

## Toxicology Section – 2010

---

### K41 Postmortem Pediatric Toxicology

*Robert A. Middleberg, PhD, NMS Labs, 3701 Welsh Road, Willow Grove, PA 19090; Nikolas P. Lemos, PhD, San Francisco Office of the Chief Medical Examiner, Hall of Justice, North Terrace, 850 Bryant Street, San Francisco, CA 94103; Wendy R. Adams, PhD\*, NMS Labs, Inc., 3701 Welsh Road, Willow Grove, PA 19090; Margaret Greenwald, MD\*, Office of Chief Medical Examiner, Maine, 37 State House Station, Augusta, ME 04333; Eric L. Kiesel, MD, PhD\*, Pierce County Medical Examiner's Office, 3619 Pacific Avenue, Tacoma, WA 98418; and Loralie J. Langman, PhD\*, Hilton 761-B, 200 1st Street, Southwest, Rochester, MN 55905*

After attending this presentation, attendees will gain an appreciation for the challenges unique to toxicological findings in postmortem pediatric cases. Attendees will learn interpretive guidelines for pediatric cases involving forensic toxicology in both a general and case-specific sense.

This presentation will impact the forensic science community by further delineating the interpretive aspects of toxicological findings in the pediatric population.

In this 11<sup>th</sup> Annual Special Session within the Toxicology Section, pediatric cases involving toxicological findings are discussed. As a relative dearth exists of interpretive information involving toxicological findings in the pediatric population, this session is a forum to help elucidate and clarify such issues. The format is a short case presentation including pharmaco-toxicokinetic data and other relevant ancillary information followed by audience participation to provide interpretive clarity around the case-specific impact of the toxicological findings. **Pediatric, Toxicology, Postmortem**
