cover material related to, but which lay outside of, one’s primary professional area of expertise.

It is the conference attendee’s responsibility to document which program sessions were attended and to determine those sessions for which continuing education credit may be claimed. The AAFS operates under the assumption that meeting attendees will, in general, be unlikely to attend sessions that will not be beneficial to their professional practice and that the claim for continuing education credit is justified if a session contains scientific or practice-related information that may bring new knowledge, may affirm current knowledge, or may provide information that could possibly modify one’s professional practices.

Those who wish to receive continuing education credit must register and pay the Continuing Education Credit fee on the meeting Registration Form. CE Credit Request Forms will be available on the AAFS website. The completed forms must be returned to AAFS by the designated deadline.

Joint Accreditation Statement

In support of improving patient care, this activity has been planned and implemented by the Postgraduate Institute for Medicine and the American Academy of Forensic Science. Postgraduate Institute for Medicine is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Physician Continuing Medical Education Credit

The Postgraduate Institute for Medicine designates this live activity for a maximum of 41.25 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Dental Continuing Education Credit

This continuing education activity has been planned and implemented in accordance with the standards of the ADA Continuing Education Recognition Program (ADA CERP) through joint efforts between Postgraduate Institute for Medicine and the American Academy of Forensic Sciences.

Postgraduate Institute for Medicine is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of the credit hours by boards of dentistry. Postgraduate Institute for Medicine designates this activity for 41.25 continuing education credits. Concerns or complaints about a CE Provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at www.ada.org/cerp.

Legal Continuing Education Credit

Continuing legal education credit will be awarded on an hour-for-hour basis. Attorneys may file the AAFS-issued CLE certificate with their respective state bars.

Non Physician Continuing Education Credit

A general non physician certificate of attendance will be available.

General Continuing Education Credit

General continuing education credit is offered for those practicing the various forensic science disciplines not represented in the aforementioned list.
Embracing Diversity for a Modern Forensic Science World

Kelly Knight, MS
Associate Professor
George Mason University

The goal of the Diversity Outreach Committee (DOC) Session is to enlighten and initiate dialogue regarding diversity, equity, and inclusion initiatives within the AAFS and the greater forensic science community. Participants will hear from an invited speaker on their perspectives and experiences on issues related to diversity and inclusion. The DOC hopes that this interactive session will promote dialogue on navigating diversity, equity, and inclusion within forensic science throughout an everchanging social climate.

Kelly Knight is a 2020 University Teaching Excellence Award winner and AAFS Fellow, an associate professor of Forensic Science and a STEM Accelerator. As a STEM Accelerator, she mentors STEM students and leads K-12 STEM outreach programs such as the Females of Color and those Underrepresented in STEM (FOCUS) program which makes STEM exciting and accessible for BIPOC (Black, Indigenous, and People of Color) girls. After obtaining degrees in chemistry and forensic science, Prof. Knight worked in forensic DNA laboratories for almost a decade before beginning her career in higher education. As a former DNA analyst, she has years of experience in both forensic casework and research, specifically in the areas of forensic serology and low copy number (LCN) DNA methods.

Professor Knight is also currently working on her PhD with specializations in science education research, critical theory, and multicultural education. Her current work examines how out-of-school STEM programs impact middle and high school BIPOC girls, particularly in the area of STEM identity. Her future work will include an in-depth analysis of the experiences of marginalized students persisting in the STEM pipeline. Through her advisory roles and work with various justice, equity, diversity, and inclusion initiatives at her University, such as the President’s Anti-Racism and Inclusive Excellence taskforce, Kelly’s work in higher education centers the development and implementation of equitable practices for both STEM students and faculty.

Moderators:

Kate Spradley, PhD
Texas State University
San Marcos, TX

Hunter Fleming, BS
Virginia Commonwealth University
Richmond, VA

Deirdre Amaro, MD
University of Missouri School of Medicine
Columbia, MO
The purpose of the Student Academy of Forensic Sciences is to bring to the attention of high school students the vital importance of
the application of scientific principles to the administration of justice. It acquaints the participants with the role of the forensic science
disciplines in the legal system as well as the education and training required for the career in each discipline.

Chair:

**Learning Overview:** After attending this presentation, attendees will have a greater understanding of current challenges in multiple forensic science disciplines, death investigations, and in the courts.  

**Impact Statement:** This presentation will impact the forensic sciences community by offering various perspectives regarding current issues and possible future solutions.  

**Program Description:** This presentation will present various perspectives as they relate to forensic science, medicine, and the courts including: workload and workforce issues in forensic pathology and their impact on death investigations; the analytical challenges presented by the rapid development of illicit novel psychoactive substances; why standards created by the Academy Standards Board (ASB) are crucial to forensic science; and how pattern recognition discipline validity challenges are being addressed. The symposium will also discuss why courts are both reluctant to recognize challenges to previously accepted forensic science techniques and resistant to admitting evolved techniques.
INTERDISCIPLINARY SYMPOSIUM

Pre-Registration Required—$75 (in person and virtual)

S1 Problems of Today and Solutions for Tomorrow

Program:

1:00 p.m. - 1:15 p.m.  Opening Remarks and Introduction  
Christopher M Milroy, MD, LLB

1:15 p.m. - 1:45 p.m.  Courts and Old Science – A Myth is as Good as a Mile  
Roderick T. Kennedy, JD

1:45 p.m. - 2:15 p.m.  Precedent Does Not Equal Validity: Why Pattern Evidence Disciplines Are Being Challenged After A 100 Years of Use & What Is Being Done About It  
Heidi Eldridge, PhD

2:15 p.m. - 2:45 p.m.  Workforce Issues in Forensic Pathology  
James L. Caruso, MD

2:45 p.m. - 3:00 p.m.  Break

3:00 p.m. - 3:30 p.m.  Analytical and Legal Challenges Presented by Novel Illicit Drugs  
Barry K. Logan PhD

3:30 p.m. - 4:00 p.m.  The AAFS Solution Regarding Forensic Standards–The Academy Standards Board (ASB)  
Lucy A. Davis, BHS

4:00 p.m. - 4:30 p.m.  Panel Discussion and Q&A

All times are in the U.S. Pacific Time Zone
YOUNG FORENSIC SCIENTISTS FORUM

Open to All Meeting Registrants—(in person and live streamed)

S2  Meeting and Overcoming Challenges Faced by Young Forensic Scientists

Tuesday, February 22, 2022  9:00 a.m. – 4:15 p.m.  6.25 CE Hours

Learning Overview: The YFSF will aim to bring to light some of these challenges and more importantly, highlight how the members and attendees of our very own American Academy of Forensic Science met these challenges head on, rose to the occasion and circumvented these challenges in order to get to their current positions.

Impact Statement: The impact of this Special Session will focus mostly on, but not exclusively on, the younger forensic scientists who are still in the process of trying to get to their “dream job”. We say not exclusively because the age of the person will never dictate their entrance into a new career in forensics, therefore anyone and everyone can and will benefit from the information provided in this Special Session.

This session is designed from the ground up and tailored to the Young Forensic Scientists Forum attendees as well as any members of the AAFS who are or were experiencing difficulties in the transition from Student to Professional. So many hurdles are present in this journey, many of which young scientists are completely unprepared for: building and updating resumes, job interviewing skills and techniques, proper and efficient networking, and all the mistakes, difficulties and challenges in between.

**Learning Overview:** The audience can be expected to learn about the impact that media can and does have on forensic casework at multiple levels and how to successfully engage with journalists while maintaining objectivity in casework.

**Impact Statement:** This presentation will impact the forensic science community by showing documented pitfalls & successes in various media and Forensic Science Professionals in handling casework and suggest strategies for future improvement in the flow of information while protecting necessary information.

Forensics Professionals are keenly aware of the impact their services have on cases. Part and parcel of this is intense public interest in and scrutiny of casework. One need only do a brief internet search to find over 1.5 million hits for “case of the century” including references to the accompanying media frenzies associated therewith. In many settings, the players – Forensics Experts and the media – are placed at seeming odds with each other, in a real or perceived effort to control information flow. Comfort comes in knowing that the crucible of second-guessing burns hot – but only until the next such case comes along. As this cycle of investigation-analysis-court-critique-resolution repeats, lessons are available for those willing to learn from their forebearers. As Voltaire asked, “Is there anyone so wise as to learn by the experience of others?”

All cases begin at the scene, where experience teaches many cases are won or lost based upon how a scene is processed and how an initial investigation commences. Los Angeles County, California is an enormous jurisdiction and no stranger to high profile cases, including OJ, Phil Specter, The Night Stalker, and too many others to count. A discussion of lessons learned from decades of leading the Forensic Laboratory analysis of such high profile provides valuable insights into the “dos” and “dont’s” of casework.

High interest cases, far from being limited to major jurisdictions, can literally occur anywhere and at any time. Case in point, 20 years ago in a sleepy northwest Georgia community of just over 60,000 people became home to a macabre nightmare of a case – an originally unknown number of human remains (later tallied at 339) was found literally dumped in and around the grounds of a family compound surrounding an operating crematory. Nothing similar on such a scale had been encountered before or since. The primary investigators had to deal with not only the casework to be done in order to identify the deceased and to prove criminal charges, but had to simultaneously inform the public while preventing the media from interfering with investigators’ duties. Issues encountered along the way proved challenging but a (partial, at least) successful case resolution followed thanks to good public relations anchoring good detective work.

*Presenting Author*
S3 Tale of the Tape—The Media’s Impact on Forensic Science Cases

Many jurisdictions conduct exhaustive preparatory exercises in order to be ready to face possible future mass disaster scenarios. Large or small, one can never be ready for all scenarios. The task of primary Medicolegal death investigation falls in many jurisdictions on the Coroner, who must be prepared for any death(s) falling under their jurisdiction. One of the worst-case situations involves mass shooting fatalities. These happen suddenly and without warning. The Las Vegas shooting is an example of such a potentially overwhelming investigation. Lessons learned from the experience provide insights in readiness if such awful acts might occur again. Although fortunately involving fewer fatalities, lesser scale investigations can be no less troubling and warrant similar media scrutiny. The racially-motivated slaying of nine parishioners with clergy at a bible study group shocked a city, a nation, and the world. How could this happen here? In a city not unfamiliar with shocking cases – nine firefighters dead in the line of duty, a suspect shot in the back while fleeing, and the like are another day at the office for a medicolegal death investigator.

When the deceased come in, the task of examination of the remains and telling their story falls upon the Forensic Pathologist. As with other Forensics Professionals, the stories are waiting to be told - awaiting only an attentive ear and an eloquent voice. Personal recollections of the Medical Examiner can make for best-selling non-fiction. But, are there lessons to be learned about and in the telling?

Eventually, the press interest in cases comes to center on the courtroom where evidence – good or bad – is presented to a presumably objective arbiter of fact. With intense pre-trial and in-trial scrutiny, including live televised trials, Attorneys have had to adapt and perfect new strategies to best present their cases. Lessons learned from a career trial Criminal Defense Attorney (ongoing) turned TV journalist offer a unique perspective on the good, the bad, and the ugly of courtroom as entertainment and the media as fact source.

Often downplayed in the entire media hoopla surrounding a case is the victim, without whom there would be no story. Every victim has a story, but not everyone has someone to tell it. In a unique circumstance, the surviving family can tell the decedent’s tale in such a way as to capture not only public but also professional interest. The session closes with the brother of a homicide victim, who shared his sister’s story in an award winning documentary. The session will close with a special screening of her story: “Alice is still dead.”

In the “sweet science” of pugilism, participants are assessed according to their literal physical dimensions – the “tale of the tape.” In the modern era of ubiquitous video, the Forensic Sciences have been and continue to be judged based on a different – but no less real – physical comparison, the taped record of events. Properly anticipated and thoughtfully pursued, information flow can be successfully managed and utilized, leaving both sides, the pursuit of truth and the quest for justice, as winners.

Program:

11:30 a.m. – 11:45 a.m.  Introduction  
J.C.U. Downs, MD; Tanisha Henson, JD

11:45 a.m. – 12:15 p.m.  Dos and Don’ts at the Scene and in the Laboratory  
Barry Fisher, MBA, MS

12:15 p.m. – 12:45 p.m.  Medicolegal Death Investigation: Part 1  
Bobbi Jo O’Neal, RN

12:45 p.m. – 1:45 p.m.  Medicolegal Death Investigation: Part 2  
John Fudenberg

1:45 p.m. – 2:15 p.m.  The Aftermath-The Survivors  
Edwin P. Stevens

2:15 p.m. – 2:45 p.m.  “Alice is Still Dead” (excerpt)  
Edwin P. Stevens

2:45 p.m. – 3:00 p.m.  QUESTIONS & ANSWERS  
All Presenters

Proceeds from this workshop will benefit the Forensic Sciences Foundation
FEPAC SESSION

Accreditation of Forensic Science Academic Programs Through the AAFS Forensic Science Education Programs Commission (FEPAC)

Tuesday, February 22, 2022

Open to All Meeting Registrants (in-person only) 8:30 a.m. – 12:45 p.m.

Chair: Heidi Eldridge, PhD
RTI International
Research Triangle Park, NC

Commissioner: Patrick A. Eller, MS
Metadata Forensics LLC
Richmond, VA

Commissioner: Jason L. Schroeder, MS
Harris County Institute of Forensic Science
Houston, TX

Commissioner: A. Karl Larsen, PhD
University of Illinois, Chicago
Chicago, IL

Learning Overview: Upon completion of this session, the participant should be able to understand the process of accreditation through the AAFS FEPAC mechanism and be able to participate in the process as a reviewer of academic programs. Participants from academic programs will also learn about the process of accreditation from different perspectives.

Program Description: This session has been developed to assist academic institutions offering undergraduate and graduate degree programs in forensic science and forensic digital evidence to prepare for the accreditation process through the FEPAC. This session will also assist future on-site evaluators (academic and practitioners) to prepare for on-site evaluations of academic programs. Successful completion of this one-day session will qualify participants for consideration to serve as on-site evaluators for FEPAC in the future (please note that participants must still meet other FEPAC requirements, such as membership in the AAFS and designation as either a practitioner or academician). This training session will highlight updates to the FEPAC Standards for Accreditation and provide valuable information for both program directors and on-site evaluators.

The FEPAC is a standing committee of the AAFS with a membership that includes five educators, five forensic science practitioners, and a public member as voting members. The mission of the FEPAC is to maintain and enhance the quality of forensic science education through a formal evaluation and recognition of college-level academic programs. The primary function of the committee is to develop and maintain standards and to administer an accreditation program that recognizes and distinguishes high-quality undergraduate and graduate forensic science programs. Forty academic programs have successfully completed the accreditation process since 2003. Additional information on FEPAC can be found on the FEPAC website: http://fepac-edu.org.

Program:

8:30 a.m. - 9:00 a.m.  Introduction and Welcoming Remarks/Module 1: What to Know About FEPAC
Heidi Eldridge, PhD

9:00 a.m. - 9:30 a.m.  Module 2: An Overview of the FEPAC Application Process
Patrick A. Eller, MS

9:30 a.m. - 10:00 a.m.  Module 3: A Review of Self-Study Standards 3.0–General for all Programs
Patrick A. Eller, MS

10:00 a.m. - 10:15 a.m.  Break

10:15 a.m. - 10:45 a.m.  Module 4: A Review of Self-Study Standards 4.0–Undergraduate Programs
A. Karl Larsen, PhD

10:45 a.m. - 11:15 a.m.  Module 5: A Review of Self-Study Standards 5.0–Graduate Programs
A. Karl Larsen, PhD

11:15 a.m. - 11:45 a.m.  Module 6: Accreditation Decisions and Categories, Appeals Process, Annual Reports, Substantive Changes, and Post-Visit Survey
Jason L. Schroeder, MS

11:45 a.m. - 12:15 p.m.  Module 7: FEPAC On-Site Evaluator Training
Jason L. Schroeder, MS

12:15 p.m. - 12:45 p.m.  Questions and Answers
FEPAC Commissioners and Accreditation Coordinator
KEYNOTE ADDRESS

Open to All Meeting Registrants—(in person and live streamed)

Wednesday, February 23, 2022

8:30 a.m. – 9:30 a.m.

Marc Milstein, PhD

Los Angeles, CA

Overview:

Dr. Marc Milstein specializes in taking the leading scientific research on health and happiness and presents it in a way that entertains, educates, and empowers his audience to live better.

His presentations provide science-based solutions to keep the brain healthy, lower the risk of dementia, boost productivity and maximize longevity. He earned both his PhD in Biological Chemistry and his Bachelor of Science in Molecular, Cellular, and Developmental Biology from UCLA.

Dr. Milstein has conducted research on topics including cancer biology and neuroscience and his work has been published in multiple scientific journals. Dr. Milstein has been quoted breaking down and analyzing the latest research in popular press such as USA Today, Huffington Post, and Weight Watchers Magazine. Dr. Milstein’s upcoming book “The Age-Proof Brain” will be published in 2022.
Overview: Forensic practitioners are continually searching for proven methods of analyzing an ever-changing landscape of potential evidence in criminal and civil matters, especially in the digital evidence arena. At the same time, they must actively learn how to apply new technology to traditional evidentiary items, enabling even greater information to be gleaned from those items. One of the most important avenues of learning these new methods and technology is through scientific presentations and workshops, such as those featured at the AAFS Annual Scientific Conferences. This session will cover the AAFS’ efforts to update its interface with its members and to expand its educational offerings beyond the Annual Scientific Conferences, in the face of the unprecedented pandemic. Additionally, a novel analysis technique regarding the extraction of DNA evidence from fired cartridge cases and a multi-member initiative to authenticate multimedia evidence will be discussed.

All change is different and requires a unique implementation process. The key need for change at the Academy is operational efficiency. The Academy needs to keep up with the evolution of technology, conduct internal process reviews and expand benefits for our membership. On June 15, 2021 the Academy welcomed a new Executive Director, Donna Grogan. Donna brings with her prodigious experience in organizational leadership, management, leadership training and development, and notable successes in fundraising programs. Through her accomplishments in non-profit executive positions, she has increased the global footprint of the healthcare foundations she worked with for over 20 years prior to joining the Academy. A high-energy, goal-oriented manager, Donna has been using her experience to impact the changes that will bring the current state to a future state to achieve even greater success for the forensic science community.

Gun violence is not new in the United States, but the level of gun violence has increased in recent years. In many instances, fired cartridge cases (FCCs) are the only physical evidence left at the scene. Historically, the ability of forensic examinations on FCCs to provide investigative information has been limited. DNA analysis and latent fingerprint examinations were rarely successful. Linking
the FCC to a firearm through a firearms examination required the firearm. Over the years, techniques and technology have evolved that now allow laboratories to potentially provide investigative information linking an individual, firearm, or previous incident to FCCs recovered from a crime scene. However, implementing the analysis of a new type of evidence brings additional challenges to the forensic laboratory. The U.S. Bureau of Alcohol, Tobacco, Firearms, and Explosive Laboratory (ATF) began investigating methods of increasing the success rate of DNA analysis on FCCs in 2012. Mr. Todd Bille, DNA Technical Leader of the ATF Laboratory, will discuss the evolution of DNA analysis of FCCs along with the challenges encountered in the first two years after implementation. These include the mitigation of contamination at the crime scene, developing a case acceptance policy to prevent the laboratory from being overwhelmed with submissions, storage of the FCCs appropriately to reduce DNA degradation, formation of a group specifically for the DNA analysis of FCCs, DNA mixture interpretation, and ways to coordinate the DNA analysis and entry of the FCCs into the National Integrated Ballistic Information Network (NIBIN) in a timely manner.

Digital provenance is becoming one of the most important countermeasures against mis- and dis-information. With the proliferation of “deep fakes” and synthesized voice mimicking an individual’s speech characteristics, it has become increasingly difficult to trust digital video and audio at face value. Andy Parson’s talk will focus on how Adobe’s Content Authenticity Initiative (CAI) is deploying techniques and standards that answer the question: instead of detecting what may be fake, can we prove what’s true? From a forensics perspective, he will explore how the technology works, how it may be adopted, and its place in court proceedings.

Program:

10:00 a.m. - 10:10 a.m.  Welcome and Opening Remarks
    Carl R. McClary, MS; Douglas S. Lacey, MS

10:10 a.m. - 10:35 a.m.  A More Modern Academy
    Donna M. Grogan

10:35 a.m. - 11:00 a.m.  DNA Analysis of Fired Cartridge Cases and the Unique Challenges They Present
    Todd W. Bille, MS

11:00 a.m. - 11:25 a.m.  Adobe’s Content Authenticity Initiative: Digital Content Provenance in the Age of Misinformation
    Andy Parsons

11:25 a.m. - 11:30 a.m.  Panel Discussion
    Carl R. McClary, MS; Donna Grogan; Todd W. Bille, MS; Andy Parsons

All times are in the U.S. Pacific Time Zone
Are you interested in mentoring a colleague or would you like to have a mentor to help guide your professional growth in your discipline? If so, please join the AAFS Mentoring Program Kickoff Breakfast. We will discuss the program, solicit participation, and begin the matching process for those ready to commit.

Many in the Academy have already notified the committee of their interest in the program and are on the Mentoring Program roster. Like most other things, COVID has slowed down the process in getting the program launched, but this breakfast will mark the official beginning of hopefully numerous productive relationships. If you have already agreed to participate, definitely plan on joining us for breakfast.

Seattle registrants interested in attending this breakfast must RSVP by February 2 to: mentorship@aafs.org.

For those unable to make it to Seattle, or have a conflict that morning but are interested in the Mentoring Program, please let us know using that same email address.
**BREAKFAST SEMINARS**

**BS1**  The Path Forward Continues: What’s Happening in Forensic Standards

**Monday, February 21, 2022**  7:00 a.m. – 8:15 a.m.  .75 CE Hour

- **Teresa Ambrosius, BA***
  American Academy of Forensic Sciences  
  Colorado Springs, CO

- **Karen Reczek, MS***
  National Institute of Standards and Technology  
  Gaithersburg, MD

- **Allison Getz, MS***
  National Institute of Standards and Technology  
  Gaithersburg, MD

**Learning Objective:** Participants will learn about updates in standards development in the United States and internationally from United States Standards Developing Organizations (SDOs). Participants will also get an update from the Organization of Scientific Area Committees (OSAC) for Forensic Science regarding how they are working with the SDOs and encouraging forensic science service providers to implement standards.

Participants will gain a better understanding of the progress of consensus standards development, including submission, drafting, public and committee commenting and resolutions, and finalization. Participants will also realize the importance of public input into the standards process and will learn how to participate, even if they are not part of an SDO consensus body or committee.

**Impact Statement:** The 2009 National Research Council (NRC) stressed the lack of standardization in forensics. The advent of OSAC, administered by the National Institute of Standards and Technology (NIST), and the AAFS Standards Board (ASB) has resulted in several years of concerted efforts to identify gaps in needed standards and begin their development using the voluntary consensus standards development process. All forensic professionals need to be aware of new and emerging standards in the various forensic disciplines, their importance, and how they can be implemented.

In 2009, the NRC published the Report, *Strengthening Forensic Science in the United States: A Path Forward*, which summarized the challenges facing the forensics community and the lack of mandatory standardization, certification, and accreditation. From this report, the Department of Justice (DOJ) and the NIST signed a Memorandum of Understanding that led to the establishment of the National Commission on Forensic Science (NCFS) and the NIST-administered OSAC for Forensic Science.

Presenters will provide an overview of the standards currently in development, those soon to be published, and the new standards published by various SDOs. New standards include those related to interdisciplinary topics, such as evidence collection and labeling, interpretation and reporting, and discipline-specific standards in the areas of criminalistics, toxicology, digital evidence, anthropology, facial recognition, photography, biology, pattern evidence, and crime and fire scene investigation, with a focus on terminology, measurement uncertainty, measurement traceability, quality assurance, and calibration.

Presenters will describe the process that a document goes through from inception through drafting, commenting, voting, and publication. This overview will give participants the education they need to participate in the standards development process.

OSAC has been working closely with various SDOs to bring the community together to define requirements for disciplines to submit standards through the development process. OSAC’s role in the standards development process and promotion of implementation of these standards will also be covered.

BS2  Autopsy of a Crime Lab: The Evolving Approaches Toward Forensic Evidence in Court

Tuesday, February 22, 2022  7:00 a.m. – 8:15 a.m.  .75 CE Hour

Brandon Garrett, JD*
Duke University School of Law
Durham, NC

Learning Overview: This presentation will survey the current state of litigation and judicial review of admissibility of forensic evidence, as well as providing an overview of a recent book, Autopsy of a Crime Lab, that surveys the sources of error in forensic work and approaches designed to improve the process and safeguard reliability.

Impact Statement: This presentation will provide an overview of the book, but particularly focus on legal research and developments in the courts as judges have evolved in their approach toward forensic evidence. Studies examining how lay jurors evaluate forensic testimony in court will be summarized.

“That’s not my fingerprint, your honor,” said the defendant after Federal Bureau of Investigation (FBI) experts reported a “100-percent identification.” They were each wrong, and Brandon Mayfield was later cleared. How does error, even in high-profile cases, occur? Is it the quality of the latent fingerprint, the role of databases, individual examiner error, cognitive bias, or uncertainty inherent in a method that can lead to error? How should lawmakers, labs, and courts approach each of these challenges? The recently published book, Autopsy of a Crime Lab, is the first to catalog the sources of error behind a range of well-known forensic evidence, from fingerprints and firearms to forensic algorithms. At the crime scene, the book explores the need for scientific standards regarding evidence collection. Moving to the lab, the book explores quality controls, human factors, and the need for further studies to validate basic premises of widely accepted techniques. Turning to individual experts, the book asks how proficiency tests could be used to better assess individual performance, and the need for standards governing report writing and testimony. Reaching the courtroom, the book examines how concepts of judicial gatekeeping have slowly evolved, regarding discovery, testimony, and expert admissibility.

Taking us into the lives of the wrongfully convicted or nearly convicted, into crime labs rocked by scandal, and onto the front lines of promising reform efforts driven by professionals and researchers alike, Autopsy of a Crime Lab describes the forensic landscape and recent efforts to place evidence, from the crime scene to the laboratory to the courtroom, on a sound scientific footing.

BS3  Procedures for Breaking the Zodiac Killer’s Code

Wednesday, February 23, 2022  7:00 a.m. – 8:15 a.m.  .75 CE Hour

Jeanne Anderson*  David Oranchak*
Federal Bureau of Investigation Laboratory  Roanoke, VA
Quantico, VA

Learning Overview: Attendees will learn about the forensic cryptanalysis of the Zodiac Killer’s 50-year old unsolved cipher, how this code was broken, and the procedures used by the Federal Bureau of Investigation (FBI) Laboratory in cases such as this.

Impact Statement: This presentation impacts the forensic science community by bringing awareness of forensic codebreaking capabilities.

The field of forensic cryptanalysis, or codebreaking, is a little-known but well-established forensic discipline that, when applied, can produce reliable and informative results. Cryptanalysis can be applied to records of illicit businesses, such as drug distribution or manufacturing, human smuggling, and commercial sex, as well as coded messages.

The FBI Laboratory houses the Cryptanalysis and Racketeering Records Unit (CRRU) and is staffed with forensic cryptanalyst examiners trained to decipher coded messages and cryptic illicit business records. This forensic analysis relies on standard operating procedures based on steps developed in the early 1900s by a United States Army cryptologist and that remain accepted by forensic and academic cryptologic communities today. These procedures provide a framework for the analysis of codes and records that apply regardless of crime, context, or record type. Despite this framework’s historical basis, it remains largely unknown by the forensic community; this presentation will inform attendees about this forensic capability. Further, this presentation will introduce one such codebreaking case, that of the never-caught Zodiac serial Killer. This case involved a coded message that remained unsolved for 50 years before it was broken this past December. This development provided the law enforcement community with new material on an unsolved serial killer case and the cryptologic community with a new encipherment technique that confounded professional and amateur cryptanalysts for 50 years.

One of the three-person team who broke this message will provide background on techniques employed for over a decade of work on the Zodiac Killer’s code, including those techniques that eventually helped decrypt this coded message as well as how these techniques may apply to remaining unsolved coded messages. An FBI Cryptanalyst Forensic Examiner will present on law enforcement’s approach to coded messages, specifically the standard operating procedures used for analysis of records and codes such as this. Several remaining unsolved coded messages will be introduced for those interested in applying any of the presented cryptanalytic techniques to actual unsolved codes.

**BS5**
**Helping the Marines Correct the Historical Record: Identifying the Iwo Jima Flag Raisers Using Photographic Comparison and Facial Recognition**

Thursday, February 24, 2022
7:00 a.m. – 8:15 a.m.
0.75 CE Hour

Richard Vorder Bruegge, PhD*
Federal Bureau of Investigation
Quantico, VA

**Learning Overview:** Attendees will learn how Digital and Multimedia Sciences techniques, including photographic comparison, facial recognition, and 3D face modeling, were used to help the United States Marine Corps correct the historical record in regard to the individuals depicted in the iconic “Iwo Jima Flag Raising” photograph by Joe Rosenthal. This case provides an example of how new techniques may be tested against unusual types of evidence in a matter of historical significance.

**Impact Statement:** The forensic science community will see an example of how established and innovative forensic science techniques can be “stress tested” in unusual circumstances to help further define the limits of these techniques.

On February 23, 1945, United States Marines raised an American flag on Mount Suribachi, Iwo Jima. A photograph depicting that event taken by Associated Press photographer Joseph Rosenthal immediately became iconic in Marine Corps and United States lore, with the image serving as the basis for the United States Marine Corps War Memorial in Washington, DC, and the National Museum of the Marine Corps in Quantico, VA. While most Marines will tell you that the individual names of those in the photograph do not matter, historians, and many in the public, want to be able to put names to the faces.

Previous Marine Corps reviews led to updates of the record in 1947 and 2016, but after the 2016 Huly Board findings were released, historians Dustin Spence, Stephen Foley, and Brent Westemeyer brought forth additional evidence indicating that further changes were needed. As a result, a third Board was convened in 2018. This “Bowers Board” requested the assistance of the Federal Bureau of Investigation (FBI) Digital Evidence Laboratory (DEL) in analyzing photographs and film footage from that day to help establish, once and for all, which Marines are depicted and in which positions around the flag.

The flag raised in the Rosenthal photograph was the second raised on the summit that day, replacing a smaller one. Several photographers, including one with a 16-mm movie camera, were also present and captured multiple photographs and film recordings of events on the summit that day, culminating in a series of celebratory photos known as the “Gung Ho!” photos. The combination of these photographs and film recordings make it possible to track the movements of various individuals during this sequence and establish their presence through image analysis (photographic comparison), primarily based on their faces and details of their helmets, clothing, and gear.

Through this examination process, the identities of four of the six individuals around the flagpole in the Rosenthal photo can be established with either “Strong Support” or “Extremely Strong Support,” while there is “Some Support” or “Limited Support” for the other two. Facial recognition technology and 3D-facial modeling software were also utilized in support of these analyses. When combined with further information from historical records, these findings offered a compelling case for the Bowers Board to declare in 2019 that the record is now complete.1

Requests like this—which do not involve criminal or civil litigation—allow multimedia evidence labs to not only stress test their existing standard procedures on different materials and content, but also allow them to experiment with new techniques and procedures under more “realistic” conditions than may otherwise be available. In this case, facial recognition technology and 3D-modeling software were utilized in support of traditional image analysis techniques for photographic comparison. Through this process, potential limitations of these technologies were identified. This presentation will provide attendees with a better understanding of the process involved in this image analysis examination, as well as how the facial recognition and 3D-modeling software were leveraged in this case, along with the potential limitations.

BS6 Electrical Torture, Electrocution, and Homicide—The Istanbul Protocol

Thursday, February 24, 2022 7:00 a.m. – 8:15 a.m. .75 CE Hour

Helmut Brosz, BASc*
Forensic Sciences International Group
Markham, ON, Canada

Renee Knight, BSFS*
Forensic Sciences International Group
Markham, ON, Canada

Learning Overview: This presentation will provide an overview in identifying electrical torture injuries through a foundational background in body resistance to electricity and electrocution scenarios. After attending this presentation attendees will: (1) have an understanding of what is Electrical Shock Torture as defined by the Istanbul Protocol; (2) Mechanisms of Electrocution; and, (3) the variables to be applied in the identification of electrical torture, injury, and homicide.

Impact Statement: This presentation will impact the forensic science community by improving the ability of Authorities Having Jurisdiction (AHJ), including investigators, medical examiners, lawyers, prosecutors, and engineers, to identify when an electrical torture or other electrical incident has taken place. Attendee knowledge of electrical shock injuries, torture, and homicide will be increased.

AHJ attending to a suspected electrical torture scene or homicide scene involving electrocution sometimes have difficulty discerning between natural death and death due to electricity. On average in North America, between 500 and 1,100 electrocutions occur annually, including suicide, auto-erotic, accidental, homicide, etc. The statistics for electrical torture are hard to come by; however, this form of torture "Parilla" appears to be practiced in certain South American and far Eastern Countries. There are also approximately ten times as many arc flash burn injuries and more than ten times as many non-fatal electric shocks. Some minor shock situations result in fall reactions that can lead to death and injury. These low-voltage shocks/electrocutions frequently leave no visible marks on the person. High-voltage electrocutions mostly leave distinctive marks and catastrophic injuries.

In scenarios involving electrical torture, readily identifiable marks may not always be available. Scenarios involving an individual being shocked in the presence of water may sometimes obscure contact entry and exit marks. Scene photos, hospital admission notes and sketches, autopsy photos, and reports are important data to be created, then assembled, studied, and analyzed as set out in the Istanbul Protocol.

The review and study of applicable standards and codes can assist the AHJ or investigator. For example, the Istanbul Protocol provides a definition on what is deemed as electrical shock torture, the device mechanisms utilized, and the various pathological outcomes of the torture relating to independent and dependent variables. For electrocution situations, the National Electrical Safety Code (NESC), Occupational Safety and Health Administration (OSHA) 26CFR1910, 26CFR1926, National Fire Protection Association (NFPA) 70E, and California General Order 95 may apply.

Variables in identifying electrical shock include voltage, body resistance, time, and the paths the current takes through the body. Through these factors, reconstruction and forensic analysis can be conducted in identifying and interpreting the method and potential motive for electrical torture through case presentations, examples, and artifacts.

Pre-Registration Required by February 11 – $60 (in person only)

BS7 Forensic Nursing Science: A New Section for a New Scientific Era

Friday, February 25, 2022  7:00 a.m. – 8:15 a.m.  .75 CE Hour

Nancy Cabelus, DNP*  Joyce Williams, DNP*
University of New Haven  Stevenson University
New Haven, CT  Owings Mills, MD

Virginia Lynch, MSN*  Amy Carney, PhD*
Forensic Nurse Consultants, International  California State University
Divide, CO  San Marcos, CA

Learning Overview: After attending this presentation, attendees will have a better understanding of the history of this dynamic discipline, the inception of forensic nursing worldwide, and how forensic nurses contribute to clinical practice, research, and policy.

Impact Statement: This presentation will impact the forensic science community by presenting exemplars of the application of care of victims, survivors, and perpetrators of violence of trauma.

In 1991, the American Academy Forensic Sciences (AAFS) distinguished forensic nursing as a scientific discipline.1 This pronouncement launched a movement now recognized worldwide. The following year, the International Association of Forensic Nurses (IAFN) was founded.2 In 1995, the American Nurses Association (ANA) Congress of Nursing Practice bestowed the official status of a nursing specialty upon the science of forensic nursing.3 The forensic aspects of nursing have long existed. Nurses have historically cared for victims of violence—both the living and the dead. In the 17th century, nursing had not yet become a science and midwives filled this role.4 Two centuries later, Florence Nightingale established the first aspects forensic nursing when caring for the war wounded and dead.

Forensic nursing is a dynamic discipline that recognizes human violence and trauma through a contemporary domain of scientific knowledge, health care, human rights, social justice, public health, and evidence-based practice. Broadly defined, forensic nursing science is nursing applied to the law, following the long-established exemplar of forensic medical science. Forensic nurses are health care providers qualified in the examination and evaluation of patients presenting with forensic biomarkers of crime-related trauma and the clinical investigation of questioned deaths. Global violence and problematic social and cultural situations reinforce the need to define the dynamics, processes, and guidelines for forensic nursing practice as it evolves and endures change.

Educational requirements to practice in forensic nursing vary. The nurse must have, at a minimum, an Associate’s degree in nursing but a Bachelor’s degree is preferred. After completing the degree, the nurse must successfully pass the board exam in the state in which they intend to practice. After practicing clinical nursing for a year or more, s/he may desire to specialize in forensic nursing as a Forensic Nurse Examiner (FNE) generalist or select a subspecialty of this discipline. Opportunities for role development include the Sexual Assault Forensic Examiner (SANE) course or pursuing the forensic aspects of training as a legal nurse consultant, accident investigator, mental health nurse practitioner, or nurse death investigator. Educational opportunities may be offered in risk management agencies, law firms, correctional settings, or domestic violence shelters. Regardless of the specialized role, forensic nurses work with victims of all ages who have suffered abuse, neglect, sexual assault, trauma, or any other crime-related injuries. Forensic nurses may practice in hospitals and community settings, typically interfacing with the legal system and treating victims, suspects, or perpetrators of crime.

Policy development in forensic nursing has evolved as the professional role grows and changes. Across the United States, individual Boards of Nursing have evaluated the forensic nursing response and the gaps that are filled when forensic nurses work with law enforcement, attorneys, and fellow medical professionals. As individual states evaluate their Nurse Practice Acts and the impact they have on forensic applications, forensic nurses are examining the effect that state, national, and federal rules and policies have on their interactions with both individuals and institutions. Forensic nurses also shape policy, bringing change through advocacy and research.

*Presenting Author

All times are in the U.S. Pacific Time Zone
Graduate forensic nursing programs are available, often online, and require a number of clinical hours (typically 500) in addition to the didactic requirement of 30–40 credits. Forensic nurses with a graduate degree may opt to teach, conduct research, or in a clinical practice. Advanced practice forensic nurses may pursue a doctorate degree in forensic nursing research (PhD) or a doctorate with a clinical forensic focus, the Doctor of Nursing Practice (DNP).

L1  A Tale of Two CSIs: A Criminal Salad Impersonation and a Cookie Subterfuge Incident

Thursday, February 24, 2022  12:00 p.m. – 1:30 p.m.  1.0 CE Hour

Gerald DeMenna, PhD*
Chem-Chek Labs
Cape May, NJ

Learning Overview: The analytical processes employed will enlighten the attendee to the power of spectroscopic analyses (Ultraviolet [UV]-visible and Infrared [IR]) of suspect samples in differentiating materials that appear to look and smell the same but are actually quite different. Using these spectroscopic techniques usually involves minimal sample preparation that maintains the integrity of the original sample, which increases the reliability of the data when presented in court. These techniques also allow accurate comparisons between an unknown sample and a known reference material, again maximizing the credibility of that data in a court trial. Attendees will better understand the principles of these spectroscopic techniques as critical molecular “fingerprinting” tools and how to best utilize them for forensic analyses.

Impact Statement: Expanding one’s exposure to the more generalized forms of chemical analysis is worthwhile in these days of specialization where the analyst may be an expert in one specified field of technology, but will ignore the benefits of complimentary analyses from other area of analytical technology. Spectroscopic analysis in the electromagnetic spectral region from shortwave UV to longwave IR is a very versatile area that can produce a wealth of data on the chemical and molecular composition of many materials if one is familiar with all aspects of these technologies, both the common and unique. This presentation should serve to open the attendees’ thought processes when presented with an analytical situation that can easily be addressed with these techniques as a starting point to develop a foundation upon which to possibly expand the evaluation of a suspect sample in a more fruitful direction to maximize results efficiently and effectively.

In the business of food production, there are incidents in which the wrong product is made either accidentally or intentionally. Accidents naturally happen, but if by intent, that is fraud with criminal intent. The stories in this presentation are true, and the names have been changed to protect the innocent.

At some time in the past, there were a series of mysterious illnesses and a few fatalities occurring in the Baltimore, MD, Little Italy area. The symptoms included severe nausea and vomiting, respiratory distress, and allergic-type reactions, but none of the medical exams of the living or postmortem exams revealed any common toxicological factor. The victims and their families, who were widely spread throughout the various Baltimore areas, eliminating an environmental cause of these afflictions, were thoroughly interviewed to try and identify some commonality to their daily lives. One aspect of their Italian heritage was the routine use of olive oil in most food preparations. By process of elimination, it was revealed that the “Krakatoa” brand Extra-Virgin Olive Oil (EV-OO) was used by all the victims. Since this suspect EV-OO looked and smelled like all the other brands of popular EV-OOs, an in-depth evaluation was needed to discover what might be in the Krakatoa brand to cause these afflictions. The information contained herein will give a description of genuine EV-OO production, and how a colorimetric evaluation of the Krakatoa brand revealed some interesting discrepancies, which uncovered a scheme by the producers of the olive oil to sell a cheap, low-quality grade of olive oil as the higher-priced extra-virgin grade.

At another time in the very distant past (in the early 1900s), there was a snack food manufacturer in northern New Jersey that had the simple idea of putting sandwich crème in between two pieces of baked chocolate wafers. The Continental American Cookie Association (CACA) had already been producing a wide variety of biscuits and cookies by mass-production and was looking to set themselves apart from the competitors at the time. While CACA to this day still guards the exact recipe of that scrumptious crème filling in their “PSFP” cookies (hint: 2001: A Space Odyssey), there have been several modifications in that recipe over the past 100+ years. The original filling was made with lard, a by-product of pig rendering, plus sugars and vanilla to produce a firm, crumbly filling with a specific “mouthfeel.” They replaced the lard with hydrogenated soybean oil; to reach the kosher/halal/vegetarian market, they then replaced that with natural palm and coconut oils to avoid the negative press of hydrogenation. Someone on eBay was selling “Original PSFP Cookies with the Original Filling!”, but the buyer said they were not authentic. This part of the presentation shows the power of IR spectroscopy to identify the components in these various fillings.

Pre-Registration Required by February 11 – $60 (in person only)

L2 What’s New From the American Society for Testing and Materials (ASTM) International’s Committee E30 on Forensic Sciences: Big Changes Underway!

Friday, February 25, 2022 12:00 p.m. – 1:30 p.m. 1.0 CE Hour

Agnes D. Winokur, MS*
Drug Enforcement Agency
Miami, FL

Karen Reczek, MS*
National Institute of Standards and Technology
Gaithersburg, MD

Learning Overview: Attendees will gain a better understanding of the progress of consensus standards development, including drafting, submission, committee and public comment periods, comment resolutions, and finalization of the standards. Attendees will also gain a stronger appreciation for the role and importance of public comments in the standards process. In addition, attendees will learn how they can provide input in the process of public comments, even if they are not part of a standard developing organization, a consensus body, or a standard developing committee.

Impact Statement: It is essential for forensic sciences professionals to be familiar with new and emerging standards in the various forensic disciplines. Familiarity with the standards will enable a forensic scientist to implement the standards in their respective laboratory setting and incorporate the standards into their quality assurance manuals. Ultimately, these consensus-based standards will assist the forensic sciences provider with accreditation efforts, development and validation of methods, and increase the level of quality in their work product. Awareness of ASTM E30 Forensic Sciences standards and its process will provide another means for forensic science professionals and stakeholders to become actively engaged in improving the practice of forensic science in the United States and internationally.

ASTM International is one of the oldest United States standards developing organizations. Although ASTM’s Committee E30 on Forensic Sciences has been in existence since 1970, many forensic sciences professionals are not familiar with ASTM E30 standards, its process, or how to actively participate and provide input. Subsequently, stakeholders are not aware on how consensus-based standards have been influencing the practice of forensic sciences throughout the years.

In this session, presenters will provide an overview of ASTM International’s E30 Forensic Sciences and its subcommittees, which include Criminalistics (e.g., fire debris, explosives, trace, seized drugs), Digital and Multimedia (e.g., video, imaging, face identification, storage mediums), Terminology, and the Interdisciplinary Subcommittee. In addition to the ASTM standards development process and the new American National Standards (ANS) process for E30, the presenters will highlight specific standards currently in development, soon to be published, and those being revised to address current forensic practices and needs.

Standards influence requirements for forensic sciences professionals within their respective laboratories and even accreditation requirements for forensic sciences providers. Many forensic scientists do not realize how standards affect them individually or the work processes that they use on a daily basis. Raising this awareness is critical in empowering the forensic community to provide information on their processes, techniques, and methods. This information can then be used to standardize processes and develop standards that improve the overall practice of forensic sciences. The role that public comment periods play in the development of consensus-based standards is essential to ensure the practicality and comprehensiveness of the standards. The opportunity to hear from interested parties to facilitate discussion improves the quality of the standards being developed. But how does the stakeholder community actively participate in these opportunities? Presenters will educate attendees as to how they can engage with E30, whether through full membership, serving on a task group, or commenting on standards open for ballot.

W2 The National Institute of Standards and Technology (NIST) Forensic DNA Activities: Foundations, Research, and Standards

Monday February 21, 2022 8:30 a.m. – 5:00 p.m. 6.75 CE Hours

Learning Overview: Presenters will review activities at NIST involving forensic DNA foundational studies, research, and standards.

Impact Statement: Presentations in this workshop will impact the forensic science community by contributing to an understanding of NIST activities in advancing knowledge and practice of forensic DNA through foundation studies, focused research, and development of documentary standards.

Program Description: Three sessions will focus on DNA mixture interpretation, DNA sequencing research, and DNA training materials that will benefit students, practitioners, and stakeholders. Participants will gain an understanding of principles involved in DNA analysis and interpretation, knowledge of core foundational literature supporting these principles, and information that can strengthen training programs for DNA analysts.

W3 Determining Sufficiency for the Identification of Gasoline

Monday, February 21, 2022 8:30 a.m. – 5:00 p.m. 6.75 CE Hours

Learning Overview: Attendees can expect an overview of the current gasoline identification limitations as well as an introduction to key diagnostic features of gasoline used in a statistical framework to enhance interpretation and identification.

Impact Statement: This workshop will detail chromatographic peak ratios with varied support for the identification of gasoline as well as a method to graphically demonstrate the overall statistical support for gasoline in the sample.

Program Overview: The information to be presented provides instructions to build a sufficiency graph with decision lines to demonstrate the sufficiency of the data for the identification of gasoline to further strengthen the data interpretation process and provide transparent documentation. The objective of this information is to make the fire debris analysis process more standard, objective, and transparent by establishing a validated method with quantitative measures that include the implementation of documentation methodology and verification.

11:45 a.m. – 12:45 p.m. BREAK

12:45 p.m. – 1:45 p.m. Data Extraction and Calculations
Kelsey R. Winters, MSFS

1:45 p.m. – 2:45 p.m. Case-Like Example
Brenda B. Christy, MS

2:45 p.m. – 3:00 p.m. BREAK

3:00 p.m. – 4:45 p.m. Practical Exercise—Complex Sample
Brenda B. Christy, MS

4:45 p.m. – 5:00 p.m. Summary
Reta M. Newman, MA

Target Audience: Criminalistics
Knowledge Level Required: Intermediate
Expected Handout Length: 100 Pages

All times are in the U.S. Pacific Time Zone
**WORKSHOPS**

*Pre-Registration Required—$200 (in person only)*

**W4  The Application of Evaluative Reporting for Forensic Handwriting Examinations**

**Monday, February 15, 2021  8:30 a.m. – 5:00 p.m.  6.75 CE Hours**

**Learning Overview:** Attendees will learn how to apply Evaluative Reporting for evidence interpretation and conclusions. Handwriting comparisons will be used as examples. There will be a short lecture, followed by a demonstration using a mock case. The majority of the class will be hands-on group practice and feedback.

**Impact Statement:** This presentation will impact the forensic science community by describing modifications to the current interpretation method and reporting conventions that can help elucidate the evaluation process and advance forensic document examination as a science.

**Program Description:** Attendees will receive mock cases to examine, but not evaluate, prior to the workshop. The workshop will begin with an introduction of the key principles of the approach and general theory, followed by a demonstration of the method using one of the mock cases. For the remaining cases, attendees will break into groups and evaluate evidence using the approach. After each breakout session, attendees will reconvene for discussion with the instructors.

**Chair:** Tobin A. Tanaka, BSc  
Government of Canada, Canada Border Services Agency  
Ottawa, Ontario, Canada

**Co-Chair:** Miriam S. Angel, MS  
Los Angeles Police Department  
Los Angeles, CA

**Targeted Audience:** Questioned Documents  
**Knowledge Level Required:** Basic  
**Expected Handout Length:** 30 pages

All times are in the U.S. Pacific Time Zone
**Learning Overview:** Attendees will gain a better understanding of public threats in respect to emerging drugs that are not often discussed (e.g., electronic cigarettes and their role in drug use, the effect of polydrug overdoses in toxicology and emergency rooms, online resources and how they can be used to predict future emerging drugs, fentanyl supervised consumption sites, and drug concealment techniques). Attendees will also gain awareness of innovative techniques used to address challenges in these areas (e.g., Direct Analysis in Real-Time Mass Spectrometry [DART®-MS] for the rapid screening of the chemicals in electronic cigarettes, and real time fatal overdose surveillance).

**Impact Statement:** Attendees will become aware that drug-related deaths continue to significantly impact communities. There are topics that influence the illicit drug landscape in these communities and are not frequently discussed.

**Program Description:** This workshop will bring visibility and clarity to topics that emphasize emerging drug threats. Electronic cigarettes and vaping, polydrug overdose deaths, online sites, concealment drug techniques, and fentanyl supervised consumption sites are among those topics that generate challenges for the forensic community. By increasing discussion and attention in these areas, the forensic community can become better equipped in developing processes in their laboratories that will assist them in handling emerging drugs more effectively.

W6  Impairment: A Look at Causes, Data, and Policies

Monday, February 21, 2022  
9:00 a.m. – 5:00 p.m.  
6.25 CE Hours

Learning Overview: Attendees of this workshop will gain: (1) expertise in the role of drug recognition experts and their role in impairment investigations; (2) detailed knowledge of the role of fatigue in transportation accidents and an understanding of the factors impacting fatigue; (3) in-depth knowledge of the most recent recommendations for the toxicological investigation of drug-impaired driving and motor vehicle fatalities; (4) an appreciation of the roles of alcohol and cannabinoids in driving impairment and various strategies to control their use within the population; (5) an awareness of the tools available, roadside screening of oral fluid samples, and the policies regarding these samples; and (6) a detailed overview of the Academy Standards Board (ASB) Standards and the role they play in impairment investigations from testing in the laboratory all the way through to courtroom testimony.

Impact Statement: This workshop will impact the forensic science community by providing a detailed overview of recent policy changes and current developments within impairment testing.

Program Description: The workshop brings together experts from the National Safety Council and the National Transportation Safety Board, as well as representatives from the ASB and the Organization of Scientific Area Committees (OSAC) Standards boards to present data for the first time.

W7  Histology for Non-Pathologists

Monday, February 21, 2022  8:00 a.m. – 12:00 p.m.  3.75 CE Hours

**Learning Overview:** Attendees will learn the basics of histology as well as receive an introduction to the histologic interpretation of infection and trauma, including trauma to the brain and spinal cord.

**Impact Statement:** This presentation will impact the forensic science community by providing non-pathologists with an understanding of the process of histology interpretation and, in particular, its relevance to their forensic specialty.

**Program Description:** During their anatomic pathology training, forensic pathologists learn the art of histopathology, which involves looking at small sections of tissues under the microscope for identification and interpretation. The results of this examination can be used to determine the cause and manner of death, extent and type of disease process, and nature of identified abnormalities. Although extensive training is provided to pathologists on this topic, little to none is given to other forensic practitioners, even those whose work can be affected by the results of these examinations.

**Chair:**
Katherine F. Maloney, MD

W8  Subaerial Weathering of Bone

Monday, February 21, 2022  8:30 a.m. – 12:00 p.m.  3.0 CE Hours

Learning Overview: Participants in this workshop will learn about the taphonomic processes causing subaerial weathering of bone and how to score weathering stages following the standard 0-5 scale from Behrensmeyer. Participants also will learn about estimation of the Postmortem Interval (PMI) from the weathering stage and the other types of taphonomic alterations that commonly co-occur with surface exposure and how to tell the effects of subaerial weathering (cracking, delamination, and bleaching) from other causes that may produce similar effects.

Impact Statement: This workshop will impact forensic practice by teaching standard scoring procedures for subaerially weathered bone and the procedures for estimating PMI based on those scores. This workshop will encourage participants to gather additional taphonomic data to improve greater understanding of subaerial weathering and its regional variation.

Program Description: Participants will be encouraged to record taphonomic changes as an integrated part of forensic casework that can provide investigators with crucial information, including PMI, depositional environment, and post-depositional circumstances. This workshop includes hands-on presentations of taphonomic examples and will supply certificates of successful attendance/completion of taphonomic training to attendees who successfully complete the training exercise.

Chair:
James T. Pokines, PhD
Boston University School of Medicine
Massachusetts Office of the Chief Medical Examiner
Jamaica Plain, MA

Program:

8:30 a.m. – 10:00 a.m.  Subaerial Bone Weathering
James T. Pokines, PhD

W9 Forensic Science Standards Development and Implementation ... You Want Me to Do What?

Monday, February 21, 2022 8:30 a.m. – 12:15 p.m. 3.5 CE Hours

Learning Overview: The goal of this workshop is to discuss the development process of forensic science standards, how these standards are implemented in crime laboratories, and how they are viewed by the legal profession.

Impact Statement: This presentation will impact the forensic science community by enabling attendees to understand: (1) the process through which standards are developed and published; (2) issues with implementation of standards in crime laboratories; and (3) how the legal profession views and assesses the role of standards in court proceedings.

Program Description: This workshop will provide answers to questions about standards that are asked frequently by the forensic science community and will provide information that will be helpful to laboratories that plan to, or will soon be, adopting Academy Standards Board (ASB) Standards, Best Practice Recommendations, and Technical Notes.

W10  Inference From Evidence in Forensic Science and Pathology: Turning Something That Has Been Wrong Into Something Right

Monday, February 21, 2022  1:00 p.m. – 5:00 p.m.  3.0 CE Hours

Learning Overview: After attending this workshop, attendees will learn which forms of inference—the reasoning involved in drawing conclusions from evidence—are highly reliable for truth and which forms are highly unreliable. Attendees will also learn how to apply proper inference to their forensic casework.

Impact Statement: This workshop will impact the forensic science community by revealing how demonstrably incorrect ways of inferring from evidence have led to numerous injustices from false accusations and incarcerations. This workshop will also disclose a reliable way to infer that is both scientifically and logically valid.

Program Description: This workshop will question if there a way for forensic scientists and pathologists to truthfully offer opinions from the witness stand made “to a reasonable degree of medical/scientific certainty.” Is there a way to put the “science” back into forensic science and pathology? Is there a way for forensic pathologists and scientists to offer opinions that are reliably truthful and helpful to triers of fact in a courtroom?

Chair:  
Thomas W. Young, MD  
Heartland Forensic Pathology, LLC  
Kansas City, MO

Co-Chair:  
Ljubisa J. Dragovic, MD  
Oakland County Medical Examiner Office  
Pontiac, MI

Program:

1:00 p.m. – 1:35 p.m.  Welcome and Introduction  
Thomas W. Young, MD

1:35 p.m. – 2:20 p.m.  The Inferential Test (IT)  
Thomas W. Young, MD

4:15 p.m. – 5:00 p.m.  DISCUSSION  
Thomas W. Young, MD; Ljubisa J. Dragovic, MD

Targeted Audience: General, Jurisprudence, Pathology/Biology

Knowledge Level Required: Basic

Expected Handout Length: 36 pages

Pre-Registration Required—$100 (virtual only)
W11  Successful Strategies for the Accreditation of Crime Scene Units

Monday, February 21, 2022  1:00 p.m. – 5:00 p.m.  3.5 CE Hours

Learning Overview: Attendees will learn about the planning process for the accreditation of crime scene processes.

Impact Statement: In 2009, the National Academies of Sciences (NAS) issues their landmark Report, Strengthening Forensic Science in the United States: A Path Forward. The Report recommended the accreditation of forensic laboratories and rightfully identified crime scene investigation as part of the forensic science community. However, since the publication of the Report, the accreditation of crime scene units globally has not kept pace with other disciplines. This presentation aims to reduce the perceived barriers that may stop an agency from pursuing accreditation of crime scene investigation processes, resulting in an increasing number of accreditations in this area, and thus improving the quality of forensic science at a systemic level.

Program Description: The presentation will cover unique challenges to accreditation of these activities and how specific International Organization for Standardization (ISO) standards can be satisfied in a crime scene context. Attendees will hear lessons learned from agencies with accredited crime scene units as well as the benefits that have been realized.

Chair:
Mark D. Mogle, BS

W12  Forensic Postmortem Radiology: Crossing the Border Between Radiology and Pathology

Tuesday, February 22, 2022  8:30 a.m. – 5:00 p.m.  6.5 CE Hours

Learning Overview: After attending this workshop, attendees will: (1) have learned the basics of how to get started in the field of forensic radiology; (2) understand the current state of the art and levels of evidence in forensic radiology; (3) have learned about applications to assist forensic pathologists and practitioners in medical death investigation; and 4) will be aware of potential resources available to interested practitioners.

Impact Statement: This presentation will impact the forensic science community by providing attendees with expertise from around the world on the use of best practices and the evidence base of forensic postmortem radiology.

Program Description: This workshop will demonstrate how to start a program, give an overview of the current state of forensic imaging in the world, and inform attendees how future technologies may impact the field of forensics.

W12  Forensic Postmortem Radiology: Crossing the Border Between Radiology and Pathology

Program:

8:30 a.m. – 9:00 a.m.  Introductions, Background, and Historical Overview  
   Michael J. Thali, MD

9:00 a.m. – 9:30 a.m.  Acquiring Postmortem CT Scans Tips and Tricks: A Technician’s Perspective  
   Jeroen J. F. Kroll, MS

9:30 a.m. – 10:00 a.m.  The Development of a Forensic CT Service in a Medical Examiner Office  
   Natalie L. Adolphi, PhD

10:00 a.m. – 10:30 a.m.  PMCT Status in Australia: An International Perspective  
   Christopher J. O’Donnell, MBBS

10:30 a.m. – 10:45 a.m.  BREAK

10:45 a.m. – 11:30 a.m.  Directed PMCT Angiography and Evaluation of Resuscitative Medical Therapy  
   Edward L. Mazuchowski, MD, PhD

11:30 a.m. – 12:00 p.m.  Forensic Postmortem CT in Children—Applications and Limitations  
   Rick R. van Rijn, MD, PhD

12:00 p.m. – 12:30 p.m.  Interactive Cases 1  
   Jeroen J. F. Kroll, MS; Rick R. van Rijn, MD, PhD

12:30 p.m. – 1:30 p.m.  BREAK

1:30 p.m. – 2:00 p.m.  PMCT in GSW and Fatal Penetrating Trauma  
   Lars Oesterhelweg, MD

2:00 p.m. – 2:30 p.m.  Postmortem Cardiac Imaging  
   Fabrice Dedouit, MD, PhD

2:30 p.m. – 3:05 p.m.  3D Visualization in Forensic Postmortem Radiology: Possibilities and Examples  
   Summer J. Decker, PhD

3:05 p.m. – 3:20 p.m.  BREAK

3:20 p.m. – 3:50 p.m.  The Use of MRI in Forensic Postmortem Imaging  
   Hideki Hyodoh, MD, PhD

3:50 p.m. – 4:30 p.m.  Emerging Technologies  
   Jonathan M. Ford, PhD; Lars C. Ebert, PhD

4:30 p.m. – 5:00 p.m.  Interactive Cases 2

#### W14  Interdisciplinary Approaches to Age Estimation

**Tuesday, February 22, 2022**  
8:30 a.m. – 5:00 p.m.  
6.25 CE Hours

**Learning Overview:** After attending this workshop, attendees will have a heightened understanding of: (1) age-at-death assessments as well as age assessment of the living from the anthropological and odontological point-of-view; (2) application of alternative techniques, based on the biochemical fundamentals of aging, to improving age estimates; and (3) age assessment implications in humanitarian contexts.

**Impact Statement:** This workshop will impact the forensic science community through the presentation of interdisciplinary approaches toward improving age assessments, encouraging collaboration and innovation among different forensic specialties. This workshop will further highlight the importance of age estimation in various contexts, including humanitarian applications.

**Program Description:** This workshop will demonstrate how the awareness of the problems faced with regard to age assessment, out-of-the-box thinking, the application of new and interdisciplinary techniques, and promoting collaborations among different forensic specialties, such as anthropology, odontology, and criminalistics, are essential to improve age estimates, and as a result, the identification of the victim. Thus, this workshop will provide a step toward finding solutions to these challenges by improving the knowledge on the most state-of-the-art techniques available to forensic scientists.

W15 Unlocking the Truth: The Impact of DNA Testing and Legal Strategies in Post-Conviction Cases

Tuesday, February 22, 2022
8:30 a.m. – 5:00 p.m. 6.75 CE Hours

Learning Overview: Over the past 30 years, advancements in the field of forensic science have greatly impacted the criminal justice system. Advances in DNA testing and the development of new technology have led to an increase in exonerations of those wrongfully convicted.

Impact Statement: Attendees, armed with the knowledge of how best to efficiently and cost effectively process post-conviction cases, will be able to watch clips from a documentary to further inspire them to perform post-conviction DNA testing in their laboratories and form integrity units in their district attorney offices. This workshop will motivate those attending to realize that we can all participate in the quest for justice and, in the words of Dr. Rubin Carter, “to live in a world where truth matters and justice, however late, really happens, that world would be heaven for us all.”

Program Description: This workshop will explore the issues that are faced by those wrongfully convicted and will also explore how the use of modern DNA testing and legal strategies can be used to assist cases for review of innocence. This will be highlighted by examining the almost-30-year fight for justice of a wrongfully convicted man.

W16 The Neurobiology and Toxicology of Aggression

Tuesday, February 22, 2022 8:30 a.m. – 5:15 p.m. 7.0 CE Hours

Learning Overview: This workshop examines the nature and origin of aggression and the modulating effect of various drugs.

Impact Statement: This presentation will demonstrate how impulsive and premeditated aggression in humans is understood from neurocircuitry and neuroimaging studies, Central Nervous System (CNS) neurotransmitter involvement, and electrophysiology including the P3, an Event-Related Potential (ERP) component elicited in the process of decision making that varies from person to person.

Program Description: The unpredictable nature of alcohol-mediated aggression will be highlighted by the case of a young man who murdered a man he did not know in a local park in front of witnesses and later professed to have no recollection of the events and suffered a total alcoholic blackout.

W17  Forensic Examination and Evaluation of the Fine and Subtle Elements of Signatures and Handwriting

Tuesday, February 22, 2022  8:30 a.m. – 5:00 p.m.  7.0 CE Hours

Learning Overview: This workshop will increase forensic document examiners’ knowledge regarding the fine and subtle elements of signatures.

Impact Statement: This workshop will impact forensic document examiners by increasing the accuracy and reliability of their opinions in signature and handwriting examinations.

Program Description: This workshop will begin with a lecture session reviewing the research data regarding genuine, disguised (auto simulated), and simulated signatures. Attendees will then be given practical problems to the hands-on session. Attendees will be asked to present their results (in groups), and give reasons for their opinions. The workshop presenters will then go into the fine and subtle details of the signatures in the problems to illustrate and explain how these details can be observed and evaluated.

W18  An Advanced Bloodstain Pattern Analysis Hands-On Workshop With an Accompanying Principles of Bloodstain Patterns Lecture

Tuesday, February 22, 2022  8:30 a.m. – 11:30 a.m.  3.0 CE Hours

Learning Overview: After attending this workshop, attendees will have an increased understanding of bloodstain patterns, their relevance to crime scene reconstruction, the determination of events that occurred, and potential charges that could be issued.

Impact Statement: This workshop and the accompanying lecture will expand the understanding of lab and scene personnel who have not have previous bloodstain pattern analysis classes.

Program Description: This workshop is a hands-on opportunity for attendees to become involved in re-enactments of multiple, fresh, bloody crime scenes without the worry of contaminating themselves or their clothing. Attendees will experience the “real thing,” be required to collect data, evaluate the scenes and statements of witnesses, determine the action resulting in the blood-letting events, determine potential classification of events, and conclude how these finding relate to subsequent criminal charges. This opportunity is closely followed by the Bloodstain Pattern analysis lecture, which, by its conclusion, will reveal the actions and events studied in the session workshop.

Chair:
Lawrence L. Renner, MA
Santa Fe Police Department (Retired)
Santa Fe, NM

Program:
8:30 a.m. – 10:00 a.m.  Hands-On Bloodstain Scene Experience
Lawrence L. Renner, MA

10:00 a.m. – 11:30 a.m.  Bloodstain Pattern Analysis Lecture
Lawrence L. Renner, MA

Targeted Audience: General; Jurisprudence; Psychiatry & Behavioral Science
Knowledge Level Required: Intermediate (some knowledge of subject presented)
Expected Handout Length: 1 page

W19  Silent Disasters: Establishing and Operationalizing New Technologies for Missing Persons Programs

Tuesday, February 22, 2022  8:30 a.m. – 12:30 p.m.  3.75 CE Hours

Learning Overview: After attending this presentation, attendees will be more familiar with the established and emerging science, law, and ethics surrounding the use of emergent DNA technologies to bring justice and closure in the wake of genocide, armed conflict, and other humanitarian crises. This includes, but is not limited to, mitochondrial DNA, autosomal Single Nucleotide Polymorphisms (SNPs), and other non-traditional markers.

Impact Statement: This workshop will showcase innovative strategies and governance considerations for implementing missing persons programs and inform laboratories and organizations to scale these programs effectively.

Program Description: This workshop explores the intersection of science, criminal justice, and peace building. Experts from academia, policy specialists, forensic practitioners, social and forensic anthropologists, and genetic genealogy data analysts will review established and emerging methods to reconnect victims to families to provide attendees with a blueprint to operationalize an end-to-end small-scale, large-scale, or national program for the identification of unidentified human remains.

W20  Novel Synthetic Opioids (NSO) in a Post-Fentanyl Analog Environment

Tuesday, February 22, 2022  1:00 p.m. – 5:00 p.m.  3.5 CE Hours

**Learning Overview:** After attending this workshop, participants will have a better understanding of how core-structure scheduling for fentanyl analogs and related drug policy actions have shifted the NSO landscape, what the new drugs on the markets are, and what challenges they pose to the scientific community.

**Impact Statement:** The presentations in this workshop will impact the forensic science community by providing an update covering the latest generation of NSO, providing comprehensive pharmacological and analytical characterization, drug chemistry and toxicology workflows, and case histories.

**Program Description:** A new generation of NSO emerged after domestic class-wide scheduling of fentanyl-related substances in February of 2018 by the United States Drug Enforcement Administration followed by Chinese legislation that controlled two popular fentanyl precursor chemicals, NPP and 4-ANPP. These actions saw fentanyl analog positivity decreased for the most part; however, there was a subsequent shift to new varieties of opioid receptor agonists. This workshop will begin with a timeline of events, NSO trends, and an introduction of the tools and workflows that have proven effective in the quick identification of these new substances. Further, these novel opioids will be characterized, including discussions about development of standardized nomenclature and naming conventions, in vitro and in vivo studies, and postmortem cases that showcase the impacts posed by these substances.

W21 The Forgotten Ones: Post-Traumatic Stress Disorder (PTSD) in First Responders

Tuesday, February 22, 2022  1:00 p.m. – 5:00 p.m.  3.75 CE Hours

Learning Overview: The goal of this presentation is to discuss various experiences of first responders from Emergency Medical Services (EMS), police, crime scene investigators, physicians, and others, in addition to different agency and regional responses to PTSD and processing of PTSD and grief. Symptoms experienced in these groups and how chronic exposure to trauma and vicarious trauma affect responders’ mental health will be identified. This workshop will include small group discussion and larger collaboration of ways to prevent and recognize PTSD in one’s home agency.

Impact Statement: This presentation will impact the forensic sciences community by addressing a serious aspect of mental health and responder well-being by discussing vicarious trauma, ways to recognize symptoms, and resources available for treatment.

Program Description: This workshop is designed to help the forensic sciences community understand the serious implications of the current mental health crisis affecting first responders. Understanding how PTSD is affecting first responders may also help address the need to research the forensic science community’s potential risk. The forensic science community is not immune to the effects of PTSD and should also investigate how PTSD could be affecting the members of the forensic science community.

Chair: Jessica L. Morel, DO
Forensic Psychiatrist
Fayetteville, NC

Co-Chair: Kathryn C. Seigfried-Spellar, PhD
Purdue University
West Lafayette, IN

Presenters:
Kyle T. Krebs, MA
Firefighter
Gilbert, AZ

Megan N. Stacy, BS
Officer
Gretna, LA

Allison N. Gaines, MS
Cobb County Medical Examiner’s Office
Marietta, GA

Giuseppe Troccoli, MD
Mental Health Services
Bari, Italy

Vivian C. Shnaidman, MD
Jersey Forensic Consulting, LLC
Princeton, NJ

Targeted Audience: Anthropology, Criminalistics, Digital & Multimedia Sciences, Engineering & Applied Sciences, General, Jurisprudence, Pathology/Biology, Psychiatry & Behavioral Science, Questioned Documents, Toxicology

Knowledge Level Required: Basic

Expected Handout Length: 40 pages
W21  The Forgotten Ones: Post-Traumatic Stress Disorder (PTSD) in First Responders

Program:

1:00 p.m. –  1:25 p.m.  
Defining PTSD/Introduction  
Jessica Morel, DO

1:25 p.m. –  1:50 p.m.  
Compassion Fatigue and Burn Out  
Kyle T. Krebs, MA

1:50 p.m. –  2:15 p.m.  
Trauma in Police and EMS  
Megan N. Stacy, MS

2:15 p.m. –  2:30 p.m.  
BREAK

2:30 p.m. –  2:55 p.m.  
What About the Last Responders?  
Allison N. Gaines, MS

2:55 p.m. –  3:20 p.m.  
Vicarious Trauma in Digital Media  
Kathryn Siegfried-Spellar, PhD

3:20 p.m. –  3:45 p.m.  
Cast Study of PTSD/Conversion Disorder  
Vivian C. Shnaidman, MD

3:45 p.m. –  4:15 p.m.  
Breakout Session in Small Groups

4:15 a.m. –  5:00 p.m.  
Group Discussion of Experiences
The Humanitarian and Human Rights Resource Center (HHRRC) of the American Academy of Forensic Sciences (AAFS), with support from the National Institute of Justice’s Forensic Technology Center of Excellence, provides needed resources and support to apply modern forensic science to global humanitarian and human rights projects. This Humanitarian and Human Rights Poster Session is a virtual open meeting where attendees can learn about the application of forensic science to investigate humanitarian and human rights injustices. Information will be available at www.forensicCOE.org.

Tuesday

Tuesday, February 22, 2022 6:00 a.m. – 8:00 p.m.

Moderator: Dawnie W. Steadman, PhD
HHRRC Chair
Director, Forensic Anthropology Center
University of Tennessee
Knoxville, TN

Co-Moderator: Jeri D. Ropero-Miller, PhD
AAFS Past President (2020-21)
Senior Director, Center for Forensic Sciences
RTI International
Research Triangle Park, NC

1. Identifying Signatures of a Single, Multiple and Mass Grave over Time; An Ongoing Research Project
Soren Blau, PhD; Jon Sterenberg, MSc

2. A Glimpse of Humanitarian Forensic Medicine in Milano: From the Arduous Tasks of Identifying the Victims of the Mediterranean to Assisting Asylum Seekers and Unaccompanied Minors
Cristina Cattaneo, MD; Danilo De Angelis, DDS; Debora Mazzarelli; Barbara Bertoglio, PhD; Giulia Caccia, MS; Pasquale Poppa, PhD; Ruggero Donida Labati; Fabio Scotti; Lorenzo Franceschetti, Andrea Palamenghi; Francesca Magli; Marco Cummaudo; Vincenzo Piuri; Silvana Riccio

3. Cultural Relativity and the Bounds of Forensic Interventions: A Case Study in Uganda
Jaymelee Kim, PhD; Tricia Redeker Hepner, PhD; Hugh Tuller, MA; Julia Hanebrink, MA; Dawnie Wolfe Steadman, PhD

4. Monitoring of Simulated Clandestine Graves of Dismembered Homicide Victims using Remote Piloted Aircraft, Electrical Tomography, and Ground Penetrating Radar to Optimize Searches in Colombia, South America
Carlos Martín Molina; Kristopher Wisniewski; Vivienne Heaton; Jamie Pringle; Edier F. Ávila, Luis Herrera; Jorge Guerrero; Miguel Saumett; Mario Duarte; Raúl Echeverri; Alejandra Baena

5. Humanitarian Identification of Violated and Disappeared Persons in Chungui District of Ayacucho-Peru
Nory Condor; Ivan Vargas

6. Construction of a National Hydrogen and Oxygen Isoscape for Colombia as a Baseline for the Identification of Region of Origin of Unidentified Victims of the Internal Armed Conflict
Daniela Orozco Ramelli; Tiffany Saul, PhD; Ana Caroline Guatame García, MSc; Jonathan Drake, MSc; Erica Andrea Castaño Osorio

7. Root Dentin Translucency and Estimation Age-at-Death in Adults Using Single-Rooted Teeth: Update of the Forensic International Dental Database
Roberto C. Parra; Gonzalo Garizoain; Karen Escalante-Flórez; Claudia Aranda; Leandro Luna; Lucio Condori; Clara Valderrama-Leal; Fernando Retana-Milán

8. Reflections on Methods to Estimate Race and Ancestry on Reference Osteological Samples in the Brazilian Context
Cláudia Regina Plens; Camila Diogo De Souza; John Albanese; Thais Torralbo Lopes Capp; Luiz Airton Saavedra

All times are in the U.S. Pacific Time Zone 69
The National Institute of Justice (NIJ) Forensic Science R&D Symposium is an open meeting where attendees can learn about NIJ-funded research across a variety of forensic science areas. The 2022 NIJ R&D Symposium will be held March 1-2, 2022, and will be 100% virtual event. Feel free to log on and browse posters, listen to specific presentations, or attend both days and learn about the diverse NIJ forensic science R&D portfolio. NIJ will also feature a poster session again this year highlighting recent research. The poster session will start February 28, 2022, at Noon (EST) and remain open for viewing through March 2, 2022.

You can register, find all presentations, and additional information at https://forensiccoe.org/2022-nij-forensic-science-rd-symposium/.

**Tuesday, March 1, 2022**  
10:00 a.m. - 5:50 p.m. (Eastern Standard Time)

**TRACK 1**

**Session I – Impression and Pattern Evidence/Trace Evidence**  
*Moderated by NIJ Program Manager Gregory Dutton*

- 10:00 a.m. - 10:05 a.m.  
  Welcome and Opening Remarks  
  *Gregory Dutton, National Institute of Justice*

- 10:05 a.m. - 10:30 a.m.  
  Validating Conclusion Scales in the Forensic Sciences  
  *Thomas Busey, Indiana University*

- 10:30 a.m. - 10:55 a.m.  
  Assessing Error Rates in Multiple Examiner Groups Using Regression Methods  
  *Larry Tang, University of Central Florida*

- 10:55 a.m. - 11:20 a.m.  
  Evaluating the Spatial Distribution of Randomly Acquired Characteristics on Outsoles  
  *Jacqueline Speir, West Virginia University*

- 11:20 a.m. - 11:35 a.m.  
  Q&A

- 11:35 a.m. - 11:45 a.m.  
  Break

- 11:45 a.m. - 12:10 p.m.  
  Advancing Reporting of Significance from the Analysis and Comparison of Glass Evidence: A Global Collaboration  
  *Jose Almirall, Florida International University*

- 12:10 p.m. - 12:35 p.m.  
  Attenuated Total Reflection Infrared Microscopic Analysis of Simulated Automotive Paint Smears for Vehicle-Vehicle Collisions  
  *Barry K. Lavine, Oklahoma State University*

- 12:35 p.m. - 1:00 p.m.  
  Analysis of Small Particles Adhering to the Edges of Duct Tape as a Means to Make Associations in a Way that is Independent of Manufactured Characteristics  
  *David A. Stoney, Stoney Forensic, Inc.*

- 1:00 p.m. - 1:15 p.m.  
  Q&A

- 1:15 p.m. - 2:15 p.m.  
  Break
2:15 p.m. - 2:20 p.m. Welcome and Opening Remarks
Frances Scott, National Institute of Justice

2:20 p.m. - 2:40 p.m. Development of an Isotope Dilution Gas Chromatography-Mass Spectrometry Method for the Determination of THC in Seized Cannabis Samples
Walter Brent Wilson, National Institute of Standards and Technology

2:40 p.m. - 3:00 p.m. Development of a Validated UHPLC-DAD Method With Optional ESI/TOFMS Detection for Rapid Quantification of D9-THC and D9-THCA-A Among Sixteen Cannabinoids in Hemp Concentrates
Liguo Song, Western Illinois University

3:00 p.m. - 3:20 p.m. Quantitative Analysis of Δ9-Tetrahydrocannabinol (THC) in the Presence of THC Isomers in Biological Specimens Using Liquid Chromatography Tandem Mass Spectrometry
Rebecca Wagner, Virginia Department of Forensic Science

3:20 p.m. - 3:40 p.m. Development of a Hemoglobin Modification Assay for Retrospective Detection of Drug Exposure
Anthony P. DeCaprio, Florida International University

3:40 p.m. - 4:00 p.m. Q&A

4:00 p.m. - 4:10 p.m. Break

4:10 p.m. - 4:30 p.m. Evaluation of the NIST/NIJ DART-MS Data Interpretation Tool for Seized Drug Analysis
Edward Sisco, National Institute of Standards and Technology

4:30 p.m. - 4:50 p.m. Fusion of DART-HRMS-Derived Dark Matter and Infrared Spectroscopy for the Identification of New Psychoactive Substances
Rabi Ann Musah, State University of New York at Albany

4:50 p.m. - 5:10 p.m. Expert Algorithm for Substance Identification (EASI) From Mass Spectra
Glen P. Jackson, West Virginia University

5:10 p.m. - 5:30 p.m. NPS Discovery Toolkits: Real-Time Identification and Dissemination of Information Regarding Novel Psychoactive Substances (NPS)
Sara E. Walton, Center for Forensic Science Research and Education

5:30 p.m. - 5:50 p.m. Q&A
Wednesday, March 2, 2022
10:00 a.m. - 5:00 p.m. (Eastern Standard Time)

TRACK 2

Session III – Forensic Biology/DNA
Moderated by NIJ Program Manager Tracey Johnson

10:00 a.m. - 10:05 a.m. Welcome and Opening Remarks
Tracey Johnson, National Institute of Justice

10:05 a.m. - 10:25 a.m. Verification and Evaluation of a miRNA Panel for Body Fluid Identification Using DNA Extracts
Sarah Seashols-Williams, Virginia Commonwealth University

10:25 a.m. - 10:45 a.m. Evaluation of Precision ID GlobalFiler™ NGS STR Panel
Elisa Wurmbach, City of New York

10:45 a.m. - 11:05 a.m. Variation in Laboratory Policies and Procedures Related to Interpretation of DNA Mixtures
Austin Hicklin, Noblis, Inc.

11:05 a.m. - 11:20 a.m. Q&A

11:20 a.m. - 11:35 a.m. Break

11:35 a.m. - 11:55 a.m. Interpretation of Y Chromosome STRs for Missing Persons Cases
Jianye Ge, University of North Texas Health Science Center at Fort Worth

11:55 a.m. - 12:15 p.m. Assessment of Sexual Assault Kit (SAK) Evidence Selection Leading to Development of SAK Evidence Machine-Learning Model (SAK-ML Model)
Julie L. Valentine, Utah Department of Public Safety

12:15 p.m. - 12:45 p.m. Interpretation of Y-STR Evidence
Bruce Weir, University of Washington

12:45 p.m. - 1:00 p.m. Q&A

1:00 p.m. - 1:15 p.m. Break

Session IV – Forensic Anthropology and Forensic Pathology
Moderated by NIJ Program Manager Danielle McLeod-Henning

2:10 p.m. - 2:15 p.m. Welcome and Opening Remarks
Danielle McLeod-Henning, National Institute of Justice

2:15 p.m. - 2:35 p.m. Discovering Clandestine Human Remains Using Unmanned Aerial System Based Remote Sensing
Daniel Wescott, Texas State University

2:35 p.m. - 2:55 p.m. Microbial Clocks of Human Decomposition Accurately Estimate Postmortem Interval
Zachary M. Burcham, Colorado State University

2:55 p.m. - 3:15 p.m. Progress Towards the Development of a Database of Chemical Fingerprint Signatures for Species Identification of Necrophagous Insects
Rabi Ann Musah, State University of New York at Albany

3:15 p.m. - 3:30 p.m. Q&A

3:30 p.m. - 3:45 p.m. Break
### Poster Session

#### Monday, February 28, 2022
12:00 p.m. – 5:00 p.m. (EST)

#### Tuesday, March 1, 2022
10:00 a.m. – 6:00 p.m. (EST)

#### Wednesday, March 2, 2022
10:00 a.m. – 6:00 p.m. (EST)

1. **FileTSAR+: An Elastic Network Forensic Toolkit**  
   *Kathryn Seigfried-Spellar, Purdue University*

2. **Development of the Forensic Anthropology Skeletal Trauma (FAST) Database**  
   *Angela L. Harden, Ohio State University*

3. **Shape Atlas and Bone Structure Analysis for Body Mass Estimation: Workflow and Potential**  
   *Adam D. Sylvester, Texas State University*

4. **Software Tool and Methodology Supporting Post-mortem Iris Recognition**  
   *Adam Czajka, University of Notre Dame Du Lac*

5. **GIS Application for Building a Nationally Representative Forensic Taphonomy Database**  
   *Katherine Weisensee, Clemson University*

   *Brianna Spear, Florida International University*

7. **Building the Chemical Foundation Necessary for a Reliable Cannabis Breathalyzer**  
   *Tara M. Lovestead, National Institute of Standards and Technology*

8. **Methods of Associating Forensic Examiner Performance with Experience, Training, and Other Background Attributes**  
   *Nicole Richetelli, Noblis*

9. **Black Box Evaluation of Bloodstain Pattern Analysis Conclusions**  
   *Austin Hicklin, Noblis*

10. **Kendrick Mass Defect Plots: Guided Selection of Compounds for Fingerprint Aging Models**  
    *Andrew Paulson, Iowa State University*

11. **Reaction Kinetics in Fingerprint Aging Studied by Laser Desorption/Ionization Mass Spectrometry**  
    *Daphne R. Patten, Iowa State University*

12. **Quantitative Matching of Forensic Evidence Fragments Utilizing 3D Microscopy Analysis of Fracture Surface Replicas**  
    *Ashraf F. Bastawros, Iowa State University*

13. **On-Site Noninvasive Sensing of Illicit Compounds**  
    *Jan Halamek, Texas Tech University*

    *Tiegang Fang, North Carolina State University*

15. **Expanding the Use of 3D Surface Topography Analysis in Firearm Forensics**  
    *Ryan Lilien, Cadre Research Labs*
16. Audio Forensic Analysis From Unsynchronized User Generated Audio Recordings  
   Robert C. Maher, Montana State University

17. When Bloodstain Eccentricity Depends on More Than the Impact Incidence Angle  
   Garam Lee, Boston University

18. Study of the Reliability of Fire Pattern Indicators Used in Wildland Fire Investigation  
   Juan Cuevas, Worcester Polytechnic Institute

19. Experimental and numerical investigation of gypsum calcination when exposed to uniform heat flux  
   Shijin P. Kozhumal, Eastern Kentucky University

20. Identification of Low Explosives and Their Post-Blast Residues Via Gas Chromatography (GC) Coupled With Vacuum Ultraviolet (VUV) Spectroscopy  
   Courtney Cruse, Indiana University Purdue University Indianapolis (IUPUI)

   Igor K. Lednev, State University of New York at Albany

22. Comparison of Weathering Profiles of Ignitable Liquids by Gas Chromatography-Mass Spectrometry and Direct Analysis in Real-Time Mass Spectrometry  
   Mengliang (Mike) Zhang, Middle Tennessee State University

23. Post-Blast Explosives Attribution  
   Paul Ippoliti, MIT Lincoln Laboratory

24. Extraction of Ignitable Liquid Residues by Dynamic Capillary Headspace Sampling and Comparison to the Carbon Strip Method  
   Kavita M. Jeerage, National Institute of Standards and Technology

   Igor Lednev, Research Foundation for the State University of New York

26. Extended Extension PCR: A Simple Technique for Improved Amplification of Aged, Degraded, and Low Copy Number DNA Samples Compromised by PCR Inhibitors  
   Mary Faith C. Flores, University of Oklahoma

27. The Development of Epigenetic Markers for Body Fluid Analysis and Phenotype  
   Bruce McCord, Florida International University

28. Developing Multiplex Microhaplotype Sequencing for Mixture Detection and Deconvolution  
   Kenneth K. Kidd, Yale University

29. Exploration of RNA Degradation in Dried Body Fluid Stains as a Means of Estimating the Age of the Samples  
   Robert W. Allen, Oklahoma State University

30. Comparison of GlobalFiler™ and PowerPlex® Fusion 6C for Direct PCR Amplification of Touch DNA Samples  
   Anna Salmonsen, Bode Cellmark Forensics, Inc.
Discover solutions to help advance your forensic laboratory’s success

Learn how we’re listening to your challenges and providing answers to help you uncover the truth

From forensic toxicology testing with Thermo Scientific™ products to human identification testing with Applied Biosystems™ products, we’re transforming the way forensic scientists work.

In order to keep BYOS.ppt informal, fun, and informative for the large and diverse audience, here are a few things to keep in mind for the BYOS.ppt program at the 2022 AAFS Annual Conference in Seattle, WA:

- Presentations must be in PowerPoint® format. 35mm slides are not accepted.
- Proposals must be submitted on this form accompanied by a "6-slides-per-page" printout of the presentation and an electronic copy on CD or flash drive.
- BYOS is not intended as a forum to present scientific papers. It is designed as a means to present interesting information and/or unusual case(s) that may be educational and blended with humor.
- Speakers should plan on ten minutes in which to present their material.
- Material being presented in other parts of the AAFS scientific program will not be accepted at BYOS.ppt.
- Tables, charts, and graphs should be avoided, making every effort to use slides of scenes, bodily findings, and evidence.

This completed form, a "6-slides-per-page" printout, and the electronic presentation copy should be delivered to the on-site AAFS Registration Desk by 4:00 p.m. on Wednesday, February 23, 2022. Presentations will be selected and scheduled based on perceived interest to the audience and in the order in which the completed submissions are received. This form and required printout are needed to organize the BYOS.ppt program and to allow appropriate allocation of continuing education credit. A BYOS.ppt Program Form also will be placed in each registrant's meeting packet.

### BYOS PROGRAM FORM

<table>
<thead>
<tr>
<th>Name and Degree(s):</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Job Title:</td>
<td></td>
</tr>
<tr>
<td>Place of Employment:</td>

The presentation is being offered primarily to:
- Solicit input/advice on a challenging case
- Present interesting information or case(s) for education purposes
- Entertainment

Presentation is:
- A single case
- A series of cases with a common topic
- Multiple cases with unrelated topics
- Other (please specify):  

Briefly describe the material to be presented:

What are the major points to be emphasized?:

How will the attendees benefit from this presentation?:

Is there commercial interest in the material being discussed?:  

How much presentation time is required?: ________ minutes  
How many PowerPoint® slides will be shown?: ________

Presenter's local hotel:  
Room #:  
Phone #:  

U.S. Cell Phone:  
Email you can access while at the meeting:  

The BYOS agenda, scheduled presentation times, and continuing education credit hours will be posted near the BYOS meeting room.
SCIENTIFIC SESSIONS
Wednesday

Poster Session

11:30 a.m. – 1:00 p.m.  A1  Pedagogical Access and Ethical Considerations in Forensic Anthropology and Bioarchaeology
Mickey Spiros, MSc*; Amber Piemons, MA; Jack Biggs, BA

11:30 a.m. – 1:00 p.m.  A2  A Virtual Anthropological Approach to Assessing the Similarity of Joint Surfaces With Applications for Sorting Commingled Human Remains
Helen Brandt–Litavec, MS*
(FSF Emerging Forensic Scientist Award Poster Presentation)

11:30 a.m. – 1:00 p.m.  A3  The Segregation of Individuals From Large Commingled Assemblages Via Stable Isotope Ratio Analysis of Bone Collagen
Mary Megyesi, PhD*; Gregory Berg, PhD; Lesley Chesson, MS

11:30 a.m. – 1:00 p.m.  A4  Forensic Anthropology Casework at the Cook County, Illinois, Medical Examiner’s Office, 2012–2020
Erin Waxenbaum, PhD*; Anne Grauer, PhD

11:30 a.m. – 1:00 p.m.  A5  Myriad Maps and Applied Anthropology: Needs and Limitations
Molly Miranker, MA

11:30 a.m. – 1:00 p.m.  A6  Documenting Outdoor Simulated Scenes With Photogrammetry: Methods for Improving Dappled Lighting Conditions
Caroline Jasiak, MA*; John Schultz, PhD; Morgan Ferrell, MA

11:30 a.m. – 1:00 p.m.  A7  Tracing Academic Relatedness Via the Forensic Anthropology Phylogeny (FAP)
Katharina Kolpan, PhD*

11:30 a.m. – 1:00 p.m.  A8  Exploring Forensic Research Interests of a United States–Based Anthropology Faculty
Rhian Dunn, MS*; Christopher Rainwater, MS; Nicholas Passalacqua, PhD

11:30 a.m. – 1:00 p.m.  A9  Advances in Sorting Commingled Human Remains: A Preliminary Study Using the Subtalar Joint
Ioanna Anastopoulou, PhD; Nikoletta Manta, MSc; Konstantinos Katsos, MD, PhD; Emmanouil Sakelliadis, MD, MSc, PhD; Konstantinos Moraitis, MSc, PhD*

11:30 a.m. – 1:00 p.m.  A10  Calculating the Minimum Number of Individuals (MNI) and Most Likely Number of Individuals (MLNI) for a Commingled Fetal and Infant Remains Sample
Ariana V. Agyemang, BS*; Helen Brandt–Litavec, MS; Elizabeth A. DiGangi, PhD

11:30 a.m. – 1:00 p.m.  A11  We Take Care of Our Own: Utilizing the LGBT+ Accountability for Missing and Murdered Persons (LAMMP) Database
Anthony Redgrave, MS*; Amy Michael, PhD; Jessica Veltstra, MS; Samantha Blatt, PhD; Mariyam Isa, PhD

11:30 a.m. – 1:00 p.m.  A12  Applying a Biocultural Signature of Embodied Stress to Identify Latin American Migrants From a Cold Case Sample in South Florida
Enrique Plasencia, BA*; Allysha Winburn, PhD

11:30 a.m. – 1:00 p.m.  A13  OsteoID: A Freely Available Tool for Skeletal Species Identification
Heather Garvin, PhD*; Rachel Dunn, PhD; Sabrina Sholetts, PhD; M. Schuyler Litten, MA; Merna Mohamed, MSC; Nathan Kuttickat, BSc; Noah Skantz, BS, BA
11:30 a.m. – 1:00 p.m.  **A14**  Assessing Opioid Exposure and Opioid Overdose Deaths in Skeletal Casework Through Collaboration With Organ Procurement Organizations  
Janna Andronowski, PhD; Randi Depp, MS*

11:30 a.m. – 1:00 p.m.  **A15**  Evaluating the Effect of Cocaine Use on Dorsum Sellae (DS) Demineralization  
Tanin Zadeh, MS*; Ellen Fricano, PhD; Vicki Wedel, PhD

11:30 a.m. – 1:00 p.m.  **A16**  The Effects of Prolonged Opioid Exposure on Bone Fracture Strength of Rabbit Middle Ribs  
Reed Davis, MSc*; Mary Cole, PhD; Henry Astley, PhD; Janna Andronowski, PhD

11:30 a.m. – 1:00 p.m.  **A17**  Understanding Skeletal and Body Donation in Forensic Anthropology: Development and Procedures  
Kerianne Armelli, MS*; Rhian Dunn, MS; Carolyn Isaac, PhD

11:30 a.m. – 1:00 p.m.  **A18**  Modeling Grave Depressions Using Open–Source Light Detection And Ranging (LiDAR) Data at the Forensic Anthropology Research Facility  
Mariiah Moe, MA*; Shelby Garza, MA; Nicholas Herrmann, PhD  
*FSF Emerging Forensic Scientist Award Poster Presentation*

11:30 a.m. – 1:00 p.m.  **A19**  WITHDRAWN

11:30 a.m. – 1:00 p.m.  **A20**  A Robust Methodology for Stable Isotope Analysis of Human Tooth Enamel  
Francesca Spencer, BS, BA*; Kirsten Verostick, PhD; Alejandro Serna, PhD; Lesley Chesson, MS; Gregory Berg, PhD; Gabriel Bowen, PhD

11:30 a.m. – 1:00 p.m.  **A21**  Repatriation and Responsibility: Consideration Beyond Traditional Constructs  
Rose Leach, MA*; Kerianne Armelli, MS

11:30 a.m. – 1:00 p.m.  **A22**  A Morphometric Comparison of Eight Small Non–Human Species of Long Bones to Juvenile Human Long Bones for the Purpose of Identification in a Forensic Context  
Kaitlyn Schoonover, BS*; Luis Cabo, MS

11:30 a.m. – 1:00 p.m.  **A23**  A Spatiotemporal Analysis of the National Missing and Unidentified Persons System (NamUs) Unidentified Person Cases Along the United States–Mexico Border  
Justin Z. Goldstein, MA*; Courtney Siegert, MA; Nicholas Herrmann, PhD  
*FSF Emerging Forensic Scientist Award Poster Presentation*

11:30 a.m. – 1:00 p.m.  **A24**  Developing a Tissue–Specific Multi–Isoscape ($\delta^{18}$O and $87$Sr/$86$Sr) to Estimate Region of Origin  
Julianne Sarancha, MS*; Alexis Baide, MA; Clare Dittemore, BA; Thomas Delgado, BA; Gabriel Bowen, PhD

11:30 a.m. – 1:00 p.m.  **A25**  Last Seen Location: Using Missing Persons Data for Identification in Forensic Anthropology  
Liam Johnson, MA*; Teresa Wilson, PhD

11:30 a.m. – 1:00 p.m.  **A26**  Understanding the Spatial Relationships Between the National Missing and Unidentified Persons System (NamUs) Unidentified and Missing Persons Cases in Texas  
Shelby L. Garza, MA*; Justin Z. Goldstein, MA

3: 45 p.m. – 4:00 p.m.  A108  Disciplinary and Community Ethics Surrounding Gender– and Sex–Diverse Individuals in
Forensic Casework
Laura Cirillo, MA*; Marin Pilloud, PhD; Jaxson Haug, MA

4:00 p.m. – 4:15 p.m.  A109  Necropolitics and Trans Identities: Language Use as Structural Violence
Thomas Delgado, BA*; Kinsey Stewart, MA

4:15 p.m. – 4:30 p.m.  A110  Identifying Transgender and Gender–Variant Individuals in Public Records: Reconciling
Differences Between Law Enforcement Data and Non–Government Organizations (NGOs)
Raphaela Meloro, MA*; Fatimah Bouderdaben, BS

4:30 p.m. – 4:45 p.m.  A111  Identifying Trans Individuals From Skeletal Remains: Indicators of Gender–
Affirming Interventions
Angelica Bourgeault, MSc*

4:45 p.m. – 5:00 p.m.  A112  Supporting the Positive Identification of Trans Men in Forensic Anthropological Contexts
Jenna Schall, MSc*; Tracy Rogers, PhD; Jordan Deschamps–Braly, MD, FACS

5:00 p.m. – 5:15 p.m.  A113  When a Reanalysis Changes Everything: A Cold Case Study of a Possible Gender–
Variant Individual
Alexis Goots, MA*; Carolyn Isaac, PhD; Todd Fenton, PhD

5:15 p.m. – 5:30 p.m.  DISCUSSION
**Friday—Session I**

**Pioneers of Color: A Diverse Narrative of Forensic Anthropology**

**Moderator:**
An-Di Yim, PhD  
Truman State University  
Kirkville, MO

**Co–Moderator:**
Chaunesey M.J. Clemmons, MA  
Texas State University  
Austin, TX

8:30 a.m. – 8:45 a.m.  **A114**  
**A Diverse Past, Present, and Future: Resituating the Anthro in Forensic Anthropology**  
Chaunesey M.J. Clemmons, MA*; Matt C. Go, PhD; Alba E. Craig, BA; Isis Dwyer, MA; Aaron J. Young, MA; Kamar Afra, MA

8:45 a.m. – 9:00 a.m.  **A115**  
**A Counter–Pantheon to Forensic Anthropology’s Classic Luminaries**  
Jesse R. Goliath, PhD*; Matthew C. Go, PhD; Allison Nesbitt, PhD; Aaron J. Young, MA; Sydney S. Garcia, MA

9:00 a.m. – 9:15 a.m.  **A116**  
**Back to Black: The Legacy and Contributions of Black Pioneers of the 20th Century**  
Isis Dwyer, MA*; Tisa N. Loewen, MA; Chaunesey M.J. Clemmons, MA; Evonne Turner–Byfield, MSc; Jesse R. Goliath, PhD; Allison Nesbitt, PhD; Carter Clinton, PhD; Kendra Isable, MA

9:15 a.m. – 9:30 a.m.  **A117**  
**Drawing Parallels: Black, Indigenous, and People Of Color (BIPOC) Representation in Other Medicolegal Fields**  
An-Di Yim, PhD*; Jessica Juarez, PhD; Jesse Goliath, PhD; Isabel Melhado

9:30 a.m. – 9:45 a.m.  **A118**  
**Objectivity in the Historical Narrative of Forensic Anthropology**  
Kamar Afra, MA*; Elaine Y. Chu, MA; Sydney S. Garcia, MA

9:45 a.m. – 10:00 a.m.  **A119**  
**Forensic Anthropology’s Role in Activism and Advocacy**  
Fatimah A. Boudedaben, B5*; Ivanna Robledo, MA; Alba Craig, BA; Sydney S. Garcia, MA; Tanya Ramos, BA; Evonne Turner–Byfield, MSc

10:00 a.m. – 10:15 a.m.  **A120**  
**The (Colonial) Impacts of (Western) Forensic Anthropology in the International Sphere**  
Nandar Yukyi, MA*; An-Di Yim, PhD; Matthew C. Go, PhD; Ivanna Robledo, MA

10:15 a.m. – 10:30 a.m.  **A121**  
**Homework for Modern Forensic Anthropologists**  
Elaine Y. Chu, MA*; Nandar Yukyi MA; Matthew C. Go, PhD

10:30 a.m. – 11:00 a.m.  **DISCUSSION**

ANTHROPOLOGY

Friday—Session II

Taphonomy and the Postmortem Interval

**Moderator:** Kyle A. McCormick, PhD  
Defense POW/MIA Accounting Agency  
Joint Base Pearl Harbor–Hickam, HI

**Co–Moderator:** Michala K. Stock, PhD  
Metropolitan State University of Denver  
Denver, CO

8:45 a.m. – 9:00 a.m. **A156**  
Toward a Model for Estimating Postmortem Interval (PMI) at High Altitude: Categorical Macromorphoscopic Changes Observed Throughout the Trajectory of Human Decomposition in the Colorado Rocky Mountains  
Christiane Baigent, MSc*

9:00 a.m. – 9:15 a.m. **A157**  
Modeling Scavenging Patterns Within the Willamette Valley of Oregon to Inform Search Structure in Medicolegal Investigations  
Cheyenne Collins, BS*; Jeanne McLaughlin, PhD; Ashley Kendell, PhD

9:15 a.m. – 9:30 a.m. **A158** WITHDRAWN

9:30 a.m. – 9:45 a.m. **A159**  
Testing the Efficacy of Bone Surface Swab Sampling of Microbial Colonization to Determine Postmortem Submersion Interval (PMSI) in Lentic and Lotic Environments  
Sarah Rose, BSc*; Hannah Johnson, MSc; Claire Cartozzo, PhD; Jenise Swali, PhD; Tal Simmons, PhD; Baneshwar Singh, PhD

9:45 a.m. – 10:00 a.m. BREAK

Age–at–Death Estimation

**Moderator:** Kate M. Lesciotto, PhD  
Sam Houston State University  
Conroe, TX

**Co–Moderator:** Alex Wong, BA  
University of Indianapolis  
Indianapolis, IN

10:00 a.m. – 10:15 a.m. **A160**  
Improving Age–at–Death Estimation in Forensic Anthropology Applying a Translational Approach  
Sara C. Zapico, PhD*; Quentin Gauthier, PhD; Aleksandra Antevska, BS; Bruce McCord, PhD

10:15 a.m. – 10:30 a.m. **A161**  
Reference and Target Sample Age Distribution Effects in Juvenile Dental Age Estimation  
Valerie Sgheiza, MA, MS*; Helen Liversidge, PhD  
(FSF Emerging Forensic Scientist Award Oral Presentation)

10:30 a.m. – 10:45 a.m. **A162**  
An Age–at–Death Estimation Using Cementochronology in Thermally Altered Teeth  
Ryen Weaver, MS*; Anthony Falsetti, PhD; Timothy Gocha, PhD; Joseph DiZinno, DDS  
(FSF Emerging Forensic Scientist Award Oral Presentation)

10:45 a.m. – 11:00 a.m. **A163**  
Estimating Adult Age Using Radiographs of the Proximal Femur  
Jong In Kim, HBSc*; Tracy Rogers, PhD

All times are in the U.S. Pacific Time Zone
11:00 a.m. – 11:15 a.m.  A164  From Subadult to Adult: Growth of the Cranial Complex and Its Implications in Forensic Anthropology
Christopher A. Wolfe, MA*; Briana T. New, MA; Louise K. Corron, PhD; Kate Spradley, PhD; Kyra E. Stull, PhD

11:15 a.m. – 11:30 a.m.  A165  From Subadult to Adult: The Expression of Cranial Macromorphoscopic Traits Through Ontogeny
Kyra E. Stull, PhD*; Elaine Chu, MA; Louise Corron, PhD

11:30 a.m. – 11:45 a.m.  A166  From Subadult to Adult: Understanding Univariate Craniometric Growth Patterns
Briana T. New, MA*; Christopher A. Wolfe, MA; Louise K. Corron, PhD; Kate Spradley, PhD; Kyra E. Stull, PhD

11:45 a.m. – 1:00 p.m.  BREAK

Microscopic, Molecular, and Atomic Techniques

Moderator:
Heather A. Walsh-Haney, PhD
Florida Gulf Coast University
Fort Myers, FL

Co–Moderator:
Devin Adcox
California State University at Chico
Chico, CA

1:00 p.m. – 1:15 p.m.  A167  Are Stable Isotopes Truly Stable Enough for Forensic Applications? Forensic Stable Isotope Research at a Human Decomposition Facility
Melanie Beasley, PhD*

1:15 p.m. – 1:30 p.m.  A168  The Significance of Sociocultural Covariates in Stable Oxygen Isotope Analysis: Implications for Region–of–Origin Predictions for Global Populations
Taylor Lambrigger, BS*

1:30 p.m. – 1:45 p.m.  A169  The Detection of Bone Particles in Non–Carbonate Soils
Angi Christensen, PhD*; Ian Saginor, PhD

1:45 p.m. – 2:00 p.m.  A170  Longitudinal Effects of Prolonged Opioid Use on Cortical Bone Remodeling in a Rabbit Model: Part II—Intraskeletal Histological Variability and Regional Differences
Janna Andronowski, PhD*; Mary Cole, PhD; Reed Davis, MSc; Adam Schuller, BSc; Gina Tubo, BSc; Abigail LaMarca, BSc; Joshua Taylor, BSc

2:00 p.m. – 2:15 p.m.  BREAK
## ANTHROPOLOGY

### Thermal Trauma & Burn Pattern Analysis

**Moderator:** Lindsay H. Trammel, PhD  
**St. Louis County Office of the Medical Examiner**  
**St. Louis, MO**

Poster Session

11:30 a.m. – 1:00 p.m.  B1  Development and Validation of the InnoXtract™ DNA Extraction Method for Bone and Teeth Samples
Mah-Ro Khan, MS*; Hiromi Brown, PhD; Hailey Holt, BS; Joanne B. Sgueglia, BA; Sudhir K. Sinha, PhD

11:30 a.m. – 1:00 p.m.  B2  The Effects of Temperature and Precipitation on the Amount of Recoverable Human DNA From Soil During Decomposition
Wesley Wagner*; Pamela L. Marshall, PhD

11:30 a.m. – 1:00 p.m.  B3  Extraction Efficiency Testing of Degraded Bone Samples: Comparing Two Extraction Methods for Use in Downstream Massively Parallel Sequencing (MPS) Applications
Emily Deem, BS*; Katie Zejdlik, PhD; Tiffany Saul, PhD; Frankie West, PhD
(FSF Emerging Forensic Scientist Award Poster Presentation)

11:30 a.m. – 1:00 p.m.  B4  Evaluating the Effectiveness of Microbial DNA Extraction Kits for Intimate Samples
Grace Rutledge, BS*; Aaron Lynne, PhD; Rachel Houston, PhD; Sheree Hughes, PhD
(FSF Emerging Forensic Scientist Award Poster Presentation)

11:30 a.m. – 1:00 p.m.  B5  The Development of a Fully Automated System Employing Parallel Processing for Highly Efficient Extraction and Purification of DNA From a Range of Challenging Samples
Matthew Ludeman, PhD*; Angela Chen, MS; Leo Lai, BSc; Julio Mulero, PhD; William Hutchens, BSc; Kevin Miller, PhD

11:30 a.m. – 1:00 p.m.  B6  A Comparison of Five DNA Extraction Methods to Extract Genomic DNA From Human Body Fluid and Fly Artifact Samples
Alexis Garloff*; Kelly Elkins, PhD; David Rivers, PhD

11:30 a.m. – 1:00 p.m.  B7  A Comparison of DNA Extraction Techniques for the Recovery of Bovine DNA From Maggot Crops
Cesar Cantu, BS*; Sibyl Bucheli, PhD; Rachel Houston, PhD
(FSF Emerging Forensic Scientist Award Poster Presentation)

11:30 a.m. – 1:00 p.m.  B8  Magnetic Bead Capture of Sperm Cells by Sperm-Specific Antibodies
Samantha Davis, MS*; Julia Wang, MS; Rachel Houston, PhD; Sheree Hughes, PhD; Brendan Chapman, BSc; Andrew Currie, PhD

11:30 a.m. – 1:00 p.m.  B9  DNA Methylation of Decedent Blood Samples to Estimate the Chronological Age of Human Remains
Patrick Yew, MS*; Yessenia Anaya, MS*; Katherine Roberts, PhD; Winters Hardy, PhD

11:30 a.m. – 1:00 p.m.  B10  An Improved Method for the Analysis of Bisulfite Modified DNA Samples
Deborah Silva, PhD*; Caitlin Lydon

11:30 a.m. – 1:00 p.m.  B11  The Use of a Mobile Fingerprint Identification Device in the Field and DNA Evidence: Benefits and Consequences
Amber Wetherbee; Hope Hardman*; Nasir Butt, DPhil; Dawn Schilens, BS; Thomas Gilson, MD
(FSF Emerging Forensic Scientist Award Poster Presentation)

11:30 a.m. – 1:00 p.m.  B12  Evaluating Different Collection Tools for Transfer DNA Deposited on Wooden Surfaces
Antonia Atkinson, BS*; Alba Craig, BA; Krista Latham, PhD; Cynthia Cale, MS

Thursday—Session I

Standards Development and What We Think

Moderator: Ashley Hall, PhD
University of Illinois at Chicago
Chicago, IL

8:30 a.m. – 8:45 a.m. B39 Community Resources and Updates From the Scientific Working Group for DNA Analysis Methods (SWGDAM) Next Generation Sequencing (NGS) Committee

Katherine Gettings, PhD*

8:45 a.m. – 9:00 a.m. B40 Standards Development Activities in Human Forensic Biology

Kristy Kadash, PhD*; Beth Ordeman, MS

9:00 a.m. – 9:15 a.m. B41 A Short Tandem Repeat (STR) Sequence Nomenclature Update From the Short Tandem Repeat: Align, Name, Define (STRAND) Working Group

Katherine Gettings, PhD*; David Ballard, PhD; Martin Bodner, PhD; Jonathan King, MS; Walther Parson, PhD; Christopher Phillips

9:15 a.m. – 9:30 a.m. B42 An Evaluation of the Current Opinion of Next Generation Sequencing (NGS) Technology in Forensics Through a Global Survey

Megan Foley, MSFS*; Fabio Oldoni, PhD

9:30 a.m. – 9:45 a.m. B43 American Forensic Practitioners’ Opinions on Activity-Level DNA Reporting

Yoon Yang MS; Mechthild Prinz, PhD; Heather McKiernan, PhD; Fabio Oldoni, PhD*

9:45 a.m. – 10:00 a.m. BREAK

Forensic Biology at Human Decomposition Facilities

Moderator: Sheree R. Hughes, PhD
Sam Houston State University
Huntsville, TX

10:00 a.m. – 10:15 a.m. B44 Microbial Dynamics of Human Decomposition Accurately Estimate Postmortem Interval

Zachary Burcham*; Aerial Belk; Alexandra Emmons, PhD; Heather Deel, BS; Amina Bousslimani; Zhenjiang Xu, PhD; Qiyun Zhu; Sibyl Bucheli, PhD; Aaron Lynne, PhD; Melissa Connor, PhD; Dawnie Steadman, PhD; Giovanna Vidoli, PhD; Sasha Reed; Michael Shaffer; Kelly Wrighton; Parsa Ghadermazi; Joshua Chan; David Carter, PhD; Rob Knight, PhD; Jessica Metcalf, PhD

10:15 a.m. – 10:30 a.m. B45 A Pilot Study of Microbial Succession in Human Rib Skeletal Remains During Terrestrial Decomposition

Heather Deel, BS*; Alexandra Emmons, PhD; Jennifer Kiely, BS; Franklin Damann, PhD; David Carter, PhD; Aaron Lynne, PhD; Rob Knight, PhD; Zhenjiang Xu, PhD; Sibyl Bucheli, PhD; Jessica Metcalf, PhD

10:30 a.m. – 10:45 a.m. B46 Forensic Microbiology of Human Cadavers in an Experimental Mass Grave

Noemi Procopio, PhD*; Sarah Gino, MD; Onengiye Ogbanda, MSc; Timothy P. Gocha, PhD; Daniel J. Wescott, PhD; Hayley L. Mickleburgh, PhD

All times are in the U.S. Pacific Time Zone
10:45 a.m. – 11:00 a.m.  **B47**  
**Bone Fluorescence, Taphonomy, and the Postmortem Interval (PMI)**  
Natalie Moss*; Alexander Smith; Melissa Connor, PhD  
*(FSF Emerging Forensic Scientist Award Oral Presentation)*

11:00 a.m. – 11:15 a.m.  **B48**  
**Bone “Soft” Maceration Procedures at Human Taphonomy Facilities: How “Soft” Are They Really?**  
Noemi Procopio, PhD*; Luke William Gent, BS; Andrea Bonicelli, PhD

11:15 a.m. – 11:30 a.m.  **B49**  
**The Optimization of the InnoXtract™ Extraction and Purification System for DNA Extraction From Skeletal Samples and Analysis of Subsequent Downstream Processing Methods**  
Jennifer Snedeker, BS*; David Russell, MS; Michelle Peck, MSc; Amy Holmes, PhD;  
Elayna Ciuzio, MS; Christina Neal, MS; Carmen Reedy, PhD; Sheree Hughes, PhD;  
Rachel Houston, PhD  
*(FSF Emerging Forensic Scientist Award Oral Presentation)*

11:30 a.m. – 11:45 a.m.  **B50**  
**The Application of Ancient DNA Methodologies to Burned Forensic Samples and Their Potential to Aid in the Identification and Analyses of Difficult Samples**  
Cody Parker, PhD*; Erin Rawls, BS; Katelyn Bolhofner, PhD; Laura C. Fulginiti, PhD;  
Giovanna Vidoli, PhD; Joanna Devlin, PhD; Sree Kanthaswamy, PhD; Anne Stone, PhD

11:45 a.m. – 12:00 p.m.  **B51**  
**Rapid DNA Profiling for Disaster Victim Identification (DVI)**  
Jeremy Watherston, MSFS*; David Bruce, PhD; Dennis McNevin, PhD; Jodie Ward, PhD

12:00 p.m. – 1:00 p.m.  **BREAK**

**All the ‘omes: Microbiome, Virome, and Proteome**

---

**Moderator:**  
Nicole Fernandez-Tejero, MSc  
Florida International University  
Miami, FL

**Co-Moderator:**  
Noemi Procopio, PhD  
Northumbia University  
New Castle upon Tyne, United Kingdom

1:00 p.m. – 1:15 p.m.  **B52**  
**The Identification and Characterization of Viral Biomarkers**  
Ema Graham, MS*; Michael Adamowicz, PhD; Jennifer Clarke, PhD;  
Samodha Fernando, PhD; Joshua Herr, PhD  
*(FSF Emerging Forensic Scientist Award Oral Presentation)*

1:15 p.m. – 1:30 p.m.  **B53**  
**Seasonal Comparisons Between Soil Fungal and Bacterial Communities Impacted by Human Decomposition**  
Lois Taylor, PhD*; Allison Mason, BS; Jennifer DeBruyn, PhD

1:30 p.m. – 1:45 p.m.  **B54**  
**Body Mass Index (BMI) Impacts on Soil Chemical and Microbial Responses During Human Decomposition**  
Allison Mason, BS*; Hayden McKee, MS; Katharina Hoeland, MS; Sarah Schwing, MA;  
Erin Patrick, MS; Shawn Campagna, PhD; Dawnie Steadman, PhD; Jennifer DeBruyn, PhD  
*(FSF Emerging Forensic Scientist Award Oral Presentation)*

1:45 p.m. – 2:00 p.m.  **B55**  
**Proteomic Genotyping in Compromised Skeletal Remains**  
Glendon Parker, PhD*; Jennifer Snedeker, BS; Trevor Borja, MSFS; Rachel Houston, PhD

2:00 p.m. – 2:15 p.m.  **B56**  
**The Use of Proteomic Genotyping to Estimate Genetic Ancestry for Intelligence Purposes**  
Zachary Goecker, PhD*; Noah Herrick, MSFS; Bailey Wills, MSFS; Susan Walsh, PhD;  
Glendon Parker, PhD

2:15 p.m. – 2:30 p.m.  **BREAK**
DNA Extraction

**Moderator:**
Jillian Conte, PhD

**Co–Moderator:**
Jennifer L. Snedeker, BS

**MicroGEM**
Charlottesville, VA

2:30 p.m. – 2:45 p.m.  **B57**  
**The Development and Evaluation of Two DNA Collection/Extraction Techniques for Cartridge Cases**
Kyleen Elwick, PhD*; Quentin Gauthier, PhD; Stephanie Rink, MFS; Emily Cropper, MS; Mark Kavlick, PhD

2:45 p.m. – 3:00 p.m.  **B58**  
**A Comparison of the Effect of Manual Versus Robotic DNA Extraction Methods on the Microbial Communities Associated With Forensically Relevant Human Biological Samples**
Denise Wohlfahrt, BS*; Sarah Seashols-Williams, PhD; Paul Brooks, PhD; Baneshwar Singh, PhD

3:00 p.m. – 3:15 p.m.  **B59**  
**Using Bone Biology to Optimize Forensic and Ancient DNA Extraction From Post-Cranial Skeletal Elements**
Keith Biddle, MA*

3:15 p.m. – 3:30 p.m.  **B60**  
**Compositional Analysis of Human Skeletal Samples Using Raman Spectroscopy and Correlation to DNA Recovery**
Cody Silverman*; Brooke Kammrath, PhD; Angie Ambers, PhD

3:30 p.m. – 3:45 p.m  **B61**  
**An Enhanced DNA Extraction Method for Charred Bone Remains Using Pressure Cycling Technology (PCT)**
Kira Hurley, BS*; Lisa Ludvico, PhD; Angie Ambers, PhD; Pamela L. Marshall, PhdD (FSF Emerging Forensic Scientist Award Oral Presentation)

3:45 p.m. – 4:00 p.m. **B62**  
**Alternative Sperm Cell Lysis Methods for Sexual Assault Samples**
Sarah K. Schellhammer, MS; Brittany C. Hudson, MS*; Jordan O. Cox, MS; Tracey Dawson Green, PhD

---

**Thursday—Session II**

**Methylation, Tissues, and Body Fluids**

**Moderator:**
Glendon Parker, PhD

**Co–Moderator:**
Ya Chi (Jessica) Cheng, MS

**University of California, Davis**
Davis, CA

8:30 a.m. – 8:45 a.m.  **B63**  
**An Evaluation of a Body Fluid Identification Method Using MicroRNAs (miRNAs) Co-Extracted With DNA**
Kelsey Price, BS*; Carolyn Lewis, BS; Ciara Rhodes, BS; Anaya Valentine, MS; Edward Boone, PhD; Sarah Seashols-Williams, PhD (FSF Emerging Forensic Scientist Award Oral Presentation)

8:45 a.m. – 9:00 a.m.  **B64**  
**A Demonstration of a Semi-Automated, Extraction-Free, MicroRNA (miRNA) Gene Expression Profiling Method for the Simultaneous Detection of Biofluids**
Amy Brodeur, MFS*; Frank Kero, PhD; B.J. Kerns, BS

All times are in the U.S. Pacific Time Zone
9:00 a.m. – 9:15 a.m.  **B65**  
Direct Messenger RNA (mRNA) Sequencing for the Identification and Analysis of Human Body Fluids  
Quentin Gauthier, PhD*; Patrick Rydzak, PhD; Kyleen Elwick, PhD; MrkJ Kavlick, PhD

9:15 a.m. – 9:30 a.m.  **B66**  
The Development of Pyrosequencing-Based DNA Methylation Assay for Menstrual Blood Identification  
Mirna Ghemrawi, MSFS*; Nicole Fernandez-Tejero, MS; Valeria Castaneda, BS; Bruce McCord, PhD  
(*FSF Emerging Forensic Scientist Award Oral Presentation)

9:30 a.m. – 9:45 a.m.  **B67**  
The Optimization of a Rotationally Driven Microfluidic Method for Forensic DNA Methylation Sample Preparation  
Rachelle Turiello, MS*; Leah Dignan, BS; Francine Garrett-Bakelman, MD, PhD; James Landers, PhD

9:45 a.m. – 10:00 a.m.  BREAK

---

**In the Lab and Databases**

**Moderator:**  
Pamela L. Marshall, PhD  
Duquesne University  
Pittsburgh, PA

**Co–Moderator:**  
Mark Profili, MS  
Towson University  
Towson, MO

10:00 a.m. – 10:15 a.m.  **B68**  
Chastyn Smith, BS*; Andrea Williams, MS; Hannah Wines, MS; Darianne Cloudy, MS; Jordan Cox, MS; Dayanara Torres, BS; Sarah Williams, PhD; Edward Boone, PhD; Tracey Dawson Green, PhD  
(*FSF Emerging Forensic Scientist Award Oral Presentation)

10:15 a.m. – 10:30 a.m.  **B69**  
The Integration of a High Resolution Melt (HRM) Mixture-Prescreening Assay Into the Quantifiler® Trio Quantification Chemistry Using the QuantStudio™ 6 Flex Real-Time Polymerase Chain Reaction (PCR) System  
Dayanara Torres, BS*; Chastyn Smith, BS; Andrea Williams, MS; Edward Boone, PhD; Tracey Dawson Green, PhD  
(*FSF Emerging Forensic Scientist Award Oral Presentation)

10:30 a.m. – 10:45 a.m.  **B70**  
Using Mitochondrial DNA (mtDNA) and the Y-Chromosome to Estimate Population Affinity and Region of Origin  
Andrew Schweighardt, PhD*; Angela Soler, PhD

10:45 a.m. – 11:00 a.m.  **B71**  
Solving Cold Cases With Databases: Considerations for the Application of Advanced DNA Searching Methodologies  
Ashley Rodriguez*

11:00 a.m. – 11:15 a.m.  **B72**  
FauxDIS: An Interactive Online Forensic DNA Profile Database  
Ashley Hall, PhD*; Jonathan Bisson, PhD
# A Little Bit of This and a Little Bit of That

**Moderator:** Megan M. Foley, MSFS  
**Co–Moderator:** Mirna Ghemrawi, MSFS  
**The George Washington University**  
**Florida International University**  
**Washington, DC**  
**Miami, FL**

**Latent Prints**

*Moderator:*
Ann Geisendorfer, JD
Schenectady, NY

10:45 a.m. – 11:00 a.m.  **B95**  Loading Artificial Fingerprints Onto Brass Shell Casings for Improved Method Development and Proficiency Testing
Curt Hewitt*; Danielle LeSassier; Benjamin Ludolph; Kathleen Schulte; Myles Gardner

11:00 a.m. – 11:15 a.m.  **B96**  Standards Development Activities Related to the Examination of Friction Ridge Detail
Heidi Eldridge, PhD*

11:15 a.m. – 11:30 a.m.  **B97**  Understanding and Generating Close Non-Matches in Latent Prints for Training, Testing, and Research
Heidi Eldridge, PhD*; Christophe Champod, PhD

11:30 a.m. – 11:45 a.m.  **B98**  How Do Latent Print Examiners Perceive Blind Proficiency Testing? A Survey of Practicing Examiners
Brett Gardner, PhD*; Sharon Kelley, PhD; Maddisen Neuman, MA

11:45 a.m. – 12:00 p.m.  **B99**  What Types of Information Can and Do Latent Print Examiners Review? A Survey of Practicing Examiners
Brett Gardner, PhD*; Sharon Kelley, PhD; Maddisen Neuman, MA

12:00 p.m. – 12:15 p.m.  **B100**  Does Image Editing Improve the Quality of Latent Prints? An Analysis of Image-Enhancement Techniques in One Crime Laboratory
Brett Gardner, PhD; Maddisen Neuman, MA*; Sharon Kelley, PhD

12:15 p.m. – 1:00 p.m.  **BREAK**

**Poster Session**

11:30 a.m. – 1:00 p.m.  **B101**  The Validation of a Systematic Method for Duct Tape Physical Fits Through Inter-Laboratory Studies
Meghan Prusinowski*; Evie Nguyen; Tatiana Trejos, PhD *(FSF Emerging Forensic Scientist Award Poster Presentation)*

11:30 a.m. – 1:00 p.m.  **B102**  Student Perceptions of the Forensic Science Major at Middle Tennessee State University
Cole Buffalini, BS*; Frank Bailey, PhD; Karen Reed, PhD

11:30 a.m. – 1:00 p.m.  **B103**  Optimization Parameters of Fragmentary Voltage and Collision Energy for Identification and Separation of RDX (1,3,5-Trinitro-1,3,5-Triazinane) From Other Explosives With Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS)
Blerim Olluri; Milazim Tahirukaj*; Andriana Surleva; Xhemajl Ademaj; Herolind Krasniq, MS

11:30 a.m. – 1:00 p.m.  **B104**  Automated Particle Micromorphometry and Statistical Scoring for Improved Characterization of Aluminum (Al) Powders in Improvised Explosive Devices (IEDs)
Kayla Moquin, BS*; Cami Fuglsby, MS; JenaMarie Baldaino, MS; Danica Ommen, PhD*; Christopher Saunders, PhD; Jack Hietpas, PhD; JoAnn Buscaglia, PhD

11:30 a.m. – 1:00 p.m.  **B105**  The Impact of Ultraviolet (UV) Radiation and Plane Polarized Light (PPL) Microspectrophotometry (MSP) in the Characterization and Differentiation of Deeply Colored Automotive Fibers
Andra Lewis, MSFS*; Patrick Buzzini, PhD

All times are in the U.S. Pacific Time Zone
11:30 a.m. – 1:00 p.m.  B106 Using Capillary Columns for Measurements of Relative Distribution Constants of Vaporized Hydrocarbons Between Headspace and Polydimethylsiloxane (PDMS) Solid-Phase Microextraction (SPME) Fibers for Quantitative Chemical Analysis of Ignitable Liquids
Joonyeong Kim, PhD*

11:30 a.m. – 1:00 p.m.  B107 The Evaluation of a Thermodynamic Model to Predict the Weathering of Ignitable Liquids at Different Temperatures
Hannah L. McMillen*; Glen P. Jackson, PhD (FSF Emerging Forensic Scientist Award Poster Presentation)

11:30 a.m. – 1:00 p.m.  B108 Quantitative Ballistic Cartridge Case Analysis Using Micro-Computed Tomography (CT)
Kirsty Alsop, MS*; Danielle Norman, PhD; Guillaume Remy, PhD; Paul Wilson, PhD; Mark Williams (FSF Emerging Forensic Scientist Award Poster Presentation)

11:30 a.m. – 1:00 p.m.  B109 An Internal Validation Study of the TopMatch 3D Scanner for Cartridge Cases
Kayli Carrillo, BS*; Alexis Moser, BS; Jennifer Turner, MS (FSF Emerging Forensic Scientist Award Poster Presentation)

11:30 a.m. – 1:00 p.m.  B110 The Assessment of Modern Glass From Portable Electronic Devices (PED) and Their Accessories by Micro X-Ray Fluorescence (µ-XRF) for Their Use in Forensic Investigations
Oriana Ovide, BS*; Ruthmara Corzo, PhD; Tatiana Trejos, PhD (FSF Emerging Forensic Scientist Award Poster Presentation)

11:30 a.m. – 1:00 p.m.  B111 A Microscopical Examination and Elemental Analysis of Automotive Lubricating Greases
Jared Estevanes, BS*; Rajesh Balaraman, PhD; Patrick Buzzini, PhD; Geraldine Monjardez, PhD (FSF Emerging Forensic Scientist Award Poster Presentation)

11:30 a.m. – 1:00 p.m.  B112 Rapid Spectrochemical Mapping Techniques for the Enhanced Detection and Visualization of Gunshot Residue (GSR) Patterns
Courtney Vander Pyl, MS*; Corinna Menking-Hoggatt, PhD; Tatiana Trejos, PhD (FSF Emerging Forensic Scientist Award Poster Presentation)

11:30 a.m. – 1:00 p.m.  B113 Combining Novel Sampling Techniques and Electrochemical Detection in Gunshot Residue (GSR) Analysis for Bullet Hole Identification and Distance Determination
Kourtney Dalzell, BS*; Courtney Vander, MS; Tatiana Trejos, PhD; Luis Arroyo, PhD

11:30 a.m. – 1:00 p.m.  B114 A Characterization of Mounting Media for Hair and Fiber Microscopy
Maria Lawas, MS; Linda Otterstatter, BS; Joshua Friedman, MS; Joseph Donfack, PhD*

11:30 a.m. – 1:00 p.m.  B115 A Diagnosis of Abusive Head Trauma (AHT): The Role of Immunohistochemistry in a Multidisciplinary Approach
Eleonora Mezzetti, MD*; Andrea Costantino, MD; Andrea Scatena, MD; Giacomo Visi, MD; Paola Santoro, MD; Fabio Del Duca, MD

11:30 a.m. – 1:00 p.m.  B116 Visualizing Shed Skin Cells in Fingerprint Residue Using Dark Field Microscopy
Shin Muramoto, PhD*

11:30 a.m. – 1:00 p.m.  B117 An Evaluation of the Stability and Durability of an Inkless Method for Fingerprint Recordings
Sihai Li, BS*; Josep De Alcaraz-Fossoul, PhD
Trace: Metals, Paint, Hair, Glass, Tire

**Moderator:**
Brenda Christy, MS  
Virginia Department of Forensic Science  
Norfolk, VA

**Co–Moderator:**
Heidi Eldridge, PhD  
RTI International  
Research Triangle Park, NC

1:00 p.m. – 1:15 p.m.  **B118**  
Standards Development Activities in Trace Materials  
Celeste M. Grover, MSFS*

1:15 p.m. – 1:30 p.m.  **B119**  
WITHDRAWN

1:30 p.m. – 1:45 p.m.  **B120**  
The Forensic Discrimination of Copper Metal by Laser-Induced Breakdown Spectroscopy (LIBS)  
Chase Notari, BS*; Brooke Kammrath, PhD

1:45 p.m. – 2:00 p.m.  **B121**  
The Transfer of Metal Traces by Human Touch Detected Using a Scanning Electron Microscopy With Energy-Dispersive X-ray Spectroscopy (SEM/EDS) Technique: A Pilot Study  
Sofia Bodini, MD*; Alberto Amadasi, PhD; Giacomo Govoni; Giacomo Belli, MD; Elena Cavriani, MD; Paola Braga, MD; Matteo Moretti, MD; Silvia Damiana Visonà, PhD

2:00 p.m. – 2:15 p.m.  **B122**  
A Comparative Study on the Background Presence of Glass and Paint in Various Populations and Seasons in the United States  
Lauryn Alexander, PhD*; Oriana Ovide, MS; Olivia Duffett, BS; Andra Lewis-Krick, PhD; Patrick Buzzini, PhD; Tatiana Trejos, PhD  
*(FSF Emerging Forensic Scientist Award Oral Presentation)*

2:15 p.m. – 2:30 p.m.  **B123**  
WITHDRAWN

2:30 p.m. – 2:45 p.m.  **B124**  
Interlaboratory Studies to Evaluate the Forensic Analysis and Interpretation of Glass Evidence  
Katelyn Lambert, MS*; Shirly Monzaro, PhD; Jose Almirall, PhD

2:45 p.m. – 3:00 p.m.  **B125**  
A Chemical Approach to Tire Mark Analysis—Preliminary Protocols From Collection on Scene to Elemental Profiling  
John Lucchi, MS*; Veronica Flores, BS; Matthieu Baudelet, PhD  
*(FSF Emerging Forensic Scientist Award Oral Presentation)*

3:00 p.m. – 3:15 p.m.  **B126**  
Evaluating the Discriminating Power of Hair Amino Acid Ratios for Distinguishing Individuals Using Gas Chromatography/Mass Spectrometry (GC/MS)  
Timothy Yaroshuk, MS*; Alyssa Marsico, PhD  
*(FSF Emerging Forensic Scientist Award Oral Presentation)*

3:15 p.m. – 3:30 p.m.  BREAK

Drugs I

**Moderator:**
J. Tyler Davidson, PhD  
Sam Houston State University  
Huntsville, TX

## What’s Next in Next Generation Sequencing

**Moderator:**
Michelle A. Peck, MFS  
Signature Science  
Charlottesville, VA

**Co–Moderator:**
Katherine Gettings, PhD  
National Institute of Standards and Technology  
Gaithersburg, MD

### 1:30 p.m. – 1:45 p.m. B173
**The Forensic Utility of the ForenSeq™ MainstAY Kit With Challenging Samples**
Lucio Avellaneda, BS*; Ryan Gutierrez, PhD; Rachel Houston, PhD  
*FSF Emerging Forensic Scientist Award Oral Presentation*

### 1:45 p.m. – 2:00 p.m. B174
**A Modified ForenSeq™ DNA Signature Prep Kit Protocol for Increased Allele Recovery From Low DNA Quantities**
Sana Enke, BS; Kimberly Eskey, MS; Tracy Ferguson, MS; Rebecca Just, PhD*

### 2:00 p.m. – 2:15 p.m. B175
**Predicting Short Tandem Repeat (STR) Genotypes From Identity-Informative Single Nucleotide Polymorphisms (SNPs) Across Three Ancestry Population Groups**
Anjalika Balasuriya, HBSc; Nicole Novroski, PhD*; Frank Wendt, PhD

### 2:15 p.m. – 2:30 p.m. B176
**The Development of an Enhanced Buffer to Overcome Polymerase Chain Reaction (PCR) Inhibition by Targeted Next Generation Sequencing (NGS)**
Shan-Fu Wu*; Keenan Fleming; Richelle Barta; June Snedecor; Samantha Snow; Joana Antunes; Sarah Radecke; Juan Perez; Gothami Padmabandu; Kathryn Stephens

### 2:30 p.m. – 2:45 p.m. B177
**Evaluating Library Preparation Improvements of Short Tandem Repeats (STRs) Using the PowerSeq™ 46GY System for Massively Parallel Sequencing (MPS)**
Kyleen Elwick, PhD*; Patrick Rydzak, PhD; James Robertson, PhD

### 2:45 p.m. – 3:00 p.m. B178
**Forensic Autosomal Short Tandem Repeat (STR) Profiling Using the Promega® PowerSeq™ Kit on Oxford Nanopore® Technologies’ MinION Device**
Courtney Hall, MS; Rupesh Kesharwani, PhD; Nicole Phillips, PhD; John Planz, PhD; Fritz Sedlazeck, PhD; Roxanne Zascavage, PhD*

### 3:00 p.m. – 3:15 p.m.
**BREAK**

## Crime Scene Tools and Techniques

**Moderator:**
John Lentini, BA  
Scientific Fire Analysis, LLC  
Islamorada, FL

**Co–Moderator:**
Ann Geisendorfer, JD  
Schenectady, NY

### 3:15 p.m. – 3:30 p.m. B179
**GeoFOR: An Innovative Geographic Information Systems (GIS) -Based Application and Accumulated Degree Days (ADD) Calculator**
Cristina Tica, PhD*; Katherine Weisensee, PhD; Patrick Claflin; Patricia Carbajales-Dale, MS

### 3:30 p.m. – 3:45 p.m. B180
**The Billey Joe Johnson Homicide**
Bryan Burnett, MS*

### 3:45 p.m. – 4:00 p.m. B181
**The Application of Artificial Intelligence (AI) Image Analysis Techniques to Bloodstain Pattern Analysis**
James Creecy, PhD*; Jicheng Fu, PhD; Craig Gravel, MA

---

All times are in the U.S. Pacific Time Zone
**Friday—Session II**

**Gunshot Residue**

*Moderator:*
A. Bakarr Kanu, PhD
Winston-Salem University
Winston Salem, NC

Drugs IV—Cannabis Quantitation

Moderator:
Barry Shearer, MS
Colorado Bureau of Investigation
Arvada, CO

3:30 p.m. – 3:45 p.m.  B210  A Retrospective Review of Hemp/Marijuana Decision Point Assays in Operational Laboratories
James Miller, MA*; Kay McClain, BS; Charles Cline, BS; Ya-Chih (Jessica) Cheng, MS; Sarah Kerrigan, PhD

3:45 p.m. – 4:00 p.m.  B211  Factors Influencing the In Situ Formation of Psychoactive Cannabinoids From Cannabidiol During Gas Chromatography/Mass Spectrometry (GC/MS) Analysis
Ya-Chih Cheng, MS*; Sarah Kerrigan, PhD
(FSF Emerging Forensic Scientist Award Oral Presentation)

4:00 p.m. – 4:15 p.m.  B212  An Analysis of Cannabis Plant Materials by Infrared Spectroscopy for Differentiating Hemp and Marijuana
Aaron Urbas, PhD*; Ewelina Mistek-Morabito, PhD; Igor Lednev, PhD; Walter Wilson, PhD; Melissa Phillips, PhD

4:15 p.m. – 4:30 p.m.  B213  The National Institute of Standards and Technology (NIST) Cannabis Quality Assurance Program (CannaQAP): A Tool for Improving Quantitative Measurements in Cannabis
Melissa Phillips, PhD; Walter Wilson, PhD*

4:30 p.m. – 4:45 p.m.  B214  Testosterone as an Internal Standard in Qualitative Decision-Point Assays for the Differentiation of Hemp From Cannabis: Optimization and Limitations in High Cannabidiol (CBD) Matrices
Jose Gonzalez, BS*

4:45 p.m. – 5:00 p.m.  B215  WITHDRAWN
**Thursday**

**Scientific Rigor: Image Analysis**

**Moderator:**
Kathryn C. Seigfried-Spellar, PhD  
Purdue University  
West Lafayette, IN

**Co-Moderator:**
J. Levi White, PhD  
Defense Forensic Science Center  
Forest Park, GA

- **8:30 a.m. – 8:35 a.m.**  
  Welcome

- **8:35 a.m. – 8:55 a.m.**  
  **C1**  
  The Validation of Imagery Enhancement Tools  
  James Zjalic, MSc*; Jake Harrison, BSc

- **8:55 a.m. – 9:15 a.m.**  
  **C2**  
  Score-Based Likelihood Ratios for Camera Device Identification Using Cameras of the Same Brand for the Alternative Device Population  
  Stephanie Reinders, PhD*; Danica Ommen, PhD; Alicia Carriquiry, PhD

- **9:15 a.m. – 9:35 a.m.**  
  **C3**  
  The Influence of Compression on Forensic Deepfake Detection  
  Meike Kombrink, MFS; Zeno Geradts, PhD*

- **9:35 a.m. – 9:55 a.m.**  
  **C4**  
  The Performance of Automated Age Assessment Methods in Images of Subadults  
  Petra Urbanova, PhD*; Pavel Bednar

- **9:55 a.m. – 10:15 a.m.**  
  **C5**  
  Methods for Evaluating and Optimizing Automated Detection/Classification Systems in the Forensic Environment  
  Jeff Smith, MS*

- **10:15 a.m. – 10:30 a.m.**  
  **BREAK**

**Promoting Justice: Audio & Video Analysis**

**Moderator:**
Andrew Crouse, BA  
Epiq  
Washington, DC

**Co-Moderator:**
Brian Smith, BS  
Epiq  
Warner Robins, GA

- **10:30 a.m. – 10:50 a.m.**  
  **C6**  
  A Quantitative Analysis of Video Software Frame Extraction Methods for Use in Forensic Science  
  Gregory Wales, MSc*; Christopher Lemon, BA; Gregory Savage, BSc; Stephen Wells, BA; Jesus Valenzuela, BSc

- **10:50 a.m. – 11:10 a.m.**  
  **C7**  
  WITHDRAWN

- **11:10 a.m. – 11:30 a.m.**  
  **C8**  
  The Use of Electric Network Frequency Presence Due to Rolling Shutter Effect in Video Material for Time Estimation  
  Zeno Geradts, PhD*; Guus Frijters, MSc

---

*All times are in the U.S. Pacific Time Zone*
A Review of Axon Citizen From a Forensic Perspective as a Tool for Law Enforcement Investigations
Jesus Valenzuela, BSc*; Gretchen Lomboy, MSc; Catalin Grigoras, PhD; Jason Latham, BA

11:50 a.m. – 12:10 p.m. BREAK

Poster Session

Constructing Digital Video Recorder (DVR) Datasets for Multimedia Forensics Validation
Rayna Mock, BS*; Josh Brunty, MS

Likelihood Ratios for Categorical Evidence With Applications in Digital Evidence
Rachel Longjohn, MS*; Padhraic Smyth, PhD; Hal Stern, PhD

A Modern Forensic Science World: Cyber Challenges

Moderator: Patrick A. Eller, MS
Metadata Forensics LLC
Richmond, VA 23219

Co-Moderator: Jeff Smith, MS
The MITRE Corporation
McLean, VA

Skills for Success: Advancing Pattern of Life Analysis in Cyber Forensics Using a Multidimensional Approach
Mohammad Meraj Mirza, MS*; Umit Karabiyik, PhD
(FSF Emerging Forensic Scientist Award Oral Presentation)

Virtualization, Self-Hosting, and File/Storage Systems—Recent Technological Advances and the Search for Digital Evidence
Jason Paroff, JD*

Keeping Forensic Tools Sharp: A Case Study of Updating Bulk_Extractor 1.6 to 2.0
Simson Garfinkel, PhD*

A Case Study of Virtual Programmable Logic Controllers (PLC) Forensic Framework on Investigating Control Logic Attacks in a Belt Conveyor System
Syed Qasim, BS*; Irfan Ahmed, PhD

Exploiting the Post-Attendee URL Feature in Zoom Webinar to Distribute Malware: Implications for Digital Forensics
Austin Cauley, BS*; Mark McCoy, EdD

Revealing the Invisible: Investigating Evidence of Automated and Behind-the-Scenes Computer Activity
Josiah Dykstra, PhD*

3:10 p.m. – 3:20 p.m. BREAK
Ensuring Excellence: Policy & Procedures

Moderator: Jason M. Paroff, JD
Epiq
New York, NY

Co-Moderator: Yong Guan, PhD
Iowa State University
Ames, IA

3:20 p.m. – 3:40 p.m. C18 The Decontamination of Drug-Contaminated Mobile Devices Using VTO Labs’ Decontamination Kits
Arcelia Cohen*; Josh Brunty, MS; Lauren Richards-Waugh, PhD

3:40 p.m. – 4:00 p.m. C19 Crowdsourcing Forensics: The Digital Artifact Catalog
Lam Nguyen, MS*; Eoghan Casey, PhD

4:00 p.m. – 4:20 p.m. C20 Standards Development Activities in Digital and Multimedia Forensic Science
Tracy Walraven, MFS*

4:20 p.m. – 4:40 p.m. C21 Key Takeaways From a National Institute of Standards and Technology (NIST) Digital Forensic Scientific Foundations Study
James Lyle, PhD*; Barbara Guttman, BA

4:40 p.m. – 5:00 p.m. C22 What Is the Computer Forensic Tools and Techniques (CFTT) Catalog?
Jenise Reyes-Rodriguez, BS*; Richard Ayers, MS

Friday

Integrity: (Not So) Dead-Box Forensics

Moderator: Kathryn C. Seigfried-Spellar, PhD
Purdue University
West Lafayette, IN

Co-Moderator: J. Levi White, PhD
Defense Forensic Science Center
Forest Park, GA

8:30 a.m. – 8:35 a.m. Welcome

8:35 a.m. – 8:55 a.m. C23 A Forensic Analysis of Microsoft® Teams
Herschel Bowling, MS*; Kathryn Seigfried-Spellar, PhD; Umit Karabiyik, PhD; Marcus Rogers, PhD
(FSF Emerging Forensic Scientist Award Oral Presentation)

8:55 a.m. – 9:15 a.m. C24 The Correlation of Garbage Collection and Object Recovery in Userland Forensic Analysis
Sneha Sudhakaran, MTech*; Aisha Ali-Gombe, PhD; Golden G. Richard III, PhD

9:15 a.m. – 9:35 a.m. C25 The Forensic Use of Sparse Files
Mark Guido, MS*; Justin Grover, MS*

9:35 a.m. – 9:55 a.m. C26 Google® Chromebook™ and Takeout™ Forensics: A Comparative Analysis of Data Recovered From a Logical Acquisition of a Chromebook™ as Compared to Data From a Google® Takeout
Jessica Hyde, MS*

9:55 a.m. - 10:10 a.m. C27 The Examination of Questioned Digital Documents Customized From a Database
Oluwasola Mary Adedayo, PhD*; Martin S. Olivier, PhD

10:10 a.m. – 10:20 a.m. BREAK
DIGITAL & MULTIMEDIA SCIENCES

Connectivity: Mobile Device Forensics

**Moderator:**
Christina A. Malone, MSFS Defense
Forensic Science Center
Forest Park, GA

**Co-Moderator:**
Austin Cauley, BSc
University of Central Oklahoma
Edmond, OK

10:20 a.m. – 10:40 a.m.  **C28**  A Comparison of Apple® iPhone® Extraction Methods for Multimedia
Jeff Smith, MS*

10:40 a.m. – 11:00 a.m.  **C29**  CoreDuet, KnowledgeC, and InteractionC: Just How Much Does My iPhone® Really Need to Know About Me?
Joseph Levi White, PhD*

11:00 a.m. – 11:20 a.m.  **C30**  SQLite Data Recovery
Richard Ayers, MS*; Jenise Reyes, BS

11:20 a.m. – 11:40 a.m.  **C31**  A Forensic Analysis of the Viber Instant Messaging Application on iPhone® Devices
Akshata Thole, BTech*; Nina Matulis, BS; Marcus Rogers, PhD

11:40 a.m. – 12:00 p.m.  **C32**  Forensic Analysis on Cryptocurrency Wallet Apps
Chen Shi, MS*; Yong Guan, PhD

12:00 p.m. -  1:00 p.m.  BREAK

Poster Session

11:30 a.m. -  1:00 p.m.  **C33**  Memory Forensic Analysis for Programmable Logic Controllers (PLCs)
Muhammad Rais, MS*; Irfan Ahmed, PhD

Multidisciplinary Session: Digital & Multimedia Sciences and Psychiatry & Behavioral Science

**Moderator:**
Kathryn C. Seigfried-Spellar, PhD
Purdue University
West Lafayette, IN

**Co-Moderator:**
Vivian Shnaidman, MD
Princeton, NJ

1:00 p.m. –  1:05 p.m.  Welcome

1:05 p.m. –  2:00 p.m.  **I22**  A Psychopath in the House: How Digital Media Is Used to Exploit Even the Safest Homes
Jessica Morel, DO*; Vivian Shnaidman, MD; Anna-Renee Labak

2:00 p.m. –  2:30 p.m.  **C34**  The Analysis of a Digital Diary to Aid in a Child Sexual Assault Investigation: A Case Study
Joseph Levi White, PhD*

2:30 p.m. –  3:00 p.m.  **I23**  Virtual Reality as a Treatment Medium for Sex Offenders
Jacob Pourat, MD*

3:00 p.m. –  3:30 p.m.  **I24**  From Online Personas to Mass Murderers: The Incel Ideology and the Struggles of Mental Health
Eva Ip, BS*

3:30 p.m. –  4:15 p.m.  **C35**  Sextortion: Understanding Perpetrator Behavior and the Digital Evidence Available to Investigators
Martin Novak, MPA*; Danielle Crimmins, MS; Kathryn Seigfried-Spellar, PhD

4:15 p.m. –  4:45 p.m.  **I25**  3D Interactive Lineups Improve Eyewitness ID Accuracy
Heather Flowe, PhD*

All times are in the U.S. Pacific Time Zone
**Wednesday**

Wednesday

Poster Session

11:30 a.m. - 1:00 p.m.  **E1**  The Use of Smart Phone Applications in Crime Scene Analysis: Forensic Advantages and Limitations  
Matteo Antonio Sacco, MD; Pietrantonio Ricci, MD, PhD; Isabella Aquila, MD, PhD*

11:30 a.m. - 1:00 p.m.  **E2**  Autopsy Findings in Hydrogen Sulfide Toxicity  
Robyn Parks, MD*; Christopher Rogers, MD

11:30 a.m. - 1:00 p.m.  **E3**  A Case of Skully: An Investigation of X-Files Proportion  
Ashley Holmes, MS*; Patrick Lantz, MD; Jerri McLemore MD

11:30 a.m. - 1:00 p.m.  **E4**  Medicolegal Investigation in Two Cases of Suspected Anticoagulant Overdose  
Camilla Bonci, MD*; Lucia Tattoli, MD, PhD; Francesca Capello, MD; Luana Bonaccurso, MD; Giuliana Mattioda, MD; Giancarlo Di Vella, MD, PhD

11:30 a.m. - 1:00 p.m.  **E5**  Sudden Cardiac Death in Myocardial Bridging  
Angela Baldwin, MD, MPH*; Sarah Thomas, MD, MS; Barbara Sampson, MD, PhD

11:30 a.m. - 1:00 p.m.  **E6**  Light Detection And Ranging (LiDAR) Sensor for 3D Reconstructions in the Autopsy Room  
Alice Chiara Manetti, MD*; Andrea Scatena, MD; Giacomo Visi, MD; Paola Santoro, MD; Fabio Del Duca, MD; Massimiliano Dell'Aquila, MD; Aniello Maiese, MD, PhD

11:30 a.m. - 1:00 p.m.  **E7**  Enhancing Postmortem Care for Transgender Decedents: An Analysis of Global Violence and Forensic Methodologies  
Taylor Flaherty, MSc*; Corrie Strayer, MA; Adrianne Dizon; Jennifer Byrnes, PhD  
*(FSF Emerging Forensic Scientist Award Poster Presentation)*

11:30 a.m. - 1:00 p.m.  **E8**  Suicide Rates and Trends in Allegheny County, Pennsylvania, During 2010–2019  
Odile Enslen, BS*; Lyndsie Ferrara, PhD; Anita Zuberi, PhD; Mandy Tinkey, MS

11:30 a.m. - 1:00 p.m.  **E9**  The Recent Rise of Eutylone Intoxications in Onondaga County, New York  
Michel Tawil, MD*; Katrina Thompson, MD; Lorenzo Gitto, MD

11:30 a.m. - 1:00 p.m.  **E10**  A Review of In-Custody Deaths at the West Tennessee Regional Forensic Center  
William Stout*; Danielle Harrell, DO

11:30 a.m. - 1:00 p.m.  **E11**  A Death in the Pool Is Not Just Drowning  
Gianluca Musci, MD*; Carmelinda Angrisani, MD; Adriano Acella, MD; Giulia Gubinelli, MD; Gianluca Gravili, MD; Antonio De Donno

11:30 a.m. - 1:00 p.m.  **E12**  Hanging: Between Doubts and Certainties  
Isabella Aquila, MD, PhD*; Pietrantonio Ricci, MD, PhD

11:30 a.m. - 1:00 p.m.  **E13**  Sudden Cardiac Death Related to COVID-19 in an Asymptomatic Teenager With a Negative Postmortem Swab  
Mirella Sabatino, MD; Giulia Bini, MD*; Giacomo Belli, MD; Giorgia Lodetti, MD; Dario Galatone, MD; Elena Mercuri, MD; Gulnaz T. Javan, PhD; Silvia Damiana Visonà, PhD; Luca Morini, PhD; Pierangela Grignani, PhD; Carlo Previderé, PhD; Matteo Moretti, MD
11:30 a.m. - 1:00 p.m.  E14  Older Adult Suicides in Clark County, Nevada (2017-2021): The Trends and Potential Impact of the COVID-19 Pandemic  
Katherine Gaddis MA*; Jennifer Byrnes, PhD

11:30 a.m. - 1:00 p.m.  E15  Excess Deaths in Shelby County, Tennessee, During the COVID-19 Pandemic  
Morgan Lyttle, MS*; Erica Curry, MD; Benjamin Figura

11:30 a.m. - 1:00 p.m.  E16  COVID-19 Pandemic From the Forensic Standpoint: A Platform Against Future Biological Threats  
Marina Korolija PhD*; Rosa Karlić, PhD; Ana Livun, PhD; Robert Belužić, PhD; Vjekoslav Tomač, PhD; Dunja Glavaš, MSc; Antonija Mamić, BS; Andrea Ledić, MSc; Kristian Vlahoviček, PhD

11:30 a.m. - 1:00 p.m.  E17  Organizational, Adaptational, and Continuous Changes of the Forensic Sciences During the COVID-19 Pandemic: An Overview  
Francesco Sessa, MS, PhD*; Massimiliano Esposito, MD; Cristoforo Pomara, MD, PhD; Monica Salerno, MD, PhD

11:30 a.m. - 1:00 p.m.  E18  Determining Postmortem Intervals of Fetal Pigs Buried in Fayetteville, Tennessee, in June 2021 Using Attenuated Total Reflectance Fourier Transform Infrared Instrumentation Blood Analysis  
Catherine Walters, BS*; Elizabeth Gardner, PhD

11:30 a.m. - 1:00 p.m.  E19  Equine Scent Detection in Search and Rescue and Search and Recovery  
Elsie-Kay Banks, MA*; Liam Funte, PhD, MD; Anatasia Holobinko, PhD

11:30 a.m. - 1:00 p.m.  E20  Insect Activity During Decomposition in the Extreme Sonoran Desert Climate  
Meghan Gast, BS*; Kaitlyn Fulp, MA; Jacob Harris, PhD; Katelyn Bolhofner, PhD (FSF Emerging Forensic Scientist Award Poster Presentation)

11:30 a.m. - 1:00 p.m.  E21  Forensic Species Identification Using Phylogenetic Proteomics  
Nicole Slattengren, BSc*; Ashley Spicer, MSFS; Glendon Parker, PhD

Thursday—Session I

Death Investigation I

Moderator:  
Monica Broncucua-Jordan  
Brighton, CO

8:45 a.m. – 9:00 a.m.  E22  Forensic and Investigative Scene Factors Associated With the Undetermined Manner of Death  
Betsy Adelizzi, PhD*

9:00 a.m. – 9:15 a.m.  E23  “Our Hearts Are Not at Rest”: A Critical Look at the Adequacy of Indigenous Death Investigations  
Steff King, MA*; Ted Palys, PhD; Annie Ross, PhD; Gail Anderson, PhD

9:15 a.m. – 9:30 a.m.  E24  Forensic Science Data Integration and Stakeholder Workflow for Medicolegal Death Investigation Systems  
Matthew Gamette, MS*; Jeri Ropero-Miller, PhD

Poser Session

11:30 a.m. – 1:00 p.m.  E34  The Assessment of Skin Lesions in Trafficking Victims: A Medicolegal Approach
Francesca Capello, MD*; Camilla Bonci, MD; Niccolò Dino Melloni, MD; Alice Porceddu, MD; Davide Santovito. MD; Giancarlo Di Vella, MD, PhD

11:30 a.m. – 1:00 p.m.  E35  The Role of MicroRNAs (miRNAs) as New Molecular Biomarkers for Dating the Age of Wound Production: A Systematic Review
Stefania De Simone, MD*; Elena Giacani, MD; Maria Antonella Bosco, MD; Francesco Sessa, MS, PhD; Giuseppe Bertozzi, MD; Luigi Cipolloni, MD; Raffaele La Russa, MD

11:30 a.m. – 1:00 p.m.  E36  The Dirty Truth: Does Bathing After Sexual Assault Prevent the Development of Combined DNA Index System (CODIS) -Eligible DNA Profiles?
Emily Black*, Samuel Payne, Julie Valentine, PhD

11:30 a.m. – 1:00 p.m.  E37  Increased Sexual Assault Kit Submissions May Not Mean Increased Sexual Assault Prosecutions
Julie Valentine, PhD*; Leslie Miles, DNP; Connor Alder; Luke Johnson

11:30 a.m. – 1:00 p.m.  E38  The Detection and Determination of the Levels of Physiologically Active Substances in Non-Alcoholic Beverages
Amarnath Mishra, PhD*; Akanksha Behl, MSc

11:30 a.m. – 1:00 p.m.  E39  Improving the Signal Detection Limit of a Portable Raman Spectrometer for Surface Enhanced Raman Spectroscopy (SERS) Detection of Gunshot Residue (GSR)
Megan Harper, BS*; Dariush Aligholizadeh, BS; Lynn Krushinski, BS; Mary Devadas, PhD; Ellen Hondrogiannis, PhD
(FSF Emerging Forensic Scientist Award Poster Presentation)

11:30 a.m. – 1:00 p.m.  E40  A New Method for the Preservation of Forensic Fragrance/Odor Evidence for Future Analysis Using Gas Chromatography/Mass Spectrometry (GC/MS)
Rylee Bosse*; Susannah Sherwood; Mariah Fernandez, BS; Aspen DeGolier, BS; Chestereen Cwiklik, BS; Kristen Skogerboe, PhD

11:30 a.m. – 1:00 p.m.  E41  A Chemometrics Study for the Forensic Evidence Classification of Pet Foods Using Solid-Phase Microextraction-Gas Chromatography/Mass Spectrometry (SPME-GC/MS)
Susannah Sherwood*; Rylee Bosse; Hazel Tran, BS; Anna Tran, BS; Aspen DeGolier, BS; Mariah Fernandez, BS; Luke Marney, PhD; Kristen Skogerboe, PhD
(FSF Emerging Forensic Scientist Award Poster Presentation)

11:30 a.m. – 1:00 p.m.  E42  Magnetic Resonance Imaging (MRI) of the Skin: Research Hypothesis, Objectives, Limitations, and Postmortem Examples
Giuseppe Bertozzi MD*; Michela Ferrara, MD; Giovanni Gurgoglione, MD; Maria Antonella Bosco, MD; Francesco Pio Cafarelli, MD; Giuseppe Guglielmi, MD, PhD; Luigi Cipolloni, MD, PhD; Raffaele La Russa, MD, PhD
(FSF Emerging Forensic Scientist Award Poster Presentation)

11:30 a.m. – 1:00 p.m.  E43  The Development of a Rapid Drug Detection Method for Insects Using Paper Spray Ionization-Mass Spectrometry (PSI-MS)
Alexandria Plyler, BS*

11:30 a.m. – 1:00 p.m.  E44  WITHDRAWN
11:30 a.m. – 1:00 p.m.  **E45**  Multiplex Reverse Transcription Polymerase Chain Reaction (RT-PCR) on a Centrifugal Microfluidic Platform for Field-Forward Messenger RNA (mRNA) Body Fluid Profiling
Renna Nouwairi, BS*; Tiffany Layne, PhD; Rachel Fleming, PhD; M. Shane Woolf, PhD; James Landers, PhD
*(FSF Emerging Forensic Scientist Award Poster Presentation)*

11:30 a.m. – 1:00 p.m.  **E46**  Preliminary Perspectives of Environmental Conditions on Cocaine’s Chemical Odorant Methyl Benzoate Via Dynamic Airflow Sampling
Ryan Thompson, BS*; Edgar O. Aviles-Rosa, PhD; Nathaniel J. Hall, PhD; Paola A. Prada-Tiedemann, PhD

11:30 a.m. – 1:00 p.m.  **E47**  **WITHDRAWN**

11:30 a.m. – 1:00 p.m.  **E48**  Backlog Reduction by Implementing Shorter Gas Chromatography/Mass Spectrometry (GC/MS) Confirmation of Seized Drugs
Muhammad Chaudhary, MPhil*; Imtiaz Hussain, MPhil; Tahir Jamshaid, MPhil; Muhammad Amjad Nadeem, MPhil; Muhammad Irfan Asqhi, PhD; Mohammad Tahir, PhD

11:30 a.m. – 1:00 p.m.  **E49**  Rapid Fentanyl Sensing Via Biochemical Assay
Giana Biddle*; Jan Halamek, PhD; Ashley Newland

11:30 a.m. – 1:00 p.m.  **E50**  A Characterization of Metal-Peroxide Explosive Complexes Using Paper Spray Ionization-Tandem Mass Spectrometry (PSI-MS)
Kayla Massari*

11:30 a.m. – 1:00 p.m.  **E51**  Determining the Method Threshold of Identification Via Gas Chromatography/Mass Spectrometry (GC/MS) of Weathered Gasoline Extracted From Laminate Flooring
Ellen Hondrogiannis, PhD; Allyson Wesley*
*(FSF Emerging Forensic Scientist Award Poster Presentation)*

11:30 a.m. – 1:00 p.m.  **E52**  Assessing the Rate of Loss of Fibers in Primary, Secondary, and Tertiary Transfers
Samantha Hadley BS*; Steven Burmeister, MS; Cary Oien, MS
*(FSF Emerging Forensic Scientist Award Poster Presentation)*

11:30 a.m. – 1:00 p.m.  **E109**  The Terminal Deposition of Latent Fingermarks Determined by Chemical and Physical Developers *(poster moved from Friday session to Thursday Session)*
Hannah Hubbard*; Josep De Alcaraz-Fossoul, PhD

---

**Death Investigation II & Taphonomy**

Moderator: Joe Trevino, MS
NYPD Forensics Laboratory
Queens, NY

Co-Moderator: Taylor Lowry, BS
Centennial, CO

1:00 p.m. – 1:15 p.m.  **E53**  A Physical Assessment of Torture: An Analysis on Medicolegal Degrees of Consistency Expressed According to the Istanbul Protocol
Lorenzo Franceschetti, MD*; Francesca Magli, MSc, MA; Chiara Nava, MD; Lidia Maggioni, MD; Andrea Verzeletti, PhD; Cristina Cattaneo, PhD
*(FSF Emerging Forensic Scientist Award Oral Presentation)*

1:15 p.m. – 1:30 p.m.  **E54**  Record Depths: 2019 Deep Water Recovery of “Password 33” at 18,600 Feet
Katherine Grosso, MA*

Thursday—Session II

Forensic Nursing I

**Moderator:**
Lindsey Crim, MCJ
Office of the Chief Medical Examiner
Nashville, TN

**Co-Moderator:**
Tara Godoy, BSN
Godoy Medical Forensics
Livermore, CA

- **8:30 a.m. – 8:45 a.m. E65**  
  *Forensic Nurse Roles: Exploring the Future Within a Modern Forensic Science World*  
  Joyce Williams, DNP, RN*

- **8:45 a.m. – 9:00 a.m. E66**  
  *A Global Response in the Frontiers of Forensic Nursing Science*  
  Virginia A. Lynch, MSN*

- **9:00 a.m. – 9:15 a.m. E67**  
  *Responding to the Future Challenges of Emergency Preparedness in a Modern Forensic Science World*  
  Joyce Williams, DNP, RN*

- **9:15 a.m. – 9:30 a.m. E68**  
  *Forensic Nursing Science: A Contemporary Response to Humanitarian and Human Rights*  
  Virginia A. Lynch, MSN*

- **9:30 a.m. – 9:45 a.m. E69**  
  *Forensic Nurse Hospitalist: The Comprehensive Role of the Forensic Nurse in a Hospital Setting*  
  Kelly Berishaj, DNP*; Christina Boyland, MSN; Kristin Reinink, MSN; Virginia A. Lynch, MSN

- **9:45 a.m. – 10:00 a.m. E70**  
  *Exploring the Conditions, Challenges, and Situations for Nurses Involved in Forced Organ Transplants in China*  
  Nancy Cabelus, DNP*

- **10:00 a.m. – 10:15 a.m. E71**  
  *The Forensic Nurse Response to Elder Abuse: Meeting and Surpassing the Challenges*  
  Amy Carney, PhD*

- **10:15 a.m. – 10:30 a.m.**  
  **BREAK**

Forensic Nursing II

**Moderator:**
Pardeep Jasra, PhD
University of Windsor
Windsor, Ontario, Canada

**Co-Moderator:**
Alireza Bagherian, DC
San Francisco, CA

- **10:30 a.m. – 10:45 a.m. E72**  
  *Forensic Nursing Science as an Indispensable Core Service in Modern Patient Care: The First Implementation Outcomes in Switzerland*  
  Valeria Kaegi, RN*; Michael J. Thali, MD; Rosa Maria Martinez, MD

- **10:45 a.m. – 11:00 a.m. E73**  
  *Improving Care for the Sexual Assault Patient*  
  Kathleen Sekula, PhD*

- **11:00 a.m. – 11:15 a.m. E74**  
  *The Development and Successful Implementation of a State-Wide Sexual Assault Nurse Examiner (SANE) Coordinator Role: A Rural Perspective*  
  Matthew Gamette, MS; Deborah Wetherelt, RN*
11:15 a.m. – 11:30 a.m.  E75  WITHDRAWN

11:30 a.m. – 11:45 a.m.  E76  The Sexual Assault Nurse Examiner (SANE): A Responsive Strategy to Global Sexual Violence
Jamie Ferrell, MBA, BSN, RN*

11:45 a.m. – 12:00 p.m.  E77  Sexual Assault Victim and Assault Characteristics and Development of Combined DNA Index System (CODIS) -Eligible Short Tandem Repeat (STR) DNA Profiles
Julie Valentine, PhD*; Sam Payne, PhD; Leslie Miles, DNP; Luke Johnson; Connor Alder

12:00 p.m. – 1:00 p.m.  BREAK

1:00 p.m. – 1:15 p.m.  E78  An Estimation of Error Rates in Library Matching of Forensic Textile Evidence Classified by Attenuated Total Reflectance/Fourier Transform Infrared (ATR/FTIR) Spectroscopy
Lauren Bouju Davies*; Braeden Camarota; Kristen Skogerbo, PhD
(FSF Emerging Forensic Scientist Award Oral Presentation)

1:15 p.m. – 1:30 p.m.  E79  An Assessment of Heat Damage on Fourier Transform Infrared (FTIR) Spectral Characteristics of Various Fabric Samples for Applications to Forensic Clothing Examination
Braeden Camarota*; Cheyenne Smith; Lauren Bouju Davies; Chesterene Cwiklik, BS; Kristen Skogerboe, PhD
(FSF Emerging Forensic Scientist Award Oral Presentation)

1:30 p.m. – 1:45 p.m.  E80  A Quantitative Analysis of Smokeless Powder Particles in Post-Blast Debris Via Gas Chromatography/Vacuum Ultraviolet Spectroscopy (GC/VUV)
Madison Reavis BS*; John Goodpaster, PhD
(FSF Emerging Forensic Scientist Award Oral Presentation)

1:45 p.m. – 2:00 p.m.  E81  Addressing the Quantitative Aspect of Single Grain Forensic Palynology
Luz Kelley, MS*; Matthieu Baudelet, PhD
(FSF Emerging Forensic Scientist Award Oral Presentation)

2:00 p.m. – 2:15 p.m.  E82  Chemometrics in Forensic Examination
Vishal Sharma, PhD*

2:15 p.m. – 2:30 p.m.  E83  Spectrally Based Color Calibration of Microscopes for the Analysis of Birefringence
Olivia Field, BS*; Matthieu Baudelet, PhD

2:30 p.m. – 2:45 p.m.  E84  The Persistence of Diatoms as Trace Evidence in Clothing Fabrics: The Effect of Active Removal (Machine Washing) and Passive Removal (Time and Environment)
Ross Flynn, MSc; Paola Magni, PhD; Ashiwin Vadiveloo, PhD; Navid Moheimani, PhD; Kari Pitts, PhD*

2:45 p.m. – 3:00 p.m.  E85  An Assessment of Swab Efficiency for Body Fluid Identification and DNA Isolation and Analysis in Different Types of Fabric
Gabriela Roca, PhD*; Sara C. Zapico, PhD

3:00 p.m. – 3:15 p.m.  BREAK

All times are in the U.S. Pacific Time Zone
Analytical Techniques

Moderator: Imron G. Ramos, MFS  
Co-Moderator: Alicia Carriquiry, PhD  
Clovis, CA  
CSAFE-Iowa State University  
Ames, IA

3:15 p.m. – 3:30 p.m.  
E86 An Elemental Analysis of Bullets Via Atomic Absorption Spectroscopy  
Jan Halámek, PhD; Ashley Newland, MS*; Giana Biddle, MS; Morgan Eldridge, PhD  
(FSF Emerging Forensic Scientist Award Oral Presentation)

3:30 p.m. – 3:45 p.m.  
E87 A Pre-Post Experimental Study on the Life of Blood Stains on Different Soil Samples  
Eleena Philip, MS*

3:45 p.m. – 4:00 p.m.  
E88 Investigation Into the Aging Mechanism of Bloodstains Post-Deposition Using Steady-State Fluorescence Spectroscopy for Forensic Purposes  
Alexis Weber, MSFS*; Anna Wójtowicz, BS; Igor Lednev, PhD

4:00 p.m. – 4:15 p.m.  
E89 A Membrane-Modulated Centrifugal Microfluidic Platform for Field-Forward Immunodetection of Opioids  
Leah Dignan, BSc*; Michael Woolf, PhD; Jennifer Ross, MD, MPH; Carly Baehr, PhD; Christopher Holstege, MD; Marco Pravetoni, PhD; James Landers, PhD  
(FSF Emerging Forensic Scientist Award Oral Presentation)

4:15 p.m. – 4:30 p.m.  
E90 Non-Contact Detection of Fentanyl by a Field-Portable Ion Mobility Spectrometer  
Ashley Fulton, PhD*; Stephanie Vaughan, PhD; Lauryn DeGreeff, PhD

4:30 p.m. – 4:45 p.m.  
E91 Sweat Analysis Leading to Possible On-Site Detection for Drugs and Alcohol in the Body  
Jan Halamek, PhD; Morgan Eldridge; Giana Biddle*; Ashley Newland

4:45 p.m. – 5:00 p.m.  
E92 A Multidisciplinary Forensic Approach: The Investigation of a “Kuman Thong”  
Alessandra Radogna, MD*; Chiara Siodambro, MD; Laura Scotti, MD; Anna Lisa Nanni, MD; Maria Sole Prevedoni Gorone, MD; Silvia Damiana Visonà, MD, PhD; Matteo Moretti, MD; Pierangela Grignani, PhD; Carlo Previderè, PhD

Friday

Traditional & Non-Traditional Pattern Evidence

Moderator: Frances Wheatley, MA  
Co-Moderator: Jessica Crowson, MS  
Office of the State Chief Medical Examiner  
Nashville, TN

8:45 a.m. – 9:00 a.m.  
E93 Automatic Class Characteristic Recognition in Shoe Tread Images  
Jayden Stack*; Susan VanderPlas PhD

9:00 a.m. – 9:15 a.m.  
E94 A Comparison of Dust Cover Impact Marks on 200 Consecutively Fired Cartridge Cases From a Saiga 7.62x39mm Rifle  
Malory Molt, BS*; V. Rick Wyant, MS; Brian Smelser  
(FSF Emerging Forensic Scientist Award Oral Presentation)
9:15 a.m. – 9:30 a.m.  E95  An Open-Source Implementation of the Congruent Matching Profile Segments (CMPS) Algorithm for Assessing the Similarity of Bullets
Wangqian Ju, MSc*; Heike Hofmann, PhD

9:30 a.m. – 9:45 a.m.  E96  Blind Testing in Firearms: Preliminary Results From a Blind Quality Control Program
Maddisen Neuman, MA*; Callan Hundl, BS; Aimee Grimaldi, MS; Donna Eudaley, BS; Darrell Stein, BS; Peter Stout, PhD

9:45 a.m. – 10:00 a.m.  E97  Ordinal Regression for Error Rates in a Black-Box Face Recognition Study
Larry Tang, PhD*; Ngoc-Ty Nguyen, PhD

10:00 a.m. – 10:15 a.m.  E98  A Forensic Decryption of Ludlings
David Simpson, BS*

10:15 a.m. – 10:30 a.m.  E99  Examining New Trends Exclusive to Latino Youth Gang Violence
Cliff Akiyama, MPH, MA*

10:30 a.m. – 10:45 a.m.  BREAK

Fingerprints & Fingerprinting

Moderator:  Robert L. Hunkeler III, MFS
Montgomery County Coroner’s Office
Dayton, OH

Co-Moderator:  Jessica Volz, DNP
Adventist Healthcare Shady Grove Medical Center
Rockville, MD

10:45 a.m. – 11:00 a.m.  E100  WITHDRAWN

11:00 a.m. – 11:15 a.m.  E101  Magnetic Nanoparticles Combined With Mass Spectrometry for the Extraction and Detection of Drugs and Toxic Metal From Fingermarks: A Novel Approach for the Forensic Chemist
Mohamed O. Amin, MSc*; Entesar Al-Hetlani, PhD; Simona Francese, PhD

11:15 a.m. – 11:30 a.m.  E102  The Use of Morphological Image Processing and MATLAB® Tools in Fingerprint Forgery—An Emerging Challenge
Awais Amin, MS*

11:30 a.m. – 11:45 a.m.  E103  Investigative Leads in Latent Prints: A Comparison of Laboratory Procedures
Amanda Wilson, MS*; Sharon Kelley, JD, PhD; Jeniffer Molina, BS; Brett Gardner, PhD; Maddisen Neuman, MA

11:45 a.m. – 12:00 p.m.  E104  Measuring Proficiency Among Latent Print Examiners: A Statistical Approach From Standardized Testing
Amanda Luby, PhD*

12:00 p.m. – 1:00 p.m.  BREAK

Poster Session

11:30 a.m. – 1:00 p.m.  F1  Post-Conviction DNA Testing: Annual Summary of a Law School and University Collaboration to Identify and Evaluate Post-Conviction Case  
Katherine Roberts, PhD*; Paula M. Mitchell, JD; Nikki Herst-Cook, JD; Paige McGrail, JD; Mehul Anjaria, MS

11:30 a.m. – 1:00 p.m.  F2  Qui Custodiet Ipsos Custodes? (Who Guards the Guards?) Obligations and Rights of Parents and Children  
Benedetta Pia De Luca, MD*; Maricla Marrone; Nicola Laforgia, MD; Alessandra Stellacci, MD; Luigi Buongiorno, MD; Francesco Vinci, MD

11:30 a.m. – 1:00 p.m.  F3  Mandatory Vaccination for COVID-19? The Italian Case: Prevention Obligations and Ethical Profiles  
Alberto Marchese, PhD; Cristina Mondello, MD, PhD; Luigi Cardia, MD*; Elvira Ventura Spagnolo, MD, PhD; Aurora Vesto, PhD

Thursday

Standards—Legacy Technology-Part I

Moderator:  
Leigh Tomlin, JD  
Texas Forensic Science Commission  
Austin, TX

Co-Moderator:  
Lynn Garcia, JD  
Texas Forensic Science Commission  
Austin, TX

8:45 a.m. – 9:00 a.m.  F4  Standards Development Activities in Forensic Science: Legal Impacts Moving Forward  
Christopher Plourd JD*

9:00 a.m. – 9:30 a.m.  F5  Strengthening Forensic Science Through Independent Verification and Validation: The Path Forward  
Marc Canellas, JD, PhD*

9:30 a.m. – 9:45 a.m.  F6  Giving the Defense Bar a Seat at the Table: The Importance of Ensuring a Defense Perspective in Standard Development in the Firearms Identification Field  
Kyla J. Wells, JD*

9:45 a.m. – 10:00 a.m.  F7  Sniffing Out Crime?: The Science and the Law of Drug Detection Dogs  
Dana Delger, JD*; Michelle Grant

10:00 a.m. - 10:30 a.m.  BREAK

10:30 a.m. – 11:00 a.m.  F8  Current Scientific Issues for Human Remains Detection Dog Cases in Court: Animal Remains and Residual Odor  
Mary Cablk, PhD*

11:00 a.m. – 11:30 a.m.  F9  Firearms Tool Mark Comparison: The 2008/2009 NAS Report, the 2016 PCAST Report, and the AMES Study  
John Nixon, MBA*

All times are in the U.S. Pacific Time Zone
11:30 a.m. – 12:00 p.m.  F10  Mixtures and Baskerville Data—The Importance of What Isn’t There  
Charles Brenner, PhD*

12:00 p.m. – 12:15 p.m.  F11  A Forensic Analysis of “Gang Cop” Testimony  
Sarah Sanger, JD*

12:15 p.m. – 1:15 p.m.  BREAK

Legacy Technology—Part II/Juries and Jurists

Moderator:  
Mary Dayton, JD  
Georgia State University  
Atlanta, GA

Co-Moderator:  
Kathleen Pakes, JD  
Wisconsin State Public Defender Office  
Madison, WI

1:15 p.m. – 1:45 p.m.  F12  Fire Investigation Experts: Recommendations for Expressing Opinions in Reports and Testimony  
Dawn Hewitt, LLM*; McKenna Hewitt

1:45 p.m. – 2:15 p.m.  F13  The History of Bitemark Evidence in America  
Christopher Plourd, JD*

2:15 p.m. – 2:30 p.m.  F14  Y-Chromosomal Short Tandem Repeat (Y-STR) Testing in Indian Country: The Injustice of Ignoring Y-Chromosomal Variation Within and Among Tribal Communities  
J.D. Schmid, JD*

2:30 p.m. – 2:45 p.m.  BREAK

2:45 p.m. – 3:15 p.m.  F15  Understanding Juror Comprehension of Forensic Testimony: Assessing Jurors’ Decision Making and Evidence Evaluation  
Cassidy Koolmees, BS, BA*; Devon LaBat, BS; Jacqueline Evans, PhD; Nadja Schreiber Compo, PhD; Deborah Goldfarb, JD, PhD

3:15 p.m. – 3:45 p.m.  F16  Juror Understanding of the Weight of Evidence Presented as a Likelihood Ratio and the Impact on the Deliberative Process  
Bess Stiffelman, JD*

3:45 p.m. – 4:15 p.m.  F17  The Role of Opinions, Probability, and Likelihood Ratios in Forensic Evidence Communication by Experts  
Hari Iyer, PhD*; Steve Lund, PhD

4:15 p.m. – 4:45 p.m.  F18  Should Low Likelihood Ratios (LRs) Be Admissible? Considering the Kinship Problem  
Clinton Hughes, JD*

4:45 p.m. – 5:15 p.m.  F19  Touch DNA Communication in the Courtroom: Developing Methods for the Effective Communication of Forensic Science Data  
Julie Burrill, PhD*  
(FSF Emerging Forensic Scientist Award Oral Presentation)

**BREAK**

### Poster Session

#### 11:30 a.m. – 1:00 p.m.  
**H48**  
**Work-Related Fatal Injuries in the Genoa District of Northwest Italy: A Forensic Analysis of the 2011–2020 Decade**  
Giulia Molinari, MD*; Martina Drommi, MD; Valentina Calamano, MD; Rosario Barranco, MD; Stefano Errico, MD; Francesco Ventura, MD, PhD

#### 11:30 a.m. – 1:00 p.m.  
**H49**  
**Diving Accidents and Related Deaths in the Genoa District of Northwest Italy: A Forensic Analysis of the Period From 1968 to 2020**  
Arianna Balbo, MD*; Martina Drommi, MD; Filippo Spigno, MD; Francesca Frigiolini, MD; Rosario Barranco, MD; Francesco Ventura, MD, PhD

#### 11:30 a.m. – 1:00 p.m.  
**H50**  
**An Unusual Gunshot Wound Suicide With Findings Mimicking a Second Entrance Wound**  
Harrison Moosavi, MD*; Andrew Koopmeiners, MD

#### 11:30 a.m. – 1:00 p.m.  
**H51**  
**WITHDRAWN**

#### 11:30 a.m. – 1:00 p.m.  
**H52**  
**A Tale of Two Suicides—Gunshot Wounds to the Occiput**  
Jiemin Zhou, MD*; Zabiullah Ali, MD; Stephanie Dean, MD; J. Laron Locke, MD

#### 11:30 a.m. – 1:00 p.m.  
**H53**  
**Deaths Associated With SARS-CoV-2 Vaccination: The Importance of Autopsy**  
Francesco Sessa, MS, PhD*; Massimiliano Esposito, MD; Monica Salerno, MD, PhD; Cristoforo Pomara, MD, PhD

#### 11:30 a.m. – 1:00 p.m.  
**H54**  
**The Time and Temperature Dependence of Volatile Organic Compounds’ (VOCs’) Appearance in Autolytic Rat and Pig Liver**  
Gabrielle Messe, BA*; Robert Powers, PhD

*FSF Emerging Forensic Scientist Award Poster Presentation*

#### 11:30 a.m. – 1:00 p.m.  
**H55**  
**A Complex Suicide by Drowning and Stabbing: The First Italian Case Reported in the Literature**  
Stefano Duma, MD*; Federica Mele, MD; Mariagrazia Calvano, MD; Mirko Leonardelli, MD; Enrica Macorano, MD; Francesco Introna, MD

#### 11:30 a.m. – 1:00 p.m.  
**H56**  
**Spectrophotometric Analysis of Postmortem Lividity: A New Objective Measure to Define Time of Death**  
Mariagrazia Calvano, MD*; Antonio De Donno, MD; Chiara Lauretti, MD; Ilaria Santiemma, MD; Carmelinda Angrisani, MD; Federica Mele, MD; Mirko Leonardelli, MD; Stefano Duma, MD; Enrica Macorano, MD; Francesco Introna, MD

#### 11:30 a.m. – 1:00 p.m.  
**H57**  
**The Effect of Multiple Washes and Thread Count on Semen-Stained Sheets**  
Jenna Hedlich, MSFS*; Jason Linville, PhD

---

*All times are in the U.S. Pacific Time Zone*
PATHOLOGY/BIOLOGY

11:30 a.m. – 1:00 p.m.  H58  The First Italian Suicide Death Due to Helium Inhalation: The First Histological Findings and Pathogenesis
Enrica Macorano, MD*; Andrea Marzullo; Federica Mele, MD; Mariagrazia Calvano, MD; Mirko Leonardelli, MD; Stefano Duma, MD; Francesco Introna, MD

11:30 a.m. – 1:00 p.m.  H59  Postmortem Findings in 11 Cases of Death Occurring After the Administration of an Anti-SARS-CoV-2 Vaccine
Chiara Franzetti, MD*; Sofia Bodini, MD; Alessandra Radogna, MD; Claudia Carelli, MD; Vittorio Bolcato, MD; Paola Braga, MD; Valeria Prandini, MD; Gulnaz Javan, PhD; Silvia Visinà, MD, PhD; Matteo Moretti, MD; Luca Morini, PhD

11:30 a.m. – 1:00 p.m.  H60  Postmortem Computed Tomography (PMCT) in Luxembourg: A Retrospective Analysis
Thorsten Schwark, MD*; Martine Schaul, MD; Vincent Lens, MD; Andreas Schuff, MD

11:30 a.m. – 1:00 p.m.  H61  Congenital Rib Abnormalities: A Presentation of Two Case Studies and a Literature Review
Gregory Dickinson, MD*; Hannah C. Jarvis, MRCS; Angela Soler, PhD; Julie Fleischman, PhD

11:30 a.m. – 1:00 p.m.  H62  A Forensic Investigation of Fatal Myocardial Infarctions—A Gender-Wise Comparison, Autopsy Findings, and Biological Rhythms: A Study From Greece
Konstantinos Katsos, MD, PhD; Evmorfili Zouzia, MD, MSc; Konstantinos Moraitis, BSc, PhD; Dimitrios Vlachodimitropoulos, MD, PhD; Nikolaos Goutas, MD, PhD; Chara Spiliopoulou, PharmD, MD, PhD; Emmanouil Sakellaidis, MD, MSc, PhD*

11:30 a.m. – 1:00 p.m.  H63  The Determination of Manner of Death When Evaluating Intent: An Examination of Two Cases of Brodifacoum Adulteration of Synthetic Cannabinoids
Libby S. Aronson, MD*; Michael D. Eckhardt, MD; Danial S. Isenschmid, PhD; Kristin C. Escobar Alvarenga, MD

11:30 a.m. – 1:00 p.m.  H64  A Study of Post Severe Traumatic Brain Injury (sTBI): Pathological and Radiological Diffuse Axonal Injury (DAI) Changes
Meenakshi Sharma, MSc*; Dipin Sudhakaran, MD; Arulselvi Subramaniam, MD; Kangana Sengar, DNB; Shivanand Gamanagatti, MD; Vaishali Suri, MD; Rajesh Malhotra, MD; Sanjeev Lalwani, MD

11:30 a.m. – 1:00 p.m.  H65  A Fatal Snap: Death by Extrinsic Percussion of the Neck
Andrea Costantino, MD*; Alice Chiara Manetti, MD; Eleonora Mezzetti, MD; Arianna Baronti, MD; Paola Santoro, MD; Lavinia Pellegrini, MD

11:30 a.m. – 1:00 p.m.  H66  A Case of Traumatic Internal Carotid Artery Dissection: A Rare Event With Devastating Consequences
Giacomo Visi, MD*; Eleonora Mezzetti, MD; Andrea Scatena, MD; Aniello Maiese, MD; Paola Santoro, MD; Alessandra De Matteis, MD; Massimiliano Dell’Aquila, MD

11:30 a.m. – 1:00 p.m.  H67  The Hazard of Grabbing a Quick Bite: A Case of Fatally Choking on Ham
Arianna Baronti, MD*; Andrea Costantino, MD; Andrea Scatena, MD; Giacomo Visi, MD; Zoe Del Fante, MD; Lavinia Pellegrini, MD; Silvia Romano

11:30 a.m. – 1:00 p.m.  H68  Massive Insulin Injection: A Rare Case of Suicide
Paola Santoro, MD*; Andrea Costantino, MD; Arianna Baronti, MD; Eleonora Mezzetti, MD; Umberto De Gennaro, MD; Alice Chiara Manetti, MD; Fabio Del Duca, MD; Lavinia Pellegrini, MD

11:30 a.m. – 1:00 p.m.  H69  When Chronic Venous Insufficiency Becomes a Life-Threatening Condition: A Case of Fatal Hemorrhage From a Varicose Veins’ Ulcer
Zoe Del Fante, MD; Arianna Baronti, MD; Eleonora Mezzetti, MD; Alice Chiara Manetti, MD; Fabio Del Duca, MD*; Silvia Romano
11:30 a.m. – 1:00 p.m.  H70  Death by Arterial Injury: Two Unusual Cases of Sharp Force Fatalities
Lavinia Pellegrini, MD*; Fabio Del Duca, MD; Paola Santoro, MD; Andrea Costantino, MD; Giacomo Visi, MD; Alice Chiara Manetti, MD

11:30 a.m. – 1:00 p.m.  H71  Postmortem Degradation of Porcine Skeletal Muscle Proteins During a Heat Wave in Northern Germany
Janine Geissenberger, MSc*; Jens Amendt, PhD; Fabio Carlo Monticelli, PhD; Peter Steinbacher, PhD; Stefan Pittner, PhD

11:30 a.m. – 1:00 p.m.  H72  A Cocaine-Related Left Ventricle Rupture: A Case Report
Gabriele Licciardello, MD*; Federico Privitera, MD; Massimiliano Esposito, MD; Edmondo Scotto, MD; Sabrina Franco, MD; Aldo Liberto, MD

11:30 a.m. – 1:00 p.m.  H73  Ischemic Heart Disease Due to Intramyocardial Amyloidosis and Undiagnosed Plasma Cell Myeloma
Nicole E. Stanley, MD*; Erik Christensen, MD

11:30 a.m. – 1:00 p.m.  H74  An Indoor Postmortem Dog Scavenging: A Case Study
Andrea Vittorio Maria Failla, MD*; Gabriele Licciardello, MD; Giulio Di Mizio, MD; Mario Giuseppe Chisari, MD; Francesco Amico, MD; Monica Salerno, MD

11:30 a.m. – 1:00 p.m.  H75  A Multidisciplinary Investigation of a Corpse Found at Sea, With Particular Focus on the Use of Barnacles for the Estimation of the Time Spent in Water
Marco Torrisi, MD*; Fabrizio Vanaria, MD; Manuela Coci, MD; Paola Magni, MD, PhD; Cristoforo Pomara, MD, PhD

11:30 a.m. – 1:00 p.m.  H76  Bodies in a Pool of Blood: Murder or Natural Death?
Fausto Licciardello, MD*; Federico Privitera, MD; Salvatore Iannuzzi, MD; Giuliana Pennisi, MD; Pietro Mazzeo, MD; Aldo Liberto, MD

11:30 a.m. – 1:00 p.m.  H77  An Unusual Suicide Using a Screwdriver: A Case Report
Bayan Alzumaili, MD*; Kristen K. Landi, MD; Avneesh Gupta, MD

11:30 a.m. – 1:00 p.m.  H78  Post-Vaccination Myocarditis and Thrombosis: Monitoring Strategies and Impact on the Vaccines’ Benefit-Risk Assessment
Giulio Perrone, MD*; Clio Bilotta; MD; Corinne La Spina, MD; Vanessa Milazzo, MD; Giuliana Malandrino, MD; Valeria Provenzano, MD; Daniela Guadagnino, MD; Mario Spanò, MD; Walter Pitingaro, MD; Mattia Palmeri, MD; Valeria Tullio, PhD; Stefania Argo, PhD

11:30 a.m. – 1:00 p.m.  H79  Sudden Cardiac Death and Thymic Hypertrophy: A Recurrent Cycle in Medicine
Simona Nicoli, MD*; Marcello Benevento, MD; Giampiero Bottari, MD; Cristina Elena Rosa Caterino, MD; Francesco Clemente, MD; Biagio Dolarino, PhD, MD

11:30 a.m. – 1:00 p.m.  H80  A Rare Case of Sudden Death Due to Endomyocardial Fibrosis in Italy: A Differential Diagnosis With Other Causes of Restrictive Cardiomyopathy
Chiara Rossetti, MD*; Giacomo Belli, MD; Paola Braga, MD; Lorenzo Franceschetti, MD; Cesare Garberi, MD; Mario Picozzi; Jutta M. Birkhoff, MD, PhD

11:30 a.m. – 1:00 p.m.  H81  Formalin-Fixed Paraffin-Embedded (FFPE) Extraction of DNA From Tumor Samples: A Revolutionary Breakthrough
Kelly Burns, BS*; Dennis J. DeLuca, PhD
Case Studies

Thursday—Session II

A Year of SARS-CoV-2

**Moderator:** Kristinza W. Giese, MD
Office of the Chief Medical Examiner
Washington, DC

**Co-Moderator:** Jamie Elifritz, MD
University of New Mexico
Aubuquerque, NM

8:30 a.m. - 8:45 a.m.  
H94  
**COVID Testing and Postmortem Interval**  
Breanna Cuchara, MS*; Francisco J. Diaz, MD  
*(FSF Emerging Forensic Scientist Award Oral Presentation)*

8:45 a.m. – 9:00 a.m.  
H95  
**SARS-CoV-2 Active Replication in Cadavers**  
Francesca Cazzato*; Simone Grassi; Alessandro Alfonsetti; Massimo Zedda; Paola Cattani; Flora Marzia Liotti; Marco Dell’Aquila; Vincenzo Lorenzo Pascali; Maurizio Sanguinetti; Vincenzo Arena; Antonio Oliva

9:00 a.m. – 9:15 a.m.  
H96  
**The Postmortem Persistence Time of Sars-CoV-2 Virus: An Analysis of a Case Series**  
Isabella Aquila, MD, PhD*; Matteo A. Sacco, MD; Pietrantonio Ricci, MD, PhD

9:15 a.m. – 9:30 a.m.  
H97  
**Ventilated Postmortem Imaging of COVID-19-Related Lung Disease With Clinicopathologic Correlation**  
Nadia Solomon, MD, MSc, MA*; Inga Melvinsdottir, MD; Shin Rong Lee, MD, PhD; Roxanne Wadja, MD; Savannah Gisriel, MD, MPH; Donald Turbiville, MD; Declan McGuone, FRCPATH, MBBC; S. David Hudnall, MD; Albert Sinusas MD

9:30 a.m. – 9:45 a.m.  
H98  
**Postmortem Computed Tomography (PMCT): A Valuable Tool in the Study of SARS-CoV-2-Related Deaths?**  
Francesco Nardoni*; Simone Grassi; Massimo Zedda; Guglielmo Manenti; Roberto Floris; Cesare Colosimo; Vincenzo Arena; Vincenzo Lorenzo Pascali; Laura Filograna; Antonio Oliva

9:45 a.m. – 10:00 a.m.  
H99  
**COVID-19-Associated Myocarditis at Autopsy**  
Charles Rohrer, MD*; Adam Bailey, MD, PhD; Erin Brooks, MD

10:00 a.m. – 10:15 a.m.  
H100  
**Anosmia and COVID-19: A Search for the Virus in the Brain Through Immunohistochemical Investigations With the Anti-Sars-CoV-2 Antibody**  
Stefania De Simone, DM*; Maria Antonella Bosco, DM; Elena Giacani, DM; Michela Ferrara, DM; Raffaele La Russa, DM; Luigi Cipolloni, DM

10:15 a.m. – 10:30 a.m.  
**BREAK**

10:30 a.m. – 10:45 a.m.  
H101  
**Died From or Died With COVID-19? The Application of Frailty Scores in the Assessment of Causality in 41 Autopsy Cases in Elderly Community Settings**  
Martina Zanon, MD*; Martina Montanaro, MD; Francesca Sinopoli, MD; Matteo Dri, MD; Davide Radaelli, MD; Carlo Moreschi, MD; Stefano D’Errico, MD, PhD

10:45 a.m. – 11:00 a.m.  
H102  
**Pediatric SARS-CoV-2 Infection in the Forensic Setting**  
Rebecca Folketh, MD*; Michelle Stram, MD, MSc; Dimath Alyemni, MD, MPH; Michael Greenberg, MD; Ameesh Gupta, MBBS; Amanda Krausert, MD; Lauren Mecca, MD; Sophia Rodriguez, MD; Jay Stahl-Herz, MD

11:00 a.m. – 11:15 a.m.  
H103  
**Overdose Analysis in a Year of COVID-19 in Orange County, California**  
Kelly Keyes, BS*; Chelsea Brown, MA

*All times are in the U.S. Pacific Time Zone*
11:15 a.m. – 11:30 a.m. H104 A Year of Mandatory, Universal COVID-19 Postmortem Testing in San Francisco: Lessons Learned
Rand Miyashiro, MA*; Willi McFarland, MD, PhD

11:30 a.m. – 11:45 a.m. H105 The Challenges of the Disposal of COVID-19-Deceased Bodies in Mumbai, India
Manoj Parchake, MD*

11:45 a.m. - 12:00 p.m. H106 The Challenges in Managing Dead Bodies With COVID-19 in Indonesia
Yudy Yudy, MD; Klarisa Salim, MD; Denys Alim, MD*

12:00 p.m. – 1:00 p.m. BREAK

Invertebrates and Microbes

Moderator: David Carter, MD
Chaminade University of Honolulu
School of Natural Sciences & Mathematics
Honolulu, HI

Co-Moderator: Heather R. Jordan, PhD
Mississippi State University
Mississippi State, MS

1:00 p.m. - 1:15 p.m. H107 Estimating the Postmortem Interval (PMI) Using Decomposition Scoring Systems: A Comparative Study
Valentina Bugelli, MD*; Silvia Raddi, MD; Matteo Cecchetti, MD; Ilaria Tarozzi, MD; Sara Bortolini, PhD; Carlo Pietro Campobasso, MD, PhD

1:15 p.m. – 1:30 p.m. H108 A Long-Term Study of Decomposition at a Tropical Taphonomy Facility: 2013–2021
David O. Carter, PhD*; Alexis J.L. Peterson, BS; Adam Orimoto, MS; Agathe Ribereau-Gayon, PhD; Carlos A. Gutierrez, PhD; Katelynn A. Perrault, PhD

1:30 p.m. - 1:45 p.m. H109 A Longitudinal Study of Human Decomposition Across Summer and Winter in Quebec, Canada
Agathe Ribéreau-Gayon, PhD*; Shari Forbes, PhD (FSF Emerging Forensic Scientist Award Oral Presentation)

1:45 p.m. – 2:00 p.m. H110 WITHDRAWN

2:00 p.m. - 2:15 p.m. H111 Pre-Colonization Data Improves Larval Age Estimations With Human Remains
Charity G. Owings, PhD*; Hayden McKee, MSc; Erin Patrick, MS; Sarah Schwing, BA, BSc; Thomas Delgado, BA; Dawnie W. Steadman, PhD

2:15 p.m. - 2:30 p.m. BREAK

2:30 p.m. – 2:45 p.m. H112 Successional Changes in the Entomological, Bacteriological, and Fungal Communities During the Decomposition of Swine Carcasses
Denise Gemmellaro, PhD*; Rachel Domke, BA; Kristina Kovalskia; Amanda Joy O’Connor; Olivia Pate; Gloria Raise; Nicholas Lorusso, PhD; Maria Shumskaya, PhD (FSF Emerging Forensic Scientist Award Oral Presentation)

2:45 p.m. - 3:00 p.m. H113 A Characterization of Volatiles Produced by Five Aerobic Postmortem Bacterial Species
Kyle Furuta, BSFS; Julianne Byrne, BSFS; Cynthia Cheung, MSFS; David O. Carter, PhD; Katelynn A. Perrault, PhD*

3:00 p.m. - 3:15 p.m. H114 Determining Human Identity From Leeches
Veronica M. Cappas, BS*; Reena Roy, PhD (FSF Emerging Forensic Scientist Award Oral Presentation)
Thursday—Session III

2022 Jay Dix Lecture Series

Moderator:
Michael A. Graham, MD
Saint Louis University School of Medicine
St. Louis, MO

9:00 a.m. – 10:00 a.m. | H115  | Deaths Due to Electricity
Joseph A. Prahlow, MD*

10:00 a.m. – 10:15 a.m. | BREAK |

10:15 a.m. – 11:05 a.m. | H115  | Firearm Injuries
Andrew M. Baker, MD*

11:05 a.m. – 12:00 p.m. | H115  | Investigation of Death Due to Asphyxia
Jonathan Hayes, MD*

12:00 p.m. – 2:00 p.m. | BREAK |

2:00 p.m. – 2:50 p.m.    | H115  | Deaths Associated With Sports
Joyce L. deJong, DO*

2:50 p.m. – 3:05 p.m.    | BREAK |

3:05 p.m. – 3:55 p.m.    | H115  | Deaths Due to Drugs and Other Toxic Agents
James R. Gill, MD*

Friday—Session I

Retrospective Studies

Moderator:  Co-Moderator:
Gregory M. Dickinson, MD  Denise Wohlfahrt, BS
Office of the Chief Medical Examiner  Virginia Commonwealth University
New York, NY  Richmond, VA

8:30 a.m. - 8:45 a.m.  H116  The National Center for Forensics—Forensic Workforce Development
Danny A. Milner, Jr., MD, MSc; Joseph A. DiZinno, DDS; Anthony B. Falsetti, PhD; Amie Ely, JD; Robert A. Kurtzman, DO*

8:45 a.m. – 9:00 a.m.  H117  The National Center for Forensics—The Medical Examiner’s Role
Robert A. Kurtzman, DO*; Danny A. Milner, Jr., MD, MSc; Anthony B. Falsetti, PhD; Joseph A. DiZinno, DDS; Amie Ely, JD

9:00 a.m. – 9:15 a.m.  H118  Gunshot-Related Fatalities in the Pediatric Population: A Retrospective Study From the Cook County Medical Examiner's Office
Lorenzo Gitto, MD*; Ponni Arunkumar, MD
### Friday—Session II

**Cases of Cardiac Arrest, Asphyxia, and Suicide**

**Moderator:**
Jonathan Parrott, PhD  
Arizona State University  
Glendale, AZ

**Co-Moderator:**  
Gregory A. Schmunk, MD  
Urbandale Forensics, P.C.  
Urbandale, IA

Poster Session

11:30 a.m. – 1:00 p.m.  I1  Schema Mode Work, Limited Reparenting, and Empathic Confrontation in Solution-Focused Therapy (SFT) in the Treatment of Forensic Late Adolescent Patients With Antisocial Personality Disorders Who Committed Offenses and in Precautionary Measures in the Community
Melania Lugli, PhD*, Davide Bregoli, PhD

11:30 a.m. – 1:00 p.m.  I2  Housing Conservatorship: New Paradigm or Unfunded Boondoggle?
Michael Cheng, MD*

11:30 a.m. – 1:00 p.m.  I3  From Neomycin-Bacitracin-Polymyxin to Sexually Transmitted Diseases (STDs): The Significance of Interpretation and Attentiveness When Treating Developmentally Disabled Patients With Severe Mental Illness
Yasmine Razi, BS*; Davin Agustines, DO

11:30 a.m. – 1:00 p.m.  I4  A Case of Neonaticide With Homicidal Defenestration of the Child
Bernat-Noël Tiffon Nonis, PsyD*

11:30 a.m. – 1:00 p.m.  I5  A Homicidal Outburst and Preservation of the Corpse at Home
Bernat-Noël Tiffon Nonis, PsyD*

Thursday

Behavioral Sciences

Moderator: Jessica Morel, DO
Fayetteville, NC

Co-Moderator: Corina Freitas
Syracuse, NY

9:45 a.m. - 10:30 a.m.  I6  Death Due to Autoerotic Practices: Evidence for Diagnosis Resulting From a Systematic Review
Salvatore Roccuzzo, MD*; Giuseppe Li Rosi, MA; Federico Giuseppe Patanè, MD; Fabrizio Vanaria, MD; Cristoforo Pomara, MD

10:30 a.m. – 11:30 a.m.  I7  A Five-Year Review (2016–2020) of Intimate Partner Homicides at the Harris County Institute of Forensic Sciences
Jennifer L. Ross, MD*

11:30 a.m. – 12:15 p.m.  I8  Homicides Committed by Delusional Patients in the Early 20th and 21st Centuries: A Study Conducted in a French Secure Unit
Eloise Provoost, MD*

12:15 p.m. - 1:30 p.m.  BREAK
Poster Session

11:30 a.m. – 1:00 p.m.  I9  Hair Toxicology Identifies Greater Substance Use Than Self-Reported in High-Risk Youth Enrolled in the Adolescent Brain Cognitive Development™ (ABCD) Study  
Natasha Wade, PhD*; Vanessa Diaz, BS; Susan Tapert, PhD; Krista Lisdahl, PhD; Marilyn A. Huestis, PhD; Frank Haist, PhD

11:30 a.m. – 1:00 p.m.  I10  Death of a Doppelgänger: A Peculiar Case of Homicide  
Caterina Bosco, MD*; Dott Lucia Tattoli, PhD; Cristiano Barbieri, MD; Gabriele Rocca, MD; Ignazio Grattagliano, PsyD; Giancarlo Di Vella, PhD

11:30 a.m. – 1:00 p.m.  I11  Strangulation and Drowning: Homicide or Suicide?  
Andreana Nicoletta Maria Maglitto, MD*; Giuliana Pennisi, MD; Federica Ministeri, MD; Francesco Amico, MD; Giuseppe Li Rosi, MA; Aldo Liberto, MD

11:30 a.m. – 1:00 p.m.  I12  A Massive Suicidal Ingestion of Flurazepam and Lamotrigine: A Case Report  
Alessandro Santurro, MD; Federico Manetti, MD*; Matteo Scopetti, MD; Martina Padovano, MD; Maria Chiara David, PhD; Antonio Grande, MD, PhD

11:30 a.m. – 1:00 p.m.  I13  Massive Sigmoid Volvulus: An Unexpected and Deadly Twist  
Matteo Scopetti, MD; Federico Manetti, MD*; Martina Padovano, MD; Alessandro Santurro, MD; Paola Frati, PhD; Vittorio Fineschi, MD, PhD

Behavioral Sciences

Moderator:             Co-Moderator:  
Jessica Morel, DO     Corina Freitas
Fayetteville, NC     Syracuse, NY

1:30 p.m. – 2:30 p.m.  I14  Work-Related Stress Among Medicolegal Death Investigator Professionals: Sources of Stress, Health Outcomes, and Protective Factors  
Jennifer Rineer, PhD*; Crystal Daye, MPA; Sean Wire, MA; Kelly Keyes, BS*

2:30 p.m. – 3:30 p.m.  I15  WITHDRAWN

3:30 p.m. – 5:30 p.m.  I16  Copping Crazy and Getting Off: What Do You Need to Know About the Insanity Defense?  
George David Annas, MD, MPH*; Corina Freitas, MD

All times are in the U.S. Pacific Time Zone
Friday

Poster Session

11:30 a.m. – 1:00 p.m. I17 The Emotional State of Sexual Assault Survivors Regarding Legal Proceedings: Analysis of Connotation in Online Forums
Haruka Mori*

11:30 a.m. – 1:00 p.m. I18 Suicide Trends in Adults and COVID-19: A Retrospective Analysis in Georgia
Jenna Aungst, BS*; Brinley Bowen, MPH
(FSF Emerging Forensic Scientist Award Poster Presentation)

11:30 a.m. – 1:00 p.m. I19 Outpatients' Social Reintegration in the Community in Italy After High Security Hospitals Close
Lia Parente, PsyD*; Amedeo Bottaro, JD; Alan. R. Felthous, MD; Fulvio Carabellese, JD; L. Paparella, MD; D. La Tegola, PsyD; D. Montalbò, MD; M. Urbano, JD; I. Rossetto, MD; F. Franconi, MD; F. Spadaro, MD; Felice Carabellese, MD

11:30 a.m. – 1:00 p.m. I20 DUNDRUM: An Italian Validation Project
Donatella La Tegola, PhD, PsyD*; Harry Kennedy, MD; M. Davoren, MD; Fulvio Carabellese, JD; Lia Parente, PsyD; Viola Ferrante, TRP; Ilaria Rossetto, MD; Gabriele Mandarelli, MD, Francesco Spadaro, MD; Domenico Montalbò, MD; Michele Bruno, MD; Luigi Paparella, TRP; Marika Leozappa, PsyD; Giusi Lombardo, PsyD; Giuseppe Nicolò, MD; Felice Francesco Carabellese, MD

11:30 a.m. – 1:00 p.m. I21 The Differences Between Readmitted and Non-Readmitted Women in an Italian Forensic Unit: A Retrospective Study
Ilaria Rossetto, MD, PhD*

Multidisciplinary Session: Digital & Multimedia Sciences and Psychiatry & Behavioral Science

Moderator:
Kathryn C. Seigfried-Spellar, PhD
Purdue University
West Lafayette, IN

1:00 p.m. – 1:05 p.m. Welcome

1:05 p.m. – 2:00 p.m. I22 A Psychopath in the House: How Digital Media Is Used to Exploit Even the Safest Homes
Jessica Morel, DO*; Vivian Shnaidman, MD; Anna-Renee Labak

2:00 p.m. – 2:30 p.m. C34 The Analysis of a Digital Sexual Diary to Aid in a Child Sexual Assault Investigation: A Case Study
Joseph Levi White, PhD*

2:30 p.m. – 3:00 p.m. I23 Virtual Reality as a Treatment Medium for Sex Offenders
Jacob Pourat, MD*

3:00 p.m. – 3:30 p.m. I24 From Online Personas to Mass Murderers: The Incel Ideology and the Struggles of Mental Health
Eva Ip, BS*

3:30 p.m. – 4:15 p.m. C35 Sextortion: Understanding Perpetrator Behavior and the Digital Evidence Available to Investigators
Martin Novak, MPA*; Danielle Crimmins, MS; Kathryn Seigfried-Spellar, PhD

4:15 p.m. – 4:45 p.m. I25 3D Interactive Lineups Improve Eyewitness ID Accuracy
Heather Flowe, PhD*

All times are in the U.S. Pacific Time Zone
**Wednesday**

**K8** A Toxicological Analysis of Methadone and Oxycodone in Decomposition Fluid and Liver Tissue From Decomposed Bodies
Kaitlin Collura, MD, PhD*; Jack M. Titus, MD; Stephanie A. Dean, MD; Rebecca Phipps, PhD

**K9** The Effects of Ethanol on GABA Catabolism: Succinyl Semialdehyde Dehydrogenase
Natalia Gabrys, BS*; Robert H. Powers, PhD

**K10** The Effects of Storage Time, Adverse Storage Conditions, and Lab Exposure on Blood Alcohol Concentrations
Ruby E. Liliedahl, BS*; Tifani Parker, MS

**K11** In Vitro Metabolic Profile of the New Synthetic Opioid Bucinnazine by Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS)
Karissa N. Resnik, MS*; Emanuele A. Alves, PhD

All times are in the U.S. Pacific Time Zone
7:30 p.m. – 9:00 p.m.  **K12**  The Validation of a Screening Method for 700+ New Psychoactive Substances (NPS) in Authentic Urine by Liquid Chromatography/Triple Quadrupole/Mass Spectrometry (LC/QqQ/MS)
Rebecca Smith, MS*; Anthony DeCaprio, PhD

7:30 p.m. – 9:00 p.m.  **K13**  Gender Differences in Driving Under the Influence (DUI) of Psychoactive Drugs: A Systematic Review and Meta–Analysis
Guido Pelletti, MD, PhD*; Clara Fiorentini, MD; Camilla Fontana, MD; Arianna Giorgetti, MD; Rafael Boscolo-Berto, MD; Rossella Barone, MD; Paolo Fais, MD, PhD; Susi Pelotti, MD

7:30 p.m. – 9:00 p.m.  **K14**  A Gas Chromatography/Tandem Mass Spectrometry (GC/MS/MS) Determination of Ethyl Glucuronide (EtG) on Real Hair Samples and a Medicolegal Evaluation of Alcohol Use and Abuse
Sara Gariglio, BS*; Maria Chiara David, PhD; Alessandro Mattia, PS; Vincenza Liviero, PhD, MD; Clementina Moschella, PhD

7:30 p.m. – 9:00 p.m.  **K15**  The Adulteration of Powder Milk (Lactogen–1) With Lambda–Cyhalothrin Causing the Death of a Baby Girl: A Case Study
Hafiz Faisal Usman, MS*; Muhammad Imran, MPhil; Asif Raza, MPhil; Muhammad Amjad, PhD; Mohammad Ashraf Tahir, PhD; Aabroo Imtiaz Gill, MS

7:30 p.m. – 9:00 p.m.  **K16**  WITHDRAWN

7:30 p.m. – 9:00 p.m.  **K17**  Exo–THC: The Impact of Isobars on Cannabinoid Testing for Seized Drug and Toxicology Cases
Edward X. Zumaeta, MS*; Kelvin Morales–Colon, MS; Ileine K. Alford, MS; Nicholas B. Tiscione, MS

7:30 p.m. – 9:00 p.m.  **K18**  An Unusual Case of Accidental Phosphine Inhalation in Pakistan
Muhammad Amir Nadeem, MPhil*; Muhammad Mubasher, MPhil; Muhammad Imran, MPhil; Muhammad Amjad, PhD; Mohammad Ashraf Tahir, PhD; Aabroo Imtiaz Gill, MS

7:30 p.m. – 9:00 p.m.  **K19**  An Analysis of Cannabis Exposure and Oxidative Stress Biomarkers in Exhaled Breath Condensate and Oral Fluid
Meena Swaminathan, MS*; Anthony P. De Caprio; Anamary Tarifa

7:30 p.m. – 9:00 p.m.  **K20**  A Quantitative Analysis of Cannabinoids in Exhaled Breath Aerosols by High–Performance Liquid Chromatography/Electrospray Ionization–Tandem Mass Spectrometry (HPLC/ESI–MS/MS)
Cheryle Beuning, PhD*; Adam J. Friss, PhD; Kavita M. Jeerage, PhD; Tara Lovestead, PhD; Cinnamon Bidwell, PhD

7:30 p.m. – 9:00 p.m.  **K21**  A Sensitive Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS) Method for the Simultaneous Quantification of 32 Drugs in Oral Fluid
Kayla Marschke, BS; Marta Concheiro–Guisan, PhD*

7:30 p.m. – 9:00 p.m.  **K22**  The Detection of Gabapentin in the Human Umbilical Cord
Amy Racines, MS; Andre J. Sukta, MSFS*; Joseph Jones, PhD

7:30 p.m. – 9:00 p.m.  **K23**  Comparative Biotransformation of New Psychoactive Substances by Human Liver Microsomes, Electrochemical Oxidation, and In Silico Analysis
Leonardo Maya, BS*; Anthony P. DeCaprio, PhD
7:30 p.m. – 9:00 p.m.  K24  Method Development for Drug Court Samples
Kourtney M. Steen, MSFS*; Elizabeth A. Gardner, PhD

7:30 p.m. – 9:00 p.m.  K25  The Determination of 67 Analytes in Oral Fluid by Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS)
Kennedy Plude, BS*; Amy E. Kinkennon, PhD; Phillip Bost, MS; Matthew McGreevy, BS; James A. Bourland, PhD

7:30 p.m. – 9:00 p.m.  K26  When Being Positive Is Enough—Unlocking Child Abuse in a Non–Disclosing Child Via Toxicological Hair Testing: A Case Study
Jessica Volz, DNP*

7:30 p.m. – 9:00 p.m.  K27  Electrochemical and Density Functional Theory (DFT) Studies for Fentanyl and Fentanyl Analogs
Ling Wang, PhD*; Gustavo Murilo Alves, BS; Sevde Dogruer, BS*; Bruce R. McCord, PhD

7:30 p.m. – 9:00 p.m.  K28  The Stability of Ethanol in Oral Fluid Samples Using the Quantisal® Collection Device
Mairin M. Higgins BS*; Kelvin Barnes, BS; Heather L. Harris, MFS, JD; Karen S. Scott, PhD

7:30 p.m. – 9:00 p.m.  K29  The Development of a Method for the Extraction and Analysis of Fentanyl and Alprazolam From Dermestid Beetles, Larvae, Casings, and Frass
Stephanie R. VanLysebettens, BA*; Stephanie A. Rainer, MSFS; Lorna A. Nisbet, PhD; Karen S. Scott, PhD

7:30 p.m. – 9:00 p.m.  K30  Validation of a Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS) Method for 23 Fentanyl Analogs in Oral Fluid
Nicole Haase, BS*; Erin Divito, PhD; Frederick W. Fochtman, PhD; Haley Berkland, MS; Ashley Trouten, BS; Stephanie J. Wetzel, PhD

7:30 p.m. – 9:00 p.m.  K31  An Investigation of Structural Features on the Binding of Synthetic Cannabinoids to the CB1 Receptor: A Computational Study of the JWH Compounds
Krishna Chaturvedi, PhD; Caroline Spencer, PhD; Pankaj Pandey, PhD; Robert Doerksen, PhD; Murrell Godfrey, PhD*

7:30 p.m. – 9:00 p.m.  K32  A Comparison of Meconium, Synthetic Meconium, and Urine by High–Performance Liquid Chromatography (HPLC) and Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS) in the Simultaneous Detection of Illicit Drugs and Metabolites
Shannon Palladino, MPS*; William Campbell, PhD
Thursday

Annual Lectureship in Toxicology

Moderator: Amanda L.A. Mohr, MSFS
Co-Moderator: Diane Boland, PhD
The Center for Forensic Science Research & Education
Willow Grove, PA

8:15 a.m. – 8:30 a.m. Welcome and Introduction
8:30 a.m. – 9:30 a.m. Annual Lectureship in Toxicology
Daniele Piomelli, PhD, MD (hon)
Distinguished Professor of Anatomy and Neurobiology
Louise Tuner Arnold
Chair in the Neurosciences
Director, NIDA Center of Excellence ‘Impact of Cannabinoids Across the Lifespan’ (ICAL)
Director, UCI Center for the Study of Cannabis

9:30 a.m. – 10:00 a.m. Standards Development Activities in Forensic Toxicology
Marc A. LeBeau, PhD*

10:00 a.m. – 10:30 a.m. BREAK

Drugs and Driving Special Session

Moderator: Nicolas B. Tiscione, MS
Co-Moderator: Rebecca L. Hartman, PhD
Palm Beach County Sheriff’s Office
West Palm Beach, FL

10:30 a.m. – 10:45 a.m. The Rise of the “Cannabisomers”
Tiara Evans, MS*; Joshua Seither, PhD; Jessica Knittel, MS; Erin Karschner, PhD;
Jeff Walterscheid, PhD

10:45 a.m. – 11:00 a.m. Impaired Driving Cases With Clonazolam
Nicholas B. Tiscione, MS*

11:00 a.m. – 11:15 a.m. Gabapentin in Driving Under the Influence of Drugs (DUID): An Update
Jolene Bierly, MSFS*; Ayako Chan-Hosokawa, MS

11:15 a.m. – 11:30 a.m. An Assessment of the National Safety Council’s Tier 1 and Tier 2 Scope Recommendations in Authentic Driving Under the Influence of Drugs (DUID) Cases
Grace Cieri, BS*; Amanda L.A. Mohr, MSFS; Melissa Fogarty; Barry K. Logan, PhD

11:30 a.m. – 11:45 a.m. The Use of Statistical Models to Evaluate Signs of Cannabis Impairment During Drug Recognition Expert (DRE) Evaluations
Karen Woodall, PhD; Rachel Ram, BSc*; Reed Holland

11:45 a.m. – 12:00 p.m. Evaluating Cannabinoid Interference and Drug Stability in Oral Fluid for Driving Under the Influence of Drugs (DUID) Testing
Jasmine Maxwell, MSFS*; Elizabeth A. Gardner, PhD; Curt E. Harper, PhD
(FSF Emerging Forensic Scientist Award Oral Presentation)

12:00 p.m. – 1:15 p.m. BREAK

All times are in the U.S. Pacific Time Zone
Novel Psychoactive Substances

Moderator: Alex J. Krotulski, PhD
The Center for Forensic Science Research & Education
Willow Grove, PA

Co–Moderator: Jessica L. Ayala, MSFS
Sam Houston State University
Huntsville, TX

1:15 p.m. – 1:30 p.m. K40 The Development and Validation of an Analytical Method for Ten Novel Designer Benzodiazepines in Blood Using Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS)
Pucheng Ke, PhD*; Sara Dempsey, PhD; Peter R. Stout, PhD; Dayong Lee, PhD

1:30 p.m. – 1:45 p.m. K41 The Quantitation of a Synthetic Cannabinoid, 5F-MDMB-PICA, and Its Metabolites in Authentic Human Biological Samples Using Liquid Chromatography/Triple Quadrupole/ Mass Spectrometry (LC/QqQ/MS)
Sara E. Walton, MS*; Alex J. Krotulski, PhD; Donna M. Papsun, MS; Barry K. Logan, PhD

1:45 p.m. – 2:00 p.m. K42 An Explanation and the Impacts of a Class-Wide Ban on Synthetic Cannabinoids: What Does the Future Hold for This Already Challenging Novel Psychoactive Substances (NPS) Subclass?
Alex J. Krotulski, PhD*; Judith Rodriguez Salas, MSFS; Amanda L.A. Mohr, MSFS; Barry K. Logan, PhD

2:00 p.m. – 2:15 p.m. K43 The 2021 Novel Psychoactive Substance (NPS) Landscape: The New, the Nuanced, and the Long-Haulers
Donna M. Papsun, MS*; Alex J. Krotulski, PhD; Barry K. Logan, PhD

2:15 p.m. – 2:30 p.m. K44 Multimodality Surveillance of Adverse Events of Designer Stimulants From 2013 to 2020
Jeri Ropero-Miller, PhD*; Amanda L.A. Mohr MSFS; Barry K. Logan, PhD; Marilyn A. Huestis, PhD

2:30 p.m. – 2:45 p.m. K45 An Evaluation of Enzyme-Linked Immunosorbent Assay (ELISA) for the Detection of Novel Psychoactive Benzodiazepines
Christie L. Mitchell-Mata, MFS*; Szabolcs Sofalvi, MSc; Shelby Travaglianti; Luigino Apollonio, PhD

2:45 p.m. – 3:00 p.m. BREAK

Alternative Matrices

Moderator: Dani C. Mata, MS
Orange County Crime Lab
Santa Ana, CA

Co–Moderator: Liz Zaney, BS
Miami-Dade Medical Examiner’s Office
Miami, FL

3:00 p.m. – 3:15 p.m. K46 An Analysis of Methylphenidate, Ethylphenidate, Lisdexamfetamine, and Amphetamine in Oral Fluid by Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS)
Christina Smith, BS*; Madeleine J. Swortwood, PhD (FSF Emerging Forensic Scientist Award Oral Presentation)

3:15 p.m. – 3:30 p.m. K47 An Assessment of Biological Matrices for the Detection of In Utero Cannabis Exposure
Marta Concheiro-Guisan, PhD*; Frank Martin Gutierrez, BS; Alejandro Ocampo, BS; Elena Lendoiro, PhD; Eva González-Colmenero, MD, PhD; Ana Concheiro-Guisán, MD, PhD; Manuel López-Rivadulla, PhD; Ana de-Castro-Ríos, PhD
3:30 p.m. – 3:45 p.m.  K48  An Evaluation of Three Extraction Techniques for the Analysis of 11 Drugs and Metabolites in Authentic Hair Reference Material
Brianna Spear, MS*; Anthony P. DeCaprio, PhD

3:45 p.m. – 4:00 p.m.  K49  Fantastic Cases and Where to Find Them
Katherine Dozier, PhD*; Bryan J. Platt, MD; Eric W. Berg III, MD

Friday

Postmortem Toxicology

Moderator:
Michael E. Lamb, MSFS
NMS Labs
Horsham, PA

Co–Moderator:
Erin Karshner
Armed Forces Medical Examiner System
Dover, DE

8:00 a.m. – 8:15 a.m.  K50  Quantifying the Relationship Between 1-Propanol and Postmortem-Formed Ethanol
Robert Kronstrand, PhD*; Shimpei Watanabe, PhD; Markus Roman, BSc

8:15 a.m. – 8:30 a.m.  K51  Branching Out: A Report of a Fatal Intoxication Case Involving 2-Methyl-2-Butanol
Michael E. Lamb, MSFS*; Andrea Carolina Noble, PhD; Mark Annand, BS; Frederick Strathmann, PhD

8:30 a.m. – 8:45 a.m.  K52  Fatal Intoxication Involving 2-Methyl AP-237: A Case Report
Michael T. Truver, PhD*; Alex Gillette, MS; Sara Brogan, BS; Jennifer L. Hoyer, MS; Chris W. Chronister, PhD; Bruce A. Goldberger, PhD

8:45 a.m. - 9:00 a.m.  K53  Drug Taxonomy in Forensic Science Data for Integration Into Medicolegal Death Investigation Systems
Alex J. Krotulski, PhD*; Donna M. Iula, PhD; Agnes D. Winokur, MS; Jeri Ropero-Miller, PhD; Bruce A. Goldberger, PhD

9:00 a.m. – 9:15 a.m.  K54  Postmortem Polysubstance Use Trends in Tramadol-Positive Cases From 2015–2020 in Pennsylvania
Stephanie Marco, PhD*

9:15 a.m. – 9:30 a.m.  BREAK

PROGRAM COMMITTEE
FINANCIAL DISCLOSURE

As a sponsor of continuing education, the American Academy of Forensic Sciences (AAFS) must ensure balance, independence, objectivity, and scientific rigor in all its educational activities. All faculty participating in a sponsoring activity are expected to disclose any significant financial interest or other relationship: (1) with the manufacturer(s) of any commercial product(s) and/or provider(s) of commercial services discussed in an educational presentation; and (2) with any commercial supporters of the activity. (Significant financial interest or other relationships can include such things as grants or research support, employee, consultant, major stockholder, member of speaker’s bureaus, etc.) AAFS has an established policy regarding conflicts of interest that includes decisions the Program Committee members may make in selecting content for the Annual Scientific Meeting Program. By serving on the committee, regardless of the role, each member has agreed to comply with Section 1.4.7. of the AAFS Policy and Procedure Manual.

To serve on the 2021–22 Program Committees, it is required that relevant AAFS staff members, program committee members, and/or reviewers complete a Financial Disclosure Form before being provided access to review submissions for the program. For continuing education accreditation purposes, the disclosed relationships are published below so learners are aware of the nature of any relationships that may impact the selection of presentations for the program. If a committee member failed to provide complete disclosure of a relevant financial interest or relationship, the committee member or reviewer was not allowed to serve. The executed Faculty Disclosure Forms are on file in the AAFS Office.

The following 2021–22 Program Committee members have disclosed financial relationships with commercial entities.

Bierly, Jolene-Reviewer
NMS Labs (Salary)

Briley, Eileen M.-Reviewer
Drug Enforcement Administration, Virginia Department of Forensic Science (Salary)
Brothers, Samuel I.-Reviewer
Hive International, MITRE (Salary)

Browning, Theresa B.-Reviewer
United States Department of Justice (Salary)

Epstein, Brandon-Reviewer
Medex Forensics (Consulting Fees)

Gill, James R.-Committee Member
(Personal Consulting)

Hardy, Sarah-Reviewer
A2LA Workplace Training Independent Contractor (Consulting Fees)

Huestis, Marilyn A.-Reviewer
Pinney Associates (Consulting Fees)
Hughes, Sheree R. Hughes-Committee Member
Sam Houston State University (Salary)

Lee, Steven B. Lee-Reviewer
Illumina Inc, Moderna (Ownership Interest greater than 5%)

Mitchell, Stacey A. Mitchell-Reviewer
Kansas State Indigent Defense Bar (Consulting Fees), MyEcoHealth, LLC (Receipt of Intellectual Property Rights/Patent Holder, Ownership Interest less than 5%)

Mozayani, Ashraf-Reviewer
CRC (Royalty), International Forensic Science Consultants (Consulting Fees), Springers (Royalty), Texas Southern University (Salary)

Passalacqua, Nicholas V.-Reviewer
Elsevier, Wiley (Royalty)

Prahlow, Joseph A.-Committee Member
Multiple Attorneys (Consulting Fees), Springer (Royalty), Western Michigan University School of Medicine (Salary)

Schroder II, William M.-Reviewer
NMS Labs (Salary)

Smith, Ashley C.-Reviewer
InnoGenomics (Royalty)

Smith, Ruth Waddell-Reviewer
Journal of Forensic Sciences (Consulting Fees)

Speck, Patricia M.-Reviewer
Medical Education Speakers Network (Fees for Non-CE Services Received Directly from an Ineligible Entity or their Agents), Spouse and Son (Owners of MyEcoHealth, LLC)
The following 2021–22 Program Committee members disclose no financial relationships with commercial entities.

Yu, Jorn Chi-Chung-Reviewer

Z
Zinni, Debra Prince-Committee Member
As an accredited provider of Continuing Medical Education, the American Academy of Forensic Sciences requires speakers to disclose any real or apparent conflict of interest they may have related to the content of their presentation(s). The existence of commercial or financial interest of authors related to the subject matter of their presentation(s) should not be construed as implying bias or decreasing the value of their presentation(s). However, disclosure should help participants form their own judgments. AAFS and the Program Committee review the submissions to ensure that the content is educational and not a commercial presentation for companies and their products. Participants may notify AAFS by email (abstracts@aafs.org) should any presentation be considered solely a commercial endorsement presentation. Notification should include presentation number/ID (e.g., BS10, E100, W30) and speaker name.

If an author failed to provide complete disclosure of the discussion of commercial products, a relationship including employee/employer relationship, sources of support for the research project, and/or the discussion of unlabeled or unapproved uses of pharmaceuticals/medical devices, the presentation was not accepted. Authors are required to disclose at the beginning of each presentation any information disclosed and listed below. Copies of the executed disclosure forms are kept on file in the AAFS office.

The following presenting authors have disclosed financial relationships with commercial entities.

A

Adedayo, Oluwasola Mary-C27
The University of Winnipeg (Stipend)
Adeoye, Alexandra-B131
National Institute of Justice (Grant Support)
Aggazzotti, Cristina-D14

The presenting author index can provide a quick reference to find when and in what section presenting authors are scheduled to present at the 2022 Annual Scientific Conference. The reference table below assists you in finding the section in which the presentation is being made while the number corresponds to the numerical sequence of the presentation within the section.
