American Academy of Forensic Sciences • Pre-Registration Form
72nd Annual Scientific Meeting • February 17-22, 2020 • Anaheim, California
Pre-Registration Deadline – January 20, 2020

Three Ways to Register:
 Register online at www.aafs.org
 Scan & email your registration form (three pages) to registration@aafs.org
 Mail your form with check, money order, or purchase order to: AAFS, 410 N 21st Street, Colorado Springs, CO 80904

Registration forms must be received by Monday, January 20, to be eligible to register for the 2020 Special Functions and to qualify for the discounted registration rate.

Faxed registration forms are not accepted.

BADGE INFORMATION
Salutation (Dr/Mr/Ms): __________ Badge First/Given Name: __________
Badge Last/Given Name: __________ Highest Degree Attained (one degree only): __________
Badge Agency/School Name: ________________________________________________
Mailing Address: ___________________________________________________________
Badge City: _______________ Badge State/Province: _______________ ZIP/Postal Code: __________
Badge Country: ______________________

☐ Registrant Minimum Age: I acknowledge that all persons attending the meeting associated with this registration will be at least 18 years of age at the time of the meeting in February.

“Accompanying spouse” registration is only available to AAFS members paying the full meeting registration fee (Excludes: Non-Member, Student, Daily, and Workshop Only registrants).

☐ Yes ($50) Name: __________________________________________________________

♦ This reduced fee is intended for spouses, family members, or other traveling companions who are not members of the forensic science or legal community and may not be used for colleagues, students, or interns.

REGISTRATION INFORMATION
Email: ___________________________________________ Cell Phone: ________________________

Vocational Status: ☐ Professional ☐ Student ☐ Academic ☐ Decision Maker ☐ Purchasing Agent ☐ Other
Gender: ☐ Male ☐ Female

Would you like to receive pre-meeting exhibitor mailings? ☐ Yes ☐ No
Emergency Contact Name: __________________________ Emergency Contact Phone: ______________________

ADA ACCOMMODATIONS

Please list any special dietary requirements: ______________________________________________________

Please list ADA accommodation requests: _______________________________________________________

Please note: This ADA Accommodations request refers to meeting/session accommodations (e.g., wheelchair access, assisted listening devices, etc.) and should specify what event(s) you are attending. ADA accommodations related to hotel room reservations should be directed to the hotel when making reservations. ADA Accommodations are required by the pre-registration deadline (January 20, 2020). Requests received after this date may not be processed or fulfilled in time. Venues may not be able to fulfill every special dietary request. Please be specific and use standard accommodation language to detail your dietary needs.
The following sessions are priced separately and are not included in the Registration Fees. Special Functions fill quickly due to limited seating. Registration for all Special Functions officially closes as of the **January 20, 2020**, pre-registration deadline. **AAFS has a firm policy that non-registered attendance or auditing is not permitted in these sessions.** (AAFS Policy and Procedure Manual 3.1.3.3.)

REGISTRATION INFORMATION

The pre-registration deadline is **January 20, 2020**. Forms must be received by this date to qualify for the pre-registration rate and to register for Special Functions. Registration forms received after January 20, 2020, will be processed as on-site registrations.

**THREE WAYS TO REGISTER**

- Scan & email your registration form (three pages) to: registration@aafs.org.
- Mail your registration form, along with a check, money order, or purchase order to:
  
  AAFS  
  410 North 21st Street  
  Colorado Springs, CO 80904  
  (Checks must be drawn on a U.S. bank in U.S. funds, made payable to AAFS.)
- Faxed registration forms are not accepted.

**ONLINE REGISTRATION INFORMATION**

- Online registrants are required to have an AAFS Web Account to register for the meeting.
- If you are currently a member or applicant of the AAFS, you will need to login to your AAFS Web Account to start your registration.
- If you are not a member of the AAFS, but you are or have been an Author or Co-Author on a presentation (oral or poster) at an AAFS Annual Scientific Meeting, you will have an AAFS Web Account. Use the “Forgot User Name or Password” button found on the AAFS Web Login page to retrieve a forgotten password.
- If this is your first contact with the AAFS, you will need to create a new AAFS Web Account. Click the “Create Account” button on the Login Page.

**REGISTRATION CONFIRMATION**

- When you register online, you will receive an email confirmation immediately.
- When you email or mail your registration form to AAFS, a confirmation email will be sent once your registration form is processed.
- Bring a copy of your confirmation letter to the on-site pre-registration desk for meeting check-in.

**NEW THIS YEAR—LOST BADGE POLICY**

- Lost, misplaced, stolen, or forgotten badges will incur a replacement fee equal to the original purchase amount of your registration. If your badge was complimentary, the fee will be the current, on-site rate.

**QUESTIONS**

- If you have any questions or need assistance with registration, contact the AAFS Office at (719) 636-1100, ext. 111, or by email at: registration@aafs.org.
REGISTRATION INFORMATION

PRE-REGISTRATION SAVINGS
The benefits of pre-registration cannot be emphasized enough!
Over 35% savings for AAFS members!

This is the only chance to register for Special Functions (breakfasts, luncheons, workshops, and special sessions)!
Your pre-registration form must be received by Monday, January 20, 2020.

*Includes admittance into AAFS sessions starting with the Tuesday evening Welcoming Reception through the Saturday morning Scientific Sessions (excludes all sessions found in section "SPECIAL FUNCTIONS" of the registration form).

**Registration Requirement:
- **AAFS Applicants** must have a completed application on file by the application deadline.
- **Non-Member Trainees** must submit a letter from employer verifying trainee status to registration@aafs.org.
- **Non-Member Students** must submit an official Verification of Enrollment confirming enrollment during February 2020 to registration@aafs.org. Not available to those in postgraduate internships, residencies, or fellowships.
- **AFTE, IAAI, and IAI Members** must provide proof of current membership to registration@aafs.org.

PRE-REGISTRATION DEADLINE
The deadline for pre-registration is January 20, 2020. Registration forms must be received by this date. Pre-registration forms received at the AAFS office after January 20, 2020, will be processed as on-site registrations and will cancel all Special Function selections (e.g., breakfast and luncheon seminars, workshops, and special sessions). Don’t delay; register today via online, mail, or scan and email your pre-registration form as soon as possible to ensure your full participation and reduced registration fees. Faxed registration forms are not accepted.

REFUNDS
All requests for refunds must be made in writing via email (hjefferson@aafs.org) or mail to the AAFS headquarters. Canceled registration fees will be refunded as follows:

- Prior to December 1: Full refund less $25 charge
- December 1-31: 75% refund
- January 1-31: 60% refund
- February 1-7: 50% refund
- No refunds after February 7, 2020.

ACCOMPANYING SPOUSE REGISTRATION
This reduced fee is intended for spouses, family members, or other traveling companions who are not members of the forensic science or legal community and should not be used for colleagues, interns, or students.

Accompanying Spouse registration includes a name badge only and is not eligible for Continuing Education credit, workshops, special session registration, or certificates of attendance. However, breakfast seminar and luncheon seminar tickets may be purchased by the pre-registration deadline. Accompanying Spouse registration is only available to AAFS members paying the full meeting registration fee (excludes Non-Member registrants, Student registrants, Daily registrants, and Workshop Only registrants). An Accompanying Spouse registration is available for an additional fee ($50).
ABOUT THE AAFS

For 72 years, the American Academy of Forensic Sciences (AAFS) has served a distinguished and diverse membership. Its 6,600+ members are divided into 11 sections spanning the forensic enterprise. Included among the Academy’s members are physicians, attorneys, dentists, toxicologists, anthropologists, document examiners, digital evidence experts, psychiatrists, engineers, physicists, chemists, criminalists, educators, and others. Representing all 50 United States, Canada, and 60 other countries worldwide, they actively practice forensic science and, in many cases, teach and conduct research in the field as well. Each section provides opportunities for professional development, personal contacts, awards, and recognition. Many sections publish AAFS Newsfeed articles that keep their members abreast of activities and developments in their fields.

As a professional society dedicated to the application of science to the law, the AAFS is committed to the promotion of education and the elevation of accuracy, precision, and specificity in the forensic sciences. It does so via the Journal of Forensic Sciences (its internationally recognized scientific journal), the AAFS Newsfeed, its annual scientific meeting, the conduct of seminars and meetings, and the initiation of actions and reactions to various issues of concern. For its members and affiliates, AAFS provides expert witness referrals, job opportunity listings, as well as scientific reference studies. As the world’s most prestigious forensic science organization, the AAFS represents its membership to the public and serves as the focal point for public information concerning the forensic science profession. Founded in 1948, the AAFS is headquartered in Colorado Springs, CO.

AAFS Annual Scientific Meeting

Each February, the AAFS scientific meeting gathers together approximately 5,000 world-renowned professionals to present the most current information, research, and updates in their fields. More than 1,000 scientific papers, seminars, workshops, and other special sessions are presented. In addition, approximately 150 exhibitors showcase the cutting-edge technology and services of this ever-changing profession.

Lost Badge Policy

Lost, misplaced, stolen, or forgotten badges will incur a replacement fee equal to the original purchase amount of your registration. If your badge was complimentary, the fee will be the current, on-site rate.

Attention Meeting Presenters

The Journal of Forensic Sciences encourages authors to submit previously unpublished reports and papers presented at the AAFS annual meeting.

For full instructions on manuscript preparation, consult the Information for Authors available at: https://www.aafs.org/resources/journal-of-forensic-sciences/information-for-authors/.

Manuscripts must be submitted electronically via the Journal of Forensic Sciences Manuscript Central site: http://mc.manuscriptcentral.com/jofs. For questions, please contact: jfs.editor@att.net.

Video and/or audio recording of any session(s) or parts thereof is not permitted without prior approval from the American Academy of Forensic Sciences.

English is the official language of the AAFS and its meetings; neither oral nor written translations will be provided.

Although precautions are taken to prevent schedule changes, speakers and program schedules may change due to unforeseen circumstances.

As a courtesy to others, please silence your cell phone when attending the sessions.
AWARDS

The Distinguished Fellow Award and the Outstanding Early Career Achievement in Forensic Science Award will be presented on Wednesday, February 19, during the AAFS Annual Business Meeting. Please join us in acknowledging your most distinguished colleagues as they are presented with these prestigious awards.

**Distinguished Fellow**

Betty Layne DesPortes, JD, MS  
Iain A. Pretty, BDS, PhD

**Outstanding Early Career Achievement in Forensic Science Award**

Audrey M. Williams, PhD

**2020 Section Award Honorees**

Section Awards will be presented during Section Business Meetings, also on Wednesday, February 19 (see Section Business Meeting start times on page 12). The Section Award recipients will be acknowledged again before the entire membership during the AAFS Annual Business Meeting.

**Anthropology Section’s**

- T. Dale Stewart Award  
  - H. Gill-King, PhD
- J. Lawrence Angel Award  
  - Saskia Ammer, MSc
- Ellis R. Kerley Research Award  
  - Gregory E. Berg, PhD

**Criminalistics Section’s**

- Paul L. Kirk Award  
  - Jose R. Almirall, PhD
- Mary E. Cowan Outstanding Service Award  
  - Matthew R. Wood, PhD
- Meritorious Service Award  
  - Jennifer S. Mihalovich, MPH

**Digital & Multimedia Sciences Section’s**

- Outstanding Case Study Award  
  - Brandon Epstein, BS
- Outstanding Research Award  
  - Marla E. Carroll, BS
- Nicole R. Odom, MSFS
- Jesse M. Lindmar
- Josh Brunty, MS
- Catherine G. Rushton, EdD

**Engineering Sciences Section’s**

- Founders Award  
  - Michelle R. Hoffman, MS

**General Section’s**

- John R. Hunt Award  
  - Paul E. Kish, MS
- Paul W. Kehres Meritorious Service Award  
  - Joanna L. Collins, MFS

**Odontontology Section’s**

- Lester Luntz Award  
  - Richard A. Weems, DMD
- Reidar F. Sognnaes Award of Excellence in Forensic Odontology  
  - Patrick W. Thevissen, PhD

**Pathology/Biology Section’s**

- Milton Helpern Award  
  - Duarte Nuno Vieira, PhD, MD
- Award for Achievement in the Forensic Life Sciences  
  - John R. Wallace, PhD

The FSF Jan S. Bashinski Criminalistics Graduate Thesis Assistance Grant will be presented on Wednesday, February 19, during the Criminalistics Section Business Meeting.

**FSF Jan S. Bashinski Criminalistics Graduate Thesis Assistance Grant Recipient**

*Cameron M. Longo, BS*

The following awards will be presented on Wednesday, February 19, during the AAFS Annual Business Meeting. You’ll want to be present to congratulate the recipients!

**Humanitarian and Human Rights Resource Center’s Clyde Snow Award Recipient**

*Duarte Nuno Vieira, PhD, MD*

**Ambassador of Forensic Science Award Recipient**

*The New York County District Attorney’s Office*

**FSF Emerging Forensic Scientist Award Recipients**

*Helen M. Brandt, MS*  
*Carrie Polston, BA*  
*Ellyn A. Zeidman, MS*

**FSF Warren-Young Scholarship Recipient**

*Pamela Carman, BA*

**FSF Henry C. Lee Scholarship Recipient**

*Giacomo Musile, PhD*
SECTION BUSINESS MEETINGS

The Sections

The Sections of the American Academy of Forensic Sciences will hold their annual business meetings on Wednesday, February 19, 2020. Some of the sections will hold a luncheon prior to the start of the business meeting. All Section Luncheons require pre-registration. This is your opportunity to participate! Please attend and contribute to your section’s future plans. Specific times are noted below:

* This luncheon requires pre-registration and is open only to members of the Criminalistics Section.
** These luncheons require pre-registration.

RECEPTIONS

Welcoming Reception — Tuesday, February 18 — 6:00 p.m. - 8:00 p.m.

This opening event is your opportunity to meet old friends and to make new acquaintances. Snacks and cash bars will be available.

AAFS 72nd Annual Wine & Cheese Reception — Thursday, February 20 — 6:00 p.m. - 8:00 p.m.

The AAFS Wine & Cheese Reception will be held to celebrate what promises to be an excellent 2020 program and to toast your return to the Academy’s 73rd Annual Scientific Meeting in 2021 (Houston, TX)!
WELCOME TO ANAHEIM!
A city built on imagination, Anaheim is where you will find plenty of things to see and do. Visitors can enjoy the inviting beaches, unparalleled shopping, entertainment, trendy restaurants, lively art districts, beautiful historic landmarks, and legendary, yet always new and changing, internationally famed family attractions.

CLIMATE
The average temperature is 70 degrees and you can find bright and sunny skies about 70% of the time.

ANAHEIM CONVENTION CENTER
800 W Katella Avenue, Anaheim, CA 92802

The Anaheim Convention Center (ACC) first became a meetings and conventions destination in 1967, and the original construction consisted of the domed Arena. Since those early days, the ACC has completed a total of seven expansions plus several cosmetic renovations and updates.

Attendees will approach the ACC from Convention Way. They will drive along a corridor of palm trees and convention hotels toward the glass-walled towers that form the dramatic rotunda lobby of the main entrance. Taxis, buses, and cars move efficiently around a traffic circle, dropping off attendees, then moving back along Convention Way.

TRANSPORTATION
Traveling to Anaheim is easy. With four major airports, there are several options for reaching your destination, including rental cars, shuttles, taxis, limousines, and ride apps (Uber/Lyft/Wings) companies.

John Wayne Airport (SNA)
SNA is located 13 miles/21 km from Anaheim. It is approximately a 20-minute drive.
(https://www.ocair.com/groundtransportation/)

Los Angeles International Airport (LAX)
LAX is located 35 miles/56 km from Anaheim. It is approximately a 50-minute drive.

Ontario International Airport (ONT)
ONT is located 36 miles/58 km from Anaheim. It is approximately a 45-minute drive.
(https://www.flyontario.com/parking-transports)

Long Beach Airport (LGB)
LGB is located 18 miles/29 km from Anaheim. It is approximately a 30-minute drive.
(http://www.lgb.org/travelers/transit.asp)

ATTRACTIONS

Disneyland® Park
Welcome to the place where imagination is the destination. For young and old, big and small—it’s the happiest place on earth! Come build memories with your family that last a lifetime as you discover the wonder of this magical, fantastical world. When you enter one of the Lands that comprise Disneyland® Park, stories come to life around you, immersing you in tales from some of your favorite Disney films.
(disneyland.disney.go.com)
Knott's Berry Farm
This world-renowned theme park was built from the humblest of beginnings nearly 100 years ago. Starting with a simple roadside berry stand, then a restaurant serving mouthwatering chicken dinners, Walter and Cordelia Knott attracted long lines of customers to their Buena Park farm. To keep crowds entertained, the Knott family built an entire western-themed town that remains the heart of Knott’s Berry Farm today. Anchored in its rich California history and charm, Knott’s Berry Farm now bursts with attractions and entertainment for all ages.
(https://www.knotts.com/)

Universal Studios Hollywood – Universal City
This film studio and theme park is located in the San Fernando Valley. It is one of the oldest and most famous Hollywood film studios still in use. It was initially created to offer tours of the real Universal Studios sets and is the first of many full-fledged parks located across the world.
(https://www.universalstudioshollywood.com/)

Anaheim Garden Walk
An “eatertainment” destination that blends dining, nightlife, family-friendly fun, outdoor art, and unique shops in a single amazing location. Garden Walk is home to a distinctive collection of popular restaurants, a vibrant nightlife with two rocking dance clubs, retail stores, and a renowned live concert venue. Anaheim GardenWalk provides a one-of-a-kind guest experience and a world-class gathering place for locals and visitors.
(https://anaheimgardenwalk.com/)

Center Street Promenade
Visit the rebirth of historic downtown Anaheim on Center Street Promenade, between Harbor Boulevard and Anaheim Boulevard to enjoy outdoor cafes, unique eateries, boutiques, the local farmers market, seasonal art shows, and street fairs.
(https://www.centerstreetanaheim.com/)

Aquarium of the Pacific
This aquarium celebrates the planet’s largest and most diverse body of water: the Pacific Ocean. Home to more than 11,000 animals, the Aquarium explores the waters of Southern California and Baja and the Northern and Tropical Pacific. A world of discovery awaits people of all ages, backgrounds, and interests.
(http://www.aquariumofpacific.org/)

MUZEO Museum and Cultural Center
Come explore the various exhibits that engage the community in exploring and celebrating diverse heritage, culture, and arts through creative programming.
(http://muzeo.org/)
RESTAURANTS

Agio Ristorante
2085 S Harbor Boulevard
Italian/California-inspired cuisine that incorporates the freshest ingredients and a celebration of flavors into distinctive seasonal fare.

Bubba Gump Shrimp
Anaheim Garden Walk, 321 W Katella Avenue
Bubba’s is a choice with a “down south” vibe, serving up delicious seafood dishes to amazing slow-roasted ribs and salads—all served up in a casual and fun atmosphere. Try the Shrimper’s Heaven with a variety of shrimp dishes and sauces.

Buca di Beppo
11757 Harbor Boulevard
Buca di Beppo gets to the heart of fresh Italian cooking with favorites like Chicken Carbonara, Baked Rigatoni, or Spaghetti with famous half-pound meatballs! Buca serves family-style food in two portion sizes.

Decades Bar & Grill
195 W Center Street Promenade
Are you dreaming of high-top sneakers, big shoulder pads, fanny packs, or big hair? Serving deep fried lasagna, fried chicken sandwiches, grilled cheese, cheesburgers, and more, this 80s- and 90s-themed restaurant and bar will transport you back in time.

House of Blues® Anaheim
400 W Disney Way Suite 337
Featuring Southern-inspired dishes like the Voodoo Shrimp, the House of Blues® Restaurant & Bar brings a little rock to your walk as you seek a restaurant near the Convention Center. The energetic atmosphere and soulful food make it a fun stop for Happy Hour or dinnertime.

Jazz Kitchen
1590 South Disneyland Drive
Jazz on over to the Jazz Kitchen, a savvy representation of New Orleans’ dual legacies—food and music—served up in a whimsical setting depicting the charm, ambience, and hospitality of historic and contemporary New Orleans.

JT Schmid’s Brewhouse & Eatery
Anaheim Garden Walk, 2610 E Katella Avenue
JT Schmid’s takes great pride in offering a delicious selection of handcrafted microbrews, steaks, pasta, pizza, and salads. They offer a California casual environment, but are committed to providing quality food and outstanding service that is world class.

McCormick & Schmick's Grille
Anaheim Garden Walk, 321 W Katella Avenue
McCormick & Schmick’s Grille specializes in aged steaks, poultry, and seafood, offering dozens of rotating preparations daily for both lunch and dinner.

Mix Restaurant & Lounge
Hilton Anaheim, 777 Convention Way
Located in the Hilton Anaheim on Convention Way, the Mix Restaurant & Lounge serves a variety of imaginative dishes that tout organic and regional ingredients. For quick bites or a signature cocktail, head to the hip Mix Lounge.

Morton's The Steakhouse
1895 S Harbor Boulevard
A sophisticated steakhouse welcomes diners looking for a decadent evening meal. Specially priced bar bites are offered Monday through Friday during the Power Hour.

nFuse Bar and Kitchen
Anaheim Marriott, 700 Convention Way
The nFuse Bar And Kitchen at the Anaheim Marriott serves California cuisine influenced by cultures around the globe. Head to the bar to enjoy an impressive selection of craft beer, 65+ varieties of whiskey, premier wines, and handcrafted cocktails.

Roy’s Restaurant
Anaheim Garden Walk, 321 W Katella Avenue
Roy’s Restaurant is one of the finest seafood restaurants in the area. The lounge offers two lovely Aloha Hours, one in the early evening and one after dinner. You will want to try the Hawaiian Martini and their famous Roasted Macadamia Nut Crusted Mahi Mahi.

Ruth’s Chris Steakhouse
2041 South Harbor Boulevard
Stop into the dinner-only restaurant for a signature sizzling steak served on a 500-degree plate with a selection of entrée accompaniments like lobster tail and shrimp. The steak dinner, done right, is paired with a world-class wine list. Visit during Sizzle, Swizzle, Swirl Happy Hour for $9 drink specials, full-sized appetizers like the spicy shrimp, and other delicious menu items.

Tony Roma’s Steak House Restaurant
1640 South Harbor Boulevard
Tony Roma’s is legendary for ribs. You can also enjoy steaks, the Kickin’ Shrimp, or Onion Loaf in the casual atmosphere. Enjoy the appetizer samplers and mini desserts.

The AAFS has selected the Hilton Anaheim as its host hotel during the 72nd Annual Scientific Meeting in Anaheim, CA. Located directly across from the Anaheim Convention Center, it is a short walk to attend meeting events. Enjoy your stay in a room designed with comfort and convenience in mind, providing a place to unwind or to catch up on work. Sleep soundly in the Hilton Serenity bed. Enjoy 32-inch flat panel HDTVs with HBO®, CNN®, and ESPN®. Work productively at the work desk featuring an ergonomic chair. Rejuvenate in the morning with the convenient coffee maker and complimentary coffee and tea. Additional amenities include five on-site dining venues, lounge, food court, on-site convenience store, fitness room, pool, and much, much more!

Early reservations are recommended to take advantage of the group-contracted rates. Please be sure to cancel your reservation if you are unable to attend or you cannot use the reservation. This will make the rooms available for other attendees and will help AAFS avoid the financial penalties associated with cancellations made after the room block closes.

Please have the following information handy when you go to make your reservations:

**Meeting Dates:** Monday, February 17, through Saturday, February 22, 2020

**Group Name:** AAFS Annual Meeting

**Group Code:** FOR

**Call-in #:** 877-776-4932

**Web-link:** [https://book.passkey.com/go-AAFS](https://book.passkey.com/go-AAFS)

**Room Rate:** $199

---

**Attend the Annual Business Meeting of Fellows and Members to Win a Complimentary Meeting Registration!**

The Annual Business Meeting of the Fellows and Members of the AAFS will be held Wednesday, February 19, 2020, at 4:15 p.m., at the Anaheim Convention Center in Anaheim, CA. It is essential that all Fellows and Members attend this very important meeting in order to reach a quorum for the voting process. Agenda items include the election of 2020-21 Officers, consideration of bylaw amendments, presentation of the Gradwohl Medallion, Distinguished Fellow, and Outstanding Early Career Achievement in Forensic Science Awards, and recognition of all Members being promoted to Fellow status. You also will be briefed on AAFS activities during the past year and plans for the future.

As an incentive to attend, all Fellows and Members present will automatically be entered in a drawing for a complimentary meeting registration to attend the 2021 AAFS Annual Scientific Meeting in Houston, TX.
CONTINUING EDUCATION

General Information

All meeting sessions are lectures with one or more speakers. Continuing professional education credits will be offered for physicians, dentists, and attorneys. Continuing education credit applications have been submitted for physicians, nurses, and dentists. Attorneys may request CLE credit; please see the “Legal” section on page 19.

To register for continuing education credit, please complete the appropriate section on the meeting Registration Form. An individual must be a registrant to obtain continuing education credit. Fees charged for continuing education credits are based on projected costs of providing the various types of continuing education credit. The AAFS has adopted a user-pay approach so that those individuals who benefit from the specific continuing education program are responsible for the costs incurred.

In order to be in compliance with accrediting organizations, introductions, breaks, and lunches have been deducted from the total hours. Please note that continuing education credit is not available for all sessions. All continuing education credit recipients will receive documentation regarding the number of continuing education hours awarded. Attendance reports are filed with the appropriate state or national agency, as required.

Learning Objectives of the AAFS Continuing Education Program

- Recognize the perspectives and roles of the various forensic science disciplines
- Assess current concepts and practices
- Discuss relevant forensic science issues related to science, evidence and the law
- Identify strategies for researching descriptive studies, technology and methods, diagnostics, interpretation and testimony
- Review administrative functions performed by forensic scientists

Faculty Disclosure Policy

As a sponsor of continuing education, the American Academy of Forensic Sciences must insure balance, independence, objectivity, and scientific rigor in all its educational activities. All faculty participating in a sponsoring activity are expected to disclose any significant financial interest or other relationship: (1) with the manufacturer(s) of any commercial product(s) and/or provider(s) of commercial services discussed in an educational presentation; and, (2) with any commercial supporters of the activity. (Significant financial interest or other relationship can include such things as grants or research support, employee, consultant, major stockholder, member of speaker’s bureaus, etc.) AAFS has an established policy regarding conflicts of interest that includes decisions the Program Committee members may make in selecting content for the Annual Scientific Meeting Program. By serving on the committee, regardless of role, each member has agreed to comply with Section 1.4.7. of the AAFS Policy and Procedure Manual.

To serve on the 2019-20 Program Committees, it is required that AAFS staff members, program committee members, and reviewers complete a Conflict of Interest form before they are provided access to review submissions for the program. For continuing education accreditation purposes, the disclosed relationships are published below so that learners are aware of the nature of any relationships that may impact the selection of presentations for the program. If a committee member failed to provide complete disclosure of a relevant financial interest or relationship, the committee member or reviewer was not allowed to serve. The executed Faculty Conflict of Interest forms are on file in the AAFS Office.

American Board of Criminalists Approval

The American Academy of Forensic Sciences (AAFS) is approved by the American Board of Criminalistics (ABC) to offer continuing education points for approved workshops for criminalists and forensic scientists. The ABC maintains responsibility for the program, and credit may be awarded to ABC Fellows, Diplomates, and Affiliates.
CONTINUING EDUCATION

Overall Purpose and Objective Statements for Major Aspects of AAFS Programs

Workshops and Special Sessions
Purpose: To provide an opportunity for experts to present material and to lead discussion and practical exercises related to forensic science methods, procedures, diagnosis, investigation, professional relations and practices, communication, administration, and professional development.

Educational Objectives: Detailed individually in each workshop and special session announcement and description.

CE Credit: Varies from 1.5 credit hours to 16 credit hours.

Breakfast/Luncheon Seminars
Purpose: To provide an opportunity for presentation and discussion of relevant historical and current topics of forensic science interest related to specific case investigations, or general or specific investigative needs and procedures, methodologies, and testimony.

Educational Objectives: Detailed individually in each breakfast/luncheon seminar announcement and description.

CE Credit: Designated for a maximum of .75 credit hour for Breakfast Seminars and 1.0 credit hour for Luncheon Seminars.

Plenary Session
Purpose: To provide a multidisciplinary presentation and discussion of issues related to the forensic science profession.

Educational Objectives: Attendees will be able to: a) identify the challenges the forensic science profession has faced and will continue to face in terms of ensuring quality; b) identify ways to deal with the variances each challenge presents; and, c) identify the entities which have influence over setting the quality standards in the field of forensic science.

CE Credit: Designated for a maximum of 2.25 credit hours.

Oral and Poster Section Scientific Sessions
Purpose: To provide an opportunity for presentation and discussion of case reports, descriptive studies, review presentations, research, administrative issues, and investigative/diagnostic methods regarding topics and issues of importance to a primary discipline among the forensic sciences.

Educational Objectives: To meet the educational objectives stated by each presenter for his/her presentation.

CE Credit: Varies according to the individual's session attendance. Designated for a maximum of 25.0 credit hours.

Last Word Society
Purpose: To provide a retrospective forensic analysis of historical events and to provide education about the history and evolution of forensic sciences as well as the modern methods and technologies used to re-examine past events of forensic science interest. Emphasis is placed on the evaluation of the original opinions and case outcome and on the development of newer hypotheses based on the re-analysis.

Educational Objectives: To meet the educational objectives stated by each presenter for his/her presentation.

CE Credit: Designated for a maximum of 2.0 credit hours.
CONTINUING EDUCATION

Guidelines For Claiming Credit

As the sponsor of Continuing Education Credit, the AAFS recognizes that the forensic science disciplines are inextricably linked and that interdisciplinary knowledge is critical to promote competence in forensic practice. As a result, the claiming of credit for various continuing education activities related to medicine, dentistry, law, and other forensic disciplines need not be limited to one’s primary professional specialty. For example, a forensic pathologist from the Pathology/Biology Section may gain very useful and relevant information by attending a presentation in the Anthropology Section scientific session. It is appropriate to claim continuing medical education credit for that session. Many other examples exist where the claiming of continuing education credit is appropriate for attending sessions that cover material related to, but which lay outside of, one’s primary professional area of expertise.

It is the conference attendee’s responsibility to document which program sessions were attended and to determine those sessions for which continuing education credit may be claimed. The AAFS operates under the assumption that meeting attendees will, in general, be unlikely to attend sessions that will not be beneficial to their professional practice and that the claim for continuing education credit is justified if a session contains scientific or practice-related information that may bring new knowledge, may affirm current knowledge, or may provide information that could possibly modify one’s professional practices.

Those who wish to receive continuing education credit must register and pay the Continuing Education Credit fee on the meeting Registration Form. CE Credit Request Forms will be available at the registration desk. The completed forms must be returned to AAFS by the designated deadline.

Categories of Continuing Education Credit Offered

Dental

This continuing education activity has been planned and implemented in accordance with the standards of the ADA Continuing Education Recognition Program (ADA CERP) through joint providership efforts between Postgraduate Institute for Medicine and the American Academy of Forensic Sciences.

Postgraduate Institute for Medicine is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of the credit hours by boards of dentistry. Concerns or complaints about a CE Provider may be directed to the provider or to ADA CERP at www.ada.org/cerp.

Legal

Continuing legal education credit will be awarded on an hour-for-hour basis. Attorneys may file the AAFS-issued CLE certificate with their respective state bars. Please contact Continuing Education Coordinator Kimberly Wrasse, kwrasse@aafs.org, no later than the January 20, 2020, pre-registration deadline if your state bar will not allow you to self-report. AAFS will apply for accreditation/approval from your state in this circumstance.

Medical

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Postgraduate Institute for Medicine and the American Academy of Forensic Sciences. The Postgraduate Institute for Medicine is accredited by the ACCME to provide continuing medical education for physicians.

Non Physician

A general non physician certificate of attendance will be available.

General

General continuing education credit is offered for those practicing the various forensic science disciplines not represented in the aforementioned list.
The American Academy of Forensic Sciences would like to thank the following supporters for their contributions to the 2020 AAFS 72\textsuperscript{nd} Annual Scientific Meeting:

Ellis R. Kerley Forensic Sciences Foundation

Magnet Forensics

NMS Labs, Inc

Price-Hansen and Associates, LLC

The Center for Forensic Science Research & Education at the Fredric Rieders Family Foundation

Thomson Instrument Company

UTAK

Waters Corporation
Friday, February 14, 2020
8:00 a.m. - 5:00 p.m. American Board of Criminalistics (ABC) Quality Assurance Committee

The purpose of the Student Academy of Forensic Sciences is to bring to the attention of local area high school and college students the vital importance of the application of scientific principles to the administration of justice. It acquaints the participants with the role of the forensic science disciplines in the legal system as well as the education and training required for the career in each discipline. All high school and college-age students are welcome to attend.

Learning Overview: Attendees will have an appreciation of the impact the 2009 Report by the NAS, *Strengthening Forensic Science in the United States: A Path Forward*, has had on several forensic disciplines.

Impact on the Forensic Science Community: Forensic sciences have been under the shadow of the NAS Report for the past ten years. This symposium will impact the forensic science community by providing an update on the state of many disciplines with respect to method reliability and testimonial boundaries, both of which were called into question by the NAS Report.

Program Description: The Interdisciplinary Symposium will bring together speakers from a wide range of disciplines who will discuss their responses to the recommendations listed in the 2009 NAS Report, *Strengthening Forensic Science in the United States: A Path Forward*. 
The NAS Report, Strengthening Forensic Science in the United States: A Path Forward, commonly referred to as the NAS Report by the forensic community, was released in February 2009 during the Annual Scientific Meeting in Denver, CO. This Report was unprecedented because it brought to light many issues that had been hampering the evolution of forensic science. It provided 13 comprehensive recommendations, starting with the establishment of a National Institute of Forensic Sciences (NIFS). This was described as an independent federal entity designated with the responsibility of supporting and overseeing forensic science across the country. The authors advocated that law enforcement agencies should no longer be the primary administrators of their crime laboratories and that medical examiner systems should replace coroner’s offices. Laboratory accreditation, individual examiner certification, and standardization of procedures were additional recommendations proposed in the NAS Report. Two significant recommendations to the forensic sciences, more specifically to the pattern-based evidence disciplines, revolved around: (1) improving their scientific foundations and reliability through research and validation, and (2) ensuring the accuracy of testimony offered by experts in court. Many of the NAS recommendations have not come to fruition, including the creation of NIFS. However, changes have occurred in response to some of the recommendations. Various questions can be posed to assess the impact of those changes. Has the community devoted time and resources to validating current techniques and methods? Are new disciplines embracing the scientific method? What does a “match” or an “identification” mean today? How conclusively are examiners allowed to state their results? What does the future hold for forensic expert testimony? Have court systems outside of the United States taken any notice of the changes occurring here?

This year’s symposium will feature 13 speakers across both scientific and national borders who will provide their perspectives on how the NAS Report has changed (or not) their business practices over the past decade. Many of the forensic disciplines discussed in the report will be addressed, including DNA, friction ridge, firearms, documents, odontology, and digital/multimedia evidence examination. Responses in crime scene analysis and medicolegal investigations will be presented as well. Members of the legal community will also share their thoughts on how they interpret the conclusions made by forensic experts in written reports and in trial. In addition, the efforts of the National Institute of Justice (NIJ) to fund research in these areas will be discussed. This symposium intends be a valuable session to forensic science practitioners, managers, and legal representatives.

Program:

8:30 a.m. - 9:00 a.m.  Transparency and Consistency in Trial Testimony for Medical Examiners  
Joye M. Carter, MD

9:00 a.m. - 9:30 a.m.  The Validity of Forensic Odontology in Criminal Investigations  
Barbara L. Needell, DMD

9:30 a.m. - 10:00 a.m.  Presenting Crime Scene Analysis to a Jury  
Sharon L. Plotkin, MS

10:00 a.m. - 10:15 a.m.  Break

10:15 a.m. - 10:45 a.m.  Supporting Research and Development in the Areas of Impression and Pattern Evidence  
Gregory Dutton, PhD

10:45 a.m. - 11:15 a.m.  Questioned Documents in International Justice Matters  
Tobin A. Tanaka, BS

11:15 a.m. - 11:45 a.m.  Much Work Still to be Done  
Vanessa Antoun, JD
INTERDISCIPLINARY SYMPOSIUM

Pre-Registration Required — $75

S1 Progress in the Forensic Sciences Since the 2009 National Academy of Sciences (NAS) Report

Program cont.:

11:45 a.m. - 1:15 p.m. Lunch
1:15 p.m. - 1:45 p.m. Developing Methods for Objective Firearm Examination
                   Robert M. Thompson, MFS
1:45 p.m. - 2:15 p.m. Firearms Challenges Involved in the Prosecution of the Grim Sleeper Case
                   Beth Silverman, JD
2:15 p.m. - 2:45 p.m. The Importance of a Scientific Framework to the Application of Digital Evidence Analysis
                   Eoghan Casey, PhD
2:45 p.m. - 3:15 p.m. The Implementation of Facial Recognition Technology by the United States Border Patrol
                   Jason R Thompson, BA
3:15 p.m. - 3:30 p.m. Break
3:30 p.m. - 4:00 p.m. The Development and Implementation of Statistical Interpretation Software for Friction Ridge Skin Impressions (FRStat)
                   Michael J. Salyards, PhD
4:00 p.m. - 4:30 p.m. Changes in the Role of DNA Testimony in the Past Decade
                   Sheila Willis, PhD
4:30 p.m. - 5:00 p.m. Role of the Gatekeeper Since the NAS
                   Stephanie Domitrovich, JD, PhD
S2  25 Years of Crossing Borders: Young Forensic Scientists and Their Collaborations

Tuesday
February 18, 2020  8:30 a.m. – 5:00 p.m.  6.0 CE Hours

YFSF Chair:
Zain Bhaloo, MSc
Canada Border Services Agency
Ottawa, ON, CANADA

YFSF Committee Members:
Brittany N. Beyer, MS
Houston Forensic Science Center
Houston, TX

Amber J. Smith, MSFS
Houston Forensic Science Center
Houston, TX

Ex-Officio:
Alex J. Krotulski, MS
Center for Forensic Science Research & Education
Willow Grove, PA

Program Chair:
Catherine O. Brown, MSFS
Center for Forensic Science Research & Education
Willow Grove, PA

Program Co-Chair:
Hannah N. Simmons, BS
Raleigh, NC

Learning Overview: After attending this presentation, attendees will better understand forensic science and how everyone's work can impact and enhance other scientists, and vice versa, regardless of the discipline. In addition, attendees will learn about the advantages and importance of proper resume writing and interviewing skills.

Impact on the Forensic Science Community: The Young Forensic Scientists Forum (YFSF) has historically provided a venue for those forensic scientists with less than five years of professional experience to interact with, and further integrate into, their prospective fields as well as to learn about all the other disciplines. The YFSF should provide the space and opportunity for attendees/speakers to grow, develop, network, and learn from one another. This will allow young scientists the confidence to progress in their fields and one day hopefully provide the same opportunity to another young scientist.

Program Description: This special session provides necessary information to young forensic scientists regarding the various disciplines within the AAFS and will serve as a forum to exchange, discuss, and cultivate new ideas. This full-day program has been put together to cover a wide range of topics and inform attendees as to how these topics relate to other, sometimes unrelated, disciplines, techniques, and individuals. The YFSF aims to show all young forensic scientists that what makes us special isn't just who we are alone, but also who we are together.

Every year the American Academy of Forensic Sciences draws in thousands of globally recognized experts and professionals to present research, hold workshops, and showcase the various disciplines represented within the Academy. Further, the YFSF offers two opportunities for young forensic scientists to present their own work or research: the Bring Your Own Posters (BYOP) Session and the Bring Your Own Slides (BYOS) Session.

The session will feature speakers from many of the AAFS sections who will discuss their work and how they crossed borders, figuratively and literally, to collaborate with other disciplines. Through these presentations, attendees will learn how experienced practitioners and professionals have contributed to forensic science as a whole and how their work has benefitted from and was helped by interdisciplinary combining of knowledge bases. With a rapid push for specialization within a given discipline, it has remained vital for leaders in forensic science to remember the importance of cross-discipline collaboration and partnership. Through this Special Session, forensic experts will provide mentorship to young forensic scientists by inspiring interdisciplinary cooperation in casework, research, and community engagement.
Finally, in the spirit of interdisciplinary collaboration and to honor our commitment to improving and advancing communication, for the first time the YFSF is seeking to provide the opportunity to attendees to network with AAFS members and many others to encourage the sharing of information and experiences. This year's Special Session has been re-designed to incorporate a networking morning coffee break where all YFSF attendees and distinguished members from the AAFS sections can meet, mingle, and have discussions. Further, the discussion and resume review panel has been lengthened and will be enhanced by the addition of a speaker specifically addressing resumes and interview preparation, so don't forget to update and bring several copies of your resume with you!

Speakers:

Accreditation of Forensic Science Academic Programs Through the FEPAC

Tuesday

February 18, 2020 8:30 a.m. – 12:45 p.m.

Chair:
Dwight E. Adams, PhD
University of Central Oklahoma
Forensic Science Institute
Edmond, OK

Commissioner:
Sarah J. Seashols Williams, PhD
Virginia Commonwealth University
Richmond, VA

Commissioner:
Jason L. Schroeder, MS
Harris County Institute of Forensic Science
Houston, TX

Commissioner:
PATRICK A. ELLE, MS
METADATA FORENSICS LLC
RICHMOND, VA

Commissioner:
Sarah J. Seashols Williams, PhD
Virginia Commonwealth University
Richmond, VA

Commissioner:
Nancy J. Jackson
American Academy of Forensic Sciences
Colorado Springs, CO

Learning Overview: Upon completion of this session, the participant should be able to understand the process of accreditation through the AAFS FEPAC mechanism and be able to participate in the process as a reviewer of academic programs. Attendees from academic programs will also learn about the process of accreditation from different perspectives.

Program Description: This session has been developed to assist academic institutions offering undergraduate and graduate degree programs in forensic science and forensic digital evidence to prepare for the accreditation process through the FEPAC. This session will also assist future on-site evaluators (academic and practitioners) to prepare for on-site evaluations of academic programs. Successful completion of this one-day session will qualify participants for consideration to serve as on-site evaluators for FEPAC in the future (please note that participants must still meet other FEPAC requirements, such as membership in the AAFS and designation as either a practitioner or academician).

This training session will highlight updates to the FEPAC Standards for Accreditation and provide valuable information for both program directors and on-site evaluators.

The FEPAC is a standing committee of the AAFS with a membership that includes five educators, five forensic science practitioners, and a public member as voting members. The mission of the FEPAC is to maintain and enhance the quality of forensic science education through a formal evaluation and recognition of college-level academic programs. The primary function of the committee is to develop and maintain standards and to administer an accreditation program that recognizes and distinguishes high-quality undergraduate and graduate forensic science programs. Forty academic programs have successfully completed the accreditation process since 2003. Additional information on FEPAC can be found on the FEPAC website: http://fepac-edu.org.
Pre-Registration Not Required — Open to All Meeting Attendees

ES1  Dracula, Twilight, and Blood Cults: Why Is It That Vampires Never Die?

Tuesday

February 18, 2020    8:00 p.m. – 10:00 p.m.

Corina Freitas, MD*
Syracuse, NY

George D. Annas, MD*
State University of New York
Upstate Medical University
Syracuse, NY

Jarrod A. Marks, MD*
Tufts Medical Center
Boston, MA

Learning Overview: After attending this presentations, attendees will: (1) gain knowledge in the historical, medical, and psychoanalytic theories behind vampire beliefs; (2) advance skills regarding the manner in which “vampirism,” “vampire cults,” and “vampire communities” may present clinically and forensically; and (3) improve knowledge in historical reports of sadistic mass murder that may have contributed to vampire lore.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by increasing the existing knowledge of the fundamentals of the current field and thus improve forensic competence and performance.

From the ancient world to the present, vampires have held a tight grip on our fascination and fear and this has yet to be released. Traces of the legend are found in some of the oldest surviving mythologies and have spilled over into history and lore. Such mythology associated vampires with female figures representing potential destruction and with children in a state of dependency and helplessness. Similar beliefs are traced to ancient cultures across the globe, often depicting demonic female figures who fused relationships between the living and the dead, expressed through blood rituals as well as sexualized and aggressive exchanges.1

However, it was Bram Stoker who introduced us to the great Dracula in the late 19th century, and it was this quintessential Byronic hero who fathered countless other characters. From the monstrous presentations of Nosferatu, and Underworld’s Markus, to the charming Lestat and adorable sparkly Edward, and everything in between, our fascination with Dracula and his ever-evolving progeny shows no signs of decay.

In the modern era, some vampires have been transformed from evil beasts to misunderstood, and ostracized, supernatural heroes.2 With this change, some of their ideologies went from that of those cursed with turmoiled “un-deadness” to those having (and sometimes offering) immortality; from forced isolation to offering a new community; from subhuman viciousness to displaying animal traits that convey energy and natural instincts. Flaunting the appeal of the aristocrat or outlaw, and inciting adventure at once terrifying and safe, the vampires in these stories have “evolved” into uncannily irresistible figures.3 What is it that so intrigues us about them? Our speakers will lead us on a journey where we can explore this fascination via culture and psychoanalytic theory, as well as historical figures purported to have inspired the legend—tales of which include sadism and mass murder eclipsing any terror found in fiction.

Also discussed will be cases from the early 1800s where misperception of infectious illness caused mass hysteria, leading to the belief that the dead were rising from their graves and literally sucking vitality out of the living. This hysteria ultimately culminated in the cannibalistic rituals of the recently deceased to stop the dead from harming the living. However, such a ritual has been documented as recently as 2003, proving that these seemingly old beliefs from a forgotten time of darkness and irrational superstition for some reason draw appeal to this day.

Indeed, we are far from immune to such seeming madness. Modern vampire “cults” tragically show us how an obsession with these creatures can go too far. What drives such people into these alternate realities? Mental Illness? Sadism? Or is there more complexity to these stories? Perhaps we will never know, but one thing is certain: while legends postulate many ways that vampires may be killed, time has proven that they will, indeed, live forever.

The AAFS 2020 Academy Cup will take place on Wednesday, February 19, 2020, before the Plenary Session. Section teams meet at 8:00 a.m., an hour before the Plenary Session, for instruction and team strategy. The game will start at 8:10 a.m. and consist of multiple-choice and true-or-false questions projected onto a screen to test each section's knowledge.

Each section's team is comprised of members, Past President(s), Past Vice President(s), Board Member(s) and/or Section Officer(s), Chair, Secretary, Young Forensic Scientist Forum (YFSF) volunteers, and anyone who wants to play. The YFSF volunteers will be assigned to sections on Tuesday at the YFSF Special Session. The game will be 30 minutes long, then all answer sheets need to be turned in.

The winning team will be announced and the Academy Cup trophy presented at the AAFS Annual Business Meeting (ABM) at 4:15 p.m. that same day. Teams should be present at the ABM to find out who won, and the winning team should be available at the conclusion of the ABM to have a group photo taken.

Program:

8:00 a.m. - 8:10 a.m. Instructions and Introductions of Team Leaders
8:10 a.m. - 8:40 a.m. PowerPoint® Questions and Answers
8:40 a.m. - 8:45 a.m. Team Answer Sheet Turned in by YFSF Representative for Each Team
Overview: Advances in technology have played a tremendous role in making many daily routines and extraordinary tasks seem ordinary. Individuals may live in one area but work in a different city, state, or even country. While crossing borders, individuals may use personal electronic devices to listen to a book, catch up on the latest news, or participate in conference calls. If using mass transit to make the commute, individuals may even prepare lectures, write publications, or simply crush candy to pass the time. Travel innovations have also made it considerably easier for individuals to attend meetings within their respective countries or at the international level.

Technological advances can be worthwhile. However, the innovations are often used for nefarious acts as well. Individuals share information across borders to support criminal enterprises; drugs are grown or manufactured in one country and transported to another; firearms purchased in one jurisdiction may be used to commit crimes in another; individuals, often exploited through the hope of a better life across international borders, lose their independence as they become victims of human trafficking; putative suspects may use available technological advances to avoid apprehension; and these are but a few of the many ways in which integrity is compromised for personal benefit or gain.

The American Academy of Forensic Sciences is a multidisciplinary organization, representing 11 sections across the forensic sciences with both American and International members. The Annual Scientific Meeting of the AAFS fosters inclusiveness across all sections, disciplines, and nationalities through collaboration, networking, and the cross-pollination of knowledge across the forensic community. It is beneficial for members of the community to convene to share in successes, to learn from failures, and to acknowledge advances in the field.
PLenary Session

Pre-Registration Not Required — Open to All Meeting Attendees

Crossing Borders

Overview cont.:

This program is designed to allow members of the forensic community to share in the knowledge gained through experience and to learn of advances on the horizon. John Fudenburg will discuss the strengths and weaknesses of the Clark County Coroner/Medical Examiner's Office during the handling of the worst mass shooting in modern United States history. An emphasis will be placed on the interdisciplinary efforts of the different agencies involved and the various deployment areas necessary during a mass fatality incident. Specific attention will be given to the Family Assistance Center and the on-going mental health/wellness of responders.

Thomas Callaghan will provide an overview of the Federal Bureaus of Investigation's (FBI's) Next Generation Identification and Facial Recognition Programs, along with the FBI's Rapid DNA expansion of the Combined DNA Index System (CODIS) into the booking station. Similarities, differences, and privacy concerns with finger, face, and DNA biometric modalities will be discussed. This presentation will also reveal how DNA databases, like CODIS and Facial Recognition queries of government datasets and online photo galleries, use the Automated Fingerprint Identification System (AFIS) model daily to identify potential perpetrators.

Dave Reichert will share his observations on human trafficking from the perspective of a 34-year career officer who gathered intelligence as the lead investigator in the Green River Serial Killer case, ultimately bringing justice to the families of the 49 confirmed victims. This presentation will also detail the journey of an investigator to his 14 years as a United States Congressman and, finally, to his present role as an advocate for impactful global forensic policy.

The program will conclude with a shared learning opportunity for the attendees and speakers.

Program:

9:00 a.m. - 9:10 a.m. Welcoming and Opening Remarks
Zeno Geradts, PhD; C. Ken Williams, MS, JD

9:10 a.m. - 9:50 a.m. Mass Fatality Preparedness—Lessons Learned From the October 1, 2017, Shooting in Las Vegas
John Fudenberg, MBA

9:50 a.m. - 10:30 a.m. Biometrics: Identity Verification and Identity Discovery With Finger, Face, and DNA
Thomas Callaghan, PhD

10:30 a.m. - 11:10 a.m. Invisible Children in the World of Global Human Trafficking
Dave Reichert

11:10 a.m. - 11:30 a.m. Panel Discussion
Julie Howe, MBA; Zeno Geradts, PhD; John Fudenberg, MBA; Thomas Callaghan, PhD; Dave Reichert
BS1   Ethno-Cultural and Religious Considerations in the Management of the Dead

Monday, February 17, 2020  7:00 a.m. – 8:30 a.m.  .75 CE Hour

Amber D. Riley, MS*
Deco Education & Consulting
San Diego, CA

Sakher J. AlQahtani, PhD*
King Saud University, College of Dentistry
Riyadh, SAUDI ARABIA

James F. Goodrich, FFOMP*
Cambridge, Waikato, NEW ZEALAND

Learning Overview: After attending this presentation, attendees will have a greater knowledge of the ethics, customs, norms, and taboos surrounding death and the dead for many minority cultures and religions within their professional and personal communities. This presentation will describe several cultures and religions that forensic professionals may encounter in their jurisdictions, both in the United States and worldwide, along with each respective approach to the management of their dead, based upon this better understanding.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by serving to assist the forensic professional in overcoming some of the obstacles that are present when identifying, investigating, and examining a decedent that is a member of these ethno-cultural communities.

Culture and religion profoundly influence many aspects of modern life. These factors also carry forward after death and may affect our management of the deceased. We recognize that increasing human migration across global geographical borders results in decedents sometimes being managed within a culture and community that is foreign to them. Loved ones, family, and members of the integrated community of the deceased also bring expectations, norms, and taboos to a forensic setting, and these influences may at times increase the complexity of and even hinder the process of examination, identification, and release of the dead. Although it is impossible to be intimately familiar with all religions and cultures, we as forensic professionals should be educated and sensitive to the roles each may play in our respective areas of expertise while avoiding the risk of stereotyping the deceased.

It is important to the process and to the outcome that the forensic professional understands not only the ethno-cultural and religious considerations associated with the deceased and other members of the affected community, but also their own and how these may relate to the context and perhaps to any biases that may be subsequently introduced. So, the complexity of the juxtaposition of different cultures and expectations may be multiplied in a situation where the forensic practitioner is anything other than the ideal of absolute neutrality.

The interplay of the deceased’s culture and the forensic professional’s legal and ethical responsibilities can pose significant challenges when experienced against a backdrop of factors, including gender and acculturation, notably in cases in which there are multiple and/or commingled fatalities being examined at one time in one spatial setting. Varied cultural and religious mores for managing the dead also dictate appropriate disclosures, privacy, and communication with the relatives of the deceased. Some difficulties can at least be partially overcome with an understanding of these sensitivities.

This presentation hopes to highlight many of the unique aspects of the belief systems and social constructs that may be encountered during the career of a forensic professional in the context of the management of the dead, and to provide tools and a framework for increased sensitivity and understanding. This, in turn, will provide an opportunity to allow the dignity and basic human rights of the deceased to perhaps be respected more fully.

Examples will be drawn from many cultural and religious backgrounds, including Islam, Judaism, Christianity, Hinduism, Buddhism, Native American, Maori, and Pasifika peoples.

The Working Stiffs: Writing and Publishing the Experiences of a Forensic Pathologist in Both Fiction and Non-Fiction

Tuesday, February 18, 2020
7:00 a.m. – 8:30 a.m.
.75 CE Hour

Judy Melinek, MD*
PathologyExpert, Inc
San Francisco, CA

T.J. Mitchell, BA*
PathologyExpert, Inc
San Francisco, CA

Learning Overview: The goal of this presentation is to demonstrate how a collaboration between a scientist and a writer can effectuate the communication of complex forensic concepts to a lay audience.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by helping attendees be able to communicate scientific concepts to a lay audience, in writing and in testimony, and by navigating issues pertaining to confidentiality of medical information.

This presentation takes as its thesis the importance of reflecting scientific rigor in writing both non-fiction and fiction for a lay audience. The challenges of writing while continuing to testify as an expert witness in real-life criminal and civil court cases will be explored. In addition, the perpetual tension between fiction and science—maintaining a balance between narrative demands and medical verisimilitude—will be discussed.

Journal writing can be an effective way of documenting what a scientist encounters in clinical detail. Other ways of tracking forensic cases include spreadsheets and medical databases. In some offices, it is not uncommon to collect newspaper clippings of the deaths that are investigated and picked up by the media and place them in the case file. However, newspaper accounts may not be accurate; this presentation will provide examples of how eyewitness statements and assumptions made by the police or death investigators can be found to be in error when the body is taken to autopsy. Writing and documenting what a pathologist sees at the time of autopsy is crucial for clinical decision making and peer review, including review by outside experts. Furthermore, taking written notes about one’s daily experiences and what one learns through those experiences can also become a psychological outlet: a way to “decompress” after a long day of working in extreme conditions, or a way to deal with the grief and anger of family members. Writing can be a therapeutic exercise that supplements formal training in forensic pathology and should be encouraged in forensic fellowship training.

Working in an understaffed and underfunded environment can also put stress on the forensic team and may incubate intramural tension. Mass fattyality response, along with a backlog of routine cases delayed by ancillary lab studies, can add to the pressures pathologists experience. Journaling can help forensic professionals deal with the stresses of the job, but non-disclosure agreements and privacy policies may restrict professional communication and publication in a public forum. In academic writing, de-identification is used when sharing case reports, and this method can be used in writing non-fiction for public consumption. Fictionalizing actual forensic cases can allow scientists a way to explore the work that they do and share their experiences, both with other professionals and with the lay public.

A case report will be presented of a petty thief who stole a laptop and was chased down and shot dead in public by the laptop's owner. This case involved a complex gunshot wound trajectory analysis and the collection of property as evidence. Forensic-noir mystery writers such as Kathy Reichs, Patricia Cornwell, Jon Jefferson, and William Bass, all of whom worked in various capacities in the forensic sciences professional discipline, provided the inspiration to explore ways to educate the public about real-world forensic science through the use of a fictional narrative voice.

*Presenting Author
BS3  The Science Behind Traffic Accident Reconstruction With Real-World Crashes

Wednesday, February 19, 2020  7:00 a.m. – 8:30 a.m.  .75 CE Hour

Kurt D. Weiss, MS*
Case Study Collision Science, LLC
Santa Barbara, CA

Darren Franck, MSME
Advanced Engineering Associates, Inc
Charleston, WV

Learning Overview: The goal of this presentation is to share with the forensic science community the data sources and detailed methodology used in traffic collision reconstruction.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by demonstrating through real-world case studies the data used and methodologies applied to the reconstruction of traffic collisions.

An analysis of four real-world crashes will demonstrate the science behind traffic accident reconstruction. Reconstructing a crash is a multidisciplinary process. The reconstructionist gathers objective and subjective information, performs case-specific research, then applies the fundamental principles of physics to determine, for example, impact classifications, vehicle heading, impact configuration, impact (closing) speed, velocity change or Delta-V (DV), rollover distance, roll count, and roll rate. The reconstruction results are important input to the injury analysis and the assessment of injury patterns, risk, and prevention.

The primary information source is the Traffic Collision Report, which may provide: (1) objective party information (e.g., occupant and vehicle year, make, model, Vehicle Identification Number (VIN)); (2) objective site information (location and roadway, intersection, and Global Positioning System (GPS) details), scene diagrams with measurements of physical evidence (tire friction marks, fractured glass, roadway scrapes and gouges, scarred tree bark, fractured signs or light posts, disturbed dirt and/or vegetation), point of impact, and vehicle rest locations; (3) at-scene police photographs of site evidence and vehicle damage; and (4) subjective information (e.g., party statements, vehicle code violations, police collision summary and primary collision factor identifying party and cause).

Case-specific research may include: (1) at-scene witness photographs, which are often taken with cell phone cameras; these photographs are crucial absent police photographic documentation of site and vehicle evidence; (2) security videos that can help refine the analysis by providing objective evidence of vehicle movements prior to and after the crash; (3) aerial photography from online image archives that orient and supplement scene diagrams; (4) drive-through videos that provide a street view of the roadway and/or intersection; (5) site inspections that clarify roadways, controls, and obstacles; (6) subject vehicle inspections with crush profile measurements document property damage and reveal relative impact alignment or vehicle movement; (7) Airbag Control Module (ACM) data that quantifies pre-crash vehicle speeds and accelerations and driver actions (e.g., swerving, braking); (8) subjective information (e.g., witness statements and deposition testimony) that helps qualify collision events and estimates of vehicle speeds, distances, and movements. These sources may also provide prior useful site, vehicle, or occupant history; and (9) exemplar vehicle inspections, scaled vehicle drawings, specifications, and crash test data that may be used to determine the collision severity.

An analysis of four real-world crashes demonstrate the science behind traffic accident reconstruction. Case 1 involved a fatal collision; vehicle crush measurements quantified collision severity. Case 2 was a vehicle-motorcycle crash; a download of ACM yielded pre-crash data. Case 3 describes a wrong-way, intoxicated driver in a high-speed crash; the patrol car’s on-board video quantified vehicle impact speeds. Case 4 was a vehicle-motorcycle crash; stationary security videos quantified vehicle impact speeds.

BREAKFAST SEMINARS

Pre-Registration Required — $52

BS4 A Tour of a Cannabis Extract Manufacturing Facility in Maine

Thursday, February 20, 2020 7:00 a.m. – 8:30 a.m. .75 CE Hour

Jennifer A. Paris, BS*
New Hampshire State Police Forensic Laboratory
Concord, NH

Anna K. Weaver, BS
New Hampshire Department of Safety
Concord, NH

Learning Overview: After attending this presentation, attendees will have a better understanding of the operation of a small state-licensed and inspected cannabis extract manufacturing facility.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by promoting an understanding of the processes used to concentrate cannabinoids, how products are diluted, prepared, and packaged in order to comply with the relevant laws and regulations, and may be helpful for attendees who are assisting in building a local or state jurisdiction’s medical or recreational marijuana program.

The state of Maine enacted a medical marijuana law after a citizen-led ballot initiative passed in November 1999. Since that point in time, multiple amendments have been made to the statute following feedback from patients, caregivers, medical providers, and a specially developed task force. Although a 2016 law was passed to allow for the recreational use of marijuana, and a 2017 law was passed concerning taxation and other regulations surrounding recreational marijuana, the commercial sale of the plant and products made from it have not yet begun.

Today, Maine permits both growing and processing of marijuana by individuals holding a medical card (i.e., “patients”). In addition, patients and caregivers are allowed to use a third-party manufacturing facility to convert their harvested marijuana or hemp into concentrated forms. These facilities are registered, inspected, and licensed by the state of Maine. They are expected to adhere to strict procedures regarding site safety and security, the quantity and type of plants on site, the quantity of harvested product on site, the use of “inherently hazardous substances,” and the disposal of waste materials, among other standards.

This presentation will briefly cover the regulations in place for Maine’s program, then focus on the specifics with respect to a small, registered manufacturing facility. Chemists from the New Hampshire State Police Forensic Laboratory were given the opportunity to tour one such facility in the summer of 2019 while extractions were in progress. This cannabis extract manufacturing facility employs supercritical carbon dioxide processing of harvested marijuana and/or flowering hemp grown by patients or their caregivers to produce highly purified concentrates devoid of terpenes. In addition, the facility was equipped with a closed-loop extraction system to produce butane honey oil, shatter, and “diamonds.” Discussions regarding purity, concentration, cannabinoid profiles, and all aspects of the operation, including the evolution of the facility’s practices over time, took place with the owner/operator of the facility. Attendees will be informed regarding the outdoor grow area, extraction and purification processes, preparation of food products, and product packaging materials at the visited facility.

Given the increased number of states where cannabis products are legal for medical or recreational use, it is important for those involved in the analysis of seized drugs to have an understanding of the processes used to concentrate cannabinoids from harvested marijuana and flowering hemp.

**BS5  Practical Aspects of Developing and Incorporating a Postmortem Computed Tomography (PMCT) Service Into a Medical Examiner’s Office**

</tr>
</tbody>
</table>

**Learning Overview:** After attending this presentation, attendees will understand the concepts and considerations involved in incorporating PMCT into the practice of a medium-sized, regional medical examiner's office, including staffing, scanning protocols, triage of cases, study interpretation, and novel and alternative data storage solutions. Developing and incorporating a PMCT service is a complex project, with broad implications for many aspects of an individual office.

**Impact on the Forensic Science Community:** This presentation will impact the forensic science community by providing a framework and blueprint that can be used to incorporate and implement this burgeoning technology within the scope of death investigation for medical examiner's and coroner's offices.

The services of a consultant were engaged as part of the budget request associated with purchasing the Computed Tomography (CT) scanner. The consultant provided guidance for technical and structural considerations critical for drafting the purchasing bid documents and review of the bids for the purchase of the CT scanner and associated equipment. After installation by the vendor, the consultant also provided the basic scanning protocols that are programmed into the scanner for ease of use and include protocols for standard adult, bariatric, pediatric, charred remains, skeletal remains, and decomposed remains. This is a key component, since standard protocols that are provided by CT scanner vendors are designed for clinically based studies on living patients.

As part of the purchasing contract, the forensic autopsy technicians, none of whom have formal radiology technology training, received in-person instruction in the practical aspects of operating the equipment. Performing the scans with the appropriate protocols requires minimal direct management by the forensic autopsy technicians. Once the protocols are in place and validated, scanning proved to be relatively simple and straightforward. Scanning is performed during routine working hours on a rolling basis as decedents are brought into the office; scans are completed prior to the processing and external examination of the body. All decedents that are physically capable of fitting into the CT scanner are imaged. The rationale for this is two-fold. First, scanning every decedent as a matter of routine may guide how the pathologist approaches the case. Second, scanning creates a permanent 3D radiographic record of the body that can be reviewed long after the body has been permanently altered by autopsy.

The scans are reviewed and interpreted by the forensic pathologists as a group during a morning conference prior to performing examinations and again individually when medical examiner reports are written. The medical examiners in the office received training in CT interpretation by two physicians with prior PMCT experience who were already on staff. The learning curve of CT interpretation is very steep; familiarity with visualizing cross-sectional anatomy in three dimensions simultaneously comes surprisingly quickly. Furthermore, because all decedents are scanned, each pathologist gets immediate feedback by comparing autopsy findings to what was observed on the scans—a practice that builds interpretive skills and confidence rapidly. Once the medical examiner staff is comfortable with reading CT scans, decisions can be made regarding which types of cases might be able to be supplanted by PMCT.

A novel cloud-based storage and image-viewing software solution was purchased rather than a traditional Picture Archiving and Communication System (PACS). It has virtually identical capabilities, including permanent long-term storage with system redundancy, at a fraction of the cost of a standard PACS solution. In the opinion of the regional medical examiner's office, PACS is a vastly more sophisticated and ultimately far more expensive solution than what is actually required for death investigation purposes. For offices affiliated with medical centers, it may be possible and cost-effective to “partner” and obtain a node on a hospital's PACS. However, offices without this benefit have struggled to devise a system tailored to the unique needs of death investigation without the associated burdensome cost of a PACS—a cost factor that may deter an office from obtaining PMCT capability altogether. It is thought that this regional medical examiner's office is the first office to pilot and utilize this type of storage and viewing solution.

As more death investigation offices around the country begin to integrate CT imaging as part of the physician's toolkit, it is critical to share operating procedures and innovative solutions to common problems to assist others in participating in this exciting advancement in the field of forensic pathology.

**Learning Overview:** After attending this presentation, attendees will have a better understanding of locating, identifying, and collecting evidence and the documentation of the crime scene associated with a mass casualty investigation. Attendees will also be aware of the policies and procedures for conducting a crime scene investigation (timeliness, thoroughness, and timely reporting) and casualty liaison briefings provided to the primary and secondary next-of-kin. This presentation will also enable attendees to understand how the psychological evaluation of the subject may or may not have affected the outcome of the trial by court-martial and the results of the court-martial.

**Impact on the Forensic Science Community:** This presentation will impact the forensic science community by demonstrating that a mass casualty investigation must be conducted in a timely and thorough manner in order to provide the court with the best evidence for conviction. The psychological evaluation will assist in determining if the subject was mentally responsible, and, if so, whether he should receive life with or without parole or the death penalty.

SGT John M. Russell had been seen at the Combat Stress Center (CSC), Camp Liberty, Iraq, on three separate occasions and had a noon appointment on May 11, 2009. At approximately 1:41 p.m. on May 11, 2009, the United States Army Criminal Investigation Command (known as CID) was notified of the shooting of several personnel inside the CSC. The investigation revealed that at approximately 12:30 p.m. on May 11, 2009, SGT Russell entered the CSC and methodically shot and killed five United States service members (a Navy Commander and an Army Major, a Sergeant, and two Private First Classes). SGT Russell was also listed for the offense of attempted murder and aggravated assault when he fired at two soldiers and missed. The Navy Commander was the only victim known to SGT Russell. SGT Russell, who did not have a weapon, gained possession of his escort's weapon (an M16 rifle), ordered his escort from the vehicle, then drove back to the CSC where he opened fire on unarmed personnel. Due to the regulatory requirements, all soldiers were required to carry their assigned weapons at all times in the combat environment on most camps; the only exception was a medical facility. Soldiers entering the CSC were required to place their weapons in an arms room while being treated; therefore, all soldiers in the CSC were unarmed and vulnerable. SGT Russell was subsequently disarmed and placed under apprehension.

More than 28 CID special agents in Iraq were involved in processing the crime scene and interviews of the victims, witnesses, and subject. More CID special agents around the world were involved in the autopsies, background investigation of the subject, and developing information for the court-martial. The preliminary crime scene reconstruction took approximately one week (the crime scene was maintained for many years, until it had to be bulldozed). The special agents conducted bloodstain spatter analysis, ballistic reconstruction, and a plethora of other forensic analyses of the five separate areas where the victims were murdered.

SGT Russell was evaluated and it was determined he was not mentally competent to stand trial; SGT Russell was placed in a mental health facility where he was evaluated for approximately four years. During this time, he was seen by several mental health professionals, questioned to determine his mental status, and medicated until he was considered restored to competency and returned to military custody.
BS6   Is a Soldier’s Combat Stress a Reason to Commit Five Murders?

On May 15, 2012, prosecutors decided to seek the death penalty and SGT Russell's defense stated he would pursue an insanity defense. On May 18, 2012, I Corps, Joint Base Lewis-McChord (JBLM) released the General Court-Martial Convening Authority (GCMCA) findings. The GCMCA referred court-martial charges against SGT Russell to a General Court-Martial empowered to adjudge a capital sentence.

During the court-martial proceedings, the defense blamed the combat mental health professionals for SGT Russell's actions and indicated that they could have prevented this mass casualty. SGT Russell was subsequently found guilty and on May 16, 2013, an Army judge sentenced SGT Russell to life without the possibility of parole for the shooting death of two care providers, two patients, and an escort. The judge stated, "You are not a monster, but you have knowingly and deliberately done incredibly monstrous things."

L1 The Disappearance and Murder of Sierra LaMar: A Multidisciplinary Case Study

Thursday

February 20, 2020 12:00 p.m. – 1:30 p.m. 1.0 CE Hour

Melissa A. Dupée, MSFS*
Santa Clara County Crime Laboratory
San Jose, CA

Michelle L. Bell, BA*
San Jose, CA

Learning Overview: The goal of this presentation is to inform attendees of a complex homicide investigation that was heavily fueled by physical evidence examinations, including DNA, trace evidence, digital and video evidence, latent prints, and questioned documents.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by showcasing the ability for multiple forensic disciplines to work together to achieve the maximum potential of the evidence items submitted in a missing person case turned homicide.

Fifteen-year-old Sierra LaMar left her Morgan Hill, CA, home on March 16, 2012, but never made it to school. Her school bag, containing the clothes she'd been wearing the day she disappeared, and her discarded cell phone were found a short time later. Thus began an investigation that utilized multiple crime lab disciplines, culminating in a months-long 2017 trial that found Antolin Garcia Torres guilty of kidnap and murder, even though Sierra's body has never been found.

DNA was instrumental in identifying a suspect. Biological evidence found on Sierra's clothes matched to Garcia Torres in the Combined DNA Index System (CODIS), and a later search of his vehicle yielded additional evidence. The DNA testing for this case, much of which was developed in the first few days following Sierra's disappearance, utilized a plethora of DNA techniques and resulted in a variety of conclusions, each of which required a different type of statistical analysis, including mixtures, paternity testing, and Y-chromosomal Short Tandem Repeats (Y-STRs).

Trace evidence played a big part in this case. The trace evidence analyses required travel to assorted sites in Morgan Hill to collect comparison samples for testing. Examinations of Sierra's clothing and Garcia Torres' vehicle revealed various types of trace evidence, including hair, fibers, glass beads, soil, botanicals, and insect parts. Extensive examinations were performed on Sierra's cell phone, which had turned on and off several times following her disappearance. This prompted a visit to the Samsung® facility in South Korea by an investigator involved in the case.

Questioned documents examination was performed when a notebook of Sierra's was discovered at school, with notes written in it suggesting she was thinking of running away. Video evidence was paramount in this case. At the beginning of the investigation, video evidence from near the school bus stop and from the school bus itself was reviewed to see if Sierra had made it that far that morning. Later, video from the parking lot of the defendant's home and from his transactions at a bank were converted to a format that could be more easily viewed in court. In addition, video showed the defendant a few nights before Sierra's disappearance purchasing only a gallon of bleach and a turkey baster—a strange purchase for a 21-year-old male to be making by himself at night.

Prior to the abduction of Sierra, there were multiple attempted kidnappings in Morgan Hill. Investigators, interested to see if they could somehow link these attacks to Sierra's disappearance, requested that a Taser®, left at one of the scenes by the perpetrator, be processed for latent prints. A latent fingerprint was developed on the battery of the Taser® and was identified as Antolin Garcia Torres' print. Therefore, these attempted kidnappings became a part of the Sierra LaMar trial, showing that the defendant had a history of attacking women, and he was found guilty of these crimes as well. The work conducted by all these forensic disciplines in conjunction helped find a suspect, connected him to other crimes, and put to rest several defense theories. Antolin Garcia Torres was sentenced to life in prison without the possibility of parole.

L2  Fingerprinting the Brain: Mind, Memories, and Malingering

Friday

February 21, 2020     12:00 p.m. – 1:30 p.m.         1.0 CE Hour

Charles Scott*  Ambarin Faizi, DO*
University of California, Davis School of Medicine  University of California, Davis Medical Center
Sacramento, CA  Sacramento, CA

Jorien Campbell, MD*  Bethany Hughes*
University of California, Davis Medical Center  University of California, Davis Medical Center
Sacramento, CA  Sacramento, CA

Gary Ciuffetelli, MD*
University of California, Davis Medical Center  Sacramento, CA

**Learning Overview:** After attending this presentation, attendees will better understand the role of brain fingerprinting to detect concealed information in forensic criminal cases.

**Impact on the Forensic Science Community:** This presentation will impact the forensic science community by informing the competence of attendees through increasing the ability to interpret an emerging scientific method used to detect concealed information stored in the brain via the use of Electroencephalographic (EEG) brain responses/brainwaves.

Between 10% and 70% of criminal defendants claim crime-related amnesia; there is limited published literature on objective assessments of memory loss in a criminal setting. Interview techniques combined with psychological testing have been developed to assess possible malingering of memory loss. Investigators have long sought a reliable means of detecting deception. The Guilty Knowledge Test (GKT) is an early predecessor to brain fingerprinting and measures the individual's autonomic response to information known or not known about a crime.1

Recently, brain fingerprinting techniques using brain wave response have emerged as a scientific method to detect potentially concealed information stored in the brain. Brain fingerprinting techniques measure EEG brain responses/brainwaves and compute a determination of “information present” (the subject knows the critical information) or “information absent” (the subject does not).1 According to this theory, if the individual is familiar with the information presented, a P300 brain wave is emitted and measured by an EEG.2

Farwell reports that in more than 200 test cases, brain fingerprinting yielded a 100% accuracy rate with a 0% error rate in distinguishing those who possessed specific target knowledge from those who did not.1 As an example, in an experiment on 17 Federal Bureau of Investigation (FBI) agents, analysis using this P-300 brain fingerprinting technique yielded a 100% identification rate of FBI agents with FBI-relevant knowledge.1 Dr. Farwell has coined the term “Farwell Brain Fingerprinting” (FBF) that he proposes has the ability to detect concealed information.1

The application of this FBF technique to forensic criminal cases was highlighted in the 2003 case of Harrington v. State. Terry Harrington sought to overturn his 1978 murder conviction on several grounds, including new evidence in the form of FBF that was not available at his original trial. Dr. Farwell administered his test to Mr. Harrington and rendered a report to the Iowa District Court analyzing Mr. Harrington's responses to information about the crime. Dr. Farwell asserted that his analyses supported Mr. Harrington's assertion that he was not guilty and, therefore, it should be allowed into evidence to help overturn his conviction. In contrast, the district attorney challenged these results, noting several factors that could have impacted the FBF outcome. The panel will review how the admissibility of this newly emerging FBF technique was addressed by the district and appellate courts and its impact, if any, on the legal outcome of Mr. Harrington.3 The strengths and limitations of this approach will be discussed and admissibility under the Daubert standard will be highlighted.

W1 Drug Delivery Homicide: Prosecution, Defense, and Expert Testimony

Monday

February 17, 2020 8:30 a.m. – 12:00 p.m.  3.0 CE Hours

Learning Overview: The goals of this presentation are to: (1) discuss the theories of prosecution and defense under “drug-delivery-resulting-in-death” statutes and sentencing; (2) describe and explain the nuances of the Supreme Court of the United States (SCOTUS) decision in U.S. v. Burrage; (3) analyze the strengths and weaknesses of fact patterns drug-delivery-resulting-in-death cases; (4) identify and articulate the limitations of toxicological and medical testimony in these cases; and (5) prepare for testimony and direct and cross-examination in drug-delivery-resulting-in-death cases.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by providing background on the legal challenges for charging, defending, or providing opinions and testimony in cases in which an individual’s death is alleged to have resulted from another individual’s actions in supplying the drugs that caused the death. Prosecutors, defense attorneys, and testifying experts will be better prepared to provide scientifically supported evidence in the appropriate context to triers of fact in these cases.

Knowledge Level Required: Intermediate (some knowledge of subject presented)

Expected Handout Length: 60 pages

Supported By: The Center for Forensic Science Research & Education at the Fredric Rieders Family Foundation
WORKSHOPS

Pre-Registration Required — $100 w/registration; $125 workshop only

W1 Drug Delivery Homicide: Prosecution, Defense, and Expert Testimony

Program Description: This program will evaluate from the jurisprudence, pathology, and toxicology perspectives the legal theories and testimony required to prosecute or defend cases involving allegations that one individual's actions caused the death of another person by supplying them with a drug, either licit or illicit. There is a growing trend toward prosecution of these cases, and this workshop is intended to prepare all the professionals involved in these cases.

Program:

8:30 a.m. - 8:35 a.m. Welcoming Remarks
Barry K. Logan, PhD

8:35 a.m. - 9:05 a.m. State and Federal Statutes and Case Law on Drug Delivery Resulting in Death
M.J. Menendez, JD

9:05 a.m. - 9:40 a.m. The Prosecution Perspective on Charging and Presenting Drug Delivery Resulting in Death
Michael J. Hunter, JD

9:40 a.m. - 10:15 a.m. The Defense Perspective on Defending Drug Delivery Resulting in Death
Christopher Young, JD

10:15 a.m. - 10:40 a.m. Break

10:40 a.m. - 11:15 a.m. A Forensic Pathologist Perspective on Determination of the Role of Specific Drugs in Complex Drug Toxicity Cases
Gregory G. Davis, MD

11:15 a.m. - 11:50 a.m. Toxicological Considerations in Determining the Role of Specific Drugs in Complex Drug Toxicity Cases
Barry K. Logan, PhD

11:50 a.m. - 12:00 p.m. Panel Discussion
M.J. Menendez, JD; Gregory G. Davis, MD; Michael J. Hunter, JD; Barry K. Logan, PhD; Christopher Young, JD
W2  Statistical Learning Algorithms for Forensic Scientists

Monday

February 17, 2020    8:30 a.m. – 12:15 p.m.                     3.25 CE Hours

Learning Overview: The goals of this workshop are to: (1) introduce attendees to the basics of supervised learning algorithms in the context of forensic applications, including firearms and footwear examination and trace evidence, while placing emphasis on classification trees, random forests, and, time permitting, neural networks; (2) introduce the concept of a similarity score to quantify the similarity between two items; (3) show how learning algorithms can be trained to classify objects into pre-determined classes; (4) discuss limitations of Machine Learning (ML) algorithms and introduce methods for assessing their performance; and (5) discuss the concept of a Score-based Likelihood Ratio (SLR): computation, advantages, and limitations.

Impact on the Forensic Science Community: The use of learning algorithms will increase as measurement of features in various types of evidence improve. This is particularly true in the case of pattern evidence. Forensic scientists will greatly benefit from understanding the basic ideas that underpin statistical learning since these types of methods have already been proposed for firearms examination, fingerprints, glass comparison, and shoe print evidence. Most quantitative training for forensic scientists emphasize classical statistical ideas, so a workshop in which forensic practitioners are exposed to learning algorithms is novel and timely.

Chair:

Ames, IA

Targeted Audience: Criminalistics, Engineering & Applied Sciences, General, Questioned Documents

Knowledge Level Required: Basic (little to no knowledge of subject presented)

Expected Handout Length: 40 pages
**Program Description:** Learning algorithms is becoming a useful tool to evaluate and interpret evidence. This workshop will discuss some of the more popular types of algorithms and their application in different forensic disciplines and explain some of their limitations.

**Program:**

W3 Recent Advances in Understanding Fire Pattern Production

Monday
February 17, 2020 8:30 a.m. – 12:15 p.m. 3.5 CE Hours

Learning Overview: After attending this workshop, attendees will have an appreciation not only for the difficulty in determining the origin of a fully involved fire, but also some of the solutions to the problem resulting from recent full-scale fire experiments performed at Underwriters Laboratories (UL). The outcome of the research emphasizes the point that “If you don’t understand the ventilation, you won’t understand the fire.”

Impact on the Forensic Science Community: This workshop will impact the forensic science community by providing investigators with the tools they need to understand and correctly interpret fire patterns and use that interpretation to find the fire’s origin. In the past decade, the validity of fire origin determination has been called into question because sometimes investigators have been misled by ventilation-generated patterns.

Chair:

Targeted Audience: Criminalistics, Engineering & Applied Sciences, General
Knowledge Level Required: Intermediate (some knowledge of subject presented)
Expected Handout Length: 400 pages

Program Description: Presenters will discuss the results of two years of full-scale fire tests on two full-sized test structures conducted at UL. The results will help investigators avoid mistakes that have been documented in the past decade and arrive at the correct interpretation of post-fire artifacts. Attendees will learn how to access a freely available interactive web portal so as to allow experimental results to be compared with real-world fires.

W4  The Impact of the 2018 Farm Bill on the Forensic Analysis of Cannabis

Monday
February 17, 2020  8:30 a.m. – 12:30 p.m.  3.5 CE Hours

Learning Overview: After attending this presentation, attendees will understand the legal and forensic landscape of marihuana/hemp analysis and also understand a validated analytical approach that meets these new requirements.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by providing a framework for meeting the forensic requirements of the 2018 Farm Bill.

Chair: Richard P. Meyers, MSFS

**Targeted Audience:** Criminalistics, Pathology/Biology, Psychiatry & Behavioral Science

**Knowledge Level Required:** Intermediate (some knowledge of subject presented)

**Expected Handout Length:** 300 pages
Program Description: The workshop speakers will debate from different points of view the psychopathology of men and women who kill; the psychopathology of men and women of criminal organizations, such as the Sicilian mafia; combined homicide suicide; the Not Guilty by Reason of Insanity (NGRI) killers: a national sample; forensic psychiatric evaluations of defendants in homicide cases: literature analysis and forensic cases; and treatment outcomes following a killing conviction. Several general pathologists will speak on topics that pertain to the killer's mental state from the perspective of forensic pathology and the investigation of homicide. The criminological and psychiatric data from a multicenter national Italian sample of forensic psychiatric patients will be also discussed.

Program:

8:30 a.m. - 9:00 a.m.  The Underpinnings of Combined Homicide-Suicide
                      Alan R. Felthous, MD

9:00 a.m. - 9:30 a.m.  The Psychopathology of Men and Women Who Kill
                      Felice F. Carabellese, MD

9:30 a.m. - 10:00 a.m. The Killer's Mental State From the Perspective of Forensic Pathology
                       Giancarlo Di Vella, MD, PhD

10:00 a.m. - 10:30 a.m. The Role of the Forensic Pathologist in Serial Homicides
                        Carlo P. Campobasso, MD, PhD

10:30 a.m. - 11:00 a.m. Break

11:00 a.m. - 11:30 a.m. Treatment Outcomes Following Conviction for Homicide
                        Ilaria Rossetto, PhD

11:30 a.m. - 12:00 p.m. Investigation of Homicide
                         Silvia Trotta

12:00 p.m. - 12:30 p.m. Forensic Psychiatric Evaluation of Defendants in Homicide Cases: A Literature Review and Analysis of Preliminary Data From a Multicenter Italian Study
                         Gabriele Mandarelli, MD, PhD
W6 High-Impact Practices in Forensic Science Education

Monday

February 17, 2020  8:30 a.m. – 4:15 p.m.  6.25 CE Hours

Learning Overview: After attending this presentation, attendees will learn how high-impact practices can be used in forensic science education and discover how to adapt their courses using common programing for students by: (1) identifying and describing a variety of high-impact practices; (2) recognizing useful high-impact practices dependent on the environment; and (3) discovering innovative high-impact practices that could be incorporated into their classroom.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by exploring a variety of high-impact practices and gaining insight into a broader scope of common methods useful in forensic science teaching. By discussing multiple types of high-impact practice techniques and the application of these practices in forensic science education, attendees will be able to incorporate tools into their forensic science classrooms and programs.

Targeted Audience: All disciplines
Knowledge Level Required: Basic (little to no knowledge of subject presented)
Expected Handout Length: 100 pages
Program Description: A variety of high-impact practice methods currently in use in various forensic science education programs will be shared. These methods will include first-year experiences, living-learning communities, field trips, community-focused projects, casework and scholarly research, project-based learning courses, and the student transformative learning record. Each discussion will include real-life examples of how the high-impact practice method is implemented within the curriculum or program. Due to the requirement of these types of high-impact practices for Forensic Science Education Programs Accreditation Commission (FEPAC) accreditation, there will be a discussion of the importance of these practices within forensic science education and how the standards can be achieved in multiples ways. Attendees will learn how to apply these methods toward any discipline or program.

Program:

8:30 a.m. - 8:45 a.m.  Welcome and Introduction to the Council of Forensic Science Educators (COFSE)
Gina Londino-Smolar, MS

8:45 a.m. - 9:15 a.m.  FEPAC—The Importance of High-Impact Practices in Forensic Science Education
Dwight E. Adams, PhD

9:15 a.m. - 10:00 a.m.  First-Year Experience
Uzoma A. Okafor, PhD

10:00 a.m. - 10:15 a.m.  Break

10:15 a.m. - 11:00 a.m.  Living Learning Communities—Bridging the Student Engagement Gap
Caitlin E. Porterfield, MS

11:00 a.m. - 11:45 a.m.  Success and Support for Students, Administration, and Accreditation Bodies—Field Trips in Forensic Science
Joseph Levi White, MS; Dean J. Bertram, PhD

11:45 a.m. - 12:30 p.m.  Community-Focused Case Practicum
Amy N. Brodeur, MFS

12:30 p.m. - 1:30 p.m.  Lunch

1:30 p.m. - 2:15 p.m.  Casework and Scholarly Research in Forensic Education
Carraugh Reilly Nowak, MFS

2:15 p.m. - 3:00 p.m.  Encouraging Creativity in Project-Based Learning Assignments
Douglas A. Ridolfi, MS

3:00 p.m. - 3:15 p.m.  Break

3:15 p.m. - 4:00 p.m.  Capturing Beyond Discipline Knowledge With the Student Transformative Learning Record

W7 New Advances in Forensic Human Identification: Issues and Approaches

Monday

February 17, 2020  8:30 a.m. – 4:45 p.m.  6.75 CE Hours

**Learning Overview:** After attending this presentation, attendees will have a heightened understanding of: (1) the factors affecting human identification; and (2) how the application of new, innovative, and cross-disciplinary techniques have the potential to overcome these issues, which will be detailed through case examples.

**Impact on the Forensic Science Community:** This presentation will impact the forensic science community through the presentation of multidisciplinary approaches toward human identification, pointing out the novel techniques suitable for this purpose, encouraging collaboration and innovation among different forensic specialties to document and to integrate several lines of evidence.

**Chair:**
Sara C. Zapico, PhD  Florida International University  International Forensic Research Institute  Miami, FL

**Faculty:**
Joe Adserias-Garriga, DDS, PhD  Texas State University  Forensic Anthropology Department  San Marcos, TX

Josep De Alcaraz-Fossoul, PhD  University of New Haven  College of Criminal Justice & Forensic Sciences  West Haven, CT

Leslie E. Fitzpatrick, PhD  Mercyhurst University  Department of Applied Forensic Sciences  Erie, PA

**Co-Chair:**
Sarah Ellingham, PhD  International Committee of the Red Cross  IRAQ

Alexander S. Forrest, FFOMP  Queensland Forensic and Scientific Services  Forensic Pathology Department  Coopers Plain, Queensland, AUSTRALIA

Roberto C. Parra, MA  Lima, PERU

Douglas H. Ubelaker, PhD  Smithsonian Institution  Department of Anthropology  Washington, DC

**Targeted Audience:** Anthropology, Criminalistics, Engineering & Applied Sciences, General, Odontology, Pathology/Biology

**Knowledge Level Required:** Intermediate (some knowledge of subject presented)

**Expected Handout Length:** 50 pages
W7 New Advances in Forensic Human Identification: Issues and Approaches

Program Description: This workshop will demonstrate how awareness of the problems faced with human identification, thinking outside the box, and applying and integrating new techniques with traditional procedures are essential to facilitate the correct identification of the victims.

Program:

8:30 a.m. - 8:45 a.m.  Introduction  
Sara C. Zapico, PhD; Sarah Ellingham, PhD; Joe Adserias-Garriga, DDS, PhD; Douglas H. Ubelaker, PhD; Roberto C. Parra, MA; Josep De Alcaraz-Fossoul, PhD; Leslie E. Fitzpatrick, PhD; Alexander S. Forrest, FFOMP

8:45 a.m. - 9:45 a.m.  Identification Issues in Forensic Anthropology: A Case Discussion  
Douglas H. Ubelaker, PhD

9:45 a.m. - 10:30 a.m.  Forensic Radiocarbon Analysis  
Roberto C. Parra, MA

10:30 a.m. - 10:45 a.m.  Break

10:45 a.m. - 11:30 a.m.  Postmortem Interval (PMI) Estimation Throughout Thanatomiobiofilm Analysis  
Joe Adserias-Garriga, DDS, PhD

11:30 a.m. - 12:15 p.m.  The Aging of Fingerprints  
Josep De Alcaraz-Fossoul, PhD

12:15 p.m. - 1:15 p.m.  Lunch

1:15 p.m. - 2:00 p.m.  Stable Isotope Fundamentals  
Leslie E. Fitzpatrick, PhD

2:00 p.m. - 2:45 p.m.  Forensic DNA Phenotyping  
Sara C. Zapico, PhD

2:45 p.m. - 3:00 p.m.  Break

3:00 p.m. - 3:45 p.m.  Presenting a Positive Image  
Alexander S. Forrest, FFOMP

3:45 p.m. - 4:30 p.m.  The Documentation and Disposition of Unidentified Human Remains  
Sarah Ellingham, PhD

4:30 p.m. - 4:45 p.m.  Questions & Closing Remarks  
Sara C. Zapico, PhD; Sarah Ellingham, PhD; Joe Adserias-Garriga, DDS, PhD; Douglas H. Ubelaker, PhD; Roberto C. Parra, MA; Josep De Alcaraz-Fossoul, PhD; Leslie E. Fitzpatrick, PhD; Alexander S. Forrest, FFOMP
WORKSHOPS

W8 Death Investigations in the Military: Case Studies From Around the World

Monday

February 17, 2020  8:30 a.m. – 5:00 p.m.  6.75 CE Hours

Learning Overview: After attending this presentation, attendees will understand: (1) processing a variety of death scenes; (2) forensic capabilities of military investigators; (3) investigative considerations in foreign countries; (4) coordination with international agencies; (5) domestic violence impact on child death; (6) staged suicide; (7) scene reconstruction; and (8) laboratory capabilities.

Impact on the Forensic Science Community: This presentation will impact the forensic science community through detailed accounts of a variety of death investigations as described by Army Special Agents who participated in the cases. The investigations represent various circumstances and illustrate the worldwide capabilities and responsibilities of military investigative agencies, along with legal and laboratory support.

Chair:
Steven Geniuk, MS
United States Army Military Police School
Forensic Science Training Facility
Fort Leonard Wood, MO

Faculty:
Joshua L. Adams, PhD
United States Army Criminal Investigation Command
Fort Myer, VA

Adam C. Armstrong, MS
United States Army Criminal Investigation Command
Fort Bragg, NC

Arthur S. Chancellor, MA
Angier, NC

Sarah N. Crosby, MS
United States Army Criminal Investigation Command
Arlington, VA

Armando B. Dela Rosa, Jr., MA
United States Army Criminal Investigation Command
Quantico, VA

Co-Chair:
Precious JeanBatiste, MS
United States Army Criminal Investigation Command
Fort Meade, MD

Donald Hayden, MFS
Waynesville, MO

Derek J. Kingsbury, MBA
United States Army Criminal Investigation Command
Joint Base Lewis-McChord, WA

Keith M. McCullen, MFS
Black River, NY

Vanessa R. Neff, MS
United States Army Criminal Investigation Command
Fort Hood, TX

Scott Roeske, MFS
Fort Sill, OK

Edmund D. Tamburini, MFS
McDonough, GA

Targeted Audience: Criminalistics, General, Jurisprudence, Pathology/Biology, Psychiatry & Behavioral Science

Knowledge Level Required: Intermediate (some knowledge of subject presented)

Expected Handout Length: 120 pages
**Program Description:** Investigators from the United States Army Criminal Investigation Division specializing in forensic science will present seven case studies illustrating a wide variety of death investigations spanning the globe. Additionally, a representative from the Army’s Judge Advocate General (JAG) Corps will provide an overview of the military criminal justice system. The United States military crime lab representatives will share their expeditionary capabilities in support of Department Of Defense investigations worldwide.

W9     Interpersonal Violence and Elder Abuse: Maltreatment That Crosses All Borders

Monday

February 17, 2020     8:30 a.m. – 5:00 p.m.     7.0 CE Hours

Learning Overview: After attending this presentation, attendees will be able to identify multiple forms of abuse and mistreatment, recognize the impact of abuse across the lifespan, and specify key points for the prosecution of abusers.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by broadening the education of those working with victims of violence. This presentation will enhance not only the ability to intervene in maltreatment but to prosecute the abuser.

Chair:
Amy Y. Carney, PhD
California State University San Marcos
San Marcos, CA

Faculty:
Rachell A. Ekroos, PhD
Center for Forensic Nursing Excellence International
Las Vegas, NV

Diana K. Faugno, MSN
Dallas, GA

Debra Holbrook, MSN
Academy of Forensic Nursing
Baltimore, MD

Stacey A. Mitchell, DNP
Texas A&M University
Bryan, TX

Co-Chair:
Patricia M. Speck, DNSc
Hoover, AL

Kathleen S. Thimens, DNP
Barnes Jewish College, Goldfarb School of Nursing
Saint Louis, MO

David A. Williams, DDS
Randallstown, MD

Joyce P. Williams, DNP
Randallstown, MD

Targeted Audience: General
Knowledge Level Required: Basic (little to no knowledge of subject presented)
Expected Handout Length: 50 pages
**Program Description:** This presentation will provide attendees the tools and information they need to identify and intervene in interpersonal violence and elder abuse in their communities. Maltreatment across the lifespan will be addressed, with clear and concise case studies and examples that attendees will be able to use to broaden their understanding of the impact of violence on all age groups. Topics include forensic markers of abuse, wound identification, documentation of abuse, working with victims of violence, and evidence collection that leads to successful arrest and prosecution of perpetrators of abuse.

**Workshops**

**Pre-Registration Required — $200 w/registration; $250 workshop only**

W10  The Investigation and Analysis of Health Care Serial Killers

Monday
February 17, 2020  8:30 a.m. – 5:00 p.m.  7.0 CE Hours

**Learning Overview:** After attending this presentation, attendees will: (1) state the different motivations of health care serial killers; (2) understand some of the challenges associated with analytical testing and result interpretation; (3) list the agents that have been used in medical killings and describe their mechanism of action; and (4) understand how to best prepare for case presentation in a legal proceeding.

**Impact on the Forensic Science Community:** This presentation will impact the forensic science community by providing a multidisciplinary approach to understanding, identifying, and investigating health care serial killers.

**Targeted Audience:** Jurisprudence; Psychiatry & Behavioral Science; Toxicology

**Knowledge Level Required:** Basic (little to no knowledge of subject presented)

**Expected Handout Length:** 100 pages

**Supported By:** NMS Labs, Inc
Program Description: The health care serial killer is a unique type of criminal offender who is employed as a medical provider and intentionally ends the life of a person under their care. The motivations to kill are varied, but include ending the suffering of a patient who unlikely will recover, minimizing the emotional toll of the relatives, achieving recognition from their colleagues by accomplishing life-saving resuscitation measures, and exerting dominance over a weaker individual.

These cases are challenging to recognize as they typically occur over an extended period of time, involve different care facilities, and include patients who are severely ill and/or have a terminal diagnosis. Toxicology testing may not include the administered substance or interpretation is confounded due to variables such as analyte instability and the poor health status of the patient. Instead, identification and investigations tend to occur when a correlation between a care provider’s presence and a cluster of deaths is observed.

WORKSHOPS

Pre-Registration Required — $250 w/registration; $300 workshop only
W11 The Native American Graves Protection and Repatriation Act (NAGPRA) and the Medicolegal System: Legal, Practical, and Ethical Considerations for Practitioners

Monday
February 17, 2020 8:30 a.m. – 5:15 p.m. 7.25 CE Hours

Learning Overview: After attending this presentation, attendees will: (1) better understand NAGPRA and how it applies to Medical Examiner/Coroner (ME/C) offices that come into possession of non-forensic Native American remains; (2) learn the legal responsibilities necessary to be compliant with the federal law and understand when and how NAGPRA-compliant protocols should be followed; (3) learn how to complete each step of the NAGPRA process, including what types of evidence are used to determine cultural affiliation; and (4) learn best practices for communicating with tribes.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by providing attendees with an understanding of why and how the federal NAGPRA law applies to the medicolegal system when non-forensic Native American remains are submitted to ME/C offices and the possible repercussions for non-compliance. NAGPRA governs the treatment and disposition of Native American remains in any state office that receives federal funding and provides a legal pathway for Native Americans to claim and repatriate the remains of their ancestors. As ME/C offices receive federal funding by the distribution of these funds through the state to local government agencies and are often in the possession of non-forensic Native American remains, they fall within the legal purview of the law.

Chair:
Megan K. Kleeschulte, MA
University of Tennessee, Knoxville
Knoxville, TN

Co-Chair:
Amy Z. Mundorff, PhD
University of Tennessee, Knoxville
Knoxville, TN

Faculty:
Bruce E. Anderson, PhD
Pima County Office of the Medical Examiner
Forensic Science Center
Tucson, AZ

Ellen Lofaro, PhD
University of Tennessee, Knoxville
Knoxville, TN

Targeted Audience: Anthropology, General, Jurisprudence, Pathology/Biology
Knowledge Level Required: Basic (little to no knowledge of subject presented)
Expected Handout Length: 50 pages

Program Description: This workshop provides training on the application and protocols of NAGPRA for the medicolegal system. ME/C offices have been identified as systems that legally fall under the definition of museum as it is employed in NAGPRA and, therefore, are required to comply with the law’s mandates. This workshop will cover the history leading to the passage of NAGPRA and will provide an in-depth discussion of the definitions included in the law and how they apply to the medicolegal system. This session will also provide hands-on training on how to determine whether your office is in possession or control of Native American remains, how to initiate consultation with tribes, what evidence should be used for making cultural affiliation determinations, how to fill out notice of inventory completion templates, how notices get published on the federal register, and how to facilitate the final physical transfer of remains when control of claimed remains transfers to claimant tribes. This hands-on training will be accomplished using different scenarios that mimic the various contextual situations practitioners may encounter regarding Native American remains.
W11  The Native American Graves Protection and Repatriation Act (NAGPRA) and the Medicolegal System: Legal, Practical, and Ethical Considerations for Practitioners

Program:

8:30 a.m. - 8:40 a.m.  Welcome and Introduction  
Megan K. Kleeschulte, MA

8:40 a.m. - 9:40 a.m.  History Leading to the Passage of NAGPRA  
Ellen Lofaro, PhD

9:40 a.m. - 10:30 a.m.  The Law: Stipulations, Definitions, and Terminology  
Megan K. Kleeschulte, MA

10:30 a.m. - 10:45 a.m.  Break

10:45 a.m. - 11:15 a.m.  Determining Forensic vs. Non-Forensic Significance  
Bruce E. Anderson, PhD

11:15 a.m. - 12:00 p.m.  Distinguishing Native American Remains From Other Groups  
Bruce E. Anderson, PhD

12:00 p.m. - 1:00 p.m.  Lunch

1:00 p.m. - 2:00 p.m.  The NAGPRA Process: A Step-by-Step Review of Compliant Protocols  
Megan K. Kleeschulte, MA; Ellen Lofaro, PhD

2:00 p.m. - 2:30 p.m.  The Pima County Office of the Medical Examiner: A Case Study  
Megan K. Kleeschulte, MA; Bruce E. Anderson, PhD

2:30 p.m. - 2:45 p.m.  Break

2:45 p.m. - 5:15 p.m.  Mock Scenarios

W12  KidStats: Improving the Subadult Biological Profile

Monday

February 17, 2020  8:30 a.m. – 5:15 p.m.  7.25 CE Hours

Learning Overview: After attending this workshop, attendees will be trained on the most up-to-date techniques to estimate subadult age and sex and on KidStats, a freely available web-based graphical user interface.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by providing attendees with applied experience in collecting subadult data from 3D printed remains of individuals between birth and 15 years and the application of these data in a statistical framework.

Chair:
Kyra E. Stull, PhD
University of Nevada, Reno
Department of Anthropology
Reno, NV

Faculty:
Louise K. Corron, PhD
University of Nevada, Reno
Department of Anthropology
Reno, NV

Alexandra R. Klales, PhD
Washburn University
Forensic Anthropology Program
Topeka, KS

Co-Chair:
Heather M. Garvin, PhD
Des Moines University
Department of Anatomy
Des Moines, IA

Michael H. Price, PhD
Santa Fe Institute
Santa Fe, NM

Targeted Audience: Anthropology

Knowledge Level Required: Intermediate (some knowledge of subject presented)

Expected Handout Length: 25 pages

Restricted Audience Size: 30
Program Description: Forensic anthropological research is generally less focused on the subadult biological profile, mainly because of the difficulty in accessing skeletal samples to develop techniques. Subsequently, methods development to estimate subadult parameters of the biological profile (e.g., age, sex, and stature) is lacking. A large sample of postmortem computed tomography images of children between birth and 20 years (~1,100) allowed for the development and validation of age and sex estimation techniques using a contemporary subadult sample. This workshop will provide information on the statistics that went into the development of these models and hands-on opportunities with 3D printed skeletal elements of individuals from the sample allowing for a direct opportunity to collect age and sex indicators. The workshop participants will also work with KidStats, a freely available graphical user interface allowing practitioners all around the world to estimate the age of children based on the age indicators collected.

Program:

8:30 a.m. - 9:00 a.m. Welcome and Introduction
Kyra E. Stull, PhD

9:00 a.m. - 9:15 a.m. The Subadult Study Sample
Kyra E. Stull, PhD

9:15 a.m. - 10:15 a.m. Discussing Landmark Placement, Protocol Development, and Reliability of Indicators
Heather M. Garvin, PhD; Alexandra R. Klales, PhD; Louise K. Corron, PhD

10:15 a.m. - 10:45 a.m. Subadult Sex Estimation (Pelvis)
Heather M. Garvin, PhD; Alexandra R. Klales, PhD

10:45 a.m. - 11:00 a.m. Break

11:00 a.m. - 11:30 a.m. Subadult Sex Estimation (Pelvis and Long Bones)
Kyra E. Stull, PhD

11:30 a.m. - 12:00 p.m. Stature and Body Mass Estimation
Heather M. Garvin, PhD

12:00 p.m. - 1:00 p.m. Lunch

1:00 p.m. - 2:30 p.m. Subadult Age Estimation and Development of Mixed Cumulative Probit (MCP)
Michael H. Price, PhD; Kyra E. Stull, PhD

2:30 p.m. - 2:45 p.m. Break

2:45 p.m. - 4:45 p.m. Hands-On With 3D Printed Subadult Material
Kyra E. Stull, PhD; Heather M. Garvin, PhD; Alexandra R. Klales, PhD; Louise K. Corron, PhD

4:45 p.m. - 5:15 p.m. Concluding Remarks
Kyra E. Stull, PhD

W13  A Primer on Multidisciplinary Investigations of Pediatric Injuries and Deaths

Monday

February 17, 2020  8:30 a.m. – 5:30 p.m.  7.25 CE Hours

Learning Overview: Attendees will be able to demonstrate the ability to analyze and evaluate available data in a pediatric death or injury case to formulate a viable hypothesis regarding the actual mechanism of the pathology in question. After attending this presentation, attendees will be better able to differentiate and implement effective investigative techniques from lesser alternatives.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by exposing practitioners to an effective multidisciplinary team approach to prospectively work through investigations as they progress to a conclusion.

Chair:
J.C.U. Downs, MD
forensX, LLC
Savannah, GA

Co-Chair:
Joanna L. Collins, MFS
LINUS Investigations & Consulting
San Antonio, TX

Faculty:
Bonnie Armstrong, BS
The Shaken Baby Alliance
Boyd, TX

Robert N. Parrish, JD
Salt Lake County District Attorney’s Office
Salt Lake City, UT

Targeted Audience: Criminalistics, General, Jurisprudence, Odontology, Pathology/Biology, Toxicology

Knowledge Level Required: Intermediate (some knowledge of subject presented)

Expected Handout Length: 100 pages

Program Description: This workshop will teach investigators, physicians, scientists, attorneys, and others working on child deaths and injuries how to objectively and effectively gather, analyze, and appraise evidence in cases of pediatric injury and/or death

Proceeds from this workshop will benefit the Forensic Sciences Foundation, Inc.
W13  A Primer on Multidisciplinary Investigations of Pediatric Injuries and Deaths

Program:

8:30 a.m. - 8:45 a.m.  Introduction, Objectives, and Purpose
                      J.C.U. Downs, MD; Bonnie Armstrong, BS

8:45 a.m. - 9:45 a.m.  Overview of Medical Aspects of Child Physical Abuse
                      J.C.U. Downs, MD

9:45 a.m. - 10:00 a.m. Break

10:00 a.m. - 11:15 a.m. Forensic Investigative Techniques
                        Bonnie Armstrong, BS

11:15 a.m. - 11:45 a.m. Interviews in Child Physical Abuse and Neglect: The Devil is in the Details—Part 1
                        Bonnie Armstrong, BS; Robert N. Parrish, JD

11:45 a.m. - 12:45 p.m. Lunch

12:45 p.m. - 1:45 p.m.  Interviews in Child Physical Abuse and Neglect: The Devil is in the Details—Part 2
                        Bonnie Armstrong, BS; Robert N. Parrish, JD

1:45 p.m. - 2:15 p.m.  Timeline Development—Part 1
                        Bonnie Armstrong, BS

2:15 p.m. - 2:30 p.m.  Break

W14  Mass Disasters and Disaster Victim Identification (DVI)

Monday
February 17, 2020    8:30 a.m. – 5:30 p.m.      7.25 CE Hours

Learning Overview: After attending this presentation, attendees will be able to: (1) understand the historical background of DVI; (2) recognize the need for standards and best practices; (3) understand the integrated contributions of the various forensic sciences to DVI; and (4) understand the critical relationship of the Victim Information Center to the identification process.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by providing attendees with an understanding of the current state of mass fatality victim identification as it exists in the United States. Presentations will encompass the breadth of the forensic sciences, including ethical considerations and the role of the Victim Information Center in mass fatality identifications.

Cynthia Gavin, PhD
Parkville, MD

Targeted Audience: Anthropology, Criminalistics, General, Jurisprudence, Odontology, Pathology/Biology

Knowledge Level Required: Basic (little to no knowledge of subject presented)

Expected Handout Length: 275 pages

Program Description: DVI is the comprehensive process of human identification as applied to mass fatality events. Although by definition a mass fatality event is any situation that overwhelms local resources, we generally think of a situation is which identification is hampered by the event and recovery process. Human remains that have been badly traumatized, heavily decomposed, or recovered outside of their normal context are examples that fit this description. In response to the 2009 National Academy of Sciences (NAS) Report, a movement to create standards within the forensic sciences was started. DVI was included and the creation of standards and best practices within the field are ongoing. DVI is the concerted and combined efforts of dedicated scientists, specialists, and governmental and private agencies. It is practiced under far-less-than-perfect conditions under circumstances that are often politically and culturally charged.
WORKSHOPS

Pre-Registration Required — $200 w/registration; $250 workshop only

W14 Mass Disasters and Disaster Victim Identification (DVI)

Program:

8:30 a.m. - 8:45 a.m.  Welcome and Introduction  
John A. Williams, PhD

8:45 a.m. - 9:15 a.m.  Historical Considerations in DVI  
Victor W. Weedn, MD, JD

9:15 a.m. - 10:15 a.m.  The Case for Standards  
Jason M. Wiersema, PhD

10:15 a.m. - 10:45 a.m.  Public and Private Agencies in DVI  
John A. Williams, PhD

10:45 a.m. - 11:00 a.m.  Break

11:00 a.m. - 11:45 a.m.  The Role of the Forensic Sciences in DVI  
Anthony B. Falsetti, PhD

11:45 a.m. - 12:30 p.m.  Odontology and DVI  
Kenneth W. Aschheim, DDS

12:30 p.m. - 1:30 p.m.  Lunch

1:30 p.m. - 2:00 p.m.  Fingerprint Identification  
Bryan Johnson, MSFS

2:00 p.m. - 3:00 p.m.  DNA Identification  
Mark J. Wadhams, MS

3:15 p.m. - 4:00 p.m.  The Victim Identification Center  
Jason H. Byrd, PhD

4:00 p.m. - 4:30 p.m.  Ethical Considerations in DVI  
Victor W. Weedn, MD, JD

4:30 p.m. - 5:15 p.m.  DVI in the 21st Century  
Cynthia Gavin, PhD

5:15 p.m. - 5:30 p.m.  Concluding Comments  
John A. Williams, PhD
**W15**  
**Dementia Workup for Forensic Pathologists Following a Condensed National Institute on Aging-Alzheimer’s Association (NIA-AA) Protocol**

**Tuesday**

February 18, 2020 8:30 a.m. – 12:00 p.m.  
3.25 CE Hours

**Learning Overview:** After attending this presentations, attendees will: (1) become familiar with the diagnostic workup and grading schemes for common classes of dementia; (2) be able to accurately identify and sample appropriate regions of the brain according to the Condensed Protocol for dementia workup; and (3) understand the benefits and limitations of the Condensed and NIA-AA Protocols for dementia workup.

**Impact on the Forensic Science Community:** This presentation will impact the forensic science community by presenting a method that reduces the cost of histopathologic dementia workup while maintaining diagnostic performance.

**Chair:**  
Nicole A. Yarid, MD  
King County Medical Examiner's Office

W16 Forensic Multimedia Authentication: Real-Life Challenges

Tuesday

February 18, 2020  8:30 a.m. – 12:00 p.m.  3.0 CE Hours

**Learning Overview:** After attending this workshop, attendees will: (1) become familiar with the latest developments in forensic video and audio authentication, enhancement, and restoration; (2) understand criteria used for media authentication; (3) understand how to conduct analysis within a forensic framework; and (4) explore the latest technologies in the generation of synthetic imagery, including deepfakes, face2face, and others.

**Impact on the Forensic Science Community:** This workshop will impact the forensic community by: (1) explaining the scientific approach in forensic media authentication, enhancement, and restoration; (2) demonstrating an authentication investigation framework; and (3) discussing tools used to create and combat multimedia forgery.

**Chair:**
Zeno J. Geradts, PhD

**Targeted Audience:** Digital & Multimedia Sciences

**Knowledge Level Required:** Intermediate (some knowledge of subject presented)

**Expected Handout Length:** 250 Pages
W16 Forensic Multimedia Authentication: Real-Life Challenges

Program Description: This workshop on the impact of emerging technologies on multimedia forensics will examine the new and emerging technologies affecting multimedia forensics today and over the coming decades. The information shared during the workshop is from academics, researchers, and practitioners currently working and researching in these new technology areas. Participants will be informed of the latest developments in forensic video and audio authentication, enhancement, and restoration. This includes the latest technologies in the generation of synthetic imagery, including deepfakes, face2face, and others. This workshop assembles an experienced group of people impacting the world of multimedia forensics on a variety of topics.

Program:

8:30 a.m. - 9:00 a.m. Video DeepFakes, Face2Face, and FaceSwap
                Jeff M. Smith, MS

9:00 a.m. - 9:30 a.m. Adaptive 3D Face Models for Denoising, Deblurring, and Superresolution of Human Faces in Closed-Circuit Television (CCTV)
                       Leonid I. Rudin, PhD

9:30 a.m. - 9:45 a.m. Break

9:45 a.m. - 10:15 a.m. DeepFake and Video Authentication
                        Zeno J. Geradts, PhD

10:15 a.m. - 10:45 a.m. Video Authentication Framework
                         Gregory S. Wales, MS

10:45 a.m. - 11:00 a.m. Break

11:00 a.m. - 11:30 a.m. Audio Authentication
                         Catalin Grigoras, PhD

11:30 a.m. - 12:00 p.m. Deepvoice
                         Catalin Grigoras, PhD
WORKSHOPS

W17 The Murder of Women: A Global Issue That Demands Action

Tuesday
February 18, 2020 8:30 a.m. – 12:00 p.m. 3.0 CE Hours

Learning Overview: After attending this presentation, attendees will understand and recognize how discrimination against women prevails throughout the world, and how violence against women, a serious violation of human rights, is the most severe consequence of such discrimination. The Inter-American Court of Human Rights defined femicide as “the murder of women by gender” considering that these deaths result from structural and social attitudes, rooted in a culture of gender-based violence and discrimination. Acts of violence against women based on their status as women demand the serious and specific attention of the international community.

Attendees will become more aware of the various types of violence that are manifested in many ways. Most victims are raped and many are mutilated, tortured, or dismembered. Femicide is a complex phenomenon, ranging from the murder of women by their partners or ex-partners, to their kidnapping followed by rape and subsequent killing committed by unknown perpetrators, to ritual crimes performed by sects or other groups.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by empowering attendees to understand that it is an obligation of the United States to prevent and eradicate femicide and to adopt administrative, legislative, and judicial measures to prohibit gender discrimination. States must ensure the exercise of the rights of women and pursue, by all appropriate means and without delay, policies that prevent, punish, and eradicate violence against women. States have the obligation to standardize all their protocols and manuals; to update their research criteria; and to restructure the administration of justice related to investigate disappearances, sexual violence, and murder of women. These measures have implications not only for the United States, but also for other systems of human rights protection, such as the European Court of Human Rights. After implementation of various policies addressing this crucial issue, states should be held responsible for lack of diligence in investigations, lack of access to justice for the families of the victims, and therefore for the impunity of the perpetrators. To sum up, states are responsible for taking the necessary steps to ensure a life free of violence for women.

Piscataway, NJ

Targeted Audience: Criminalistics, Jurisprudence, Pathology/Biology, Psychiatry & Behavioral Science

Knowledge Level Required: Basic (little to no knowledge of subject presented)

Expected Handout Length: 30 Pages
Program Description: This workshop will show how to monitor the issue of femicide in the future and what types of data and information will be used. Scientists think it reasonable to create scientifically based monitoring with a proper strategy together with all national and international partners. Such a structure must promote the creation of comparable national databases, while also systematically involving existing international systems of data collection and their experience. It became very clear, during research, that the collection of police data alone would not be sufficient for analyzing the cases in the detail needed for prevention and intervention. Therefore, many countries have adopted the strategy of collecting information on all the cases known to the media and collating it with the criminological data and—insofar as is possible—data recorded by health and support systems. This strategy makes it possible to obtain more background information on femicides, which is important for future prevention and early interventions. In order to stabilize the collection of data and information at the European level, it is important to publicly finance work resources at the national level in order to create and continuously update national databases in a way that makes international comparison possible. Furthermore, a scientifically based monitoring body must coordinate data collection and supply it to joint databases. Only in this way will it be possible, in the long-term, to create a bigger pool of data that allows deeper analysis and prevention of the problem at the European, American, and international level.

Program:

8:30 a.m. - 8:40 a.m. Welcome
Vivian Chern Shnaidman, MD; Cinzia Gimelli, PsyD, PhD; Luciano Garofano, PhD

8:40 a.m. - 9:00 a.m. An Introduction to Femicide: A Cross Psycho-Social Problem of Global Entity—Italian and United States Data
Cinzia Gimelli, PsyD, PhD; Ariel V. Tabachnik, BS

9:00 a.m. - 10:00 a.m. New Forms of Cyber-Mediated Gender-Based Violence
Ariel V. Tabachnik, BS

10:00 a.m. - 10:15 a.m. Break

10:15 a.m. - 10:37 a.m. Italian and United States Laws and Their Effects on the Phenomenon Over the Years
Luciano Garofano, PhD; Vivian Chern Shnaidman, MD; Cinzia Gimelli, PsyD, PhD

W18 Injury Biomechanics: An Interdisciplinary Approach and Forensic Applications

Tuesday

February 18, 2020    8:30 a.m. – 12:30 p.m.       3.5 CE Hours

Learning Overview: After attending this workshop, attendees will comprehend the advantages of using an interdisciplinary team to address questions concerning injury biomechanics and associated trauma analysis. Attendees will be exposed to the applications of injury biomechanics across multiple scientific disciplines through presentations and hands-on experiences. Additionally, attendees will be introduced to the value of experimental testing in developing and validating forensic methods of injury analysis and the importance of scientific validity and error rates.

Impact on the Forensic Science Community: This workshop will impact the forensic science community by providing attendees with an introduction to injury biomechanics and the applications of this research to forensic anthropology, engineering and applied sciences, and forensic pathology.

W18  Injury Biomechanics: An Interdisciplinary Approach and Forensic Applications

Program Description: Injury biomechanics is the science that relates mechanical forces to disruption of anatomical regions of the human body. This multidisciplinary field encompasses engineering, physics, and medicine and can offer improved validity of trauma analyses and interpretation to the field of forensic anthropology. This workshop will provide attendees with an introduction to injury biomechanics, applications, and limitations of forensic injury biomechanics, how to effectively collect and analyze quantitative data used in injury biomechanics, experimental design, in addition to detailed presentations on current experimental research with subsequent trauma evaluation and interpretations. Presentations will demonstrate the importance and value of interdisciplinary experimental research to trauma analyses, re-creating traumatic events, and expert testimonies. An emphasis will be on skeletal trauma. Attendees will have the opportunity to discuss the role of injury biomechanics in forensic fields with the panel of experts. Attendees will leave the workshop with a greater understanding of the contributions of experimental research to forensic applications.

W19  Think Tank on the Leading Edge of Forensic Science, Including Robotics, Drug Intelligence, Analytical Chemistry, Technology Rules, Bayesian Approach, Legal Technology Developments, Research and Development (R&D) in a Forensic Lab, Veterinary Forensics, and Aquatic Death Investigation

Tuesday

February 18, 2020    8:30 a.m. – 12:30 p.m.    3.75 CE Hours

Learning Overview: After attending this presentation, attendees will better understand the various new advances in forensic science that promise to have an important impact on their work.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by discussing the absolute latest new developments in robotics, drug intelligence, analytical chemistry technology rules, Bayesian approach, legal technology developments, R&D in a forensic lab, veterinary forensics, and aquatic death investigations. This workshop will help attendees be on the leading edge.

Targeted Audience: All Disciplines
Knowledge Level Required: Intermediate (some knowledge of subject presented)
Expected Handout Length: 80 Pages
Program Description: Experts from all over the world will discuss the new developments that are in the process of revolutionizing forensic science. The speakers are the best of the best within each of their areas of expertise. Practical examples will be presented on robotics, drug intelligence, analytical chemistry, technology rules, Bayesian approach, legal technology developments, research and development (R&D) in a forensic lab, veterinary forensics, and aquatic death investigations. This presentation will provide an overview of exciting new advances and open a forum for the discussion of issues that may arise regarding these new developments that will ultimately impact the forensic science community. A wide variety of new technology that will soon impact forensic scientist has been identified within the AAFS Think Tank Committee.

Program:

8:30 a.m. - 8:40 a.m.  Opening Remarks
Laura L. Liptai, PhD

8:40 a.m. - 9:05 a.m.  Managing R&D in a Forensic Lab in a Fast-Changing World
Annemieke de Vries, PhD

9:05 a.m. - 9:30 a.m.  Emerging Drug Threats and Drug Intelligence
Jeri D. Ropero-Miller, PhD

9:30 a.m. - 9:55 a.m.  An Example of Bayesian Approach in Forensic Reports
Ivo Alberink, PhD

9:55 a.m. - 10:20 a.m.  Technology Rules OK?
Sheila Willis, PhD

10:20 a.m. - 10:30 a.m.  Break

10:30 a.m. - 10:55 a.m.  Most Important Legal Technology Developments in 2019–2020
Stephanie Domitrovich, JD, PhD

10:55 a.m. - 11:15 a.m.  New Developments in Forensic Analytical Chemistry
Arian C. Van Asten, PhD

11:15 a.m. - 11:35 a.m.  Integrating Robotics Into Forensics

W20 Genetic Genealogy: Science, Law, and Ethics

Tuesday
February 18, 2020 8:30 a.m. – 4:45 p.m. 6.75 CE Hours

Learning Overview: After attending this workshop, attendees will have a better understanding of how genetic genealogy works, how it is used by law enforcement, its admissibility in court, and the ethics of using personal DNA data of relatives to solve crimes.

Impact on the Forensic Science Community: This workshop will impact the forensic science community by providing a clear understanding of the use of genetic genealogy to solve crimes and to better equip forensic scientists to appreciate the legal and ethical issues that it presents.

Targeted Audience: Criminalistics, General, Jurisprudence, Pathology/Biology, Psychiatry & Behavioral Science

Knowledge Level Required: Basic (little to no knowledge of subject presented)

Expected Handout Length: 100 Pages

Program Description: Since the identification and arrest of the suspect in the “Golden State Killer” investigation in early 2018 using novel DNA and genealogy tools, dozens of law enforcement investigators in North America have effectively used such methods in high-profile cold cases. This workshop includes a description of the DNA technology used, the database search process itself, the methods of genealogy searching, and the legality and ethics of the process, all from expert leaders in those fields. Speakers include CeCe Moore, the genealogist who pioneered the method in the “Golden State Killer” case, biomedical DNA specialists, lawyers, professors, and ethics experts.

W21    A Decade of Designer Drugs: Lessons Learned and Future Directions

Tuesday

February 18, 2020       8:30 a.m. – 5:00 p.m.       6.75 CE Hours

Learning Overview: After attending this workshop, attendees will be able to: (1) discuss current and past trends in Novel Psychoactive Substances (NPS); (2) describe and explain the means by which new substances are assessed for their potency and toxicity; (3) identify resources and strategies for the investigation of NPS toxicity outbreaks and impacts on user populations; (4) assess the available analytical techniques for resolving the identity of positional isomers of new drugs; and (5) apply best practices in the use of standard reference materials and proficiency testing for forensic NPS casework.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by providing a ten-year perspective on how forensic and research sciences responded to the phenomenon of designer drugs, later NPS, the tools and workflows that have been developed, current approaches to evaluating drug toxicity, the impact of NPS on drug user behavior, and best practices for the future identification of structural identity and detail of newly emergent substances.

Chair:
Donna M. Papsun, MS
NMS Labs
Willow Grove, PA

Faculty:
Michael H. Baumann, PhD
Intramural Research Program, National Institute on Drug Abuse, National Institutes of Health
Baltimore, MD

Jennifer Bonetti, MS
Virginia Department of Forensic Science
Norfolk, VA

Michael B. Gatch, PhD
University of North Texas Health Science Center
Fort Worth, TX

Marilyn A. Huestis, PhD
Huestis & Smith Toxicology, LLC
Severna Park, MD

Donna M. Iula, PhD
Cayman Chemical
Ann Arbor, MI

Co-Chair:
Barry K. Logan, PhD
NMS Labs
Willow Grove, PA

Alex J. Krotulski, MS
Center for Forensic Science Research & Education
Willow Grove, PA

Robert A. Middleberg, PhD

Amanda L.A. Mohr, MSFS
Center for Forensic Science Research & Education
Willow Grove, PA

Christopher Moraff, MS
Temple University
Philadelphia, PA

Aaron Urbas, PhD
National Institute of Standards and Technology
Gaithersburg, MD

Targeted Audience: Criminalistics, General, Pathology/Biology, Toxicology

Knowledge Level Required: Intermediate (some knowledge of subject presented)

Expected Handout Length: 250 Pages

Sponsored by: NMS Labs, Inc.

Program Description: This workshop will bring together forensic chemists, medical examiners, death investigators, forensic toxicologists, emergency responders, and public health officials to reflect on the past decade of NPS. This workshop will provide a forum in which experts across different disciplines can share their varying perspectives on the NPS epidemic.

**WORKSHOPS**

*Pre-Registration Required — $200 w/registration; $250 workshop only*

**W22  “All Rise”: Successfully Navigating the Judicial System as an Expert Witness**

**Tuesday**

February 18, 2020  
8:30 a.m. – 5:00 p.m.  
6.75 CE Hours

**Learning Overview:** After attending this workshop, attendees will be well-versed in the decorum, procedures, expectations, and environment of a modern United States courtroom through active participation in the process.

**Impact on the Forensic Science Community:** This presentation will impact the forensic science community by offering real-world experience in expert testimony in an environment conducive to productive learning without the stress of an actual trial.

**Chair:**
Laura C. Fulginiti, PhD
Forensic Science Center  
Phoenix, AZ

**Faculty:**
Katelyn L. Bolhofner, PhD
Arizona State University  
Glendale, AZ

Betty Layne DesPortes, JD, MS
Benjamin & DesPortes, PC  
Richmond, VA

Matthew Greco, JD
San Diego District Attorney’s Office  
San Diego, CA

**Co-Chair:**
Daniel G. Martin, JD
Superior Court of Arizona  
Phoenix, AZ

Kristen Hartnett-McCann, PhD
Office of the Chief Medical Examiner  
Farmington, CT

Andrew C. Seidel, PhD
Arizona State University  
Tempe, AZ

**Targeted Audience:** All Disciplines

**Knowledge Level Required:** Basic (little to no knowledge of subject presented)

**Expected Handout Length:** 50 Pages

**Restricted Audience Size:** 50

**Program Description:** This workshop is designed to introduce and expand the understanding of expert witnesses who are confronted with the judicial process as part of their work. Using an actual courtroom set-up, the organizers plan to include the attendees in real-life scenarios as expert witnesses on the stand and as jurors evaluating the proffered testimony.
**WORKSHOPS**

W23  Dispelling the Myths About the Forensic Examination of Handprinting

Tuesday
February 18, 2020    8:30 a.m. – 5:00 p.m.            6.75 CE Hours

Learning Overview: After attending this workshop, attendees will be informed about the development of manuscript handprinting, motor-control theories regarding how handprinting is learned, examination techniques with handprinting, and will conduct hands-on examinations of genuine and simulated handprinting.

Impact on the Forensic Science Community: This workshop will impact the forensic science community by informing attendees on the history and development of manuscript handprinting, and will enhance their abilities to conduct handprinting examinations. Attendees will also be prepared to defend the reliability of handprinting examinations in court.

Chair:
Linton Mohammed, PhD
Forensic Science Consultants, Inc
Burlingame, CA

Co-Chair:
Linda L. Mitchell, BS
Forensic QDE Lab, LLC
Escondido, CA

Faculty:
Brett Bishop
Cheney, WA

Lloyd Cunningham
Alamo, CA

Katelyn E. Bruno, MFS
Quantico, VA

Targeted Audience: Questioned Documents
Knowledge Level Required: Intermediate (some knowledge of subject presented)
Expected Handout Length: 20 Pages

Program Description: This full-day workshop will provide attendees with knowledge of the development of handprinting from the schoolroom and from motor control principles. Recent cases in which the reliability of handprinting evidence was criticized will be discussed. There will be a significant hands-on component in which attendees will be able to learn techniques of examining genuine and simulated handprinting.

W24 Forensic Postmortem Radiology: Crossing the Border Between Radiology and Pathology

Tuesday
February 18, 2020 8:30 a.m. – 5:00 p.m. 7.0 CE Hours

Learning Overview: After attending this workshop, attendees will: (1) learn the basics in how to get started in the field of forensic radiology, (2) understand the current state of the art and levels of evidence in forensic radiology, (3) learn about applications to assist forensic pathologists and practitioners in medical death investigations, and (4) finally will be made aware of potential resources available to interested practitioners.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by providing attendees with expertise from around the world on the use of best practices and the evidence base of forensic postmortem radiology.

Chair:
Summer J. Decker, PhD
University of South Florida Department of Radiology
Morsani College of Medicine
Tampa, FL

Faculty:
Lars C. Ebert, PhD
Universität Zurich
Zurich, SWITZERLAND

David Errickson, PhD
Cranfield University

Maastricht, NETHERLANDS

Co-Chair:
Edward Mazuchowski II, MD, PhD
Joint Trauma System
Joint Base San Antonio-Fort Sam Houston, TX

Kurt B. Nolte, MD
Office of Medical Investigator
Albuquerque, NM

Chris O’Donnell, MD
Victorian Institute for Forensic Medicine
Melbourne, AUSTRALIA

Lars Oesterhelweg
Institut für Rechtsmedizin der Charité
Berlin, GERMANY

Michael Thali, MD
Universität Zurich
Zurich, SWITZERLAND

Rick R. Van Rijn, MD, PhD
Amsterdam UMC & Netherlands Forensic Institute
Amsterdam, NETHERLANDS

Targeted Audience: Pathology/Biology
Knowledge Level Required: Basic (little to no knowledge of subject presented)
Expected Handout Length: 150 Pages
Program Description: The “Virtual Autopsy” or “Virtopsy” utilizes Multislice Computed Tomography (MSCT) or Postmortem CT (PMCT) and Magnetic Resonance Imaging (MRI) combined with 3D imaging technology to create vivid images of the interior of the human body. This can be accomplished not only in the living but also in the dead. In the past decades, an increasing use of these techniques, in the postmortem setting, has been seen in the field of forensics. However, without the proper knowledge of the potential benefits but also the limitations of forensic postmortem radiology, its implementation in the field of forensics is impossible. The international group of speakers in this workshop have extensive experience in implementing forensic postmortem radiology workflows, interpreting case studies, and/or implementing this in advanced imaging modalities. The international background and diversity of professional backgrounds of the speakers provides the participants an opportunity to gain a broad perspective, crossing the borders between specialties, on this exciting field. Many of the speakers, who all are internationally seen as experts in their fields, have been on the forefront of forensic postmortem radiology or can even be seen as founding fathers in this field.

The goal of this workshop is to share knowledge and experiences with those who are working in the field of forensics and are currently thinking about implementing this new and important modality; they should really attend this course. Those who already are using forensic postmortem radiology are also welcome, not only to learn from this highly experienced faculty, but also to share their experiences in this field. This program offers a broad range of topics from the young child to disaster victim identification and from obtaining data to advanced 3D visualization.

At the end of the sessions, there will be an interactive case session in which the audience is asked to participate. During these sessions, cases will be presented showing the potential and limitations of forensic postmortem radiology.

Program:

8:30 a.m. - 9:00 a.m.  Introductions, Background, and a Historical Overview  
Michael Thali, MD

9:00 a.m. - 9:30 a.m.  Acquiring PMCT Scan Tips and Tricks: A Technician's Perspective  
Jeroen J.F. Kroll

9:30 a.m. - 10:00 a.m.  The Development of a Forensic CT Service in a Medical Examiner Office  
Kurt B. Nolte, MD

10:00 a.m. - 10:30 a.m.  PMCT Status in Australia: An International Perspective  
Chris O'Donnell, MD

10:30 a.m. - 10:45 a.m.  Break

10:45 a.m. - 11:30 a.m.  Directed PMCT Angiography and an Evaluation of Resuscitative Medical Therapy  
Edward Mazuchowski II, MD, PhD

11:30 a.m. - 12:00 p.m.  Forensic PMCT in Children: Application and Limitations  
Rick R. Van Rijn, PhD

12:00 p.m. - 12:30 p.m.  Interactive Cases I  
Jeroen J.F. Kroll; Rick R. Van Rijn, PhD

12:30 p.m. - 1:30 p.m.  Lunch

W25 Working Toward a Wellness Mindset for Forensic and Investigative Personnel: Addressing Stress and Trauma in the Workforce and Taking Steps to Change Agency and Professional Culture

Tuesday

February 18, 2020 8:30 a.m. – 5:00 p.m. 6.5 CE Hours

Learning Overview: After attending this workshop, attendees will understand and recognize how stress and trauma are tied to the forensic professions, including in the form of vicarious trauma, and how exposure to trauma and stress impacts an employee's personal and professional performance. Attendees will also learn evidence-based strategies to mitigate and reduce the impacts of stress and trauma, as well as learn from the experience of the anthropology program at the University of South Florida and the Maryland State Police's Crime Laboratory efforts to address stress and trauma. Attendees will be more aware of the various types of trauma that investigators and investigative personnel routinely encounter and the potential impacts this may have, not only on the individual, but on the investigation and/or service provision. This workshop builds upon and expands the content of the half-day workshop presented at the American Academy of Forensic Sciences Annual Scientific Meeting in 2019. Paths forward and the implementation and incorporation of Evidence-Based Policy (EBP) will also be addressed so attendees can examine what policies and assistance are available in their own agencies or assist in policy development. This workshop will address concerns related to both line-level and supervisory personnel.

Impact on the Forensic Science Community: This workshop will impact the forensic science community by providing attendees with the understanding that the human experience is variable, and trauma exposure and symptoms even more so, leading to behavior patterns that can be complex and abstract and by recognizing the manifestations of a variety of psychological—both behavioral and cognitive—impacts as a reaction to trauma and stress exposure on the job. This workshop will also address the concept of trauma-informed agencies, ensuring that appropriate resources are available to employees, focusing on evidence-based interventions. By attending this workshop, attendees will be better equipped to understand the potentially short- and long-term impacts of trauma, as well as how to adapt investigative approaches and provide resources that will lead to increased chances of not only a positive work environment, but likely a more efficient and cost-effective solution to maintaining employee health and well-being to avoid burn-out and decreased cognitive abilities that may impact service provision and job performance.

Chair:
Amanda L. Farrell, PhD
Marymount University
Arlington, VA

Co-Chair:
Jonathan D. Bethard, PhD
University of South Florida
Tampa, FL

Faculty:
Timothy J. Ainger, PhD
University of Kentucky
Lexington, KY

Daniel E. Katz, MFS
Maryland State Police Forensic Sciences Division
Pikesville, MD

Lurena A. Huffman, BS
Houston Forensic Science Center
Houston, TX

Christopher J. Scallon, MS
Norfolk Police Department
Norfolk, VA

Targeted Audience: All Disciplines
Knowledge Level Required: Basic (little to no knowledge of subject presented)
Expected Handout Length: 60 Pages
Program Description: This workshop will aid attendees in identifying factors associated with these needs and their expression, particularly with regard to identifying “problem behaviors,” and detecting the symptoms of post-traumatic exposure, in addition to identifying and implementing empirically supported strategies for proper identification and management of cognitive concerns. Attendees will be exposed to a wide array of behaviors, as well as to how these behaviors can be identified and addressed. Topical discussions will be further supported by case studies and videos.

Program:

8:30 a.m. - 8:40 a.m. Welcome
  Amanda L. Farrell, PhD; Jonathan D. Bethard, PhD; Lurena A. Huffman, BS

8:40 a.m. - 9:00 a.m. Introduction: Context, Approach, and Panel
  Amanda L. Farrell, PhD

9:00 a.m. - 10:00 a.m. Stress, Trauma, and Their Impact on Forensic Professionals
  Amanda L. Farrell, PhD; Timothy J. Ainger, PhD; Christopher J. Scallon, MS

10:00 a.m. - 10:15 a.m. Break

10:15 a.m. - 11:00 a.m. Cognitive and Long-Term Impacts of Trauma
  Timothy J. Ainger, PhD

11:00 a.m. - 11:45 a.m. Addressing Vicarious Trauma and Becoming a Trauma-Informed Agency
  Christopher J. Scallon, MS

11:45 a.m. - 12:00 p.m. Moderated Discussion/Questions and Answers
  Lurena A. Huffman, BS

12:00 p.m. - 1:30 p.m. Lunch

1:30 p.m. - 2:45 p.m. Learning From Examples
  Jonathan D. Bethard, PhD; Daniel E. Katz, MFS

2:45 p.m. - 3:00 p.m. Break

3:00 p.m. - 4:30 p.m. Evidence-Based Strategies and Interventions
  Amanda L. Farrell, PhD; Timothy J. Ainger, PhD; Christopher J. Scallon, MS

4:30 p.m. - 5:00 p.m. Moderated Discussion/Questions and Answers
  Lurena A. Huffman, BS
WORKSHOPS

Pre-Registration Required — $100 w/registration; $125 workshop only

W26 Overcoming Analytical Challenges Inherent in New Psychoactive Substances With Gas Chromatography Coupled With Vapor Phase Infrared Detection (GC-IRD)

Tuesday

February 18, 2020 1:00 p.m. – 5:00 p.m. 3.75 CE Hours

Learning Overview: The goals of this presentation are to obtain: (1) a more comprehensive awareness and understanding of the analytical challenges inherent in the analysis of novel and emerging drugs; (2) an overview and better understanding of the role of GC-IRD applications in the analysis of seized drugs; and (3) knowledge and tools for the optimization of GC-IRD methodology for the analysis of opioids, synthetic cathinones, and synthetic cannabinoids.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by informing attendees that GC-IRD is a useful alternative for the rapid detection and identification of novel substances when routine analytical techniques yield limited information.

Chair:
Agnes D. Winokur, MS
Drug Enforcement Administration/Southeast Laboratory
Miami, FL

Faculty:
Jose R. Almirall, PhD
Florida International University
Department of Chemistry
Miami, FL

Randall Clark, PhD
Auburn University
School of Pharmacy
Auburn, AL

Targeted Audience: Criminalistics, General

Knowledge Level Required: Basic (little to no knowledge of subject presented)

Expected Handout Length: 50 Pages

Program Description: This program will be broken down into three main sections. Section 1 will address the struggles that forensic scientists are experiencing in their ability to detect and identify new psychoactive substances. Section 2 will focus on the theory and on demonstrating how the role of GC-IRD methodologies are increasing the capabilities of forensic laboratories. The last section will illustrate how GC-IRD applications and modern technological advances can facilitate the rapid analysis of opioids, synthetic cathinones, and synthetic cannabinoids.

Tuesday
February 18, 2020 7:00 a.m. – 5:15 p.m.

Program:
7:00 a.m. - 8:00 a.m.  Registration & Continental Breakfast
8:00 a.m. - 8:10 a.m.  Welcome
Robin A. Ainsworth, DDS, President, American Society of Forensic Odontology
8:10 a.m. - 8:20 a.m.  Program Introduction: Morning Session 2018 Camp Fire
Richard H. Fixott, DDS, President-Elect, American Society of Forensic Odontology

Morning Session—The Camp Fire
8:20 a.m. - 9:15 a.m.  Camp Fire—Responders
David Krusslow
9:15 a.m. - 10:15 a.m.  Camp Fire—Forensic Anthropology and the Recovery of Human Remains
Colleen F. Milligan, PhD; Ashley E. Kendell, PhD; P. Willey, PhD; Eric J. Bartelink, PhD
10:15 a.m. - 10:30 a.m.  Break
10:30 a.m. - 11:05 a.m.  Camp Fire—Dental Response
Mark D. Porco, DDS
11:05 a.m. - 12:00 p.m.  Camp Fire—Human Response and Community Recovery
American Red Cross Representative
12:00 p.m. - 1:30 p.m.  Lunch and Annual Business Meeting

Afternoon Session—Forensic Odontology Casework: Presentations and Applications
1:30 p.m. - 2:45 p.m.  Applied Anthropology—Sex and Gender From Skull Traits
Joe Adserias-Garriga, DDS, PhD
2:45 p.m. - 3:30 p.m.  Applied Dental Age Assessment
Derek M. Draft, DDS
3:30 p.m. - 3:45 p.m.  Break
3:45 p.m. - 4:35 p.m.  Identification and Beyond—You Make the Call
Raymond G. Miller, DDS
4:35 p.m. - 5:15 p.m.  Furst Word Society—Lessons Learned
Jan Westberry, DMD; Armin A. Farid, DMD; Mark L. Bernstein, DDS; Amber D. Riley, MS;
Richard H. Fixott, DDS
The National Institute of Justice (NIJ) Forensic Science R&D Symposium is an open meeting where attendees can learn about NIJ-funded research across a variety of forensic science areas. AAFS meeting registration is not necessary. Feel free to stop by and listen to specific presentations or stay all day and learn about the diverse NIJ forensic science R&D portfolio.

Information will be available at www.forensicCOE.org.

**Program:**

**8:30 a.m. – 5:10 p.m.**

**Welcome and Opening Remarks**

**Morning Session I – Forensic Biology/DNA**

*Moderator: Andrea M. Borchardt, MS*

- **8:40 a.m. – 9:05 a.m.**
  
  Efficient Sequencing and Analysis of Degraded and Trace DNA Samples Using a Novel Targeted Ligation-Free Method (2017-DN-BX-0140)
  
  *Jannine Forst*

- **9:05 a.m. – 9:30 a.m.**
  
  Microhaplotypes: Moving Scientific Research to a Forensic Casework Panel (2018-75-CX-0041)
  
  *Kenneth Kidd, PhD*

- **9:30 a.m. – 9:55 a.m.**
  
  DNA Typing Strategies Via Real-Time Nanopore Sequencing for Forensic Analyses (2018-DU-BX-0179)
  
  *Courtney L. Hall, BS*

- **9:55 a.m. – 10:20 a.m.**
  
  The Development of Entire Mitogenome Reference Data Using an Automated High Throughput Sequencing Workflow (DJO-NIJ-17-RO-0219)
  
  *Kimberly S. Andreaggi, MFS*

- **10:20 a.m. – 10:35 a.m.**
  
  Break

**Morning Session II – Controlled Substances and Toxicology**

*Moderator: Frances Scott, PhD*

- **10:35 a.m. – 11:00 a.m.**
  
  The Detection and Quantitation of Fentanyl Mixtures by Surface-Enhanced Raman Spectroscopy (SERS) and Chemometrics (2015-IJ-CX-K006)
  
  *Ling Wang, MS*

- **11:00 a.m. – 11:25 a.m.**
  
  
  *Jeremy Driskell*

- **11:25 a.m. – 11:50 a.m.**
  
  Forty-Plus Ways Not to Analyze Beverages for Cannabinoids (2017-R2-CX-0029)
  
  *Carl E. Wolf II, PhD*
11:50 a.m. - 12:15 p.m. Investigating the Rise and Fall of Opioids Using Data Acquired by Liquid Chromatography/Time of Flight/Mass Spectrometry (2017-DN-BX-0169) 
Judith Rodriguez Salas, MS

12:15 p.m. - 1:35 p.m. Lunch

Afternoon Session I – Impression and Pattern Evidence/Trace Evidence 
Moderator: Gregory Dutton, PhD

1:35 p.m. - 2:00 p.m. Quantitative Measures for Footwear Impression Comparisons (DJO-NIJ-17-RO-0202) 
Steven P. Lund, PhD

2:00 p.m. - 2:25 p.m. Testing the Accuracy and Reliability of Palmar Friction Ridge Comparisons: A Black Box Study (2017-DN-BX-0170) 
Heidi Eldridge, MS

Tatiana Trejos, PhD; Luis E. Arroyo PhD

2:50 p.m. - 3:15 p.m. Facilitating the Adoption of Glass Evidence Analyses in Forensic Laboratories (2015-DN-BX-K049) 
Jose R. Almirall, PhD

3:15 p.m. - 3:30 p.m. Break

Afternoon Session II – Forensic Anthropology and Forensic Pathology 
Moderator: Danielle L. McLeod-Henning, MFS

3:30 p.m. - 3:55 p.m. Developing an Online Resource for Species Identification of Skeletal Remains (2018-DU-BX-0229) 
Heather M. Garvin, PhD

3:55 p.m. - 4:20 p.m. Development Responses to Fluctuating Temperatures of a Forensically Important Blow Fly (Cochliomyia Macellaria) (2016-DN-BX-0204) 
Travis Rusch

4:20 p.m. - 4:45 p.m. Understanding the Role of the Thanatomicrobiota in the Decay of “Reproductive Organs” in Human Decomposition (2017-MU-MU-0042) 
Gulnaz T. Javan, PhD

4:45 p.m. - 5:10 p.m. Using Microbiome Tools to Estimate the Postmortem Interval of Human Remains (2015-DN-BX-K016) 
Jessica L. Metcalf, PhD
2020 Interim Scientific Program
Mass Fatality: Planning and Management

Tuesday
February 18, 2020  1:00 p.m. – 5:00 p.m.

This program will include a multidisciplinary panel discussion relative to mass fatality planning and management.

Program:

1:00 p.m. - 1:05 p.m.  Welcome and Introduction
Sally S. Aiken, MD, President, National Association of Medical Examiners

1:05 p.m. - 1:10 p.m.  Opening Remarks
Suzanne R. Utley, MDL

1:10 p.m. - 1:40 p.m.  National Missing and Unidentified Persons System (NamUs) for Critical Incidents
Emily A. Craig, PhD

1:40 p.m. - 2:10 p.m.  Calling an Audible: Continuity of Operations Planning (COOP) and Mass Fatality Incident (MFI) Planning
Shawn Wilson

2:10 p.m. - 2:40 p.m.  Mass Fatality Management—Preparation for a Complex Coordinated Attack (CCA)
Roger A. Mitchell, Jr.

2:40 p.m. - 2:50 p.m.  Break

2:50 p.m. - 3:20 p.m.  Planning, Partnerships, and Preparing for the Unexpected
Melanie Rouse, MS

3:20 p.m. - 3:50 p.m.  Flight 3407: A Commercial Airline Crash in Western New York
Katherine F. Maloney, MD

3:50 p.m. - 4:20 p.m.  Mass Fatality Preparedness—Lessons Learned From the October 1, 2017, Shooting in Las Vegas
John Fudenberg, MBA

4:20 p.m. - 5:00 p.m.  Mass Fatality Planning and Aftermath: Panel Discussion
Sally S. Aiken, MD; Suzanne R. Utley, MD; Emily A. Craig, PhD; Shawn Wilson; Roger A. Mitchell, Jr.; Melanie Rouse, MS; Katherine F. Maloney, MD; John Fudenberg, MBA

This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of MedChi, The Maryland State Medical Society, and the National Association of Medical Examiners. MedChi is accredited by the ACCME to provide continuing medical education for physicians. MedChi designates this live activity for a maximum of 3.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Continuing Education Administration Fee: There is an administrative charge ($75 pre-registration, $100 at the door registration) for persons wishing to receive this credit. It will be necessary for you to complete a program evaluation as well as pay the administrative fee to receive CME credit for this meeting.

Self-Assessment Module: The American Board of Pathology has deemed the National Association of Medical Examiners to be an approved provider of Self-Assessment Modules (SAMs) for the Life-Long Learning and Self-Assessment Requirement (Part II) for Maintenance of Certification in Forensic Pathology. This activity has been planned and implemented in accordance with those guidelines and qualify for a maximum of 3.5 hours of SAMs. There is an administrative charge of $35 for Members and $105 for Non-Members.

Registration Fee: There is a registration fee of $150 for Members, $200 at the door and $200 for Non-Members, $250 at the door. Registrations are totally separate from the AAFS. Contact Denise McNally at 660-734-1891 or email name@thename.org to receive a registration form.
HUMANITARIAN AND HUMAN RIGHTS RESOURCE CENTER

Poster Session

American Academy of Forensic Sciences 72nd Annual Scientific Meeting

Pre-Registration Not Required — Open to All Meeting Attendees

Tuesday

February 18, 2020  6:00 p.m. – 8:00 p.m.

The Humanitarian and Human Rights Resource Center (HHRRC) of the American Academy of Forensic Sciences (AAFS), with support from the National Institute of Justice’s Forensic Technology Center of Excellence, provides needed resources and support to apply modern forensic science to global humanitarian and human rights projects. This Humanitarian and Human Rights Poster Session is an open meeting where attendees can meet our HHRRC researchers and learn about the application of forensic science to investigate humanitarian and human rights injustices.

Information will be available at www.forensicCOE.org.

Program:

6:00 p.m. - 8:00 p.m.  Urban Scavenging of Skeletal Remains by the Slender Mongoose (Galerella Sanguinea) in Johannesburg, South Africa
Craig A. Keyes, MS; Jolandie Myburgh, MSc; Desiré Brits, PhD

6:00 p.m. - 8:00 p.m.  Application of Stable Isotopes for Geolocating Unidentified Border Crossers From the Texas-Mexico Border
Eric J. Bartelink, PhD; Sarah A. Hall, MA; Samuel A. Mijal, BS; Vanessa C. Reeves, BA; Alina Tichinin

6:00 p.m. - 8:00 p.m.  Building Forensic Capacity in Post-Conflict Uganda
Hugh H. Tuller, MA; Paul D. Emanovsky, PhD; Jaymelee Kim, PhD; Dawnie W. Steadman, PhD

6:00 p.m. - 8:00 p.m.  Scene Documentation for Human Rights Investigators
Tal Simmons, PhD; Scott Edwards, PhD

6:00 p.m. - 8:00 p.m.  Humanitarian Forensic Action for Resolving and Preventing the Missing
Morris V. Tidball-Binz, MD

6:00 p.m. - 8:00 p.m.  Strategies for the Identification of Migrants in the Mediterranean: The Shipwreck of April 18, 2015
Cristina Cattaneo, PhD; Debora Mazzarelli, BS; Giulia Caccia, BSc; Danilo De Angelis, DDS; Annalisa Cappella, PhD; Pasquale Poppa, BS; Douglas H. Ubelaker, PhD; Luca Sconfienza, MD; Zuzana Obertova, PhD; Richard Jantz, PhD; Stephen D. Ousley, PhD; Laura Manthey, MD; Tony Fracasso, MD; PhD; Lucie Biehler-Gomez; Barbara Bertoglio, BSc; Carlo Previderé, PhD; Morris V. Tidball-Binz, MD; José P. Baraybar, MSc, PhD; Oran Finegan, MSc; Rossella Di Liberto; Federica Giannotta; Giuliana Perrotta, MA

Moderator:  
Douglas H. Ubelaker, PhD
Smithsonian National Museum of Natural History  
Washington, DC

Co-Moderator:  
Jeri D. Ropero-Miller, PhD
RTI International

Poster Session

Pre-Registration Not Required — Open to All Meeting Attendees

Program cont.:

6:00 p.m. - 8:00 p.m.  Using Environmental and Archaeological Samples to Build Forensic Isoscapes of the Peruvian Andes: Paths Forward for Identifying Victims From the Time of Violence in Peru (1980–1990s)
Beth K. Scaffidi, PhD; Gwyneth W. Gordon, PhD; Roberto C. Parra, MA; Kelly Knudson, PhD; Martha R. Palma Malaga, MG; Tiffiny A. Tung, PhD

6:00 p.m. - 8:00 p.m.  Isotopes and Isoscapes: Their Potential and Limitations in Aiding the Identification Process of Undocumented Border Crossers From Mexico
Saskia Ammer, MSc

6:00 p.m. - 8:00 p.m.  A Protocol Validation of Qualitative and Quantitative Methods and Its Application in Forensic Anthropology: A Pilot Study
Cláudia Regina Plens, PhD

6:00 p.m. - 8:00 p.m.  The Humanitarian and Human Rights Crisis in South Texas Exemplified Through the Tres Norias Cemetery
Kate Spradley, PhD; Timothy P. Gocha, PhD; Chloe P. McDaneld, MA; Courtney C. Siegert, MA

6:00 p.m. - 8:00 p.m.  The Detection of Chemical Weapon Nerve Agents in Bone: Expanding the Post-Incident Interval for Verifying Nerve Agent Exposure Using Biomatrices
Katie M. Rubin, PhD; Bruce A. Goldberger, PhD

NOTE: Additional posters on humanitarian and human rights will be invited to exhibit during the session.
AMERICAN ACADEMY OF FORENSIC SCIENCES

72ND AAFS ANNUAL SCIENTIFIC MEETING

CROSSING BORDERS

Scientific Sessions
Due to potential changes in the program, the AAFS encourages you to access the most up-to-date schedule on the AAFS website at www.aafs.org.
Wednesday

Poster Session

11:30 a.m. - 1:00 p.m.  A1  Collaborative Approaches in the Identification of Transgender and Gender Variant Decedents
Amy Michael, PhD*; Mariyam I. Isa, MA*; Lee Redgrave; Anthony Redgrave, MS

11:30 a.m. - 1:00 p.m.  A2  The Frontal Versus Basal Region of the Cranium: A Comparison of the Best Sex Prediction Parameters Using Discriminant Function Analysis
Preetika M. Chatterjee, PhD; Kewal Krishan, PhD*

11:30 a.m. - 1:00 p.m.  A3  Sex Determination Through the Evaluation of Foramen Magnum Measurements on an Italian Population
Carmelinda Angrisani, MD*; Federica Mele, MD; Roberto Maselli; Francesco Introna, MD; Antonio De Donno, PhD

11:30 a.m. - 1:00 p.m.  A4  Assessing the Utility of Vertebral Body Heights as a Sex Indicator in United States Whites and Koreans
Yangseung Jeong, PhD*; Eun Jin Woo; Simon Pergande; Omar Aly

11:30 a.m. - 1:00 p.m.  A5  Estimation of Sex Based on Postcranial Elements in North American and Latin American Populations
Sara C. Zapico, PhD*; Joe Adserias-Garriga, DDS, PhD*

11:30 a.m. - 1:00 p.m.  A6  Evaluating Sexual Dimorphism Among South African Groups Using Dentition
Goodness P. Shakoane, BS; Ericka N. L’Abbe, PhD; Marie Christine Dussault, PhD*

11:30 a.m. - 1:00 p.m.  A7  The Relationship Between Soft Tissue Anatomy and Skeletal Sexual Dimorphism in the Cranium and Clavicle
Jade S. De La Paz, MS*; Stephanie Woodley, PhD; Nawaporn Techataweewan, PhD; Hallie Buckley, PhD; Siân Halcrow, PhD

11:30 a.m. - 1:00 p.m.  A8  Sexual Dimorphism in the Shape of the Auricular Surface of the Ilium
Madeline Parker, MS*; Stephen P. Nawrocki, PhD; Krista E. Latham, PhD

11:30 a.m. - 1:00 p.m.  A9  Application and Evaluation of Adult Morphological Sex Traits Using the Subadult Innominate
Stephanie J. Cole, MS*; Kyra E. Stull, PhD

11:30 a.m. - 1:00 p.m.  A10  Sex Estimation of the Subadult Pelvis Prior to Acetabular Fusion
Heather M. Garvin, PhD*; Katherine A. Marciniec, BS; Laura E. Cirillo, MA; Michala K. Stock, PhD; Kyra E. Stull, PhD

11:30 a.m. - 1:00 p.m.  A11  3D Models of Paranasal Sinuses to Establish Age, Sex, and Ethnicity Across Three Modern Populations
Madeline H. Robles, MS, MRes*; Ruth M. Morgan, PhD; Carolyn Rando, PhD

11:30 a.m. - 1:00 p.m.  A12  Assessing the Accuracy of Current Ancestry and Sex Estimation Methods on a Japanese Sample
Cassie E. Skipper, MA*; Marin A. Pilloud, PhD

*Presenting Author
11:30 a.m. - 1:00 p.m.  A13  Crossing the Borders of Linguistics, Ancestry, and Race in the Field of Forensic Anthropology  
Alba E. Craig, BA*; Krista E. Latham, PhD

11:30 a.m. - 1:00 p.m.  A14  The Use of Eye Tracking Technology in Forensic Anthropology: An Empirical Approach to Advancing the Understanding of Complex Visual Tasks in Cranial Macromorphoscopic Trait Evaluations  
Sherry Nakhaeizadeh*; Micayla C. Spiros, MS; Joseph T. Hefner, PhD; Tim Thompson, PhD; Ruth M. Morgan, PhD

11:30 a.m. - 1:00 p.m.  A15  Eye Tracking to Assess Decision-Making in Cranial Macromorphoscopic (MMS) Trait Evaluation: Implications of Education and Training in Method Application  
Micayla C. Spiros, MS*; Sherry Nakhaeizadeh; Ruth M. Morgan, PhD; Tim Thompson, PhD; Joseph T. Hefner, PhD

11:30 a.m. - 1:00 p.m.  A16  Metric and Non-Metric Ancestry Evaluation Analysis of the Craniofacial Region in Greek-Cypriots: A Pilot Study  
Madyson R. Stephenson*; Anna S. La Valley, MS; Xenia P. Kyriakou, MA

11:30 a.m. - 1:00 p.m.  A17  Craniofacial Modularity and Integration: Implications for Ancestry Assessment  
Janet E. Finlayson, MA*; Michala K. Stock, PhD

11:30 a.m. - 1:00 p.m.  A18  Re-Evaluating Skeletal Ancestry Traits Using Three-Dimensional Technology  
Elisabeth Cuerrier-Richer, MSc*; Tracy Rogers, PhD

11:30 a.m. - 1:00 p.m.  A19  A Comparison of Two Data Collection Methods for the (hu)MANid Program on a Diverse Sample of Mandibles  
Paige A. Lynch, MS*; Luis L. Cabo, MS

11:30 a.m. - 1:00 p.m.  A20  Craniometric Variation and FORDISC® Misclassification in Latin American and Asian Individuals  
Miriam Rangel, BS*; Kanya Godde, PhD*

11:30 a.m. - 1:00 p.m.  A21  Geographic Origin Estimation of Latin American Individuals Using Craniometric Data  
Kari Helgeson, MA*; Kate Spradley, PhD

11:30 a.m. - 1:00 p.m.  A22  The Impact of Error in Femur Subtrochanteric Measurements on the Assessment of Population Affinity  
Briana T. New, MA*; Emily S. Silverman, MA; Sabrina C. Táhalá, MA

11:30 a.m. - 1:00 p.m.  A23  Odontometric Variation of Male Skeletal Samples From the United States and South Africa  
Dori E. Kenessey, BA*; Tatiana Vleming-Mendieta, MS; G. Richard Scott, PhD; Marin A. Pilloud, PhD

11:30 a.m. - 1:00 p.m.  A24  Influence of Ancestry on Sexual Dimorphism in the Human Mandibular Canine  
Britney L. Blevins, MA*

11:30 a.m. - 1:00 p.m.  A25  Human Trafficking: A Challenging Case of Age Assessment  
Greta Cena, MD*; Caterina Bosco, MD; Luana Bonaccorsu, MD*; Davide Santovito, MD; Sara S. Racalbuto, PsyD; Elena Copo, MD; Giancarlo Di Vella, MD, PhD*
ANTHROPOLOGY

11:30 a.m. - 1:00 p.m.  A26  Age-Old Problems: Using the Pars Basilaris to Estimate Age-At-Death in Non-Adult Individuals  
Claire M. Hodson, PhD*; Rebecca Gowland, PhD

11:30 a.m. - 1:00 p.m.  A27  Why Cranial Sutures Should be Included in Adult Age-At-Death Estimates  
Jessica L. Campbell, PhD*; Stephen P. Nawrocki, PhD

11:30 a.m. - 1:00 p.m.  A28  A Comparison of Two Dental Age Estimation Methods Using Transition Analysis (TA)  
Kelly R. Kamnikar, MA*; Amber M. Plemens, MA; Nicholas P. Herrmann, PhD; Jennifer E. Spence, PhD; Yann Heuzé, PhD; Joseph T. Hefner, PhD

11:30 a.m. - 1:00 p.m.  A29  The Ability to Obtain Full DNA Profiles From Nail Clippings After Long-Term Storage at Room Temperature Could Impact the Process of Human Identification  
Jonah W.P. Stone, BS*; Krista E. Latham, PhD; Cynthia Cale, MS; Stephen P. Nawrocki, PhD; Gay L. Bush, PhD

11:30 a.m. - 1:00 p.m.  A30  The Applicability of Intralimb Indices in the Subadult Biological Profile  
Elaine Y. Chu, MA*; Kyra E. Stull, PhD

11:30 a.m. - 1:00 p.m.  A31  The Application of Non-Destructive Dental Age Estimation (DAE) Methods Using Root Translucency on Latin American Hispanics  
Melinda V. Rogers, BS*; Nicholas P. Herrmann, PhD; Kate Spradley, PhD; James P. Fancher, DDS, PhD

11:30 a.m. - 1:00 p.m.  A32  Reevaluating the Use of Percentage of Bone for Histological Age Estimations  
Mariah E. Moe, MA*; Timothy P. Gocha, PhD

Thursday—Session I

Search and Recovery Protocols and Identification of Victims in Wildfires: Multidisciplinary Perspectives

8:30 a.m. - 8:45 a.m.  A33  An Overview of the Camp Fire and Wildfire Situation in the West  
Colleen P. Milligan, PhD*; Ashley E. Kendell, PhD; Alison Galloway, PhD

8:45 a.m. - 9:00 a.m.  A34  Butte County’s Response to the 2018 California Camp Fire  
Jennifer Celentano*

9:00 a.m. - 9:15 a.m.  A35  Search and Recovery Protocols for Fatal Fire Victims of the 2018 California Camp Fire  
Eric J. Bartelink, PhD*; Ashley E. Kendell, PhD; Jacqueline L. Galimany, BS; Karen Gardner, MA; Leigh Hayes; Casey A. Hegel, BA; Vanessa C. Reeves, BA; Alyssa Straub, BA; Maura Timmons, BS; Leah Tray, BA

9:15 a.m. - 9:30 a.m.  A36  Forensic Pathology, Identification, Morgue Operations, and Management of the Camp Fire Victims  
Kimbelry D. Gin*; Kathy Raven, MD*
ANTHROPOLOGY

9:30 a.m. - 9:45 a.m.  A37  Wildfire Search, Recovery, and Identification of Victims: Post-Recovery Anthropological Analysis and Identification
Lauren Zephro, PhD*; Alison Galloway, PhD

9:45 a.m. - 10:00 a.m.  A38  Wildfire Search Protocols and Victim Recovery
Richard Selden, MD*; Rosemary Turingan Witkowski

10:00 a.m. - 10:15 a.m.  Break

10:15 a.m. - 10:30 a.m.  A39  Outside Agency Response to the California Camp Fire
Timothy P. Gocha, PhD*; Kyra E. Stull, PhD*; Marin A. Pilloud, PhD

10:30 a.m. - 10:45 a.m.  A40  Demography of the Camp Fire Fatalities
Samuel A. Mijal, BS*; P. Willey, PhD

10:45 a.m. - 11:00 a.m.  A41  Locational Analysis of the Camp Fire Fatalities in Communities and Residences
Casey A. Hegel, BA*; Samuel A. Mijal, BS

11:00 a.m. - 11:15 a.m.  A42  Anthropology and Mass Fatality Management in Wildfire Disasters
Colleen M. Cheverko, PhD*; Colleen F. Milligan, PhD; Melanie M. Beasley, PhD; Lisa N. Bright, PhD; Shannon J. Clinkinbeard, BA; Leigh Hayes; Jessica Hotaling, BA; Mallory J. Peters, MA; Julia R. Prince-Buitenhuys, MA

11:15 a.m. - 11:30 a.m.  Discussion
Ashley Kendell, PhD

11:30 a.m. - 12:45 p.m.  Lunch

Poster Session

11:30 a.m. - 1:00 p.m.  A43  The Infant Injury Database
Miriam E. Soto Martinez, PhD*; Jason M. Wiersema, PhD; Deborah C. Pinto, PhD; Julie M. Fleischman, PhD; Christian Crowder, PhD; Jennifer C. Love, PhD; Sharon M. Derrick, PhD; Christopher S. Greeley, MD; Marcella Donaruma-Kwoh, MD; Angela Bachim, MD

11:30 a.m. - 1:00 p.m.  A44  Pediatric Posterior Rib Terminus Defects: An Investigation of a Potential Mimic of Traumatic Injury
Jason M. Wiersema, PhD*; Miriam E. Soto Martinez, PhD; Deborah C. Pinto, PhD; Julie M. Fleischman, PhD; Dwayne A. Wolf, MD, PhD; Aubrie M. Sanchez, MS, MPH

11:30 a.m. - 1:00 p.m.  A45  Evaluating Bone Fracture Healing and Variability Across Forensic Samples Using an Anabolic/Catabolic Model of Bone Repair
Donna C. Boyd, PhD*

11:30 a.m. - 1:00 p.m.  A46  Anthropological Examinations of the Hyoid, Thyroid Cartilage, and Cricoid Cartilage in Cases of Possible Neck Trauma
Christopher W. Rainwater, MS*; Esther H. Choo, BA

11:30 a.m. - 1:00 p.m.  A47  Utilizing Reflectance Transformation Imaging (RTI) for the Analysis of Saw Mark Characteristics on Kerf Walls: A Comparison of Traditional Imaging Techniques
Britny Martlin*; Carolyn Rando, PhD

*Presenting Author
ANTHROPOLOGY

11:30 a.m. - 1:00 p.m.  A48  Micro-Computed Tomography (micro-CT) Analysis of False Starts on Bones After Prolonged Exposure to Fire: An Experimental Study
Giovanni Cecchetto, MD, PhD*; Chiara Giraudo, MD; Ludovico Fava, MD; Chiara Vignotto, MD; Marco Bisceglia, MD; Amalia Lupi, MD; Paolo Fais, PhD; Massimo Montisci, PhD

11:30 a.m. - 1:00 p.m.  A49  Dehydration-Induced Quantitative Morphometric Alterations to Sharp Force Trauma on Bones
Taylor M. Flaherty, BS*; Carolyn Rando, PhD; Rebecca Watts, PhD

11:30 a.m. - 1:00 p.m.  A50  Fracture Patterns Associated With an Airplane Propeller Strike: A Case From the West Tennessee Regional Forensic Center
Jenna M.S. Watson, MA*; Benjamin J. Figura, PhD

11:30 a.m. - 1:00 p.m.  A51  A Survey of Peri-Mortem Vertebral Trauma in Historic Cases
Andrea Palmiotto, PhD; Brittany S. Walter, PhD*; Larkin F. Kennedy, PhD; Emily R. Streetman, PhD

11:30 a.m. - 1:00 p.m.  A52  Prediction of Bullet Type From Cranial Gunshot Trauma
Elizabeth A. DiGangi, PhD*; Tessa Somogyi, MA*; Elizabeth A. Evangelou, MA*; Gary D. James, PhD

11:30 a.m. - 1:00 p.m.  A53  Atypical Gunshot Wounds in a Controlled Experiment
Elizabeth A. Evangelou, MA*; Tessa Somogyi, MA*; Kevin E. Sheridan, PhD; Elizabeth A. DiGangi, PhD

11:30 a.m. - 1:00 p.m.  A54  Radiographic Evidence of Gunshot Defects in Skeletal Remains: A Preliminary Study
Naomi S. Levin, BA*

11:30 a.m. - 1:00 p.m.  A55  Fracture Pattern of Midface Ballistic Trauma
Casey File, MS*; Deborah C. Pinto, PhD*; Si Gao, MS; Jason M. Wiersema, PhD; Julie M. Fleischman, PhD; Miriam E. Soto Martinez, PhD

11:30 a.m. - 1:00 p.m.  A56  The Effects of Diabetes Mellitus (DM) on Bone Fracture Susceptibility and Repair With Applications to Non-Accidental Forensic Fracture Interpretation
Donna C. Boyd, PhD; Sadie R. Friend*

11:30 a.m. - 1:00 p.m.  A57  The Reliability of Morphoscopic Data From 3D Surface Scans
Sarah Schwing, BA, BS*

11:30 a.m. - 1:00 p.m.  A58  Experimental Assessment of the Surface Quality of 3D Printed Bones for Evaluative Interpretation in Forensic Anthropology Reconstructions
Rachael M. Carew, MSc*; Ruth M. Morgan, PhD; Carolyn Rando, PhD

11:30 a.m. - 1:00 p.m.  A59  Investigating the Impact of Opioid Abuse on Intracortical Porosity and Bone Cellular Density: A Synchrotron-Radiation Micro-Computed Tomography (SRμCT) Approach
Janna M. Andronowski, PhD*; Reed A. Davis, MS; Mary E. Cole, PhD

11:30 a.m. - 1:00 p.m.  A60  Oh Deer! Detecting Non-Human Skeletal Remains Using Bone Collagen Fingerprinting
Dana Austin, PhD*; Miranda M. Ehlers, BS*

11:30 a.m. - 1:00 p.m.  A61  Investigating the Predictive Relationships Between Oxygen and Hydrogen Isotopes in Bottled Water and Human Hair in Mexican Populations
Chelsey A. Juarez, PhD*; Belinda S. Akpa, PhD

*Presenting Author
11:30 a.m. - 1:00 p.m.  A62 An Assessment of How “Predictive” Human Geolocation Models Perform When Compared to a “Known” Geolocated Human Enamel Data-Set
Momoko Ueda, MA*; Lynne S. Bell, PhD

11:30 a.m. - 1:00 p.m.  A63 Subadult Body Mass Estimation From Skeletal Remains: Validation for Femoral Cross-Section Methods in a Contemporary Taiwanese Population
An-Di Yim, MA, MS*; Lyle W. Konigsberg, PhD; Hsiao-Lin Hwa, MD, PhD; Jo-Yu Chen, MD; Hon-Man Liu, MD

11:30 a.m. - 1:00 p.m.  A64 A Comparative Analysis of Nasal Profile Estimation Methods for Facial Reconstruction
Dong-Ho Eddie Kim, BSc*; Hankyu Kim; Deog-Im Kim, PhD; Dae-Kyoon Park, MD, PhD; U-Young Lee, MD, PhD; Yi-suk Kim, MD, PhD

11:30 a.m. - 1:00 p.m.  A65 The Application of Morphometric and Morphoscopic Features of the Nose in Facial Reconstruction: A Study on a North Indian Population
Tej Kaur, MSc*; Bahadur Singh, MSc; Kewal Krishan, PhD; Adarsh Kumar, MD

11:30 a.m. - 1:00 p.m.  A66 Nose Approximation From Cone-Beam Computed Tomography (CBCT) Using a New Computer-Assisted Method
Alison F. Ridel, PhD; Fabrice Demeter, PhD; Ericka N. L'Abbe, PhD*; Dirk Vandermeulen, PhD; Anna C. Oettle, PhD

11:30 a.m. - 1:00 p.m.  A67 The First Recovery and Identification Project of Missing Casualties in the Korean Demilitarized Zone (DMZ)
Yu Ryang Jang, PhD*; Nahyok Im, PhD

11:30 a.m. - 1:00 p.m.  A68 Historical and Cultural Complications of Repatriating Forensic “Cases” in the Southeastern United States
Alice F. Gooding, PhD*; Jonathan Eisenstat, MD

11:30 a.m. - 1:00 p.m.  A69 Skeletal Preparation Using a Modified Steam Kettle: A Fast, Easy, and Low-Maintenance Method for Processing Human Remains
Kerianne Armelli, MS*; Jered B. Cornelison, PhD; Carolyn V. Isaac, PhD

11:30 a.m. - 1:00 p.m.  A70 Salary, Wage Transparency, and Forensic Anthropology
Nicholas V. Passalacqua, PhD*; Elaine Y. Chu, MA; Marin A. Pilloud, PhD

11:30 a.m. - 1:00 p.m.  A71 Learning From Our Casework: The Forensic Anthropology Database for Assessing Methods Accuracy (FADAMA)
Cris E. Hughes, PhD*; Chelsey A. Juarez, PhD; Katharine Chapman Pope, MA; Brian F. Spatola, MA

11:30 a.m. - 1:00 p.m.  A72 3D Slicer as a Tool for Creating Virtual Bone Models From Computed Tomography (CT) Data: Toward Validating a Step-By-Step Method
Madeline H. Robles, MS, MRes*; Rachael M. Carew, MS; Ruth M. Morgan, PhD; Carolyn Rando, PhD

11:30 a.m. - 1:00 p.m.  A73 Gerdy’s Tubercle Shape and Associated Biomechanical Factors
Hailey Collord-Stalder, BA*; Nathan Blair, BS*

11:30 a.m. - 1:00 p.m.  A74 Fatal Shotgun Trauma to the Cranium With Discrimination Between Manners of Death
Samantha W. Coberly, MA*
## Issues Surrounding Human Rights and Migration

*Presenting Author
3:00 p.m. - 3:15 p.m.  A83  Crossing Borders and Conflict: The Complex Circumstances of Those Who Disappear in Armed Conflict and the Simple Duty of Care to Bring Them Home
Laurel Clegg, MSc*; Derek Congram, PhD*

3:15 p.m. - 3:30 p.m.  A84  The Role of Civil Society and the State in Transnational Identifications at the United States-Mexico Border
Kate Spradley, PhD*; Courtney C. Siegert, MA; Mercedes Doretti, MA; Robin C. Reineke, PhD; Eduardo Canales, BS; Christine M. Kovic, PhD

3:30 p.m. - 3:45 p.m.  A85  Empathy and the Identification of Missing Migrants
Cate E. Bird, PhD*; Jason D.P. Bird, PhD; Jose P. Baraybar, MSc, PhD; Derek C. Benedix, PhD

3:45 p.m. - 4:00 p.m.  A86  Assembling a Forensics of Structural Violence
Adam R. Rosenblatt, PhD*

4:00 p.m. - 4:15 p.m.  A87  Beyond Identification: Structural Vulnerability and the Investigation of Migrant Deaths
Angela Soler, PhD*; Jared S. Beatrice, PhD; Robin C. Reineke, PhD; Daniel L. Martinez, PhD

4:15 p.m. - 4:30 p.m.  A88  Families of the Missing: Forensic Obligations to Families During the Identification Process
Robin C. Reineke, PhD*; Mirza M. Monterroso, MA; Mercedes Doretti, MA; Carmen E. Osorno Solís; Rachel Daniell, MPhil; Eduardo Canales, BS

4:30 p.m. - 4:45 p.m.  A89  Revisiting the Concepts of “Race” and “Ancestry” Regarding Missing Migrants in the United States
Justin R. Maiers, MS*; Jonathan D. Bethard, PhD; Chaunesey Clemmons, BA

4:45 p.m. - 5:00 p.m.  A90  Policy, Ethics, and the Use of DNA in Migrant Families
Sara H. Katsanis, MS*; Diana J. Madden, MA; Valedie Oray; Jennifer K. Wagner, JD, PhD

5:00 p.m. - 5:15 p.m.  A91  Counting the Uncountable: Certification of Deaths in the Borderlands
Veena D. Singh, MD*

5:15 p.m. - 5:30 p.m.  Discussion
Adam R. Rosenblatt, PhD

*Presenting Author
**Thursday—Session II**

**Taphonomy and Postmortem Interval**

**Moderator:** Joan A. Bytheway, PhD  
Sam Houston State University  
Huntsville, TX  

**Co-Moderator:** Summer J. Decker, PhD  
University of South Florida  
Department of Radiology  
Morsani College of Medicine  
Tampa, FL

8:30 a.m. - 8:45 a.m.  **A92**  
The Detection and Characterization of Human Decomposition Products by Infrared Spectroscopy  
Afrin Lopa, MS*; Liotta N. Dowdy, MA; David S. Perry, PhD; Timothy Matney, PhD; Linda R. Barrett, PhD; Erin H. Kimmerle, PhD

8:45 a.m. - 9:00 a.m.  **A93**  
Geographic Information Software (GIS) Application for Building a Nationally Representative Forensic Taphonomy Database  
Katherine E. Weisensee, PhD*; Blake Lytle, MS; Patricia Carbajales, MS; Anne Shillinglaw, BS

9:00 a.m. - 9:15 a.m.  **A94**  
Why Hasn't the United Kingdom Got a Human Taphonomy Facility (HTF) Yet?  
Anna Williams, PhD*; Chris Rogers, PhD; John P. Cassella, PhD

9:15 a.m. - 9:30 a.m.  **A95**  
Changes in the Cadaver Decomposition Island (CDI) and Soil Chemistry: An 18-Month Time Series for Scavenged and Protected Human Cadavers  
Jacqueline A. Aitkenhead-Peterson, PhD*; Haeli Kennedy; Jasmine Garcia; Joan A. Bytheway, PhD

9:30 a.m. - 9:45 a.m.  **A96**  
The Importance of Taphonomic History When Conducting Histological and Isotopic Analyses on Bone  
Rebecca Reid, MSc*; Miranda Jans, PhD; Lesley A. Chesson, MS; Rebecca J. Wilson-Taylor, PhD; Gregory E. Berg, PhD

9:45 a.m. - 10:00 a.m.  **A97**  
Prediction of Minimum Postmortem Submersion Interval (PMSImin) Based on Eukaryotic Community Succession on Skeletal Remains Recovered From an Aquatic Environment  
Sala D. Randall, BS*; Claire M. Cartazzo, MS; Tal Simmons, PhD; Jenise Swall, PhD; Baneshwar Singh, PhD

10:00 a.m. - 10:30 a.m.  
**Break**

**Data-Driven Strategies for Investigating the Deaths of Missing Migrants**

**Moderator:** Kate Spradley, PhD  
Texas State University  
San Marcos, TX  

**Co-Moderator:** Donovan M. Adams, MS  
University of Nevada, Reno  
Reno, NV

10:30 a.m. - 10:45 a.m.  **A98**  
Quantifying Missing Migrant Antemortem Data and Their Identification Significance  
Mercedes Doretti, MA*; Carmen E. Osorno Solís; Karla Hernandez Mares, MA; Laura Eliz Alexa Sevilla Maldonado; Rachel Daniell, MPhil

*Presenting Author
ANTHROPOLOGY

10:45 a.m. - 11:00 a.m.  A99  DNA Identifications of Migrant Remains at the Pima County, Arizona, Office of the Medical Examiner (2000-2019)  
Caitlin C.M. Vogelsberg, PhD*; Robin C. Reineke, PhD; Mirza M. Monterroso, MA; Jennifer M. Vollner, PhD; Bruce E. Anderson, PhD

11:00 a.m. - 11:15 a.m.  A100  Investigating Unidentified Migrant Remains Across Texas Jurisdictions: An Analysis of Positive Identifications by Operation Identification at Texas State University  
Molly A. Kaplan, BA*; Molly Miranker, MA; Kate Spradley, PhD; Courtney C. Siegert, MA; Chloe P. McDaneld, MA

11:15 a.m. - 11:30 a.m.  A101  The Application of Geographic Information Systems (GIS) to the Migrant Crisis in South Texas: Modeling Migration in Brooks County, Texas  
Courtney C. Siegert, MA*; Sophia Mavroudas, MA; Devora S. Gleiber, MA; Nicholas P. Herrmann, PhD; Kate Spradley, PhD

11:30 a.m. - 11:45 a.m.  A102  NamUs Location Data: Cluster Analysis of Migrant Deaths at the Texas-Mexico Border From 1990 to 2017  
Molly Miranker, MA*; Alberto Giordano, PhD

11:45 a.m. - 12:00 p.m.  Discussion  
Dawnie Wolfe Steadman, PhD

12:00 p.m. - 1:00 p.m.  Lunch

Puerto Rico: Crossing Regional, Discipline, and Cultural Borders to Strengthen a Criminal Justice System

Moderator: Matthew J. Gamette, MS  
Idaho State Police Forensic Services  
Meridian, ID  
Co-Moderator: Katie M. Rubin, PhD  
Defense POW/MIA Accounting Agency  
Joint Base Pearl Harbor-Hickam, HI

1:00 p.m. - 1:15 p.m.  A103  Operational and Leadership Assessment During the Puerto Rico Forensic Science Project: How the American Society of Crime Laboratory Directors (ASCLD) Lab Directors and Forensic Scientists Assisted the Puerto Rico Laboratory After Hurricane Maria  
Matthew J. Gamette, MS*; Amie Ely, JD*

1:15 p.m. - 1:30 p.m.  A104  Puerto Rico Forensic Science Project: The Puerto Rico Forensic Services Perspective  
Matthew J. Gamette, MS; Beatrice Zayas, PhD*

1:30 p.m. - 1:45 p.m.  A105  Infrastructure, Organization, and Challenges of the Puerto Rico Medical Examiner System  
Danny A. Milner, Jr., MD, MSc*

1:45 p.m. - 2:00 p.m.  A106  Decedent Tracking: A Need for an Accurate Headcount in the Medical Examiner’s Office  
Jennifer C. Love, PhD*

2:00 p.m. - 2:15 p.m.  A107  Challenges and Lessons Learned From Having an External Expert Step Into the DNA Laboratory  
Ray Wickenheiser, DPS*; Mariel Candelario Gorbea, MSFS*

2:15 p.m. - 2:30 p.m.  A108  The American Board of Forensic Anthropology (ABFA) Response to the Puerto Rico Bureau of Forensic Sciences (BFS): Partnering With the National Association of Attorney’s General and the American Society of Crime Laboratory Directors  
Dana Austin, PhD*; MariaTeresa A. Tersigni-Tarrant, PhD*
## Crossing Borders: International and Multidisciplinary Applications of Isotope Analysis in Forensic Anthropology

| Time       | Session                          | Title                                                                                                                                   | Presenters                                                                                     | Moderators                                              |

Friday

Trauma Analysis

Moderator: Vicki Wedel, PhD
Western University of Health Sciences
Pomona, CA

Co-Moderator: Sidney Thompson, BA
Indianapolis, IN

8:30 a.m. - 8:45 a.m. A117 Differentiating Handsaw Tooth Shape Based on the Analysis of the Kerf Floor Contour
Alexandra R. Klales, PhD*; Ashley B. Maxwell, PhD; Erin Chapman, PhD

8:45 a.m. - 9:00 a.m. A118 Forensic Fractography of Bone Using Computed Tomography (CT) Scans
Angi M. Christensen, PhD*; Summer J. Decker, PhD

9:00 a.m. - 9:15 a.m. A119 The Application of Fractography in Trauma Analysis of Complex Long Bone Fractures
Mariyam I. Isa, MA*; Todd W. Fenton, PhD; Lillian Antonelli; Patrick E. Vaughan, MS; Feng Wei, PhD

9:15 a.m. - 9:30 a.m. A120 The Fracture Healing Database: An Invaluable Online Resource for Known Age Fractures for Comparison and Research
Carolyn V. Isaac, PhD*; Jered B. Cornelison, PhD; Joseph A. Prahlow, MD

9:30 a.m. - 9:45 a.m. A121 Variation in Human Rib Failure Mechanisms in Experimental Anterior-Posterior Loading
Angela L. Harden, MA*; Yun-Seok Kang, PhD; Akshara Sreedhar, BS; Amanda M. Agnew, PhD

9:45 a.m. - 10:00 a.m. A122 Rib Fractures: An Experimental Approach to Identifying Intrinsic Sources of Variability
Amanda M. Agnew, PhD*; Angela L. Harden, MA; Akshara Sreedhar, BS; John H. Bolte, PhD; Yun-Seok Kang, PhD

10:00 a.m. - 10:15 a.m. Break

Biological Profile

Moderator: Debra Prince Zinni, PhD
Defense POW/MIA Accounting Agency
Joint Base Pearl Harbor-Hickam, HI

Co-Moderator: Victoria M. Dominguez, PhD
Lehman College
City University of New York
Bronx, NY

10:15 a.m. - 10:30 a.m. A123 Histological Age Estimation of the Femur Using Random Forest Regression
Michael W. Kenyhercz, PhD*; Christian Crowder, PhD; Victoria M. Dominguez, PhD

10:30 a.m. - 10:45 a.m. A124 Longitudinal Variation in Skeletal and Dental Development
Anna L.M. Rautman, MS*; Heather J.H. Edgar, PhD

10:45 a.m. - 11:00 a.m. A125 Subadult Age Estimation Using a Mixed Cumulative Probit and Its Application in KidStats
Kyra E. Stull, PhD*; Michael H. Price, PhD; Louise K. Corron, PhD; Elaine Y. Chu, MA

11:00 a.m. - 11:15 a.m. A126 Conditional Independence and Appropriate Number of Stages in Juvenile Dental Age Estimation
Valerie Sgheiza, MA*
11:15 a.m. - 11:30 a.m.  A127  Dental Morphology as a Key to Understanding the Population History of Latinos  
Rebecca L. George, MA*

11:30 a.m. - 11:45 a.m.  A128  Cranial Feminization Surgery Methods and Osteological Identification of Post-Operative Individuals  
Laura E. Cirillo, MA*; Jordan C. Deschamps-Braly, MD; Kyra E. Stull, PhD; Marin A. Pilloud, PhD

11:45 a.m. - 1:00 p.m.  Lunch

**Poster Session**

11:30 a.m. - 1:00 p.m.  A129  A Classification System of Thermal Damage to Human Remains  
Elayne J. Pope, PhD*; Alison Galloway, PhD*; Chelsey A. Juarez, PhD*

11:30 a.m. - 1:00 p.m.  A130  Quantitative Ancient and Forensic DNA Techniques for Maximum DNA Recovery From Thermally Altered Bones and Teeth  
Matthew V. Emery, PhD*; Katelyn L. Bolhofner, PhD; Stevie Winingear, MA; Robert F. Oldt, BS; Sreetharan Kanthaswamy, PhD; Jane E. Buikstra, PhD; Laura C. Fulginiti, PhD; Anne Stone, PhD

11:30 a.m. - 1:00 p.m.  A131  Assessing DNA Quality and Quantity From Cadaveric Blood Stored on Untreated Blood Cards: The Impact on Short Tandem Repeat (STR) Quality and the Utility of Variably Amplified Markers for the Individual Estimation of Trihybrid Ancestry and Admixture Proportions  
Frankie L. West, PhD*; Bridget E.B. Algee-Hewitt, PhD

11:30 a.m. - 1:00 p.m.  A132  Postmortem Submersion Interval (PMSI) Estimation From the Microbiome of Bone in a Freshwater River  
Claire M. Cartozzo, MS*; Baneshwar Singh, PhD; Jenise Swall, PhD; Tal Simmons, PhD

11:30 a.m. - 1:00 p.m.  A133  The Influence of Water Current on the Rate and Pattern of Decomposition  
Natalie Mirosch*; Vivienne G. Heaton, PhD; Jamie K. Pringle, PhD; Kristopher D. Wisniewski, PhD

11:30 a.m. - 1:00 p.m.  A134  Macroscopic Analysis and Scanning Electron Microscopy (SEM) of Immature Permanent Molars Immersed in Hydrochloric Acid (HCL, 38%)  
Christine Jones, PhD*; Tammy Bracewell, PhD*

11:30 a.m. - 1:00 p.m.  A135  A Paired Comparison of the Rate and Pattern of Decomposition in Small- and Large-Bodied Human Cadavers  
Gretchen R. Dabbs, PhD*; Christiane I. Baigent, MSc

11:30 a.m. - 1:00 p.m.  A136  The Differential Rate of Human Decomposition in an Enclosed Vehicle Compared to an Outdoor Environment  
West West, BS; Hannah Cervenka, BS; Haeli Kennedy*; Joan A. Bytheway, PhD

11:30 a.m. - 1:00 p.m.  A137  Location, Location, Location: Environmental Variation and Human Decomposition in Knoxville, Tennessee  
William D. Cawley, MA*; Derek A. Boyd, MA
11:30 a.m. - 1:00 p.m. A138 A Preliminary Decomposition Study Within the Willamette Valley (WV) of Oregon: Multi-Method Comparison and Sharp Force Trauma Effects
Cheyenne Collins*; Jeanne McLaughlin, PhD; Frances J. White, PhD

11:30 a.m. - 1:00 p.m. A139 Evaluating the Application of Multiple Postmortem Interval (PMI) Estimation Methods in Louisiana
Sophia I. Reck, MA*

11:30 a.m. - 1:00 p.m. A140 Utilizing Metabolomics Toward Time-Dependent Metabolite Monitoring in Different Postmortem Specimens During Human Decomposition
Katharina M. Höland, MS*; Shawn R. Campagna, PhD; Dawnie W. Steadman, PhD; Jennifer M. DeBruyn, PhD; Hayden McKee, MSc; Allison R. Mason, BS; Amanda May, PhD; Thomas Delgado; Sarah Schwmg, BA, BS

11:30 a.m. - 1:00 p.m. A141 Bacterial Community Succession: Postmortem Interval (PMI) Estimation of Forensic Anthropological Remains
Randi M. Depp, MS*; Luis L. Cabo, MS; Michael Foulk, PhD

11:30 a.m. - 1:00 p.m. A142 The Effects of Scavenging on a Donor From the Western Carolina University Forensic Osteology Research Station (FOREST)
Christine Bailey, MA*

11:30 a.m. - 1:00 p.m. A143 Coyote Pup Scavenging as Distinct From Adult Behavior: The Potential for Reproductive Patterns to Inform the Estimation of Postmortem Interval
Christiane I. Baigent, MSc*; David E. Kintz, Jr., BS*; Melissa A. Connor, PhD; Gretchen R. Dabbs, PhD

11:30 a.m. - 1:00 p.m. A144 The Patterns of Striped Skunk Scavenging on Human Remains
Alexander J. Smith, BA*; Melissa A. Connor, PhD

11:30 a.m. - 1:00 p.m. A145 Instars and Stripes: The Scavenging Behavior and Taphonomic Contribution of the Striped Skunk
Rachel E. Smith, BS*; Jane Wankmiller, PhD

11:30 a.m. - 1:00 p.m. A146 Out of the Jaws: Identifying Postmortem Alligator (A. mississippiensis) Scavenging on the Human Skeleton
Dayanira Lopez, MS*; Heather A. Walsh-Haney, PhD; Sunil P.A. Hewage

11:30 a.m. - 1:00 p.m. A147 Does Donor Skin Color Affect Total Body Scores (TBSs)?
Crystal L. Crabb, BS*; Megan F. Veltri, BS*

11:30 a.m. - 1:00 p.m. A148 Preliminary Investigations for Documenting Human Skeletal Remains in Obstructed Wooded Environments
Morgan J. Ferrell, BA*; John J. Schultz, PhD; Megan L. McCollum

11:30 a.m. - 1:00 p.m. A149 Refining Data Collection Parameters for the Photogrammetric Documentation of Outdoor Skeletal Scatter Scenes: Considering Ground Surfaces
Megan L. McCollum*; John J. Schultz, PhD; Morgan J. Ferrell, BA

11:30 a.m. - 1:00 p.m. A150 Identification of Bone Using an Alternate Light Source (ALS) in Terrestrial Pedestrian Searches
Sara M. Getz, PhD*; Christian Petersen, PhD; Tanyin Watson

*Presenting Author
11:30 a.m. - 1:00 p.m.  A151  A Retrospective Study of Forensic Fire Searches and Recoveries at Mercyhurst University: 1983-2019
Diana L. Messer, MS*; Andrea Ost, MS; Dennis C. Dirkmaat, PhD

11:30 a.m. - 1:00 p.m.  A152  An Evaluation of Mitochondrial DNA Success Rates in a Commingled Assemblage From the Cabanatuan Prisoner of War (POW) Cemetery
Mary S. Megyesi, PhD; Diana L. Messer, MS*; Jessica K. Juarez, PhD; Sarah M. Richer, PhD; Suni M. Edson, MS

11:30 a.m. - 1:00 p.m.  A153  Standardizing the Use of Grave Markers for Unidentified Migrant Remains in South Texas Cemeteries
Molly A. Kaplan, BA*; Kate Spradley, PhD; Mercedes Doretti, MA; Eduardo Canales, BS; Christine M. Kovic, PhD; Alberto Giordano, PhD; Nicholas P. Herrmann, PhD; Courtney C. Siegert, MA; Chloe P. McDaniel, MA; Molly Miranker, MA; Timothy P. Gocha, PhD

11:30 a.m. - 1:00 p.m.  A154  Assessing Fluctuating Asymmetry in the Crania and Lower Limb Bones of Two Modern Populations
Shelby Garza, MA*; Emilie Wiedenmeyer, BA; Kari Helgeson, MA; Kate Spradley, PhD

11:30 a.m. - 1:00 p.m.  A155  Migrants, Crime, and Unidentified Bodies: The Wits Human Identification Unit (HIU) Experience
Desiré Brits, PhD*; Maryna Steyn, PhD

11:30 a.m. - 1:00 p.m.  A156  A Multidisciplinary Identification Approach of Armed Conflict Victims Exhumed From La Resurrección Cemetery in Granada, Colombia
Alexandra Semma Tamayo, MS*

11:30 a.m. - 1:00 p.m.  A157  The Detection of Cancerous Lesions in Skeletal Remains Using Visual Methods and Radiographs
Sara Fatula, BS*

11:30 a.m. - 1:00 p.m.  A158  The Characterization of Peri-Mortem Trauma on World War II (WWII) German Pilots
Emeline Verna*; Laetitia Bouniol, MS; Emeline Sperandio, MS; Loic Lalys, PhD; Caroline Costedoat, PhD; Michel Signoli, PhD; Jean-marc Femolant, MS

11:30 a.m. - 1:00 p.m.  A159  Photogrammetry Using Multiple Camera Systems of Mass Graves in a Humanitarian Context
Sarah F. Skoropa, BA*; Roland Wessling, MSc

11:30 a.m. - 1:00 p.m.  A160  Age-At-Death Estimation Using Dental Cementum Increments: Validation and Limitations
Benoit Bertrand, PhD*; Vadim Mesli, MD; Anne A. Becart, DDS, PhD; Martine Vercauteran, PhD; Valéry C. Hédouin, MD, PhD; Didier Gosset, MD, PhD

11:30 a.m. - 1:00 p.m.  A161  Craniofacial Anthropometric Analysis Between the Nose and Nasal Aperture Utilizing 3D Computed Tomography (CT) Scanned Images From Korean Subjects
Joon Yeol Ryu*; Won-Joon Lee, MD

11:30 a.m. - 1:00 p.m.  A162  The Determination and Prevalence of Non-Forensic Specimens in an Unidentified Collection at the Georgia Bureau of Investigation (GBI)
Christopher M. Goden, BS*; Alice F. Gooding, PhD

Wednesday

Poster Session

11:30 a.m. - 1:00 p.m.  B1  Complex DNA Mixture Analysis: Massively Parallel Sequencing (MPS) of Rare Single Nucleotide Polymorphisms (SNPs)
Martha Petrovick, PhD*; Natalie Damaso, PhD; Tara Boettcher, BS; Josh Dettman, PhD; Darrell O. Ricke, PhD; Philip Fremont-Smith, MS; Kyleen E. Elwick, PhD; Mark F. Kavlick, PhD; James M. Robertson, PhD; Eric Schwoebel, PhD

11:30 a.m. - 1:00 p.m.  B2  Implementing Hematoxylin Into Casework at the North Carolina State Crime Laboratory
Lindsey Admire, MS*; Kristen Crawford, MS; Melanie Carson, BS; Samantha McDonald, BS; David M. Freehling, BS

11:30 a.m. - 1:00 p.m.  B3  The “Secondary Burial” in Southern Italy: How Traditional Funerary Practices Affect DNA Preservation in Forensic Human Identification
Ciro Di Nunzio, PhD*; Michele Di Nunzio*; Aldo Di Nunzio*; Pietranantonio Ricci, PhD; Matteo Borrini, PhD*

11:30 a.m. - 1:00 p.m.  B4  The Student Experience in Participating in a Collaborative Exercise for Methylation-Based Body Fluid Identification
Carly E. Mills, BS*; Yijian Cao, BSc; Daniele S. Podini, PhD; Hwan Young Lee, PhD

11:30 a.m. - 1:00 p.m.  B5  A Student Experience Evaluating the Ability of a Methylation-Based Age Prediction Model to Be Implemented in the Forensic Laboratory as Part of a Collaborative Study
Yijian Cao, BSc*; Carly E. Mills, BS*; Hwan Young Lee, PhD; Daniele S. Podini, PhD

11:30 a.m. - 1:00 p.m.  B6  A Comparison of InnoQuant® and Quantifiler® Trio as Quantification/Degradation Methods for Predicting Next Generation Sequencing (NGS) Success
Jessica M. McLamb, MS; Natalie Damaso, PhD; James M. Robertson, PhD*

11:30 a.m. - 1:00 p.m.  B7  Further Evaluation of a Dry Vacuuming Technique for Recovery of DNA From Handwritten Documents
Christian Hopkins, BS; Patrick McLaughlin, BS; Mechthild K. Prinz, PhD*

11:30 a.m. - 1:00 p.m.  B8  Eye and Skin Color Identity Single Nucleotide Polymorphisms (SNPs) Screening Using Polymerase Chain Reaction (PCR) High Resolution Melt (HRM) Assays
Lakin Prescott*; Farah Narmouq*; Kelly M. Elkins, PhD

11:30 a.m. - 1:00 p.m.  B9  Assessing Potential Inhibitory Effects of Personal Lubricant on the Ability to Detect Biomarkers Consistent With Semen, Saliva, and Vaginal Fluid
Catherine O. Brown, MSFS*; Heather E. McKiernan, PhD; Phillip Danielson, PhD; Kevin M. Legg, PhD

11:30 a.m. - 1:00 p.m.  B10  Developing a Forensically Relevant Single-Cell Interpretation Strategy for Human Identification
Amanda J. Gonzalez, MS*; Harish Swaminathan, PhD; Ken Duffy, PhD; Catherine M. Grgicak, PhD

11:30 a.m. - 1:00 p.m.  B11  High-Throughput and Simultaneous Analysis of 12 Cannabinoids in Hemp Oil Using Liquid Chromatography With Ultraviolet (LC-UV) Detection
Liguo Song, PhD*; Shashi B. Pathipaka, MS; James D. Leese, BS; Madison Chao, BS; Tranelle Collins, BS; John P. Westein, BS

*Presenting Author
11:30 a.m. - 1:00 p.m.  B12  Cannabinoid Content in Commercially Available Oils
Tiffany M. Matyja*; Kenyon M. Evans-Nguyen, PhD; John Struss, PhD

11:30 a.m. - 1:00 p.m.  B13  The Detection and Identification of Synthetic Cathinones by Portable Nano-Liquid Chromatography (Nano-LC) With Dual Wavelength Ultraviolet (UV) Detection
Marisa C. May, BS*; David C. Pavone, BS; Ira S. Lurie, PhD

11:30 a.m. - 1:00 p.m.  B14  Retrofiting Massively Parallel Sequencing (MPS) for HLA-DQA1 and Polymarker (PM) in Forensic Casework
Audrey V. Hoyle, BS*; Erin Weaver, BS*; Fabio Oldoni, PhD; Robert Lagacé, BS; Daniele S. Podini, PhD

11:30 a.m. - 1:00 p.m.  B15  A Method Development for Analyzing 17 Benzodiazepines and Metabolites Used in Crimes Using Solid Phase Extraction-Tandem Mass Spectrometry
Vadoud Niri, PhD*; Kimberly E. LaGatta, BS; Michaela Gysbers; Taylor Maslin; Shokouh Haddadi, PhD

11:30 a.m. - 1:00 p.m.  B16  “Free Range” Gunshot Primer Residue: A Study on Multiple Transfers of Gunshot Primer Residue
Christopher P. Chany, MS*; Thomas R. White, BS; Stephanie A. Freiwald, BS

11:30 a.m. - 1:00 p.m.  B17  Ambient Ionization Mass Spectrometry (AMS): A New Forensic Tool for Adhesive Tape Evidence Discrimination
Maureen E. Oliva, BS*; Yinglei Pu, BS; Dong Zhang, BS; Gerardo Gamez, PhD

11:30 a.m. - 1:00 p.m.  B18  Supplementary Viewing Techniques of Gunshot Residue (GSR) Utilizing Infrared (IR) and Fluorescence
Christopher L. Ardell, BS*; Zachary E. Weitzel, BS; Charles A. Smith, BS; Amanda L. Bazzarini, MS

11:30 a.m. - 1:00 p.m.  B19  The Development of a Rapid, Reliable Detection Method for Synthetic Cathinones
Mario O. Vendrell-Dones, BS*; Chiara Deriu, MS; Ling Wang, MS; Bruce R. McCord, PhD

11:30 a.m. - 1:00 p.m.  B20  A Validation Study of the Synthetic Cannabinoid 5-Fluoro PB-22
Trista Gray, BS*; Erin Shonsey, PhD

11:30 a.m. - 1:00 p.m.  B21  Metabolism of Furanylfentanyl in Fresh Human Hepatocytes: Detection and Confirmation of Furan Ring-Opened Carboxylic Acid Metabolite
Tatsuyuki Kanamori*; Yuki Okada, MS; Hiroki Segawa, PhD; Tadashi Yamamuro, PhD; Kenji Kuwayama, PhD; Kenji Tsujikawa, PhD; Yuko Togawa-Iwata, PhD

11:30 a.m. - 1:00 p.m.  B22  An Analysis of Smokeless Powders, Smokeless Powder Residues, and Pyrolysis Products by Gas Chromatography/Mass Spectrometry (GC/MS)
Emily C. Lennert, BS*; Candice Bridge, PhD

11:30 a.m. - 1:00 p.m.  B23  An Analysis of Test Exemplar Techniques in Relation to Footwear Examinations
Ismail M. Sebetan, MD, PhD*; Paul Stein, PhD*; Amy Laabs, MFS*

11:30 a.m. - 1:00 p.m.  B24  Magneto-Archimedes Levitation (MagLev) Separation of Drugs
Joe Bozenko, MSc*; Christoffer K. Abrahamsson, PhD; Michael J. Fink, PhD; Amit Nargarkar, PhD; Dan Preston, PhD; Shencheng Ge, PhD; George Whitesides, PhD

11:30 a.m. - 1:00 p.m.  B25  An Investigation Into the Use of Amino Acid Ratios to Distinguish Between the Hairs of Similar Individuals
Allison M. Macri*; Alyssa L. Marsico, PhD

*Presenting Author
11:30 a.m. - 1:00 p.m.  **B26**  A Comparison of Area of Origin Determination of Impact Spatter From Vertical and Horizontal Surfaces  
*Presenting Author*  
Alexis P. Johnson, BA*; Michael J. Van Stratton, BS; Melissa M. Bailey, PhD

11:30 a.m. - 1:00 p.m.  **B27**  An Analysis of Organic and Inorganic Gunshot Residues (OGSR and IGSR) Via Electrochemical Methods With Screen-Printed Carbon Electrodes and Nanoparticle Modifications  
Colby E. Ott, MS*; Pedro Calderón-Arce, MS; Korina Menking-Hoggatt, MS; Courtney H. Vander Pyl, MS; Ana L. Alvarado-Gámez, PhD; Tatiana Trejos, PhD; Luis E. Arroyo, PhD

11:30 a.m. - 1:00 p.m.  **B28**  The Utilization of Classical Forensic Methods in the Study and Preservation of Human History and Cultures, the Conservation and Restoration of Objects of Art and Artifacts, as Well as the Detection of Art Fraud and Counterfeiting  
Nicholas Petraco, MS*; Mary Eng, BS

11:30 a.m. - 1:00 p.m.  **B29**  The Chemical Composition of Gunshot Residue (GSR) of Commonly Encountered Samples in Shooting Events in Kosovo by an Optimized and Validated Scanning Electron Microscopy With Energy Dispersive X-Ray Spectroscopy (SEM/EDS) Method  
Milazim Tahirukaj*; Blerim Olluri, PhD*; Andriana Surleva*

11:30 a.m. - 1:00 p.m.  **B30**  The Effect of pH on Presumptive Forensic Serological Testing  
Ariel B. Smart, BS*; Kimberlee Sue Moran, MSc; Ja'Neisha Hutley, MS; Stephanie L. Murphy, PhD

11:30 a.m. - 1:00 p.m.  **B31**  Analyzing Gamma-Hydroxybutyrate (GHB) by Fourier Transform Infrared Spectroscopy (FTIR) With Minimal Sample Preparation  
Anna Stuteville*; Lauren L. Richards-Waugh, PhD; Samantha M. Leach, MS; Morgan M. Levitas, MFS; Luke C. Short, PhD

---

**Thursday—Session I**

**Sample Collection**

*Moderator:* Janine Kishbaugh, MS  
Cedar Crest College  
Allentown, PA

8:30 a.m. - 8:45 a.m.  **B32**  Presumptive Test Compatibility With Efficient DNA Collection Swabs  
Bruce Budowle, PhD*

8:45 a.m. - 9:00 a.m.  **B33**  A Comparison of DNA Typing Success in Compromised Blood and Touch Samples Based on Sampling Swab Composition  
Ciara Rhodes; Memunatu J. Koroma, BS; Brittany C. Hudson, MS; Nubaha Islam, BS; Haris Munic, BS; Tracey Dawson Cruz, PhDr; Robert A. Bever, PhDr; Sarah J. Seashols Williams, PhDr*

9:00 a.m. - 9:20 a.m.  **B34**  A Comparison of DNA Profiles Recovered From Cotton Versus Nylon-Flocked Swabs From Postcoital Cervicovaginal Samples  
Kathleen M. Maguire, BS*; Janine Kishbaugh, MS; Jillian Conte, PhDr; Lawrence Quarino, PhDr

*Presenting Author
9:20 a.m. - 9:35 a.m. B35 Direct Polymerase Chain Reaction (PCR) Using MicroFLOQ® Direct Swabs With a Modified QIAGEN® Investigator 24plex GO! Protocol From Decomposing Human Remains for Disaster Victim Identification (DVI) Applications
Coral K. Loockerman, MS; Sheree R. Hughes, PhD; Rachel M. Houston, PhD*

9:35 a.m. - 9:55 a.m. B36 Criminalists at the Crime Scene: Where Do They Come From and Where Can They Go?
Rebecca E. Bucht, PhD*; Michelle D. Miranda, PhD*; Claude Roux, PhD*; Sheila Willis, PhD*

9:55 a.m. - 10:10 a.m. Break

**Body Fluids and Screening**

*Moderator: Sabrina S. Seehafer, PhD Ankeny, IA*

10:10 a.m. - 10:25 a.m. B37 The Utilization of Sex Hormone Antibodies for Screening and Separation of Trace Biological Mixtures
Kristin Jones, BS*; Susan Greenspoon, PhD; Christopher J. Ehrhardt, PhD

10:25 a.m. - 10:40 a.m. B38 Classification of Body Fluid Source in Dried Samples Using a Panel of MicroRNAs (miRNAs)
Ciara Rhodes*; Annabelle C. Campbell, BSc; Carolyn Lewis, BS; Tracey Dawson Cruz, PhD; Edward Boone, PhD; Sarah J. Seashols Williams, PhD

10:40 a.m. - 11:00 a.m. B39 A Determination of the Optimal Method for the Detection of Vaginal Fluid
Melissa Rogers*; Lawrence Quarino, PhD; Amrita Lal-Paterson, MSFS; Janine Kishbaugh, MS

11:00 a.m. - 11:15 a.m. B40 Forensic Body Fluid Identification Using Microbiome Signature Attribution Through 18S Recombinant DNA (rDNA) High-Throughput Sequencing
Alyssa Daniels*; Ines Benaissa, BS; Sarah J. Seashols Williams, PhD; Baneshwar Singh, PhD; Denise Wohlfahrt, BS; Kathleen D. Brim, BS; Eric A. Abshier, MS; Francy S. Nogales, BS; Haris Mukan, BS; Angela L. Brand, MS

11:15 a.m. - 11:30 a.m. B41 Integration of Microchip Electrophoresis and a Validated Messenger RNA (mRNA) Panel as a Novel Approach to Forensic Body Fluid Identification
Tiffany R. Layne, MS*; Rachel I. Fleming, PhD; Dion Sheppard, MS; Andrew Sarman, MS; John Bone, BS; James P. Landers, PhD

11:30 a.m. - 12:00 p.m. B42 Advances in the Development of Portable Surface-Enhanced Raman Spectroscopy (SERS) for Rapid, Sensitive, Confirmatory Identification of Human Body Fluids
Miranda L. Shaine, BS; Richard S. Andino, PhD; Ranjith Premasiri, PhD; Harrison Ingraham, BS; Amy N. Brodeur, MFS; Lawrence Ziegler, PhD*

11:50 a.m. - 12:00 p.m. Discussion

12:00 p.m. - 1:00 p.m. Lunch

*Presenting Author

CRIMINALISTICS

11:30 a.m. - 1:00 p.m. B69 A Non-Destructive Genomic Analysis of Single Pollen Grains
   Luz J. Kelley, MS*; Bryan McCullough; Elizabeth J. Rose, BS; Matthieu Baudelet, PhD;
   Mauro Martinez Labrador, MPh

11:30 a.m. - 1:00 p.m. B70 The Enhancement of Human Scent Profiles as Forensic Evidence
   Alice B. Boone, BS*; Kenneth G. Furton, PhD; Howard K. Holness, PhD

11:30 a.m. - 1:00 p.m. B71 Bondage Practices in an Asphyxiation Death: An Accidental Death
   Alberto Alongi*; Elvira Ventura Spagnolo, MD*; Gennaro Baldino, MD*;
   Cristina Mondello, MD; Antonina Argo, PhD

11:30 a.m. - 1:00 p.m. B72 The Characterization of Volatile Organic Compounds (VOCs) Present in the
   Headspace of Decomposing Livestock, Fish, and Human Remains
   Jisook Min, PhD*; Youngwoong Han; Bohyun Kim; Young-Shin Go; Seh Yeon Park;
   Sangcheol Heo; Kiwook Kim, MS; Giwon Park

11:30 a.m. - 1:00 p.m. B73 An Assessment of Elemental Homogeneity in Glass Using Micro-X-Ray Fluorescence
   Spectroscopy (µ-XRF) and Laser-Induced Breakdown Spectroscopy (LIBS)
   Oriana Ovide*; Zachary B. Andrews*; Ruthmara Corzo, PhD; Tatiana Trejos, PhD

11:30 a.m. - 1:00 p.m. B74 The Identification of the Polymer-Bounded Drugs on the Fabric Surface: A Challenge
   to the Forensic Drug Analysts
   Shahnaz Akhtar, MPhil*; Abdul Razaq, MPhil*; Khalid S. Feras, MPhil*;
   Muhammad Irfan Ashiq, PhD*; Mohammad A. Tahir, PhD

Sample Prep and Extraction

Moderator: Daniele S. Podini, PhD
Co-Moderator: Katherine B. Gettings, PhD
Department of Forensic Science
National Institute of Standards and Technology
Washington, DC
Gaithersburg, MD

1:00 p.m. - 1:15 p.m. B75 The Influence of DNA Extraction Methods on the Quantity and Quality of Retained
   Genetic Material
   Brian Kemp*; Kristine G. Beaty, PhD; Brittany L. Bingham, BA; Upuli A. DeSilva;
   Mary Faith Flores; Cara Monroe; Jodi Lynn Barta, PhD

1:15 p.m. - 1:30 p.m. B76 Where, Oh Where, Has the DNA Gone?
   Kristine G. Beaty, PhD*; Brittany L. Bingham, BA; Upuli A. DeSilva; Mary Faith Flores;
   Cara Monroe; Jodi Lynn Barta, PhD; Brian Kemp

1:30 p.m. - 1:45 p.m. B77 Battling the Backlog: A Novel Bioanalytical System for the Separation and Collection
   of Intact Spermatozoa
   Sarah Wright*; Norman Dovichi, PhD

1:45 p.m. - 2:00 p.m. B78 Optimization of Speed-Vacuum Centrifugation as a Method of Sample Concentration
   for Successful Analysis of Low Template DNA Samples
   Heather V. Milnthorp, MSFS*; Chandra Bagley, MSFS; Phillip Danielson, PhD;
   Heather E. McKiernan, PhD

2:00 p.m. - 2:15 p.m. B79 The Application of Optical Trapping to Obtain Single-Source Short Tandem
   Repeat (STR) Profiles From Forensically Relevant Body Fluid Mixtures With
   Modified DNA Analysis Workflow
   Benjamin J. OBrien, BS*; Michael K. Valle, BS; Nicole A. Auka, MSFS;
   Tracey Dawson Cruz, PhD; Joseph E. Reiner, PhD; Sarah J. Seashols Williams, PhD

*Presenting Author
2:15 p.m. - 2:30 p.m.  B80  The Development and Automation of a Swab In-DNA Out Platform Using Dynamic Solid Phase Extraction (SPE)  
Leah M. Dignan, BS*; Kimberly Jackson; Michael Shane Woolf, MS; Christopher J. Tomley, BS; James P. Landers, PhD

2:30 p.m. - 2:45 p.m.  Break

Non-Human DNA

Moderator: Andrew J. Schweighardt, PhD  
Northport, NY  
Co-Moderator: Nasir A. Butt, PhD  
Cuyahoga County Medical Examiner’s Office  
Cleveland, OH

2:45 p.m. - 3:00 p.m.  B81  Developing Investigative Leads and Potential Evidence in Wildlife Crime: Consideration of Human DNA Recovery From Handled Eggs and Birds of Prey Feathers  
Katherine L. Wood, MS; Georgina E. Meakin, PhD*

3:00 p.m. - 3:15 p.m.  B82  Pyrosequencing-Based DNA Analysis for Species Identification  
Mirna S. Ghemrawi, MS*; Frank Fischinger, MS; Mark Guilliano, PhD; George T. Duncan, PhD; Bruce R. McCord, PhD

3:15 p.m. - 3:30 p.m.  B83  A Short Interspersed Nuclear Element (SINE) -Based Multiplex Quantitative Real-Time Polymerase Chain Reaction (qPCR) Assay for Human-Dog-Cat Species Identification and DNA Quantification  
James W. Liang, BS*; Heather G. Miller Coyle, PhD

3:30 p.m. - 3:45 p.m.  B84  Using Environmental DNA (eDNA) and Vertebrate Metabarcoding to Characterize Biological Communities: A New Method for Conservation Genetics and Wildlife Forensics  
Hillary L. Eaton, PhD*; Catherine E. Benson, PhD; Matthew J. Valente, MS; Courtney S. Turner-Rathbone, BS

3:45 p.m. - 4:00 p.m.  B85  Human Identity From the Mosquito Midgut Using GlobalFiler™ Express  
Mollie S. Comella*; Joann Butkus; Scott Lindner, PhD; Reena Roy, PhD

4:00 p.m. - 4:15 p.m.  B86  Signatures of Suicide in the Human Postmortem Microbiome  
Katelyn A. Smiles*; Jennifer L. Pechal, PhD; Carl J. Schmidt, MD; Heather R. Jordan, PhD; M. Eric Benbow, PhD

4:15 p.m. - 4:30 p.m.  B87  The Impact of Environmental Exposure and Chemical Contaminants on Microbial Signature Associated With Forensically Relevant Human Biological Samples  
Denise Wohlfahrt, BS*; Francy S. Nogales, BS; Raquel Green, BS; Najai Bradley; Kathleen D. Brim, BS; James P. Brooks, PhD; Sarah J. Seashols Williams, PhD; Baneshwar Singh, PhD

4:30 p.m. - 4:45 p.m.  B88  A Multidisciplinary Effort to Identify the Cat Killer of Silicon Valley  
Jeremiah Garrido, BS*; Christina D. Lindquist, MS*; Michelle L. Bell, BA*

4:45 p.m. - 5:00 p.m.  Discussion

*Presenting Author
Thursday—Session II

Multidisciplinary Session: Criminalistics II & Engineering & Applied Sciences

Moderator: Sandra B. Sachs, PhD
Oakland Police Department
Oakland, CA

8:30 a.m. - 8:45 a.m.  B89  “A Gun Too Far”—Reconstruction of a Homicide
Alexander Jason, BA*

8:45 a.m. - 9:00 a.m.  D29  Who Was Texting During the Alleged Kidnapping and Rape?
Carole E. Chaski, PhD*

9:00 a.m. - 9:15 a.m.  B90  Crowbar Paints in Forensic Investigations With In-Depth Techniques: A Casework
Investigation and the Start of a Multi-Technique Database
Peter de Joode; Xiaoma Xu, PhD; Jill R. Klaasse; Maurice Olderiks; Zita Y. van Zanten;
Gerard J.Q. van der Peijl, PhD*

9:15 a.m. - 9:30 a.m.  D30  Electrical Fire or Arson Crime?
Helmut G. Brosz, BASc*

9:30 a.m. - 9:45 a.m.  B91  The Refinement and Application of a Kinetic Model to Predict the Evaporation of
Gasoline for Fire Debris Analysis
Amanda L. Setser, MS*; Victoria L. McGuffin, PhD; Ruth Waddell Smith, PhD

9:45 a.m. - 10:15 a.m.  D31  When Law Enforcement Relies on Some On-Board Vehicle Crash Data to Reconstruct a
Crash Reconstruction in Criminal Prosecution, but the Overlooked Data is Exculpatory
Billy S. Cox, Jr.*

10:15 a.m. - 10:30 a.m.  Break

10:30 a.m. - 10:45 a.m.  B92  Photogrammetry Using Visible, Infrared, Hyperspectral, and Thermal Imaging of
Crime Scenes
Gerda Edelman; Maurice Aalders*

10:45 a.m. - 11:00 a.m.  D32  Spoliation: Wilfull Loss of Evidence Crime in an Electrocution Case
Helmut G. Brosz, BASc*

11:00 a.m. - 11:15 a.m.  B93  Forensic Gait Analysis: The State of the Science and a Case Study
Michael S. Nirenberg, DPM*

11:15 a.m. - 11:30 a.m.  B94  Interdisciplinary Forensic Investigations—Combining Evidence in Complex Cases
Irene Kuiper; Jan A. De Koeijer, MD; Gerard J.Q. van der Peijl, PhD*

11:30 a.m. - 12:00 p.m.  D33  Criminal Engineering and Science Without Consequences: Why?
David R. Bosch, PhD*; Mark C. Pozzi, MS*; Kenneth J. Saczalski, PhD*;
Carley C. Ward, PhD; Parris Ward, JD

12:00 p.m. - 1:30 p.m.  Lunch

*Presenting Author
CRIMINALISTICS

Explosives, Firearms, GSR I

Moderator: Sandra B. Sachs, PhD
Oakland Police Department
Oakland, CA

1:30 p.m. - 1:50 p.m.  B95  See the Forest for the Trees: A Non-Targeted Approach to Discerning Exposure to Explosives Using Matrix-Assisted Laser Desorption/Ionization-Mass Spectrometry (MALDI-MS) and the Multivariate Statistical Model Random Forest
Cameron M. Longo, BS*; Samira Beyramysoltan, PhD; Rabi A. Musah, PhD

1:50 p.m. - 2:10 p.m.  B96  Smokeless Powder Additive Profiles and Compound-Specific Stable Isotope Signatures for Potential Brand Identification and Sample Discrimination
Claire J. Page*; Ryan Schonert, MPS; Todd Sowers, Wayne Moorehead, MS; Jack Hietpas, PhD

2:10 p.m. - 2:30 p.m.  B97  A Study of the Thermal Decomposition of Nitrate Ester Explosives by Gas Chromatography/Vacuum Ultraviolet Spectroscopy (GC/VUV) and Its Application to Post-Blast Debris
Courtney Cruse, BS*; John V. Goodpaster, PhD

2:30 p.m. - 2:50 p.m.  B98  An Update on the Academy Standards Board (ASB) Firearms and Tool Marks (FATM) Consensus Body
Gregory E. Laskowski, MPA*

2:50 p.m. - 3:10 p.m.  B99  Forensic Implications of a New Polymer Bullet
Peter J. Diaczuk, PhD*; Xiao Shan Law, MPS

3:10 p.m. - 3:30 p.m.  Break

Explosives, Firearms, GSR II

Moderator: Sandra B. Sachs, PhD
Oakland Police Department
Oakland, CA

3:30 p.m. - 3:50 p.m.  B100  The Power of Statistics and Machine Learning Applied to Orthogonal Rapid Methods for the Identification of Inorganic Gunshot Residue (IGSR) and Organic Gunshot Residue (OGSR) Markers
Korina Menking-Hoggatt, MS*; Colby E. Ott, MS; Courtney H. Vander Pyl, MS; Tatiana Trejos, PhD; James M. Curran, PhD*

3:50 p.m. - 4:10 p.m.  B101  The Characterization and Detection of Organic and Inorganic Firearm Discharge Residue (FDR) Using High-Performance Liquid Chromatography-Triple Quadrupole (HPLC-QQQ) and Host-Guest Chemistry
William Feeney, BS*; Suzanne Bell, PhD; Luis E. Arroyo, PhD; Tatiana Trejos, PhD

4:10 p.m. - 4:30 p.m.  B102  A Study on the Transfer of Gunshot Primer Residue (GSR) From Fabric to Other Surfaces
Christopher P. Chany, MS*; Thomas R. White, BS*; Rebekah D. Lloyd, BS; Ashley Pittman, BS; Juan A. Rojas, BS

4:30 p.m. - 4:50 p.m.  B103  The Relationship Between Terminal Velocity and Glass Fracture via .177 Caliber Steel BBs
Jocenel J. Beach, BA*; Linda C. Rourke, MS; Peter J. Diaczuk, PhD

*Presenting Author
CRIMINALISTICS

Friday—Session I

Massive Parallel Sequencing and SNPs

Moderator: Season E. Seferyn, MSFS
Onondaga County Center for Forensic Sciences
Syracuse, NY

8:30 a.m. - 8:45 a.m. B104 On the Migration Route: Challenges in the Forensic Application of Massively Parallel Sequencing (MPS) in Human Body Identification
Lucija Barbaric*, Ivana Horjan, PhD; Adela Makar; Andrea Ledic, MS

8:45 a.m. - 9:00 a.m. B105 Advances in Microhaplotypes (Microhaps) as a Comprehensive Forensic Marker
Fabio Oldoni, PhD; Leena Yoon, BS; Aishwaryaa Subramanian; Sathyaprakash Harihar; Drew A. Bader, Sharon C. Wootton, PhD; Robert Lagace, BS; Ryo Hasagawa, BS; Joseph P. Chang, BS; Kenneth Kidd, PhD; Daniele S. Podini, PhD*

9:00 a.m. - 9:15 a.m. B106 Assessing the Reliability of Single Nucleotide Polymorphism (SNP) Micro-Array Data for Forensic Genealogy
Robert A. Bever, PhD*; Jon Davoren, MS; Erin Sweeney, MS; Teresa Vreeland, BS; Mike Cariola, MFS

9:15 a.m. - 9:30 a.m. B107 Multi-Marker Match Statistics: Combining Results Across Sequence-Based Short Tandem Repeat (STR) and Identity Single Nucleotide Polymorphism (SNP) Markers
Katherine B. Gettings, PhD*; Andreas Tillmar, PhD; Peter M. Vallone, PhD

9:30 a.m. - 9:45 a.m. B108 An Evaluation of the Illumina® Infinium™ Omni Express Exome Bead Chip for Forensic Testing
Jon Davoren, MS*; Giovanna M. Vidoli, PhD; Amy Z. Mundorff, PhD

9:45 a.m. - 10:00 a.m. Break

Forensic Biology

Moderator: Baneshwar Singh, PhD
Virginia Commonwealth University
Richmond, VA

10:00 a.m. - 10:15 a.m. B109 DNA Storage Under Multiple Conditions
Nicole S. Cusack, BS*; Laksh Malik*; Daniele S. Podini, PhD; Moses S. Schanfield, PhD

10:15 a.m. - 10:30 a.m. B110 Optimizing an Integrated Workflow for Processing Paper Evidence in a Multidiscipline Crime Laboratory
Ashley Morgan, MS*; Patrick McLaughlin, BS; Mechthild K. Prinz, PhD

10:30 a.m. - 10:50 a.m. B111 Data Interpretation Guidelines for Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS) -Based Forensic Proteomics
Kristin Jarman, PhD*; Eric D. Merkley, PhD; Karen L. Wahl, PhD

10:50 a.m. - 11:05 a.m. B112 The Identification of Cadaver Liver Tissues Using Postmortem Transcriptome Biomarkers
Gulnaz T. Javan, PhD*; Sheree J. Finley, PhD; Erin K. Hanson, PhD; Silvia D. Visona, MD; Antonio M.M. Osculati, MD; John Ballantyne, PhD

11:05 a.m. - 11:20 a.m. Break

*Presenting Author
CRIMINALISTICS

Y-STRs and Mitochondrial DNA

Moderator: Taylor M. Dickerson III, MSFS
SNA International
Dover Air Force Base, DE

11:20 a.m. - 11:35 a.m. B113 An Analysis of Unusual Mutation Patterns in Father-Son Pairs Using a ForenSeq™ DNA Signature Prep Kit and a YFiler™ Plus Polymerase Chain Reaction (PCR) Amplification Kit
Tyler L. McDermott, MS*; Robin W. Cotton, PhD

11:35 a.m. - 11:55 a.m. B114 Mitochondrial Analysis of Challenging Samples Utilizing the ForenSeq™ mtDNA Control Region Solution on the MiSeq® FGx
Ryan Gutierrez, BS; LeAnn M. Harrel, BS; Sheree R. Hughes, PhD; Rachel M. Houston, PhD; Bobby Larue, Jr., PhD*

11:55 a.m. - 12:00 p.m. Discussion

12:00 p.m. - 1:00 p.m. Lunch

Poster Session

11:30 a.m. - 1:00 p.m. B115 Investigator-Mediated DNA Transfer
Michelle Le, BS*; Jason Moore, MA*; Steen Hartsen, BS; Georgina Jayne Lush

11:30 a.m. - 1:00 p.m. B116 An Assessment of Cell Suitability of Touch DNA Samples for Forensic DNA Profiling
Jessica Surratt*, Claire L. Glynn, PhD

11:30 a.m. - 1:00 p.m. B117 How Sharing ChapStick® Influences DNA Profiles Obtained From the Rim of Ceramic Mugs
Sidney Thompson, BA*; Mary Rebekah Judkins, BS; Laura K. Scheid, BA*; Emily Taner, BA; Krista E. Latham, PhD; Lindsey Williams, BS; Gay L. Bush, PhD

11:30 a.m. - 1:00 p.m. B118 The Evaluation of New Field and Laboratory Techniques for the Recovery of Touch DNA From Handled Improvised Explosive Devices (IEDs) Rendered Safe and Post-Blast
Wyatt Barie*, Heather E. McKiernan, PhD; Alan Stuart, MS; Heather L. Harris, JD; Thomas V. Walsh, MSFS; Megan M. Foley, MSFS

11:30 a.m. - 1:00 p.m. B119 Forensic Identification: An Investigation to Corroborate Volatile and Biological Profiles for Subject Identification
Chantrell Frazier, BS*; Kenneth G. Furton, PhD; DeEtta Mills, PhD

11:30 a.m. - 1:00 p.m. B120 The Reproducibility of Individual DNA Deposits Detected With Diamond Dye
Natalee Small-Davidson, BS*; Xiao Chen, BS; Tebah Browne, BS; Mechthild K. Prinz, PhD

11:30 a.m. - 1:00 p.m. B121 The Detection of Cryptic Single Nucleotide Polymorphism (SNP) Variants for Enhancing Human Identification Capabilities
Leena Yoon, BS*; Fabio Oldoni, PhD; Chiara Fantinato; Chantal Roth, PhD; Daniele S. Podini, PhD

11:30 a.m. - 1:00 p.m. B122 Lectin Blot-Based Profiling of Salivary Fluid Glycoproteins Distinguishes Different Patterns Among Individuals
Oluseyi A. Vanderpaye, PhD*

Criminalistics Believe It or Not!

Moderator: Sandra B. Sachs, PhD
Oakland Police Department
Oakland, CA

Co-Moderator: Jason L. Linder, MFS
Nebraska State Patrol
Lincoln, NE

7:00 p.m. - 9:00 p.m. Criminalistics Believe It or Not!

Please set aside some time Friday evening to join the casual Criminalistics Believe It or Not! session. The evening is intended to be an informal, entertaining, yet informative session; past presentations have regaled crowds with stories of bullets and explosions going awry, investigations of the same, how hair played a pivotal role in a case, unique or historical evidence substrates, koalas, the forensic story of capturing the Golden State Killer, interesting drug submissions, cats at crime scenes, the arc of building a case in court, and dare it be said, poop!

Just like last year, this year’s list of Believe It Or Not! speakers, as well as the subject matter of each presentation, will be kept under wraps until the last minute to keep our attendees in suspense.

After the more serious science has finished for the day, come and listen to your friends and colleagues share stories of their forensic (mis)adventures. If you’ve ever found yourself with nothing to do on the Friday night before the end of the annual meeting, this session is for you!

*Presenting Author
Friday—Session II

Latent Print I

Moderator: Sandra B. Sachs, PhD
Oakland Police Department
Oakland, CA

8:30 a.m. - 8:45 a.m.  B160  Ridge Drift: The Relevance of a Not-So-Rare Fingerprint Aging Phenomenon
Josep De Alcaraz-Fossoul, PhD*; Katherine A. Roberts, PhD; Cathy Johnson, MS; Carme Barrot, PhD; Ryan Tully-Doyle, PhD; Brooke W. Kammrath, PhD

8:45 a.m. - 9:00 a.m.  B161  Accelerated Development of Latent Prints on Thermal Papers
Brent M. Allred, PhD*; Emily Brisson, BS; Anthony Koertner, MS; Kalisha Gill, BS

9:00 a.m. - 9:15 a.m.  B162  A Microfluidic Device for the Identification of Biological Sex by Analysis of Fingermarks
Jamila S. Marshall Roberts, MS*; James P. Landers, PhD

9:15 a.m. - 9:30 a.m.  B163  Analyzing Latent Print Chemistry Using 2D Gas Chromatography
Jessica H. Kindell, BS*; Candice Bridge, PhD

9:30 a.m. - 9:45 a.m.  B164  Lessons Learned From Conducting Black-Box Evaluations in Multiple Disciplines
R. Austin Hicklin, PhD*; JoAnn Buscaglia, PhD*

9:45 a.m. - 10:00 a.m.  B165  Using a Smart Phone Special Gadget to Find and Collect Latent Fingerprints: Simplifying the Process
Maryah E.M. Haertel*; Eduardo J. Linhares; André L. Melo

10:00 a.m. - 10:15 a.m.  B166  A Cyanacrylate Chamber for Vehicles: Innovation and Astonishing Results in Brazilian Casuistry
Angela T. Oliveira, MS*; Arthur P. Vidal; Ayeska E. Maia; Cecília V. Jacintho; Débora H. Kist; Diana W. Moraes; João G. Souza Neto; Kenio W. Tida; Laura P. Macedo; Leandro S. Faria; Luana D. Batista; Osmar S. Oliveira Neto, MS; Marco A. Paulino

10:15 a.m. - 10:30 a.m.  B167  Fingerprints and Ancestry: Is It in the Details?
Jessica R. Ford*

10:30 a.m. - 10:45 a.m.  Break

Latent Print II/Impressions

Moderator: Sandra B. Sachs, PhD
Oakland Police Department
Oakland, CA

10:45 a.m. - 11:00 a.m.  B168  The Formation and Examination of Bloody Friction Ridge Patterns on Common Textile Materials Using Different Enhancement Techniques
Kaitlyn Chetney*; Ralph R. Ristenbatt III, MS

11:00 a.m. - 11:15 a.m.  B169  Fingerprint Error Rate on Close Non-Matches (CNMs)
Jonathan J. Koehler, PhD*; Shiquan Liu, PhD

*Presenting Author
CRIMINALISTICS

11:15 a.m. - 11:30 a.m.  B170  Testing the Accuracy and Reliability of Palmar Friction Ridge Comparisons: A Black Box Study
Heidi Eldridge, MS*; Marco De Donno; Christophe Champod, PhD

11:30 a.m. - 11:45 a.m.  B171  Unusual Fingerprint Patterns in a North Indian Population—Implications in Forensic Casework and Fingerprint Research
Neha Baryah, MS; Kewal Krishan, PhD*

11:45 a.m. - 12:00 p.m.  B172  Do We Understand the Factors That Influence Fingermark Detection?
Sebastien Moret, PhD*; Xanthe Spindler, PhD; Scott Chadwick, PhD; Christopher J. Lennard, PhD; Claude Roux, PhD

12:00 p.m. - 12:15 p.m.  B173  A Comparison of 2D Footwear Images Using Maximum Clique (MC) and Speeded-Up Robust Features (SURFs)
Soyoung Park, MS; Alicia L. Carriquiry, PhD*

12:15 p.m. - 12:30 p.m.  B174  Estimating the Probability of Randomly Acquired Characteristics (RACs) Locations on a Shoe Sole
Naomi Kaplan-Damary, PhD*; Micha Mandel, PhD; Yoram Yekutieli, PhD; Sarena Weisner, MS; Yaron Shor, MS

12:30 p.m. - 1:45 p.m.  Lunch

Ignitable Liquid Residue Analysis I and Related Models

Moderator: Sandra B. Sachs, PhD
Oakland Police Department
Oakland, CA

1:45 p.m. - 2:00 p.m.  B175  The Effects of Elevated Temperatures and Substrates on the Weathering of Ignitable Liquids
Caitlyn Wensel, BS*; Isaac Willis, BS; Zilin Fan, PhD; J. Tyler Davidson, MS; Glen P. Jackson, PhD

2:00 p.m. - 2:15 p.m.  B176  The Utilization of Portable Gas Chromatographic (GC) Systems Coupled With Capillary Microextraction of Volatiles (CMV) for On-Site Detection of Ignitable Liquid Residues (ILRs)
Michelle N. Torres, BS*; Nicole Valdes, BA; Jose R. Almirall, PhD

2:15 p.m. - 2:35 p.m.  B177  The Benefits of High-Resolution Mass Spectrometry for the Identification of Ignitable Liquids
Haylea Debolt*; Frank Dorman, PhD

2:35 p.m. - 2:55 p.m.  B178  A Foundational Study of Fire Debris Interpretation Using Quantitative Measures of Chromatographic Features
Brenda B. Christy, MS*; Reta Newman, MA; Kelsey R. Winters, MSFS; Alexandria Rossheim, MS

2:55 p.m. - 3:15 p.m.  B179  Human Scent Biometrics: Paving a Path Toward Improved Data Analysis
Vidia A. Gokool, BS*; Howard K. Holness, PhD; Kenneth G. Furton, PhD

3:15 p.m. - 3:30 p.m.  Break

*Presenting Author
Ignitible Liquid Analysis II With Pyrolysis Applications and Wood Analysis

Moderator: Sandra B. Sachs, PhD
Oakland Police Department
Oakland, CA

3:30 p.m. - 3:50 p.m. B180 The Practical Application of a Kinetic Model to Generate Predicted Reference Collection for the Identification of Ignitable Liquids in Fire Debris Samples
Briana A Capistran, BA*; Victoria L. McGuffin, PhD; Ruth Waddell Smith, PhD

3:50 p.m. - 4:10 p.m. B181 Expert System for Characterization Using AMDIS Plus Excel® (Escape): Connecting Cultural Heritage Research to Trace Evidence Analysis by Pyrolysis-Gas Chromatography/Mass Spectrometry (Py-GC/MS)
Michael R. Schilling, MS*; Kristina Fritz, BS*; Steven D. Phillips, BS

4:10 p.m. - 4:30 p.m. B182 A Comparison of Direct Analysis in Real-Time High Resolution Mass Spectrometry (DART®-HRMS) and Pyrolysis-Gas Chromatography/Mass Spectrometry (Py-GC/MS) in Automotive Paint Analysis
Kaitlin Jones, BS*; Mark Maric, PhD; Candice Bridge, PhD

4:30 p.m. - 4:50 p.m. B183 Barking Up the Wrong Tree: Detection and Identification of Illegally Traded Endangered Species of Wood Using Mass Spectral Techniques
Meghan Fogerty, MS*; Rabi A. Musah, PhD

Friday—Session III

Drugs I

Moderator: Jason L. Linder, MFS
Nebraska State Patrol
Lincoln, NE

8:30 a.m. - 8:45 a.m. B184 The Contamination of Homes With Methamphetamine: Are Current Assessment and Remediation Approaches Adequate?
Stewart Walker, PhD*; Kirstin Ross, PhD; Jackie Wright, PhD

8:45 a.m. - 9:00 a.m. B185 Multivariate Statistics for the Masses: A Novel, User-Friendly Method for Positional Isomer Differentiation Using Mass Spectral Data
Jennifer Bonetti, MS*

9:00 a.m. - 9:15 a.m. B186 On-Scene Detection of Low-Dose Fentanyl Tablets
Pauline E. Leary, PhD*; Sarah M. Davis, BS; M. Isabel Sanchez-Melo, MS; Leah Rynearson, BS; Lauren Vallee, BS; Emily Langlois; Zachary Lawton, MS; Koby Kizzare, PhD; Brooke W. Kammrath, PhD

9:15 a.m. - 9:30 a.m. B187 Mixed Illicit Drug Separation and Detection for the Point-of-Interdiction
Killian O'Connell, BS*; Michael Shane Woolf, MS; James P. Landers, PhD

9:30 a.m. - 9:45 a.m. B188 On the Fragmentation Behavior of Fentanyl and Its Analogs in Electrospray Ionization-Tandem Mass Spectrometry (ESI-MS/MS)
J. Tyler Davidson, MS*; Zachary J. Sasiere, BS; Younis F. Abiedalla, PhD; Randall Clark, PhD; Jack DeRuiter, PhD; Glen P. Jackson, PhD

# Implementation: Mobile Borders I

**Moderator:** Tanveer A. Zia, PhD  
**Co-Moderator:** Jason M. Paroff, JD  
**Charles Sturt University, Wagga Wagga, AUSTRALIA**  

### 10:00 a.m. - 10:15 a.m.

**C8** Attitudes of Citizens of the United States, the United Kingdom, and Turkey in Permits Requested by Mobile Apps  
*Burak Oclu, MS*; *Dilara Oner, MS*; *Hande Ermis, MS*; *Gursel Cetin, PhD*

### 10:15 a.m. - 10:35 a.m.

**C9** Apple® iCloud® Message Sync Forensic Investigations and Artifacts  
*Andrew N. Crouse, BA*; *Kaylee A. Schoepe, BS*; *Brian Smith, BS*; *Wesley Wong, BA*

### 10:35 a.m. - 10:55 a.m.

**C10** Joint Task Action Group (JTAG) and Chip-Off Data Analysis and Testing  
*Jenise Reyes-Rodriguez, BS*; *Richard Ayers, MS*

### 10:55 a.m. - 11:10 a.m.

**C11** Forensic Gait Analysis: A Strength of Evidence Evaluation From Closed-Circuit Television (CCTV) Footage  
*Dilan Seckiner*; *Claude Roux, PhD*; *Xanthe Mallet, PhD*; *Philip Maynard, PhD*; *Didier Meuwly, PhD*

### 11:00 a.m. - 12:00 p.m.

**C12** An Acceptable Resolution for the Identification of Knives Captured Within Closed-Circuit Television (CCTV) Imagery  
*James Zjalic, MSc*

### 11:25 a.m. - 12:00 p.m.

**C13** Grayshift® GrayKey: A Forensic Practitioner’s Perspective and Lessons Learned  
*Christina A. Malone, MSFS*; *Joseph Levi White, MS*

### 11:40 a.m. - 12:00 p.m.

**C14** 2D/3D Imaging for Forensic Ballistics Comparison Assessment  
*Sebastiano Battiato, PhD*; *Oliver Giudice, PhD*; *Luca Guarniera, MS*; *Antonino Barbaro Paratore, MS*; *Angelo Salici*

### 12:00 p.m. - 1:00 p.m.

**Lunch**

## Poster Session

### 11:30 a.m. - 1:00 p.m.

**C15** A Morphometric Analysis of Ears in Twins: An Aid to Forensic Personal Identification  
*Greta Cena, MD*; *Francesco Lupariello, MD*; *Nicolò D. Melloni, MD*; *Giancarlo Di Vella, MD, PhD*

### 11:30 a.m. - 1:00 p.m.

**C16** The Development of a Cleaning Protocol for Mobile Devices Contaminated With Controlled Substances  
*Rachel Valerio*; *Josh Brunty, MS*; *Lauren L. Richards-Waugh, PhD*; *Dale Mosley*

*Presenting Author*
Identification: Borders of Intelligence I

Moderator: Joseph Levi White, MS
Defense Forensic Science Center
Forest Park, GA

1:00 p.m. - 1:20 p.m.  C17  The Application of Artificial Intelligence (AI) in Digital Forensic Science
Zeno J. Geradts, PhD*

1:20 p.m. - 1:35 p.m.  C18  Cloth Classification With a Semi-Supervised Generative Adversarial Network (SGAN)
Jette Korthals Altes, BS; Andrea Macarulla, MSc; Owen Corrigan, PhD; Zeno J. Geradts, PhD*

1:35 p.m. - 1:55 p.m.  C19  A Wild Manhunt for Stego Images Created by Mobile Apps
Li Lin*; Wenhao Chen, BS; Stephanie Reinders, BA*; Yong Guan, PhD; Min Wu, PhD;
Jennifer Newman, PhD*

1:55 p.m. - 2:10 p.m.  C20  Control Point Selection for Analysis and Height Measurement From Closed-Circuit
Television (CCTV) Images
Angela Savva, BS; Domenic Raneri, BS; Sebastien Moret, PhD; Philip Maynard, PhD*

2:10 p.m. - 2:30 p.m.  C21  Using an Orthogonal Fingerprint Matcher to Boost Recognition of Contactless
Fingerprints
Mark A. Walch, MArch, MPH*

2:30 p.m. - 2:40 p.m.  Break

Innovation: Borders of Intelligence II

Moderator: Yong Guan, PhD
Iowa State University
Ames, IA

2:40 p.m. - 2:55 p.m.  C22  Machine Learning in Data From Crime-Related Mobile Devices: Bidirectional Recurrent
Neural Networks for Named-Entity Recognition (NER) in WhatsApp, Instagram™,
and Facebook® Messenger Text Conversations
Matheus S. Oliveira*; Daniel M. Caldas, MS; Thiago P. Faleiros

2:55 p.m. - 3:10 p.m.  C23  Steganography Detection Using Machine Learning (ML)
Joshua Ralls*; Shuangteng Zhang, PhD*

3:10 p.m. - 3:20 p.m.  C24  Digital Forensic Evidence Cracking an Ingenious Murder Cover-Up: Lochner's Principle
Re-Validated
Mohit Chauhan, MBBS, MD, DHM*

3:20 p.m. - 3:30 p.m.  C25  Quantum Digital Forensics: The Applications of Digital Forensics in a Quantum World
Suzzanne I. Myers*

3:30 p.m. - 3:50 p.m.  C26  Applications of a Convolutional Neural Network (CNN) for Automatic Classification of
Outsole Features
Miranda R. Tilton, MS*; Susan VanderPlas, PhD

3:50 p.m. - 4:00 p.m.  Break

*Presenting Author
**Inspiration: Beyond the Borders**

*Moderator: Andrew N. Crouse, BA  
Epiq Systems, Inc  
Washington, DC*

4:00 p.m. - 4:15 p.m. C27  
**An Effective Security Assessment Framework for Drone as a Service (DaaS): A Digital Forensic Technique**  
Fahad Salamh, PhD*; Umit Karabiyik, PhD; Marcus Rogers, PhD

4:15 p.m. - 4:30 p.m. C28  
**The Forensic Utility of Smart Doorbells**  
Christina A. Malone, MSFS*; Carl R. Kriigel, MA*; Seth M. Eisenberg; Hillary Lathrop, PhD

4:30 p.m. - 4:50 p.m. C29  
**Counterfeit Drug Detection Using Multi-Spectral Imaging**  
Brady Carter, PhD*

4:50 p.m. - 5:05 p.m. C30  
**Pathways to the Identification of Multinational Victims of Mass Disasters: The Role of Blockchain Technology**  
Shada Alsalamah, PhD*; Emilio Nuzzolese, PhD*

---

**Friday**

**Illumination: Finding the Borders II**

*Moderator: Jason Lewis, PhD  
University of South Florida  
Tampa, FL*

8:30 a.m. - 8:35 a.m.  
**Welcome**  
Marla E. Carroll, BS

8:35 a.m. - 8:50 a.m. C31  
**A Proposed Framework for Digital Video Authentication**  
Gregory S. Wales, MS*; Catalin Grigoras, PhD; Jeff M. Smith, MS

8:50 a.m. - 9:15 a.m. C32  
**Automated Standards-Based Normalization and Correlation of Mobile Device Evidence**  
Eoghan Casey, PhD*; Martina Reif, MS*; Quentin Rossy, PhD

9:15 a.m. - 9:30 a.m. C33  
**Known Source Artifacts Examination With Digital Forensic Tools**  
Hayden A. Hendrickson, BS; Amanda A. Moses, BS*; Kimberly Bradley, MS*; Shuangteng Zhang, PhD

9:30 a.m. - 9:55 a.m. C34  
**Teaching Digital Forensics to Young Women and Underserved Youth**  
Eoghan Casey, PhD*; Daryl Pfeif, BA

9:55 a.m. - 10:05 a.m.  
**Break**
Digital & Multimedia Sciences

Inquisitive: Mobile Borders II

**Moderator:** Walter T. Hart, MBA
Silicon Valley Bank
San Francisco, CA

10:05 a.m. - 10:30 a.m. C35  **iOS® Photo Vault Forensics**
Siddharth S. Chowdhury, MS*; Kayla Rux; Kathryn C. Seigfried-Spellar, PhD*

10:30 a.m. - 10:50 a.m. C36  **A Constantly Moving Target: Best Practices for Apple® iOS® Device Seizure, Access, and Extraction**
Joseph Levi White, MS*

10:50 a.m. - 11:05 a.m. C37  **Unlocking Fingerprint Scanner-Enabled Mobile Phones**
Christina A. Malone, MSFS*; Anthony Koertner, MS; Seth M. Eisenberg; Hillary Lathrop, PhD

11:05 a.m. - 11:20 a.m. C38  **A Forensic Comparative Analysis of the STRAVA™ Global Positioning System (GPS) Tracking Application on Companion Client Devices**
Christina A. Malone, MSFS*; Carl R. Kriigel, MA*; Seth M. Eisenberg; Hillary Lathrop, PhD

11:20 a.m. - 11:35 a.m. C39  **Android™ App Forensic Evidence Database (AndroidAED)**
Chen Shi, MS*; Chao-Chun Cheng; Connor Kocolowski; Emmett Kozlowski, BS; Justin Kuennen, BS; Matthew Lawlor, BS; Mitchell Kerr, BS; Jacob Stair, BS; Zhonghao Liao, PhD; Zhenqiang Gong, PHD; Yong Guan, PhD

11:35 a.m. - 11:50 a.m. C40  **The Use of the On-Screen Time Display for Authentication of Body-Worn Video**
Gretchel Lomboy, MSc*; James Zjalic, MSc

11:50 a.m. - 1:15 p.m. Lunch

Multidisciplinary Session: Digital & Multimedia Sciences & Jurisprudence—Digital Forensics I

**Moderator:** Maxwell Christopher Fabricant, JD
The Innocence Project
New York, NY

**Co-Moderator:** Danielle D. Ruttman, JD
Brooklyn, NY

1:15 p.m. - 1:30 p.m. F27  **The Need for a Full Specification for Digital Forensic Tool Validation**
Nicolas R. Hughes, JD*

1:30 p.m. - 2:00 p.m. C41  **Narrative Use Cases for Harmonizing Forensic Science Practices and Digital/Multimedia Evidence**
Mark Pollitt, PhD*; Eoghan Casey, PhD*

2:00 p.m. - 3:00 p.m. C42  **Digital Evidence in the United States Courts of Appeal**
Martin Novak, MPA*

3:00 p.m. - 3:15 p.m. Break

*Presenting Author

Posters Session

11:30 a.m. - 1:00 p.m.  D1  Amusement Park Accidents Caused by Fatigue Failure  
Chan-Seong Park, PhD*; Honh-Pil Jeon; Kwangsoo Choi, MA; Jae-mo Goh, PhD;  
Nam-Kyu Park, PhD

11:30 a.m. - 1:00 p.m.  D2  The Role of the Dynamometer in the Analysis of Manner of Death by Asphyxia:  
A Case Report and Review of the Literature  
Matteo A. Sacco, MD*; Fabrizio Cordasco, MD*; Francesco Sicilia, MD*; Luigi De Aloe, MD;  
Orazio Malfà, MD; Carmen Scalise, MD; Gionata Fragomeni, PhD; Pietrantonio Ricci, PhD;  
Santo Gratteri, MD; Isabella Aquila, MD, PhD*

11:30 a.m. - 1:00 p.m.  D3  Railway Fatalities: The Importance of the Autopsy for the Reconstruction of Railway  
Accidents  
Claudia Perrone, MD*; Ilaria Santoiaemma; Alessandra Stellacci; Salvatore Moliterno, MD;  
Lucia Nardelli; Alessio Ostuni, MD; Francesco Vinci, MD

Thursday—Session I

Weapons: Knives & Firearms

Moderator:  Kurt D. Weiss, MS  
Case Study Collision Science, LLC  
Santa Barbara, CA

8:30 a.m. - 8:50 a.m.  D4  A Comparison of Scientifically Valid and Traditional Firearm Trigger Mechanism  
Evaluation Techniques  
John Nixon, MBA*

8:50 a.m. - 9:10 a.m.  D5  A Defect Investigation of a Gun Rack  
Darren Franck, MSME*; Harold Franck, MSEE

9:10 a.m. - 9:30 a.m.  D6  The Effect of Fabric Tension on Knife and Tool Damage  
Patrick H. Geoghegan, PhD*; Debra J. Carr, PhD; Sarah V. Hainsworth, PhD

9:30 a.m. - 10:00 a.m.  D7  The Effectiveness of Overt and Covert Protection Against Attacks by Sharp Implements  
Sarah V. Hainsworth, PhD*; Patrick H. Geoghegan, PhD

10:00 a.m. - 10:15 a.m.  Break

*Presenting Author
Fire & Explosion Investigations

Moderator: Darren Franck, MSME
Advanced Engineering Associates, Inc
Charleston, WV

10:15 a.m. - 10:30 a.m. D8 The Impact of Ventilation on Fire Patterns in Full-Scale Structures: Experiments, Analysis, and Education
Daniel Madrzykowski, PhD*; Craig G. Weinschenk, PhD

10:30 a.m. - 10:50 a.m. D9 The Explosive Destruction of a Horse Trailer With Integrated Living Quarters
David R. Bosch, PhD*; Mark C. Pozzi, MS*

10:50 a.m. - 11:05 a.m. D10 An Investigation Into the Cause of a Fire Engulfing Two Collided Buses
Qiang Chen, PhD*; Xiao Hu*

11:05 a.m. - 11:25 a.m. D11 Understanding and Controlling the Potential Risk of Jobsite Construction Hazards
Daniel M. Honig, PE*

11:25 a.m. - 11:40 a.m. Break

Poster Session

11:30 a.m. - 1:00 p.m. D12 Improving the Accuracy of the Quantitative Method for Evaluating Fracture Load by Blunt Force: A Proposal for the Fracture Load Analysis Method Using the Victim's Bone Shape, Bone Mineral Density Distribution, and Soft Tissue Thickness
Tatsuya Fukuoka, ME*; Yasumi Ito, PhD; Ryuichi Yamada; Yoshiyuki Kagiyama, PhD; Tomotaka Matsubara; Sonoka Okura; Tetsuya Nemoto, PhD

11:30 a.m. - 1:00 p.m. D13 Physical Properties of Additive Manufacturing to Combat the Illicit Use of 3D Printing Technology
April Bowen, BS*; Ryan G. Zdenek; Brooke W. Kammrath, PhD; Maria-Isabel Carnasciali, PhD

11:30 a.m. - 1:00 p.m. D14 Hot-Air Ballooning—Rare as Disastrous Incidents: An Italian Case Report
Eloisa Maselli, MD; Aldo Di Fazio; Gianni De Giorgio*; Alessandro Dell’Erba, PhD

Samples, Magnets, & Trace Elements

Moderator: Harold Franck, MSEE
Advanced Engineering Associates, Inc
Charleston, WV

11:40 a.m. - 11:55 a.m. D15 Complexity vs. Uncertainty in Models
Willem A. Schreuder, PhD*

11:55 a.m. - 12:10 p.m. D16 Bulk and Micro-Scale Trace Element Analysis of Glass Standard Reference Materials (SRMs) Using Modern Nuclear Analytical Methods and Laser Ablation-Inductively Coupled Plasma/Mass Spectrometry (LA-ICP/MS)
Nicholas Sharp, PhD*; Jamie L. Weaver, PhD; Maria Martinez, PhD; Ruthmara Corzo, PhD; Rick Paul, PhD; Jose R. Almirall, PhD; Eric B. Steel

*Presenting Author
12:10 p.m. - 12:25 p.m.  D17  The Strange Case of the Magnet on the Electricity Meter: When Wrongly Executed Tests Show a Non-Existent Tampering Effect
Alessandro M. Ferrero, MSc*; Veronica Scotti, LLM

12:25 p.m. - 1:25 p.m.  Lunch

Forensic Linguistics & Research

Moderator: Sarah V. Hainsworth, PhD
Aston University
Birmingham, UNITED KINGDOM

1:25 p.m. - 1:45 p.m.  D18  Qualifications for Professional Work in Forensic Linguistics
Carole E. Chaski, PhD*

1:45 p.m. - 2:05 p.m.  D19  A Validation Test of SynAID in Authorship Attribution Using Legal Transcriptions
Timothy Habick, PhD*

2:05 p.m. - 2:25 p.m.  D20  Challenges and Opportunities for Integrating Epistemic and Evidential Information Into Author Recognition Systems
E. Allyn Smith, PhD*

2:25 p.m. - 2:45 p.m.  D21  Detecting Linguistic Markers of Religious Extremism in an Online Environment: A Pakistan Case Study
Mariam Dar, PhD*

2:45 p.m. - 3:05 p.m.  D22  Forensic Linguistic Research Collaboration Between an Industry Research Institute and a Forensic Science Laboratory
Carole E. Chaski, PhD*; Andrea Ledic, MS

3:05 p.m. - 3:25 p.m.  D23  Formalizing Spanish Markedness: Working Toward a Spanish Version of the Automated Linguistic Identification & Assessment System (ALIAS) Syntax-Based Authorship Identification (SynAID)
Angela Almela, PhD*; Pascual Cantos, PhD; Moisés Almela, PhD

3:25 p.m. - 3:40 p.m.  Break

Collision Analysis & Investigations

Moderator: David Pienkowski, PhD
University of Kentucky
Lexington, KY

3:40 p.m. - 4:00 p.m.  D24  Driver Seat and Fuel System Failure in a Rear-End Collision
Kurt D. Weiss, MS*; Mark C. Pozzi, MS*

4:00 p.m. - 4:15 p.m.  D25  Electrical Bike (E-Bike) Deceleration Analysis Using Advanced Electronic Systems
Berislav Barišić-Jaman, BS*; Igor Spoljaric, MA

4:15 p.m. - 4:30 p.m.  D26  Rear Seat Crashworthiness: Predictable Failures of Seats, Belts, Liftgates, Vehicle Structures, and Loss of Occupant Survival Space in Rear Impacts, Especially in the Third Row
Mark C. Pozzi, MS*; Carley C. Ward, PhD; Kenneth J. Saczalski, PhD*; Parris Ward, JD*; David R. Bosch, PhD*

*Presenting Author
Thursday—Session II

Multidisciplinary Session: Criminalistics II & Engineering & Applied Sciences

8:30 a.m. - 8:45 a.m. B89 “A Gun Too Far”—Reconstruction of a Homicide
Alexander Jason, BA*

8:45 a.m. - 9:00 a.m. D29 Who Was Texting During the Alleged Kidnapping and Rape?
Carole E. Chaski, PhD*

9:00 a.m. - 9:15 a.m. B90 Crowbar Paints in Forensic Investigations With In-Depth Techniques: A Casework Investigation and the Start of a Multi-Technique Database
Peter de Joode; Xiaoma Xu, PhD; Jill R. Klaasse; Maurice Olderik; Zita Y. van Zanten; Gerard J.Q. van der Peijl, PhD*

9:15 a.m. - 9:30 a.m. D30 Electrical Fire or Arson Crime?
Helmut G. Brosz, BASc*

9:30 a.m. - 9:45 a.m. B91 The Refinement and Application of a Kinetic Model to Predict the Evaporation of Gasoline for Fire Debris Analysis
Amanda L. Setser, MS*; Victoria L. McGuffin, PhD; Ruth Waddell Smith, PhD

9:45 a.m. - 10:15 a.m. D31 When Law Enforcement Relies on Some On-Board Vehicle Crash Data to Reconstruct a Crash Reconstruction in Criminal Prosecution, but the Overlooked Data is Exculpatory
Billy S. Cox, Jr.*

10:15 a.m. - 10:30 a.m. Break

10:30 a.m. - 10:45 a.m. B92 Photogrammetry Using Visible, Infrared, Hyperspectral, and Thermal Imaging of Crime Scenes
Gerda Edelman; Maurice Aalders*

10:45 a.m. - 11:00 a.m. D32 Spoliation: Wilfull Loss of Evidence Crime in an Electrocution Case
Helmut G. Brosz, BASc*

11:00 a.m. - 11:15 a.m. B93 Forensic Gait Analysis: State of the Science and a Case Study
Michael S. Nirenberg, DPM*

11:15 a.m. - 11:30 a.m. B94 Interdisciplinary Forensic Investigations—Combining Evidence in Complex Cases
Irene Kuiper; Jan A. De Koeijer, MD; Gerard J.Q. van der Peijl, PhD*

11:30 a.m. - 12:00 p.m. D33 Criminal Engineering and Science Without Consequences: Why?
David R. Bosch, PhD*; Mark C. Pozzi, MS*; Kenneth J. Saczalski, PhD*; Carley C. Ward, PhD; Parris Ward, JD

*Presenting Author
Friday

Head & Neck Trauma Research

Moderator: Kurt D. Weiss, MS
Case Study Collision Science, LLC
Santa Barbara, CA

8:30 a.m. - 8:55 a.m. D34 Head and Neck Trauma: BioMedical Engineering Analysis of Entrapment Testing
Laura L. Liptai, PhD*; Ellyson Maleski, BS*

8:55 a.m. - 9:10 a.m. D35 An Experimental Study of Inertial Mechanisms of Motorcycle Helmet Accident Retention Failures
Kenneth J. Saczalski, PhD*; Mark N. West, BS; Mark C. Pozzi, MS*; Todd Saczalski, BSMET

9:10 a.m. - 9:30 a.m. D36 The 1921 Death of Nino Martoglio, Pirandello’s Mentor: A Cold Case and Literature Review
Massimiliano Esposito, MD*; Giuseppe D. Albano, MD; Antonino Barbaro Paratore, MS; Sebastiano Battiato, PhD; Pasquale Malandrino, MD; Fabrizio Vanaria, MD; Sabrina Franco; Monica Salerno, MD, PhD; Giulio Di Mizio, MD, PhD; Cristoforo Pomara, MD, PhD

9:30 a.m. - 9:50 a.m. D37 Skull Fracture Risk: An Experimental Comparison Between Elastic (Drone) and Inelastic (Wood Block) Impacts Focused on Fracture Type and Tolerance Using Instrumented Postmortem Human Subjects (PMHS)
John H. Bolte, PhD*; David Stark, PhD; Amanda M. Agnew, PhD; Yun-Seok Kang, PhD

9:50 a.m. - 10:10 a.m. D38 Cervical Spine Injury of Postmortem Human Subjects in Rear-End Impacts
Yun-Seok Kang, PhD*; John H. Bolte, PhD

10:10 a.m. - 10:25 a.m. Break

Video Analysis & Vehicle System Forensics

Moderator: Robert D. Anderson, MS
Biomechanics Analysis
Tempe, AZ

10:40 a.m. - 10:50 a.m. D40 Forensic Motor Vehicle Accident Investigation
David Pienkowski, PhD*

10:50 a.m. - 11:10 a.m. D41 Body-Mounted Camera Motion Analysis—Accuracy and Validation of 3D Camera Match Solutions
Michael Callahan, BSME*; Brady Held, BFA*; Sean G. Snyder, BS*

11:10 a.m. - 11:30 a.m. D42 3D Computer Photogrammetric Analysis of Multiple Surveillance Cameras Synchronized Into a Single Data Set to Track the Movement of a Vehicle
Jorge Mendoza, BS, ME*

11:30 a.m. - 11:50 a.m. D43 Vehicle System Forensics and Criminal Investigations Involving Automobiles
Wesley Vandiver, BA*

*Presenting Author
11:30 a.m. - 1:00 p.m.  D44  The Development of an Intelligent Mobile Application to Enhance the Quality of Latent Fingerprint Acquisition
Nicholas Frey, BS*; Carilyn J. Santisteban, BS*; Khalid Noman*; Mingkui Wei, PhD; Jorn Chi-Chung Yu, PhD

11:30 a.m. - 1:00 p.m.  D45  The Bisected Man: An Uncommon Pattern of Injury in a Fatal Motorcycle Crash
Luigi Papi; Federica Gori, MD; Sara Turco, MD*; Alice Chiara Manetti, MD; Costanza Filomena
Wednesday

Poster Session

11:30 a.m. - 1:00 p.m.  E1 The Detection of Latent Bloodstains Covered With Three Types of Current Top-Selling Paint/Primer Mixtures Using BlueStar®
Mark Vecellio, MFS*; Catia P. Dombaxe*; Lisa B.B. Kasamba*; Devin Walker*

11:30 a.m. - 1:00 p.m.  E2 The Visualization of 9mm and .40 Caliber Gunshot Residue (GSR) From Various Ranges of Fire With Alternate Light Sources (ALS) and Infrared (IR) Imaging
Mark Vecellio, MFS*; Sarah V. Morello*; Ryan Greaney*

11:30 a.m. - 1:00 p.m.  E3 Forensic Art—Know the Terms: Understanding Forensic Art Terminology
Sandra R. Enslow, BA*; Daniel Marion, Jr., PhD*

11:30 a.m. - 1:00 p.m.  E4 Extraction and Quantification of DNA From Buccal Cells of Peruvian Coca Leaf Users and Non-Users
Maher Noureddine, PhD*; James A. Bailey, PhD; Gian C. Iannacone, MS; Martha R. Palma Malaga, MG; Michele Rosso, PhD; Santina Castriciano, BSc

11:30 a.m. - 1:00 p.m.  E5 No Lab, No Problem! Practical Active Learning Ideas for a Forensic DNA Course
Kelly L. Knight, MS*

11:30 a.m. - 1:00 p.m.  E6 A Unique Case of Death by Electrocution in Water in an Abandoned Building
Justin L. Wilson, BS*; Elizabeth R. Mooney, DO*

11:30 a.m. - 1:00 p.m.  E7 A Survey of Deaths in Judicial Control Areas in South Osaka
Alissa M. Shida, BS*; Kei Ikeda, MD; Aoki Yayoi, BA; Naoto Tani, MA; Tomoya Ikeda, PhD, MD; Takaki Ishikawa, MD, PhD

11:30 a.m. - 1:00 p.m.  E8 Death of a Five-Year-Old Child in a Drum-Type Washing Machine: An Autopsy Case Report
Alissa M. Shida, BS*; Naoto Tani, MA; Tomoya Ikeda, PhD, MD; Takaki Ishikawa, MD, PhD; Kei Ikeda, MD; Aoki Yayoi, BA

11:30 a.m. - 1:00 p.m.  E9 Parenting Behavior and Nutritional Deficits: Three Cases of Child Neglect
Luana Bonaccurso, MD*; Caterina Bosco, MD*; Lucia Tattoli, PhD; Francesco Lupariello, MD; Sara S. Raccalbuto, PsyD; Elena Coppo, MD; Giancarlo Di Vella, MD, PhD*

11:30 a.m. - 1:00 p.m.  E10 A Storm of Knives: Femicide and Attempted Suicide in an Ordinary Family
Maria Silvestre, MD; Giuseppe Bertozzi, MD*; Santina Cantatore; Dania De Carlo, MD; Stefania De Simone, MD; Angelo Montana, MD; Francesca Maglietta, MD*

11:30 a.m. - 1:00 p.m.  E11 Fatal Dog Attacks: A Case Report and the Application of a New Forensic Approach
Stefania De Simone, MD; Maria Silvestre, MD; Lorenzo Spagnolo, MD; Giuseppe Bertozzi, MD*; Mauro A. Ciavarella; Alessandra Radogna, MD; Francesco Sessa, MS*

11:30 a.m. - 1:00 p.m.  E12 Anabolic Androgenic Steroids (AASs) Use/Abuse: The First Italian Report
Francesco Sessa, MS*; Giuseppe Bertozzi, MD*; Francesca Maglietta, MD*; Luigi Cipolloni, MD, PhD*; Daniela Pisanelli, MS; Monica Salerno, MD, PhD*; Cristoforo Pomara, MD, PhD*

*Presenting Author
11:30 a.m. - 1:00 p.m. E13  Human Bones and the Estimation of the Postmortem Interval (PMI): An Experimental Study  Francesco Sessa, MS*; Santina Cantatore; Giuseppe Bertozzi, MD*; Francesca Maglietta, MD*; Luigi Cipolloni, MD, PhD; Daniela Pisanelli, MS; Pietrantonio Ricci, PhD

11:30 a.m. - 1:00 p.m. E14  Fatal Attraction: A Case Report of a Homicidal Drowning Involving a Couple  Michela Ferrara, MD*; Francesco Sessa, MS*; Alessio Marangelli; Luigi Cipolloni, MD, PhD; Lorenzo Spagnolo, MD; Santina Cantatore; Francesca Maglietta, MD*

11:30 a.m. - 1:00 p.m. E15  An Evaluative Look at Shotguns: Pellet Spread  Kimberly Butler-Derose, MFS*; Ismail M. Sebetan, MD, PhD*; Paul Stein, PhD*; Amy Zimmer, MS

11:30 a.m. - 1:00 p.m. E16  Examining Potential Degradation Between Antemortem and Postmortem Fingerprints  Anielle Duncan, BA*; Samantha Upton, BA*; Kathleen Flor-Stagnato, MA; Dawnie W. Steadman, PhD

11:30 a.m. - 1:00 p.m. E17  Training Needs for Search and Rescue (SAR) Teams During Mass-Disaster Fire Scene Recoveries: Lessons Learned From the 2018 California Camp Fire  Leigh Hayes*; Alyssa Straub, BA*; Eric J. Bartelink, PhD; Ashley E. Kendell, PhD; Colleen F. Milligan, PhD

11:30 a.m. - 1:00 p.m. E18  Ice Cold Cases: When Glaciers Give Back Corpses  Serena Maria Curti, MD*; Pasquale Beltempo, MD*; Maurizio Castelli, MD; Mirella Gherardi, MD

11:30 a.m. - 1:00 p.m. E19  An Overview of 3D Printing in Forensic Science: The Tangible Third-Dimension  Rachael M. Carew, MSc*; David Errickson, PhD

11:30 a.m. - 1:00 p.m. E20  The Detection of Sodium Hypochlorite Adulterated Foods and Salsas in a Poisoning Investigation  David S. Jackson, BS*; Lisa A. Kaine, BS; David F. Crockett, BS

11:30 a.m. - 1:00 p.m. E21  Applying a Standardized and Scientific Approach to Recognize and Investigate Co-Occurring Criminal Forms of Fatal and Non-Fatal Asphyxiation in Order to Broaden Assessments to Include the Possibility of Other Types of Criminal Asphyxiation That Include at Least One Type of Aquatic Asphyxiation  Andrea Zaferes, BA*; Allyson Cordoni, MSN*; Kathy Bell*; Kelsey P. McKay*

11:30 a.m. - 1:00 p.m. E22  An Evaluation of Various Swab Types for Recovery of Touch DNA From Firearms  Raven DeWeese, BS*; Catherine O. Brown, MSFS; Thomas V. Walsh, MSFS; Heather L. Harris, JD; Megan M. Foley, MSFS

11:30 a.m. - 1:00 p.m. E23  Validation of a Paper Analytical Device Through Analysis of Illicit Substances Found at Fatal Overdose Scenes  Tracy-Lynn E. Lockwood, BS*; Philip Hyunh; Katie Bailey; Alfarena Ballew, MBA; Brad Ray; Marya Lieberman, PhD

*Presenting Author

*Presenting Author
11:30 a.m. - 11:45 a.m.  E35  Examining the Impact of Trauma and Stress Across Forensic and Investigative Contexts  
J. Amber Scherer, PhD*; Amanda L. Farrell, PhD*; Timothy J. Ainger, PhD*

11:45 a.m. - 12:00 p.m.  E36  The Effect of the Medicolegal Evaluation on Asylum Seekers: The Proposal for a New Operating Model  
Antonietta Lanzarone*; Stefania Zerbo, MD; Francesca Korte; Valeria Tullio;  
Elvira Ventura Spagnolo, MD; Antonina Argo, PhD

12:00 p.m. - 1:00 p.m.  Lunch

Poster Session

11:30 a.m. - 1:00 p.m.  E37  “V for Vendetta”: A Hidden Revenge Murder  
Alessandra Radogna, MD; Stefania C. Bello, MD; Pietrantonio Ricci, PhD;  
Lorenzo Spagnolo, MD*; Maria Silvestre, MD; Michela Ferrara, MD*;  
Francesco Sessa, MS*; Francesca Maglietta, MD*

11:30 a.m. - 1:00 p.m.  E38  Killer Tractor: A Forensic Methodological Approach in Work-Related Deaths  
Lorenzo Spagnolo, MD*; Francesca Maglietta, MD*; Pietrantonio Ricci, PhD;  
Alessandra Radogna, MD; Stefania De Simone, MD; Michela Ferrara, MD*;  
Luigi Cipolloni, MD, PhD

11:30 a.m. - 1:00 p.m.  E39  A Kindle Dinner With a Friend: Great Start, Bad Finish  
Alessandra Radogna, MD; Marco Savito, MD; Francesca Maglietta, MD*;  
Irene Riezzo, MD, PhD; Marcello Rendine, DBA; Michela Ferrara, MD*;  
Pietrantonio Ricci, PhD; Francesco Sessa, MS*

11:30 a.m. - 1:00 p.m.  E40  Hanging Games: An Unusual Case of Accidental Hanging in a Child  
Stefania De Simone, MD; Francesca Maglietta, MD*; Alessio Marangelli; Francesco Sessa, MS*;  
Luigi Cipolloni, MD, PhD; Mauro A. Ciavarella; Giuseppe Bertozzi, MD*

11:30 a.m. - 1:00 p.m.  E41  The New Italian Law on Legitimate Defense: New Scenarios on the Crime Scene  
Maria Silvestre, MD*; Francesca Maglietta, MD*; Giuseppe Bertozzi, MD*;  
Francesco Sessa, MS*; Mauro A. Ciavarella; Pietrantonio Ricci, PhD; Luigi Cipolloni, MD, PhD

11:30 a.m. - 1:00 p.m.  E42  Post-Coital DNA Recovery in Minority Proxy Couples  
Patricia M. Speck, DNSc*; Erin K. Hanson, PhD; John Ballantyne, PhD; Peng Li, PhD;  
Simmone Nauer, PhD; Pamela D. Connor, PhD

11:30 a.m. - 1:00 p.m.  E43  A Ten-Year Review of Opioid-Related Deaths at West Tennessee Regional Forensic Center: 2007–2017  
Haley M. St. John, BS*; Juliette Scantlebury, MD

11:30 a.m. - 1:00 p.m.  E44  Epidemiological and Toxicological Profile of Homicide Victims in a Legal Medicine Unit in Brazil  
Yara V. Lemos, MS*; Alberto J. A. Wainstein; Larissa M. Savoi; Ana P. Drummond-Lage

11:30 a.m. - 1:00 p.m.  E45  Characterizing Deaths Related to Hurricane Michael Using Vital Statistics Data  
Samuel P. Prahlow, MPH*; Heather Rubino, PhD; David Atrubin, MPH; Allison Culpepper, BS

11:30 a.m. - 1:00 p.m.  E46  Modeling Postmortem Submersion Interval (PMSI) Estimation From the Microbiome of Bone in a Freshwater Lake  
Claire M. Cartozzo, MS*; Baneshwar Singh, PhD; Jenise Swall, PhD; Tal Simmons, PhD
11:30 a.m. - 1:00 p.m. E47 Entrance and Exit Hole Characteristics: Bullet Types, Substrates, and Firing Distance
Brienne Lukes, MFS*; Ismail M. Sebetan, MD, PhD*; Paul Stein, PhD*

11:30 a.m. - 1:00 p.m. E48 Undergraduate Forensic Physics Education in Turkey
Aylin Yalçın Saribey, PhD*; Kemal Akin, BS; Sevil Atasoy, PhD

11:30 a.m. - 1:00 p.m. E49 Surgical Fire: A Case Report, Literature Analysis, and Medicolegal Considerations
Salvatore Roccauzo, MD*; Patrizia Gualniera; Daniela Sapienza; Cristina Mondello, MD; Elvira Ventura Spagnolo, MD; Serena Scurria, PhD; Alessio Asmundo

11:30 a.m. - 1:00 p.m. E50 Never Trust Appearances: A Case of Screwdriver Homicide
Luigi Papi; Federica Gori, MD; Sara Turco, MD*; Claudia Giacconi, MD; Francesca Iannaccone; Costanza Filomena

11:30 a.m. - 1:00 p.m. E51 Accidental Autoerotic Death: An Unusual Case of Lethal Asphyxiophilia Associated With Autogynephilia
Elena Lucenti, MD*; Lorenzo Marinelli; Omar Bonato, MD; Mauro Coppone, MD; Raffaella Marino, MD; Chiara Marinì, MD; Rosa Maria Gaudio; Matteo Marti, PhD; Matteo Fabbri, MS; Margherita Neri, MD, PhD; Paolo Frisoni, MD

11:30 a.m. - 1:00 p.m. E52 School Bullying Affecting America's School Children: A Look at Statistical Trends
Christina A. Leija, MS*; Tyler J. Perkins*; Rikki A. Tasso-Thompson*; Viktoryia Tikhonova*; Ashley I. Unsinn*; Hunter N. Gault*; Levi E. Peck*

11:30 a.m. - 1:00 p.m. E53 Choose the Cause of Death: A Complex Suicide
Mauro Coppone, MD*; Elena Lucenti, MD; Omar Bonato, MD; Raffaella Marino, MD; Enrica Calabrese, MD; Matteo Fabbri, MS; Rosa Maria Gaudio; Matteo Marti, PhD; Paolo Frisoni, MD; Margherita Neri, MD, PhD

11:30 a.m. - 1:00 p.m. E54 Strategies for Reconciliation of Personal Identifying Information and DNA Profile Data at a State DNA Index System (SDIS) Databasing Laboratory
Christopher Piwonka, BS; Rebecca A. Shane, BS; Kelly Bell, BS; Gary J. Molina, BA; Mariela Rivera, MS; Charles J. Stokes III BS; Ryan Strand, MS*; Erik Werzner, BS

11:30 a.m. - 1:00 p.m. E55 Sex and Race Determination Based on Attenuated Total Reflection/Fourier Transform-Infrared (ATR/FTIR) Spectroscopy of a Bloodstain
Ewelina M. Mistek, MS*; Lenka Halamkova, PhD; Igor K. Lednev, PhD

11:30 a.m. - 1:00 p.m. E56 A Chemical and Biological Analysis of a Medieval Skeletal Collection From the Archaeological Site at Lobor, Croatia
Zdravka Hincak Daris; Siniša Merkaš*

11:30 a.m. - 1:00 p.m. E57 Evaluating Medicolegal Examinations of Turkish Detainees During the Recent State of Emergency in Turkey Within the Scope of the Istanbul Protocol
Alper Keten*; Johannes Nicolaikis, MD; Ramazan Abaci, PhD; Sarah Heinze, MD; Kathrin Yen, MD

11:30 a.m. - 1:00 p.m. E58 The Medicolegal Evaluation of Detention Procedures During the Recent State of Emergency in Turkey
Alper Keten*; Johannes Nicolaikis, MD; Ramazan Abaci, PhD; Sarah Heinze, MD; Kathrin Yen, MD

*Presenting Author
### General Forensics and Crimes II

**Moderator:** Angela M. Miller  
**Co-Moderator:** Anita Roman Hasert, BS  
**U.S. Army Criminal Investigation Command**  
**Quantico, VA**

1:00 p.m. - 1:15 p.m. **E59**  
**Healthcare Professionals as Persons of Interest? Preventing Strategies, Medical Liability, and Italian Jurisprudence Through the Analysis of an Inpatient Psychiatric Suicide**  
*Federica Gori, MD; Luigi Papi; Sara Turco, MD; Alice Chiara Manetti, MD; Francesca Iannaccone*

1:15 p.m. - 1:30 p.m. **E60**  
**A New Approach and Suggestions for Child Sexual Abuse Cases**  
*Sila Aslan; Mete K. Gulmen, PhD, MD; Ahmet Hilal, MD*

1:30 p.m. - 1:45 p.m. **E61**  
**An Evaluation of Child Suicide Death Cases**  
*Mete K. Gulmen, PhD, MD; Necmi Cekin, MD; Kenan Kaya; Sila Aslan*

1:45 p.m. - 2:00 p.m. **E62**  
**Rapid, Real-Time, and In-Field Detection of Fentanyl Residue: A New Approach Using Ion Mobility Spectrometry (IMS)**  
*John Z. Wang, PhD*

2:00 p.m. - 2:15 p.m. **E63**  
**Forensic Palynology: Pollen and Its Role in Crime Scene Investigation, National Security, and Forensic Science**  
*Taylor Strunsee, MS*

2:15 p.m. - 2:30 p.m. **E64**  
**A Forensic Comparison of Cable Ties to Create a Database**  
*Celeste M. Lambert, BS; Ted R. Schwartz, MS; Brandi Clark; Thomas A. Brettell, PhD; Lawrence Quarino, PhD*

2:30 p.m. - 2:45 p.m. **E65**  
**“What’s Wrong With Putting Crime Victims in Jail?”**  
*Patricia C. Smith, MSL*

2:45 p.m. - 3:00 p.m. **E66**  
**Computed Tomography (CT) Scans and Autopsy Results of Nine Civilian Casualties of a Terrorist Attack**  
*Vincenzo M. Grassi, MD; Simone Grassi, MD; Tommaso Tartaglione, MD; Vincenzo L. Pascali, MD, PhD; Antonio Oliva, MD, PhD*

3:00 p.m. - 3:15 p.m. Break

### General Forensics and Crimes II

**Moderator:** Frank M. Marchak, PhD  
**Co-Moderator:** Patricia C. Smith, MSL  
**Veridical Research and Design**  
**Bozeman, MT**

3:15 p.m. - 3:30 p.m. **E67**  
**Forensic Facial Reconstruction in Identification vs. Archaeological Investigation: Science or Art?**  
*Sharon K. Moses, PhD*

3:30 p.m. - 3:45 p.m. **E68**  
**Clinical Implications of Using Alternate Light to Assess Bruises**  
*Daniel J. Sheridan, PhD; Katherine N. Scafide, PhD; Nancy R. Downing, PhD; Matt Hyat, PhD*  

*Presenting Author*
3:45 p.m. - 4:00 p.m.  E69  Ocular Measures in the Detection of Deception  
Frank M. Marchak, PhD*

4:00 p.m. - 4:15 p.m.  E70  Breaking the Code to Better Understanding Asian Youth Gangs  
Cliff Akiyama, MPH, MA*

4:15 p.m. - 4:30 p.m.  E71  Characteristic Injuries of Organized Dogfighting  
Rachel Touroo, DVM*

4:30 p.m. - 4:45 p.m.  E72  The Use of Forensic Osteology in Animal Cruelty Investigations  
Amanda Fitch, MS*

4:45 p.m. - 5:00 p.m.  E73  Gap Assessment of Stress, Vicarious Trauma, and Resiliency for Forensic Science Professionals  
Andrew P. Levin, MD*; Heidi Putney, MA*; Danielle M. Crimmins, MS*; Jonathan G. McGrath, PhD

Friday

General Forensics and Crimes III

Moderator: Kimberlee Sue Moran, MSc  
Rutgers University - Camden  
Camden, NJ

Co-Moderator: Adam C. Armstrong, MS  
U.S. Army Criminal Investigation Division  
Fort Bragg, NC

8:30 a.m. - 8:45 a.m.  E74  Advances in Color and Texture Analysis of Human Hair  
David S. Hernandez Funes*; Candice Bridge, PhD

8:45 a.m. - 9:00 a.m.  E75  Discrimination Between Human and Animal Blood by Attenuated Total Reflection/Fourier Transform Infrared (ATR/FTIR) Spectroscopy for Forensic Purposes  
Ewelina M. Mistek, MS*; Igor K. Lednev, PhD

9:00 a.m. - 9:15 a.m.  E76  Linking Footprints to Feet: Research Advances and a Daubert Case Study  
Michael S. Nirenberg, DPM*; Kewal Krishan, PhD

9:15 a.m. - 9:30 a.m.  E77  A Tale of a White-Tailed Deer: Anomalous Serology and DNA Results Offer Clues in an Alleged Hit-and-Run Case  
Maher Noureddine, PhD*; AnnMarie Clark, MS; James A. Bailey, PhD

9:30 a.m. - 9:45 a.m.  E78  Digital Photography of Decomposed Fingertips for Postmortem Fingerprint Identification  
Rachael Landrie*

9:45 a.m. - 10:00 a.m.  E79  Development of Baseline Performance Levels for Standardized Field Sobriety Tests in Sober Individuals  
Zoe Foglia*; Karen S. Scott, PhD; Scott M. Davis; Heather L. Harris, JD

10:00 a.m. - 10:15 a.m.  Break
General Forensics and Crimes III

Moderator: Derek J. Kingsbury, MBA
U.S. Army Criminal Investigation Command
Joint Base Lewis-McChord, WA

Co-Moderator: Charla Skinner Perdue, MS, MFS
Florida State University Panama City Campus
Panama City, FL

10:15 a.m. - 10:30 a.m. E80 Statistical Evaluation of Latent Prints Developed by Oil Red O Solutions
Brent M. Allred, PhD*; Amanda Kemmerer; Mary H. Monks, BS

10:30 a.m. - 10:45 a.m. E81 Tracking Trends Through the Peer Review Process
Jessica LeCroy, BS*

10:45 a.m. - 11:00 a.m. E82 Examining Drug-Related Deaths While in Custody: A Look Into the Role That Race Plays in Drug-Related Custody Deaths in Texas
Jesus A. Campos, MS*; Ashraf Mozayani, PharmD, PhD

11:00 a.m. - 11:15 a.m. E83 The Application of 3D Motion Capture in the Analysis of Doubtful Forensic Cases
Isabella Aquila, MD, PhD*; Roberto Raffaele, BE*; Giuseppe Ivan Aquila; Fabrizio Cordasco, MD*; Matteo A. Sacco, MD*; Francesco Sicilia, MD; Carmen Scalise, MD; Orazio Malfa, MD; Luigi De Aloe, MD; Santo Gratteri, MD; Pietrantonio Ricci, PhD

11:15 a.m. - 11:30 a.m. E84 Geolocating and Protecting the Grave Sites of the Disappeared in Lebanon
Malena Gonzalez Eichenberg, BS*; Marwan Khoury*

11:30 a.m. - 11:45 a.m. E85 The National Institute of Standards and Technology/National Institute of Justice (NIST/NIJ) Evidence Management Initiative
Shannan Williams-Mitchem, MA*

11:45 a.m. - 12:00 p.m. E86 Challenges in Establishing an Innocence Project in the Philippines: The Innocence Project Philippines Network (IPPN) Experience
Maria Corazon A. De Ungria, PhD*; Jose M. Jose, LLB

12:00 p.m. - 1:00 p.m. Lunch

Poster Session

11:30 a.m. - 1:00 p.m. E87 Terrorist Attack: The Identification of Destructive Lesions
Lorenzo Spagnolo, MD*; Giuseppe Bertozzi, MD*; Luigi Cipolloni, MD, PhD; Benedetta Baldari, MD; Livia Besi; Michela Ferrara, MD*; Stefania De Simone, MD; Vittorio Fineschi, MD, PhD

11:30 a.m. - 1:00 p.m. E88 Bovine Meat Fraud and Adulteration in Brazil: Innovative Techniques for Tamper Detection
Karen M. Nunes*; Marcus Vinicius de Oliveira Andrade, MSc; Marco Talhavini, PhD; Mariana R. Almeida, PhD; Jose M. Amigo, PhD; Marcelo M. Sena, PhD

11:30 a.m. - 1:00 p.m. E89 Multiple Implications of Postmortem Computed Tomography (PMCT) in the Forensic Approach to Charred Bodies
Massimiliano dell’Aquila, MD*; Aniello Maiese, MD; Alessandra De Matteis, MD; Raffaele La Russa, MD; Alessia Quattrocchi; Mauro Arcangeli; Paola Frati, PhD; Vittorio Fineschi, MD, PhD

*Presenting Author*
Dental Identification

Moderator: Susan J. Baker, DMD
Atlanta Laser Periodontics & Dental Implants
Norcross, GA

Co-Moderator: Brian J. Murphy, DDS
Mi Mort
Holly, MI

10:25 a.m. - 10:40 a.m.  G9  A Measurement of Morphological Features of Maxillary First Molar Crowns for Human Dental Identification
Ana M. Milheiro, PhD*; Cezar Capitaneanu, DMD, PhD; Emmy Shaheem, PhD; Steffen Fieuws; Patrick W. Thevissen, PhD

10:40 a.m. - 10:55 a.m.  G10  The Uniqueness of Human Teeth: A Systematic Review and Meta-Analysis
Cezar Capitaneanu, DMD, PhD*; Guy Willems, PhD; Patrick W. Thevissen, PhD

10:55 a.m. - 11:10 a.m.  G11  Sex Estimation Using Enamel and Dentin Proportions of Human Mandibular Canines
Zama Moosvi, MDS, MS*; Scheila Manica, PhD; Gavin F. Revie, PhD

11:10 a.m. - 11:25 a.m.  G12  Sexual Dimorphism in Mandibles and Permanent Mandibular Canines in a Brazilian Population: A Pilot Study
Gabriel C. Dias*; Maçelle V. Campos; Carolina P. Magalhães; Renata C.F. Campina; Jaciel B. Oliveira

11:25 a.m. - 11:40 a.m.  G13  Forensic Dental Identification: Using Computerized Tomographic (CT) Scans to Identify Human Remains
Iris L. Shields, DDS*; Patrick A. Murray, DDS

11:40 a.m. - 11:55 a.m.  G14  A Study of Non-Metric Dental Traits of a North Indian Population: Forensic Aspects
Kewal Krishan, PhD*; Sandeep Kaur, PhD

11:55 a.m. - 1:30 p.m.  Lunch

Poster Session

11:30 a.m. - 1:00 p.m.  G15  Hurricane Michael: The Role of the Forensic Odontologist
Lisa M. Hofstad, DMD*

11:30 a.m. - 1:00 p.m.  G16  The Incorporation of Both Community and Forensic Dentistry in the Child Abuse and Neglect Clinic in Turin, Italy
Emilio Nuzzolese, PhD*; Elena Coppo, MD*; Francesco Lupariello, MD*; Caterina Bosco, MD; Luana Bonaccorso, MD; Ilaria Cavecchia, MD; Giancarlo Di Vella, MD, PhD*

11:30 a.m. - 1:00 p.m.  G17  A Forensic Age Estimation From the Pulp/Tooth Area Ratio (PTR) of the Canines: A Forensic Odontological Study
Jagmahender Singh Sehrawat, PhD*
## Dental Identification

### 1:30 p.m. - 1:45 p.m.  
**G18 Fractalys
e Software—The Analysis of the Trabecular Bone in Identification (The Continuation)**  
*Sylvain Desranleau, DMD*

### 1:45 p.m. - 2:00 p.m.  
**G19 An Innovative Approach to the Importation and Conversion of Antemortem (AM) Dental Data to Blockchain-Protected Forensic Data for Utilization in Disaster Victim Identification (DVI)**  
*Shada Alsalamah, PhD*; *Ala’a Alimam, BS*; *Ahad Alabdullatif, BS*; *Maram Alamri, BS*; *Miral Althaqeb, BS*; *Sara Alqahtani, BS*; *Kenneth W. Aschheim, DDS*; *Sakher J. Alqahtani, PhD*

### 2:00 p.m. - 2:30 p.m.  
**G20 The Identification of Skeletal Remains After Nearly Two Decades**  
*Robert C. Walcott, DDS*

### 2:30 p.m. - 2:45 p.m.  
**G21 The Odontologist Relationship With Medicolegal Death Investigators in the Setting of the Medical Examiner’s Office and Their Role in Obtaining Antemortem Dental Records for Identification**  
*Christen C. Eggers, MS*; *John A. Piakis, DDS*; *Leigh-Ann Schuerman, DMD*

### 2:45 p.m. - 3:00 p.m.  
**G22 The Performance of Forensic Craniofacial Identification in Surgically Altered Faces**  
*Petra Urbanová, PhD*; *Hana Eliasova, PhD*; *Tatjana Dostalova, MD, PhD*

### 3:00 p.m. - 3:30 p.m.  
**Break**

## Dental Identification

### 3:30 p.m. - 4:00 p.m.  
**G23 The Recent Identification of a World War II Canadian Soldier: A Multidisciplinary Teamwork Approach**  
*Melanie Dumas, DMD*; *Trenna M. Reeve, DMD*; *Sarah Locker, PhD*

### 4:00 p.m. - 4:20 p.m.  
**G24 Automated Identification From Dental Data (AutoIDD): A New Development in Digital Forensics**  
*Gowri V. Reesu*; *Brenainn D. Woodsend, BS*; *Scheila Manica, PhD*; *Gavin F. Revie, PhD*; *Peter A. Mossey, PhD*; *Nathan L. Brown, PhD*

### 4:20 p.m. - 4:35 p.m.  
**G25 Helpful Hints for a Variety of Dental Autopsy Situations and a Compilation of “Interesting” Cases**  
*Veronique F. Delattre, DDS*

### 4:35 p.m. - 4:50 p.m.  
**G26 A Dental Malpractice Case Involving a Potentially Broken Dental Bur**  
*Cheri Lewis, DDS*

*Presenting Author*
**Friday**

Salem Altalie, FACLM*

1:45 p.m. - 2:00 p.m.  G41  The Estimation of Sex From Dental Arch Dimensions: An Odontometric Analysis  
Tanuj Kanchan, MD*; Rutwik D. Shedge, MSc; Vinay Kumar Chugh, MDS; Ankita Chugh, MDS

2:00 p.m. - 2:15 p.m.  G42  Cementum Anulli: Technique, Microscopy, and Assessment of Age  
Michael Clay, DMD*; Murray K. Marks, PhD; James M. Lewis, DMD; Paula C. Brumit, DDS

2:15 p.m. - 2:30 p.m.  G43  Morphological Examinations of the Teeth and Jaw Fragments Retrieved From an Ajnala Skeletal Assemblage: A Forensic Odontological Study  
Jagmahender Singh Sehrawat, PhD*; Ashith B. Acharya, GDO

2:30 p.m. - 2:45 p.m.  Break

*Presenting Author
Thomas Krauss Memorial Bitemark Session

Moderator: Roland G. Chew, DDS  
Fremont, CA

2:45 p.m. - 3:00 p.m.  G44 The Importance of Bitemarks in Child Abuse Cases in Turkey  
Huseyin Afsin, PhD*; Sermet Koc; Gulnaz T. Javan, PhD

3:00 p.m. - 3:15 p.m.  G45 A 3D Analysis of Bitemarks: A Validation Study Using an Intraoral Scanner  
Géromine Fournier, DDS*; Frederic Savall; Norbert Telmon, PhD, MD; Delphine Maret, PhD

3:15 p.m. - 3:35 p.m.  G46 3D Dental Digital Study Models in Bitemark Comparison  
Robert B.J. Dorion, DDS*

3:35 p.m. - 3:50 p.m.  G47 Non-Bitemarks That I Have Known  
Robert E. Wood, DDS, PhD*; Yolanda Nerkowski, BA*; Taylor L. Gardner, BFS*

3:50 p.m. - 4:10 p.m.  G48 A Historic Perspective of Bitemark Analysis and Bitemark Comparison  
Robert B.J. Dorion, DDS*

*Presenting Author
**Wednesday**

**Poster Session**

11:30 a.m. - 1:00 p.m. **H1** Circumstances and Injuries in Female Homicide Victims of Strangulation: A Four-Decade Review of 143 Cases in King County, Washington  
*Robert Johnston, DO*; *Richard C. Harruff, MD, PhD*; *Micheline Lubin, MD*; *Cloyd Steigerr*; *Nicole Siver*

11:30 a.m. - 1:00 p.m. **H2** A Fistful of Dollars: An Unexpected Delayed Development and Rupture of a Traumatic Fusiform Posterior Inferior Cerebellar Artery (PICA) Aneurysm  
*Maria Silvestre, MD*; *Pietrantonio Ricci, PhD*; *Michela Ferrara, MD*; *Lorenzo Spagnolo, MD*; *Stefania De Simone, MD*; *Francesco Sessa, MS*; *Giuseppe Bertozzi, MD*

11:30 a.m. - 1:00 p.m. **H3** An Accidental Death Caused by Blunt Force Injuries Resulting in Multiple Fractures and a Pulmonary Fat Embolism  
*Juliana Molosky*; *Stephen Peltier, BS*; *Joseph A. Prahlow, MD*

11:30 a.m. - 1:00 p.m. **H4** Carbon Dioxide Asphyxiation Due to Pulmonary Embolism: A Case Report  
*Katherine Cochrane, MD*; *Darinka Mileusnic-Polchan, MD, PhD*

11:30 a.m. - 1:00 p.m. **H5** Autopsy Findings in Dog Attacks in Mississippi  
*Katie C. Donohue*; *Heather M. McLendon*

11:30 a.m. - 1:00 p.m. **H6** Frangible Ammunition in Gunshot Wound Suicides in the Hampton Roads Region of Virginia: An Upward Trend?  
*Catherine G. Wilson, BS*; *Gary M. Zientek, MD*; *Wendy M. Gunther, MD*

11:30 a.m. - 1:00 p.m. **H7** The Feasibility of an Enteroclysis Pump for Postmortem Computed Tomography Angiography (PMCTA)  
*Marloes E.M. Vester, MD*; *Ellen Servaas, MSc*; *Ludo F.M. Beenen, MD*; *Mara Clerkx*; *Astrid De La Rie, MS*; *Nick Lobé*; *Maaike J. Vogel*; *Rick R. Van Rijn, MD, PhD*; *Roelof-Jan G. Oostra, PhD*

11:30 a.m. - 1:00 p.m. **H8** The Utility of Routine Histological Sampling in the Assessment of Cause and Manner of Death in Medicolegal Autopsies—Fire, Immersion, and Traffic-Related Deaths  
*Björn Bäckström, MD*; *Staffan Finn*; *Peter Lydig*; *Oscar Sandberg*; *Anders Eriksson, MD, PhD*; *Torfinn Gustafsson, MD*

11:30 a.m. - 1:00 p.m. **H9** Fibroplasia Ossificans Progressiva (FOP): Could Autopsy Define Syndromic Features?  
*Vittorio Bocato, MD*; *Matteo Moretti, MD*; *Claudia Carelli*; *Davide Radaelli*; *Paolo Musto*; *Silvia D. Visona, MD*; *Gihan T. Javan, PhD*; *Antonio M.M. Osculati, MD*

11:30 a.m. - 1:00 p.m. **H10** A Questionable Cause of Death Alphabet Soup: Anaphylaxis, Bees, Cocaine, Diabetic Ketoacidosis (DKA), Emphysema, Fogger, Hypothermia, Insecticide, and Opiates  
*Thomas B. Duong, BS*; *John Winterholler, BS*; *Joseph A. Prahlow, MD*; *Prentiss Jones, Jr., PhD*

11:30 a.m. - 1:00 p.m. **H11** The Importance of Dashboard Camera Analysis in Fatal Vehilcle-Pedestrian Crash Reconstruction  
*Paolo Fais, PhD*; *Jennifer Pascali, PhD*; *Guido Pelletti, MD*; *Alessio Giusti*; *Susi Pelotti, MD*

11:30 a.m. - 1:00 p.m. **H12** Computed Tomography (CT) and X-Ray Angiography on a Case of Traumatic Carotid Artery Occlusion Following a Physical Altercation Resulting in Cerebral Infarction  
*Francesco Pontoriero, DO*; *Rochelle A. Simon, MD*; *Zabiullah Ali, MD*; *Nikki Mourtzinos, DO*; *David R. Fowler, MD*
11:30 a.m. - 1:00 p.m. H13 IL-15, CD-15, and Tryptase as Markers of Wound Vitality in Compressed Neck Skin: When Conventional Macroscopic and Histological Findings Fail
Omar Bonato, MD*; Sara Chierici; Elena Lucenti, MD; Mauro Copponi, MD; Letizia Alfieri, MD; Enrica Calabrese, MD; Paolo Frisoni, MD; Matteo Fabbri, MS; Matteo Marti, PhD; Rosa Maria Gaudio; Margherita Neri, MD, PhD

11:30 a.m. - 1:00 p.m. H14 Where is the Neoplasm? The Postmortem Diagnosis of Intravascular Large B-Cell Lymphoma (IVLBCL)
Zoe Del Fante, MD*; Nicola Di Fazio; Silvia Romano; Alessandra De Matteis, MD; Paola Santoro, MD; Aniello Maiese, MD

11:30 a.m. - 1:00 p.m. H15 Numerical Postmortem Interval (PMI) Estimation Streamlined for Forensic Practice: Combining Photogrammetry, Thermal Imaging, and Computed Tomography (CT)
Leah Wilk*; Gerda Edelman; Maurice Aalders

11:30 a.m. - 1:00 p.m. H16 When Hidden Elder Abuse Leads to Death: An Analysis of Casework
Alberto Amadasi, MD*; Federica Fersini; Paolo Fais, PhD; Guido Pelletti, MD; Maria Carla Mazzotti, MD; Susi Pelotti, MD

11:30 a.m. - 1:00 p.m. H17 A Corpse in a Suitcase: A Case of Strangulation
Francesco Amico, MD*; Marco Torrisi; Dario Condorelli; Ilenia Russo; Martina Fichera, MD; Giuseppe Cucimano, MD; Giulio Di Mizio, MD, PhD; Monica Salerno, MD, PhD; Angelo Montana, MD*; Fabrizio Vanaria, MD*

11:30 a.m. - 1:00 p.m. H18 The Analysis of Head Injury in the Evaluation of Manner of Death: A Forensic Case Series and a Review of the Literature
Isabella Aquila, MD, PhD*; Francesco Sicilia, MD; Carmen Scalise, MD*; Luigi De Alois, MD; Fabrizio Cordasco, MD*; Santo Gratteri, MD; Matteo A. Sacco, MD; Pietrantonio Ricci, PhD

11:30 a.m. - 1:00 p.m. H19 The Anesthesiologist’s Responsibility in Intracranial Placement of the Nasogastric Tube (NGT): A Case Series and Literature Review
Alessandro Bonsignore, MD, PhD*; Gianluca Landi; Federico Longhini, MD; Francesca Buffelli, PhD, MD

11:30 a.m. - 1:00 p.m. H20 Powder-Free DNA Extraction Protocol From Bones and Teeth
Heitor Correa*; Gloria Brescia; Venusia Cortellini, PhD; Andrea Verzeletti, MD

11:30 a.m. - 1:00 p.m. H21 A Complete Transection of the Aorta During Resuscitative Efforts
Amanda Ho*; Grant W. Herndon, DO

11:30 a.m. - 1:00 p.m. H22 A Proposal of a Score to Evaluate Discrepancies Between the Results of External Body Examination and Forensic Autopsy
Sara Gioia, MD*; Valentina Rosati, MD*; Massimo Lancia, MD*; Fabio Suadoni, MD

11:30 a.m. - 1:00 p.m. H23 Immunohistochemical Detection of Fibronectin, P-Selectine, FVIII, HSP-70, and MRP-8 in the Skin of Ligature Marks of Suicidal Hangings
Fiorella Caputo, MD*; Rosario Barranco*; Francesco Ventura, MD*; Tony Fracasso, MD, PhD

11:30 a.m. - 1:00 p.m. H24 A Metabolomic Profile of Aqueous Humor in a 24-Hour Period After Death: An Animal Model for Postmortem Interval (PMI) Estimation
Emanuela Locci, PhD; Matteo Stocchero, PhD; Alberto Chighine, MD*; Fabio De Giorgio, MD; Matteo Nioi, MD; Ernesto d’Aloja, MD, PhD
11:30 a.m. - 1:00 p.m.  H25 Muscle Protein Degradation in Postmortem Interval (PMI) Estimation: Recent Accomplishments and Current Challenges
Stefan Pittner, PhD*; Bianca Ehrenfellner, MS; Katharina Weitgasser, MS; Angela Zissler, PhD; Peter Steinbacher, PhD; Fabio Carlo Monticelli

11:30 a.m. - 1:00 p.m.  H26 The Importance of Being Earnest: The Role of Autopsy in Preventing Litigation Related to the Management of Liver and Digestive Disorders
Stefano D’Errico, PhD; Benedetta Baldari, MD; Alessandro Santurro, MD; Mariarosaria Aromatario, MD, PhD; Matteo Scopetti, MD*

11:30 a.m. - 1:00 p.m.  H27 A Preliminary Assessment of the Persistence of Prostate Specific Antigen (PSA) Transfers Under Various Conditions
Keryne Skead*; David San Pietro, PhD

11:30 a.m. - 1:00 p.m.  H28 Recovery of DNA From Washed Bloodstains
Isil T. Erdogan, MS*; Tugba Ünsal, PhD*; Aysun Gungor, MS; Kaan Yilancioglu, PhD; Sevil Atasoy, PhD

11:30 a.m. - 1:00 p.m.  H29 Changes in Receptor Expression of σ-1R in the Pineal Gland Related to Different Causes of Death
Elvira Ventura Spagnolo, MD*; Cristina Mondello, MD*; Gennaro Baldino, MD*; Antonio Guajana, MD; Letteria Minutoli, MD; Domenico Puzzolo, MD; Vincenzo Macaione, MD; Luigi Cardia, MD; Antonina Argo, PhD; Stefania Zerbo, MD; Alessio Asmundo

11:30 a.m. - 1:00 p.m.  H30 Early Myocardial Ischemia: An Immunohistochemical Analysis of Dystrophin and Matrix Metalloproteinase 9 (MMP-9)
Cristina Mondello, MD*; Elvira Ventura Spagnolo, MD; Salvatore Roccuzzo, MD; Luigi Cardia, MD; Alessio Asmundo

11:30 a.m. - 1:00 p.m.  H31 A Case of Suicide by Hemlock Intoxication
Stephanie Diu, BA*; Erica Maney*; Pamela L. Marshall, PhD; Jennifer L. Hammers, DO

11:30 a.m. - 1:00 p.m.  H32 A Fatality by Caustic Soda: Accidental or Suicidal?
Manoj Bhausaheb Parchake, MD*

11:30 a.m. - 1:00 p.m.  H33 The Evolution of Safety Systems in Traumatic Deaths Due to Road Traffic Accidents: A Case Report and Review of the Literature
Luigi De Aloe, MD*; Fabrizio Cordasco, MD*; Francesco Sicilia, MD; Matteo A. Sacco, MD*; Carmen Scalise, MD; Pietrantonio Ricci, PhD; Orazio Malfa, MD; Santo Gratteri, MD; Isabella Aquila, MD, PhD*

11:30 a.m. - 1:00 p.m.  H34 Is the Survey of Forensic Botany Useful? The Application and Limits of Forensic Case Analysis
Isabella Aquila, MD, PhD*; Luigi De Aloe, MD; Francesco Sicilia, MD; Matteo A. Sacco, MD*; Carmen Scalise, MD; Fabrizio Cordasco, MD; Roberto Raffaele, BE*; Vincenzo Rania, MD; Paola Frati, PhD; Vittorio Fineschi, MD, PhD; Santo Gratteri, MD; Pietrantonio Ricci, PhD

11:30 a.m. - 1:00 p.m.  H35 The Immunohistochemical Analysis in the Diagnosis of Freshwater Versus Saltwater Drowning: A Case Report and a Review of the Literature
Isabella Aquila, MD, PhD*; Orazio Malfa, MD; Matteo A. Sacco, MD*; Francesco Sicilia, MD; Fabrizio Cordasco, MD; Luigi De Aloe, MD; Carmen Scalise, MD; Santo Gratteri, MD; Pietrantonio Ricci, PhD
## Thursday—Session I

### Natural Disease and Death Education

<table>
<thead>
<tr>
<th>Time</th>
<th>Session</th>
<th>Title</th>
<th>Presenters</th>
</tr>
</thead>
<tbody>
<tr>
<td>8:30 a.m.</td>
<td>H36</td>
<td>Death From Pheochromocytoma Initially Presenting as a Suspected Homicide</td>
<td>Apoorva R. Dharmadhikari*; Joseph A. Prahlow, MD</td>
</tr>
<tr>
<td>8:45 a.m.</td>
<td>H37</td>
<td>A Spontaneous Aortic Rupture: A Report of Two Cases</td>
<td>Shashank Tyagi, MD*</td>
</tr>
<tr>
<td>9:00 a.m.</td>
<td>H38</td>
<td>HIV Post-Sudden Cardiac Death (SCD): Rates of Autopsy-Defined Sudden Arrhythmic Death (SAD) Are 80% Higher in Persons With HIV</td>
<td>Ellen Moffatt, MD*; Eric Vittinghoff, PhD; Annie Bedigian, BS; Joseph K. Wong, MD; Philip Ursell, MD; Andrew Connolly, MD, PhD; Jeffrey Olgin, MD; Priscilla Hsue, MD; Amy P. Hart, MD; Zian Tseng, MD</td>
</tr>
<tr>
<td>9:15 a.m.</td>
<td>H39</td>
<td>A Fatal Case of Histoplasmosis With Colonic Perforation in a Patient With Acquired Immune Deficiency Syndrome (AIDS)</td>
<td>Danielle Harrell, DO*; Marco Ross, MD</td>
</tr>
<tr>
<td>9:30 a.m.</td>
<td>H40</td>
<td>The Implementation of a Forensic Pathology Rotation for Medical Students</td>
<td>Mario Rascon, MD*</td>
</tr>
<tr>
<td>9:45 a.m.</td>
<td>H41</td>
<td>A Molecular Diagnostic Determination of Human vs. Bovine Origin of Viral-Associated Aggressive Natural Killer (NK) Cell Leukemia</td>
<td>Natalie E. Taylor, MD, MS*; Erik A. Ranheim, MD, PhD; William M. Rehrauer, PhD; Erin G. Brooks, MD</td>
</tr>
<tr>
<td>10:00 a.m.</td>
<td>H42</td>
<td>Neurodegeneration in the Forensic Setting: General Principals and Diagnostic Applications</td>
<td>William T. Harrison, MD*; Patrick E. Lantz, MD; Jerri McLemore, MD</td>
</tr>
<tr>
<td>10:15 a.m.</td>
<td>Break</td>
<td></td>
<td></td>

<td>Hypothermia-Related Deaths: A Ten-Year Retrospective Study of Two Major Metropolitan Cities in the United States</td>
<td>Gregory M. Dickinson, MD*; Gene X. Maya, MD; Hannah C. Jarvis, MRCS*</td>
</tr>
<tr>
<td>10:45 a.m.</td>
<td>H44</td>
<td>Leaving the Familiar: Suicidal Tourism in Cook County, Chicago, Illinois</td>
<td>Katrina M Thompson, MD*; Michael D. Eckhardt, MD; Adrienne Segovia, MD</td>
</tr>
</tbody>
</table>

*Presenting Author*
11:00 a.m. - 11:15 a.m.  
**H45** Shallow-Water Blackout: A Rare Case of Death During Pool Free Diving  
Aldo Liberto, MD*; Martina Fichera, MD; Pasquale Malandrino, MD; Dario Condorelli; Giuseppe Cocimano, MD; Orazio Cacino, MD; Edmondo Scoto; Monica Salerno, MD, PhD; Angelo Montana, MD; Giulio Di Mizio, MD, PhD

11:15 a.m. - 11:30 a.m.  
**H46** The Elphinstone Tragedy: Understanding the Chaos of a Human Stampede on the Staircase of a Railway Station Footbridge  
Manoj Bhausaheb Parchake, MD*

11:30 a.m. - 11:45 a.m.  
**H47** A Unique Pattern of Tusk Injuries by Wild Boar: A Ten-Year Autopsy Analysis  
Nilesh Keshav Tumram, MD*

11:45 a.m. - 12:00 p.m.  
**H48** Hypothermia Deaths and Altered Mental Status  
Jasmine Saeedian*; Joseph A. Prahlow, MD

12:00 p.m. - 1:00 p.m.  
Lunch

Poster Session

11:30 a.m. - 1:00 p.m.  
**H49** An Evaluation of Sudden Deaths Due to Myocarditis: A Study of Autopsy Cases  
Xiang Zhang, MD*; Puping Lei, MD*; Rong Li*; Mary G. Ripple, MD; David R. Fowler, MD; Ling Li, MD*

11:30 a.m. - 1:00 p.m.  
**H50** A Case of Pulmonary Artery Dissection in a Woman With Chronic Pulmonary Hypertension  
Robyn Parks*; Lawrence Nguyen, MD

11:30 a.m. - 1:00 p.m.  
**H51** Mal D' Afrique: The Mysteries of Endomyocardial Fibrosis in Western Countries  
Claudia Perrone, MD*; Alessio Ostuni, MD; Silvia Trotta; Andrea Andrea Marzullo, MD; Biagio Solarino, PhD

11:30 a.m. - 1:00 p.m.  
**H52** Emphysematous Gastritis: A Rare Disease With a Fulminant Course  
Melissa E. Toeller-DeSimone, BS*

11:30 a.m. - 1:00 p.m.  
**H53** Cardiac Amyloidosis—Two Cases  
Stephen Peltier, BS*; Juliana Molosky*; Theodore T. Brown, MD; Joseph A. Prahlow, MD

11:30 a.m. - 1:00 p.m.  
**H54** An Anomalous Origin of Right Coronary Artery as a Possible Cause of Sudden Cardiac Death in an Athlete: A Case Report  
Pauline Saint-Martin, MD, PhD*; Camille Rerolle, MD; Nemo Grasset, MD; Melanie Seignier, MD; Justine Canales, MD

11:30 a.m. - 1:00 p.m.  
**H55** A Tell-Tale Heart: A Case of Takotsubo Cardiomyopathy at Autopsy  
Meredith A. Reynolds, MD*; Kyle G. Parker, MD; Kelly A. Pokrywiecki, BA, BS; Jefree J. Schulte, MD; Kammi J. Henriksen, MD; Aliya N. Husain, MBBS

11:30 a.m. - 1:00 p.m.  
**H56** Autopsy Findings of Individuals Displaying Symptoms of Pica  
Heather M. McLendon*; Katie C. Donohue*

11:30 a.m. - 1:00 p.m.  
**H57** Unexpected and Sudden Cardiac Death Due to Eosinophilic Myocarditis (EM): Still a Difficult Task for Forensic Pathologists  
Rosario Barranco*; Davide Bedocchi, MD; Alessandro Bonsignore, MD, PhD*; Francesco Ventura, MD*
11:30 a.m. - 1:00 p.m. H58 An Unusual In-Custody Death
Baiyang Xu, MD*

11:30 a.m. - 1:00 p.m. H59 A Case of Fulminant Spontaneous Necrotizing Soft Tissues Infections (NSTI) of the Chest Wall in a Man With No Risk Factors
Sara Gioia, MD*; Valentina Rosati, MD*; Lisa Franceschetto, MD; Fabio Suadoni, MD

11:30 a.m. - 1:00 p.m. H60 Acute Colonic Pseudo-Obstruction (ACPO) (Ogilvie Syndrome) Leading to Respiratory Compromise and Death
John Dewey, BS*; Joseph A. Prahlow, MD

11:30 a.m. - 1:00 p.m. H61 Intramyocardial Lipoma of the Right Atrium: Two Cases Diagnosed at Forensic Autopsy
Sydney C. Pawsey, BS*; Wendy M. Gunther, MD

11:30 a.m. - 1:00 p.m. H62 A Fatal Case of Chemical Peritonitis Caused by a Spontaneous Rupture of the Pancreatic Pseudocyst: A Forensic Approach
Massimiliano Esposito, MD*; Giuseppe Cicimano, MD*; Giuseppe D. Albano, MD; Aldo Liberto, MD; Diego Geraci, PhD; Martina Fichera, MD; Giulio Di Mizio, MD, PhD; Pasquale Malandrino, MD; Fabrizio Vanaria, MD; Monica Salerno, MD, PhD

11:30 a.m. - 1:00 p.m. H63 Idiopathic Liver Rupture: An Italian Case Report
Gianni De Giorgio*; Fiorenza Zotti, PhD; Eloisa Maselli, MD; Davide Ferorelli; Francesca Donno, MD; Valeria Bruno, MD; Giulia Gabinelli; Alessandro Dell’Erba, PhD

11:30 a.m. - 1:00 p.m. H64 A Determination of the Efficacy of Two Processing Methods for Molar Teeth as a Source of DNA in Missing Persons and Unidentified Human Remains (UHR) Investigations
Lily Josephs, BS*; Ira R. Titunik, DDS; Timothy M. Palmbach, JD; Angie Ambers, PhD

11:30 a.m. - 1:00 p.m. H65 The Vitality of Skin Lesions in Decomposed Corpses: A Morphological and Immunohistochemical Study
Matteo Moretti, MD; Fiorella Lanzillotta, MD*; Elena Mercuri; Giada Pansardi; Luisa Andreolla, MD; Gulnaz T. Javan, PhD; Antonio M.M. Oscurati, MD; Silvia D. Visona, MD

11:30 a.m. - 1:00 p.m. H66 Mendelian Simulation of Short Tandem Repeat (STR) Genotypes From Existing Sample Data to Create Standard Truth Pedigrees for Benchmarking New Familial Inference Methods
Stephen Turner*; Chris Hulme-Lowe, PhD; Chris Simpson; Carlos Acevedo, MS

11:30 a.m. - 1:00 p.m. H67 An Investigation on Circular RNA (circRNA) Expression in Diabetic Cardiomyopathy (DCM) to Improve Understanding of Sudden Cardiac Death (SCD)
Shengzhong Dong*; Yiwen Shen*; Chunyan Tu*

11:30 a.m. - 1:00 p.m. H68 The Effects of Heat and Explosions on Forensic DNA Analyses
Marwan Khoury*

11:30 a.m. - 1:00 p.m. H69 Creating a Real Time-Quantitative Polymerase Chain Reaction (RT-qPCR) -Based Method for Studying Temporal DNA Degradation in Waterlogged Bone
Isis Thornton*; D’Arcy P. Mays III; Baneshwar Singh, PhD; Claire M. Cartozzo, MS; Tal Simmons, PhD

11:30 a.m. - 1:00 p.m. H70 Forensic DNA Phenotyping (FDP): A Prediction of Human Externally Visible Traits in Missing Person Identification
Matteo Fabbri, MS*; Letizia Alferi, MD; Omar Bonato, MD; Mauro Coppone, MD; Paolo Frisoni, MD; Rosa Maria Gaudio; Elena Lucenti, MD; Chiara Marini, MD; Matteo Marti, PhD; Margherita Neri, MD, PhD

</table>
11:30 a.m. - 1:00 p.m.  H82  The Relationship Between Wischnewski Spots and Stress Hormones During Hypothermia
Alissa M. Shida, BS*; Tomoya Ikeda, PhD, MD; Naoto Tani, MA; Takaki Ishikawa, MD, PhD; Kei Ikeda, MD; Aoki Yayoi, BA

11:30 a.m. - 1:00 p.m.  H83  New Biomarkers of Myocardial Necrosis Identification in Decomposed Bodies
Pasquale Malandrino, MD*; Francesco Amico, MD; Federico Patanè, MD; Angelo Montana, MD*; Dario Condorelli; Massimiliano Esposito, MD; Edmondo Scoto; Giulio Di Mizio, MD, PhD; Monica Salerno, MD, PhD; Cristoforo Pomara, MD, PhD

Investigation and Identification

Moderator:  Veena D. Singh, MD
Midwest Medical Examiner’s Office
Ramsey, MN

Co-Moderator:  Pierre-Antoine Peyron, MD
Département de Médecine Légale
Montpellier, FRANCE

1:00 p.m. - 1:15 p.m.  H84  Viral Load: Handling an (Unexpectedly) High-Profile Case
Kirstin E. Howell, MD*; Kristin C. Escobar Alvarenga, MD

1:15 p.m. - 1:30 p.m.  H85  Increasing Transparency: The Utility of Layered Images in Postmortem Identification
Farnaz Khalafi, MD*; Brandi C. McCleskey, MD

1:30 p.m. - 1:45 p.m.  H86  An Interdisciplinary Approach to Data Collection of Unidentified Juvenile Remains at the Georgia Bureau of Investigation (GBI)
Jonathan Eisenstat, MD*; Alice F. Gooding, PhD

1:45 p.m. - 2:00 p.m.  H87  Lost and Found: Forensic Anthropology and the Recovery of a 21-Year-Old Plane Crash
Kerianne Armelli, MS*; Carolyn V. Isaac, PhD; Jane Wankmiller, PhD; Rachel E. Smith, BS

2:00 p.m. - 2:15 p.m.  H88  The Minnesota Protocol: A Standardized Postmortem Investigation Guideline
Marx Tobias, MD; Alper Keten*; Johannes Nicolakis, MD; Sarah Heinze, MD; Kathrin Yen, MD

2:15 p.m. - 2:30 p.m.  H89  The Complicated Recovery of a House Fire Victim in Northern Michigan
Jane Wankmiller, PhD*; Rachel E. Smith, BS; Carl W. Hawkins, MD

2:30 p.m. - 2:45 p.m.  H90  Selfie-Related Injuries and Deaths in Italy
Sara Gioia, MD*; Fabio Suadoni, MD; Dora Mirtella, MD; Mariano Cingolani, MD

2:45 p.m. - 3:00 p.m.  H91  The Introduction of a Mobile Application to Assist in the Evaluation and Investigation of Death Scenes in Forensic Medical Practice
Gert Saayman, FCPath*; Cornelia van Graan, MS

3:00 p.m. - 3:15 p.m.  Break

*Presenting Author
Decomposition and DNA

Moderator: David O. Carter, PhD
Chaminade University of Honolulu
Honolulu, HI

Co-Moderator: Carl J. Schmidt, MD
Wayne County Medical Examiner's Office
University of Michigan
Detroit, MI

3:15 p.m. - 3:30 p.m. H92 An Evaluation of Selected Hematopoietic Immunohistochemical Stains in Decedents in Varying States of Decomposition
Catherine R. Miller, MD*; Juan P. Olano, MD; Judith Aronson, MD; You-Wen Qian, MD

3:30 p.m. - 3:45 p.m. H93 “Forens-OMICS”: The Application of Omics Sciences to Forensic Investigations
Noemi Procopio, PhD*; Natalie R. Langley, PhD; Beatrix Dudzik, PhD; Paul Wood, PhD

3:45 p.m. - 4:00 p.m. H94 Proteogenomics: Shifting Touch Sample Analysis Paradigms
Curt Hewitt*; Myles W. Gardner, PhD; Michael A. Freitas, PhD; August E. Woerner, PhD;
Kathleen Q. Schulte, MS; Danielle S. LeSassier, PhD; Maryam Baniasad, BS;
Andrew J. Reed, PhD; Megan E. Powals, BS; Alan R. Smith, BS; Nicolette C. Albright, MS;
Benjamin C. Ludolph, BS; Liwen Zhang, PhD; Leah Allen, BS; Katharina L. Weber, BS

4:00 p.m. - 4:15 p.m. H95 Developing Biological Models for the Probabilistic Genotyping of Next Generation Sequencing (NGS) Data
Kevin Cheng*; Meng-Han Lin, PhD; Jo-Anne Bright, PhD; James M. Curran, PhD;
John S. Buckleton, PhD

4:15 p.m. - 4:30 p.m. H96 Decomposition Odor Production in a Tropical Savannah
Lena M. Dubois, MSc; Carlos A. Gutierrez, MS; David O. Carter, PhD;
Jean-François M. Focant, PhD; Katelynn A. Perrault, PhD*

4:30 p.m. - 4:45 p.m. H97 Comparing Resolution of Mixtures by DNA Sequencing Using the Illumina* MiSeq* FGx System
Michael Moretto, MS*; Robin W. Cotton, PhD

4:45 p.m. - 5:00 p.m. H98 Seasonal Differences in Soil Chemistry and Biology Impacted by Long-Term Human Decomposition
Lois S. Taylor, MS*; Allison R. Mason, BS; Ernest C. Bernard, PhD; Mary C. Davis, MSc;
Dawnie W. Steadman, PhD; Jennifer M. DeBruyn, PhD

Thursday—Session II

Jay Dix Memorial Bonus Day

9:00 a.m. - 9:10 a.m. H99 Jay Dix Memorial Bonus Day Introduction
Joseph A. Prahlow, MD*; James R. Gill, MD*; Jonathan Hayes, MD*; Andrew M. Baker, MD*;
Michael A. Graham, MD*

9:10 a.m. - 10:00 a.m. H99 Investigation of Environment-Related Deaths
Joseph A. Prahlow, MD*

10:00 a.m. - 10:15 a.m. Break
PATHOLOGY/BIOLOGY

10:15 a.m. - 11:05 a.m.  H99  Blunt and Sharp Force Injuries
James R. Gill, MD*

11:05 a.m. - 12:00 p.m.  H99  Asphyxia
Jonathan Hayes, MD*

12:00 p.m. - 2:00 p.m.  Lunch

2:00 p.m. - 3:00 p.m.  H99  Firearm Injuries
Andrew M. Baker, MD*

3:00 p.m. - 3:50 p.m.  H99  Deaths Temporally Related to Apprehension and Custody
Michael A. Graham, MD*

Friday—Session I

Multidisciplinary Session: Pathology/Biology I & Toxicology—Part I

Moderator: Dan T. Anderson, MS
Colorado Bureau of Investigation
Arvada, CO

Co-Moderator: Elisa N. Shoff, MS
Miami-Dade Medical Examiner Department
Miami, FL

8:30 a.m. - 8:45 a.m.  K65  Accidental Acute Combined Drug Toxicity Involving Heroin and Fentanyl in a 10-Year-Old Child
Joseph H. Kahl, MS*; Benjamin Mathis, MD; George W. Hime, MS; Diane Boland, PhD

8:45 a.m. - 9:00 a.m.  H100  Volatile Substances Concentrations in Costal Cartilage in Relation to Blood and Urine
Marcin Tomsia; Joanna Nowicka; Elzbieta Chelmecka; Joanna Wójcik; Magdalena Wos; Kornelia M. Drozdziok; Rafal Skowronek; Gulnaz T. Javan, PhD*

9:00 a.m. - 9:15 a.m.  K66  A Fatal Mono-Intoxication With 4-Fluoroisobutyrylfentanyl
Roelof Oosting, PharmD; Lauriane Drouin; Rogier van der Hulst, PharmD; Ingrid Bosman, PhD*

9:15 a.m. - 9:30 a.m.  H101  The Relationship of Chronic Psychostimulant Use and Cardiovascular Disease
Elly Riser, MD; Chamil Ariyaratne, MD, MBBS; Irfan Chaudhry, MD*; Caleb Banta-Green, PhD; Richard C. Harruff, MD, PhD

9:30 a.m. - 9:45 a.m.  K67  Circumstances, Postmortem Findings, and Toxicology in a Series of Methoxyacetylfentanyl-Related Deaths
Robert Kronstrand, PhD*; Svante Vikingsson, PhD

9:45 a.m. - 10:00 a.m.  H102  Suicide by Acute Substance Intoxication: A Retrospective Analysis of Cases in Cook County, Illinois
Lorenzo Gitto, MD*; Ponni Arunkumar, MD; Serenella Serinelli, MD*

10:00 a.m. - 10:15 a.m.  K68  Homicidal Paraquat-Induced Respiratory Failure: A Case Report and Overview of Paraquat Testing in the Forensic Setting
Elaine J. Oldford, BS*; Theodore T. Brown, MD; Prentiss Jones, Jr., PhD; Kenneth D. Hutchins, MD

10:15 a.m. - 10:30 a.m.  Break

*Presenting Author
# Multidisciplinary Session: Pathology/Biology I & Toxicology—Part II

**Moderator:** Marilyn A. Huestis, PhD  
**Co-Moderator:** Loralie Langman, PhD  
**Huestis & Smith Toxicology, LLC**  
**Severna Park, MD**  
**Mayo Clinic**  
**Rochester, MN**

*Presenting Author
11:30 a.m. - 1:00 p.m. H113 “Everybody Hurts”: Fatal Anaphylactic Shock Induced by an Intramuscular Injection of Diclofenac
Diana Bonuccelli, MD; Marco Conti, MD; Sara Niballi, MD; Alberto Mandoli, MD; Benedetta Baldari, MD*; Stefano D’Errico, MD, PhD

11:30 a.m. - 1:00 p.m. H114 Tri-Allelic Patterns of Short Tandem Repeats (STRs) on D21S11 and Penta D Observed in Three Paternity Testing Cases With Down Syndrome Diagnosed Children
Amir J. Hamuod*

11:30 a.m. - 1:00 p.m. H115 A Rare Autopsy Case of Inferior Mesenteric Artery Laceration Associated With Blunt Abdominal Trauma in a Physically Abused Child
Alissa M. Shida, BS*; Kei Ikeda, MD; Aoki Yayoi, BA; Naoto Tani, MA; Tōmoya Ikeda, PhD, MD; Takaki Ishikawa, MD, PhD

11:30 a.m. - 1:00 p.m. H116 Neonatal Pulmonary Arterial Hypertension (PAH): A Fatal Case of Noonan Syndrome (NS)
Caterina Bosco, MD*; Luana Bonaccurso, MD*; Greta Cena, MD; Lucia Tattoli, PhD; Caterina Petetta, MD; Giovanni Botta, MD; Giancarlo Di Vella, MD, PhD*

11:30 a.m. - 1:00 p.m. H117 Sudden Unexpected Death in Childhood: A Case Report of Fatal Acute Pancreatitis
Fabio Innocenzi*; Francesco Lupariello, MD*; Alessandro Gabriele; Giovanni Botta, MD; Giancarlo Di Vella, MD, PhD*

11:30 a.m. - 1:00 p.m. H118 Multifocal Intracranial Hemorrhage in Congenital Neurosyphilis: Autopsy Findings and Literature Review
Michael Harrell, MD*; Heather S. Jarrell, MD; Lauren A. Decker

11:30 a.m. - 1:00 p.m. H119 A Peculiar Autopsy Case of Infrarenal Aortic Hypoplasia (AH) and Premature Atherosclerosis in a 13-Year-Old Male
Valentina Rosati, MD*; Sara Gioia, MD*; Massimo Lancia, MD*; Fabio Suadoni, MD

11:30 a.m. - 1:00 p.m. H120 Histopathologic Changes in Placental Tissue Following Misoprostol Administration
Angelina I. Phillips, MD*; Daniel C. Butler, MD*; S. Erin Presnell, MD; Evelyn T. Brunner, MD; Ryan Cuff, MD

11:30 a.m. - 1:00 p.m. H121 Peripartum Cardiomyopathy (PPCM): A Forensic Approach
Laura Tardanico*; Massimiliano Esposito, MD*; Pasquale Giugliano, MD; Martina Fichera, MD; Aldo Libertà, MD*; Francesco Amico, MD; Mario Giuseppe Chisari; Monica Salerno, MD, PhD; Angelo Montana, MD*; Giulio Di Mizio, MD, PhD

11:30 a.m. - 1:00 p.m. H122 Investigating DNA Methylation Analysis for the Individualization of Monozygotic Twins
Malorie R. Nitz*; Rachel Graziano; Claire L. Glynn, PhD

11:30 a.m. - 1:00 p.m. H123 Pediatric Dorsal Root Ganglia Hemorrhages in a Resuscitated Canine Mauling
Nathan S. Shaller, MD*; Anna G. McDonald, MD; Patrick E. Lantz, MD

11:30 a.m. - 1:00 p.m. H124 The Postmortem Microbiome: An Evaluation of 16S Ribosomal RNA (rRNA) Profiles
Gulnaz T. Javan, PhD*; Sheree J. Finley, PhD; DeEtta Mills, PhD

11:30 a.m. - 1:00 p.m. H125 Simplified DNA Barcoding Strategy for Forensically Relevant Blow and Flesh Flies
Joseph Truppi, BS*; Sam Kwiatkowski, PhD; Michelle R. Sanford, PhD; Michael A. Donley, MS; Katherine Welch, MS; Roger Kahn, PhD

*Presenting Author
11:30 a.m. - 1:00 p.m.  
**H126**  The Effect of Mass-Generated Heat on Larval Development: Implications for Postmortem Interval (PMI) Estimates  
Vivienne G. Heaton, PhD*; Colin Moffatt; Tal Simmons, PhD

11:30 a.m. - 1:00 p.m.  
**H127**  The Impact of Postmortem Microbiota on *Lucilia Sericata* Development  
Vadim Mesli, MD*; Christel Neut, PhD; Valéry C. Hédouin, MD, PhD;  
Damien Charabaride, PhD; Didier Gosset, MD, PhD

11:30 a.m. - 1:00 p.m.  
**H128**  A Survey of Bacterial Communities in Soil Associated With Porcine Remains  
Denise Wohlhart, BS; Kailey Babcock, BS*; Shane Woolf, MS; Tal Simmons, PhD;  
Baneshwar Singh, PhD

11:30 a.m. - 1:00 p.m.  
**H129**  Cranial Hypertosis and Neuropsychiatric Disorders: Is There a Correlation?  
A Comparison Between Forensic Cases and a Review of Literature  
Orazio Malfa, MD*; Matteo A. Sacco, MD*; Luigi De Aloe, MD; Francesco Sicilia, MD;  
Fabrizio Cordasco, MD; Carmen Scalise, MD; Pietrantonio Ricci, Phd; Roberto Raffaele, BE*;  
Ludovico M. Abenavoli, PhD; Santo Gratteri, MD; Isabella Aquila, MD, PhD*

11:30 a.m. - 1:00 p.m.  
**H130**  Patient Misinterpretation of Findings Leads to Suicide  
Jack Stover*; Joseph A. Prahlow, MD

11:30 a.m. - 1:00 p.m.  
**H131**  Colonization Rates of Barnacles (Crustacea: Cirripedia) on Different Fabrics as a Tool for Forensic Investigation of Human Remains in a Marine Environment  
Elysia Tingey, BS; Jennifer Verduin, PhD; Ian Dadour, PhD*; Paola A. Magni, PhD

11:30 a.m. - 1:00 p.m.  
**H132**  The Applicability of FLIR® Thermal Imaging of Swine Decomposition During the Louisiana Summer  
Helen R. Carter, BS*; Erin J. Watson-Horzelski, PhD

11:30 a.m. - 1:00 p.m.  
**H133**  Maternal Death by Fire and Fetal Carboxyhemoglobin Levels  
Nicole D. Lee, MS*; Theodore T. Brown, MD

11:30 a.m. - 1:00 p.m.  
**H134**  The Mouse Thanatonomic microbiome is Highly Variable in Early Postmortem Intervals  
Taylor L. Smith*; Molly B. Still, MS; Scott S. Crupper, PhD

11:30 a.m. - 1:00 p.m.  
**H135**  A Fatal Hemorrhage From a Periumbilical Wound: A Case of Stabbing or a Rare Bleeding From a Caput Medusae?  
Francesca Frigiolini*; Sara Lo Pinto, MD; Fiorella Caputo, MD*; Rosario Barranco*;  
Giulio Fraternali Orcioni, MD; Alessandro Bonsignore, MD, PhD*; Francesco Ventura, MD*

11:30 a.m. - 1:00 p.m.  
**H136**  Brain Damage and MicroRNA (miRNA) Dysregulation: An Experimental Study  
Francesco Sessa, MS*; Francesca Maglietta, MD*; Giuseppe Bertozi, MD*;  
Luigi Cipolloni, MD, PhD; Monica Salerno, MD, PhD; Pietrantonio Ricci, Phd;  
Cristoforo Pomara, MD, PhD

11:30 a.m. - 1:00 p.m.  
**H137**  Under Pressure: A Small Italian Town Under Attack  
Michela Ferrara, MD*; Francesca Maglietta, MD*; Margherita Neri, MD, PhD;  
Luigi Cipolloni, MD, PhD; Stefania De Simone, MD; Francesco Sessa, MS*;  
Giuseppe Bertozi, MD*

11:30 a.m. - 1:00 p.m.  
**H138**  A Cold Bone Heart: A Rare Case of Death Due to Acute Myocarditis in a Subject Suffering From Chronic Constrictive Pericarditis  
Lorenzo Spagnolo, MD*; Francesco Sessa, MS*; Francesca Maglietta, MD*; Pietrantonio Ricci, Phd;  
Alessandra Radogna, MD; Santina Cantatore; Irene Riezzo, MD, PhD; Giuseppe Bertozi, MD* 

*Presenting Author
Presenting Author

PATHOLOGY/BIOLOGY

11:30 a.m. - 1:00 p.m.  H139 Using Culturomics to Investigate the Mouse Thanatombiome
Christi Meyer*; Scott S. Crupper, PhD

11:30 a.m. - 1:00 p.m.  H140 An Accidental Asphyxiation by Christmas Lights in a Patient With Schizoaffective Disorder
Corey A. Hornersmith, BS*; Wendy M. Gunther, MD

11:30 a.m. - 1:00 p.m.  H141 When the Autopsy Is the Only Possibility to Obtain a Diagnosis: The Investigation of a Rare Case of Aortopulmonary Window (APW)
Alessandro Santurro, MD*; Cemyigit Deveci, MD; Matteo Scopetti, MD; Vittorio Gatto, MD; Federico Manetti, MD; Mariantonia Di Sanzo, MD; Antonio Grande, MD, PhD

Tracking Traumatic Injury and Death

Moderator: L.J. Dragovic, MD
Oakland County Medical Examiner's Office
Pontiac, MI

Co-Moderator: Tasha Zemrus Greenberg, MD
Tarrant County Medical Examiner's Office
Fort Worth, TX

1:00 p.m. - 1:15 p.m.  H142 A Comprehensive Review of the Pathology of Blunt Traumatic Spinal Cord Injury (TSCI) Resulting in Early Fatality
Declan McGuone, MD*; Nalin Leelatan, MD, PhD; Kristin Roman, MD

1:15 p.m. - 1:30 p.m.  H143 The Histomorphology of Cranial Fracture Healing: Preliminary Observations
Jered B. Cornelison, PhD*; Carolyn V. Isaac, PhD; Wendy L. Lackey-Cornelison, PhD; Brandy Shattuck, MD; Joyce L. defong, DO; Amanda O. Fisher-Hubbard, MD; Theodore T. Brown, MD; Elizabeth A. Douglas, MD; Joseph A. Prahlow, MD

1:30 p.m. - 1:45 p.m.  H144 Rule Out Trauma: A Five-Year Retrospective Study on Natural Disease, External Trauma, and Manner of Death at the Harris County Institute of Forensic Sciences (HCIFS)
Monica B. Patel, DO*; Pramod Gumpeni, MD

1:45 p.m. - 2:00 p.m.  H145 Radically Invasive Projectile (R.I.P.) Ammunition: The Projectile With No Boundaries
Lauren Havrilla, DO*; Michelle B. Aurelius, MD

2:00 p.m. - 2:15 p.m.  H146 Suicides in Cook County, Illinois: A Four-Year Retrospective Study From 2015 to 2019
Reema Khan, MD*; Stephanie Powers, MD; Ponni Arunkumar, MD

2:15 p.m. - 2:30 p.m.  H147 Mississippi Organ and Tissue Recovery in High-Profile Medical Legal Cases
Mark M. LeVaughn, MD*; Taylor Phillips*

2:30 p.m. - 2:45 p.m.  H148 Non-Natural Deaths on Hospital Property: A Five-Year Retrospective Review of Cases From Harris County, Texas (2014–2019)
Brooke H. Blake, MD*; Dwayne A. Wolf, MD, PhD; Merrill O. Hines III, MD

2:45 p.m. - 3:00 p.m.  H149 Autopsy Rates for Injury Deaths by Manner, Cause, and State in the United States From 2015 to 2017
Margaret Warner, PhD*; Marcus B. Nashelsky, MD; Holly Hedegaard, MD

3:00 p.m. - 3:15 p.m.  Break
### Unusual and/or Confounding Deaths

**Moderator:** Jacqueline L. Parai, MD  
*Presenting Author*  
Ottawa Hospital  
Ottawa, ON, CANADA  
**Co-Moderator:** Natasha L. Grandhi, MD  
Georgia Bureau of Investigation  
Decatur, GA

Wednesday

Toxicology Section Awardees Recognition (by invitation only)

6:30 p.m. - 7:30 p.m.  Supported by: UTAK

Poster Session

Moderator: Robert D. Johnson, PhD
Tarrant County Medical Examiner’s Office
Fort Worth, TX

Co-Moderator: Joseph A. Cox, MS
Morgantown, WV

7:30 p.m. - 9:00 p.m.  K1  Identification of Fentanyl and Fentanyl Analogs by Using High-Resolution Mass Spectrometry and Machine Learning
Yufei Chen, PhD; Xinyi Sui*; Nelson R. Vinueza, PhD

7:30 p.m. - 9:00 p.m.  K2  An Evaluation of Screening for Drug Use Using Postmortem Prolactin (PRL) Levels in Serum and Cerebrospinal Fluid (CFS)
Alissa M. Shida, BS*; Naoto Tani, MA; Kei Ikeda, MD; Tomoya Ikeda, PhD, MD; Takaki Ishikawa, MD, PhD; Aoki Yayoi, BA

7:30 p.m. - 9:00 p.m.  K3  Metabolism and Estimation of Intake of Intravenous Nicotine Injection
Alissa M. Shida, BS*; Kei Ikeda, MD; Naoto Tani, MA; Tomoya Ikeda, PhD, MD; Takaki Ishikawa, MD, PhD; Aoki Yayoi, BA

7:30 p.m. - 9:00 p.m.  K4  A Validated Method for the Quantitative Determination of Anabolic Steroids in Urine by Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS)
Shaiju Vareed, PhD*; Ernest D. Lykissa, PhD

7:30 p.m. - 9:00 p.m.  K5  Cocaine Overdose: A Fatal Record
Adriano Acella*; Carmelinda Angrisani, MD; Giuseppe Strisciullo, BES; Francesco Introna, MD; Antonio De Donno, PhD

7:30 p.m. - 9:00 p.m.  K6  The Identification of Xylazine in a Patient Who Presented for Heroin Withdrawal
Colin Appleford*, Michael P. Smith, PhD

7:30 p.m. - 9:00 p.m.  K7  An Unusual Case of Suicide by Fluvoxamine Poisoning
Jessica Quaiotti, MD; Matteo Moretti, MD*; Claudia Carelli; Silvia D. Visona, MD; Gulnaz T. Javan, PhD; Claudia Vignali; Luca Togana; Luca Morini; Antonio M.M. Osulati, MD

7:30 p.m. - 9:00 p.m.  K8  Delta-8-Tetrahydrocannabinol (Delta-8-THC): Increased Prevalence in Drug Seizure Cases and Impact on Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS) Analysis of Biological Specimens
Nicholas B. Tiscione, MS*; Steven J. Williams, BS*; Diana M. Lawrence, MSFS

7:30 p.m. - 9:00 p.m.  K9  The Determination of the Organic Components of Newer Generation E-Cigarette Liquids
Bailey Davis, BS, BA*; Frank Dorman, PhD

7:30 p.m. - 9:00 p.m.  K10  Driving Under the Influence of 1,1-Difluoroethane (DFE) and Marijuana
Aybike Dip, PhD; Ashraf Mozayani, PharmD, PhD*

<tr>
<th>Time</th>
<th>Session</th>
</tr>
</thead>
</table>
| 10:30 a.m. - 10:45 a.m. | Emergence of Delta-8 Tetrahydrocannabinol (THC) in Driving Under the Influence of Drugs (DUID) Investigation Casework  
Ayako Chan-Hosokawa, MS*; Loan Nguyen, BS; Renee L. LaFord, MS; Wendy R. Adams, PhD |
| 10:45 a.m. - 11:00 a.m. | A Seven-Year Review of Vehicular Crash Toxicology Data at the West Tennessee Regional Forensic Center  
Elizabeth C. Conner, MPH, CHES*; Erica Curry, MD |
| 11:00 a.m. - 11:15 a.m. | Toxicological Findings and Demographics of Phencyclidine (PCP) Use in Houston From 2013 to 2018  
Dayong Lee, PhD*; Peter R. Stout, PhD |
| 11:15 a.m. - 11:30 a.m. | The Prevalence and Crash Risk of Drugs in Injured Drivers in Victoria, Australia  
Dimitri Gerostamoulos* |
| 11:30 a.m. - 11:45 a.m. | The Effects of Synthetic Cannabinoids and Poly-Drug Use on Drug Recognition Expert Evaluations  
Amanda L.A. Mohr, MSFS*; Judith Rodriguez Salas, MS; Alex J. Krotulski, MS;  
David Andrascik, BS; Barry K. Logan, PhD |
| 11:45 a.m. - 1:00 p.m. | Lunch |

*Presenting Author
Drug Trends

Moderator: Dustin Tate Yeatman, MS  
West Palm Beach, FL  
Co-Moderator: Michael Wagner, MS, PA  
Fort Lauderdale, FL

1:00 p.m. - 1:15 p.m.  
K51 The National Forensic Laboratory Information System (NFLIS) Survey Findings: Toxicology Testing Practices by Toxicology Laboratories and Medical Examiner and Coroner Offices  
DeMia P. Pressley, MS*; Liqun Wong, MS; Terrence Boos, PhD; BeLinda J. Weimer, MA; Hope Smiley-McDonald, PhD; Katherine Moore Bollinger, MS; Megan Grabenauer, PhD; Jeffrey M. Ancheta, BS; Neelima Kunta, BS; David Heller, BS; Jeri D. Ropero-Miller, PhD

1:15 p.m. - 1:30 p.m.  
K52 Data-Supported Poly-Drug Use Among Fentanyl Users: A Toxicology Perspective  
Alex J. Krotulski, MS*; Susan Varnum, PhD; Barry K. Logan, PhD

1:30 p.m. - 1:45 p.m.  
K53 New Trends in Lysergic Acid Diethylamide (LSD) Use and Recommendations for Analysis  
Ryanne Brown, MSFS*; Jeff Walterscheid, PhD; Jessica L. Knittel, MS

1:45 p.m. - 2:00 p.m.  
K54 Xylazine Alone and in Combination With Opioid Drugs in Forensic Toxicology Casework  
Sherri L. Kacinko, PhD*; Edward J. Barbieri, PhD

2:00 p.m. - 2:15 p.m.  
K55 The Persistence of 3-Methylfentanyl (3-MF) in Pennsylvania  
Donna M. Papsun, MS*; Melissa Fogarty, MSFS; Sherri L. Kacinko, PhD; Barry K. Logan, PhD

2:15 p.m. - 2:30 p.m.  
K56 The Quantitation of N-Ethylpentylone (Ephylone) in Blood Samples From Victims of Suspected Drug-Facilitated Sexual Assault  
Lisa J. Reidy, PhD*; Kristin W. Kahl, MS; Alex Giachetti, BS; Diane Boland, PhD

2:30 p.m. - 2:45 p.m.  
K57 Buprenorphine-Related Deaths in North Carolina From 2010 to 2018  
Sandra C. Bishop-Freeman, PhD*; Laura Friederich; Marc Feaster, BS*; Christopher T. Garrell, BS; Michelle B. Aurelius, MD; Jason S. Hudson, PhD

2:45 p.m. - 3:00 p.m.  
Break

Novel Psychoactive Substances

Moderator: Michael P. Stypa, MS  
Las Vegas Metropolitan Police Department  
Las Vegas, NV  
Co-Moderator: Marissa J. Finkelstein, MS  
Miami-Dade Medical Examiner Department  
Miami, FL

3:00 p.m. - 3:15 p.m.  
K58 Evaluation of the Long-Term Stability of Select Phenylacetylosindole, Quinolinyl, and Carboxamide Synthetic Cannabinoids in Human Whole Blood Using Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS)  
Erika Phung, BS*; Katherine Moore Bollinger, MS; Sabra R. Botch-Jones, MS; Daniel Lee, MS; Cassandra A. Swart, MS; Megan Grabenauer, PhD; Nichole D. Bynum, MS

3:15 p.m. - 3:30 p.m.  
K59 The Quantitative Analysis of Fentanyl and Fentanyl Analogs in Hair  
Ryan B. Paulsen, PhD*; Michael I. Schaffer, PhD; Virginia Hill, BS; Neil Stowe, PhD; Judy Guan, BS

*Presenting Author
3:30 p.m. - 3:45 p.m.  K60  Physicochemical Characterization of 19 Fentalogs: Lipophilicity  
Madison R. Schackmuth, BS*; Sarah Kerrigan, PhD

3:45 p.m. - 4:00 p.m.  K61  Identification of Mitragyna Alkaloids and Metabolites as Biomarkers of Kratom Use in Postmortem Urine Samples  
Stephanie Basiliere, BS*; Sarah Kerrigan, PhD

4:00 p.m. - 4:15 p.m.  K62  Rapid Detection and Separation of Isomeric Fentanyl Analogs Using Gas Chromatography-Atmospheric Pressure Chemical Ionization-Trapped Ion Mobility-Time of Flight/Mass Spectrometry (GC-APCI-TIMS-TOF/MS)  
Elisa N. Shoff, MS*; Cesar E. Ramirez, PhD; Juergen Kempf, PhD; Francisco A. Fernandez-Lima, PhD

4:15 p.m. - 4:30 p.m.  K63  Determination of Novel and Non-Routine Benzodiazepines and Suvorexant in Whole Blood by Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS)  
Luke Garcia*, Nicholas B. Tiscione, MS; Dustin Tate Yeatman, MS; Lauren L. Richards-Waugh, PhD

4:30 p.m. - 4:45 p.m.  K64  Fentanyl Epidemic on the West Coast: Accidental Overdose Death Trends in San Francisco From 2008 to 2019  
Kelsa L. West, MS*; Luke N. Rodda, PhD

Toxicology Open Forum (Not Eligible for CE Credit)

7:00 p.m. - 9:00 p.m.  
Supported by:  
Thompson Instrument Company  
Waters Corporation

Friday

Multidisciplinary Session: Pathology/Biology I & Toxicology—Part I

<table>
<thead>
<tr>
<th>Time</th>
<th>Event</th>
</tr>
</thead>
</table>
| 8:30 a.m.     | K65  Accidental Acute Combined Drug Toxicity Involving Heroin and Fentanyl in a 10-Year-Old Child  
Joseph H. Kahl, MS*; Benjamin Mathis, MD; George W. Hime, MS; Diane Boland, PhD|
| 8:45 a.m.     | H100  Volatile Substances Concentrations in Costal Cartilage in Relation to Blood and Urine  
Marcin Tom sia; Joanna Nowicka; Elzbieta Chelmecka; Joanna Wójcik; Magdalena Wos; Kornelia M. Drozdziok; Rafał Skowronek; Gulnaz T. Javan, PhD* |
| 9:00 a.m.     | K66  A Fatal Mono-Intoxication With 4-Fluoroisobutyrylfentanyl  
Roelof Oosting, PharmD; Lauriane Drouin; Rogier van der Huist, PharmD; Ingrid Bosman, PhD* |
| 9:15 a.m.     | H101  The Relationship of Chronic Psychostimulant Use and Cardiovascular Disease  
Elly Riser, MD; Chamil Ariyaratne, MD, MBBS; Irfan Chaudhry, MD*; Caleb Banta-Green, PhD; Richard C. Harruff, MD, PhD |

*Presenting Author
Toxicology

9:30 a.m. - 9:45 a.m.  K67  Circumstances, Postmortem Findings, and Toxicology in a Series of Methoxyacetylfentanyl-Related Deaths
Robert Kronstrand, PhD*; Svante Vikingsson, PhD

9:45 a.m. - 10:00 a.m.  H102  Suicide by Acute Substance Intoxication: A Retrospective Analysis of Cases in Cook County, Illinois
Lorenzo Gitto, MD*; Ponni Arunkumar, MD; Serenella Serinelli, MD*

10:00 a.m. - 10:15 a.m.  K68  Homicidal Paraquat-Induced Respiratory Failure: A Case Report and Overview of Paraquat Testing in the Forensic Setting
Elaine J. Oldford, BS*; Theodore T. Brown, MD; Prentiss Jones, Jr., PhD; Kenneth D. Hutchins, MD

10:15 a.m. - 10:30 a.m.  Break

Multidisciplinary Session: Pathology/Biology I & Toxicology—Part II

Moderator: Marilyn A. Huestis, PhD  Co-Moderator: Loralie Langman, PhD
Huestis & Smith Toxicology, LLC  Mayo Clinic
Severna Park, MD  Rochester, MN

10:30 a.m. - 10:45 a.m.  H103  Active Duty United States Military Deaths Due to 1,1-Difluoroethane Intoxication
Sherry Jilinski, MD*; Alice Briones, DO*; Eric T. Shimomura, PhD; George F. Jackson, PhD

10:45 a.m. - 11:00 a.m.  K69  Caught Looking: A High-Profile Vessel-Related Fatality in Miami, Florida
Diane Boland, PhD*; Joseph H. Kahl, MS; Jennifer Gonyea; George W. Hime, MS; Kenneth D. Hutchins, MD

11:00 a.m. - 11:15 a.m.  H104  Why the “Kontroversy”? Is Kratom a Killer? The Emergence of Mitragynine in Drug-Associated Deaths in West Tennessee
Maxwell O. Rollins, MD*; Erica Curry, MD

11:15 a.m. - 11:30 a.m.  K70  Urinary Metabolites in Fatal Intoxications With Methoxyacetylfentanyl Could Indicate Time Until Death
Svante Vikingsson, PhD*; Robert Kronstrand, PhD

11:30 a.m. - 11:45 a.m.  H105  Pediatric Poisonings: An Epidemiological Study
Mete K. Gulmen, PhD, MD*; Kenan Kaya; Ozgenur K. Tok, MD

11:45 a.m. - 12:00 p.m.  H106  An Opioid Analysis in “Natural” Manner Scene Inspection Cases
Mary G. Ripple, MD*; David R. Fowler, MD; Dawn Zalauf; Rebecca Phipps, PhD

12:00 p.m. - 1:00 p.m.  Lunch

BRING YOUR OWN SLIDES (PowerPoint®) BYOS.ppt

Wednesday Evening: 8:00 p.m. - 10:00 p.m.

In order to keep BYOS.ppt informal, fun, and informative for the large and diverse audience, here are a few things to keep in mind for the BYOS.ppt program at the 2020 AAFS Annual Meeting in Anaheim, CA:

- Presentations must be in PowerPoint® format. 35mm slides are not accepted.
- Proposals must be submitted on this form accompanied by a "6-slides-per-page" printout of the presentation and an electronic copy on CD or flash drive.
- BYOS is not intended as a forum to present scientific papers. It is designed as a means to present interesting information and/or unusual case(s) that may be educational and blended with humor.
- Speakers should plan on ten minutes in which to present their material.
- Material being presented in other parts of the AAFS scientific program will not be accepted at BYOS.ppt.
- Tables, charts, and graphs should be avoided, making every effort to use slides of scenes, bodily findings, and evidence.

This completed form, a "6-slides-per-page" printout, and the electronic presentation copy should be delivered to the on-site AAFS Staff Office by 4:00 p.m. on Wednesday, February 19, 2020. Presentations will be selected and scheduled based on perceived interest to the audience and in the order in which the completed submissions are received. This form and required printout are needed to organize the BYOS.ppt program and to allow appropriate allocation of continuing education credit. A BYOS.ppt Program Form also will be placed in each registrant's meeting packet.

BYOS PROGRAM FORM

Name and Degree(s): _______________________________________________________________________________________________________

Job Title: ___________________________________________________________________________________________________________________

Place of Employment: _________________________________________________________________________________________________________

AAFS Section Affiliation (if none, write "none"): ____________________________________________________________________________________

The presentation is being offered primarily to:

[ ] Solicit input/advice on a challenging case
[ ] Present interesting information or case(s) for education purposes
[ ] Entertainment

Presentation is:

[ ] A single case
[ ] A series of cases with a common topic
[ ] Multiple cases with unrelated topics
[ ] Other (please specify): ______________________________________________________________________________________________

Briefly describe the material to be presented: _______________________________________________________________________________________

___________________________________________________________________________________________________________________________

What are the major points to be emphasized?: ______________________________________________________________________________________

___________________________________________________________________________________________________________________________

How will the attendees benefit from this presentation?: _______________________________________________________________________________

___________________________________________________________________________________________________________________________

Is there commercial interest in the material being discussed?": [ ] No [ ] Yes (if yes, please describe): ________________________________________

___________________________________________________________________________________________________________________________

How much presentation time is required?: ________ minutes How many PowerPoint® slides will be shown?: ________

Presenter's local hotel: ________________________________________________ Room #: ________ Phone #: _____________________________

U.S. Cell Phone: ___________________________________ Email you can access while at the meeting: ______________________________________

The BYOS agenda, scheduled presentation times, and continuing education credit hours will be posted near the BYOS meeting room. If you have any questions, contact Sonya Bynoe at abstracts@aafs.org or at the on-site AAFS Staff Office.

*********************************************************************************************************************************************************

AAFS STAFF USE ONLY: Date Received: ______________ Time: ______________
As a sponsor of continuing education, the American Academy of Forensic Sciences (AAFS) must ensure balance, independence, objectivity, and scientific rigor in all its educational activities. All faculty participating in a sponsoring activity are expected to disclose any significant financial interest or other relationship: (1) with the manufacturer(s) of any commercial product(s) and/or provider(s) of commercial services discussed in an educational presentation; and (2) with any commercial supporters of the activity. (Significant financial interest or other relationships can include such things as grants or research support, employee, consultant, major stockholder, member of speaker’s bureaus, etc.) AAFS has an established policy regarding conflicts of interest that includes decisions the Program Committee members may make in selecting content for the Annual Scientific Meeting Program. By serving on the committee, regardless of the role, each member has agreed to comply with Section 1.4.7. of the AAFS Policy and Procedure Manual.

To serve on the 2019-20 Program Committees, it is required that relevant AAFS staff members, program committee members, and/or reviewers complete a Financial Disclosure Form before being provided access to review submissions for the program. For continuing education accreditation purposes, the disclosed relationships are published below so learners are aware of the nature of any relationships that may impact the selection of presentations for the program. If a committee member failed to provide complete disclosure of a relevant financial interest or relationship, the committee member or reviewer was not allowed to serve. The executed Faculty Disclosure Forms are on file in the AAFS Office.

The following 2019-20 Program Committee members have disclosed financial relationships with commercial entities.

Marilyn A. Huestis, PhD – Reviewer
   Evanositics, Intelligent Fingerprinting, Pneuma, Thermo Scientific™ (Consultant Fees).
Philip M. Kemp, PhD – Reviewer
   Analytical Research Laboratories (Consultant Fees).
Jason C. Kolowski, PhD – Reviewer
   LG Chem, Ltd. (Consultant Fees).

The following 2019-20 Program Committee members disclose no financial relationships with commercial entities.

A

Michael S. Adamowitz, PhD – Reviewer

PRESENTING AUTHOR
FINANCIAL DISCLOSURE

As an accredited provider of Continuing Medical Education, the American Academy of Forensic Sciences requires speakers to disclose any real or apparent conflict of interest they may have related to the content of their presentation(s). The existence of commercial or financial interest of authors related to the subject matter of their presentation(s) should not be construed as implying bias or decreasing the value of their presentation(s). However, disclosure should help participants form their own judgments. AAFS and the Program Committee review the submissions to ensure that the content is educational and not a commercial presentation for companies and their products. Participants may notify AAFS by email (abstracts@aafs.org) should any presentation be considered solely a commercial endorsement presentation. Notification should include presentation number/ID (e.g., BS10, E100, W30) and speaker name.

If an author failed to provide complete disclosure of the discussion of commercial products, a relationship with the manufacturer including employee/employer relationship, sources of support for the research project, and/or the discussion of unlabeled or unapproved uses of pharmaceuticals/medical devices, the presentation was not accepted. Authors are required to disclose at the beginning of each presentation any information disclosed and listed below. Copies of the executed disclosure forms are kept on file in the AAFS Office.

The following presenting authors have disclosed financial relationships with commercial entities.

A

Jose R. Almirall, PhD - W26
- Agilent*, Analytical Solutions and Providers (ASAP Analytical) (Discussion of Commercial Products or Services).

B

Catherine O. Brown, MSFS –
- Discloses no financial relationships with commercial entities. – S2
- Agilent*, Waters* (Discussion of Commercial Products or Services). – B9
Bruce Budowle, PhD – B32
- COPAN* (Discussion of Commercial Products or Services).

C

Kelsey Cagle – F18
- Agilent* (Discussion of Commercial Products or Services).
Brady Carter, PhD – C29
- Multi-Spectral Imaging System (Discussion of Unlabeled/Investigational Use of Product/Device).
Claire M. Cartozzo, MS – A132, E46, H159
- Applied Biosystems*, Illumina*, Life Technologies*, Onset, QIAGEN*, THERMO FISHER*, YSI (Discussion of Commercial Products or Services).
Eoghan Casey, PhD –
- Discloses no financial relationships with commercial entities. – C34, C41, S1
Cellebrate*, IBM* (Discussion of Unlabeled/Investigational Use of Product/Device). – C32
Carole E. Chaski, PhD –
- SynAID (Discussion of Unlabeled/Investigational Use of Product/Device). – D29
Mollie S. Comella – B85
- Applied Biosystems*, COPAN*, SoftGenetics*, THERMO FISHER** (Discussion of Commercial Products or Services).

Billy S. Cox, Jr. –
- Discloses no financial relationships with commercial entities. – D28
- Bosch (Discussion of Unlabeled/Investigational Use of Product/Device). – D31
Nicole S. Cusack, BS – B109
- Invitrogen**, QIAGEN* (Discussion of Commercial Products or Services).
Natalia Czado, MS – B44
- Applied Biosystems*, COPAN*, Thermo Fisher Scientific** (Discussion of Commercial Products or Services).

D

Alyssa Daniels – B40
- Beckman Coulter*, Illumina*, QIAGEN*, THERMO FISHER*** (Discussion of Commercial Products or Services).
Bailey Davis, BS, BA – K9
- Agilent* (Discussion of Commercial Products or Services).
Jon Davoren, MS – B108
- Illumina* (Discussion of Commercial Products or Services).
Haylea Debolt – B177
- Agilent*, LECO® (Discussion of Commercial Products or Services).
Catia P. Dombaxe – E1
- Bluestar* (Discussion of Unlabeled/Investigational Use of Product/Device).

F

Allie Flores, BS – B136
- Bode Technology**, Promega*, QiaGen*, THERMO FISHER** (Discussion of Commercial Products or Services).

G

Ryan Greaney – E2
- Fuji, Sirchie* (Discussion of Unlabeled/Investigational Use of Product/Device).
Ellen M. Greytak, PhD –
- Gedmatch, Parabon* Nanolabs, (Discussion of Commercial Products or Services). – W20
- Parabon* Snapshot (Discussion of Unlabeled/Investigational Use of Product/Device). – W20
Brittany C. Hudson, MS – B154
Biotech Support Group, Invitrogen®, Millipore®, Procter & Gamble®, Puritan®, Sigma Aldrich, THERMO FISHER® (Discussion of Commercial Products or Services).

Samiah Ibrahim, BSc –
Discloses no financial relationships with commercial entities. – J17, J18, J29
Faxitron® Biopics, LLC (Discussion of Commercial Products or Services). – J15
Donna M. Iula, PhD – W21
Cayman Chemical (Discussion of Commercial Products or Services).

Kristin Jones, BS – B37
GE Healthcare, Millipore®, Thermo Fisher Scientific® (Discussion of Commercial Products or Services).

Joseph H. Kahl, MS – K65
Emergent BioSolutions®, Inc. (Discussion of Commercial Products or Services).

Roger Kahn, PhD – B151
Institute of Environmental Science and Research (ESR) (Discussion of Commercial Products or Services).

Lisa B.B. Kasamba – E1
Bluestar® (Discussion of Unlabeled/Investigational Use of Product/Device).

Amy Laabs, MFS – B23
KIWICARE®, Safariland® Group, Speedball, WD-40® (Discussion of Unlabeled/Investigational Use of Product/Device).

Steven B. Lee, PhD –
THERMO FISHER® (Discussion of Commercial Products or Services). – B47
THERMO FISHER® (Discussion of Unlabeled/Investigational Use of Product/Device). – B47
James W. Liang, BS – B83
Applied Biosystems®, Invitrogen®, Thermo Fisher Scientific®, Zyagen (Discussion of Commercial Products or Services).

Daniel Madrzykowski, PhD –
UL® FSRI Fire Investigation Web Portal (Discussion of Unlabeled/Investigational Use of Product/Device). – D8
Discloses no financial relationships with commercial entities. – W3

Kathleen M. Maguire, BS – B34
Bio-Rad®, COPAN®, Promega®, Puritan®, QIAGEN® (Discussion of Commercial Products or Services).

Laksh Malik – B109
Invitrogen®, QIAGEN® (Discussion of Commercial Products or Services).

Tyler L. McDermott, MS – B113
Thermo Fisher Scientific®, Verogen (Discussion of Commercial Products or Services).

Judy Melinek, MD –
Discloses no financial relationships with commercial entities. – BS2
Alumilite, Polyform, Ultronics (Discussion of Unlabeled/Investigational Use of Product/Device). – B127
Heather V. Milnthorp, MSFS – B78
Applied Biosystems®, Biomatrica®, Eppendorf®, Life Technologies®, QIAGEN® (Discussion of Commercial Products or Services).

Linda L. Mitchell, BS –
PracticePanther.com (Discussion of Unlabeled/Investigational Use of Product/Device). – J16
Discloses no financial relationships with commercial entities. – W23

CeCe Moore –
Parabon® Nanolabs (Discussion of Commercial Products or Services). – W20
Parabon® Snapshot (Discussion of Unlabeled/Investigational Use of Product/Device). – W20
Sarah V. Morello – E2
Fuji, Sirchie® (Discussion of Unlabeled/Investigational Use of Product/Device).

Ashley Morgan, MS – B110
Applied Biosystems® (Discussion of Commercial Products or Services).

John Nixon, MBA – D4
TriggerScan™ (Discussion of Unlabeled/Investigational Use of Product/Device).

Maher Noureddine, PhD –
COPAN® Italia, Thermo Fisher Scientific® (Discussion of Commercial Products or Services). – E4
Discloses no financial relationships with commercial entities. – E77

Morgan S. Peters – B66
QIAGEN® (Discussion of Commercial Products or Services).

Pierre-Antoine Peyron, MD – H181
Abbott™ (Discussion of Commercial Products or Services).

Martina Reif, MS – C32
Cellebrite® (Discussion of Unlabeled/Investigational Use of Product/Device).

Ciara Rhodes – B38
Life Technologies®, Illumina®, QIAGEN®, Quanta Biosciences, (Discussion of Commercial Products or Services).
Presenting Author
Financial Disclosure

James M. Robertson, PhD – B6
Illumina®, InnoGenomics®, Promega®, ThermoFisher Scientific®, Verogen, (Discussion of Commercial Products or Services).

Gert Saayman, FCPath – H91
University of Pretoria (Discussion of Unlabeled/Investigational Use of Product/Device).

Matteo A. Sacco, MD –
Discloses no financial relationships with commercial entities. – D2, E96, E97, H33, H34, H35, H73, H74, H129, I27
OptiTrack®, Supermicro® Systems (Discussion of Unlabeled/Investigational Use of Product/Device). – E83

Sarah J. Seashols Williams, PhD – B33
Bode Technology®, Life Technologies®, Promega®, QIAGEN® (Discussion of Commercial Products or Services).

Ismail M. Sebetan, MD, PhD –

The presenting author index can provide a quick reference to find when and in what section presenting authors are scheduled to present at the 2020 Annual Scientific Meeting. The reference table below assists you in finding the section in which the presentation will be given. Letters correspond to the scientific discipline/section in which the presentation is being made while the number corresponds to the numerical sequence of the presentation within the section.
