### **Part 3: Graduate Curriculum Worksheet**

#### **5.1 Graduate Admission Requirements**

For **forensic science programs with an emphasis in biology and/or chemistry**, a bachelor's degree in a forensic or natural science (or its equivalent coursework in a relevant field) is required.

For **forensic science programs with an emphasis in digital evidence**, a bachelor's degree is required.

An exception to the bachelor's degree requirement may include a bachelor's degree/master's degree linked or contiguous program (accelerated program). In an accelerated program the Student should be able to complete the bachelor's degree without completing the master's degree

The forensic science program seeking accreditation is:

	Forensic science with an emphasis in biology and/or chemistry
	Forensic science with an emphasis in digital evidence
	A FEPAC accelerated program seeking reaccreditation

## Part 4: 5.2 CURRICULUM

### 5.2.1 General Curricular Requirements

- 5.2.2 For forensic science programs and/or concentrations in biology and/or chemistry.
- 5.2.3 For forensic science programs with an emphasis in digital evidence.

### 5.2.2a Specific Topic Requirements within the Curriculum for Forensic Science Programs and/or Programs with an Emphasis in Biology and/or Chemistry

The curriculum shall include the following topics with a minimum of nine instructional (contact) hours spent on each topic.

Topic	Course ID	Course Name	Semester Credit Hours	Contact Instructional Hours
Crime scene investigation				
Law/science interface				
Ethics and professional responsibilities				
Quality assurance				
Analytical chemistry and instrumental methods of analysis				
Drug chemistry/toxicology				
Microscopy and materials analysis				
Forensic biology				
Pattern evidence				

#### Credit Hours (semester hour)

A unit of measure representing the equivalent of an hour (50 or 60 minutes) of lecture instruction per week over the entire term. It is applied toward the total number of credit hours needed for completing the requirements of a degree, diploma, certificate or other award. Credit hours for instruction other than lecture (such as lab, recitation, practicum, etc.) may require different numbers of hours per week as defined by each institution.

#### Contact hours (instructional hour)

A unit of measure that represents an hour of scheduled instruction given to students and is related to the number of academic credits that will be awarded.

### 5.2.2b Courses in Specialized Areas

The curriculum must include graduate-level science courses appropriate for specialization. For example, courses covering the topics of molecular biology and population genetics, advanced analytical chemistry, toxicology, and materials analysis may be appropriate.

Specialized courses offered may be specific for a track(s) and/or concentration(s) offered by that institution, if applicable.
