Media Statement: The American Academy of Forensic Sciences (AAFS) does not comment on forensic cases or medicolegal investigations. Media releases will be issued by the AAFS Board of Directors only in response to matters deemed pertinent to the business of the Academy. The sitting AAFS President is the only member of the Academy authorized to provide comment on behalf of the Academy. Comments, views, and opinions expressed by all other members of the Academy reflect the comments, views, and opinions of the individual solely.

Registrant Minimum Age: Registrants and presenters at the AAFS Annual Conference must be at least 18 years old at the time of the conference.

Lost Badge Policy: Lost, misplaced, stolen, or forgotten badges will incur a replacement fee equal to the original purchase amount of your registration. If your badge was complimentary, the fee will be the current, on-site rate.

Author Information: The Journal of Forensic Sciences encourages authors to submit previously unpublished reports and papers presented at the AAFS annual conference. For full instructions on manuscript preparation, consult the Information for Authors available at: https://www.aafs.org/resources/journal-of-forensic-sciences/information-for-authors/.

Manuscripts must be submitted electronically via the Journal of Forensic Sciences Manuscript Central site: http://mc.manuscriptcentral.com/jofs. For questions, please contact: jfs.editor@att.net.

Reminders:
- Video and/or audio recording of any session(s) or parts thereof is not permitted without prior approval from the American Academy of Forensic Sciences.
- English is the official language of the AAFS and its meetings; neither oral nor written translations will be provided.
- Although precautions are taken to prevent schedule changes, speakers and program schedules may change due to unforeseen circumstances.
- As a courtesy to others, please silence your cell phone when attending the sessions.

Future AAFS Annual Conferences

2024 AAFS Annual Conference
February 19-24, 2024
Denver Convention Center
Denver, CO

2025 AAFS Annual Conference
February 17-22, 2025
Baltimore Convention Center
Baltimore, MD

2026 AAFS Annual Conference
February 9-14, 2026
Ernest N. Morial Convention Center
New Orleans, LA
AWARDS

Distinguished Fellow

Julie A. Howe, MBA

Humanitarian and Human Rights Resource Center’s Clyde Snow Award

The Forensic Unit of the International Committee of the Red Cross (ICRC)

FSF Emerging Forensic Scientist Award

Helen M. Brandt-Litavec, MS
Ya-Chih Cheng, MS
Jasmine Maxwell, MSFS

FSF Warren-Young Scholarship

Paula E. Slamowitz, PhD

FSF Jan S. Bashinski Criminalistics Graduate Thesis Assistance Grant

Tori L. Schaffer, BS
The Section Awards will be presented during Section Business Meetings on Wednesday, February 15.

### 2022 Section Award Honorees

#### Anthropology Section’s
- Ellis R. Kerley Research Award: Yangseung Jeong, PhD
- Outstanding Mentorship Award: Peer Moore-Jansen, PhD

#### Criminalistics Section’s
- Paul L. Kirk Award: Pierre Margot, PhD
- Mary E. Cowan Outstanding Service Award: Michael Coble, PhD
- Meritorious Service Award: Marilyn Miller, EdD

#### Digital & Multimedia Sciences Section’s
- Outstanding Case Study Award: Joseph Levi White, PhD
- Outstanding Student Research Award: Austin Cauley, BS

#### Engineering & Applied Sciences Section’s
- Steven Charles Batterman Award: Steven Charles Batterman, PhD
- Laura Liptai, PhD

#### Forensic Nursing Science Section’s
- Forensic Nurse Scientist Award: Julie Valentine, PhD
- Forensic Nurse Innovator Award: Patricia Speck, DNSc

#### General Section’s
- Paul W. Kehres Meritorious Service Award: Gina Londino-Smolar, MS
- John R. Hunt Award: Katherine Brown, PhD

#### Odontology Section’s
- Reidar F. Sognnaes Award: Charles Michael Bowers, DDS
- Lester Luntz Odontology Award: Paula Brumit, DDS

#### Pathology/Biology Section’s
- Milton Helpern Award: Joyce deJong, DO
- Best Resident Paper Award: Charles Rohrer, MD
- Award for Achievement in the Forensic Life Sciences: Jeff Wells, PhD

#### Questioned Documents Section’s
- Maureen Casey-Owens Award: Larry Olson, MFS

#### Toxicology Section’s
- Irving Sunshine Award: Rebecca Hartman, PhD
- Rolla N. Harger Award: Marc LeBeau, PhD
- June K. Jones Scholarship Award: Alaina Holt
- Annual Lectureship in Toxicology: Karen McDonald, MPPAL, PMP
**BUSINESS MEETINGS**

*Attend Your Section’s Annual Business Meeting for a Chance to Win a Complimentary Meeting Registration!*

Do not miss the opportunity to win a complimentary meeting registration for the 2024 AAFS Annual Scientific Conference in Denver, CO! Each section will award one registration to a voting member who attends their Section Business Meeting.

*Attend the AAFS Annual Business Meeting for a Chance to Win a Complimentary Meeting Registration!*

The Annual Business Meeting of the Fellows and Members of the AAFS will be held on Wednesday, February 15, at 4:15 PM It is essential that all Fellows and Members attend this very important meeting in order to reach a quorum for the voting process. Agenda items include the election of 2023-24 Officers, consideration of bylaw amendments, a summary of AAFS activities during the past year, and plans for the future.

As an incentive to attend, all Fellows and Members present will automatically be entered in a drawing for a complimentary meeting registration to attend the 2024 AAFS Annual Scientific Conference in Denver, CO.
The purpose of the Student Academy of Forensic Sciences is to bring to the attention of high school students the vital importance of the application of scientific principles to the administration of justice. It acquaints the participants with the role of the forensic science disciplines in the legal system as well as the education and training required for the career in each discipline.

Chair:
Marilyn T. Miller, EdD
Virginia Commonwealth University
Richmond, VA

Co-Chair:
Lynn A. Schneeweis, MS
Massachusetts State Police Crime Laboratory
Maynard, MA

Faculty:

Anthropology

Chicago, IL

Commissioner:
Jason L. Schroeder, MS
Harris County Institute of Forensic Science
Houston, TX

Learning Overview: Upon completion of this session, the participant should be able to understand the process of accreditation through the AAFS FEPAC mechanism and be able to participate in the process as a reviewer of academic programs. Participants from academic programs will also learn about the process of accreditation from different perspectives.

Program Description: This session has been developed to assist academic institutions offering undergraduate and graduate degree programs in forensic science and forensic digital evidence to prepare for the accreditation process through the FEPAC. This session will also assist future on-site evaluators (academic and practitioners) to prepare for on-site evaluations of academic programs. Successful completion of this one-day session will qualify participants for consideration to serve as on-site evaluators for FEPAC in the future (please note that participants must still meet other FEPAC requirements, such as membership in the AAFS and designation as either a practitioner or academician). This training session will highlight updates to the FEPAC Standards for Accreditation and provide valuable information for both program directors and on-site evaluators.

The FEPAC is a standing committee of the AAFS with a membership that includes five educators, five forensic science practitioners, and a public member as voting members. The mission of the FEPAC is to maintain and enhance the quality of forensic science education through a formal evaluation and recognition of college-level academic programs. The primary function of the committee is to develop and maintain standards and to administer an accreditation program that recognizes and distinguishes high-quality undergraduate and graduate forensic science programs. Forty academic programs have successfully completed the accreditation process since 2003. Additional information on FEPAC can be found on the FEPAC website: www.aafs.org/FEPAC.

Program:

8:30 AM - 9:00 AM  Introduction and Welcoming Remarks/Module 1: What to Know About FEPAC
Heidi Eldridge, PhD

9:00 AM - 9:30 AM  Module 2: An Overview of the FEPAC Application Process
Thomas Brettell, PhD

9:30 AM - 10:00 AM  Module 3: A Review of Self-Study Standards 3.0—General for All Programs
Sarah Seashols Williams, PhD

10:00 AM - 10:15 AM  Break

10:15 AM - 10:45 AM  Module 4: A Review of Self-Study Standards 4.0—Undergraduate Programs
Josh Brunty, MS

10:45 AM - 11:15 AM  Module 5: A Review of Self-Study Standards 5.0—Graduate Programs
A. Karl Larsen, PhD

Heidi Eldridge, PhD

11:45 AM - 12:15 PM  Module 7: FEPAC On-Site Evaluator Training
Jason L. Schroeder, MS

12:15 PM - 12:45 PM  Questions and Answers
FEPAC Commissioners and Accreditation Coordinator

The Young Forensic Scientist Forum (YFSF) provides students and young professionals with less than five years of experience an opportunity to network, collaborate and learn from fellow peers and experts in the field. This session will prepare attendees for a successful career in their discipline of choice and allow them to look from the outside-in as they evaluate themselves and their future impact on forensic science. Our mission is to provide education, mentorship, and resources to students and burgeoning forensic scientists to promote interest and longevity in the field and encourage participation and advancement in the AAFS.

Impact Statement: After attending this session, attendees will better understand how forensic science has evolved over the years and how every forensic science discipline impacts and enhances the field regardless of one’s experience and background. In addition, attendees will learn the importance of education, extensive training, and innovative scientific research. Finally, attendees will learn about the “science” behind job interviewing and become adept in resume building in the forensic sciences.

Program Description:
This year the American Academy of Forensic Sciences (AAFS) is celebrating 75 years of global engagement. The overall theme of the conference is Science Works. In the past few years, science and the scientific method have been under attack, denigrated, and dismissed. AAFS President Laura Fulginiti’s plan is to offer scientific content demonstrating that forensic science provides trustworthy, objective data that can be relied upon by the judicial system, Congress, and the public. Our Special Session theme, Education,
Training, and Experiences: The Ingredients to Make Science Work!, was chosen to invigorate young forensic scientists and demonstrate how education and training play a vital role in making forensic science work. This full-day session will show young forensic scientists that their contribution matters and that the decisions they make today can have a positive impact on the scientific community at large.

This year the YFSF is excited to present an outstanding group of speakers. These distinguished presenters have been carefully selected to provide exceptional mentorship to attendees through topics such as how to stay true to science, present results in a scientifically correct and neutral manner, manage high-profile cases, and interact with prosecutors and defense attorneys. The session will also include thoughtful demonstrations on assessing one’s professional goals, establishing what success looks like for a young forensic scientist, and thinking about one’s responsibilities as a mentor and leader as they advance into a career.

The YFSF Special Session provides an inclusive atmosphere for young forensic scientists to have the opportunity for professional growth/development and scientific engagement with esteemed colleagues. Through these presentations, attendees will hear from experienced practitioners as they discuss their extensive education, training, and experiences that have led to success in their field of study. These presentations include case-driven research, innovative methodology, scientific studies, and personal stories. Additionally, each presenter will include thoughtful discussions on their struggles and setbacks that have ultimately made “science work.” Through this session, the YFSF aims to integrate young professionals into the field as they begin their journey into forensic science. The YFSF offers two additional opportunities for young professionals and students: the Bring Your Own Posters (BYOP) Session and the Bring Your Own Slides (BYOS) Session. We are excited to announce that this year we have collaborated with The Center for Forensic Science Research and Education (CFSRE) to honor and award two outstanding scientists for their contributions to forensic science. Finally, the session will end with a resume review workshop, so do not forget to update your resume and bring several printed copies with you to the session!

S4 The Formation of the American Academy of Forensic Sciences

Tuesday, February 14, 2023 1:15 PM – 5:15 PM 3.5 CE Hours

Chair:
Paul Messner, JD
Dry Ridge, KY

Co-Chair:
Jessica Volz, DNP
Adventist HealthCare Shady Grove Medical Center
Brunswick, MD

Faculty:
G. David Annas, MD
Forensic Psychiatry Consulting, LLC
Syracuse, NY

Barry A.J. Fisher, MS, MBA
Indio, CA

Corina Freitas, MD
Freitas and Associates
Alexandria, VA

George W. Hime, MS
Miami-Dade Medical Examiner Department
Miami, FL

Carl R. McClary, MS
Bureau of Alcohol, Tobacco, and Firearms
Atlanta, GA

Kenneth E. Melson, JD
The George Washington University Law School
Kinsale, VA

Christopher Milroy, MD
Eastern Ontario Regional Forensic Pathology Unit
Ottawa, ON CANADA

Learning Overview: The Symposium will provide a historic context for the formation of the American Academy of Forensic Sciences, describe the impetus for its formation, and examine the effects of its members on forensic science.

Impact Statement: Attendees will learn about the state of forensic science before, during, and shortly after the formation of the American Academy of Forensic Sciences through the perspective of the six founding Sections: Criminalistics, Jurisprudence, Pathology/Biology, Psychiatry & Behavioral Science, Questioned Documents, and Immunology/Toxicology.

Program Description: The 2023 Interdisciplinary Symposium will examine the post-WW II state of the forensic sciences leading to the American Academy of Forensic Sciences’ formation in 1948 and that defined its early years. In 1948, there were six founding AAFS Sections: Criminalistics; Jurisprudence; Pathology/Biology; Psychiatry & Behavioral Science; Questioned Documents; and Immunology/Toxicology. Speakers from each of these Sections will discuss their Section’s forensic concepts, research, and applications before, during, and shortly after the Academy’s founding (roughly 1945 through 1965). How the Academy’s formation and its members helped advance the forensic sciences during those early years will also be addressed.

We will examine how during this era life, law, and forensic science looked so much different than today. This retrospective view of the Academy’s founding will help us understand the AAFS’ continued efforts today to improve the trustworthiness of forensic science through objective data that can be relied upon by the judicial system, Congress, and the public.
INTERDISCIPLINARY SYMPOSIUM

Pre-Registration Required

Program:

1:15 PM – 1:30 PM  Welcome and Introduction of Faculty
Paul Messner, JD

1:30 PM – 2:00 PM  Jurisprudence
Kenneth E. Melson, JD

2:00 PM – 2:30 PM  Criminalistics
Barry A.J. Fisher, MS, MBA

2:30 PM – 3:00 PM  Pathology/Biology
Christopher Milroy, MD

3:00 PM – 3:15 PM  BREAK

3:15 PM – 3:45 PM  Psychiatry & Behavioral Science
Corina Freitas, MD; G. David Annas, MD

3:45 PM – 4:15 PM  Questioned Documents
Carl R. McClary, MS

4:15 PM – 4:45 PM  Toxicology (formerly known as Immunology)
George W. Hime, MS

4:45 PM – 5:15 PM  Panel Discussion/Questions and Answers
Jessica Volz, DNP
Overview: Medicine is the science or practice of the diagnosis, treatment, and prevention of disease. Although considered part of the forensic sciences, forensic pathology and forensic anthropology are medical specialties. They use history, anatomic findings, and laboratory results to make diagnoses that are used by the public health and criminal justice systems. Unlike other forensic science disciplines that rely primarily on analytical tests (e.g., toxicology, DNA, fingerprint comparison) to obtain objective results, forensic anthropologists and forensic pathologists interpret both subjective and objective information to formulate their medical opinions.

Forensic pathologists and anthropologists give unpopular opinions and can come under a great deal of criticism and pressure. The National Association of Medical Examiners (NAME) published a position paper on medical examiner independence. Their survey showed that 82% of the forensic pathologists had experienced pressure regarding their medical opinions.

They noted: “No one should be made afraid to testify to the truth of their scientific convictions, when based on their direct examination of the evidence or their knowledge of the peer-reviewed literature. It is never appropriate for an authority, whether a litigating attorney, law enforcement officer, or an elected official, to threaten a forensic pathologist with loss of a job, position, or compensation based on testimony that is perceived to be counter to the authority’s wishes or to have resulted in the loss of a case.”

This pressure risks undermining the opinions of these professionals. The criminal justice system in the United States is indeed an adversarial system. This process, however, only should occur in the courtroom. Threats and retaliations against forensic science providers risk compromising our system of justice. The day when medical professionals are unwilling to participate in this adversarial process, whether called by the prosecution or the defense, or the plaintiff or defendant, is the day that we no longer have the best system of justice in the world.
PLENARY SESSION

Open to All Meeting Registrants

Forensic Pathology and Forensic Anthropology:
An Update on Their Roles in the Criminal Justice System

Overview cont.

Questions that will be addressed include: How do these specialties fit into the Academy? How do they differ from the basic sciences? What challenges are they facing? In order to highlight the many challenges, high-profile trials, work-force shortages, social media and activism, roles in investigations, and bias will be explored.

To address these issues, there will be presentations by Dr. Joyce deJong, a forensic pathologist, and Dr. Christian Crowder, a forensic anthropologist. In addition, we will have a legal perspective from a sitting judge, the Honorable Pamela King.

Program:

10:00 AM - 10:10 AM  Welcome and Opening Remarks
Laura C. Fulginit, PhD; James R. Gill, MD

10:10 AM - 10:35 AM  The Forensic Pathology Perspective
Joyce L. deJong, DO

10:35 AM - 11:00 AM  The Forensic Anthropology Perspective
Christian Crowder, PhD

11:00 AM - 11:25 AM  The Judicial Perspective
Pamela A.W. King, JD

11:25 AM - 11:30 AM  Panel Discussion
Laura C. Fulginit, PhD, James R. Gill, MD, Joyce L. deJong, DO, Christian Crowder, PhD, and Pamela A.W. King, JD
LUNCHEON SEMINARS

Pre-Registration Required

LS1  The Lindbergh Kidnapping Suspect No. 1—The Man Who Got Away

Thursday, February 16, 2023  12:00 PM – 1:30 PM  CE Hours: 1.0

Lise A. Pearlman, JD* (Ret.)
Author
Oakland, CA

Learning Overview: Attendees will gain insight into how key forensic evidence was suppressed and physical evidence altered to convict an innocent man of “the crime of the century.”

Impact Statement: The anticipated impact on the forensic science community is greater awareness of ways in which members’ forensic analysis and testimony can be misused (e.g., suppression of pretrial notes, overstating conclusiveness of findings, denial of a fair opportunity to the other side to test physical evidence) to cause a miscarriage of justice. This talk will also provide an example of how forensic scientists can play an important role in revealing the truth and exonerating the wrongly convicted.

Program Description: Luncheon talk by author Lise Pearlman on a proposed shocking solution to the 90-year-old mystery of the 1932 kidnap/murder of Charles Lindbergh, Jr. based on the best-selling 2020 true crime book, The Lindbergh Kidnapping Suspect No. 1—The Man Who Got Away. The talk will describe the framing of Bruno Richard Hauptmann for the murder of Charles Lindbergh, Jr. and the revelation of Suspect No. 1 whom the New Jersey State Police let get away with the crime. The talk will focus on wood evidence, fingerprints, and handwriting analysis, and address disparities between the “evidence” presented at trial and related contradictory evidence that was concealed by the prosecution and consequently not presented to the jury.
LS2  Forensic Sciences and Popular Poetry: A Lighter Way of Teaching People How Science Works

Friday, February 17, 2023  12:00 PM – 1:30 PM  CE Hours: 1.0

Jose A. Medeiros, PhD
Brazilian Federal Police
Cabedelo, PB, Brazil

Learning Overview: Upon completion of this luncheon seminar, the participant should be able to know how the dissemination of forensic sciences among people can be efficient and lighter through popular poetry, based on this Brazilian testimony.

Impact Statement: Showing the international forensic community how the dissemination of forensic sciences through popular poetry is effective among the general public and has encouraged Brazilian forensic scientists to identify themselves with their labor as well as with a literature genre (including woodcutting illustrations) that has become essentially Brazilian and that today is an exemple of national intangible cultural heritage.

Program Description: This work is about an initiative that has been developed since 2012: to bring together Forensic Science and popular poetry in a simple and accessible format and share it with the lay public. The path used was “Literatura de Cordel”, a form of literature originally European, but which found fertile ground in the Northeast of Brazil, especially from the 19th century onwards. Like a Limerick, the cordel booklet presents a story usually in a humorous tone and in colloquial language. Today there are already 14 stories about CSI, Forensic Engineering, Genetics, Jurisprudence, Environmental, Toxicology, Children’s History, etc. and more than 18 thousand copies distributed free of charge to people from all Brazilian regions at forensic events, criminalistics units, schools and institutions.
