American Academy of Forensic Sciences • Pre-Registration Form
72nd Annual Scientific Meeting • February 17-22, 2020 • Anaheim, California
Pre-Registration Deadline – January 20, 2020

Three Ways to Register:
Register online at www.aafs.org
Scan & email your registration form (three pages) to registration@aafs.org
Mail your form with check, money order, or purchase order to: AAFS, 410 N 21st Street, Colorado Springs, CO 80904

Registration forms must be received by Monday, January 20, to be eligible to register for the 2020 Special Functions and to qualify for the discounted registration rate.

Faxed registration forms are not accepted.

BADGE INFORMATION

Salutation (Dr/Mr/Ms): __________ Badge First/Given Name: __________
Badge Last/Given Name: __________ Highest Degree Attained (one degree only): __________
Badge Agency/School Name: __________________________________________________________________________________
Mailing Address: ___________________________________________________________________________________________

Badge City: __________ Badge State/Province: __________ ZIP/Postal Code: __________
Badge Country: ___________________________________________________________________________________________
☐ Registrant Minimum Age: I acknowledge that all persons attending the meeting associated with this registration will be at least 18 years of age at the time of the meeting in February.

“Accompanying spouse” registration is only available to AAFS members paying the full meeting registration fee
(Excludes: Non-Member, Student, Daily, and Workshop Only registrants).
☐ Yes ($50) Name: _________________________________________________________________
♦ This reduced fee is intended for spouses, family members, or other traveling companions who are not members of the forensic science or legal community and may not be used for colleagues, students, or interns.

Email: __________________________________________ Cell Phone: __________________________

Hotel: __________________________________________ First AAFS Meeting? ☐ Yes ☐ No

Vocational Status: ☐ Professional ☐ Student ☐ Academic ☐ Decision Maker ☐ Purchasing Agent ☐ Other

Gender: ☐ Male ☐ Female

Would you like to receive pre-meeting exhibitor mailings? ☐ Yes ☐ No

Emergency Contact Name: __________________________ Emergency Contact Phone: __________________________

ADA ACCOMMODATIONS

Please list any special dietary requirements: ________________________________________________________________

Please list ADA accommodation requests: ________________________________________________________________

Please note: This ADA Accommodations request refers to meeting/session accommodations (e.g., wheelchair access, assisted listening devices, etc.) and should specify what event(s) you are attending. ADA accommodations related to hotel room reservations should be directed to the hotel when making reservations. ADA Accommodations are required by the pre-registration deadline (January 20, 2020). Requests received after this date may not be processed or fulfilled in time. Venues may not be able to fulfill every special dietary request. Please be specific and use standard accommodation language to detail your dietary needs.
The following sessions are priced separately and are not included in the Registration Fees. Special Functions fill quickly due to limited seating. Registration for all Special Functions officially closes as of the January 20, 2020, pre-registration deadline. **AAFS has a firm policy that non-registered attendance or auditing is not permitted in these sessions.** *(AAFS Policy and Procedure Manual 3.1.3.3)*

The pre-registration deadline is **January 20, 2020**. Forms must be received by this date to qualify for the pre-registration rate and to register for Special Functions. Registration forms received after January 20, 2020, will be processed as on-site registrations.

**THREE WAYS TO REGISTER**

- Scan & email your registration form (three pages) to: registration@aafs.org.
- Mail your registration form, along with a check, money order, or purchase order to:
  
  AAFS  
  410 North 21st Street  
  Colorado Springs, CO 80904  
  (Checks must be drawn on a U.S. bank in U.S. funds, made payable to AAFS.)
- Faxed registration forms are not accepted.

**ONLINE REGISTRATION INFORMATION**

- Online registrants are required to have an AAFS Web Account to register for the meeting.
- If you are currently a member or applicant of the AAFS, you will need to login to your AAFS Web Account to start your registration.
- If you are not a member of the AAFS, but you are or have been an Author or Co-Author on a presentation (oral or poster) at an AAFS Annual Scientific Meeting, you will have an AAFS Web Account. Use the “Forgot User Name or Password” button found on the AAFS Web Login page to retrieve a forgotten password.
- If this is your first contact with the AAFS, you will need to create a new AAFS Web Account. Click the “Create Account” button on the Login Page.

**REGISTRATION CONFIRMATION**

- When you register online, you will receive an email confirmation immediately.
- When you email or mail your registration form to AAFS, a confirmation email will be sent once your registration form is processed.
- Bring a copy of your confirmation letter to the on-site pre-registration desk for meeting check-in.

**NEW THIS YEAR—LOST BADGE POLICY**

- Lost, misplaced, stolen, or forgotten badges will incur a replacement fee equal to the original purchase amount of your registration. If your badge was complimentary, the fee will be the current, on-site rate.

**QUESTIONS**

- If you have any questions or need assistance with registration, contact the AAFS Office at (719) 636-1100, ext. 111, or by email at: registration@aafs.org.
REGISTRATION INFORMATION

PRE-REGISTRATION SAVINGS

The benefits of pre-registration cannot be emphasized enough!
Over 35% savings for AAFS members!

This is the only chance to register for Special Functions (breakfasts, luncheons, workshops, and special sessions)!
Your pre-registration form must be received by Monday, January 20, 2020.

*Includes admittance into AAFS sessions starting with the Tuesday evening Welcoming Reception through the Saturday morning Scientific Sessions (excludes all sessions found in section “SPECIAL FUNCTIONS” of the registration form).

**Registration Requirement:
- AAFS Applicants must have a completed application on file by the application deadline.
- Non-Member Trainees must submit a letter from employer verifying trainee status to registration@aafs.org.
- Non-Member Students must submit an official Verification of Enrollment confirming enrollment during February 2020 to registration@aafs.org. Not available to those in postgraduate internships, residencies, or fellowships.
- AFTE, IAAI, and IAI Members must provide proof of current membership to registration@aafs.org.

PRE-REGISTRATION DEADLINE
The deadline for pre-registration is January 20, 2020. Registration forms must be received by this date. Pre-registration forms received at the AAFS office after January 20, 2020, will be processed as on-site registrations and will cancel all Special Function selections (e.g., breakfast and luncheon seminars, workshops, and special sessions). Don't delay; register today via online, mail, or scan and email your pre-registration form as soon as possible to ensure your full participation and reduced registration fees. Faxed registration forms are not accepted.

REFUNDS
All requests for refunds must be made in writing via email (hjefferson@aafs.org) or mail to the AAFS headquarters. Canceled registration fees will be refunded as follows:

Prior to December 1 Full refund less $25 charge
December 1-31 75% refund
January 1-31 60% refund
February 1-7 50% refund
No refunds after February 7, 2020.

ACCOMPANYING SPOUSE REGISTRATION
This reduced fee is intended for spouses, family members, or other traveling companions who are not members of the forensic science or legal community and should not be used for colleagues, interns, or students.

Accompanying Spouse registration includes a name badge only and is not eligible for Continuing Education credit, workshops, special session registration, or certificates of attendance. However, breakfast seminar and luncheon seminar tickets may be purchased by the pre-registration deadline. Accompanying Spouse registration is only available to AAFS members paying the full meeting registration fee (excludes Non-Member registrants, Student registrants, Daily registrants, and Workshop Only registrants). An Accompanying Spouse registration is available for an additional fee ($50).
ABOUT THE AAFS

For 72 years, the American Academy of Forensic Sciences (AAFS) has served a distinguished and diverse membership. Its 6,600+ members are divided into 11 sections spanning the forensic enterprise. Included among the Academy’s members are physicians, attorneys, dentists, toxicologists, anthropologists, document examiners, digital evidence experts, psychiatrists, engineers, physicists, chemists, criminalists, educators, and others. Representing all 50 United States, Canada, and 60 other countries worldwide, they actively practice forensic science and, in many cases, teach and conduct research in the field as well. Each section provides opportunities for professional development, personal contacts, awards, and recognition. Many sections publish AAFS Newsfeed articles that keep their members abreast of activities and developments in their fields.

As a professional society dedicated to the application of science to the law, the AAFS is committed to the promotion of education and the elevation of accuracy, precision, and specificity in the forensic sciences. It does so via the Journal of Forensic Sciences (its internationally recognized scientific journal), the AAFS Newsfeed, its annual scientific meeting, the conduct of seminars and meetings, and the initiation of actions and reactions to various issues of concern. For its members and affiliates, AAFS provides expert witness referrals, job opportunity listings, as well as scientific reference studies. As the world’s most prestigious forensic science organization, the AAFS represents its membership to the public and serves as the focal point for public information concerning the forensic science profession. Founded in 1948, the AAFS is headquartered in Colorado Springs, CO.

AAFS Annual Scientific Meeting

Each February, the AAFS scientific meeting gathers together approximately 5,000 world-renowned professionals to present the most current information, research, and updates in their fields. More than 1,000 scientific papers, seminars, workshops, and other special sessions are presented. In addition, approximately 150 exhibitors showcase the cutting-edge technology and services of this ever-changing profession.

GENERAL INFORMATION

Registration Desk Hours
Anaheim Convention Center

Sunday: February 16, 1:00 p.m. - 5:00 p.m.
Monday: February 17, 6:45 a.m. - 5:00 p.m.
Tuesday: February 18, 6:45 a.m. - 6:00 p.m.
Wednesday: February 19, 6:45 a.m. - 5:00 p.m.
Thursday: February 20, 6:45 a.m. - 5:00 p.m.
Friday: February 21, 6:45 a.m. - 4:00 p.m.
Saturday: February 22, 7:30 a.m. - 12:00 p.m.

Exhibit Hall Hours
Anaheim Convention Center

Wednesday: February 19, 11:30 a.m. - 4:00 p.m.
Thursday: February 20, 9:00 a.m. - 2:00 p.m.
AAFS Reception (Exhibits Open): February 20, 6:00 p.m. - 8:00 p.m.
Friday: February 21, 8:00 a.m. - 12:00 p.m.

Lost Badge Policy

Lost, misplaced, stolen, or forgotten badges will incur a replacement fee equal to the original purchase amount of your registration. If your badge was complimentary, the fee will be the current, on-site rate.

Attention Meeting Presenters

The Journal of Forensic Sciences encourages authors to submit previously unpublished reports and papers presented at the AAFS annual meeting.

For full instructions on manuscript preparation, consult the Information for Authors available at:
https://www.aafs.org/resources/journal-of-forensic-sciences/information-for-authors/.
Manuscripts must be submitted electronically via the Journal of Forensic Sciences Manuscript Central site: http://mc.manuscriptcentral.com/jofs. For questions, please contact: jfs.editor@att.net.

Video and/or audio recording of any session(s) or parts thereof is not permitted without prior approval from the American Academy of Forensic Sciences.

English is the official language of the AAFS and its meetings; neither oral nor written translations will be provided.

Although precautions are taken to prevent schedule changes, speakers and program schedules may change due to unforeseen circumstances.

As a courtesy to others, please silence your cell phone when attending the sessions.
AWARDS

The Distinguished Fellow Award and the Outstanding Early Career Achievement in Forensic Science Award will be presented on Wednesday, February 19, during the AAFS Annual Business Meeting. Please join us in acknowledging your most distinguished colleagues as they are presented with these prestigious awards.

Distinguished Fellow

Betty Layne DesPortes, JD, MS
Iain A. Pretty, BDS, PhD

Outstanding Early Career Achievement in Forensic Science Award

Audrey M. Williams, PhD

2020 Section Award Honorees

Section Awards will be presented during Section Business Meetings, also on Wednesday, February 19 (see Section Business Meeting start times on page 12). The Section Award recipients will be acknowledged again before the entire membership during the AAFS Annual Business Meeting.

Anthropology Section's
T. Dale Stewart Award
J. Lawrence Angel Award
Ellis R. Kerley Research Award

# Awards

**Psychiatry & Behavioral Science Section**  
Rosner Best Paper Award  
Cristina Secarea, MD

**Questioned Documents Section's**  
Maureen Casey-Owens Award for Best Paper or Poster  
Nina Harnarine, BSc

Ordway Hilton Award  
Linda L. Mitchell, BS

**Toxicology Section's**  
Irving Sunshine Award  
Nathalie A. Desrosiers, PhD

Ray Abernethy Award  
Eric S. Lavins, BS

Rolla N. Harger Award  
Christine Moore, PhD, DSc

June K. Jones Scholarship  
Haley Mulder, BS

The FSF Jan S. Bashinski Criminalistics Graduate Thesis Assistance Grant will be presented on Wednesday, February 19, during the Criminalistics Section Business Meeting.

**FSF Jan S. Bashinski Criminalistics Graduate Thesis Assistance Grant Recipient**  
*Cameron M. Longo, BS*

The following awards will be presented on Wednesday, February 19, during the AAFS Annual Business Meeting. You'll want to be present to congratulate the recipients!

**Humanitarian and Human Rights Resource Center’s Clyde Snow Award Recipient**  
*Duarte Nuno Vieira, PhD, MD*

**Ambassador of Forensic Science Award Recipient**  
*The New York County District Attorney's Office*

**FSF Emerging Forensic Scientist Award Recipients**  
*Helen M. Brandt, MS*  
*Carrie Polston, BA*  
*Ellyn A. Zeidman, MS*

**FSF Warren-Young Scholarship Recipient**  
*Pamela Carman, BA*

**FSF Henry C. Lee Scholarship Recipient**  
*Giacomo Musile, PhD*
SECTION BUSINESS MEETINGS

The Sections

The Sections of the American Academy of Forensic Sciences will hold their annual business meetings on Wednesday, February 19, 2020. Some of the sections will hold a luncheon prior to the start of the business meeting. All Section Luncheons require pre-registration. This is your opportunity to participate! Please attend and contribute to your section’s future plans. Specific times are noted below:

** These luncheons require pre-registration.

RECEPTIONS

Welcoming Reception — Tuesday, February 18 — 6:00 p.m. - 8:00 p.m.

This opening event is your opportunity to meet old friends and to make new acquaintances. Snacks and cash bars will be available.

AAFS 72nd Annual Wine & Cheese Reception — Thursday, February 20 — 6:00 p.m. - 8:00 p.m.

The AAFS Wine & Cheese Reception will be held to celebrate what promises to be an excellent 2020 program and to toast your return to the Academy’s 73rd Annual Scientific Meeting in 2021 (Houston, TX)!
WELCOME TO ANAHEIM!
A city built on imagination, Anaheim is where you will find plenty of things to see and do. Visitors can enjoy the inviting beaches, unparalleled shopping, entertainment, trendy restaurants, lively art districts, beautiful historic landmarks, and legendary, yet always new and changing, internationally famed family attractions.

CLIMATE
The average temperature is 70 degrees and you can find bright and sunny skies about 70% of the time.

ANAHEIM CONVENTION CENTER
800 W Katella Avenue, Anaheim, CA 92802

TRANSPORTATION
Traveling to Anaheim is easy. With four major airports, there are several options for reaching your destination, including rental cars, shuttles, taxis, limousines, and ride apps (Uber/Lyft/Wings) companies.

John Wayne Airport (SNA)
SNA is located 13 miles/21 km from Anaheim. It is approximately a 20-minute drive.
(https://www.ocair.com/groundtransportation/)

Los Angeles International Airport (LAX)
LAX is located 35 miles/56 km from Anaheim. It is approximately a 50-minute drive.

Ontario International Airport (ONT)
ONT is located 36 miles/58 km from Anaheim. It is approximately a 45-minute drive.
(https://www.flyontario.com/parking-transports)

Long Beach Airport (LGB)
LGB is located 18 miles/29 km from Anaheim. It is approximately a 30-minute drive.
(http://www.lgb.org/travelers/transit.asp)

ATTRACTIONS

Disneyland® Park
Welcome to the place where imagination is the destination. For young and old, big and small—it’s the happiest place on earth! Come build memories with your family that last a lifetime as you discover the wonder of this magical, fantastical world. When you enter one of the Lands that comprise Disneyland® Park, stories come to life around you, immersing you in tales from some of your favorite Disney films.
(disneyland.disney.go.com)
Knott’s Berry Farm
This world-renowned theme park was built from the humblest of beginnings nearly 100 years ago. Starting with a simple roadside berry stand, then a restaurant serving mouthwatering chicken dinners, Walter and Cordelia Knott attracted long lines of customers to their Buena Park farm. To keep crowds entertained, the Knott family built an entire western-themed town that remains the heart of Knott’s Berry Farm today. Anchored in its rich California history and charm, Knott’s Berry Farm now bursts with attractions and entertainment for all ages. (https://www.knotts.com/)

Universal Studios Hollywood – Universal City
This film studio and theme park is located in the San Fernando Valley. It is one of the oldest and most famous Hollywood film studios still in use. It was initially created to offer tours of the real Universal Studios sets and is the first of many full-fledged parks located across the world. (https://www.universalstudioshollywood.com/)

Anaheim Garden Walk
An “eatertainment” destination that blends dining, nightlife, family-friendly fun, outdoor art, and unique shops in a single amazing location. Garden Walk is home to a distinctive collection of popular restaurants, a vibrant nightlife with two rocking dance clubs, retail stores, and a renowned live concert venue. Anaheim GardenWalk provides a one-of-a-kind guest experience and a world-class gathering place for locals and visitors. (https://anaheimgardenwalk.com/)

Center Street Promenade
Visit the rebirth of historic downtown Anaheim on Center Street Promenade, between Harbor Boulevard and Anaheim Boulevard to enjoy outdoor cafes, unique eateries, boutiques, the local farmers market, seasonal art shows, and street fairs. (https://www.centerstreetanaheim.com/)

Aquarium of the Pacific
This aquarium celebrates the planet’s largest and most diverse body of water: the Pacific Ocean. Home to more than 11,000 animals, the Aquarium explores the waters of Southern California and Baja and the Northern and Tropical Pacific. A world of discovery awaits people of all ages, backgrounds, and interests. (http://www.aquariumofpacific.org/)

MUZEO Museum and Cultural Center
Come explore the various exhibits that engage the community in exploring and celebrating diverse heritage, culture, and arts through creative programming. (http://muzeo.org/)
RESTAURANTS

Agio Ristorante
2085 S Harbor Boulevard
Italian/California-inspired cuisine that incorporates the freshest ingredients and a celebration of flavors into distinctive seasonal fare.

Bubba Gump Shrimp
Anaheim Garden Walk, 321 W Katella Avenue
Bubba's is a choice with a "down south" vibe, serving up delicious seafood dishes to amazing slow-roasted ribs and salads—all served up in a casual and fun atmosphere. Try the Shrimper's Heaven with a variety of shrimp dishes and sauces.

Buca di Beppo
11757 Harbor Boulevard
Buca di Beppo gets to the heart of fresh Italian cooking with favorites like Chicken Carbonara, Baked Rigatoni, or Spaghetti with famous half-pound meatballs! Buca serves family-style food in two portion sizes.

Decades Bar & Grill
195 W Center Street Promenade
Are you dreaming of high-top sneakers, big shoulder pads, fanny packs, or big hair? Serving deep fried lasagna, fried chicken sandwiches, grilled cheese, cheesburgers, and more, this 80s- and 90s-themed restaurant and bar will transport you back in time.

House of Blues® Anaheim
400 W Disney Way Suite 337
Featuring Southern-inspired dishes like the Voodoo Shrimp, the House of Blues® Restaurant & Bar brings a little rock to your walk as you seek a restaurant near the Convention Center. The energetic atmosphere and soulful food make it a fun stop for Happy Hour or dinnertime.

Jazz Kitchen
1590 South Disneyland Drive
Jazz on over to the Jazz Kitchen, a savvy representation of New Orleans' dual legacies—food and music—served up in a whimsical setting depicting the charm, ambience, and hospitality of historic and contemporary New Orleans.

JT Schmid's Brewhouse & Eatery
Anaheim Garden Walk, 2610 E Katella Avenue
JT Schmid's takes great pride in offering a delicious selection of handcrafted microbrews, steaks, pasta, pizza, and salads. They offer a California casual environment, but are committed to providing quality food and outstanding service that is world class.

McCormick & Schmick's Grille
Anaheim Garden Walk, 321 W Katella Avenue
McCormick & Schmick's Grille specializes in aged steaks, poultry, and seafood, offering dozens of rotating preparations daily for both lunch and dinner.

Mix Restaurant & Lounge
Hilton Anaheim, 777 Convention Way
Located in the Hilton Anaheim on Convention Way, the Mix Restaurant & Lounge serves a variety of imaginative dishes that tout organic and regional ingredients. For quick bites or a signature cocktail, head to the hip Mix Lounge.

Morton's The Steakhouse
1895 S Harbor Boulevard
A sophisticated steakhouse welcomes diners looking for a decadent evening meal. Specially priced bar bites are offered Monday through Friday during the Power Hour.

nFUSe Bar and Kitchen
Anaheim Marriott, 700 Convention Way
The nFuse Bar And Kitchen at the Anaheim Marriott serves California cuisine influenced by cultures around the globe. Head to the bar to enjoy an impressive selection of craft beer, 65+ varieties of whiskey, premier wines, and handcrafted cocktails.

Roy's Restaurant
Anaheim Garden Walk, 321 W Katella Avenue
Roy's Restaurant is one of the finest seafood restaurants in the area. The lounge offers two lovely Aloha Hours, one in the early evening and one after dinner. You will want to try the Hawaiian Martini and their famous Roasted Macadamia Nut Crusted Mahi Mahi.

Ruth's Chris Steakhouse
2041 South Harbor Boulevard
Stop into the dinner-only restaurant for a signature sizzling steak served on a 500-degree plate with a selection of entrée accompaniments like lobster tail and shrimp. The steak dinner, done right, is paired with a world-class wine list. Visit during Sizzle, Swizzle, Swirl Happy Hour for $9 drink specials, full-sized appetizers like the spicy shrimp, and other delicious menu items.

Tony Roma's Steak House Restaurant
1640 South Harbor Boulevard
Tony Roma’s is legendary for ribs. You can also enjoy steaks, the Kickin' Shrimp, or Onion Loaf in the casual atmosphere. Enjoy the appetizer samplers and mini desserts.

The AAFS has selected the Hilton Anaheim as its host hotel during the 72nd Annual Scientific Meeting in Anaheim, CA. Located directly across from the Anaheim Convention Center, it is a short walk to attend meeting events. Enjoy your stay in a room designed with comfort and convenience in mind, providing a place to unwind or to catch up on work. Sleep soundly in the Hilton Serenity bed. Enjoy 32-inch flat panel HDTVs with HBO®, CNN®, and ESPN®. Work productively at the work desk featuring an ergonomic chair. Rejuvenate in the morning with the convenient coffee maker and complimentary coffee and tea. Additional amenities include five on-site dining venues, lounge, food court, on-site convenience store, fitness room, pool, and much, much more!

Early reservations are recommended to take advantage of the group-contracted rates. Please be sure to cancel your reservation if you are unable to attend or you cannot use the reservation. This will make the rooms available for other attendees and will help AAFS avoid the financial penalties associated with cancellations made after the room block closes.

Please have the following information handy when you go to make your reservations:

**Meeting Dates:** Monday, February 17, through Saturday, February 22, 2020

**Group Name:** AAFS Annual Meeting

**Group Code:** FOR

**Call-in #:** 877-776-4932

**Web-link:** https://book.passkey.com/go/AAFS

**Room Rate:** $199

---

**Attend the Annual Business Meeting of Fellows and Members to Win a Complimentary Meeting Registration!**

The Annual Business Meeting of the Fellows and Members of the AAFS will be held Wednesday, February 19, 2020, at 4:15 p.m., at the Anaheim Convention Center in Anaheim, CA. It is essential that all Fellows and Members attend this very important meeting in order to reach a quorum for the voting process. Agenda items include the election of 2020-21 Officers, consideration of bylaw amendments, presentation of the Gradwohl Medallion, Distinguished Fellow, and Outstanding Early Career Achievement in Forensic Science Awards, and recognition of all Members being promoted to Fellow status. You also will be briefed on AAFS activities during the past year and plans for the future.

As an incentive to attend, all Fellows and Members present will automatically be entered in a drawing for a complimentary meeting registration to attend the 2021 AAFS Annual Scientific Meeting in Houston, TX.
CONTINUING EDUCATION

General Information

All meeting sessions are lectures with one or more speakers. Continuing professional education credits will be offered for physicians, dentists, and attorneys. Continuing education credit applications have been submitted for physicians, nurses, and dentists. Attorneys may request CLE credit; please see the “Legal” section on page 19.

To register for continuing education credit, please complete the appropriate section on the meeting Registration Form. An individual must be a registrant to obtain continuing education credit. Fees charged for continuing education credits are based on projected costs of providing the various types of continuing education credit. The AAFS has adopted a user-pay approach so that those individuals who benefit from the specific continuing education program are responsible for the costs incurred.

In order to be in compliance with accrediting organizations, introductions, breaks, and lunches have been deducted from the total hours. Please note that continuing education credit is not available for all sessions. All continuing education credit recipients will receive documentation regarding the number of continuing education hours awarded. Attendance reports are filed with the appropriate state or national agency, as required.

Learning Objectives of the AAFS Continuing Education Program

- Recognize the perspectives and roles of the various forensic science disciplines
- Assess current concepts and practices
- Discuss relevant forensic science issues related to science, evidence and the law
- Identify strategies for researching descriptive studies, technology and methods, diagnostics, interpretation and testimony
- Review administrative functions performed by forensic scientists

Faculty Disclosure Policy

As a sponsor of continuing education, the American Academy of Forensic Sciences must insures balance, independence, objectivity, and scientific rigor in all its educational activities. All faculty participating in a sponsoring activity are expected to disclose any significant financial interest or other relationship: (1) with the manufacturer(s) of any commercial product(s) and/or provider(s) of commercial services discussed in an educational presentation; and, (2) with any commercial supporter of the activity. (Significant financial interest or other relationship can include such things as grants or research support, employee, consultant, major stockholder, member of speaker’s bureaus, etc.) AAFS has an established policy regarding conflicts of interest that includes decisions the Program Committee members may make in selecting content for the Annual Scientific Meeting Program. By serving on the committee, regardless of role, each member has agreed to comply with Section 1.4.7. of the AAFS Policy and Procedure Manual.

To serve on the 2019-20 Program Committees, it is required that AAFS staff members, program committee members, and reviewers complete a Conflict of Interest form before they are provided access to review submissions for the program. For continuing education accreditation purposes, the disclosed relationships are published below so that learners are aware of the nature of any relationships that may impact the selection of presentations for the program. If a committee member failed to provide complete disclosure of a relevant financial interest or relationship, the committee member or reviewer was not allowed to serve. The executed Faculty Conflict of Interest forms are on file in the AAFS Office.

American Board of Criminalists Approval

The American Academy of Forensic Sciences (AAFS) is approved by the American Board of Criminalistics (ABC) to offer continuing education points for approved workshops for criminalists and forensic scientists. The ABC maintains responsibility for the program, and credit may be awarded to ABC Fellows, Diplomates, and Affiliates.
Continuing Education

Overall Purpose and Objective Statements for Major Aspects of AAFS Programs

Workshops and Special Sessions
Purpose: To provide an opportunity for experts to present material and to lead discussion and practical exercises related to forensic science methods, procedures, diagnosis, investigation, professional relations and practices, communication, administration, and professional development.

Educational Objectives: Detailed individually in each workshop and special session announcement and description.

CE Credit: Varies from 1.5 credit hours to 16 credit hours.

Breakfast/Luncheon Seminars
Purpose: To provide an opportunity for presentation and discussion of relevant historical and current topics of forensic science interest related to specific case investigations, or general or specific investigative needs and procedures, methodologies, and testimony.

Educational Objectives: Detailed individually in each breakfast/luncheon seminar announcement and description.

CE Credit: Designated for a maximum of .75 credit hour for Breakfast Seminars and 1.0 credit hour for Luncheon Seminars.

Plenary Session
Purpose: To provide a multidisciplinary presentation and discussion of issues related to the forensic science profession.

Educational Objectives: Attendees will be able to: a) identify the challenges the forensic science profession has faced and will continue to face in terms of ensuring quality; b) identify ways to deal with the variances each challenge presents; and, c) identify the entities which have influence over setting the quality standards in the field of forensic science.

CE Credit: Designated for a maximum of 2.25 credit hours.

Oral and Poster Section Scientific Sessions
Purpose: To provide an opportunity for presentation and discussion of case reports, descriptive studies, review presentations, research, administrative issues, and investigative/diagnostic methods regarding topics and issues of importance to a primary discipline among the forensic sciences.

Educational Objectives: To meet the educational objectives stated by each presenter for his/her presentation.

CE Credit: Varies according to the individual's session attendance. Designated for a maximum of 25.0 credit hours.

Last Word Society
Purpose: To provide a retrospective forensic analysis of historical events and to provide education about the history and evolution of forensic sciences as well as the modern methods and technologies used to re-examine past events of forensic science interest. Emphasis is placed on the evaluation of the original opinions and case outcome and on the development of newer hypotheses based on the re-analysis.

Educational Objectives: To meet the educational objectives stated by each presenter for his/her presentation.

CE Credit: Designated for a maximum of 2.0 credit hours.
CONTINUING EDUCATION

Guidelines For Claiming Credit

As the sponsor of Continuing Education Credit, the AAFS recognizes that the forensic science disciplines are inextricably linked and that interdisciplinary knowledge is critical to promote competence in forensic practice. As a result, the claiming of credit for various continuing education activities related to medicine, dentistry, law, and other forensic disciplines need not be limited to one’s primary professional specialty. For example, a forensic pathologist from the Pathology/Biology Section may gain very useful and relevant information by attending a presentation in the Anthropology Section scientific session. It is appropriate to claim continuing medical education credit for that session. Many other examples exist where the claiming of continuing education credit is appropriate for attending sessions that cover material related to, but which lay outside of, one’s primary professional area of expertise.

It is the conference attendee’s responsibility to document which program sessions were attended and to determine those sessions for which continuing education credit may be claimed. The AAFS operates under the assumption that meeting attendees will, in general, be unlikely to attend sessions that will not be beneficial to their professional practice and that the claim for continuing education credit is justified if a session contains scientific or practice-related information that may bring new knowledge, may affirm current knowledge, or may provide information that could possibly modify one’s professional practices.

Those who wish to receive continuing education credit must register and pay the Continuing Education Credit fee on the meeting Registration Form. CE Credit Request Forms will be available at the registration desk. The completed forms must be returned to AAFS by the designated deadline.

Categories of Continuing Education Credit Offered

Dental

This continuing education activity has been planned and implemented in accordance with the standards of the ADA Continuing Education Recognition Program (ADA CERP) through joint providership efforts between Postgraduate Institute for Medicine and the American Academy of Forensic Sciences.

Postgraduate Institute for Medicine is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of the credit hours by boards of dentistry. Concerns or complaints about a CE Provider may be directed to the provider or to ADA CERP at www.ada.org/cerp.

Legal

Continuing legal education credit will be awarded on an hour-for-hour basis. Attorneys may file the AAFS-issued CLE certificate with their respective state bars. Please contact Continuing Education Coordinator Kimberly Wrasse, kwrasse@aafs.org, no later than the January 20, 2020, pre-registration deadline if your state bar will not allow you to self-report. AAFS will apply for accreditation/approval from your state in this circumstance.

Medical

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Postgraduate Institute for Medicine and the American Academy of Forensic Sciences. The Postgraduate Institute for Medicine is accredited by the ACCME to provide continuing medical education for physicians.

Non Physician

A general non-physician certificate of attendance will be available.

General

General continuing education credit is offered for those practicing the various forensic science disciplines not represented in the aforementioned list.
The American Academy of Forensic Sciences would like to thank the following supporters for their contributions to the 2020 AAFS 72nd Annual Scientific Meeting:

Ellis R. Kerley Forensic Sciences Foundation

Magnet Forensics

NMS Labs, Inc

Price-Hansen and Associates, LLC

The Center for Forensic Science Research & Education at the Fredric Rieders Family Foundation

Thomson Instrument Company

UTAK

Waters Corporation
CALENDAR OF EVENTS

Friday, February 14, 2020
8:00 a.m. - 5:00 p.m. American Board of Criminalistics (ABC) Quality Assurance Committee

Saturday, February 15, 2020
8:00 a.m. - 5:00 p.m. ABC Board of Directors
8:00 a.m. - 5:00 p.m. ABC Examination Committee
1:00 p.m. - 5:00 p.m. Academy Standards Board (ASB) Board of Directors

Sunday, February 16, 2020
8:00 a.m. - 1:00 p.m. ASB Board of Directors
8:00 a.m. - 5:00 p.m. Forensic Science Education Programs Accreditation Commission (FEPAC) Business Meeting
8:00 a.m. - 5:00 p.m. ABC Board of Directors
8:00 a.m. - 5:00 p.m. ABC Examination Committee
8:00 a.m. - 5:00 p.m. Forensic Specialties Accreditation Board (FSAB) Board of Directors
8:00 a.m. - 6:00 p.m. American Board of Forensic Odontology (ABFO) Dental Identification Workshop
1:00 p.m. - 5:00 p.m. AAFS REGISTRATION OPEN
1:00 p.m. - 6:00 p.m. AAFS Cyber Cafe
1:00 p.m. - 6:00 p.m. AAFS Speaker Ready Room

Monday, February 17, 2020
6:00 a.m. - 6:00 p.m. AAFS Speaker Ready Room
6:45 a.m. - 5:00 p.m. AAFS REGISTRATION OPEN
7:00 a.m. - 8:30 a.m. Breakfast #1: Ethno-Cultural and Religious Considerations in the Management of the Dead (Pre-Registration Required)
7:00 a.m. - 6:00 p.m. AAFS Cyber Cafe
7:00 a.m. - 6:00 p.m. Press Room
8:00 a.m. - 5:00 p.m. AAFS Board of Directors
8:00 a.m. - 5:00 p.m. American Board of Forensic Toxicology (ABFT) Examination Committee
8:30 a.m. - 12:00 p.m. Workshop #1: Drug Delivery Homicide: Prosecution, Defense, and Expert Testimony (Pre-Registration Required)
8:30 a.m. - 12:15 p.m. Workshop #2: Statistical Learning Algorithms for Forensic Scientists (Pre-Registration Required)
8:30 a.m. - 12:15 p.m. Workshop #3: Recent Advances in Understanding Fire Pattern Production (Pre-Registration Required)
8:30 a.m. - 12:30 p.m. Workshop #4: The Impact of the 2018 Farm Bill on the Forensic Analysis of Cannabis (Pre-Registration Required)
8:30 a.m. - 12:30 p.m. Workshop #5: The Psychopathology of Homicide (Pre-Registration Required)
8:30 a.m. - 4:15 p.m. Workshop #6: High-Impact Practices in Forensic Science Education (Pre-Registration Required)
8:30 a.m. - 4:45 p.m. Workshop #7: New Advances in Forensic Human Identification: Issues and Approaches (Pre-Registration Required)
8:30 a.m. - 5:00 p.m. Workshop #8: Death Investigations in the Military: Case Studies From Around the World (Pre-Registration Required)
8:30 a.m. - 5:00 p.m. Workshop #9: Interpersonal Violence and Elder Abuse: Maltreatment That Crosses All Borders (Pre-Registration Required)
8:30 a.m. - 5:00 p.m. Workshop #10: Investigation and Analysis of Health Care Serial Killers (Pre-Registration Required)
8:30 a.m. - 5:15 p.m. Workshop #11: The Native American Graves Protection and Repatriation Act (NAGPRA) and the Medicolegal System: Legal, Practical, and Ethical Considerations for Practitioners (Pre-Registration Required)
8:30 a.m. - 5:15 p.m. Workshop #12: KidStats: Improving the Subadult Biological Profile (Pre-Registration Required)
8:30 a.m. - 5:30 p.m. Workshop #13: A Primer on Multidisciplinary Investigation of Pediatric Injuries and Deaths (Pre-Registration Required)
CALENDAR OF EVENTS

8:30 a.m. - 5:30 p.m. Workshop #14: Mass Disasters and Disaster Victim Identification (DVI) (Pre-Registration Required)
3:00 p.m. - 8:00 p.m. ABO Combined Executive Committee and Board of Directors
5:00 p.m. - 6:00 p.m. Consortium of Forensic Science Organizations (CFSO) Legislative Update Annual Report (Open to All Meeting Attendees)
5:00 p.m. - 7:00 p.m. American Academy of Forensic Sciences/Brazilian Academy of Forensic Sciences Cooperative Ad-Hoc Committee
5:15 p.m. - 6:15 p.m. AAFS General Section Annual Committee Chairs Meeting
6:00 p.m. - 8:00 p.m. AAFS Standards Board Meet & Greet Reception (by Invitation Only)
6:00 p.m. - 11:00 p.m. National Association of Medical Examiners (NAME) Executive Committee
7:00 p.m. - 8:30 p.m. International Attendee Welcome Reception (by Invitation Only)
8:00 p.m. - 10:45 p.m. ABFO Diplomates Annual Meeting

Tuesday, February 18, 2020

6:00 a.m. - 6:00 p.m. AAFS Speaker Ready Room
6:45 a.m. - 6:00 p.m. AAFS REGISTRATION OPEN
7:00 a.m. - 8:00 a.m. NAME Foundation Board of Trustees
7:00 a.m. - 8:30 a.m. Breakfast #2: The Working Stiffs: Writing and Publishing the Experiences of a Forensic Pathologist in Both Fiction and Non-Fiction (Pre-Registration Required)
7:00 a.m. - 9:00 a.m. Toxicology Section Steering Committee
7:00 a.m. - 5:15 p.m. 50th Annual Scientific Meeting of the American Society of Forensic Odontology (ASFO)
7:00 a.m. - 6:00 p.m. AAFS Cyber Cafe
7:00 a.m. - 6:00 p.m. Press Room
7:30 a.m. - 9:30 a.m. Forensic Sciences Foundation (FSF) Board of Trustees
8:00 a.m. - 12:00 p.m. ABFT Examination Committee
8:00 a.m. - 12:00 p.m. NAME Board of Directors
8:00 a.m. - 5:00 p.m. CFSO Board (Not Open to the Public)
8:00 a.m. - 5:00 p.m. Journal of Forensic Sciences Associate Editors/Strategic Planning Committee
8:00 a.m. - 6:00 p.m. ASB Consensus Body Meetings
8:00 a.m. - 8:00 p.m. IBFES Board of Directors and Member Meeting
8:30 a.m. - 12:00 p.m. Workshop #15: Dementia Workup for Forensic Pathologists Following a Condensed National Institute on Aging-Alzheimer's Association (NIA-AA) Protocol (Pre-Registration Required)
8:30 a.m. - 12:00 p.m. Workshop #16: Forensic Multimedia Authentication: Real-Life Challenges (Pre-Registration Required)
8:30 a.m. - 12:00 p.m. Workshop #17: The Murder of Women: A Global Issue That Demands Action (Pre-Registration Required)
8:30 a.m. - 12:30 p.m. Workshop #18: Injury biomechanics: An Interdisciplinary Approach and Forensic Applications (Pre-Registration Required)
8:30 a.m. - 12:30 p.m. Workshop #19: Think Tank on the Leading Edge of Forensic Science, Including Robotics, Drug Intelligence, Analytical Chemistry, Technology Rules, Bayesian Approach, Legal Technology Developments, Research and Development (R&D) in a Forensic Lab, Veterinary Forensics, and Aquatic Death Investigation (Pre-Registration Required)
8:30 a.m. - 12:45 p.m. FEPAC: Accreditation of Forensic Science Academic Programs Through the FEPAC
8:30 a.m. - 4:45 p.m. Workshop #20: Genetic Genealogy: Science, Law, and Ethics (Pre-Registration Required)
8:30 a.m. - 5:00 p.m. Special Session #1: Progress in the Forensic Sciences Since the 2009 National Academy of Sciences (NAS) Report (Pre-Registration Required)
8:30 a.m. - 5:00 p.m. Special Session #2: 25 Years of Crossing Borders: Young Forensic Scientists and Their Collaborations (Pre-Registration Required)
8:30 a.m. - 5:00 p.m. Workshop #21: A Decade of Designer Drugs: Lessons Learned and Future Directions (Pre-Registration Required)
8:30 a.m. - 5:00 p.m. Workshop #22: “All Rise”: Successfully Navigating the Judicial System as an Expert Witness (Pre-Registration Required)
8:30 a.m. - 5:00 p.m. Workshop #23: Dispelling the Myths About the Forensic Examination of Handprinting (Pre-Registration Required)

8:00 p.m. - 10:00 p.m. University of New Haven Student and Alumni Reception

Thursday, February 20, 2020

6:00 a.m. - 6:00 p.m. AAFS Speaker Ready Room
6:45 a.m. - 5:00 p.m. AAFS REGISTRATION OPEN
7:00 a.m. - 8:30 a.m. Breakfast #4: A Tour of a Cannabis Extract Manufacturing Facility in Maine (Pre-Registration Required)
7:00 a.m. - 8:30 a.m. SOFT Mentoring Breakfast
7:00 a.m. - 6:00 p.m. AAFS Cyber Cafe
7:00 a.m. - 6:00 p.m. Press Room
7:30 a.m. - 8:00 a.m. AAFS Moderators “How To” Preview
7:30 a.m. - 9:00 a.m. AAFS Policy and Procedure Committee
8:00 a.m. - 6:00 p.m. ASB Consensus Body Meetings

Scientific Sessions – Morning
8:30 a.m. - 11:30 a.m. Anthropology Session I
8:30 a.m. - 11:35 a.m. Psychiatry & Behavioral Science
8:30 a.m. - 11:55 a.m. Odontology
8:30 a.m. - 12:00 p.m. Anthropology Session II
8:30 a.m. - 12:00 p.m. Criminalistics Session I

3:00 p.m. - 5:00 p.m.  AAFS 2020-21 Board of Directors Meeting
7:00 p.m. - 9:00 p.m.  Criminalistics Evening Session: Criminalistics Believe It or Not!

Saturday, February 22, 2020

7:30 a.m. - 12:00 p.m.  AAFS REGISTRATION OPEN

Scientific Sessions — Morning
8:30 a.m. - 10:45 a.m.  Psychiatry & Behavioral Science
8:30 a.m. - 11:35 a.m.  Criminalistics Session II
8:30 a.m. - 11:45 a.m.  Criminalistics Session I
The purpose of the Student Academy of Forensic Sciences is to bring to the attention of local area high school and college students the vital importance of the application of scientific principles to the administration of justice. It acquaints the participants with the role of the forensic science disciplines in the legal system as well as the education and training required for the career in each discipline. All high school and college-age students are welcome to attend.

Learning Overview: Attendees will have an appreciation of the impact the 2009 Report by the NAS, *Strengthening Forensic Science in the United States: A Path Forward*, has had on several forensic disciplines.

Impact on the Forensic Science Community: Forensic sciences have been under the shadow of the NAS Report for the past ten years. This symposium will impact the forensic science community by providing an update on the state of many disciplines with respect to method reliability and testimonial boundaries, both of which were called into question by the NAS Report.

Program Description: The Interdisciplinary Symposium will bring together speakers from a wide range of disciplines who will discuss their responses to the recommendations listed in the 2009 NAS Report, *Strengthening Forensic Science in the United States: A Path Forward*. 
The NAS Report, *Strengthening Forensic Science in the United States: A Path Forward*, commonly referred to as the NAS Report by the forensic community, was released in February 2009 during the Annual Scientific Meeting in Denver, CO. This Report was unprecedented because it brought to light many issues that had been hampering the evolution of forensic science. It provided 13 comprehensive recommendations, starting with the establishment of a National Institute of Forensic Sciences (NIFS). This was described as an independent federal entity designated with the responsibility of supporting and overseeing forensic science across the country. The authors advocated that law enforcement agencies should no longer be the primary administrators of their crime laboratories and that medical examiner systems should replace coroner’s offices. Laboratory accreditation, individual examiner certification, and standardization of procedures were additional recommendations proposed in the NAS Report. Two significant recommendations to the forensic sciences, more specifically to the pattern-based evidence disciplines, revolved around: (1) improving their scientific foundations and reliability through research and validation, and (2) ensuring the accuracy of testimony offered by experts in court. Many of the NAS recommendations have not come to fruition, including the creation of NIFS. However, changes have occurred in response to some of the recommendations. Various questions can be posed to assess the impact of those changes. Has the community devoted time and resources to validating current techniques and methods? Are new disciplines embracing the scientific method? What does a “match” or an “identification” mean today? How conclusively are examiners allowed to state their results? What does the future hold for forensic expert testimony? Have court systems outside of the United States taken any notice of the changes occurring here?

This year’s symposium will feature 13 speakers across both scientific and national borders who will provide their perspectives on how the NAS Report has changed (or not) their business practices over the past decade. Many of the forensic disciplines discussed in the report will be addressed, including DNA, friction ridge, firearms, documents, odontology, and digital/multimedia evidence examination. Responses in crime scene analysis and medicolegal investigations will be presented as well. Members of the legal community will also share their thoughts on how they interpret the conclusions made by forensic experts in written reports and in trial. In addition, the efforts of the National Institute of Justice (NIJ) to fund research in these areas will be discussed. This symposium intends to be a valuable session to forensic science practitioners, managers, and legal representatives.

**Program:**

8:30 a.m. - 9:00 a.m.  
**Transparency and Consistency in Trial Testimony for Medical Examiners**  
*Joye M. Carter, MD*

9:00 a.m. - 9:30 a.m.  
**The Validity of Forensic Odontology in Criminal Investigations**  
*Barbara L. Needell, DMD*

9:30 a.m. - 10:00 a.m.  
**Presenting Crime Scene Analysis to a Jury**  
*Sharon L. Plotkin, MS*

10:00 a.m. - 10:15 a.m.  
**Break**

10:15 a.m. - 10:45 a.m.  
**Supporting Research and Development in the Areas of Impression and Pattern Evidence**  
*Gregory Dutton, PhD*

10:45 a.m. - 11:15 a.m.  
**Questioned Documents in International Justice Matters**  
*Tobin A. Tanaka, BS*

11:15 a.m. - 11:45 a.m.  
**Much Work Still to be Done**  
*Vanessa Antoun, JD*
S1  Progress in the Forensic Sciences Since the 2009 National Academy of Sciences (NAS) Report

Pre-Registration Required — $75

Program cont.:

11:45 a.m. - 1:15 p.m.  Lunch

1:15 p.m. - 1:45 p.m.  Developing Methods for Objective Firearm Examination  
                      Robert M. Thompson, MFS

1:45 p.m. - 2:15 p.m.  Firearms Challenges Involved in the Prosecution of the Grim Sleeper Case  
                      Beth Silverman, JD

2:15 p.m. - 2:45 p.m.  The Importance of a Scientific Framework to the Application of Digital Evidence Analysis  
                      Eoghan Casey, PhD

2:45 p.m. - 3:15 p.m.  The Implementation of Facial Recognition Technology by the United States Border Patrol  
                      Jason R Thompson, BA

3:15 p.m. - 3:30 p.m.  Break

3:30 p.m. - 4:00 p.m.  The Development and Implementation of Statistical Interpretation Software for Friction Ridge Skin Impressions (FRStat)  
                      Michael J. Salyards, PhD

4:00 p.m. - 4:30 p.m.  Changes in the Role of DNA Testimony in the Past Decade  
                      Sheila Willis, PhD

4:30 p.m. - 5:00 p.m.  Role of the Gatekeeper Since the NAS  
                      Stephanie Domitrovich, JD, PhD
S2  25 Years of Crossing Borders: Young Forensic Scientists and Their Collaborations

Tuesday

February 18, 2020     8:30 a.m. – 5:00 p.m.     6.0 CE Hours

YFSF Chair:
Zain Bhaloo, MSc
Canada Border Services Agency
Ottawa, ON, CANADA

Center for Forensic Science Research & Education
Willow Grove, PA

Program Chair:
Catherine O. Brown, MSFS
Center for Forensic Science Research & Education
Willow Grove, PA

Program Co-Chair:
Hannah N. Simmons, BS
Raleigh, NC

Learning Overview: After attending this presentation, attendees will better understand forensic science and how everyone's work can impact and enhance other scientists, and vice versa, regardless of the discipline. In addition, attendees will learn about the advantages and importance of proper resume writing and interviewing skills.

Impact on the Forensic Science Community: The Young Forensic Scientists Forum (YFSF) has historically provided a venue for those forensic scientists with less than five years of professional experience to interact with, and further integrate into, their prospective fields as well as to learn about all the other disciplines. The YFSF should provide the space and opportunity for attendees/speakers to grow, develop, network, and learn from one another. This will allow young scientists the confidence to progress in their fields and one day hopefully provide the same opportunity to another young scientist.

Program Description: This special session provides necessary information to young forensic scientists regarding the various disciplines within the AAFS and will serve as a forum to exchange, discuss, and cultivate new ideas. This full-day program has been put together to cover a wide range of topics and inform attendees as to how these topics relate to other, sometimes unrelated, disciplines, techniques, and individuals. The YFSF aims to show all young forensic scientists that what makes us special isn't just who we are alone, but also who we are together.

Every year the American Academy of Forensic Sciences draws in thousands of globally recognized experts and professionals to present research, hold workshops, and showcase the various disciplines represented within the Academy. Further, the YFSF offers two opportunities for young forensic scientists to present their own work or research: the Bring Your Own Posters (BYOP) Session and the Bring Your Own Slides (BYOS) Session.

The session will feature speakers from many of the AAFS sections who will discuss their work and how they crossed borders, figuratively and literally, to collaborate with other disciplines. Through these presentations, attendees will learn how experienced practitioners and professionals have contributed to forensic science as a whole and how their work has benefitted from and was helped by interdisciplinary combining of knowledge bases. With a rapid push for specialization within a given discipline, it has remained vital for leaders in forensic science to remember the importance of cross-discipline collaboration and partnership. Through this Special Session, forensic experts will provide mentorship to young forensic scientists by inspiring interdisciplinary cooperation in casework, research, and community engagement.
Finally, in the spirit of interdisciplinary collaboration and to honor our commitment to improving and advancing communication, for the first time the YFSF is seeking to provide the opportunity to attendees to network with AAFS members and many others to encourage the sharing of information and experiences. This year's Special Session has been re-designed to incorporate a networking morning coffee break where all YFSF attendees and distinguished members from the AAFS sections can meet, mingle, and have discussions. Further, the discussion and resume review panel has been lengthened and will be enhanced by the addition of a speaker specifically addressing resumes and interview preparation, so don't forget to update and bring several copies of your resume with you!

Speakers:

- **Steven C. Batterman, PhD**
  Cherry Hill, NJ

- **Brittany N. Beyer, MS**
  Houston Forensic Science Center
  Houston, TX

- **Patrick Buzzini, PhD**
  Sam Houston State University
  Huntsville, TX

Learning Overview: Upon completion of this session, the participant should be able to understand the process of accreditation through the AAFS FEPAC mechanism and be able to participate in the process as a reviewer of academic programs. Attendees from academic programs will also learn about the process of accreditation from different perspectives.

Program Description: This session has been developed to assist academic institutions offering undergraduate and graduate degree programs in forensic science and forensic digital evidence to prepare for the accreditation process through the FEPAC. This session will also assist future on-site evaluators (academic and practitioners) to prepare for on-site evaluations of academic programs. Successful completion of this one-day session will qualify participants for consideration to serve as on-site evaluators for FEPAC in the future (please note that participants must still meet other FEPAC requirements, such as membership in the AAFS and designation as either a practitioner or academician).

This training session will highlight updates to the FEPAC Standards for Accreditation and provide valuable information for both program directors and on-site evaluators.

The FEPAC is a standing committee of the AAFS with a membership that includes five educators, five forensic science practitioners, and a public member as voting members. The mission of the FEPAC is to maintain and enhance the quality of forensic science education through a formal evaluation and recognition of college-level academic programs. The primary function of the committee is to develop and maintain standards and to administer an accreditation program that recognizes and distinguishes high-quality undergraduate and graduate forensic science programs. Forty academic programs have successfully completed the accreditation process since 2003. Additional information on FEPAC can be found on the FEPAC website: http://fepac-edu.org.

**Learning Overview:** After attending this presentation, attendees will: (1) gain knowledge in the historical, medical, and psychoanalytic theories behind vampire beliefs; (2) advance skills regarding the manner in which “vampirism,” “vampire cults,” and “vampire communities” may present clinically and forensically; and (3) improve knowledge in historical reports of sadistic mass murder that may have contributed to vampire lore.

**Impact on the Forensic Science Community:** This presentation will impact the forensic science community by increasing the existing knowledge of the fundamentals of the current field and thus improve forensic competence and performance.

From the ancient world to the present, vampires have held a tight grip on our fascination and fear and this has yet to be released. Traces of the legend are found in some of the oldest surviving mythologies and have spilled over into history and lore. Such mythology associated vampires with female figures representing potential destruction and with children in a state of dependency and helplessness. Similar beliefs are traced to ancient cultures across the globe, often depicting demonic female figures who fused relationships between the living and the dead, expressed through blood rituals as well as sexualized and aggressive exchanges.¹

However, it was Bram Stoker who introduced us to the great Dracula in the late 19th century, and it was this quintessential Byronic hero who fathered countless other characters. From the monstrous presentations of Nosferatu, and Underworld’s Markus, to the charming Lestat and adorable sparkly Edward, and everything in between, our fascination with Dracula and his ever-evolving progeny shows no signs of decay.

In the modern era, some vampires have been transformed from evil beasts to misunderstood, and ostracized, supernatural heroes.² With this change, some of their ideologies went from that of those cursed with turmoil “un-deadness” to those having (and sometimes offering) immortality; from forced isolation to offering a new community; from subhuman viciousness to displaying animal traits that convey energy and natural instincts. Flaunting the appeal of the aristocrat or outlaw, and inciting adventure at once terrifying and safe, the vampires in these stories have “evolved” into uncannily irresistible figures.³ What is it that so intrigues us about them? Our speakers will lead us on a journey where we can explore this fascination via culture and psychoanalytic theory, as well as historical figures purported to have inspired the legend—tales of which include sadism and mass murder eclipsing any terror found in fiction.

Also discussed will be cases from the early 1800s where misperception of infectious illness caused mass hysteria, leading to the belief that the dead were rising from their graves and literally sucking vitality out of the living. This hysteria ultimately culminated in the cannibalistic rituals of the recently deceased to stop the dead from harming the living. However, such a ritual has been documented as recently as 2003, proving that these seemingly old beliefs from a forgotten time of darkness and irrational superstition for some reason draw appeal to this day.

Indeed, we are far from immune to such seeming madness. Modern vampire “cults” tragically show us how an obsession with these creatures can go too far. What drives such people into these alternate realities? Mental Illness? Sadism? Or is there more complexity to these stories? Perhaps we will never know, but one thing is certain: while legends postulate many ways that vampires may be killed, time has proven that they will, indeed, live forever.

The AAFS 2020 Academy Cup will take place on Wednesday, February 19, 2020, before the Plenary Session. Section teams meet at 8:00 a.m., an hour before the Plenary Session, for instruction and team strategy. The game will start at 8:10 a.m. and consist of multiple-choice and true-or-false questions projected onto a screen to test each section's knowledge.

Each section's team is comprised of members, Past President(s), Past Vice President(s), Board Member(s) and/or Section Officer(s), Chair, Secretary, Young Forensic Scientist Forum (YFSF) volunteers, and anyone who wants to play. The YFSF volunteers will be assigned to sections on Tuesday at the YFSF Special Session. The game will be 30 minutes long, then all answer sheets need to be turned in.

The winning team will be announced and the Academy Cup trophy presented at the AAFS Annual Business Meeting (ABM) at 4:15 p.m. that same day. Teams should be present at the ABM to find out who won, and the winning team should be available at the conclusion of the ABM to have a group photo taken.

Academy Cup Committee:

Chair: Laura L. Liptai, PhD, Engineering & Applied Sciences (liptai@biomedicalforensics.com)
Co-Chair: Carla Miller Noziglia, MS, Criminalistics
Co-Chair: Matthew R. Wood, PhD, Criminalistics

Academy Cup Team Leaders:

Anthropology: Paul D. Emanovsky, PhD; Kristen Hartnett-McCann, PhD
Criminalistics: Patrick Buzzini, PhD; Noelle J. Umback, JD
Digital & Multimedia Sciences: Marla E. Carroll, BS; Jason M. Paroff, JD
Engineering & Applied Sciences: Darren Franck, MSME; David Pienkowski, PhD
General: Steven C. Clark, PhD; Melissa A. Connor, PhD
Jurisprudence: Pamela A.W. King, JD; Robert M. Sanger, JD
Odontology: Adam J. Freeman, DDS; Roger D. Metcalf, DDS, JD
Pathology/Biology: Chris Milroy, MD, LLB; Carl J. Schmidt, MD
Psychiatry & Behavioral Science: Dean DeCrisce, MD; Eleanor B. Vo, MD
Questioned Documents: Jan Seaman Kelly, BA; Karen J. Nobles, MFS
Toxicology: William R. Johnson, BA; Sherri L. Kacinko, PhD

Program:

8:00 a.m. - 8:10 a.m. Instructions and Introductions of Team Leaders
8:10 a.m. - 8:40 a.m. PowerPoint® Questions and Answers
8:40 a.m. - 8:45 a.m. Team Answer Sheet Turned in by YFSF Representative for Each Team
PLENARY SESSION

Pre-Registration Not Required — Open to All Meeting Attendees

Wednesday

February 19, 2020     9:00 a.m. – 11:30 a.m.     2.25 CE Hours

Welcoming Remarks

Crossing Borders

Doisy College of Health Sciences
St. Louis, MO

Speakers

Thomas F. Callaghan, PhD
Federal Bureau of Investigations
Quantico, VA

John Fudenberg, MBA
Office of the Coroner/Medical Examiner
Las Vegas, NV

David Reichert
Gordon Thomas Honeywell
Auburn, WA

Overview: Advances in technology have played a tremendous role in making many daily routines and extraordinary tasks seem ordinary. Individuals may live in one area but work in a different city, state, or even country. While crossing borders, individuals may use personal electronic devices to listen to a book, catch up on the latest news, or participate in conference calls. If using mass transit to make the commute, individuals may even prepare lectures, write publications, or simply crush candy to pass the time. Travel innovations have also made it considerably easier for individuals to attend meetings within their respective countries or at the international level.

Technological advances can be worthwhile. However, the innovations are often used for nefarious acts as well. Individuals share information across borders to support criminal enterprises; drugs are grown or manufactured in one country and transported to another; firearms purchased in one jurisdiction may be used to commit crimes in another; individuals, often exploited through the hope of a better life across international borders, lose their independence as they become victims of human trafficking; putative suspects may use available technological advances to avoid apprehension; and these are but a few of the many ways in which integrity is compromised for personal benefit or gain.

The American Academy of Forensic Sciences is a multidisciplinary organization, representing 11 sections across the forensic sciences with both American and International members. The Annual Scientific Meeting of the AAFS fosters inclusiveness across all sections, disciplines, and nationalities through collaboration, networking, and the cross-pollination of knowledge across the forensic community. It is beneficial for members of the community to convene to share in successes, to learn from failures, and to acknowledge advances in the field.
Pre-Registration Not Required — Open to All Meeting Attendees

Crossing Borders

Overview cont.:

This program is designed to allow members of the forensic community to share in the knowledge gained through experience and to learn of advances on the horizon. John Fudenberg will discuss the strengths and weaknesses of the Clark County Coroner/Medical Examiner’s Office during the handling of the worst mass shooting in modern United States history. An emphasis will be placed on the interdisciplinary efforts of the different agencies involved and the various deployment areas necessary during a mass fatality incident. Specific attention will be given to the Family Assistance Center and the on-going mental health/wellness of responders.

Thomas Callaghan will provide an overview of the Federal Bureaus of Investigation’s (FBI’s) Next Generation Identification and Facial Recognition Programs, along with the FBI’s Rapid DNA expansion of the Combined DNA Index System (CODIS) into the booking station. Similarities, differences, and privacy concerns with finger, face, and DNA biometric modalities will be discussed. This presentation will also reveal how DNA databases, like CODIS and Facial Recognition queries of government datasets and online photo galleries, use the Automated Fingerprint Identification System (AFIS) model daily to identify potential perpetrators.

Dave Reichert will share his observations on human trafficking from the perspective of a 34-year career officer who gathered intelligence as the lead investigator in the Green River Serial Killer case, ultimately bringing justice to the families of the 49 confirmed victims. This presentation will also detail the journey of an investigator to his 14 years as a United States Congressman and, finally, to his present role as an advocate for impactful global forensic policy.

The program will conclude with a shared learning opportunity for the attendees and speakers.

Program:

9:00 a.m. - 9:10 a.m.  Welcoming and Opening Remarks
                       Zeno Geradts, PhD; C. Ken Williams, MS, JD

9:10 a.m. - 9:50 a.m.  Mass Fatality Preparedness—Lessons Learned From the October 1, 2017, Shooting in Las Vegas
                       John Fudenberg, MBA

9:50 a.m. - 10:30 a.m. Biometrics: Identity Verification and Identity Discovery With Finger, Face, and DNA
                        Thomas Callaghan, PhD

10:30 a.m. - 11:10 a.m. Invisible Children in the World of Global Human Trafficking
                        Dave Reichert

11:10 a.m. - 11:30 a.m. Panel Discussion
                        Julie Howe, MBA; Zeno Geradts, PhD; John Fudenberg, MBA; Thomas Callaghan, PhD;
                        Dave Reichert
**BS1 Ethno-Cultural and Religious Considerations in the Management of the Dead**

**Monday, February 17, 2020**

| Amber D. Riley, MS* | Sakher J. AlQahtani, PhD* | James F. Goodrich, FFOMP* |
| Deco Education & Consulting | King Saud University, College of Dentistry | Cambridge, Waikato, NEW ZEALAND |
| San Diego, CA | Riyadh, SAUDI ARABIA |

**Learning Overview:** After attending this presentation, attendees will have a greater knowledge of the ethics, customs, norms, and taboos surrounding death and the dead for many minority cultures and religions within their professional and personal communities. This presentation will describe several cultures and religions that forensic professionals may encounter in their jurisdictions, both in the United States and worldwide, along with each respective approach to the management of their dead, based upon this better understanding.

**Impact on the Forensic Science Community:** This presentation will impact the forensic science community by serving to assist the forensic professional in overcoming some of the obstacles that are present when identifying, investigating, and examining a decedent that is a member of these ethno-cultural communities.

Culture and religion profoundly influence many aspects of modern life. These factors also carry forward after death and may affect our management of the deceased. We recognize that increasing human migration across global geographical borders results in decedents sometimes being managed within a culture and community that is foreign to them. Loved ones, family, and members of the integrated community of the deceased also bring expectations, norms, and taboos to a forensic setting, and these influences may at times increase the complexity of and even hinder the process of examination, identification, and release of the dead. Although it is impossible to be intimately familiar with all religions and cultures, we as forensic professionals should be educated and sensitive to the roles each may play in our respective areas of expertise while avoiding the risk of stereotyping the deceased.

It is important to the process and to the outcome that the forensic professional understands not only the ethno-cultural and religious considerations associated with the deceased and other members of the affected community, but also their own and how these may relate to the context and perhaps to any biases that may be subsequently introduced. So, the complexity of the juxtaposition of different cultures and expectations may be multiplied in a situation where the forensic practitioner is anything other than the ideal of absolute neutrality.

The interplay of the deceased's culture and the forensic professional's legal and ethical responsibilities can pose significant challenges when experienced against a backdrop of factors, including gender and acculturation, notably in cases in which there are multiple and/or commingled fatalities being examined at one time in one spatial setting. Varied cultural and religious mores for managing the dead also dictate appropriate disclosures, privacy, and communication with the relatives of the deceased. Some difficulties can at least be partially overcome with an understanding of these sensitivities.

This presentation hopes to highlight many of the unique aspects of the belief systems and social constructs that may be encountered during the career of a forensic professional in the context of the management of the dead, and to provide tools and a framework for increased sensitivity and understanding. This, in turn, will provide an opportunity to allow the dignity and basic human rights of the deceased to perhaps be respected more fully.

Examples will be drawn from many cultural and religious backgrounds, including Islam, Judaism, Christianity, Hinduism, Buddhism, Native American, Maori, and Pasifika peoples.

*Presenting Author*
**BS2**  The Working Stiffs: Writing and Publishing the Experiences of a Forensic Pathologist in Both Fiction and Non-Fiction

**Tuesday, February 18, 2020**  7:00 a.m. – 8:30 a.m.  .75 CE Hour

**Judy Melinek, MD**  
PathologyExpert, Inc  
San Francisco, CA

**T.J. Mitchell, BA**  
PathologyExpert, Inc  
San Francisco, CA

**Learning Overview:** The goal of this presentation is to demonstrate how a collaboration between a scientist and a writer can effectuate the communication of complex forensic concepts to a lay audience.

**Impact on the Forensic Science Community:** This presentation will impact the forensic science community by helping attendees be able to communicate scientific concepts to a lay audience, in writing and in testimony, and by navigating issues pertaining to confidentiality of medical information.

This presentation takes as its thesis the importance of reflecting scientific rigor in writing both non-fiction and fiction for a lay audience. The challenges of writing while continuing to testify as an expert witness in real-life criminal and civil court cases will be explored. In addition, the perpetual tension between fiction and science—maintaining a balance between narrative demands and medical verisimilitude—will be discussed.

Journal writing can be an effective way of documenting what a scientist encounters in clinical detail. Other ways of tracking forensic cases include spreadsheets and medical databases. In some offices, it is not uncommon to collect newspaper clippings of the deaths that are investigated and picked up by the media and place them in the case file. However, newspaper accounts may not be accurate; this presentation will provide examples of how eyewitness statements and assumptions made by the police or death investigators can be found to be in error when the body is taken to autopsy. Writing and documenting what a pathologist sees at the time of autopsy is crucial for clinical decision making and peer review, including review by outside experts. Furthermore, taking written notes about one’s daily experiences and what one learns through those experiences can also become a psychological outlet: a way to “decompress” after a long day of working in extreme conditions, or a way to deal with the grief and anger of family members. Writing can be a therapeutic exercise that supplements formal training in forensic pathology and should be encouraged in forensic fellowship training.

Working in an understaffed and underfunded environment can also put stress on the forensic team and may incubate intramural tension. Mass fatality response, along with a backlog of routine cases delayed by ancillary lab studies, can add to the pressures pathologists experience. Journaling can help forensic professionals deal with the stresses of the job, but non-disclosure agreements and privacy policies may restrict professional communication and publication in a public forum. In academic writing, de-identification is used when sharing case reports, and this method can be used in writing non-fiction for public consumption. Fictionalizing actual forensic cases can allow scientists a way to explore the work that they do and share their experiences, both with other professionals and with the lay public.

A case report will be presented of a petty thief who stole a laptop and was chased down and shot dead in public by the laptop’s owner. This case involved a complex gunshot wound trajectory analysis and the collection of property as evidence. Forensic-noir mystery writers such as Kathy Reichs, Patricia Cornwell, Jon Jefferson, and William Bass, all of whom worked in various capacities in the forensic sciences professional discipline, provided the inspiration to explore ways to educate the public about real-world forensic science through the use of a fictional narrative voice.

**Reference(s):**

The Science Behind Traffic Accident Reconstruction With Real-World Crashes

Wednesday, February 19, 2020    7:00 a.m. – 8:30 a.m.         .75 CE Hour

Kurt D. Weiss, MS*
Case Study Collision Science, LLC
Santa Barbara, CA

Darren Franck, MSME
Advanced Engineering Associates, Inc
Charleston, WV

Learning Overview: The goal of this presentation is to share with the forensic science community the data sources and detailed methodology used in traffic collision reconstruction.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by demonstrating through real-world case studies the data used and methodologies applied to the reconstruction of traffic collisions.

An analysis of four real-world crashes will demonstrate the science behind traffic accident reconstruction. Reconstructing a crash is a multidisciplinary process. The reconstructionist gathers objective and subjective information, performs case-specific research, then applies the fundamental principles of physics to determine, for example, impact classifications, vehicle heading, impact configuration, impact (closing) speed, velocity change or Delta-V (DV), rollover distance, roll count, and roll rate. The reconstruction results are important input to the injury analysis and the assessment of injury patterns, risk, and prevention.

The primary information source is the Traffic Collision Report, which may provide: (1) objective party information (e.g., occupant and vehicle year, make, model, Vehicle Identification Number (VIN)); (2) objective site information (location and roadway, intersection, and Global Positioning System (GPS) details), scene diagrams with measurements of physical evidence (tire friction marks, fractured glass, roadway scrapes and gouges, scarred tree bark, fractured signs or light posts, disturbed dirt and/or vegetation), point of impact, and vehicle rest locations; (3) at-scene police photographs of site evidence and vehicle damage; and (4) subjective information (e.g., party statements, vehicle code violations, police collision summary and primary collision factor identifying party and cause).

Case-specific research may include: (1) at-scene witness photographs, which are often taken with cell phone cameras; these photographs are crucial absent police photographic documentation of site and vehicle evidence; (2) security videos that can help refine the analysis by providing objective evidence of vehicle movements prior to and after the crash; (3) aerial photography from online image archives that orient and supplement scene diagrams; (4) drive-through videos that provide a street view of the roadway and/or intersection; (5) site inspections that clarify roadways, controls, and obstacles; (6) subject vehicle inspections with crush profile measurements document property damage and reveal relative impact alignment or vehicle movement; (7) Airbag Control Module (ACM) data that quantifies pre-crash vehicle speeds and accelerations and driver actions (e.g., swerving, braking); (8) subjective information (e.g., witness statements and deposition testimony) that helps qualify collision events and estimates of vehicle speeds, distances, and movements. These sources may also provide prior useful site, vehicle, or occupant history; and (9) exemplar vehicle inspections, scaled vehicle drawings, specifications, and crash test data that may be used to determine the collision severity.

An analysis of four real-world crashes demonstrate the science behind traffic accident reconstruction. Case 1 involved a fatal collision; vehicle crush measurements quantified collision severity. Case 2 was a vehicle-motorcycle crash; a download of ACM yielded pre-crash data. Case 3 describes a wrong-way, intoxicated driver in a high-speed crash; the patrol car’s on-board video quantified vehicle impact speeds. Case 4 was a vehicle-motorcycle crash; stationary security videos quantified vehicle impact speeds.

BREAKFAST SEMINARS

Pre-Registration Required — $52

BS4  A Tour of a Cannabis Extract Manufacturing Facility in Maine

Thursday, February 20, 2020  7:00 a.m. – 8:30 a.m.  .75 CE Hour

Jennifer A. Paris, BS*
New Hampshire State Police Forensic Laboratory
Concord, NH

Anna K. Weaver, BS
New Hampshire Department of Safety
Concord, NH

Learning Overview: After attending this presentation, attendees will have a better understanding of the operation of a small state-licensed and inspected cannabis extract manufacturing facility.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by promoting an understanding of the processes used to concentrate cannabinoids, how products are diluted, prepared, and packaged in order to comply with the relevant laws and regulations, and may be helpful for attendees who are assisting in building a local or state jurisdiction's medical or recreational marijuana program.

The state of Maine enacted a medical marijuana law after a citizen-led ballot initiative passed in November 1999. Since that point in time, multiple amendments have been made to the statute following feedback from patients, caregivers, medical providers, and a specially developed task force. Although a 2016 law was passed to allow for the recreational use of marijuana, and a 2017 law was passed concerning taxation and other regulations surrounding recreational marijuana, the commercial sale of the plant and products made from it have not yet begun.

Today, Maine permits both growing and processing of marijuana by individuals holding a medical card (i.e., “patients”). In addition, patients and caregivers are allowed to use a third-party manufacturing facility to convert their harvested marijuana or hemp into concentrated forms. These facilities are registered, inspected, and licensed by the state of Maine. They are expected to adhere to strict procedures regarding site safety and security, the quantity and type of plants on site, the quantity of harvested product on site, the use of “inherently hazardous substances,” and the disposal of waste materials, among other standards.

This presentation will briefly cover the regulations in place for Maine’s program, then focus on the specifics with respect to a small, registered manufacturing facility. Chemists from the New Hampshire State Police Forensic Laboratory were given the opportunity to tour one such facility in the summer of 2019 while extractions were in progress. This cannabis extract manufacturing facility employs supercritical carbon dioxide processing of harvested marijuana and/or flowering hemp grown by patients or their caregivers to produce highly purified concentrates devoid of terpenes. In addition, the facility was equipped with a closed-loop extraction system to produce butane honey oil, shatter, and “diamonds.” Discussions regarding purity, concentration, cannabinoid profiles, and all aspects of the operation, including the evolution of the facility’s practices over time, took place with the owner/operator of the facility. Attendees will be informed regarding the outdoor grow area, extraction and purification processes, preparation of food products, and product packaging materials at the visited facility.

Given the increased number of states where cannabis products are legal for medical or recreational use, it is important for those involved in the analysis of seized drugs to have an understanding of the processes used to concentrate cannabinoids from harvested marijuana and flowering hemp.

*Presenting Author
**BS5** Practical Aspects of Developing and Incorporating a Postmortem Computed Tomography (PMCT) Service Into a Medical Examiner’s Office

**Friday, February 21, 2020**

| Time       | 7:00 a.m. – 8:30 a.m. | .75 CE Hour |

Lauren Edelman, MD*
Travis County Medical Examiner
Austin, TX

Keith Pinckard, MD, PhD
Travis County Medical Examiner
Austin, TX

**Learning Overview:** After attending this presentation, attendees will understand the concepts and considerations involved in incorporating PMCT into the practice of a medium-sized, regional medical examiner’s office, including staffing, scanning protocols, triage of cases, study interpretation, and novel and alternative data storage solutions. Developing and incorporating a PMCT service is a complex project, with broad implications for many aspects of an individual office.

**Impact on the Forensic Science Community:** This presentation will impact the forensic science community by providing a framework and blueprint that can be used to incorporate and implement this burgeoning technology within the scope of death investigation for medical examiner’s and coroner’s offices.

The services of a consultant were engaged as part of the budget request associated with purchasing the Computed Tomography (CT) scanner. The consultant provided guidance for technical and structural considerations critical for drafting the purchasing bid documents and review of the bids for the purchase of the CT scanner and associated equipment. After installation by the vendor, the consultant also provided the basic scanning protocols that are programmed into the scanner for ease of use and include protocols for standard adult, bariatric, pediatric, charred remains, skeletal remains, and decomposed remains. This is a key component, since standard protocols that are provided by CT scanner vendors are designed for clinically based studies on living patients.

As part of the purchasing contract, the forensic autopsy technicians, none of whom have formal radiology technology training, received in-person instruction in the practical aspects of operating the equipment. Performing the scans with the appropriate protocols requires minimal direct management by the forensic autopsy technicians. Once the protocols are in place and validated, scanning proved to be relatively simple and straightforward. Scanning is performed during routine working hours on a rolling basis as decedents are brought into the office; scans are completed prior to the processing and external examination of the body. All decedents that are physically capable of fitting into the CT scanner are imaged. The rationale for this is two-fold. First, scanning every decedent as a matter of routine may guide how the pathologist approaches the case. Second, scanning creates a permanent 3D radiographic record of the body that can be reviewed long after the body has been permanently altered by autopsy.

The scans are reviewed and interpreted by the forensic pathologists as a group during a morning conference prior to performing examinations and again individually when medical examiner reports are written. The medical examiners in the office received training in CT interpretation by two physicians with prior PMCT experience who were already on staff. The learning curve of CT interpretation is very steep; familiarity with visualizing cross-sectional anatomy in three dimensions simultaneously comes surprisingly quickly. Furthermore, because all decedents are scanned, each pathologist gets immediate feedback by comparing autopsy findings to what was observed on the scans—a practice that builds interpretive skills and confidence rapidly. Once the medical examiner staff is comfortable with reading CT scans, decisions can be made regarding which types of cases might be able to be supplanted by PMCT.

A novel cloud-based storage and image-viewing software solution was purchased rather than a traditional Picture Archiving and Communication System (PACS). It has virtually identical capabilities, including permanent long-term storage with system redundancy, at a fraction of the cost of a standard PACS solution. In the opinion of the regional medical examiner’s office, PACS is a vastly more sophisticated and ultimately far more expensive solution than what is actually required for death investigation purposes. For offices affiliated with medical centers, it may be possible and cost-effective to “partner” and obtain a node on a hospital’s PACS. However, offices without this benefit have struggled to devise a system tailored to the unique needs of death investigation without the associated burdensome cost of a PACS—a cost factor that may deter an office from obtaining PMCT capability altogether. It is thought that this regional medical examiner’s office is the first office to pilot and utilize this type of storage and viewing solution.

As more death investigation offices around the country begin to integrate CT imaging as part of the physician’s toolkit, it is critical to share operating procedures and innovative solutions to common problems to assist others in participating in this exciting advancement in the field of forensic pathology.

**Impact on the Forensic Science Community:** This presentation will impact the forensic science community by demonstrating that a mass casualty investigation must be conducted in a timely and thorough manner in order to provide the court with the best evidence for conviction. The psychological evaluation will assist in determining if the subject was mentally responsible, and, if so, whether he should receive life with or without parole or the death penalty.

SGT John M. Russell had been seen at the Combat Stress Center (CSC), Camp Liberty, Iraq, on three separate occasions and had a noon appointment on May 11, 2009. At approximately 1:41 p.m. on May 11, 2009, the United States Army Criminal Investigation Command (known as CID) was notified of the shooting of several personnel inside the CSC. The investigation revealed that at approximately 12:30 p.m. on May 11, 2009, SGT Russell entered the CSC and methodically shot and killed five United States service members (a Navy Commander and an Army Major, a Sergeant, and two Private First Classes). SGT Russell was also listed for the offense of attempted murder and aggravated assault when he fired at two soldiers and missed. The Navy Commander was the only victim known to SGT Russell. SGT Russell, who did not have a weapon, gained possession of his escort's weapon (an M16 rifle), ordered his escort from the vehicle, then drove back to the CSC where he opened fire on unarmed personnel. Due to the regulatory requirements, all soldiers were required to carry their assigned weapons at all times in the combat environment on most camps; the only exception was a medical facility. Soldiers entering the CSC were required to place their weapons in an arms room while being treated; therefore, all soldiers in the CSC were unarmed and vulnerable. SGT Russell was subsequently disarmed and placed under apprehension.

More than 28 CID special agents in Iraq were involved in processing the crime scene and interviews of the victims, witnesses, and subject. More CID special agents around the world were involved in the autopsies, background investigation of the subject, and developing information for the court-martial. The preliminary crime scene reconstruction took approximately one week (the crime scene was maintained for many years, until it had to be bulldozed). The special agents conducted bloodstain spatter analysis, ballistic reconstruction, and a plethora of other forensic analyses of the five separate areas where the victims were murdered.

SGT Russell was evaluated and it was determined he was not mentally competent to stand trial; SGT Russell was placed in a mental health facility where he was evaluated for approximately four years. During this time, he was seen by several mental health professionals, questioned to determine his mental status, and medicated until he was considered restored to competency and returned to military custody.

---

*Presenting Author*
BS6  Is a Soldier’s Combat Stress a Reason to Commit Five Murders?

On May 15, 2012, prosecutors decided to seek the death penalty and SGT Russell’s defense stated he would pursue an insanity defense. On May 18, 2012, I Corps, Joint Base Lewis-McChord (JBLM) released the General Court-Martial Convening Authority (GCMCA) findings. The GCMCA referred court-martial charges against SGT Russell to a General Court-Martial empowered to adjudge a capital sentence.

During the court-martial proceedings, the defense blamed the combat mental health professionals for SGT Russell’s actions and indicated that they could have prevented this mass casualty. SGT Russell was subsequently found guilty and on May 16, 2013, an Army judge sentenced SGT Russell to life without the possibility of parole for the shooting death of two care providers, two patients, and an escort. The judge stated, “You are not a monster, but you have knowingly and deliberately done incredibly monstrous things.”
L1 The Disappearance and Murder of Sierra LaMar: A Multidisciplinary Case Study

Thursday
February 20, 2020  12:00 p.m. – 1:30 p.m.  1.0 CE Hour

Melissa A. Dupée, MSFS*
Santa Clara County Crime Laboratory
San Jose, CA

Michelle L. Bell, BA*
San Jose, CA

Learning Overview: The goal of this presentation is to inform attendees of a complex homicide investigation that was heavily fueled by physical evidence examinations, including DNA, trace evidence, digital and video evidence, latent prints, and questioned documents.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by showcasing the ability for multiple forensic disciplines to work together to achieve the maximum potential of the evidence items submitted in a missing person case turned homicide.

Fifteen-year-old Sierra LaMar left her Morgan Hill, CA, home on March 16, 2012, but never made it to school. Her school bag, containing the clothes she'd been wearing the day she disappeared, and her discarded cell phone were found a short time later. Thus began an investigation that utilized multiple crime lab disciplines, culminating in a months-long 2017 trial that found Antolin Garcia Torres guilty of kidnap and murder, even though Sierra's body has never been found.

DNA was instrumental in identifying a suspect. Biological evidence found on Sierra's clothes matched to Garcia Torres in the Combined DNA Index System (CODIS), and a later search of his vehicle yielded additional evidence. The DNA testing for this case, much of which was developed in the first few days following Sierra's disappearance, utilized a plethora of DNA techniques and resulted in a variety of conclusions, each of which required a different type of statistical analysis, including mixtures, paternity testing, and Y-chromosomal Short Tandem Repeats (Y-STRs).

Trace evidence played a big part in this case. The trace evidence analyses required travel to assorted sites in Morgan Hill to collect comparison samples for testing. Examinations of Sierra's clothing and Garcia Torres' vehicle revealed various types of trace evidence, including hair, fibers, glass beads, soil, botanicals, and insect parts. Extensive examinations were performed on Sierra's cell phone, which had turned on and off several times following her disappearance. This prompted a visit to the Samsung® facility in South Korea by an investigator involved in the case.

Questioned documents examination was performed when a notebook of Sierra's was discovered at school, with notes written in it suggesting she was thinking of running away. Video evidence was paramount in this case. At the beginning of the investigation, video evidence from near the school bus stop and from the school bus itself was reviewed to see if Sierra had made it that far that morning. Later, video from the parking lot of the defendant's home and from his transactions at a bank were converted to a format that could be more easily viewed in court. In addition, video showed the defendant a few nights before Sierra's disappearance purchasing only a gallon of bleach and a turkey baster—a strange purchase for a 21-year-old male to be making by himself at night.

Prior to the abduction of Sierra, there were multiple attempted kidnappings in Morgan Hill. Investigators, interested to see if they could somehow link these attacks to Sierra's disappearance, requested that a Taser®, left at one of the scenes by the perpetrator, be processed for latent prints. A latent fingerprint was developed on the battery of the Taser® and was identified as Antolin Garcia Torres' print. Therefore, these attempted kidnappings became a part of the Sierra LaMar trial, showing that the defendant had a history of attacking women, and he was found guilty of these crimes as well. The work conducted by all these forensic disciplines in conjunction helped find a suspect, connected him to other crimes, and put to rest several defense theories. Antolin Garcia Torres was sentenced to life in prison without the possibility of parole.

Learning Overview: After attending this presentation, attendees will better understand the role of brain fingerprinting to detect concealed information in forensic criminal cases.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by informing the competence of attendees through increasing the ability to interpret an emerging scientific method used to detect concealed information stored in the brain via the use of Electroencephalographic (EEG) brain responses/brainwaves.

Between 10% and 70% of criminal defendants claim crime-related amnesia; there is limited published literature on objective assessments of memory loss in a criminal setting. Interview techniques combined with psychological testing have been developed to assess possible malingering of memory loss. Investigators have long sought a reliable means of detecting deception. The Guilty Knowledge Test (GKT) is an early predecessor to brain fingerprinting and measures the individual's autonomic response to information known or not known about a crime.1

Recently, brain fingerprinting techniques using brain wave response have emerged as a scientific method to detect potentially concealed information stored in the brain. Brain fingerprinting techniques measure EEG brain responses/brainwaves and compute a determination of “information present” (the subject knows the critical information) or “information absent” (the subject does not).2 According to this theory, if the individual is familiar with the information presented, a P300 brain wave is emitted and measured by an EEG.2

Farwell reports that in more than 200 test cases, brain fingerprinting yielded a 100% accuracy rate with a 0% error rate in distinguishing those who possessed specific target knowledge from those who did not.1 As an example, in an experiment on 17 Federal Bureau of Investigation (FBI) agents, analysis using this P-300 brain fingerprinting technique yielded a 100% identification rate of FBI agents with FBI-relevant knowledge.1 Dr. Farwell has coined the term “Farwell Brain Fingerprinting” (FBF) that he proposes has the ability to detect concealed information.1

The application of this FBF technique to forensic criminal cases was highlighted in the 2003 case of Harrington v. State. Terry Harrington sought to overturn his 1978 murder conviction on several grounds, including new evidence in the form of FBF that was not available at his original trial. Dr. Farwell administered his test to Mr. Harrington and rendered a report to the Iowa District Court analyzing Mr. Harrington's responses to information about the crime. Dr. Farwell asserted that his analyses supported Mr. Harrington's assertion that he was not guilty and, therefore, it should be allowed into evidence to help overturn his conviction. In contrast, the district attorney challenged these results, noting several factors that could have impacted the FBF outcome. The panel will review how the admissibility of this newly emerging FBF technique was addressed by the district and appellate courts and its impact, if any, on the legal outcome of Mr. Harrington.3 The strengths and limitations of this approach will be discussed and admissibility under the Daubert standard will be highlighted.

W1 Drug Delivery Homicide: Prosecution, Defense, and Expert Testimony

Monday

February 17, 2020  8:30 a.m. – 12:00 p.m.  3.0 CE Hours

Learning Overview: The goals of this presentation are to: (1) discuss the theories of prosecution and defense under “drug-delivery-resulting-in-death” statutes and sentencing; (2) describe and explain the nuances of the Supreme Court of the United States (SCOTUS) decision in *U.S. v. Burrage*; (3) analyze the strengths and weaknesses of fact patterns drug-delivery-resulting-in-death cases; (4) identify and articulate the limitations of toxicological and medical testimony in these cases; and (5) prepare for testimony and direct and cross-examination in drug-delivery-resulting-in-death cases.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by providing background on the legal challenges for charging, defending, or providing opinions and testimony in cases in which an individual's death is alleged to have resulted from another individual's actions in supplying the drugs that caused the death. Prosecutors, defense attorneys, and testifying experts will be better prepared to provide scientifically supported evidence in the appropriate context to triers of fact in these cases.

Targeted Audience: General, Jurisprudence, Pathology/Biology, Toxicology

Knowledge Level Required: Intermediate (some knowledge of subject presented)

Expected Handout Length: 60 pages

Supported By: The Center for Forensic Science Research & Education at the Fredric Rieders Family Foundation
W1 Drug Delivery Homicide: Prosecution, Defense, and Expert Testimony

Program Description: This program will evaluate from the jurisprudence, pathology, and toxicology perspectives the legal theories and testimony required to prosecute or defend cases involving allegations that one individual’s actions caused the death of another person by supplying them with a drug, either licit or illicit. There is a growing trend toward prosecution of these cases, and this workshop is intended to prepare all the professionals involved in these cases.

Program:

8:30 a.m. - 8:35 a.m. Welcoming Remarks
Barry K. Logan, PhD

8:35 a.m. - 9:05 a.m. State and Federal Statutes and Case Law on Drug Delivery Resulting in Death
M.J. Menendez, JD

9:05 a.m. - 9:40 a.m. The Prosecution Perspective on Charging and Presenting Drug Delivery Resulting in Death
Michael J. Hunter, JD

9:40 a.m. - 10:15 a.m. The Defense Perspective on Defending Drug Delivery Resulting in Death
Christopher Young, JD

10:15 a.m. - 10:40 a.m. Break

10:40 a.m. - 11:15 a.m. A Forensic Pathologist Perspective on Determination of the Role of Specific Drugs in Complex Drug Toxicity Cases
Gregory G. Davis, MD

11:15 a.m. - 11:50 a.m. Toxicological Considerations in Determining the Role of Specific Drugs in Complex Drug Toxicity Cases
Barry K. Logan, PhD

11:50 a.m. - 12:00 p.m. Panel Discussion
M.J. Menendez, JD; Gregory G. Davis, MD; Michael J. Hunter, JD; Barry K. Logan, PhD; Christopher Young, JD
Learning Overview: The goals of this workshop are to: (1) introduce attendees to the basics of supervised learning algorithms in the context of forensic applications, including firearms and footwear examination and trace evidence, while placing emphasis on classification trees, random forests, and, time permitting, neural networks; (2) introduce the concept of a similarity score to quantify the similarity between two items; (3) show how learning algorithms can be trained to classify objects into pre-determined classes; (4) discuss limitations of Machine Learning (ML) algorithms and introduce methods for assessing their performance; and (5) discuss the concept of a Score-based Likelihood Ratio (SLR): computation, advantages, and limitations.

Impact on the Forensic Science Community: The use of learning algorithms will increase as measurement of features in various types of evidence improve. This is particularly true in the case of pattern evidence. Forensic scientists will greatly benefit from understanding the basic ideas that underpin statistical learning since these types of methods have already been proposed for firearms examination, fingerprints, glass comparison, and shoe print evidence. Most quantitative training for forensic scientists emphasize classical statistical ideas, so a workshop in which forensic practitioners are exposed to learning algorithms is novel and timely.

Chair:
Michael J. Salyards, PhD
Compass Scientific Consulting LLC
Sharpsburg, GA

Faculty:
Alicia L. Carriquiry, PhD
Center for Statistics and Applications in Forensic Evidence
Iowa State University
Ames, IA

Targeted Audience: Criminalistics, Engineering & Applied Sciences, General, Questioned Documents

Knowledge Level Required: Basic (little to no knowledge of subject presented)

Expected Handout Length: 40 pages
**Program Description:** Learning algorithms is becoming a useful tool to evaluate and interpret evidence. This workshop will discuss some of the more popular types of algorithms and their application in different forensic disciplines and explain some of their limitations.

**Program:**

8:30 a.m. - 8:45 a.m.  Welcome and Introductions  
_Alicia L. Carriquiry, PhD_

8:45 a.m. - 9:15 a.m.  Evaluation of Evidence: Reliability, Repeatability, Objectivity  
_Michael J. Salyards, PhD_

9:15 a.m. - 9:45 a.m.  Learning Algorithms for Classification: A Gentle Introduction  
_Alicia L. Carriquiry, PhD_

9:45 a.m. - 10:15 a.m.  Random Forests: How They Work, Their Nice Attributes, Some Limitations  
_Heike Hofmann, PhD_

10:15 a.m. - 10:30 a.m.  Break

10:30 a.m. - 11:00 a.m.  Same Gun or Different Gun? Quantifying the Similarity Between Bullet Striations  
_Heike Hofmann, PhD_

11:00 a.m. - 11:30 a.m.  Learning Algorithms to Compare Footwear Impressions  
_Alicia L. Carriquiry, PhD_

11:30 a.m. - 11:45 a.m.  Score-Based Likelihood Ratios: The Good, the Bad, and the Ugly  
_Alicia L. Carriquiry, PhD_

11:45 a.m. - 12:15 p.m.  Final Thoughts and Closing Discussion  
_Michael J. Salyards, PhD_
W3  Recent Advances in Understanding Fire Pattern Production

Monday

February 17, 2020  8:30 a.m. – 12:15 p.m.  3.5 CE Hours

Learning Overview: After attending this workshop, attendees will have an appreciation not only for the difficulty in determining the origin of a fully involved fire, but also some of the solutions to the problem resulting from recent full-scale fire experiments performed at Underwriters Laboratories (UL). The outcome of the research emphasizes the point that “If you don’t understand the ventilation, you won’t understand the fire.”

Impact on the Forensic Science Community: This workshop will impact the forensic science community by providing investigators with the tools they need to understand and correctly interpret fire patterns and use that interpretation to find the fire’s origin. In the past decade, the validity of fire origin determination has been called into question because sometimes investigators have been misled by ventilation-generated patterns.

Chair: John J. Lentini, BA
Scientific Fire Analysis, LLC
Islamorada, FL

Co-Chair: Douglas J. Carpenter, MS
Combustion Science & Engineering, Inc
Columbia, MD

Faculty:
Daniel Madrzykowski, PhD
Underwriters Laboratories Firefighter Safety Research Institute
Columbia, MD

Targeted Audience: Criminalistics, Engineering & Applied Sciences, General

Knowledge Level Required: Intermediate (some knowledge of subject presented)

Expected Handout Length: 400 pages

Program Description: Presenters will discuss the results of two years of full-scale fire tests on two full-sized test structures conducted at UL. The results will help investigators avoid mistakes that have been documented in the past decade and arrive at the correct interpretation of post-fire artifacts. Attendees will learn how to access a freely available interactive web portal so as to allow experimental results to be compared with real-world fires.

Program:

8:30 a.m. -  9:00 a.m.  Introduction
John J. Lentini, BA

9:00 a.m. -  10:00 a.m.  Fire Dynamics and Fire Data Needed to Conduct a Fire Analysis
Daniel Madrzykowski, PhD

10:00 a.m. -  10:15 a.m.  Break

10:15 a.m. -  11:15 a.m.  Relating Fundamental Principles to Fire Pattern Interpretation
Douglas J. Carpenter, MS

11:15 a.m. -  12:15 p.m.  Panel Discussion
John J. Lentini, BA; Douglas J. Carpenter, MS; Daniel Madrzykowski, PhD
W4  The Impact of the 2018 Farm Bill on the Forensic Analysis of Cannabis

Monday
February 17, 2020  8:30 a.m. – 12:30 p.m.  3.5 CE Hours

Learning Overview: After attending this presentation, attendees will understand the legal and forensic landscape of marihuana/hemp analysis and also understand a validated analytical approach that meets these new requirements.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by providing a framework for meeting the forensic requirements of the 2018 Farm Bill.

Chair: Richard P. Meyers, MSFS  
Drug Enforcement Administration  
Office of Forensic Sciences  
Springfield, VA

Co-Chair: Sandra E. Rodriguez-Cruz, PhD  
Drug Enforcement Administration  
Special Testing and Research Laboratory

Richmond, VA

Shawn K. West, MSFS  
Colorado Bureau of Investigation  
Pueblo, CO

Targeted Audience: Criminalistics, General, Jurisprudence

Knowledge Level Required: Intermediate (some knowledge of subject presented)

Expected Handout Length: 200 pages

Program Description: This workshop will provide an overview of changes in the law, describe an analytical approach to providing reliable results that conform to the new legal requirements, and provide an overview of the work done to validate the methods incorporated into the analytical approach. State laboratory managers will describe their varying approaches to meeting these new challenges from a state that had legalized marijuana prior to changes in federal law and a state that had not.

**W5  The Psychopathology of Homicide**

**Program Description:** The workshop speakers will debate from different points of view the psychopathology of men and women who kill; the psychopathology of men and women of criminal organizations, such as the Sicilian mafia; combined homicide suicide; the Not Guilty by Reason of Insanity (NGRI) killers: a national sample; forensic psychiatric evaluations of defendants in homicide cases: literature analysis and forensic cases; and treatment outcomes following a killing conviction. Several general pathologists will speak on topics that pertain to the killer’s mental state from the perspective of forensic pathology and the investigation of homicide. The criminological and psychiatric data from a multicenter national Italian sample of forensic psychiatric patients will be also discussed.

W6 High-Impact Practices in Forensic Science Education

Monday
February 17, 2020    8:30 a.m. – 4:15 p.m.                     6.25 CE Hours

Learning Overview: After attending this presentation, attendees will learn how high-impact practices can be used in forensic science education and discover how to adapt their courses using common programming for students by: (1) identifying and describing a variety of high-impact practices; (2) recognizing useful high-impact practices dependent on the environment; and (3) discovering innovative high-impact practices that could be incorporated into their classroom.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by exploring a variety of high-impact practices and gaining insight into a broader scope of common methods useful in forensic science teaching. By discussing multiple types of high-impact practice techniques and the application of these practices in forensic science education, attendees will be able to incorporate tools into their forensic science classrooms and programs.

Targeted Audience: All disciplines
Knowledge Level Required: Basic (little to no knowledge of subject presented)
Expected Handout Length: 100 pages
Program Description: A variety of high-impact practice methods currently in use in various forensic science education programs will be shared. These methods will include first-year experiences, living-learning communities, field trips, community-focused projects, casework and scholarly research, project-based learning courses, and the student transformative learning record. Each discussion will include real-life examples of how the high-impact practice method is implemented within the curriculum or program. Due to the requirement of these types of high-impact practices for Forensic Science Education Programs Accreditation Commission (FEPAC) accreditation, there will be a discussion of the importance of these practices within forensic science education and how the standards can be achieved in multiples ways. Attendees will learn how to apply these methods toward any discipline or program.

Program:

8:30 a.m. - 8:45 a.m. Welcome and Introduction to the Council of Forensic Science Educators (COFSE) Gina Londino-Smolar, MS

8:45 a.m. - 9:15 a.m. FEPAC—The Importance of High-Impact Practices in Forensic Science Education Dwight E. Adams, PhD

W7 New Advances in Forensic Human Identification: Issues and Approaches

Monday

February 17, 2020  8:30 a.m. – 4:45 p.m.                           6.75 CE Hours

Learning Overview: After attending this presentation, attendees will have a heightened understanding of: (1) the factors affecting human identification; and (2) how the application of new, innovative, and cross-disciplinary techniques have the potential to overcome these issues, which will be detailed through case examples.

Impact on the Forensic Science Community: This presentation will impact the forensic science community through the presentation of multidisciplinary approaches toward human identification, pointing out the novel techniques suitable for this purpose, encouraging collaboration and innovation among different forensic specialties to document and to integrate several lines of evidence.

W8  Death Investigations in the Military: Case Studies From Around the World

Monday

February 17, 2020  8:30 a.m. – 5:00 p.m.  6.75 CE Hours

Learning Overview: After attending this presentation, attendees will understand: (1) processing a variety of death scenes; (2) forensic capabilities of military investigators; (3) investigative considerations in foreign countries; (4) coordination with international agencies; (5) domestic violence impact on child death; (6) staged suicide; (7) scene reconstruction; and (8) laboratory capabilities.

Impact on the Forensic Science Community: This presentation will impact the forensic science community through detailed accounts of a variety of death investigations as described by Army Special Agents who participated in the cases. The investigations represent various circumstances and illustrate the worldwide capabilities and responsibilities of military investigative agencies, along with legal and laboratory support.

Chair:
Steven Geniuk, MS
United States Army Military Police School
Forensic Science Training Facility
Fort Leonard Wood, MO

Faculty:
Joshua L. Adams, PhD
United States Army Criminal Investigation Command
Fort Myer, VA

Adam C. Armstrong, MS

Black River, NY

Vanessa R. Neff, MS
United States Army Criminal Investigation Command
Fort Hood, TX

Scott Roeske, MFS
Fort Sill, OK

Edmund D. Tamburini, MFS
McDonough, GA

Targeted Audience: Criminalistics, General, Jurisprudence, Pathology/Biology, Psychiatry & Behavioral Science

Knowledge Level Required: Intermediate (some knowledge of subject presented)

Expected Handout Length: 120 pages
**Program Description:** Investigators from the United States Army Criminal Investigation Division specializing in forensic science will present seven case studies illustrating a wide variety of death investigations spanning the globe. Additionally, a representative from the Army's Judge Advocate General (JAG) Corps will provide an overview of the military criminal justice system. The United States military crime lab representatives will share their expeditionary capabilities in support of Department Of Defense investigations worldwide.

**WORKSHOPS**

*Pre-Registration Required — $200 w/registration; $250 workshop only*

**W9  Interpersonal Violence and Elder Abuse: Maltreatment That Crosses All Borders**

**Monday**

February 17, 2020    8:30 a.m. – 5:00 p.m.                        7.0 CE Hours

**Learning Overview:** After attending this presentation, attendees will be able to identify multiple forms of abuse and mistreatment, recognize the impact of abuse across the lifespan, and specify key points for the prosecution of abusers.

**Impact on the Forensic Science Community:** This presentation will impact the forensic science community by broadening the education of those working with victims of violence. This presentation will enhance not only the ability to intervene in maltreatment but to prosecute the abuser.

**Chair:**
Amy Y. Carney, PhD
California State University San Marcos
San Marcos, CA

**Faculty:**
Rachell A. Ekroos, PhD
Center for Forensic Nursing Excellence International
Las Vegas, NV

Diana K. Faugno, MSN
Dallas, GA

Debra Holbrook, MSN
Academy of Forensic Nursing
Baltimore, MD

Stacey A. Mitchell, DNP
Texas A&M University
Bryan, TX

**Co-Chair:**
Patricia M. Speck, DNSc
Hoover, AL

Kathleen S. Thimsen, DNP
Barnes Jewish College, Goldfarb School of Nursing
Saint Louis, MO

David A. Williams, DDS
Randallstown, MD

Joyce P. Williams, DNP
Randallstown, MD

**Targeted Audience:** General

**Knowledge Level Required:** Basic (little to no knowledge of subject presented)

**Expected Handout Length:** 50 pages
Program Description: This presentation will provide attendees the tools and information they need to identify and intervene in interpersonal violence and elder abuse in their communities. Maltreatment across the lifespan will be addressed, with clear and concise case studies and examples that attendees will be able to use to broaden their understanding of the impact of violence on all age groups. Topics include forensic markers of abuse, wound identification, documentation of abuse, working with victims of violence, and evidence collection that leads to successful arrest and prosecution of perpetrators of abuse.

Program:

8:30 a.m. - 9:15 a.m.  The Impact of Trauma on Health: Crossing the Boundaries
Patricia M. Speck, DNSc

9:15 a.m. - 10:00 a.m.  Strangulation in Interpersonal Violence and Elder Abuse
Debra Holbrook, MSN

10:00 a.m. - 10:30 a.m.  Age-Related Changes and Comorbidities: Differentiating Abuse
Kathleen S. Thimsen, DNP

10:30 a.m. - 10:45 a.m.  Break

10:45 a.m. - 11:30 a.m.  Reaching Across Professional Borders: Creating Coordinated Community Response to Elder Abuse
Rachell A. Ekroos, PhD

11:30 a.m. - 12:00 p.m.  Panel Discussion
Patricia M. Speck, DNSc; Debra Holbrook, MSN; Kathleen S. Thimsen, DNP; Rachell A. Ekroos, PhD

12:00 p.m. - 1:00 p.m.  Lunch

1:00 p.m. - 1:45 p.m.  Interpersonal Violence and Elder Abuse: Where’s the Border?
Amy Y. Carney, PhD

1:45 p.m. - 2:30 p.m.  Investigating Abuse and Neglect in Health Care Facilities
Stacey A. Mitchell, DNP

2:30 p.m. - 2:45 p.m.  Break

2:45 p.m. - 3:30 p.m.  Elder Sexual Abuse: A Case Review
Diana K. Faugno, MSN

3:30 p.m. - 4:15 p.m.  The Elderly in Disasters
David A. Williams, DDS; Joyce P. Williams, DNP

4:15 p.m. - 4:45 p.m.  Panel Discussion
Amy Y. Carney, PhD; Stacey A. Mitchell, DNP; Diana K. Faugno, MSN; David A. Williams, DDS; Joyce P. Williams, DNP

4:45 p.m. - 5:00 p.m.  Questions and Wrap-Up
Patricia M. Speck, DNSc; Debra Holbrook, MSN; Kathleen S. Thimsen, DNP; Rachell A. Ekroos, PhD; Amy Y. Carney, PhD; Stacey A. Mitchell, DNP; Diana K. Faugno, MSN; David A. Williams, DDS; Joyce P. Williams, DNP
W10  The Investigation and Analysis of Health Care Serial Killers

Monday

February 17, 2020    8:30 a.m. – 5:00 p.m.                        7.0 CE Hours

Learning Overview: After attending this presentation, attendees will: (1) state the different motivations of health care serial killers; (2) understand some of the challenges associated with analytical testing and result interpretation; (3) list the agents that have been used in medical killings and describe their mechanism of action; and (4) understand how to best prepare for case presentation in a legal proceeding.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by providing a multidisciplinary approach to understanding, identifying, and investigating health care serial killers.

Chair:
Laura M. Labay, PhD
NMS Labs, Inc
Willow Grove, PA

Faculty:
Tim Braun
National Center for Missing & Exploited Children
Alexandria, VA

Kevin M. Legg, PhD

NMS Labs, Inc
Willow Grove, PA

Vincent Marks, DM
University of Surrey
Guilford, UNITED KINGDOM

Paul Uribe, MD
Armed Forces Medical Examiner System
Office of the Armed Forces Medical Examiner
Dover Air Force Base, DE

Beatrice Yorker, JD
Los Angeles, CA

Targeted Audience: Jurisprudence; Psychiatry & Behavioral Science; Toxicology

Knowledge Level Required: Basic (little to no knowledge of subject presented)

Expected Handout Length: 100 pages

Supported By: NMS Labs, Inc
Program Description: The health care serial killer is a unique type of criminal offender who is employed as a medical provider and intentionally ends the life of a person under their care. The motivations to kill are varied, but include ending the suffering of a patient who unlikely will recover, minimizing the emotional toll of the relatives, achieving recognition from their colleagues by accomplishing life-saving resuscitation measures, and exerting dominance over a weaker individual.

These cases are challenging to recognize as they typically occur over an extended period of time, involve different care facilities, and include patients who are severely ill and/or have a terminal diagnosis. Toxicology testing may not include the administered substance or interpretation is confounded due to variables such as analyte instability and the poor health status of the patient. Instead, identification and investigations tend to occur when a correlation between a care provider’s presence and a cluster of deaths is observed.

Program:

8:30 a.m. - 8:45 a.m.  
Introduction and Historical Overview  
Laura M. Labay, PhD

8:45 a.m. - 9:45 a.m.  
Profiling the Medical Serial Killers—Motivations and Common Features  
Beatrice Yorker, JD

Vincent Marks, DM

2:45 p.m. - 3:45 p.m.  
Analytical Proof  
Kevin M. Legg, PhD

3:45 p.m. - 4:00 p.m.  
Break

4:00 p.m. - 5:00 p.m.  
Meeting a Legal Burden of Proof  
Beatrice Yorker, JD
**WORKSHOPS**

*Pre-Registration Required — $200 w/registration; $250 workshop only*

**W11** The Native American Graves Protection and Repatriation Act (NAGPRA) and the Medicolegal System: Legal, Practical, and Ethical Considerations for Practitioners

**Monday**

February 17, 2020  
8:30 a.m. – 5:15 p.m.  
7.25 CE Hours

**Learning Overview:** After attending this presentation, attendees will: (1) better understand NAGPRA and how it applies to Medical Examiner/Coroner (ME/C) offices that come into possession of non-forensic Native American remains; (2) learn the legal responsibilities necessary to be compliant with the federal law and understand when and how NAGPRA-compliant protocols should be followed; (3) learn how to complete each step of the NAGPRA process, including what types of evidence are used to determine cultural affiliation; and (4) learn best practices for communicating with tribes.

**Impact on the Forensic Science Community:** This presentation will impact the forensic science community by providing attendees with an understanding of why and how the federal NAGPRA law applies to the medicolegal system when non-forensic Native American remains are submitted to ME/C offices and the possible repercussions for non-compliance. NAGPRA governs the treatment and disposition of Native American remains in any state office that receives federal funding and provides a legal pathway for Native Americans to claim and repatriate the remains of their ancestors. As ME/C offices receive federal funding by the distribution of these funds through the state to local government agencies and are often in the possession of non-forensic Native American remains, they fall within the legal purview of the law.

**Chair:**  
Megan K. Kleeschulte, MA  
University of Tennessee, Knoxville  
Knoxville, TN

**Co-Chair:**  
Amy Z. Mundorff, PhD  
University of Tennessee, Knoxville  
Knoxville, TN

**Faculty:**  
Bruce E. Anderson, PhD  
Pima County Office of the Medical Examiner  
Forensic Science Center  
Tucson, AZ

Ellen Lofaro, PhD  
University of Tennessee, Knoxville  
Knoxville, TN

**Targeted Audience:** Anthropology, General, Jurisprudence, Pathology/Biology

**Knowledge Level Required:** Basic (little to no knowledge of subject presented)

**Expected Handout Length:** 50 pages

**Program Description:** This workshop provides training on the application and protocols of NAGPRA for the medicolegal system. ME/C offices have been identified as systems that legally fall under the definition of museum as it is employed in NAGPRA and, therefore, are required to comply with the law's mandates. This workshop will cover the history leading to the passage of NAGPRA and will provide an in-depth discussion of the definitions included in the law and how they apply to the medicolegal system. This session will also provide hands-on training on how to determine whether your office is in possession or control of Native American remains, how to initiate consultation with tribes, what evidence should be used for making cultural affiliation determinations, how to fill out notice of inventory completion templates, how notices get published on the federal register, and how to facilitate the final physical transfer of remains when control of claimed remains transfers to claimant tribes. This hands-on training will be accomplished using different scenarios that mimic the various contextual situations practitioners may encounter regarding Native American remains.
WORKSHOPS

Pre-Registration Required — $200 w/registration; $250 workshop only

W11 The Native American Graves Protection and Repatriation Act (NAGPRA) and the Medicolegal System: Legal, Practical, and Ethical Considerations for Practitioners

Program:

8:30 a.m. - 8:40 a.m. Welcome and Introduction
Megan K. Kleeschulte, MA

8:40 a.m. - 9:40 a.m. History Leading to the Passage of NAGPRA
Ellen Lofaro, PhD

9:40 a.m. - 10:30 a.m. The Law: Stipulations, Definitions, and Terminology
Megan K. Kleeschulte, MA

10:30 a.m. - 10:45 a.m. Break

10:45 a.m. - 11:15 a.m. Determining Forensic vs. Non-Forensic Significance
Bruce E. Anderson, PhD

11:15 a.m. - 12:00 p.m. Distinguishing Native American Remains From Other Groups
Bruce E. Anderson, PhD

12:00 p.m. - 1:00 p.m. Lunch

1:00 p.m. - 2:00 p.m. The NAGPRA Process: A Step-by-Step Review of Compliant Protocols
Megan K. Kleeschulte, MA; Ellen Lofaro, PhD

2:00 p.m. - 2:30 p.m. The Pima County Office of the Medical Examiner: A Case Study
Megan K. Kleeschulte, MA; Bruce E. Anderson, PhD

2:30 p.m. - 2:45 p.m. Break

2:45 p.m. - 5:15 p.m. Mock Scenarios
Megan K. Kleeschulte, MA; Ellen Lofaro, PhD
Pre-Registration Required — $200 w/registration; $250 workshop only

W12 KidStats: Improving the Subadult Biological Profile

Monday
February 17, 2020 8:30 a.m. – 5:15 p.m. 7.25 CE Hours

**Learning Overview:** After attending this workshop, attendees will be trained on the most up-to-date techniques to estimate subadult age and sex and on KidStats, a freely available web-based graphical user interface.

**Impact on the Forensic Science Community:** This presentation will impact the forensic science community by providing attendees with applied experience in collecting subadult data from 3D printed remains of individuals between birth and 15 years and the application of these data in a statistical framework.

**Chair:**
Kyra E. Stull, PhD  
University of Nevada, Reno  
Department of Anthropology  
Reno, NV

**Faculty:**
Louise K. Corron, PhD  
University of Nevada, Reno  
Department of Anthropology  
Reno, NV

Alexandra R. Klales, PhD  
Washburn University  
Forensic Anthropology Program  
Topeka, KS

**Co-Chair:**
Heather M. Garvin, PhD  
Des Moines University  
Department of Anatomy  
Des Moines, IA

Michael H. Price, PhD  
Santa Fe Institute  
Santa Fe, NM

**Targeted Audience:** Anthropology

**Knowledge Level Required:** Intermediate (some knowledge of subject presented)

**Expected Handout Length:** 25 pages

**Restricted Audience Size:** 30
**Program Description:** Forensic anthropological research is generally less focused on the subadult biological profile, mainly because of the difficulty in accessing skeletal samples to develop techniques. Subsequently, methods development to estimate subadult parameters of the biological profile (e.g., age, sex, and stature) is lacking. A large sample of postmortem computed tomography images of children between birth and 20 years (~1,100) allowed for the development and validation of age and sex estimation techniques using a contemporary subadult sample. This workshop will provide information on the statistics that went into the development of these models and hands-on opportunities with 3D printed skeletal elements of individuals from the sample allowing for a direct opportunity to collect age and sex indicators. The workshop participants will also work with KidStats, a freely available graphical user interface allowing practitioners all around the world to estimate the age of children based on the age indicators collected.

W13  A Primer on Multidisciplinary Investigations of Pediatric Injuries and Deaths

Monday
February 17, 2020  8:30 a.m. – 5:30 p.m.  7.25 CE Hours

Learning Overview: Attendees will be able to demonstrate the ability to analyze and evaluate available data in a pediatric death or injury case to formulate a viable hypothesis regarding the actual mechanism of the pathology in question. After attending this presentation, attendees will be better able to differentiate and implement effective investigative techniques from lesser alternatives.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by exposing practitioners to an effective multidisciplinary team approach to prospectively work through investigations as they progress to a conclusion.

Chair:
J.C.U. Downs, MD

Salt Lake County District Attorney’s Office
Salt Lake City, UT

Targeted Audience: Criminalistics, General, Jurisprudence, Odontology, Pathology/Biology, Toxicology

Knowledge Level Required: Intermediate (some knowledge of subject presented)

Expected Handout Length: 100 pages

Program Description: This workshop will teach investigators, physicians, scientists, attorneys, and others working on child deaths and injuries how to objectively and effectively gather, analyze, and appraise evidence in cases of pediatric injury and/or death

Proceeds from this workshop will benefit the Forensic Sciences Foundation, Inc.

W14  Mass Disasters and Disaster Victim Identification (DVI)

Monday

February 17, 2020  8:30 a.m. – 5:30 p.m.  7.25 CE Hours

Learning Overview: After attending this presentation, attendees will be able to: (1) understand the historical background of DVI; (2) recognize the need for standards and best practices; (3) understand the integrated contributions of the various forensic sciences to DVI; and (4) understand the critical relationship of the Victim Information Center to the identification process.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by providing attendees with an understanding of the current state of mass fatality victim identification as it exists in the United States. Presentations will encompass the breadth of the forensic sciences, including ethical considerations and the role of the Victim Information Center in mass fatality identifications.

Houston, TX

Cynthia Gavin, PhD
Parkville, MD

Targeted Audience: Anthropology, Criminalistics, General, Jurisprudence, Odontology, Pathology/Biology

Knowledge Level Required: Basic (little to no knowledge of subject presented)

Expected Handout Length: 275 pages

Program Description: DVI is the comprehensive process of human identification as applied to mass fatality events. Although by definition a mass fatality event is any situation that overwhelms local resources, we generally think of a situation in which identification is hampered by the event and recovery process. Human remains that have been badly traumatized, heavily decomposed, or recovered outside of their normal context are examples that fit this description. In response to the 2009 National Academy of Sciences (NAS) Report, a movement to create standards within the forensic sciences was started. DVI was included and the creation of standards and best practices within the field are ongoing. DVI is the concerted and combined efforts of dedicated scientists, specialists, and governmental and private agencies. It is practiced under far-less-than-perfect conditions under circumstances that are often politically and culturally charged.
WORKSHOPS

Pre-Registration Required — $200 w/registration; $250 workshop only

W14  Mass Disasters and Disaster Victim Identification (DVI)

Program:

8:30 a.m. - 8:45 a.m.  Welcome and Introduction  
John A. Williams, PhD

8:45 a.m. - 9:15 a.m.  Historical Considerations in DVI  
Victor W. Weedn, MD, JD

9:15 a.m. - 10:15 a.m. The Case for Standards  
Jason M. Wiersema, PhD

10:15 a.m. - 10:45 a.m. Public and Private Agencies in DVI  
John A. Williams, PhD

10:45 a.m. - 11:00 a.m. Break

11:00 a.m. - 11:45 a.m. The Role of the Forensic Sciences in DVI  
Anthony B. Falsetti, PhD

11:45 a.m. - 12:30 p.m. Odontology and DVI  
Kenneth W. Aschheim, DDS

12:30 p.m. - 1:30 p.m. Lunch

1:30 p.m. - 2:00 p.m. Fingerprint Identification  
Bryan Johnson, MSFS

2:00 p.m. - 3:00 p.m. DNA Identification  
Mark J. Wadhams, MS

3:00 p.m. - 3:15 p.m. Break

3:15 p.m. - 4:00 p.m. The Victim Identification Center  
Jason H. Byrd, PhD

4:00 p.m. - 4:30 p.m. Ethical Considerations in DVI  
Victor W. Weedn, MD, JD

4:30 p.m. - 5:15 p.m. DVI in the 21st Century  
Cynthia Gavin, PhD

5:15 p.m. - 5:30 p.m. Concluding Comments  
John A. Williams, PhD
W15  Dementia Workup for Forensic Pathologists Following a Condensed National Institute on Aging-Alzheimer’s Association (NIA-AA) Protocol

Tuesday

February 18, 2020    8:30 a.m. – 12:00 p.m.     3.25 CE Hours

Learning Overview: After attending this presentation, attendees will: (1) become familiar with the diagnostic workup and grading schemes for common classes of dementia; (2) be able to accurately identify and sample appropriate regions of the brain according to the Condensed Protocol for dementia workup; and (3) understand the benefits and limitations of the Condensed and NIA-AA Protocols for dementia workup.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by presenting a method that reduces the cost of histopathologic dementia workup while maintaining diagnostic performance.

Chair:
Nicole A. Yarid, MD

King County Medical Examiner's Office
Seattle, WA

Desiree A. Marshall, MD
University of Washington Harborview Medical Center
Seattle, WA

Rebecca A. Yoda, MD
University of Washington Harborview Medical Center
Seattle, WA

Targeted Audience: Pathology/Biology
Knowledge Level Required: Advanced (highly technical)
Expected Handout Length: 50
Restricted Audience Size: 50
**Program Description:** This workshop will present a clear and cost-reducing protocol for neuropathologic evaluation of potential dementia cases that maintains the diagnostic performance of the NIA-AA guidelines in assessing Alzheimer dementia, Lewy body disease, microvascular brain injury, hippocampal sclerosis, and congophilic amyloid angiopathy.

**Program:**

- **8:30 a.m. - 8:50 a.m.**  
  Dementia in the Forensic Pathology Setting  
  *Nicole A. Yarid, MD*

- **8:50 a.m. - 9:15 a.m.**  
  NIA-AA-Sponsored Guidelines and Development of Condensed Protocol for Dementia Assessment  
  *C. Dirk Keene, MD, PhD*

- **9:15 a.m. - 9:45 a.m.**  
  The Application and Performance of Condensed Protocol for Dementia Assessment  
  *Desiree A. Marshall, MD*

- **9:45 a.m. - 10:00 a.m.**  
  Break

- **10:00 a.m. - 10:30 a.m.**  
  The Use of the Condensed Protocol for Dementia Workup in a Forensic Setting  
  *Rebecca Folkerth, MD, PhD*

- **10:30 a.m. - 11:45 a.m.**  
  A Demonstration of Condensed Protocol  
  *Rebecca A. Yoda, MD*

- **11:45 a.m. - 12:00 p.m.**  
  Summary and Discussion  
  *Nicole A. Yarid, MD*
WORKSHOPS

Pre-Registration Required — $100 w/registration; $125 workshop only

W16 Forensic Multimedia Authentication: Real-Life Challenges

Tuesday
February 18, 2020 8:30 a.m. – 12:00 p.m. 3.0 CE Hours

Learning Overview: After attending this workshop, attendees will: (1) become familiar with the latest developments in forensic video and audio authentication, enhancement, and restoration; (2) understand criteria used for media authentication; (3) understand how to conduct analysis within a forensic framework; and (4) explore the latest technologies in the generation of synthetic imagery, including deepfakes, face2face, and others.

Impact on the Forensic Science Community: This workshop will impact the forensic community by: (1) explaining the scientific approach in forensic media authentication, enhancement, and restoration; (2) demonstrating an authentication investigation framework; and (3) discussing tools used to create and combat multimedia forgery.

United States Department of Interior
Office of the Inspector General
Computer Crimes Unit, Digital Forensic Lab
Lakewood, CO

Targeted Audience: Digital & Multimedia Sciences
Knowledge Level Required: Intermediate (some knowledge of subject presented)
Expected Handout Length: 250 Pages
Program Description: This workshop on the impact of emerging technologies on multimedia forensics will examine the new and emerging technologies affecting multimedia forensics today and over the coming decades. The information shared during the workshop is from academics, researchers, and practitioners currently working and researching in these new technology areas. Participants will be informed of the latest developments in forensic video and audio authentication, enhancement, and restoration. This includes the latest technologies in the generation of synthetic imagery, including deepfakes, face2face, and others. This workshop assembles an experienced group of people impacting the world of multimedia forensics on a variety of topics.

W17  The Murder of Women: A Global Issue That Demands Action

Tuesday

February 18, 2020    8:30 a.m. – 12:00 p.m.       3.0 CE Hours

Learning Overview: After attending this presentation, attendees will understand and recognize how discrimination against women prevails throughout the world, and how violence against women, a serious violation of human rights, is the most severe consequence of such discrimination. The Inter-American Court of Human Rights defined femicide as “the murder of women by gender” considering that these deaths result from structural and social attitudes, rooted in a culture of gender-based violence and discrimination. Acts of violence against women based on their status as women demand the serious and specific attention of the international community.

Attendees will become more aware of the various types of violence that are manifested in many ways. Most victims are raped and many are mutilated, tortured, or dismembered. Femicide is a complex phenomenon, ranging from the murder of women by their partners or ex-partners, to their kidnapping followed by rape and subsequent killing committed by unknown perpetrators, to ritual crimes performed by sects or other groups.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by empowering attendees to understand that is an obligation of the United States to prevent and eradicate femicide and to adopt administrative, legislative, and judicial measures to prohibit gender discrimination. States must ensure the exercise of the rights of women and pursue, by all appropriate means and without delay, policies that prevent, punish, and eradicate violence against women. States have the obligation to standardize all their protocols and manuals; to update their research criteria; and to restructure the administration of justice related to investigate disappearances, sexual violence, and murder of women. These measures have implications not only for the United States, but also for other systems of human rights protection, such as the European Court of Human Rights. After implementation of various policies addressing this crucial issue, states should be held responsible for lack of diligence in investigations, lack of access to justice for the families of the victims, and therefore for the impunity of the perpetrators. To sum up, states are responsible for taking the necessary steps to ensure a life free of violence for women.

Piscataway, NJ

Targeted Audience: Criminalistics, Jurisprudence, Pathology/Biology, Psychiatry & Behavioral Science
Knowledge Level Required: Basic (little to no knowledge of subject presented)
Expected Handout Length: 30 Pages
Program Description: This workshop will show how to monitor the issue of femicide in the future and what types of data and information will be used. Scientists think it reasonable to create scientifically based monitoring with a proper strategy together with all national and international partners. Such a structure must promote the creation of comparable national databases, while also systematically involving existing international systems of data collection and their experience. It became very clear, during research, that the collection of police data alone would not be sufficient for analyzing the cases in the detail needed for prevention and intervention. Therefore, many countries have adopted the strategy of collecting information on all the cases known to the media and collating it with the criminological data and—insofar as is possible—data recorded by health and support systems. This strategy makes it possible to obtain more background information on femicides, which is important for future prevention and early interventions. In order to stabilize the collection of data and information at the European level, it is important to publicly finance work resources at the national level in order to create and continuously update national databases in a way that makes international comparison possible. Furthermore, a scientifically based monitoring body must coordinate data collection and supply it to joint databases. Only in this way will it be possible, in the long-term, to create a bigger pool of data that allows deeper analysis and prevention of the problem at the European, American, and international level.

Program:

8:30 a.m. - 8:40 a.m. Welcome
Vivian Chern Shnaidman, MD; Cinzia Gimelli, PsyD, PhD; Luciano Garofano, PhD

8:40 a.m. - 9:00 a.m. An Introduction to Femicide: A Cross Psycho-Social Problem of Global Entity—Italian and United States Data
Cinzia Gimelli, PsyD, PhD; Ariel V. Tabachnik, BS

9:00 a.m. - 10:00 a.m. New Forms of Cyber-Mediated Gender-Based Violence
Ariel V. Tabachnik, BS

10:00 a.m. - 10:15 a.m. Break

10:15 a.m. - 10:37 a.m. Italian and United States Laws and Their Effects on the Phenomenon Over the Years
Luciano Garofano, PhD; Vivian Chern Shnaidman, MD; Cinzia Gimelli, PsyD, PhD

10:37 a.m. - 11:00 a.m. The Structure, Role, and Functions of Italian and United States Prevention Field Agencies
Cinzia Gimelli, PsyD, PhD; Vivian Chern Shnaidman, MD

W18   Injury Biomechanics: An Interdisciplinary Approach and Forensic Applications

Tuesday

February 18, 2020       8:30 a.m. – 12:30 p.m.       3.5 CE Hours

Learning Overview: After attending this workshop, attendees will comprehend the advantages of using an interdisciplinary team to address questions concerning injury biomechanics and associated trauma analysis. Attendees will be exposed to the applications of injury biomechanics across multiple scientific disciplines through presentations and hands-on experiences. Additionally, attendees will be introduced to the value of experimental testing in developing and validating forensic methods of injury analysis and the importance of scientific validity and error rates.

Impact on the Forensic Science Community: This workshop will impact the forensic science community by providing attendees with an introduction to injury biomechanics and the applications of this research to forensic anthropology, engineering and applied sciences, and forensic pathology.

Chair:
Amanda M. Agnew, PhD
The Ohio State University
Columbus, OH

Co-Chair:
Angela L. Harden, MA
The Ohio State University
Columbus, OH

Targeted Audience: Anthropology, Engineering & Applied Sciences, General, Pathology/Biology

Knowledge Level Required: Basic (little to no knowledge of subject presented)

Expected Handout Length: 50 Pages
**Program Description:** Injury biomechanics is the science that relates mechanical forces to disruption of anatomical regions of the human body. This multidisciplinary field encompasses engineering, physics, and medicine and can offer improved validity of trauma analyses and interpretation to the field of forensic anthropology. This workshop will provide attendees with an introduction to injury biomechanics, applications, and limitations of forensic injury biomechanics, how to effectively collect and analyze quantitative data used in injury biomechanics, experimental design, in addition to detailed presentations on current experimental research with subsequent trauma evaluation and interpretations. Presentations will demonstrate the importance and value of interdisciplinary experimental research to trauma analyses, re-creating traumatic events, and expert testimonies. An emphasis will be on skeletal trauma. Attendees will have the opportunity to discuss the role of injury biomechanics in forensic fields with the panel of experts. Attendees will leave the workshop with a greater understanding of the contributions of experimental research to forensic applications.

**Expected Handout Length:** 80 Pages
Program Description: Experts from all over the world will discuss the new developments that are in the process of revolutionizing forensic science. The speakers are the best of the best within each of their areas of expertise. Practical examples will be presented on robotics, drug intelligence, analytical chemistry, technology rules, Bayesian approach, legal technology developments, R&D in a forensic lab, veterinary forensics, and aquatic death investigations. This presentation will provide an overview of exciting new advances and open a forum for the discussion of issues that may arise regarding these new developments that will ultimately impact the forensic science community. A wide variety of new technology that will soon impact forensic scientist has been identified within the AAFS Think Tank Committee.

Program:

8:30 a.m. - 8:40 a.m.  Opening Remarks
Laura L. Liptai, PhD

8:40 a.m. - 9:05 a.m.  Managing R&D in a Forensic Lab in a Fast-Changing World
Anemieke de Vries, PhD

9:05 a.m. - 9:30 a.m.  Emerging Drug Threats and Drug Intelligence
Jeri D. Ropero-Miller, PhD

9:30 a.m. - 9:55 a.m.  An Example of Bayesian Approach in Forensic Reports
Ivo Alberink, PhD

9:55 a.m. - 10:20 a.m.  Technology Rules OK?
Sheila Willis, PhD

10:20 a.m. - 10:30 a.m.  Break

10:30 a.m. - 10:55 a.m.  Most Important Legal Technology Developments in 2019–2020
Stephanie Domitrovich, JD, PhD

10:55 a.m. - 11:15 a.m.  New Developments in Forensic Analytical Chemistry

W20 Genetic Genealogy: Science, Law, and Ethics

Tuesday

February 18, 2020

8:30 a.m. – 4:45 p.m.

Learning Overview: After attending this workshop, attendees will have a better understanding of how genetic genealogy works, how it is used by law enforcement, its admissibility in court, and the ethics of using personal DNA data of relatives to solve crimes.

Impact on the Forensic Science Community: This workshop will impact the forensic science community by providing a clear understanding of the use of genetic genealogy to solve crimes and to better equip forensic scientists to appreciate the legal and ethical issues that it presents.

Targeted Audience: Criminalistics, General, Jurisprudence, Pathology/Biology, Psychiatry & Behavioral Science

Knowledge Level Required: Basic (little to no knowledge of subject presented)

Expected Handout Length: 100 Pages

Program Description: Since the identification and arrest of the suspect in the “Golden State Killer” investigation in early 2018 using novel DNA and genealogy tools, dozens of law enforcement investigators in North America have effectively used such methods in high-profile cold cases. This workshop includes a description of the DNA technology used, the database search process itself, the methods of genealogy searching, and the legality and ethics of the process, all from expert leaders in those fields. Speakers include CeCe Moore, the genealogist who pioneered the method in the “Golden State Killer” case, biomedical DNA specialists, lawyers, professors, and ethics experts.
WORKSHOPS

W21  A Decade of Designer Drugs: Lessons Learned and Future Directions

Tuesday

February 18, 2020  8:30 a.m. – 5:00 p.m.  6.75 CE Hours

**Learning Overview:** After attending this workshop, attendees will be able to: (1) discuss current and past trends in Novel Psychoactive Substances (NPS); (2) describe and explain the means by which new substances are assessed for their potency and toxicity; (3) identify resources and strategies for the investigation of NPS toxicity outbreaks and impacts on user populations; (4) assess the available analytical techniques for resolving the identity of positional isomers of new drugs; and (5) apply best practices in the use of standard reference materials and proficiency testing for forensic NPS casework.

**Impact on the Forensic Science Community:** This presentation will impact the forensic science community by providing a ten-year perspective on how forensic and research sciences responded to the phenomenon of designer drugs, later NPS, the tools and workflows that have been developed, current approaches to evaluating drug toxicity, the impact of NPS on drug user behavior, and best practices for the future identification of structural identity and detail of newly emergent substances.

**Chair:**
Donna M. Papsun, MS
NMS Labs
Willow Grove, PA

**Faculty:**
Michael H. Baumann, PhD
Intramural Research Program, National Institute on Drug Abuse, National Institutes of Health
Baltimore, MD

Jennifer Bonetti, MS
Virginia Department of Forensic Science
Norfolk, VA

Michael B. Gatch, PhD
University of North Texas Health Science Center
Fort Worth, TX

Marilyn A. Huestis, PhD
Huestis & Smith Toxicology, LLC
Severna Park, MD

Donna M. Iula, PhD
Cayman Chemical
Ann Arbor, MI

**Co-Chair:**
Barry K. Logan, PhD
NMS Labs
Willow Grove, PA

Alex J. Krotulski, MS
Center for Forensic Science Research & Education
Willow Grove, PA

Robert A. Middleberg, PhD
NMS Labs
Willow Grove, PA

Amanda L.A. Mohr, MSFS
Center for Forensic Science Research & Education
Willow Grove, PA

Christopher Moraff, MS
Temple University
Philadelphia, PA

Aaron Urbas, PhD
National Institute of Standards and Technology
Gaithersburg, MD

**Targeted Audience:** Criminalistics, General, Pathology/Biology, Toxicology

**Knowledge Level Required:** Intermediate (some knowledge of subject presented)

**Expected Handout Length:** 250 Pages

**Sponsored by:** NMS Labs, Inc.

**Program Description:** This workshop will bring together forensic chemists, medical examiners, death investigators, forensic toxicologists, emergency responders, and public health officials to reflect on the past decade of NPS. This workshop will provide a forum in which experts across different disciplines can share their varying perspectives on the NPS epidemic.
## WORKSHOPS

### Pre-Registration Required — $250 w/registration; $300 workshop only

WORKSHOPS

Pre-Registration Required — $200 w/registration; $250 workshop only

W22 “All Rise”: Successfully Navigating the Judicial System as an Expert Witness

Tuesday
February 18, 2020  8:30 a.m. – 5:00 p.m.  7.0 CE Hours

Learning Overview: After attending this workshop, attendees will be well-versed in the decorum, procedures, expectations, and environment of a modern United States courtroom through active participation in the process.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by offering real-world experience in expert testimony in an environment conducive to productive learning without the stress of an actual trial.

Chair:
Laura C. Fulginiti, PhD
Forensic Science Center
Phoenix, AZ

Katelyn L. Bolhofner, PhD
Arizona State University
Glendale, AZ

Betty Layne DesPortes, JD, MS
Benjamin & DesPortes, PC
Richmond, VA

Matthew Greco, JD
San Diego District Attorney’s Office
San Diego, CA

Co-Chair:
Daniel G. Martin, JD
Superior Court of Arizona
Phoenix, AZ

Kristen Hartnett-McCann, PhD
Office of the Chief Medical Examiner
Farmington, CT

Andrew C. Seidel, PhD
Arizona State University
Tempe, AZ

Targeted Audience: All Disciplines
Knowledge Level Required: Basic (little to no knowledge of subject presented)
Expected Handout Length: 50 Pages
Restricted Audience Size: 50

Program Description: This workshop is designed to introduce and expand the understanding of expert witnesses who are confronted with the judicial process as part of their work. Using an actual courtroom set-up, the organizers plan to include the attendees in real-life scenarios as expert witnesses on the stand and as jurors evaluating the proffered testimony.

**W23**  
Dispelling the Myths About the Forensic Examination of Handprinting

**Tuesday**

| February 18, 2020 | 8:30 a.m. – 5:00 p.m. | 6.75 CE Hours |

**Learning Overview:** After attending this workshop, attendees will be informed about the development of manuscript handprinting, motor-control theories regarding how handprinting is learned, examination techniques with handprinting, and will conduct hands-on examinations of genuine and simulated handprinting.

**Impact on the Forensic Science Community:** This workshop will impact the forensic science community by informing attendees on the history and development of manuscript handprinting, and will enhance their abilities to conduct handprinting examinations. Attendees will also be prepared to defend the reliability of handprinting examinations in court.

**Chair:**  
Linton Mohammed, PhD  
Forensic Science Consultants, Inc  
Burlingame, CA

**Co-Chair:**  
Linda L. Mitchell, BS  
Forensic QDE Lab, LLC  
Escondido, CA

**Faculty:**  
Brett Bishop  
Cheney, WA

Katelyn E. Bruno, MFS  
Quantico, VA

Lloyd Cunningham  
Alamo, CA

**Targeted Audience:** Questioned Documents

**Knowledge Level Required:** Intermediate (some knowledge of subject presented)

**Expected Handout Length:** 20 Pages

**Program Description:** This full-day workshop will provide attendees with knowledge of the development of handprinting from the schoolroom and from motor control principles. Recent cases in which the reliability of handprinting evidence was criticized will be discussed. There will be a significant hands-on component in which attendees will be able to learn techniques of examining genuine and simulated handprinting.
**WORKSHOPS**

W24  Forensic Postmortem Radiology: Crossing the Border Between Radiology and Pathology

Tuesday
February 18, 2020  8:30 a.m. – 5:00 p.m.  7.0 CE Hours

Learning Overview: After attending this workshop, attendees will: (1) learn the basics in how to get started in the field of forensic radiology, (2) understand the current state of the art and levels of evidence in forensic radiology, (3) learn about applications to assist forensic pathologists and practitioners in medical death investigations, and (4) finally will be made aware of potential resources available to interested practitioners.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by providing attendees with expertise from around the world on the use of best practices and the evidence base of forensic postmortem radiology.

Chair:
Summer J. Decker, PhD
University of South Florida Department of Radiology
Morsani College of Medicine
Tampa, FL

Faculty:
Lars C. Ebert, PhD
Universitat Zurich
Zurich, SWITZERLAND

David Errickson, PhD
Cranfield University
Shrivenham, UNITED KINGDOM

Jonathan M. Ford, PhD
Department of Radiology
Tampa, FL

Frances E. Hollingbury, MBChB
East Midlands Forensic Pathology Unit
Leicester, UNITED KINGDOM

Jeroen J.F. Kroll
Maastricht University Medical Center

Lars Oesterhelweg
Institut für Rechtsmedizin der Charité
Berlin, GERMANY

Michael Thali, MD
Universitat Zurich
Zurich, SWITZERLAND

Rick R. Van Rijn, MD, PhD
Amsterdam United Methodist Church &
Netherlands Forensic Institute
Amsterdam, NETHERLANDS

Targeted Audience: Pathology/Biology

Knowledge Level Required: Basic (little to no knowledge of subject presented)

Expected Handout Length: 150 Pages
**Program Description:** The “Virtual Autopsy” or “Virtopsy” utilizes Multislice Computed Tomography (MSCT) or Postmortem CT (PMCT) and Magnetic Resonance Imaging (MRI) combined with 3D imaging technology to create vivid images of the interior of the human body. This can be accomplished not only in the living but also in the dead. In the past decades, an increasing use of these techniques, in the postmortem setting, has been seen in the field of forensics. However, without the proper knowledge of the potential benefits but also the limitations of forensic postmortem radiology, its implementation in the field of forensics is impossible. The international group of speakers in this workshop have extensive experience in implementing forensic postmortem radiology workflows, interpreting case studies, and/or implementing this in advanced imaging modalities. The international background and diversity of professional backgrounds of the speakers provides the participants an opportunity to gain a broad perspective, crossing the borders between specialties, on this exciting field. Many of the speakers, who all are internationally seen as experts in their fields, have been on the forefront of forensic postmortem radiology or can even be seen as founding fathers in this field.

The goal of this workshop is to share knowledge and experiences with those who are working in the field of forensics and are currently thinking about implementing this new and important modality; they should really attend this course. Those who already are using forensic postmortem radiology are also welcome, not only to learn from this highly experienced faculty, but also to share their experiences in this field. This program offers a broad range of topics from the young child to disaster victim identification and from obtaining data to advanced 3D visualization.

At the end of the sessions, there will be an interactive case session in which the audience is asked to participate. During these sessions, cases will be presented showing the potential and limitations of forensic postmortem radiology.

**WORKSHOPS**

*Pre-Registration Required — $250 w/registration; $300 workshop only*

**W25** Working Toward a Wellness Mindset for Forensic and Investigative Personnel: Addressing Stress and Trauma in the Workforce and Taking Steps to Change Agency and Professional Culture

**Tuesday**

February 18, 2020  
8:30 a.m. – 5:00 p.m.  
6.5 CE Hours

**Learning Overview:** After attending this workshop, attendees will understand and recognize how stress and trauma are tied to the forensic professions, including in the form of vicarious trauma, and how exposure to trauma and stress impacts an employee's personal and professional performance. Attendees will also learn evidence-based strategies to mitigate and reduce the impacts of stress and trauma, as well as learn from the experience of the anthropology program at the University of South Florida and the Maryland State Police's Crime Laboratory efforts to address stress and trauma. Attendees will be more aware of the various types of trauma that investigators and investigative personnel routinely encounter and the potential impacts this may have, not only on the individual, but on the investigation and/or service provision. This workshop builds upon and expands the content of the half-day workshop presented at the American Academy of Forensic Sciences Annual Scientific Meeting in 2019. Paths forward and the implementation and incorporation of Evidence-Based Policy (EBP) will also be addressed so attendees can examine what policies and assistance are available in their own agencies or assist in policy development. This workshop will address concerns related to both line-level and supervisory personnel.

**Impact on the Forensic Science Community:** This workshop will impact the forensic science community by providing attendees with the understanding that the human experience is variable, and trauma exposure and symptoms even more so, leading to behavior patterns that can be complex and abstract and by recognizing the manifestations of a variety of psychological—both behavioral and cognitive—impacts as a reaction to trauma and stress exposure on the job. This workshop will also address the concept of trauma-informed agencies, ensuring that appropriate resources are available to employees, focusing on evidence-based interventions. By attending this workshop, attendees will be better equipped to understand the potentially short- and long-term impacts of trauma, as well as how to adapt investigative approaches and provide resources that will lead to increased chances of not only a positive work environment, but likely a more efficient and cost-effective solution to maintaining employee health and well-being to avoid burn-out and decreased cognitive abilities that may impact service provision and job performance.

**Chair:**
Amanda L. Farrell, PhD  
Marymount University  
Arlington, VA

**Co-Chair:**
Jonathan D. Bethard, PhD  
University of South Florida  
Tampa, FL

**Faculty:**
Timothy J. Ainger, PhD  
University of Kentucky  
Lexington, KY

Daniel E. Katz, MFS  
Maryland State Police Forensic Sciences Division  
Pikesville, MD

Lurena A. Huffman, BS  
Houston Forensic Science Center  
Houston, TX

Christopher J. Scallon, MS  
Norfolk Police Department  
Norfolk, VA

**Targeted Audience:** All Disciplines

**Knowledge Level Required:** Basic (little to no knowledge of subject presented)

**Expected Handout Length:** 60 Pages
Program Description: This workshop will aid attendees in identifying factors associated with these needs and their expression, particularly with regard to identifying “problem behaviors,” and detecting the symptoms of post-traumatic exposure, in addition to identifying and implementing empirically supported strategies for proper identification and management of cognitive concerns. Attendees will be exposed to a wide array of behaviors, as well as to how these behaviors can be identified and addressed. Topical discussions will be further supported by case studies and videos.

Program:

8:30 a.m. - 8:40 a.m. Welcome
Amanda L. Farrell, PhD; Jonathan D. Bethard, PhD; Lurena A. Huffman, BS

8:40 a.m. - 9:00 a.m. Introduction: Context, Approach, and Panel
Amanda L. Farrell, PhD

9:00 a.m. - 10:00 a.m. Stress, Trauma, and Their Impact on Forensic Professionals
Amanda L. Farrell, PhD; Timothy J. Ainger, PhD; Christopher J. Scallon, MS

10:00 a.m. - 10:15 a.m. Break

10:15 a.m. - 11:00 a.m. Cognitive and Long-Term Impacts of Trauma
Timothy J. Ainger, PhD

11:00 a.m. - 11:45 a.m. Addressing Vicarious Trauma and Becoming a Trauma-Informed Agency
Christopher J. Scallon, MS

11:45 a.m. - 12:00 p.m. Moderated Discussion/Questions and Answers
Lurena A. Huffman, BS

12:00 p.m. - 1:30 p.m. Lunch

1:30 p.m. - 2:45 p.m. Learning From Examples
Jonathan D. Bethard, PhD; Daniel E. Katz, MFS

2:45 p.m. - 3:00 p.m. Break

3:00 p.m. - 4:30 p.m. Evidence-Based Strategies and Interventions
Amanda L. Farrell, PhD; Timothy J. Ainger, PhD; Christopher J. Scallon, MS

4:30 p.m. - 5:00 p.m. Moderated Discussion/Questions and Answers
Lurena A. Huffman, BS
**WORKSHOPS**

*Pre-Registration Required — $100 w/registration; $125 workshop only*

**W26**  
**Overcoming Analytical Challenges Inherent in New Psychoactive Substances With Gas Chromatography Coupled With Vapor Phase Infrared Detection (GC-IRD)**

**Tuesday**

February 18, 2020  
1:00 p.m. – 5:00 p.m.  
3.75 CE Hours

**Learning Overview:** The goals of this presentation are to obtain: (1) a more comprehensive awareness and understanding of the analytical challenges inherent in the analysis of novel and emerging drugs; (2) an overview and better understanding of the role of GC-IRD applications in the analysis of seized drugs; and (3) knowledge and tools for the optimization of GC-IRD methodology for the analysis of opioids, synthetic cathinones, and synthetic cannabinoids.

**Impact on the Forensic Science Community:** This presentation will impact the forensic science community by informing attendees that GC-IRD is a useful alternative for the rapid detection and identification of novel substances when routine analytical techniques yield limited information.

**Chair:**  
*Agnes D. Winokur, MS*  
Drug Enforcement Administration/Southeast Laboratory  
Miami, FL

**Co-Chair:**  
*Reta Newman, MA*  
Pinellas County Forensic Lab  
Largo, FL

**Faculty:**  
*Jose R. Almirall, PhD*  
Florida International University  
Department of Chemistry  
Miami, FL

*Randall Clark, PhD*  
Auburn University  
School of Pharmacy  
Auburn, AL

**Targeted Audience:** Criminalistics, General  
**Knowledge Level Required:** Basic (little to no knowledge of subject presented)  
**Expected Handout Length:** 50 Pages

**Program Description:** This program will be broken down into three main sections. Section 1 will address the struggles that forensic scientists are experiencing in their ability to detect and identify new psychoactive substances. Section 2 will focus on the theory and on demonstrating how the role of GC-IRD methodologies are increasing the capabilities of forensic laboratories. The last section will illustrate how GC-IRD applications and modern technological advances can facilitate the rapid analysis of opioids, synthetic cathinones, and synthetic cannabinoids.
WORKSHOPS

Pre-Registration Required — $100 w/registration; $125 workshop only

W26 Overcoming Analytical Challenges Inherent in New Psychoactive Substances With Gas Chromatography Coupled With Vapor Phase Infrared Detection (GC-IRD)

Program:

1:00 p.m. - 1:05 p.m.  Introductions
                      Agnes D. Winokur, MS

1:05 p.m. - 1:25 p.m.  An Overview of GC/IR
                      Reta Newman, MA

1:25 p.m. - 1:50 p.m.  Struggles in the Detection and Identification of New Psychoactive Substances
                      Agnes D. Winokur, MS

1:50 p.m. - 2:05 p.m.  An Introduction to Isomerism in Synthetic Drugs
                      Randall Clark, PhD

2:05 p.m. - 2:30 p.m.  Case Studies: Synthetic Cathinones and Cannabinoids
                      Reta Newman, MA

2:30 p.m. - 2:45 p.m.  Break

2:45 p.m. - 3:35 p.m.  A Comparison of Electron Ionization/Mass Spectrometry (EI/MS) and Vapor Phase IR in Cannabinoids, Cathinones, and NBOMe Drugs
                      Randall Clark, PhD

3:35 p.m. - 4:00 p.m.  Differentiation of Fentanyl Analogs Using GC-IRD
                      Agnes D. Winokur, MS

4:00 p.m. - 4:25 p.m.  Fentanyl Database
                      Jose R. Almirall, PhD

4:25 p.m. - 4:45 p.m.  Planning and Coordination of Inter-Laboratory Studies to Reach Consensus-Based Standards
                      Jose R. Almirall, PhD

4:45 p.m. - 5:00 p.m.  Questions and Answers
                      Agnes D. Winokur, MS; Reta Newman, MA; Randall Clark, PhD
# AMERICAN SOCIETY OF FORENSIC ODONTOLOGY

## 50th Annual Scientific Session

Registration for this session can be found at www.ASFO.org

  Jan Westberry, DMD; Armin A. Farid, DMD; Mark L. Bernstein, DDS; Amber D. Riley, MS; Richard H. Fixott, DDS |
The National Institute of Justice (NIJ) Forensic Science R&D Symposium is an open meeting where attendees can learn about NIJ-funded research across a variety of forensic science areas. AAFS meeting registration is not necessary. Feel free to stop by and listen to specific presentations or stay all day and learn about the diverse NIJ forensic science R&D portfolio.

Information will be available at www.forensicCOE.org.

**Program:**

8:30 a.m. - 8:40 a.m.  **Welcome and Opening Remarks**

**Morning Session I – Forensic Biology/DNA**  
*Moderator: Andrea M. Borchardt, MS*

8:40 a.m. - 9:05 a.m.  **Efficient Sequencing and Analysis of Degraded and Trace DNA Samples Using a Novel Targeted Ligation-Free Method (2017-DN-BX-0140)**  
*Jannine Forst*

9:05 a.m. - 9:30 a.m.  **Microhaplotypes: Moving Scientific Research to a Forensic Casework Panel (2018-75-CX-0041)**  
*Kenneth Kidd, PhD*

9:30 a.m. - 9:55 a.m.  **DNA Typing Strategies Via Real-Time Nanopore Sequencing for Forensic Analyses (2018-DU-BX-0179)**  
*Courtney L. Hall, BS*

9:55 a.m. - 10:20 a.m.  **The Development of Entire Mitogenome Reference Data Using an Automated High Throughput Sequencing Workflow (DJO-NIJ-17-RO-0219)**  
*Kimberly S. Andreaggi, MFS*

10:20 a.m. - 10:35 a.m.  **Break**

**Morning Session II – Controlled Substances and Toxicology**  
*Moderator: Frances Scott, PhD*

10:35 a.m. - 11:00 a.m.  **The Detection and Quantitation of Fentanyl Mixtures by Surface-Enhanced Raman Spectroscopy (SERS) and Chemometrics (2015-IJ-CX-K006)**  
*Ling Wang, MS*

*Jeremy Driskell*

11:25 a.m. - 11:50 a.m.  **Forty-Plus Ways Not to Analyze Beverages for Cannabinoids (2017-R2-CX-0029)**  
*Carl E. Wolf II, PhD*
Program cont.:

11:50 a.m. - 12:15 p.m. Investigating the Rise and Fall of Opioids Using Data Acquired by Liquid Chromatography/Time of Flight/Mass Spectrometry (2017-DN-BX-0169)  
Judith Rodriguez Salas, MS

12:15 p.m. - 1:35 p.m. Lunch

Afternoon Session I – Impression and Pattern Evidence/Trace Evidence
Moderator: Gregory Dutton, PhD

1:35 p.m. - 2:00 p.m. Quantitative Measures for Footwear Impression Comparisons (DJO-NIJ-17-RO-0202)  
Steven P. Lund, PhD

2:00 p.m. - 2:25 p.m. Testing the Accuracy and Reliability of Palmar Friction Ridge Comparisons: A Black Box Study (2017-DN-BX-0170)  
Heidi Eldridge, MS

Tatiana Trejos, PhD; Luis E. Arroyo PhD

2:50 p.m. - 3:15 p.m. Facilitating the Adoption of Glass Evidence Analyses in Forensic Laboratories (2015-DN-BX-K049)  
Jose R. Almirall, PhD

3:15 p.m. - 3:30 p.m. Break

Afternoon Session II – Forensic Anthropology and Forensic Pathology
Moderator: Danielle L. McLeod-Henning, MFS

3:30 p.m. - 3:55 p.m. Developing an Online Resource for Species Identification of Skeletal Remains (2018-DU-BX-0229)  
Heather M. Garvin, PhD

3:55 p.m. - 4:20 p.m. Development Responses to Fluctuating Temperatures of a Forensically Important Blow Fly (Cochliomyia Macellaria) (2016-DN-BX-0204)  
Travis Rusch

4:20 p.m. - 4:45 p.m. Understanding the Role of the Thanatomes BOTethe in the Decay of “Reproductive Organs” in Human Decomposition (2017-MU-MU-0042)  
Gulnaz T. Javan, PhD

4:45 p.m. - 5:10 p.m. Using Microbiome Tools to Estimate the Postmortem Interval of Human Remains (2015-DN-BX-K016)  
Jessica L. Metcalf, PhD
2020 Interim Scientific Program
Mass Fatality: Planning and Management

Tuesday

February 18, 2020     1:00 p.m. – 5:00 p.m.

This program will include a multidisciplinary panel discussion relative to mass fatality planning and management.

Program:

1:00 p.m. - 1:05 p.m.  Welcome and Introduction
                      Sally S. Aiken, MD, President, National Association of Medical Examiners

1:05 p.m. - 1:10 p.m.  Opening Remarks
                      Suzanne R. Utley, MDL

1:10 p.m. - 1:40 p.m.  National Missing and Unidentified Persons System (NamUs) for Critical Incidents
                      Emily A. Craig, PhD

1:40 p.m. - 2:10 p.m.  Calling an Audible: Continuity of Operations Planning (COOP) and Mass Fatality Incident (MFI) Planning
                      Shawn Wilson

2:10 p.m. - 2:40 p.m.  Mass Fatality Management—Preparation for a Complex Coordinated Attack (CCA)
                      Roger A. Mitchell, Jr.

2:40 p.m. - 2:50 p.m.  Break

2:50 p.m. - 3:20 p.m.  Planning, Partnerships, and Preparing for the Unexpected
                      Melanie Rouse, MS

3:20 p.m. - 3:50 p.m.  Flight 3407: A Commercial Airline Crash in Western New York
                      Katherine F. Maloney, MD

3:50 p.m. - 4:20 p.m.  Mass Fatality Preparedness—Lessons Learned From the October 1, 2017,
                      Shooting in Las Vegas
                      John Fudenberg, MBA

4:20 p.m. - 5:00 p.m.  Mass Fatality Planning and Aftermath: Panel Discussion
                      Sally S. Aiken, MD; Suzanne R. Utley, MD; Emily A. Craig, PhD; Shawn Wilson;
                      Roger A. Mitchell, Jr.; Melanie Rouse, MS; Katherine F. Maloney, MD; John Fudenberg, MBA

This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of MedChi, The Maryland State Medical Society, and the National Association of Medical Examiners. MedChi is accredited by the ACCME to provide continuing medical education for physicians. MedChi designates this live activity for a maximum of 3.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Continuing Education Administration Fee: There is an administrative charge ($75 pre-registration, $100 at the door registration) for persons wishing to receive this credit. It will be necessary for you to complete a program evaluation as well as pay the administrative fee to receive CME credit for this meeting.

Self-Assessment Module: The American Board of Pathology has deemed the National Association of Medical Examiners to be an approved provider of Self-Assessment Modules (SAMs) for the Life-Long Learning and Self-Assessment Requirement (Part II) for Maintenance of Certification in Forensic Pathology. This activity has been planned and implemented in accordance with those guidelines and qualify for a maximum of 3.5 hours of SAMs. There is an administrative charge of $35 for Members and $105 for Non-Members.

Registration Fee: There is a registration fee of $150 for Members, $200 at the door and $200 for Non-Members, $250 at the door. Registrations are totally separate from the AAFS. Contact Denise McNally at 660-734-1891 or email name@thename.org to receive a registration form.
HUMANITARIAN AND HUMAN RIGHTS RESOURCE CENTER

Poster Session

American Academy of Forensic Sciences 72nd Annual Scientific Meeting

Pre-Registration Not Required — Open to All Meeting Attendees

Tuesday

February 18, 2020 6:00 p.m. – 8:00 p.m.

The Humanitarian and Human Rights Resource Center (HHRRC) of the American Academy of Forensic Sciences (AAFS), with support from the National Institute of Justice’s Forensic Technology Center of Excellence, provides needed resources and support to apply modern forensic science to global humanitarian and human rights projects. This Humanitarian and Human Rights Poster Session is an open meeting where attendees can meet our HHRRC researchers and learn about the application of forensic science to investigate humanitarian and human rights injustices.

Information will be available at www.forensicCOE.org.

Program:

6:00 p.m. - 8:00 p.m.

Urban Scavenging of Skeletal Remains by the Slender Mongoose (Galerella Sanguinea) in Johannesburg, South Africa
Craig A. Keyes, MS; Jolandie Myburgh, MSc; Desiré Brits, PhD

6:00 p.m. - 8:00 p.m.

Application of Stable Isotopes for Geolocating Unidentified Border Crossers From the Texas-Mexico Border
Eric J. Bartelink, PhD; Sarah A. Hall, MA; Samuel A. Mijal, BS; Vanessa C. Reeves, BA; Alina Tichinin

6:00 p.m. - 8:00 p.m.

Building Forensic Capacity in Post-Conflict Uganda
Hugh H. Tuller, MA; Paul D. Emanovsky, PhD; Jaymelee Kim, PhD; Dawnie W. Steadman, PhD

6:00 p.m. - 8:00 p.m.

Scene Documentation for Human Rights Investigators
Tal Simmons, PhD; Scott Edwards, PhD

6:00 p.m. - 8:00 p.m.

Humanitarian Forensic Action for Resolving and Preventing the Missing
Morris V. Tidball-Binz, MD

6:00 p.m. - 8:00 p.m.

Strategies for the Identification of Migrants in the Mediterranean: The Shipwreck of April 18, 2015
Cristina Cattaneo, PhD; Debora Mazzarelli, BS; Giulia Caccia, BSc; Danilo De Angelis, DDS; Annalisa Cappella, PhD; Pasquale Poppa, BS; Douglas H. Ubelaker, PhD; Luca Sconfienza, MD; Zuzana Obertova, PhD; Richard Jantz, PhD; Stephen D. Ousley, PhD; Laura Manthey, MD; Tony Fracasso, MD; Lucie Biehler-Gomez; Barbara Bertoglio, BSc; Carlo Previderé, PhD; Morris V. Tidball-Binz, MD; José P. Baraybar, MSc, PhD; Oran Finegan, MSc; Rossella Di Liberto; Federica Giannotta; Giuliana Perrotta, MA

Moderator:
Douglas H. Ubelaker, PhD
Smithsonian National Museum of Natural History
Washington, DC

Co-Moderator:
Jeri D. Ropero-Miller, PhD
RTI International
Research Triangle Park, NC
Program cont.:

6:00 p.m. - 8:00 p.m.
Using Environmental and Archaeological Samples to Build Forensic Isoscales of the Peruvian Andes: Paths Forward for Identifying Victims From the Time of Violence in Peru (1980–1990s)
Beth K. Scaffidi, PhD; Gwyneth W. Gordon, PhD; Roberto C. Parra, MA; Kelly Knudson, PhD; Martha R. Palma Malaga, MG; Tiffiny A. Tung, PhD

6:00 p.m. - 8:00 p.m.
Isotopes and Isoscales: Their Potential and Limitations in Aiding the Identification Process of Undocumented Border Crossers From Mexico
Saskia Ammer, MSc

6:00 p.m. - 8:00 p.m.
A Protocol Validation of Qualitative and Quantitative Methods and Its Application in Forensic Anthropology: A Pilot Study
Cláudia Regina Plens, PhD

6:00 p.m. - 8:00 p.m.
The Humanitarian and Human Rights Crisis in South Texas Exemplified Through the Tres Norias Cemetery
Kate Spradley, PhD; Timothy P. Gocha, PhD; Chloe P. McDaneld, MA; Courtney C. Siegert, MA

6:00 p.m. - 8:00 p.m.
The Detection of Chemical Weapon Nerve Agents in Bone: Expanding the Post-Incident Interval for Verifying Nerve Agent Exposure Using Biomatrices
Katie M. Rubin, PhD; Bruce A. Goldberger, PhD

NOTE: Additional posters on humanitarian and human rights will be invited to exhibit during the session.
Due to potential changes in the program, the AAFS encourages you to access the most up-to-date schedule on the AAFS website at www.aafs.org.

*Presenting Author*
11:30 a.m. - 1:00 p.m. A13 Crossing the Borders of Linguistics, Ancestry, and Race in the Field of Forensic Anthropology
Alba E. Craig, BA*; Krista E. Latham, PhD

11:30 a.m. - 1:00 p.m. A14 The Use of Eye Tracking Technology in Forensic Anthropology: An Empirical Approach to Advancing the Understanding of Complex Visual Tasks in Cranial Macromorphoscopic Trait Evaluations
Sherry Nakhaeizadeh *; Micayla C. Spiros, MS; Joseph T. Hefner, PhD; Tim Thompson, PhD; Ruth M. Morgan, PhD

11:30 a.m. - 1:00 p.m. A15 Eye Tracking to Assess Decision-Making in Cranial Macromorphoscopic (MMS) Trait Evaluation: Implications of Education and Training in Method Application
Micayla C. Spiros, MS*; Sherry Nakhaeizadeh; Ruth M. Morgan, PhD; Tim Thompson, PhD; Joseph T. Hefner, PhD

11:30 a.m. - 1:00 p.m. A16 Metric and Non-Metric Ancestry Evaluation Analysis of the Craniofacial Region in Greek-Cypriots: A Pilot Study
Madyson R. Stephenson*; Anna S. La Valley, MS; Xenia P. Kyriakou, MA

11:30 a.m. - 1:00 p.m. A17 Craniocerebral Modularity and Integration: Implications for Ancestry Assessment
Janet E. Finlayson, MA*; Michala K. Stock, PhD

11:30 a.m. - 1:00 p.m. A18 Re-Evaluating Skeletal Ancestry Traits Using Three-Dimensional Technology
Elisabeth Cuerrier-Richer, MSc*; Tracy Rogers, PhD

11:30 a.m. - 1:00 p.m. A19 A Comparison of Two Data Collection Methods for the (hu)MANid Program on a Diverse Sample of Mandibles
Paige A. Lynch, MS*; Luis L. Cabo, MS

11:30 a.m. - 1:00 p.m. A20 Craniometric Variation and FORDISC® Misclassification in Latin American and Asian Individuals
Miriam Rangel, BS*; Kanya Godde, PhD*

11:30 a.m. - 1:00 p.m. A21 Geographic Origin Estimation of Latin American Individuals Using Craniometric Data
Kari Holgeson, MA*; Kate Spradley, PhD

11:30 a.m. - 1:00 p.m. A22 The Impact of Error in Femur Subtrochanteric Measurements on the Assessment of Population Affinity
Briana T. New, MA*; Emily S. Silverman, MA; Sabrina C. Tālāla, MA

11:30 a.m. - 1:00 p.m. A23 Odontometric Variation of Male Skeletal Samples From the United States and South Africa
Dori E. Kenessey, BA*; Tatiana Vlemingq-Mendieta, MS; G. Richard Scott, PhD; Marin A. Pilloud, PhD

11:30 a.m. - 1:00 p.m. A24 Influence of Ancestry on Sexual Dimorphism in the Human Mandibular Canine
Britney L. Blevins, MA*

11:30 a.m. - 1:00 p.m. A25 Human Trafficking: A Challenging Case of Age Assessment
Greta Cena, MD*; Caterina Bosco, MD; Luana Bonaccursio, MD*; Davide Santovito, MD; Sara S. Racalbuto, PsyD; Elena Copo, MD; Giancarlo Di Vella, MD, PhD*
ANTHROPOLOGY

11:30 a.m. - 1:00 p.m.  A26  Age-Old Problems: Using the Pars Basilaris to Estimate Age-At-Death in Non-Adult Individuals  
Claire M. Hodson, PhD*; Rebecca Gowland, PhD

11:30 a.m. - 1:00 p.m.  A27  Why Cranial Sutures Should be Included in Adult Age-At-Death Estimates  
Jessica L. Campbell, PhD*; Stephen P. Nawrocki, PhD

11:30 a.m. - 1:00 p.m.  A28  A Comparison of Two Dental Age Estimation Methods Using Transition Analysis (TA)  
Kelly R. Kamnikar, MA*; Amber M. Plemmons, MA; Nicholas P. Herrmann, PhD; 
Jennifer E. Spence, PhD; Yann Heuzé, PhD; Joseph T. Hefner, PhD

11:30 a.m. - 1:00 p.m.  A29  The Ability to Obtain Full DNA Profiles From Nail Clippings After Long-Term Storage at Room Temperature Could Impact the Process of Human Identification  
Jonah W.P. Stone, BS*; Krista E. Latham, PhD; Cynthia Cale, MS; Stephen P. Nawrocki, PhD; 
Gay L. Bush, PhD

11:30 a.m. - 1:00 p.m.  A30  The Applicability of Intralimb Indices in the Subadult Biological Profile  
Elaine Y. Chu, MA*; Kyra E. Stull, PhD

11:30 a.m. - 1:00 p.m.  A31  The Application of Non-Destructive Dental Age Estimation (DAE) Methods Using Root Translucency on Latin American Hispanics  
Melinda V. Rogers, BS*; Nicholas P. Herrmann, PhD; Kate Spradley, PhD; 
James P. Fancher, DDS, PhD

11:30 a.m. - 1:00 p.m.  A32  Reevaluating the Use of Percentage of Bone for Histological Age Estimations  
Mariam E. Moe, MA*; Timothy P. Gocha, PhD

Thursday—Session I

Search and Recovery Protocols and Identification of Victims in Wildfires: Multidisciplinary Perspectives

### Moderator: Alison Galloway, PhD  
University of California  
Santa Cruz, CA

### Co-Moderator: Angela L. Harden, MA  
The Ohio State University  
Columbus, OH

8:30 a.m. - 8:45 a.m.  A33  An Overview of the Camp Fire and Wildfire Situation in the West  
Colleen F. Milligan, PhD*; Ashley E. Kendell, PhD; Alison Galloway, PhD

8:45 a.m. - 9:00 a.m.  A34  Butte County’s Response to the 2018 California Camp Fire  
Jennifer Celentano*

9:00 a.m. - 9:15 a.m.  A35  Search and Recovery Protocols for Fatal Fire Victims of the 2018 California Camp Fire  
Eric J. Bartelink, PhD*; Ashley E. Kendell, PhD; Jacqueline L. Galimany, BS; 
Karen Gardner, MA; Leigh Hayes; Casey A. Hegel, BA; Vanessa C. Reeves, BA; 
Alyssa Straub, BA; Maura Timmons, BS; Leah Tray, BA

9:15 a.m. - 9:30 a.m.  A36  Forensic Pathology, Identification, Morgue Operations, and Management of the Camp Fire Victims  
Kimbelry D. Gin*; Kathy Raven, MD*
ANTHROPOLOGY

9:30 a.m. - 9:45 a.m. A37 Wildfire Search, Recovery, and Identification of Victims: Post-Recovery Anthropological Analysis and Identification
Lauren Zephro, PhD*; Alison Galloway, PhD

9:45 a.m. - 10:00 a.m. A38 Wildfire Search Protocols and Victim Recovery
Richard Selden, MD*; Rosemary Turingan Witkowski

10:00 a.m. - 10:15 a.m. Break

10:15 a.m. - 10:30 a.m. A39 Outside Agency Response to the California Camp Fire
Timothy P. Gocha, PhD*; Kyra E. Stull, PhD*; Marin A. Pilloud, PhD

10:30 a.m. - 10:45 a.m. A40 Demography of the Camp Fire Fatalities
Samuel A. Mijal, BS*; P. Willey, PhD

10:45 a.m. - 11:00 a.m. A41 Locational Analysis of the Camp Fire Fatalities in Communities and Residences
Casey A. Hegel, BA*; Samual A. Mijal, BS

11:00 a.m. - 11:15 a.m. A42 Anthropology and Mass Fatality Management in Wildfire Disasters
Colleen M. Cheverko, PhD*; Colleen F. Milligan, PhD; Melanie M. Beasley, PhD; Lisa N. Bright, PhD; Shannon J. Clinkinbeard, BA; Leigh Hayes; Jessica Hotaling, BA; Mallory J. Peters, MA; Julia R. Prince-Buitenhuys, MA

11:15 a.m. - 11:30 a.m. Discussion
Ashley Kendell, PhD

11:30 a.m. - 12:45 p.m. Lunch

Poster Session

11:30 a.m. - 1:00 p.m. A43 The Infant Injury Database
Miriam E. Soto Martinez, PhD*; Jason M. Wiersema, PhD; Deborrah C. Pinto, PhD; Julie M. Fleischman, PhD; Christian Crowder, PhD; Jennifer C. Love, PhD; Sharon M. Derrick, PhD; Christopher S. Greeley, MD; Marcella Donaruma-Kwoh, MD; Angela Bachim, MD

11:30 a.m. - 1:00 p.m. A44 Pediatric Posterior Rib Terminus Defects: An Investigation of a Potential Mimic of Traumatic Injury
Jason M. Wiersema, PhD*; Miriam E. Soto Martinez, PhD; Deborrah C. Pinto, PhD; Julie M. Fleischman, PhD; Dwayne A. Wolf, MD, PhD; Aubrie M. Sanchez, MS, MPH

11:30 a.m. - 1:00 p.m. A45 Evaluating Bone Fracture Healing and Variability Across Forensic Samples Using an Anabolic/Catabolic Model of Bone Repair
Donna C. Boyd, PhD*

11:30 a.m. - 1:00 p.m. A46 Anthropological Examinations of the Hyoid, Thyroid Cartilage, and Cricoid Cartilage in Cases of Possible Neck Trauma
Christopher W. Rainwater, MS*; Esther H. Choo, BA

11:30 a.m. - 1:00 p.m. A47 Utilizing Reflectance Transformation Imaging (RTI) for the Analysis of Saw Mark Characteristics on Kerf Walls: A Comparison of Traditional Imaging Techniques
Britny Martlin*; Carolyn Rando, PhD

*Presenting Author
11:30 a.m. - 1:00 p.m.  A48 Micro-Computed Tomography (micro-CT) Analysis of False Starts on Bones After Prolonged Exposure to Fire: An Experimental Study
Giovanni Cecchetto, MD, PhD*; Chiara Giraudo, MD; Ludovico Fava, MD; Chiara Vignotto, MD; Marco Biseglia, MD; Amalia Lupi, MD; Paolo Fais, PhD; Massimo Montisci, PhD

11:30 a.m. - 1:00 p.m.  A49 Dehydration-Induced Quantitative Morphometric Alterations to Sharp Force Trauma on Bones
Taylor M. Flaherty, BS*; Carolyn Rando, PhD; Rebecca Watts, PhD

11:30 a.m. - 1:00 p.m.  A50 Fracture Patterns Associated With an Airplane Propeller Strike: A Case From the West Tennessee Regional Forensic Center
Jenna M.S. Watson, MA*; Benjamin J. Figura, PhD

11:30 a.m. - 1:00 p.m.  A51 A Survey of Peri-Mortem Vertebral Trauma in Historic Cases
Andrea Palmiotto, PhD; Brittany S. Walter, PhD*; Larkin F. Kennedy, PhD; Emily R. Streetman, PhD

11:30 a.m. - 1:00 p.m.  A52 Prediction of Bullet Type From Cranial Gunshot Trauma
Elizabeth A. DiGangi, PhD*; Tessa Somogyi, MA*; Elizabeth A. Evangelou, MA*; Gary D. James, PhD

11:30 a.m. - 1:00 p.m.  A53 Atypical Gunshot Wounds in a Controlled Experiment
Elizabeth A. Evangelou, MA*; Tessa Somogyi, MA*; Kevin E. Sheridan, PhD; Elizabeth A. DiGangi, PhD

11:30 a.m. - 1:00 p.m.  A54 Radiographic Evidence of Gunshot Defects in Skeletal Remains: A Preliminary Study
Naomi S. Levin, BA*

11:30 a.m. - 1:00 p.m.  A55 Fracture Pattern of Midface Ballistic Trauma
Casey File, MS*; Deborrah C. Pinto, PhD*; Si Gao, MS; Jason M. Wiersema, PhD; Julie M. Fleischman, PhD; Miriam E. Soto Martinez, PhD

11:30 a.m. - 1:00 p.m.  A56 The Effects of Diabetes Mellitus (DM) on Bone Fracture Susceptibility and Repair With Applications to Non-Accidental Forensic Fracture Interpretation
Donna C. Boyd, PhD; Sadie R. Friend*

11:30 a.m. - 1:00 p.m.  A57 The Reliability of Morphoscopic Data From 3D Surface Scans
Sarah Schwing, BA, BS*

11:30 a.m. - 1:00 p.m.  A58 Experimental Assessment of the Surface Quality of 3D Printed Bones for Evaluative Interpretation in Forensic Anthropology Reconstructions
Rachael M. Carew, MSc*; Ruth M. Morgan, PhD; Carolyn Rando, PhD

11:30 a.m. - 1:00 p.m.  A59 Investigating the Impact of Opioid Abuse on Intracortical Porosity and Bone Cellular Density: A Synchrotron-Radiation Micro-Computed Tomography (SRμCT) Approach
Janna M. Andronowski, PhD*; Reed A. Davis, MS; Mary E. Cole, PhD

11:30 a.m. - 1:00 p.m.  A60 Oh Deer! Detecting Non-Human Skeletal Remains Using Bone Collagen Fingerprinting
Dana Austin, PhD*; Miranda M. Ehlers, BS*

11:30 a.m. - 1:00 p.m.  A61 Investigating the Predictive Relationships Between Oxygen and Hydrogen Isotopes in Bottled Water and Human Hair in Mexican Populations
Chelsey A. Juarez, PhD*; Belinda S. Akpa, PhD

Issues Surrounding Human Rights and Migration

Moderator: Krista E. Latham, PhD
University of Indianapolis
Indianapolis, IN

Co-Moderator: Brittany S. Walter, PhD
Defense POW/MIA Accounting Agency
Identification Laboratory
Offutt Air Force Base, NE

12:45 p.m. - 1:00 p.m.  A75  Comparing Dental Indicators of Developmental Stress in Unidentified Migrant Remains to Narratives From Living Migrants: A Cross-Disciplinary Approach
Lauren G. Koutlias, MA*; Michelle D. Hamilton, PhD; Diana Newberry, MA; Nicholas P. Herrmann, PhD; Kate Spradley, PhD

1:00 p.m. - 1:15 p.m.  A76  Impacts of Biosocial Environment on Developmental Plasticity Among Unidentified Presumed Migrant Skeletal Remains Recovered Along the United States-Mexico Border
Caroline Znachko, MA*; Michelle D. Hamilton, PhD; Bruce E. Anderson, PhD; Kate Spradley, PhD; James Watson, PhD

1:15 p.m. - 1:30 p.m.  A77  The Use of Paid Informants in Post-Conflict Human Rights Contexts
Hugh H. Tuller, MA*; Popi Chrysostomou, MSc

1:30 p.m. - 1:45 p.m.  A78  The Use of an Integrated Multidisciplinary Approach to Resolve Non-Identified Human Skeletal Remains in Cyprus
Aikaterini Papaiannou, MS*; Popi Chrysostomou, MSc; Galbanu K. Zorba, MS; Mine Balman, MS

1:45 p.m. - 2:00 p.m.  A79  What Happens to Unidentified or Unclaimed Human Remains Within the Contexts of Five Asian Medicolegal Systems?
Sherry C. Fox, PhD*; Laurel Clegg, MSc; Lay See Khoo, PhD; Rijen Shrestha, MD; Alex Starkie; Panjai Woharndee, MD, PhD

2:00 p.m. - 2:15 p.m.  A80  Antemortem Data Collection in West Africa as Part of the Effort to Identify Deceased Migrants: A Humanitarian Dilemma
Laurel Clegg, MSc*; Carolina Pagnini, MD; Derek C. Benedix, PhD; Ivett Kovari, PhD; Bilal Sabelloah, MD; Jose P. Baraybar, MSc, PhD

2:15 p.m. - 2:30 p.m.  Break

Diversity and Inclusion Symposium—Humanitarian Concerns in Migration: Conflict, Climate, and Ethics

Moderator: Martha Nuño Diaz, MA
University of California, Berkeley
Davis, CA

Co-Moderator: Davette N. Gadison, MA
Tulane University
Department of Anthropology
New Orleans, LA

2:30 p.m. - 2:45 p.m.  A81  Climate, Conflict, and Migration—Applications of Forensic Science to Address Humanitarian Issues in a Growingly Complex Global Environment
Oran Finegan, MSc*; Pierre M.M. Gayomarc'h, PhD; Davette N. Gadison, MA

2:45 p.m. - 3:00 p.m.  A82  Crossing Borders: Conflict Evolution and Climate Change—The Humanitarian Consequences on Human Migration
Sarah Wagner*

**Thursday—Session II**

Taphonomy and Postmortem Interval

**Moderator:** Joan A. Bytheway, PhD  
Sam Houston State University  
Huntsville, TX

**Co-Moderator:** Summer J. Decker, PhD  
University of South Florida  
Department of Radiology  
Morsani College of Medicine  
Tampa, FL

8:30 a.m. - 8:45 a.m.  **A92** The Detection and Characterization of Human Decomposition Products by Infrared Spectroscopy  
Afrin Lopa, MS*; Liotta N. Dowdy, MA; David S. Perry, PhD; Timothy Matney, PhD; Linda R. Barrett, PhD; Erin H. Kimmerle, PhD

8:45 a.m. - 9:00 a.m.  **A93** Geographic Information Software (GIS) Application for Building a Nationally Representative Forensic Taphonomy Database  
Katherine E. Weisensee, PhD*; Blake Lytle, MS; Patricia Carbajales, MS; Anne Shillinglaw, BS

9:00 a.m. - 9:15 a.m.  **A94** Why Hasn't the United Kingdom Got a Human Taphonomy Facility (HTF) Yet?  
Anna Williams, PhD*; Chris Rogers, PhD; John P. Cassella, PhD

9:15 a.m. - 9:30 a.m.  **A95** Changes in the Cadaver Decomposition Island (CDI) and Soil Chemistry: An 18-Month Time Series for Scavenged and Protected Human Cadavers  
Jacqueline A. Aitkenhead-Peterson, PhD*; Haeli Kennedy; Jasmine Garcia; Joan A. Bytheway, PhD

9:30 a.m. - 9:45 a.m.  **A96** The Importance of Taphonomic History When Conducting Histological and Isotopic Analyses on Bone  
Rebecca Reid, MSc*; Miranda Jans, PhD; Lesley A. Chesson, MS; Rebecca J. Wilson-Taylor, PhD; Gregory E. Berg, PhD

9:45 a.m. - 10:00 a.m.  **A97** Prediction of Minimum Postmortem Submersion Interval (PMSI \textit{min}) Based on Eukaryotic Community Succession on Skeletal Remains Recovered From an Aquatic Environment  
Sala D. Randall, BS*; Claire M. Cartozzo, MS; Tal Simmons, PhD; Jenise Swall, PhD; Baneshwar Singh, PhD

10:00 a.m. - 10:30 a.m.  **Break**

Data-Driven Strategies for Investigating the Deaths of Missing Migrants

**Moderator:** Kate Spradley, PhD  
Texas State University  
San Marcos, TX

**Co-Moderator:** Donovan M. Adams, MS  
University of Nevada, Reno  
Reno, NV

10:30 a.m. - 10:45 a.m.  **A98** Quantifying Missing Migrant Antemortem Data and Their Identification Significance  
Mercedes Doretti, MA*; Carmen E. Osorno Solis; Karla Hernandez Mares, MA; Laura Eliz Alexa Sevilla Maldonado; Rachel Daniell, MPhil

*Presenting Author
ANTHROPOLOGY

10:45 a.m. - 11:00 a.m. A99 DNA Identifications of Migrant Remains at the Pima County, Arizona, Office of the Medical Examiner (2000-2019)
Caitlin C. M. Vogelsberg, PhD*; Robin C. Reineke, PhD; Mirza M. Monterroso, MA; Jennifer M. Vollner, PhD; Bruce E. Anderson, PhD

11:00 a.m. - 11:15 a.m. A100 Investigating Unidentified Migrant Remains Across Texas Jurisdictions: An Analysis of Positive Identifications by Operation Identification at Texas State University
Molly A. Kaplan, BA*; Molly Miranker, MA; Kate Spradley, PhD; Courtney C. Siegert, MA; Chloe P. McDaneld, MA

11:15 a.m. - 11:30 a.m. A101 The Application of Geographic Information Systems (GIS) to the Migrant Crisis in South Texas: Modeling Migration in Brooks County, Texas
Courtney C. Siegert, MA*; Sophia Mavroudas, MA; Devora S. Gleiber, MA; Nicholas P. Herrmann, PhD; Kate Spradley, PhD

11:30 a.m. - 11:45 a.m. A102 NamUs Location Data: Cluster Analysis of Migrant Deaths at the Texas-Mexico Border From 1990 to 2017
Molly Miranker, MA*; Alberto Giordano, PhD

11:45 a.m. - 12:00 p.m. Discussion
Dawnie Wolfe Steadman, PhD

12:00 p.m. - 1:00 p.m. Lunch

Puerto Rico: Crossing Regional, Discipline, and Cultural Borders to Strengthen a Criminal Justice System

Moderator: Matthew J. Gamette, MS
Idaho State Police Forensic Services
Meridian, ID

Co-Moderator: Katie M. Rubin, PhD
Defense POW/MIA Accounting Agency
Joint Base Pearl Harbor-Hickam, HI

1:00 p.m. - 1:15 p.m. A103 Operational and Leadership Assessment During the Puerto Rico Forensic Science Project: How the American Society of Crime Laboratory Directors (ASCLD) Lab Directors and Forensic Scientists Assisted the Puerto Rico Laboratory After Hurricane Maria
Matthew J. Gamette, MS*; Amie Ely, JD*

1:15 p.m. - 1:30 p.m. A104 Puerto Rico Forensic Science Project: The Puerto Rico Forensic Services Perspective
Matthew J. Gamette, MS; Beatrice Zayas, PhD*

1:30 p.m. - 1:45 p.m. A105 Infrastructure, Organization, and Challenges of the Puerto Rico Medical Examiner System
Danny A. Milner, Jr., MD, MSc*

1:45 p.m. - 2:00 p.m. A106 Decedent Tracking: A Need for an Accurate Headcount in the Medical Examiner's Office
Jennifer C. Love, PhD*

2:00 p.m. - 2:15 p.m. A107 Challenges and Lessons Learned From Having an External Expert Step Into the DNA Laboratory
Ray Wickenheiser, DPS*; Mariel Candelario Gorbea, MSFS*

2:15 p.m. - 2:30 p.m. A108 The American Board of Forensic Anthropology (ABFA) Response to the Puerto Rico Bureau of Forensic Sciences (BFS): Partnering With the National Association of Attorney's General and the American Society of Crime Laboratory Directors
Dana Austin, PhD*; MariaTeresa A. Tersigni-Tarrant, PhD*

Thursday—Session I

Sample Collection

Moderator: Janine Kishbaugh, MS
Cedar Crest College
Allentown, PA

8:30 a.m. - 8:45 a.m. B32 Presumptive Test Compatibility With Efficient DNA Collection Swabs
Bruce Budowle, PhD*

8:45 a.m. - 9:00 a.m. B33 A Comparison of DNA Typing Success in Compromised Blood and Touch Samples Based on Sampling Swab Composition
Ciara Rhodes; Memunatu J. Koroma, BS; Brittany C. Hudson, MS; Nubaha Islam, BS; Haris Mukic, BS; Tracey Dawson Cruz, PhD; Robert A. Bever, PhD; Sarah J. Seashols Williams, PhD*

9:00 a.m. - 9:20 a.m. B34 A Comparison of DNA Profiles Recovered From Cotton Versus Nylon-Flocked Swabs From Postcoital Cervicovaginal Samples
Kathleen M. Maguire, BS*; Janine Kishbaugh, MS; Jillian Conte, PhD; Lawrence Quarino, PhD

Bondage Practices in an Asphyxiation Death: An Accidental Death
Alberto Alongi*; Elvira Ventura Spagnolo, MD*; Gennaro Baldino, MD*; Cristina Mondello, MD; Antonina Argo, PhD

The Characterization of Volatile Organic Compounds (VOCs) Present in the Headspace of Decomposing Livestock, Fish, and Human Remains
Jisook Min, PhD*; Youngwoong Han; Byohyun Kim; Young-Shin Go; Seh Yeon Park; Sangcheol Heo; Kiwook Kim, MS; Giwon Park

An Assessment of Elemental Homogeneity in Glass Using Micro-X-Ray Fluorescence Spectroscopy (µ-XRF) and Laser-Induced Breakdown Spectroscopy (LIBS)
Oriana Ovide*; Zachary B. Andrews*; Ruthmara Corzo, PhD; Tatiana Trejos, PhD

The Identification of the Polymer-Bounded Drugs on the Fabric Surface: A Challenge to the Forensic Drug Analysts
Shahnaz Akhtar, MPhil*; Abdul Razaq, MPhil*; Khalid S. Feras, MPhil*; Muhammad Irfan Ashiq, PhD*; Mohammad A. Tahir, PhD

The Influence of DNA Extraction Methods on the Quantity and Quality of Retained Genetic Material
Brian Kemp*; Kristine G. Beaty, PhD; Brittany L. Bingham, BA; Upuli A. DeSilva; Mary Faith Flores; Cara Monroe; Jodi Lynn Barta, PhD

Where, Oh Where, Has the DNA Gone?
Kristine G. Beaty, PhD*; Brittany L. Bingham, BA; Upuli A. DeSilva; Mary Faith Flores; Cara Monroe; Jodi Lynn Barta, PhD; Brian Kemp

Battling the Backlog: A Novel Bioanalytical System for the Separation and Collection of Intact Spermatozoa
Sarah Wright*; Norman Dovichi, PhD

Optimization of Speed-Vacuum Centrifugation as a Method of Sample Concentration for Successful Analysis of Low Template DNA Samples
Heather V. Milnthorp, MSFS*; Chandra Bagley, MSFS; Phillip Danielson, PhD; Heather E. McKiernan, PhD

The Application of Optical Trapping to Obtain Single-Source Short Tandem Repeat (STR) Profiles From Forensically Relevant Body Fluid Mixtures With Modified DNA Analysis Workflow
Benjamin J. O'Brien, BS*; Michael K. Valle, BS; Nicole A. Auka, MSFS; Tracey Dawson Cruz, PhD; Joseph E. Reiner, PhD; Sarah J. Seashols Williams, PhD
2:15 p.m. - 2:30 p.m.  B80  The Development and Automation of a Swab In-DNA Out Platform Using Dynamic Solid Phase Extraction (SPE)  
Leah M. Dignan, BS*; Kimberly Jackson; Michael Shane Woolf, MS; Christopher J. Tomley, BS; James P. Landers, PhD

2:30 p.m. - 2:45 p.m.  Break

Non-Human DNA

Moderator: Andrew J. Schweighardt, PhD  
Northport, NY  
Co-Moderator: Nasir A. Butt, PhD  
Cuyahoga County Medical Examiner’s Office  
Cleveland, OH

2:45 p.m. - 3:00 p.m.  B81  Developing Investigative Leads and Potential Evidence in Wildlife Crime: Consideration of Human DNA Recovery From Handled Eggs and Birds of Prey Feathers  
Katherine L. Wood, MS; Georgina E. Meakin, PhD*

3:00 p.m. - 3:15 p.m.  B82  Pyrosequencing-Based DNA Analysis for Species Identification  
Mirna S. Ghemrawi, MS*; Frank Fischinger, MS; Mark Guilliano, PhD; George T. Duncan, PhD; Bruce R. McCord, PhD

3:15 p.m. - 3:30 p.m.  B83  A Short Interspersed Nuclear Element (SINE) -Based Multiplex Quantitative Real-Time Polymerase Chain Reaction (qPCR) Assay for Human-Dog-Cat Species Identification and DNA Quantification  
James W. Liang, BS*; Heather G. Miller Coyle, PhD

3:30 p.m. - 3:50 p.m.  B84  Using Environmental DNA (eDNA) and Vertebrate Metabarcoding to Characterize Biological Communities: A New Method for Conservation Genetics and Wildlife Forensics  
Hillary L. Eaton, PhD*; Catherine E. Benson, PhD; Matthew J. Valente, MS; Courtney S. Turner-Rathbone, BS

3:50 p.m. - 4:05 p.m.  B85  Human Identity From the Mosquito Midgut Using GlobalFiler™ Express  
Mollie S. Comella*; Joann Butkus; Scott Lindner, PhD; Reena Roy, PhD

4:05 p.m. - 4:20 p.m.  B86  Signatures of Suicide in the Human Postmortem Microbiome  
Katelyn A. Smiles*; Jennifer L. Pechal, PhD; Carl J. Schmidt, MD; Heather R. Jordan, PhD; M. Eric Benbow, PhD

4:20 p.m. - 4:35 p.m.  B87  The Impact of Environmental Exposure and Chemical Contaminants on Microbial Signature Associated With Forensically Relevant Human Biological Samples  
Denise Wohlfahrt, BS*; Francy S. Nogales, BS; Raquel Green, BS; Najai Bradley; Kathleen D. Brim, BS; James P. Brooks, PhD; Sarah J. Seashols Williams, PhD; Baneshwar Singh, PhD

4:35 p.m. - 4:55 p.m.  B88  A Multidisciplinary Effort to Identify the Cat Killer of Silicon Valley  
Jeremiah Garrido, BS*; Christina D. Lindquist, MS*; Michelle L. Bell, BA*

4:55 p.m. - 5:10 p.m.  Discussion

*Presenting Author
### Multidisciplinary Session: Criminalistics II & Engineering & Applied Sciences

Claire J. Page*; Ryan Schonert, MPS; Todd Sowers; Wayne Moorehead, MS; Jack Hietpas, PhD

2:10 p.m. - 2:30 p.m. B97 A Study of the Thermal Decomposition of Nitrate Ester Explosives by Gas Chromatography/Vacuum Ultraviolet Spectroscopy (GC/VUV) and Its Application to Post-Blast Debris
Courtney Cruse, BS*; John V. Goodpaster, PhD

2:30 p.m. - 2:50 p.m. B98 An Update on the Academy Standards Board (ASB) Firearms and Tool Marks (FATM) Consensus Body
Gregory E. Laskowski, MPA*

2:50 p.m. - 3:10 p.m. B99 Forensic Implications of a New Polymer Bullet
Peter J. Diaczuk, PhD*; Xiao Shan Law, MPS

3:10 p.m. - 3:30 p.m. Break

Explosives, Firearms, GSR II

Moderator: Sandra B. Sachs, PhD
Oakland Police Department
Oakland, CA

3:30 p.m. - 3:50 p.m. B100 The Power of Statistics and Machine Learning Applied to Orthogonal Rapid Methods for the Identification of Inorganic Gunshot Residue (IGSR) and Organic Gunshot Residue (OGSR) Markers
Korina Menking-Hoggatt, MS*; Colby E. Ott, MS; Courtney H. Vander Pyl, MS; Tatiana Trejos, PhD; James M. Curran, PhD*

3:50 p.m. - 4:10 p.m. B101 The Characterization and Detection of Organic and Inorganic Firearm Discharge Residue (FDR) Using High-Performance Liquid Chromatography-Triple Quadrupole (HPLC-QQQ) and Host-Guest Chemistry
William Feeney, BS*; Suzanne Bell, PhD; Luis E. Arroyo, PhD; Tatiana Trejos, PhD

4:10 p.m. - 4:30 p.m. B102 A Study on the Transfer of Gunshot Primer Residue (GSR) From Fabric to Other Surfaces
Christopher P. Chany, MS*; Thomas R. White, BS*; Rebekah D. Lloyd, BS; Ashley Pittman, BS; Juan A. Rojas, BS

4:30 p.m. - 4:50 p.m. B103 The Relationship Between Terminal Velocity and Glass Fracture via .177 Caliber Steel BBs
Jocenel J. Beach, BA*; Linda C. Rourke, MS; Peter J. Diaczuk, PhD

*Presenting Author
Massive Parallel Sequencing and SNPs

Moderator:  
Season E. Seferyn, MSFS  
Onondaga County Center for Forensic Sciences  
Syracuse, NY

8:30 a.m. - 8:45 a.m.  B104  On the Migration Route: Challenges in the Forensic Application of Massively Parallel Sequencing (MPS) in Human Body Identification  
Lucija Barbaric*; Ivana Horjan, PhD; Adela Makar; Andrea Ledic, MS

8:45 a.m. - 9:00 a.m.  B105  Advances in Microhaplotypes (Microhaps) as a Comprehensive Forensic Marker  
Fabio Oldoni, PhD; Leena Yoon, BS; Aishwaryaa Subramanian; Sathy Prakash Harihar; Drew A. Bader; Sharon C. Wootton, Ph.D; Robert Lagace, BS; Ryo Hasegawa, BS; Joseph P. Chang, BS; Kenneth Kidd, PhD; Daniele S. Podini, PhD*

9:00 a.m. - 9:15 a.m.  B106  Assessing the Reliability of Single Nucleotide Polymorphism (SNP) Micro-Array Data for Forensic Genealogy  
Robert A. Bever, PhD*; Jon Davoren, MS; Erin Sweeney, MS; Teresa Vreeland, BS; Mike Cariola, MFS

9:15 a.m. - 9:30 a.m.  B107  Multi-Marker Match Statistics: Combining Results Across Sequence-Based Short Tandem Repeat (STR) and Identity Single Nucleotide Polymorphism (SNP) Markers  
Katherine B. Gettings, PhD*; Andreas Tillmar, PhD; Peter M. Vallone, PhD

9:30 a.m. - 9:45 a.m.  B108  An Evaluation of the Illumina* Infinium™ Omni Express Exome Bead Chip for Forensic Testing  
Jon Davoren, MS*; Giovanna M. Vidoli, PhD; Amy Z. Mundorff, PhD

9:45 a.m. - 10:00 a.m.  Break

Forensic Biology

Moderator:  
Baneshwar Singh, PhD

Y-STRs and Mitochondrial DNA

Moderator: Taylor M. Dickerson III, MSFS
SNA International
Dover Air Force Base, DE

11:20 a.m. - 11:35 a.m. B113 An Analysis of Unusual Mutation Patterns in Father-Son Pairs Using a ForenSeq™ DNA Signature Prep Kit and a YFiler™ Plus Polymerase Chain Reaction (PCR) Amplification Kit
Tyler L. McDermott, MS*; Robin W. Cotton, PhD

11:35 a.m. - 11:55 a.m. B114 Mitochondrial Analysis of Challenging Samples Utilizing the ForenSeq™ mtDNA Control Region Solution on the MiSeq® FGx
Ryan Gutierrez, BS; LeAnn M. Harrel, BS; Sheree R. Hughes, PhD; Rachel M. Houston, PhD; Bobby Larue, Jr., PhD*

11:55 a.m. - 12:00 p.m. Discussion

12:00 p.m. - 1:00 p.m. Lunch

Poster Session

11:30 a.m. - 1:00 p.m. B115 Investigator-Mediated DNA Transfer
Michelle Le, BS*; Jason Moore, MA*; Steen Hartsen, BS; Georgina Jayne Lush

11:30 a.m. - 1:00 p.m. B116 An Assessment of Cell Suitability of Touch DNA Samples for Forensic DNA Profiling
Jessica Surratt*; Claire L. Glynn, PhD

11:30 a.m. - 1:00 p.m. B117 How Sharing ChapStick® Influences DNA Profiles Obtained From the Rim of Ceramic Mugs
Sidney Thompson, BA*; Mary Rebekah Judkins, BS; Laura K. Scheid, BA*; Emily Taner, BA; Krista E. Latham, PhD; Lindsey Williams, BS; Gay L. Bush, PhD

11:30 a.m. - 1:00 p.m. B118 The Evaluation of New Field and Laboratory Techniques for the Recovery of Touch DNA From Handled Improvised Explosive Devices (IEDs) Rendered Safe and Post-Blast
Wyatt Barie*; Heather E. McKiernan, PhD; Alan Stuart, MS; Heather L. Harris, JD; Thomas V. Walsh, MSFS; Megan M. Foley, MSFS

11:30 a.m. - 1:00 p.m. B119 Forensic Identification: An Investigation to Corroborate Volatile and Biological Profiles for Subject Identification
Chantrell Frazier, BS*; Kenneth G. Furton, PhD; DeEtta Mills, PhD

11:30 a.m. - 1:00 p.m. B120 The Reproducibility of Individual DNA Deposits Detected With Diamond Dye
Natalee Small-Davidson, BS*; Xiao Chen, BS; Tebah Browne, BS; Mechthild K. Prinz, PhD

11:30 a.m. - 1:00 p.m. B121 The Detection of Cryptic Single Nucleotide Polymorphism (SNP) Variants for Enhancing Human Identification Capabilities
Leena Yoon, BS*; Fabio Oldoni, PhD; Chiara Fantinato; Chantal Roth, PhD; Daniele S. Podini, PhD

11:30 a.m. - 1:00 p.m. B122 Lectin Blot-Based Profiling of Salivary Fluid Glycoproteins Distinguishes Different Patterns Among Individuals
Oluseyi A. Vanderpuye, PhD*
11:30 a.m. - 1:00 p.m.  B123  Electrochemical Screening of Synthetic Cannabinoids  
Miriam Barquero Quiros, PhD; Mario Molina Porras; Luis E. Arroyo, PhD*;  
Jerson Gonzalez, MS

11:30 a.m. - 1:00 p.m.  B124  Optimal Extraction of Fentanyl Volatile Organic Compounds (VOCs) for the  
Development of Canine Training Aid Mimics  
Leann Forte, BS*; Kenneth G. Furton, PhD

11:30 a.m. - 1:00 p.m.  B125  The Forensic Analysis of Temporary Tattoos  
Erika Bravo, MS; Paige Cooper, MS; Thomas Kubic, JD, PhD; John Lombardi, PhD;  
Michelle D. Miranda, PhD*

11:30 a.m. - 1:00 p.m.  B126  The Calculation of Calibrated Likelihood Ratios (LRs) for Glass Using a Multivariate  
Kernel Density Model: Introducing a User-Friendly Graphical User Interface (GUI)  
Anuradha G. Akmeemana, PhD*; Ruthmara Corzo, PhD; Jose R. Almirall, PhD

11:30 a.m. - 1:00 p.m.  B127  An Evaluation of Materials for Documenting Injuries From Blunt and Sharp  
Implements  
Sienna S. Brown; Judy Melinek, MD*

Criminalistics Believe It or Not!

Moderator: Sandra B. Sachs, PhD
Oakland Police Department
Oakland, CA

Co-Moderator: Jason L. Linder, MFS
Nebraska State Patrol
Lincoln, NE

7:00 p.m. - 9:00 p.m.  Criminalistics Believe It or Not!

Please set aside some time Friday evening to join the casual Criminalistics Believe It or Not! session. The evening is intended to be an informal, entertaining, yet informative session; past presentations have regaled crowds with stories of bullets and explosions going awry, investigations of the same, how hair played a pivotal role in a case, unique or historical evidence substrates, koalas, the forensic story of capturing the Golden State Killer, interesting drug submissions, cats at crime scenes, the arc of building a case in court, and dare it be said, poop!

Just like last year, this year’s list of Believe It Or Not! speakers, as well as the subject matter of each presentation, will be kept under wraps until the last minute to keep our attendees in suspense.

After the more serious science has finished for the day, come and listen to your friends and colleagues share stories of their forensic (mis)adventures. If you’ve ever found yourself with nothing to do on the Friday night before the end of the annual meeting, this session is for you!

*Presenting Author
Friday—Session II

Latent Print I

Moderator: Sandra B. Sachs, PhD
Oakland Police Department
Oakland, CA

8:30 a.m. - 8:45 a.m.  B160 Ridge Drift: The Relevance of a Not-So-Rare Fingermark Aging Phenomenon
Josep De Alcaraz-Fossoul, PhD*; Katherine A. Roberts, PhD; Cathy Johnson, MS; Carme Barrot, PhD; Ryan Tully-Doyle, PhD; Brooke W. Kammrath, PhD

8:45 a.m. - 9:00 a.m.  B161 Accelerated Development of Latent Prints on Thermal Papers
Brent M. Allred, PhD*; Emily Brisson, BS; Anthony Koertner, MS; Kalisha Gill, BS

9:00 a.m. - 9:15 a.m.  B162 A Microfluidic Device for the Identification of Biological Sex by Analysis of Fingermarks
Jamila S. Marshall Roberts, MS*; James P. Landers, PhD

9:15 a.m. - 9:30 a.m.  B163 Analyzing Latent Print Chemistry Using 2D Gas Chromatography
Jessica H. Kindell, BS*; Candice Bridge, PhD

9:30 a.m. - 9:45 a.m.  B164 Lessons Learned From Conducting Black-Box Evaluations in Multiple Disciplines
R. Austin Hicklin, PhD*; JoAnn Buscaglia, PhD*

9:45 a.m. - 10:00 a.m. B165 Using a Smart Phone Special Gadget to Find and Collect Latent Fingerprints: Simplifying the Process
Maryah E.M. Haertel*; Eduardo J. Linhares; André L. Melo

10:00 a.m. - 10:15 a.m. B166 A Cyanoacrylate Chamber for Vehicles: Innovation and Astonishing Results in Brazilian Casuistry
Angela T. Oliveira, MS*; Arthur P. Vidal; Ayeska E. Maia; Cecília V. Jacintho; Débora H. Kist; Diana W. Moraes; João G. Souza Neto; Kenio W. Tida; Laura P. Macedo; Leandro S. Faria; Luana D. Batista; Osmar S. Oliveira Neto, MS; Marco A. Paulino

10:15 a.m. - 10:30 a.m. B167 Fingerprints and Ancestry: Is It in the Details?
Jessica R. Ford*

10:30 a.m. - 10:45 a.m. Break

Latent Print II/Impressions

Moderator: Sandra B. Sachs, PhD
Oakland Police Department
Oakland, CA

10:45 a.m. - 11:00 a.m. B168 The Formation and Examination of Bloody Friction Ridge Patterns on Common Textile Materials Using Different Enhancement Techniques
Kaitlyn Chetney*; Ralph R. Ristenbatt III, MS

11:00 a.m. - 11:15 a.m. B169 Fingerprint Error Rate on Close Non-Matches (CNMs)
Jonathan J. Koehler, PhD*; Shiquan Liu, PhD

Saturday—Session I

Drugs IV

Moderator: Jason L. Linder, MFS
Nebraska State Patrol
Lincoln, NE

8:30 a.m. - 8:45 a.m.  B200  An Evaluation of Four Fentanyl Colorimetric Testing Options for Field Use
Michelle Cerreta, PhD*; Brian A. Green, BS; Maolin Li

8:45 a.m. - 9:00 a.m.  B201  Investigating the Robustness of a Statistical Method to Compare Mass Spectra of Fentanyl Analogs
Hannah Clause, BS*; Victoria L. McGuffin, PhD; Ruth Waddell Smith, PhD

9:00 a.m. - 9:15 a.m.  B202  The Differentiation and Identification of Fentanyl Analogs Using Gas Chromatography Interfaced With an Infrared Detector (GC/IRD)
Agnes D. Winokur, MS; Lindsay M. Kaufman, BS*; Jose R. Almirall, PhD

9:15 a.m. - 9:30 a.m.  B203  Data Mining the War on Drugs From Incarceration to Rehabilitation in Oklahoma
Ruthie O. Kennedy*; Kathleen E. Brown; Joselina Cheng, PhD; Rhonda C. Williams, PhD

9:30 a.m. - 9:45 a.m.  B204  An Advanced Extraction Method for Cyanide Metabolite Using Magnetic Carbon Nanotubes Facilitated Dispersive Micro Solid Phase Extraction (Mag-CNT/d-µSPE)
Sun Yi Li, BS*; Jorn Chi-Chung Yu, PhD

9:45 a.m. - 10:00 a.m.  B205  Direct Analysis in Real-Time Mass Spectrometry (DART™-MS) and Atmospheric Solids Analysis Probe/Mass Spectrometry (ASAP/MS) for the Detection and Analysis of Seed-Based Toxins
Edward Sisco, PhD*; Natalie Damaso, PhD; Elizabeth Robinson, MS; James M. Robertson, PhD

10:00 a.m. - 10:15 a.m.  Break

*Presenting Author
CRIMINALISTICS

Drugs V

Moderator: Jason L. Linder, MFS
Nebraska State Patrol
Lincoln, NE

10:15 a.m. - 10:30 a.m. B206 The Determination of Total Tetrahydrocannabinol (THC) Concentration in Plant Material Via High Performance Liquid Chromatography With Ultraviolet Visible Diode Array Detection (HPLC-UV DAD)
Stephanie Olofson, MS*; Kaitlin A. Schroeder, MS

10:30 a.m. - 10:45 a.m. B207 High-Performance Thin-Layer Chromatography (HPTLC) Densitometric Analysis of Cannabinoids in Cannabis sativa L.
Yifan Liu*; Thomas A. Brettell, PhD; Matthew R. Wood, PhD; Marianne E. Staretz, PhD

10:45 a.m. - 11:00 a.m. B208 A New Analytical Scheme for the Analysis of Cannabis Plant Material: Marijuana or Hemp?
Sandra E. Rodriguez-Cruz, PhD*

11:00 a.m. - 11:15 a.m. B209 Forty-Plus Ways Not to Analyze Beverages for Cannabinoids
Carl E. Wolf II, PhD*; Hedi L. Brightman, BS; Justin L. Poklis, BS; Wiliam J. Korzun, PhD

11:15 a.m. - 11:30 a.m. B210 An Analysis of Illicit Drugs by Portable Ion-Trap Gas Chromatography/Mass Spectrometry (GC/MS)
Leah Rynearson, BS; Zachary Lawton, MS; Meghann McMahon, MS; Pauline E. Leary, PhD*; Koby Kizzire, PhD; Brooke W. Kammrath, PhD

11:30 a.m. - 11:45 a.m. B211 New Psychoactive Substances in Forensic Drug Cases: Crossing the Borders of Gas Chromatography/Mass Spectrometry (GC/MS) Selectivity
Ruben F. Kranenburg, MS*; Arian C. Van Asten, PhD

Saturday—Session II

Trace I

Moderator: Sandra B. Sachs, PhD
Oakland Police Department
Oakland, CA

8:30 a.m. - 8:50 a.m. B212 Implementing Raman Spectroscopy as a Tool to Characterize Sexual Assault Lubricants
Santana A.L. Thomas, PhD*; Nicholas Andersen; Mark Marc; Candice Bridge, PhD

8:50 a.m. - 9:10 a.m. B213 Assessing the Value of a Physical End Match in Trace Evidence: A Comparison of Human-Based and Computational-Based Approaches
Meghan Prusinowski, MS*; Evie K. Brooks, BS; Pedram Tavadze, MS; Aldo Romero, PhD; Tatiana Trejos, PhD

9:10 a.m. - 9:30 a.m. B214 A Survey of Elements Detected in Automotive Paint Layers by Scanning Electron Microscope/Energy Dispersive X-Ray Spectrometry (SEM/EDS)
Christopher S. Palenik, PhD*; Ethan Groves, BS; Lina Michely, PhD; Yu Chen Lim, MS; Skip Palenik, BS
CRIMINALISTICS

9:30 a.m. - 9:50 a.m.  B215  Parameter Optimization and Validation for Qualitative Elemental Analysis of Electrical Tape Backings by X-Ray Fluorescence (XRF)
Evie K. Brooks, BS*; Andria H. Mehlretter, MSFS; Susan M. Marvin, PhD; Tatiana Trejos, PhD

9:50 a.m. - 10:00 a.m.  Break

Trace II/Thanatochemistry at Scene

Moderator: Sandra B. Sachs, PhD
Oakland Police Department
Oakland, CA

10:00 a.m. - 10:20 a.m.  B216  A Quantitative Trace Elemental Analysis of Aluminum Materials for Forensic Discrimination
Michelle Jordan*; Christopher P. Saunders, PhD; JoAnn Buscaglia, PhD

10:20 a.m. - 10:40 a.m.  B217  Vibrational Spectroscopic Analysis of 3D-Printed Polymers Pre- and Post-Manufacturing
Ryan G. Zdenek*; April Bowen, BS; John A. Reffner, PhD; Maria-Isabel Carnasciali, PhD; Brooke W. Kammrath, PhD

10:40 a.m. - 11:00 a.m.  B218  Non-Destructive Separation of Pollen Grain Constituents for Biochemical Analysis
Bryan McCullough*; Luz J. Kelley, MS; Gerardo Sibaha, BS; Kayley Jenks, BS; Matthieu Baudelet, PhD; Mauro Martinez Labrador, MPH

11:00 a.m. - 11:20 a.m.  B219  Thanatochemistry at the Crime Scene: A Microfluidic Paper-Based Device for Ammonium Analysis in the Vitreous Humor
Giacomo Musile, PhD*; Yvane Agard, MS; Elio De Palo; Ksenia Shestakova, MS; Federica Bortolotti, PhD, MD; Franco Tagliaro, PhD, MD

*Presenting Author
**Wednesday**

**Poster Session**

11:30 a.m. - 1:00 p.m. **C1**  
**The Development of a Cleaning Protocol for Mobile Devices Damaged by Fire**  
Caige McCabe, BS*; Josh Brunty, MS; Lauren L. Richards-Waugh, PhD; Dale Mosley

11:30 a.m. - 1:00 p.m. **C2**  
**Ear Asymmetry—A Preliminary Evaluation of Identification Accuracy for Forensic Purposes**  
Laura Donato*; Al Ozonoff, PhD; Alessandro Di Luca, MD

11:30 a.m. - 1:00 p.m. **C3**  
**An Investigation Into the Encoding and Encryption of Black Box Data on a DJI Spark**  
Elijah A. Vela*; Josh Brunty, MS; Dale Mosley; Rob Attoe, BS

**Thursday**

**Interfaces: Finding the Borders I**

**Moderator:** Eddy B. Brixen, BA  
ERB-Consult  
Smorum, DENMARK

**Co-Moderator:** Douglas R. White, MS  
National Institute of Standards and Technology  
Gaithersburg, MD

8:30 a.m. - 8:35 a.m.  
Welcome  
Marla E. Carroll, BS

8:35 a.m. - 8:55 a.m. **C4**  
**The Organization of Scientific Area Committees (OSAC) Digital/Multimedia Scientific Area Committee Standards Work—Part 1: Digital Evidence and Video/Imaging Technology and Analysis (VITAL)**  
Julie A. Carnes*; Steven B. Watson, BA*; Christina A. Malone, MSFS; Richard Vorder Bruegge, PhD

8:55 a.m. - 9:15 a.m. **C5**  
**The Organization of Scientific Area Committees (OSAC) Digital/Multimedia Scientific Area Committee Standards Work—Part 2: Facial Identification and Speaker Recognition**  
Lora Sims*; David Brian Marks, MS*; Richard Vorder Bruegge, PhD; Jane Wankmiller, PhD; Steven B. Lee, PhD; Mark Dolfi

9:15 a.m. - 9:35 a.m. **C6**  
**On Generic Digital Forensic Readiness**  
Martin S. Olivier, PhD*

9:35 a.m. - 9:50 a.m. **C7**  
**The National Institute of Standards and Technology (NIST) Scientific Foundation Study for Digital Examiners**  
Barbara Guttmann, BA*; Mary T. Laamanen, MS*; Craig Russell, MS

9:50 a.m. - 10:00 a.m.  
Break

*Presenting Author
Implementation: Mobile Borders I

Moderator: Tanveer A. Zia, PhD
Charles Sturt University
Wagga Wagga, AUSTRALIA

Co-Moderator: Jason M. Paroff, JD
Epiq Systems, Inc
New York, NY

10:00 a.m. - 10:15 a.m.  C8  Attitudes of Citizens of the United States, the United Kingdom, and Turkey in Permits Requested by Mobile Apps
Burak Oclu, MS*; Dilara Oner, MS; Hande Ermis, MS; Gursel Cetin, PhD

10:15 a.m. - 10:35 a.m.  C9  Apple® iCloud® Message Sync Forensic Investigations and Artifacts
Andrew N. Crouse, BA*; Kaylee A. Schoepe, BS*; Brian Smith, BS; Wesley Wong, BA

10:35 a.m. - 10:55 a.m.  C10  Joint Task Action Group (JTAG) and Chip-Off Data Analysis and Testing
Jenise Reyes-Rodriguez, BS*; Richard Ayers, MS

10:55 a.m. - 11:10 a.m.  C11  Forensic Gait Analysis: A Strength of Evidence Evaluation From Closed-Circuit Television (CCTV) Footage
Dilan Seckiner*; Claude Roux, PhD; Xanthe Mallett, PhD; Philip Maynard, PhD; Didier Meuwly, PhD

11:10 a.m. - 11:25 a.m.  C12  An Acceptable Resolution for the Identification of Knives Captured Within Closed-Circuit Television (CCTV) Imagery
James Zjalic, MSc*

11:25 a.m. - 11:40 a.m.  C13  Grayshift® GrayKey: A Forensic Practitioner’s Perspective and Lessons Learned
Christina A. Malone, MSFS*; Joseph Levi White, MS*

11:40 a.m. - 12:00 p.m.  C14  2D/3D Imaging for Forensic Ballistics Comparison Assessment
Sebastiano Battiato, PhD*; Oliver Giudice, PhD*; Luca Guarnera, MS*; Antonino Barbaro Paratore, MS*; Angelo Salici*

12:00 p.m. - 1:00 p.m.  Lunch

Poster Session

11:30 a.m. - 1:00 p.m.  C15  A Morphometric Analysis of Ears in Twins: An Aid to Forensic Personal Identification
Greta Cena, MD*; Francesco Lupariello, MD*; Niccolò D. Melloni, MD; Giancarlo Di Vella, MD, PhD*

11:30 a.m. - 1:00 p.m.  C16  The Development of a Cleaning Protocol for Mobile Devices Contaminated With Controlled Substances
Rachel Valerio*; Josh Brunty, MS; Lauren L. Richards-Waugh, PhD; Dale Mosley

*Presenting Author
Identification: Borders of Intelligence I

Moderator: Joseph Levi White, MS
Defense Forensic Science Center
Forest Park, GA

1:00 p.m. - 1:20 p.m. C17 The Application of Artificial Intelligence (AI) in Digital Forensic Science
Zeno J. Geradts, PhD*

1:20 p.m. - 1:35 p.m. C18 Cloth Classification With a Semi-Supervised Generative Adversarial Network (SGAN)
Jette Korthals Altes, BS; Andrea Macarulla, MSc; Owen Corrigan, PhD; Zeno J. Geradts, PhD*

1:35 p.m. - 1:55 p.m. C19 A Wild Manhunt for Stego Images Created by Mobile Apps
Li Lin*; Wenhao Chen, BS; Stephanie Reinders, BA*; Yong Guan, PhD; Min Wu, PhD; Jennifer Newman, PhD*

1:55 p.m. - 2:10 p.m. C20 Control Point Selection for Analysis and Height Measurement From Closed-Circuit Television (CCTV) Images
Angela Savva, BS; Domenic Raneri, BS; Sebastien Moret, PhD; Philip Maynard, PhD*

2:10 p.m. - 2:30 p.m. C21 Using an Orthogonal Fingerprint Matcher to Boost Recognition of Contactless Fingerprints
Mark A. Walch, MArch, MPH*

Innovation: Borders of Intelligence II

Moderator: Yong Guan, PhD
Iowa State University
Ames, IA

Co-Moderator: Alex J. Nelson, PhD
National Institute of Standards and Technology
Gaithersburg, MD

2:40 p.m. - 2:55 p.m. C22 Machine Learning in Data From Crime-Related Mobile Devices: Bidirectional Recurrent Neural Networks for Named-Entity Recognition (NER) in WhatsApp, Instagram™, and Facebook® Messenger Text Conversations
Matheus S. Oliveira*; Daniel M. Caldas, MS; Thiago P. Faleiros

2:55 p.m. - 3:10 p.m. C23 Steganography Detection Using Machine Learning (ML)
Joshua Ralls*; Shuangteng Zhang, PhD*

3:10 p.m. - 3:20 p.m. C24 Digital Forensic Evidence Cracking an Ingenious Murder Cover-Up: Lochner's Principle Re-Validated
Mohit Chauhan, MBBS, MD, DHM*

3:20 p.m. - 3:30 p.m. C25 Quantum Digital Forensics: The Applications of Digital Forensics in a Quantum World
Suzzanne I. Myers*

3:30 p.m. - 3:50 p.m. C26 Applications of a Convolutional Neural Network (CNN) for Automatic Classification of Outsole Features
Miranda R. Tilton, MS*; Susan VanderPlas, PhD

3:50 p.m. - 4:00 p.m. Break

*Presenting Author
Inspiration: Beyond the Borders

Moderator: Andrew N. Crouse, BA
Epiq Systems, Inc
Washington, DC

4:00 p.m. - 4:15 p.m. C27 An Effective Security Assessment Framework for Drone as a Service (DaaS): A Digital Forensic Technique
Fahad Salamh, PhD*; Umit Karabiyik, PhD; Marcus Rogers, PhD

4:15 p.m. - 4:30 p.m. C28 The Forensic Utility of Smart Doorbells
Christina A. Malone, MSFS*; Carl R. Kriigel, MA*; Seth M. Eisenberg; Hillary Lathrop, PhD

4:30 p.m. - 4:50 p.m. C29 Counterfeit Drug Detection Using Multi-Spectral Imaging
Brady Carter, PhD*

4:50 p.m. - 5:05 p.m. C30 Pathways to the Identification of Multinational Victims of Mass Disasters: The Role of Blockchain Technology
Shada Alsalamah, PhD*; Emilio Nuzzolese, PhD*

Friday

Illumination: Finding the Borders II

Moderator: Jason Lewis, PhD
University of South Florida
Tampa, FL

8:30 a.m. - 8:35 a.m. Welcome
Marla E. Carroll, BS

8:35 a.m. - 8:50 a.m. C31 A Proposed Framework for Digital Video Authentication
Gregory S. Wales, MS*; Catalin Grigoras, PhD; Jeff M. Smith, MS

8:50 a.m. - 9:15 a.m. C32 Automated Standards-Based Normalization and Correlation of Mobile Device Evidence
Eoghan Casey, PhD*; Martina Reif, MS*; Quentin Rossy, PhD

9:15 a.m. - 9:30 a.m. C33 Known Source Artifacts Examination With Digital Forensic Tools
Hayden A. Hendrickson, BS; Amanda A. Moses, BS*; Kimberly Bradley, MS*; Shuangteng Zhang, PhD

9:30 a.m. - 9:55 a.m. C34 Teaching Digital Forensics to Young Women and Underserved Youth
Eoghan Casey, PhD*; Daryl Pfeif, BA

9:55 a.m. - 10:05 a.m. Break
Inquisitive: Mobile Borders II

**Moderator:** Walter T. Hart, MBA  
*Silicon Valley Bank*  
*San Francisco, CA*

10:05 a.m. - 10:30 a.m.  
**C35**  
**iOS® Photo Vault Forensics**  
*Siddharth S. Chowdhury, MS*; *Kayla Rux; Kathryn C. Seigfried-Spellar, PhD*

10:30 a.m. - 10:50 a.m.  
**C36**  
**A Constantly Moving Target: Best Practices for Apple® iOS® Device Seizure, Access, and Extraction**  
*Joseph Levi White, MS*

10:50 a.m. - 11:05 a.m.  
**C37**  
**Unlocking Fingerprint Scanner-Enabled Mobile Phones**  
*Christina A. Malone, MSFS*; *Anthony Koertner, MS; Seth M. Eisenberg; Hillary Lathrop, PhD*

11:05 a.m. - 11:20 a.m.  
**C38**  
**A Forensic Comparative Analysis of the STRAVA™ Global Positioning System (GPS) Tracking Application on Companion Client Devices**  
*Christina A. Malone, MSFS*; *Carl R. Kriigel, MA*; *Seth M. Eisenberg; Hillary Lathrop, PhD*

11:20 a.m. - 11:35 a.m.  
**C39**  
**Android™ App Forensic Evidence Database (AndroidAED)**  
*Chen Shi, MS*; *Chao-Chun Cheng; Connor Kocolowski; Emmett Kozlowski, BS; Justin Kuennen, BS; Matthew Lawlor, BS; Mitchell Kerr, BS; Jacob Stair, BS; Zhonghao Liao, PhD; Zhenqiang Gong, PHD; Yong Guan, PhD*

11:35 a.m. - 11:50 a.m.  
**C40**  
**The Use of the On-Screen Time Display for Authentication of Body-Worn Video**  
*Gretchel Lomboy, MSc*; *James Zjalic, MSc*

11:50 a.m. - 1:15 p.m.  
**Lunch**

Multidisciplinary Session: Digital & Multimedia Sciences & Jurisprudence—Digital Forensics I

**Moderator:**  
*Maxwell Christopher Fabricant, JD*  
*The Innocence Project*  
*New York, NY*

**Co-Moderator:**  
*Danielle D. Ruttman, JD*  
*Brooklyn, NY*

1:15 p.m. - 1:30 p.m.  
**F27**  
**The Need for a Full Specification for Digital Forensic Tool Validation**  
*Nicolas R. Hughes, JD*

1:30 p.m. - 2:00 p.m.  
**C41**  
**Narrative Use Cases for Harmonizing Forensic Science Practices and Digital/Multimedia Evidence**  
*Mark Pollitt, PhD*; *Eoghan Casey, PhD*

2:00 p.m. - 3:00 p.m.  
**C42**  
**Digital Evidence in the United States Courts of Appeal**  
*Martin Novak, MPA*

3:00 p.m. - 3:15 p.m.  
**Break**

*Presenting Author*
Multidisciplinary Session: Digital & Multimedia Sciences & Jurisprudence—Digital Forensics II

Moderator: Jerry G. Landau, JD
Arizona Supreme Court
Phoenix, AZ

Co-Moderator: Howard S. Stein, JD
Stein Lotzkar and Starr P.S., Inc
Bellevue, WA

3:15 p.m. - 3:30 p.m.  F28  #Datastories
Paul Reedy*

3:30 p.m. - 3:45 p.m.  F29  Spotting Stingrays: The Legal Issues of Covert Cell Phone Location Surveillance
Michael Buresh, JD*

3:45 p.m. - 4:15 p.m.  F30  Historical Cell-Site Location Basics
Michael Buresh, JD*

4:15 p.m. - 4:45 p.m.  F31  Drone Laws: The Imminent Quandry
Corey A. Bauer, JD*; Victor W. Weedn, MD, JD*; Anthony M. Hallett*
Wednesday

Poster Session

11:30 a.m. - 1:00 p.m.  D1 Amusement Park Accidents Caused by Fatigue Failure
Chan-Seong Park, PhD*; Honh-Pil Jeon; Kwangsoo Choi, MA; Jae-mo Goh, PhD;
Nam-Kyu Park, PhD

11:30 a.m. - 1:00 p.m.  D2 The Role of the Dynamometer in the Analysis of Manner of Death by Asphyxia:
A Case Report and Review of the Literature
Matteo A. Sacco, MD*; Fabrizio Cordasco, MD*; Francesco Sicilia, MD*; Luigi De Aloe, MD;
Orazio Malfa, MD; Carmen Scalise, MD; Gionata Fragomeni, PhD; Pietrantonio Ricci, PhD;
Santo Gratteri, MD; Isabella Aquila, MD. PhD*

11:30 a.m. - 1:00 p.m.  D3 Railway Fatalities: The Importance of the Autopsy for the Reconstruction of Railway
Accidents
Claudia Perrone, MD*; Ilaria Santoismma; Alessandra Stellacci; Salvatore Moliterno, MD;
Lucia Nardelli; Alessio Ostuni, MD; Francesco Vinci, MD

Thursday—Session I

Weapons: Knives & Firearms

Moderator:  Kurt D. Weiss, MS
Case Study Collision Science, LLC
Santa Barbara, CA

8:30 a.m. - 8:50 a.m.  D4 A Comparison of Scientifically Valid and Traditional Firearm Trigger Mechanism
Evaluation Techniques
John Nixon, MBA*

8:50 a.m. - 9:10 a.m.  D5 A Defect Investigation of a Gun Rack
Darren Franck, MSME*; Harold Franck, MSEE

9:10 a.m. - 9:30 a.m.  D6 The Effect of Fabric Tension on Knife and Tool Damage
Patrick H. Geoghegan, PhD*; Debra J. Carr, PhD; Sarah V. Hainsworth, PhD

9:30 a.m. - 10:00 a.m.  D7 The Effectiveness of Overt and Covert Protection Against Attacks by Sharp Implements
Sarah V. Hainsworth, PhD*; Patrick H. Geoghegan, PhD

10:00 a.m. - 10:15 a.m.  Break

*Presenting Author
Fire & Explosion Investigations

Moderator: Darren Franck, MSME
Advanced Engineering Associates, Inc
Charleston, WV

10:15 a.m. - 10:30 a.m. D8 The Impact of Ventilation on Fire Patterns in Full-Scale Structures: Experiments, Analysis, and Education
Daniel Madrzykowski, PhD*; Craig G. Weinschenk, PhD

10:30 a.m. - 10:50 a.m. D9 The Explosive Destruction of a Horse Trailer With Integrated Living Quarters
David R. Bosch, PhD*; Mark C. Pozzi, MS*

10:50 a.m. - 11:05 a.m. D10 An Investigation Into the Cause of a Fire Engulfing Two Collided Buses
Qiang Chen, PhD*; Xiao Hu*

11:05 a.m. - 11:25 a.m. D11 Understanding and Controlling the Potential Risk of Jobsite Construction Hazards
Daniel M. Honig, PE*

11:25 a.m. - 11:40 a.m. Break

Poster Session

11:30 a.m. - 1:00 p.m. D12 Improving the Accuracy of the Quantitative Method for Evaluating Fracture Load by Blunt Force: A Proposal for the Fracture Load Analysis Method Using the Victim’s Bone Shape, Bone Mineral Density Distribution, and Soft Tissue Thickness
Tatsuya Fukuoka, ME*; Yasumi Ito, PhD; Ryuichi Yamada; Yoshiyuki Kagiyama, PhD; Tomotaka Matsubara; Sonoka Okura; Tetsuya Nemoto, PhD

11:30 a.m. - 1:00 p.m. D13 Physical Properties of Additive Manufacturing to Combat the Illicit Use of 3D Printing Technology
April Bowen, BS*; Ryan G. Zdenek; Brooke W. Kammrath, PhD; Maria-Isabel Carnasciali, PhD

11:30 a.m. - 1:00 p.m. D14 Hot-Air Ballooning—Rare as Disastrous Incidents: An Italian Case Report
Eloisa Maselli, MD; Aldo Di Fazio; Gianni De Giorgio*; Alessandro Dell’Erba, PhD

Samples, Magnets, & Trace Elements

Moderator: Harold Franck, MSEE
Advanced Engineering Associates, Inc
Charleston, WV

11:40 a.m. - 11:55 a.m. D15 Complexity vs. Uncertainty in Models
Willem A. Schreuder, PhD*

11:55 a.m. - 12:10 p.m. D16 Bulk and Micro-Scale Trace Element Analysis of Glass Standard Reference Materials (SRMs) Using Modern Nuclear Analytical Methods and Laser Ablation-Inductively Coupled Plasma/Mass Spectrometry (LA-ICP/MS)
Nicholas Sharp, PhD*; Jamie L. Weaver, PhD; Maria Martinez, PhD; Ruthmara Corzo, PhD; Rick Paul, PhD; Jose R. Almirall, PhD; Eric B. Steel

Friday

Head & Neck Trauma Research

**Moderator:** Kurt D. Weiss, MS  
*Case Study Collision Science, LLC*  
Santa Barbara, CA

8:30 a.m. - 8:55 a.m.  **D34**  
**Head and Neck Trauma: BioMedical Engineering Analysis of Entrapment Testing**  
Laura L. Liptai, PhD*; Ellyson Maleski, BS*

8:55 a.m. - 9:10 a.m.  **D35**  
**An Experimental Study of Inertial Mechanisms of Motorcycle Helmet Accident Retention Failures**  
Kenneth J. Saczalski, PhD*; Mark N. West, BS; Mark C. Pozzi, MS*; Todd Saczalski, BSMET

9:10 a.m. - 9:30 a.m.  **D36**  
**The 1921 Death of Nino Martoglio, Pirandello's Mentor: A Cold Case and Literature Review**  
Massimiliano Esposito, MD*; Giuseppe D. Albano, MD; Antonino Barbaro Paratore, MS; Sebastiano Battiato, PhD; Pasquale Malandrino, MD; Fabrizio Vanaria, MD; Sabrina Franco; Monica Salerno, MD, PhD; Giulio Di Mizio, MD, PhD; Cristoforo Pomara, MD, PhD

9:30 a.m. - 9:50 a.m.  **D37**  
**Skull Fracture Risk: An Experimental Comparison Between Elastic (Drone) and Inelastic (Wood Block) Impacts Focused on Fracture Type and Tolerance Using Instrumented Postmortem Human Subjects (PMHS)**  
John H. Bolte, PhD*; David Stark, PhD; Amanda M. Agnew, PhD; Yun-Seok Kang, PhD

9:50 a.m. - 10:10 a.m.  **D38**  
**Cervical Spine Injury of Postmortem Human Subjects in Rear-End Impacts**  
Yun-Seok Kang, PhD*; John H. Bolte, PhD

10:10 a.m. - 10:25 a.m.  **D39**  
**Head Injury Criteria (HIC) Scaling for Assessing Closed Head Injury Risk**  
Robert D. Anderson, MS*; Billy S. Cox, Jr.

10:25 a.m. - 10:40 a.m.  
**Break**

Video Analysis & Vehicle System Forensics

**Moderator:** Robert D. Anderson, MS  
*Biomechanics Analysis*  
Tempe, AZ

10:40 a.m. - 10:50 a.m.  **D40**  
**Forensic Motor Vehicle Accident Investigation**  
David Pienkowski, PhD*

10:50 a.m. - 11:10 a.m.  **D41**  
**Body-Mounted Camera Motion Analysis—Accuracy and Validation of 3D Camera Match Solutions**  
Michael Callahan, BSME*; Brady Held, BFA*; Sean G. Snyder, BS*

11:10 a.m. - 11:30 a.m.  **D42**  
**3D Computer Photogrammetric Analysis of Multiple Surveillance Cameras Synchronized Into a Single Data Set to Track the Movement of a Vehicle**  
Jorge Mendoza, BS, ME*

11:30 a.m. - 11:50 a.m.  **D43**  
**Vehicle System Forensics and Criminal Investigations Involving Automobiles**  
Wesley Vandiver, BA*

*Presenting Author
11:30 a.m. - 1:00 p.m. E13 Human Bones and the Estimation of the Postmortem Interval (PMI): An Experimental Study
Francesco Sessa, MS*; Santina Cantatore; Giuseppe Bertozzi, MD*; Francesca Maglietta, MD*; Luigi Cipolloni, MD, PhD; Daniela Pisanelli, MS; Pietrantonio Ricci, PhD

11:30 a.m. - 1:00 p.m. E14 Fatal Attraction: A Case Report of a Homicidal Drowning Involving a Couple
Michela Ferrara, MD*; Francesco Sessa, MS*; Alessio Marangelli; Luigi Cipolloni, MD, PhD; Lorenzo Spagnolo, MD; Santina Cantatore; Francesca Maglietta, MD

11:30 a.m. - 1:00 p.m. E15 An Evaluative Look at Shotguns: Pellet Spread
Kimberly Butler-Derose, MFS*; Ismail M. Sebetan, MD, PhD*; Paul Stein, PhD*; Amy Zimmer, MS

11:30 a.m. - 1:00 p.m. E16 Examining Potential Degradation Between Antemortem and Postmortem Fingerprints
Anielle Duncan, BA*; Samantha Upton, BA*; Kathleen Flor-Stagnato, MA; Dawnie W. Steadman, MD

11:30 a.m. - 1:00 p.m. E17 Training Needs for Search and Rescue (SAR) Teams During Mass-Disaster Fire Scene Recoveries: Lessons Learned From the 2018 California Camp Fire
Leigh Hayes*; Alyssa Straub, BA*; Eric J. Bartelink, MD; Ashley E. Kendell, PhD; Colleen F. Milligan, PhD

11:30 a.m. - 1:00 p.m. E18 Ice Cold Cases: When Glaciers Give Back Corpses
Serena Maria Curti, MD*; Pasquale Beltempo, MD*; Maurizio Castelli, MD; Mirella Gherardi, MD

11:30 a.m. - 1:00 p.m. E19 An Overview of 3D Printing in Forensic Science: The Tangible Third-Dimension
Rachael M. Carew, MSc*; David Errickson, PhD

11:30 a.m. - 1:00 p.m. E20 The Detection of Sodium Hypochlorite Adulterated Foods and Salsas in a Poisoning Investigation
David S. Jackson, BS*; Lisa A. Kaine, BS; David F. Crockett, BS

11:30 a.m. - 1:00 p.m. E21 Applying a Standardized and Scientific Approach to Recognize and Investigate Co-Occurring Criminal Forms of Fatal and Non-Fatal Asphyxiation in Order to Broaden Assessments to Include the Possibility of Other Types of Criminal Asphyxiation That Include at Least One Type of Aquatic Asphyxiation
Andrea Zaferes, BA*; Allyson Cordoni, MSN*; Kathy Bell*; Kelsey P. McKay*

11:30 a.m. - 1:00 p.m. E22 An Evaluation of Various Swab Types for Recovery of Touch DNA From Firearms
Raven DeWeese, BS*; Catherine O. Brown, MSFS; Thomas V. Walsh, MSFS; Heather L. Harris, JD; Megan M. Foley, MSFS

11:30 a.m. - 1:00 p.m. E23 Validation of a Paper Analytical Device Through Analysis of Illicit Substances Found at Fatal Overdose Scenes
Tracy-Lynn E. Lockwood, BS*; Philip Hyunh; Katie Bailey; Alfarena Ballew, MBA; Brad Ray; Marya Lieberman, PhD

*Presenting Author
Thursday

General Forensics and Crimes I

Moderator: Meryle A. Dotson, MA
New York City Office of Chief Medical Examiner
New York, NY
Co-Moderator: Gulnaz T. Javan, PhD
Alabama State University
Montgomery, AL

8:30 a.m. - 8:45 a.m.  E24  Success Rate Comparison of Latent Prints and Touch DNA From a Pistol
Siera Ramirez, BS*; Stephen C. King, BA; Kelly Beatty, MSFS; Catherine G. Rushton, EdD

8:45 a.m. - 9:00 a.m.  E25  Unique Dangers in the Medicolegal Death Investigation Process
Brett E. Harding, MBA*; Barbara C. Wolf, MD

9:00 a.m. - 9:15 a.m.  E26  “Comet-Tailing” Associated With an Intermediate-Range Gunshot Entrance Wound
Samuel P. Prahlow, MPH*; Theodore T. Brown, MD; Joseph A. Prahlow, MD

9:15 a.m. - 9:30 a.m.  E27  Biomechanical Considerations in 3D Reconstruction of Shooting Events
Parris Ward, JD*

9:30 a.m. - 9:45 a.m.  E28  Detection, Identification, and Characterization of Gunshot Residue (GSR) Using Raman Spectroscopy
Igor K. Lednev, PhD*; Shelby R. Khandasamy, BS

9:45 a.m. - 10:00 a.m.  E29  A Serial Killer and Seven Homicides: Finding the Graves—A Multijurisdictional Investigation
Michelle S. Clark, MS*; James R. Gill, MD; Kristen Hartnett-McCann, PhD

10:00 a.m. - 10:15 a.m.  Break

General Forensics and Crimes I

Moderator: Frances M. Wheatley, MA
Tennessee State Medical Examiner’s Office
Nashville, TN
Co-Moderator: Micah Rush, MSFS
Fort Benning Criminal Investigation Battalion
Fort Benning, GA

10:15 a.m. - 10:30 a.m.  E30  Spicing Things Up: Death Due to the Use of the Synthetic Cannabinoid ADB-FUBINACA
Anita Roman Hasert, BS*; Demi B. Garvin, PharmD

10:30 a.m. - 10:45 a.m.  E31  Collaboration in Action—A Case Study on Implementing the National Best Practices for Sexual Assault Kits: A Multidisciplinary Approach Recommendations
Julie L. Valentine, PhD*

10:45 a.m. - 11:00 a.m.  E32  Meningitis as a Cause of Death in a Medical Examiners Setting
Breanna M. Cuchara, MFS*; Ariel C. Viramontes, MD*; Francisco J. Diaz, MD

Matthew C. Wietbrock, BS*

11:15 a.m. - 11:30 a.m.  E34  The Application of Virtual Reality in Training First Responders in the Proper Handling of the Dead
Ivett Kovari, PhD*; Pierre M.M. Guyomarch, PhD; Christian Rouffaer, MS

*Presenting Author
GENERAL

11:30 a.m. - 11:45 a.m. E35 Examining the Impact of Trauma and Stress Across Forensic and Investigative Contexts
J. Amber Scherer, PhD*; Amanda L. Farrell, PhD*; Timothy J. Ainger, PhD*

11:45 a.m. - 12:00 p.m. E36 The Effect of the Medicolegal Evaluation on Asylum Seekers: The Proposal for a New Operating Model
Antonietta Lanzarone*; Stefania Zerbo, MD; Francesca Korte; Valeria Tullio; Elvira Ventura Spagnolo, MD; Antonina Argo, PhD

12:00 p.m. - 1:00 p.m. Lunch

Poster Session

11:30 a.m. - 1:00 p.m. E37 “V for Vendetta”: A Hidden Revenge Murder
Alessandra Radogna, MD; Stefania C. Bello, MD; Pietrantonio Ricci, PhD; Lorenzo Spagnolo, MD*; Maria Silvestre, MD; Michela Ferrara, MD*; Francesco Sessa, MS*; Francesca Maglietta, MD*

11:30 a.m. - 1:00 p.m. E38 Killer Tractor: A Forensic Methodological Approach in Work-Related Deaths
Lorenzo Spagnolo, MD*; Francesca Maglietta, MD*; Pietrantonio Ricci, PhD; Alessandra Radogna, MD; Stefania De Simone, MD; Michela Ferrara, MD*; Luigi Cipolloni, MD, PhD

11:30 a.m. - 1:00 p.m. E39 A Kindle Dinner With a Friend: Great Start, Bad Finish
Alessandra Radogna, MD; Marco Savito, MD; Francesca Maglietta, MD*; Irene Riezzo, MD, PhD; Marcello Rendine, DBA; Michela Ferrara, MD*; Pietrantonio Ricci, PhD; Francesco Sessa, MS*

11:30 a.m. - 1:00 p.m. E40 Hanging Games: An Unusual Case of Accidental Hanging in a Child
Stefania De Simone, MD; Francesca Maglietta, MD*; Alessio Marangelli; Francesco Sessa, MS*; Luigi Cipolloni, MD, PhD; Mauro A. Ciavarella; Giuseppe Bertozzi, MD*

11:30 a.m. - 1:00 p.m. E41 The New Italian Law on Legitimate Defense: New Scenarios on the Crime Scene
Maria Silvestre, MD*; Francesca Maglietta, MD*; Giuseppe Bertozzi, MD*; Francesco Sessa, MS*; Mauro A. Ciavarella; Pietrantonio Ricci, PhD; Luigi Cipolloni, MD, PhD

11:30 a.m. - 1:00 p.m. E42 Post-Coital DNA Recovery in Minority Proxy Couples
Patricia M. Speck, DNSc*; Erin K. Hanson, PhD; John Ballantyne, PhD; Peng Li, PhD; Simmone Nouer, PhD; Pamela D. Connor, PhD

11:30 a.m. - 1:00 p.m. E43 A Ten-Year Review of Opioid-Related Deaths at West Tennessee Regional Forensic Center: 2007–2017
Haley M. St. John, BS*; Juliette Scantlebury, MD

11:30 a.m. - 1:00 p.m. E44 Epidemiological and Toxicological Profile of Homicide Victims in a Legal Medicine Unit in Brazil
Yara V. Lemos, MS*; Alberto J. A. Wainstein; Larissa M. Savoi; Ana P. Drummond-Lage

11:30 a.m. - 1:00 p.m. E45 Characterizing Deaths Related to Hurricane Michael Using Vital Statistics Data
Samuel P. Prahlow, MPH*; Heather Rubino, PhD; David Atrubin, MPH; Allison Culpepper, BS

11:30 a.m. - 1:00 p.m. E46 Modeling Postmortem Submersion Interval (PMSI) Estimation From the Microbiome of Bone in a Freshwater Lake
Claire M. Cartozzo, MS*; Baneshwar Singh, PhD; Jenise Swall, PhD; Tal Simmons, PhD

*Presenting Author

*Presenting Author
General Forensics and Crimes II

Moderator: Angela M. Miller
U.S. Army Criminal Investigation Command
Quantico, VA

Co-Moderator: Anita Roman Hasert, BS
Charleston County Coroner’s Office
North Charleston, SC

1:00 p.m. - 1:15 p.m. E59 Healthcare Professionals as Persons of Interest? Preventing Strategies, Medical Liability, and Italian Jurisprudence Through the Analysis of an Inpatient Psychiatric Suicide
Federica Gori, MD; Luigi Papi; Sara Turco, MD*; Alice Chiara Manetti, MD; Francesca Iannaccone

1:15 p.m. - 1:30 p.m. E60 A New Approach and Suggestions for Child Sexual Abuse Cases
Sila Aslan; Mete K. Gulmen, PhD, MD*; Ahmet Hilal, MD

1:30 p.m. - 1:45 p.m. E61 An Evaluation of Child Suicide Death Cases
Mete K. Gulmen, PhD, MD*; Necmi Cekin, MD; Kenan Kaya; Sila Aslan

1:45 p.m. - 2:00 p.m. E62 Rapid, Real-Time, and In-Field Detection of Fentanyl Residue: A New Approach Using Ion Mobility Spectrometry (IMS)
John Z. Wang, PhD*

2:00 p.m. - 2:15 p.m. E63 Forensic Palynology: Pollen and Its Role in Crime Scene Investigation, National Security, and Forensic Science
Taylor Strunsee, MS*

2:15 p.m. - 2:30 p.m. E64 A Forensic Comparison of Cable Ties to Create a Database
Celeste M. Lambert, BS*; Ted R. Schwartz, MS; Brandi Clark; Thomas A. Brettell, PhD; Lawrence Quarino, PhD

2:30 p.m. - 2:45 p.m. E65 “What’s Wrong With Putting Crime Victims in Jail?”
Patricia C. Smith, MSL*

2:45 p.m. - 3:00 p.m. E66 Computed Tomography (CT) Scans and Autopsy Results of Nine Civilian Casualties of a Terrorist Attack
Vincenzo M. Grassi, MD; Simone Grassi, MD; Tommaso Tartaglione, MD; Vincenzo L. Pascali, MD, PhD; Antonio Oliva, MD, PhD*

3:00 p.m. - 3:15 p.m. Break

General Forensics and Crimes II

Moderator: Frank M. Marchak, PhD
Veridical Research and Design
Bozeman, MT

Co-Moderator: Patricia C. Smith, MSL
Harris County District Attorney’s Office
Houston, TX

3:15 p.m. - 3:30 p.m. E67 Forensic Facial Reconstruction in Identification vs. Archaeological Investigation: Science or Art?
Sharon K. Moses, PhD*

3:30 p.m. - 3:45 p.m. E68 Clinical Implications of Using Alternate Light to Assess Bruises
Daniel J. Sheridan, PhD*; Katherine N. Scafide, PhD; Nancy R. Downing, PhD; Matt Hyat, PhD

*Presenting Author
GENERAL

3:45 p.m. - 4:00 p.m.  E69  Ocular Measures in the Detection of Deception
  Frank M. Marchak, PhD*

4:00 p.m. - 4:15 p.m.  E70  Breaking the Code to Better Understanding Asian Youth Gangs
  Cliff Akiyama, MPH, MA*

4:15 p.m. - 4:30 p.m.  E71  Characteristic Injuries of Organized Dogfighting
  Rachel Touroo, DVM*

4:30 p.m. - 4:45 p.m.  E72  The Use of Forensic Osteology in Animal Cruelty Investigations
  Amanda Fitch, MS*

4:45 p.m. - 5:00 p.m.  E73  Gap Assessment of Stress, Vicarious Trauma, and Resiliency for Forensic Science Professionals
  Andrew P. Levin, MD*; Heidi Putney, MA*; Danielle M. Crimmins, MS*; Jonathan G. McGrath, PhD

Friday

General Forensics and Crimes III

Moderator: Kimberlee Sue Moran, MSc
Rutgers University - Camden
Camden, NJ

Co-Moderator: Adam C. Armstrong, MS
U.S. Army Criminal Investigation Division
Fort Bragg, NC

8:30 a.m. - 8:45 a.m.  E74  Advances in Color and Texture Analysis of Human Hair
  David S. Hernandez Funes*; Candice Bridge, PhD

8:45 a.m. - 9:00 a.m.  E75  Discrimination Between Human and Animal Blood by Attenuated Total Reflection/Fourier Transform Infrared (ATR/FTIR) Spectroscopy for Forensic Purposes
  Ewelina M. Mistek, MS*; Igor K. Lednev, PhD

9:00 a.m. - 9:15 a.m.  E76  Linking Footprints to Feet: Research Advances and a Daubert Case Study
  Michael S. Nirenberg, DPM*; Kewal Krishan, PhD

9:15 a.m. - 9:30 a.m.  E77  A Tale of a White-Tailed Deer: Anomalous Serology and DNA Results Offer Clues in an Alleged Hit-and-Run Case
  Maher Noureddine, PhD*; AnnMarie Clark, MS; James A. Bailey, PhD

9:30 a.m. - 9:45 a.m.  E78  Digital Photography of Decomposed Fingertips for Postmortem Fingerprint Identification
  Rachael Landrie*

9:45 a.m. - 10:00 a.m.  E79  Development of Baseline Performance Levels for Standardized Field Sobriety Tests in Sober Individuals
  Zoe Foglia*; Karen S. Scott, PhD; Scott M. Davis; Heather L. Harris, JD

10:00 a.m. - 10:15 a.m.  Break

*Presenting Author
11:30 a.m. - 1:00 p.m.  E90  “Giant” Aneurysm of the Right Coronary Artery—The “Fortuitous Event” in Road Traffic: The Relevance of the Judicial Autopsy  
Lorenzo Marinelli*; Elena Lucenti, MD*; Omar Bonato, MD*; Mauro Coppone, MD*; Matteo Fabbri, MS*; Rosa Maria Gaudio; Marianna Daniele; Margherita Neri, MD, PhD

11:30 a.m. - 1:00 p.m.  E91  The Abuse and Misuse of Prescription Opioids: Is It Only an American Problem?  
Andrea Cioffi*; Zoe Del Fante, MD; Nicola Di Fazio; Gianpietro Volonnino; Enrica Pinchi; Aniello Maiese, MD

11:30 a.m. - 1:00 p.m.  E92  On-Going Decision Analysis (a.k.a. Black Box) Studies at the Federal Bureau of Investigation (FBI) Laboratory  
Colbey Ryman*; Jocelyn V. Abonamah, MFS; Paige Riley*; Keith L. Monson, PhD; Brian Eckenrode, PhD

11:30 a.m. - 1:00 p.m.  E93  The Role of Postmortem Computed Tomography (PMCT) and Immunohistochemical Techniques in a Case of Aspiration Pneumonia in Suspected Sudden Infant Death Syndrome (SIDS)  
Gianpietro Volonnino*; Valentina Fazio; Silvia Romano; Alessia Quattrocchi; Massimiliano dell’Aquila, MD; Raffaele La Russa, MD

11:30 a.m. - 1:00 p.m.  E94  Epidural Hematoma in a Whiplash Cervical Injury: A Rare Condition  
Luca Tomassini*; Andrea Cioffi; Valentina Fazio; Zoe Del Fante, MD; Gianpietro Volonnino; Paola Santoro, MD; Mauro Arcangeli

11:30 a.m. - 1:00 p.m.  E95  Auxillary Artery Injury: A Rare Case of Death by Severe Blood Loss Due to an Accidental Fall  
Paola Santoro, MD*; Valentina Fazio; Nicola Di Fazio; Alessia Quattrocchi; Andrea Cioffi; Alessandra De Matteis, MD

11:30 a.m. - 1:00 p.m.  E96  The “Social Web” Autopsy as an Evolution of Psychological Autopsy: The Application of the Method in Forensic Cases in Comparison  
Carmen Scalise, MD*; Francesco Sicilia, MD*; Matteo A. Sacco, MD*; Ada Maida; Valerio R. Aquila; Fabrizio Cordasco, MD*; Luigi De Aloe, MD; Cristoforo Ricci, PhD; Orazio Malfa, MD; Pietrantonio Ricci, PhD; Roberto Raffaele, BE*; Silvia Boca; Santo Gratteri, MD; Isabella Aquila, MD. PhD*

11:30 a.m. - 1:00 p.m.  E97  The Role of Social Networks in the Crime of Stalking: A Case of Murder  
Matteo A. Sacco, MD*; Roberto Raffaele, BE*; Santo Gratteri, MD; Pietrantonio Ricci, PhD; Fabrizio Cordasco, MD; Francesco Sicilia, MD; Vincenzo Rania, MD; Carmen Scalise, MD; Luigi De Aloe, MD; Cristoforo Ricci, PhD; Orazio Malfa, MD; Isabella Aquila, MD. PhD*

11:30 a.m. - 1:00 p.m.  E98  Optimizing Sensitivity and Validating the Illumina® Infinium Assay for Genotyping of Forensically Relevant Sample Types for Investigative Lead Generation  
David Russell, MS*; Elayna Moreithi, MS; Christina Neal, MS; Mary Heaton, MS; Stephen Turner

11:30 a.m. - 1:00 p.m.  E99  Suicidal Cut-Through Wounds: Elements of Differentiation From Homicidal Slaughtering  
Giulia Guibinelli*; Eloisa Maselli, MD; Valeria Bruno, MD; Francesca Donno, MD; Gianni De Giorgio; Alessandro Dell’Erba, PhD

11:30 a.m. - 1:00 p.m.  E100  Forensic Science in the United States Court of Appeals: A Ten-Year Review (2009–2018)  
Danielle M. Crimmins, MS*; Martin Novak, MPA*
11:30 a.m. - 1:00 p.m. E101 Time Between Sexual Assault and Evidence Collection: Implications for the Development of Combined DNA Index System (CODIS) - Eligible DNA Profiles
Lauren Schagel*; Julie L. Valentine, PhD*; Leslie Miles, DNP

11:30 a.m. - 1:00 p.m. E102 Does It Wash Away? The Impact of Bathing or Showering on DNA Analysis Findings From Sexual Assault Kits
Deborah Richardson*; Julie L. Valentine, PhD*; Leslie Miles, DNP

11:30 a.m. - 1:00 p.m. E103 Testing Sexual Assault Kits Leads to Justice for Both Victims and Suspects
Reilly Caten, BS*; Julie L. Valentine, PhD*; Leslie Miles, DNP

11:30 a.m. - 1:00 p.m. E104 Giving a Voice to Male Rape Victims Through Novel Short Tandem Repeat (STR) DNA Findings
Jacob Momberger*; Sam Pugh*; Julie L. Valentine, PhD*; Leslie Miles, DNP

11:30 a.m. - 1:00 p.m. E105 Homicide by Unspecified Means: The Importance of a Forensic Pathologist and Anthropologist Teamwork Approach in Death Scene Investigation and Postmortem Analysis
Hailee St. Louis, BS*; Jered B. Cornelison, PhD; Carolyn V. Isaac, PhD; Theodore T. Brown, MD

11:30 a.m. - 1:00 p.m. E106 Drowning: The Silent Death
Cheyenne M. Graham*; Roxanne Phatak, MS

Forensic Education

**Moderator:** Sarah N. Crosby, MS  
U.S. Army  
Arlington, VA

**Co-Moderator:** Heather V. Milnthorp, MSFS  
Center for Forensic Science Research & Education  
Willow Grove, PA

1:00 p.m. - 1:15 p.m. E107 Let's Solve It: Designing an Interactive and Engaging Online Forensic Science Laboratory Course
Gina Londino-Smolar, MS*

1:15 p.m. - 1:30 p.m. E108 High-Impact Learning Within a Project-Based Learning Course
John A. Williams, PhD*

1:30 p.m. - 1:45 p.m. E109 Engaging Freshman Undergraduate Students in Forensic Science Research to Improve Science, Technology, Engineering, and Math (STEM) Retention
Kristi Bugajski, PhD*

1:45 p.m. - 2:00 p.m. E110 Forensic Science Distance Education: Trials, Tribulations, and Triumphs
Lerah Sutton, PhD*; Jason H. Byrd, PhD

2:00 p.m. - 2:15 p.m. E111 Using Online Learning and Gamification to Enhance Reasoning Skills
Sarah R. Coffman*; Lyndsie N. Ferrara, PhD*

2:15 p.m. - 2:30 p.m. E112 Crossing the Border Between Academia and Forensic Science Practice: Managing a Successful Student Internship Program in an Integrated Medical Examiner Office and Crime Laboratory
Jasmine M. Jefferson, MS*; Michal L. Pierce, MS

2:30 p.m. - 2:45 p.m. E113 Forensic Sciences Learning for Victims of Enforced Disappearances
Carlos A. Gutierrez, MS*

2:45 p.m. - 3:00 p.m. Break

Poster Session

11:30 a.m. - 1:00 p.m.  F26  The Importance of Evidence in Proof of Accusation in Criminal Procedure Law in Turkey  
Hatice Yilmaz, BS*; Tugba Umsal, PhD; Sevil Atasoy, PhD

Multidisciplinary Session: Digital & Multimedia Sciences & Jurisprudence—Digital Forensics I

Moderator:  Maxwell Christopher Fabricant, JD  
The Innocence Project  
New York, NY

Co-Moderator:  Danielle D. Ruttman, JD  
Brooklyn, NY

1:15 p.m. - 1:30 p.m.  F27  The Need for a Full Specification for Digital Forensic Tool Validation  
Nicolas R. Hughes, JD*

1:30 p.m. - 2:00 p.m.  C41  Narrative Use Cases for Harmonizing Forensic Science Practices and Digital/Multimedia Evidence  
Mark Pollitt, PhD*; Eoghan Casey, PhD*

2:00 p.m. - 3:00 p.m.  C42  Digital Evidence in the United States Courts of Appeal  
Martin Novak, MPA*

3:00 p.m. - 3:15 p.m.  Break

Multidisciplinary Session: Digital & Multimedia Sciences & Jurisprudence—Digital Forensics II

Moderator:  Jerry G. Landau, JD  
Arizona Supreme Court  
Phoenix, AZ

Co-Moderator:  Howard S. Stein, JD  
Stein Lotzkar and Starr P.S., Inc  
Bellevue, WA

3:15 p.m. - 3:30 p.m.  F28  #Datastories  
Paul Reedy*

3:30 p.m. - 3:45 p.m.  F29  Spotting Stingrays: The Legal Issues of Covert Cell Phone Location Surveillance  
Michael Buresh, JD*

3:45 p.m. - 4:15 p.m.  F30  Historical Cell-Site Location Basics  
Michael Buresh, JD*

4:15 p.m. - 4:45 p.m.  F31  Drone Laws: The Imminent Quandry  
Corey A. Bauer, JD*; Victor W. Weedn, MD, JD*; Anthony M. Hallett*

*Presenting Author
Wednesday

Poster Session

11:30 a.m. - 1:00 p.m.  G1  The Applicability of the “Dimodent” Sex Predictive Equation Assessed in a Senegalese Population  
Khalifa Dieng, DDS, PhD*; Sankoung Soumboundou*

11:30 a.m. - 1:00 p.m.  G2  A Case of Great East Japan Earthquake Human Remains for Which Digital Imaging Analysis of Dentures Helped in Identification  
Akiko Kumagi, DDS, PhD*; Mitsuru Izumisawa, PhD; Noriaki Takahashi, PhD; Yutaro Oyamada, PhD; Takuya Kobayashi, PhD

11:30 a.m. - 1:00 p.m.  G3  Should Facial Marks Created Because of Tooth Loss Be Considered as Hard Evidence?  
Huseyin Afsin, PhD*; Gulnaz T. Javan, PhD

Thursday

Dental Identification

Moderator: Beverly Hedgepeth, DDS  
Memphis, TN  
Co-Moderator: Julie Wallace, DDS  
Elk River, MN

8:30 a.m. - 9:00 a.m.  G4  Paradise Lost: The Camp Fire  
Mark D. Porco, DDS*

9:00 a.m. - 9:20 a.m.  G5  National Crime Information Center (NCIC) Dental Coding: Washington State Patrol's Missing/Wanted and Unidentified Persons Unit (WSP/MUPU) Cold Case Hit  
Kyle C. Tanaka, DDS*; Gary L. Bell, DDS

9:20 a.m. - 9:35 a.m.  G6  Exhumed Remains: A Historic United Kingdom Case Review  
Camilla George, BDS*; Gaille MacKinnon, MSc

9:35 a.m. - 9:50 a.m.  G7  “Oscar”: The Final Chapter  
Warren D. Tewes, DDS*

9:50 a.m. - 10:10 a.m.  G8  The Drowning of 26 Koreans in the Danube in Budapest  
Armin A. Farid, DMD*

10:10 a.m. - 10:25 a.m.  Break

*Presenting Author
Dental Identification

Moderator: Susan J. Baker, DMD
Atlanta Laser Periodontics & Dental Implants
Norcross, GA

Co-Moderator: Brian J. Murphy, DDS
Mi Mort
Holly, MI

10:25 a.m. - 10:40 a.m.  G9  A Measurement of Morphological Features of Maxillary First Molar Crowns for Human Dental Identification
Ana M. Milheiro, PhD*; Cezar Capitaneanu, DMD, PhD; Emmy Shaheem, PhD; Steffen Fieuws; Patrick W. Thevissen, PhD

10:40 a.m. - 10:55 a.m.  G10  The Uniqueness of Human Teeth: A Systematic Review and Meta-Analysis
Cezar Capitaneanu, DMD, PhD*; Guy Willems, PhD; Patrick W. Thevissen, PhD

10:55 a.m. - 11:10 a.m.  G11  Sex Estimation Using Enamel and Dentin Proportions of Human Mandibular Canines
Zama Moosvi, MDS, MS*; Scheila Manica, PhD; Gavin F. Revie, PhD

11:10 a.m. - 11:25 a.m.  G12  Sexual Dimorphism in Mandibles and Permanent Mandibular Canines in a Brazilian Population: A Pilot Study
Gabriel C. Dias*; Macelle V. Campos; Carolina P. Magalhães; Renata C.F. Campina; Jaciel B. Oliveira

11:25 a.m. - 11:40 a.m.  G13  Forensic Dental Identification: Using Computerized Tomographic (CT) Scans to Identify Human Remains
Iris L. Shields, DDS*; Patrick A. Murray, DDS

11:40 a.m. - 11:55 a.m.  G14  A Study of Non-Metric Dental Traits of a North Indian Population: Forensic Aspects
Kewal Krishan, PhD*; Sandeep Kaur, PhD

11:55 a.m. - 1:30 p.m.  Lunch

Poster Session

11:30 a.m. - 1:00 p.m.  G15  Hurricane Michael: The Role of the Forensic Odontologist
Lisa M. Hofstad, DMD*

11:30 a.m. - 1:00 p.m.  G16  The Incorporation of Both Community and Forensic Dentistry in the Child Abuse and Neglect Clinic in Turin, Italy
Emilio Nuzzolese, PhD*; Elena Coppo, MD*; Francesco Lupariello, MD*; Caterina Bosco, MD; Luana Bonaccurso, MD; Ilaria Cavecchia, MD; Giancarlo Di Vella, MD, PhD*

11:30 a.m. - 1:00 p.m.  G17  A Forensic Age Estimation From the Pulp/Tooth Area Ratio (PTR) of the Canines: A Forensic Odontological Study
Jagmahender Singh Sehrawat, PhD*
Dental Identification

Moderator: Mark W. Crumpton, DMD
Maryville, TN

1:30 p.m. - 1:45 p.m. G18 Fractalise Software—The Analysis of the Trabecular Bone in Identification
(The Continuation)
Sylvain Desranleau, DMD*

1:45 p.m. - 2:00 p.m. G19 An Innovative Approach to the Importation and Conversion of Antemortem (AM) Dental Data to Blockchain-Protected Forensic Data for Utilization in Disaster Victim Identification (DVI)
Shada Alsalamah, PhD*; Alaa Alimam, BS; Ahmad Alabdullatif, BS; Maram Alamri, BS; Miral Althaqeb, BS; Sara Alqahtani, BS; Kenneth W. Aschheim, DDS*; Sakher J. AlQahtani, PhD*

2:00 p.m. - 2:30 p.m. G20 The Identification of Skeletal Remains After Nearly Two Decades
Robert C. Walcott, DDS*

2:30 p.m. - 2:45 p.m. G21 The Odontologist Relationship With Medicolegal Death Investigators in the Setting of the Medical Examiner’s Office and Their Role in Obtaining Antemortem Dental Records for Identification
Christen C. Eggers, MS*; John A. Piakis, DDS; Leigh-Ann Schuerman, DMD

2:45 p.m. - 3:00 p.m. G22 The Performance of Forensic Craniofacial Identification in Surgically Altered Faces
Petra Urbanová, PhD*; Hana Eliasova, PhD; Tatjana Dostalova, MD, PhD

3:00 p.m. - 3:30 p.m. Break

Dental Identification

Moderator: Tina R. Woods, DMD
University of Mississippi Medical Center
Jackson, MS

3:30 p.m. - 4:00 p.m. G23 The Recent Identification of a World War II Canadian Soldier: A Multidisciplinary Teamwork Approach
Melanie Dumas, DMD*; Trenna M. Reeve, DMD*; Sarah Lockyer, PhD*

4:00 p.m. - 4:20 p.m. G24 Automated Identification From Dental Data (AutoIDD): A New Development in Digital Forensics
Gowri V. Reesu*; Brenaimn D. Woodsend, BS; Scheila Manica, PhD; Gavin F. Revie, PhD; Peter A. Mossey, PhD; Nathan L. Brown, PhD

4:20 p.m. - 4:35 p.m. G25 Helpful Hints for a Variety of Dental Autopsy Situations and a Compilation of “Interesting” Cases
Veronique F. Delattre, DDS*

4:35 p.m. - 4:50 p.m. G26 A Dental Malpractice Case Involving a Potentially Broken Dental Bur
Cheri Lewis, DDS*
Friday

Dental Age Assessment

Moderator: Iris L. Shields, DDS
Bel Air, MD

Co-Moderator: Michael Clay, DMD
Foley, AL

8:30 a.m. - 9:00 a.m. G27 Thresholding Adulthood: What Are We Doing?
James F. Goodrich, FFOMP*

9:00 a.m. - 9:20 a.m. G28 Method Differences, Population Differences, or Examiner Differences: Which Affects the Age Estimation the Most?
Sakher J. AlQahtani, PhD*

9:20 a.m. - 9:40 a.m. G29 Forensic Age Estimation Based on the London Atlas of Human Tooth Development and Eruption Assessment in a Population With Systemic Disorders: A Pilot Study
Cristiana M.P. Pereira, PhD*; Lucianna P. Russell, MD; Maria Pádua, DDS; Ricardo H.A. Silva, PhD; Rui Filipe Vargas de Sousa Santos, PhD

9:40 a.m. - 9:55 a.m. G30 Dental Age and Odds Probability at the 18-Year Threshold
Graham J. Roberts, MDS*; Fraser McDonald, PhD; Fiona Warburton, MS; Victoria S. Lucas, PhD*

9:55 a.m. - 10:15 a.m. G31 Calculating the Standard Deviation: An Innovative Approach for Utilizing Historical Databases
Sakher J. AlQahtani, PhD*; Kenneth W. Aschheim, DDS*

10:15 a.m. - 10:30 a.m. Break

Dental Age Assessment

Moderator: Amanda L. Thompson, DMD
Birmingham, AL

10:30 a.m. - 10:45 a.m. G32 Third Molar Development in Caucasian and Chinese Populations and Its Implication in Dental Age Estimation
Jayakumar Jayaraman, PhD*; Graham J. Roberts, MDS

10:45 a.m. - 11:00 a.m. G33 Minimum Values for Mandibular Maturity Markers
Victoria S. Lucas, PhD*; Fraser McDonald, PhD; Graham J. Roberts, MDS

11:00 a.m. - 11:15 a.m. G34 Dental Development in a London Population of Diverse Ethnicity
Sally E. Andrews, MS*; Graham J. Roberts, MDS; Fraser McDonald, PhD; Pat Set, FRCR; Fiona Gilbert, FRCR

11:15 a.m. - 11:30 a.m. G35 A Comparison of Dental Age Estimations From Two Radiographic Methods of Metric Analysis in North Indian Young Adults
Deeksha Sankhyan*; Jagmahender Singh Sehrawat, PhD

*Presenting Author
11:30 a.m. - 11:50 a.m. G36 Demirjian 2.0
Corinne D’Anjou, DMD*; Derek M. Draft, DDS*; Arto Demirjian, DMD; Sigrid I. Kvaal; Normand Bach, DMD

11:50 a.m. - 1:30 p.m. Lunch

**Poster Session**

11:30 a.m. - 1:00 p.m. G37 An Analysis of a Dental Prosthesis Technique in Korean War Casualties
Seoeun Oh*; Hyejin Lee; Seokdong Oh; Kyoungmin Koh; Yu Ryang Jang, PhD

11:30 a.m. - 1:00 p.m. G38 The Advantages and Limitations of Various Dental Age Estimation Methods in Forensic Odontology: A Systematic Review
Jagmahender Singh Sehrawat, PhD*

11:30 a.m. - 1:00 p.m. G39 Disaster Victims Identification (DVI) Using Digital Radiology: A Case Report of a Brumadinho Victim Identification by the Dental Comparative Method
Sandra G.G. da Silva*; Luciene M. Corradi, MS; Denise V. Travassos

**Dental Age Assessment**

Moderator: Grace Chung, DDS
Clark County Office of Coroner/Medical Examiner
Las Vegas, NV

1:30 p.m. - 1:45 p.m. G40 A Data-Driven Process, Prediction, and Reporting Model to Improve Human Identification Using the Mobile Application Intelligent System in Automation of Legitimated Examination Methods (iSALEM)
Salem Altalie, FACLM*

1:45 p.m. - 2:00 p.m. G41 The Estimation of Sex From Dental Arch Dimensions: An Odontometric Analysis
Tanuj Kanchan, MD*; Rutwik D. Shedge, MSc; Vinay Kumar Chugh, MDS; Ankita Chugh, MDS

2:00 p.m. - 2:15 p.m. G42 Cementum Annuli: Technique, Microscopy, and Assessment of Age
Michael Clay, DMD*; Murray K. Marks, PhD; James M. Lewis, DMD; Paula C. Brumit, DDS

2:15 p.m. - 2:30 p.m. G43 Morphological Examinations of the Teeth and Jaw Fragments Retrieved From an Ajnala Skeletal Assemblage: A Forensic Odontological Study
Jagmahender Singh Sehrawat, PhD*; Ashith B. Acharya, GDFO

2:30 p.m. - 2:45 p.m. Break
**ODONTOLOGY**

**Thomas Krauss Memorial Bitemark Session**

**Moderator:** Roland G. Chew, DDS  
Fremont, CA

2:45 p.m. - 3:00 p.m. **G44**  
*The Importance of Bitemarks in Child Abuse Cases in Turkey*  
Huseyin Afsin, PhD*; Sermet Koc; Gulnaz T. Javan, PhD

3:00 p.m. - 3:15 p.m. **G45**  
*A 3D Analysis of Bitemarks: A Validation Study Using an Intraoral Scanner*  
Géromine Fournier, DDS*; Frederic Savall; Norbert Telmon, PhD, MD; Delphine Maret, PhD

3:15 p.m. - 3:35 p.m. **G46**  
*3D Dental Digital Study Models in Bitemark Comparison*  
Robert B.J. Dorion, DDS*

3:35 p.m. - 3:50 p.m. **G47**  
*Non-Bitemarks That I Have Known*  
Robert E. Wood, DDS, PhD*; Yolanda Nerkowski, BA*; Taylor L. Gardner, BFS*

3:50 p.m. - 4:10 p.m. **G48**  
*A Historic Perspective of Bitemark Analysis and Bitemark Comparison*  
Robert B.J. Dorion, DDS*
PATHOLOGY/BIOLOGY

Wednesday

Poster Session

11:30 a.m. - 1:00 p.m.  H1  Circumstances and Injuries in Female Homicide Victims of Strangulation: A Four-Decade Review of 143 Cases in King County, Washington
Robert Johnston, DO*; Richard C. Harruff, MD, PhD; Micheline Lubin, MD; Cloyd Steigerr; Nicole Siver

11:30 a.m. - 1:00 p.m.  H2  A Fistful of Dollars: An Unexpected Delayed Development and Rupture of a Traumatic Fusiform Posterior Inferior Cerebellar Artery (PICA) Aneurysm
Maria Silvestre, MD; Pietrantonio Ricci, PhD; Michela Ferrara, MD; Lorenzo Spagnolo, MD; Stefania De Simone, MD; Francesco Sessa, MS*; Giuseppe Bertozzi, MD*

11:30 a.m. - 1:00 p.m.  H3  An Accidental Death Caused by Blunt Force Injuries Resulting in Multiple Fractures and a Pulmonary Fat Embolism
Juliana Molosky*; Stephen Peltier, BS; Joseph A. Prahow, MD

11:30 a.m. - 1:00 p.m.  H4  Carbon Dioxide Asphyxiation Due to Pulmonary Embolism: A Case Report
Katherine Cochrane, MD*; Darinka Mileusnic-Polchan, MD, PhD

11:30 a.m. - 1:00 p.m.  H5  Autopsy Findings in Dog Attacks in Mississippi
Katie C. Donohue*; Heather M. McLendon*

11:30 a.m. - 1:00 p.m.  H6  Frangible Ammunition in Gunshot Wound Suicides in the Hampton Roads Region of Virginia: An Upward Trend?
Catherine G. Wilson, BS*; Gary M. Zientek, MD; Wendy M. Gunther, MD

11:30 a.m. - 1:00 p.m.  H7  The Feasibility of an Enteroclysis Pump for Postmortem Computed Tomography Angiography (PMCTA)
Marloes E.M. Vester, MD; Ellen Servaas, MSc; Ludo F.M. Beenen, MD; Mara Clercx; Astrid De La Rie, MS; Nick Lobé; Maaike J. Vogel; Rick R. Van Rijn, MD, PhD*; Roelof-Jan G. Oostra, PhD

11:30 a.m. - 1:00 p.m.  H8  The Utility of Routine Histological Sampling in the Assessment of Cause and Manner of Death in Medicolegal Autopsies—Fire, Immersion, and Traffic-Related Deaths
Björn Bäckström, MD*; Staffan Finn; Peter Lydig; Oscar Sandberg; Anders Eriksson, MD, PhD; Torfinn Gustafsson, MD

11:30 a.m. - 1:00 p.m.  H9  Fibroplasia Ossificans Progressiva (FOP): Could Autopsy Define Syndromic Features?
Vittorio Bolcato, MD; Matteo Moretti, MD*; Claudia Carelli; Davide Radaelli; Paolo Musto; Silvia D. Visona, MD; Gulnaz T. Javan, PhD; Antonio M.M. Osculati, MD

11:30 a.m. - 1:00 p.m.  H10  A Questionable Cause of Death Alphabet Soup: Anaphylaxis, Bees, Cocaine, Diabetic Ketoacidosis (DKA), Emphysema, Fogger, Hypothermia, Insecticide, and Opiates
Thomas B. Duong, BS*; John Winterholler, BS; Joseph A. Prahow, MD; Prentiss Jones, Jr., PhD

11:30 a.m. - 1:00 p.m.  H11  The Importance of Dashboard Camera Analysis in Fatal Vehicle-Pedestrian Crash Reconstruction
Paolo Fais, PhD*; Jennifer Pascali, PhD; Guido Pelletti, MD; Alessio Giusti; Susi Pelotti, MD

11:30 a.m. - 1:00 p.m.  H12  Computed Tomography (CT) and X-Ray Angiography on a Case of Traumatic Carotid Artery Occlusion Following a Physical Altercation Resulting in Cerebral Infarction
Francesco Pontoriero, DO*; Rochelle A. Simon, MD; Zabiullah Ali, MD; Nikki Mourtzinos, DO; David R. Fowler, MD
11:30 a.m. - 1:00 p.m.  H13  IL-15, CD-15, and Tryptase as Markers of Wound Vitality in Compressed Neck Skin: When Conventional Macroscopic and Histological Findings Fail
Omar Bonato, MD*; Sara Chierici; Elena Lucenti, MD; Mauro Coppone, MD; Letizia Alfieri, MD; Enrica Calabrese, MD; Paolo Frisoni, MD; Matteo Fabbri, MS; Matteo Marti, PhD; Rosa Maria Gaudio; Margherita Neri, MD, PhD

11:30 a.m. - 1:00 p.m.  H14  Where is the Neoplasm? The Postmortem Diagnosis of Intravascular Large B-Cell Lymphoma (IVLBCL)
Zoe Del Fante, MD*; Nicola Di Fazio; Silvia Romano; Alessandra De Matteis, MD; Paola Santoro, MD; Aniello Maiese, MD

11:30 a.m. - 1:00 p.m.  H15  Numerical Postmortem Interval (PMI) Estimation Streamlined for Forensic Practice: Combining Photogrammetry, Thermal Imaging, and Computed Tomography (CT)
Leah Wilk*; Gerda Edelman; Maurice Aalders

11:30 a.m. - 1:00 p.m.  H16  When Hidden Elder Abuse Leads to Death: An Analysis of Casework
Alberto Amadasi, MD*; Federica Fersini; Paolo Fais, PhD; Guido Pelletti, MD; Maria Carla Mazzotti, MD; Susi Pelotti, MD

11:30 a.m. - 1:00 p.m.  H17  A Corpse in a Suitcase: A Case of Strangulation
Francesco Amico, MD*; Marco Torrisi; Dario Condorelli; Ilenia Russo; Martina Fichera, MD; Giuseppe Cocimano, MD; Giulio Di Mizio, MD, PhD; Monica Salerno, MD, PhD; Angelo Montana, MD*; Fabrizio Vanaria, MD*

11:30 a.m. - 1:00 p.m.  H18  The Analysis of Head Injury in the Evaluation of Manner of Death: A Forensic Case Series and a Review of the Literature
Isabella Aquila, MD, PhD*; Francesco Sicilia, MD; Carmen Scalise, MD*; Luigi De Aloe, MD; Fabrizio Cordasco, MD*; Santo Gratteri, MD; Matteo A. Sacco, MD; Pietrantonio Ricci, PhD

11:30 a.m. - 1:00 p.m.  H19  The Anesthesiologist's Responsibility in Intracranial Placement of the Nasogastric Tube (NGT): A Case Series and Literature Review
Alessandro Bonsignore, MD, PhD*; Gianluca Landi; Federico Longhini, MD; Francesca Buffelli, PhD, MD

11:30 a.m. - 1:00 p.m.  H20  Powder-Free DNA Extraction Protocol From Bones and Teeth
Heitor Correa*; Gloria Brescia; Venusia Cortellini, PhD; Andrea Verzeletti, MD

11:30 a.m. - 1:00 p.m.  H21  A Complete Transection of the Aorta During Resuscitative Efforts
Amanda Ho*; Grant W. Herndon, DO

11:30 a.m. - 1:00 p.m.  H22  A Proposal of a Score to Evaluate Discrepancies Between the Results of External Body Examination and Forensic Autopsy
Sara Gioia, MD*; Valentina Rosati, MD*; Massimo Lancia, MD*; Fabio Suadoni, MD

11:30 a.m. - 1:00 p.m.  H23  Immunohistochemical Detection of Fibronectin, P-Selectine, FVIII, HSP-70, and MRP-8 in the Skin of Ligature Marks of Suicidal Hangings
Fiorella Caputo, MD*; Rosario Barranco*; Francesco Ventura, MD*; Tony Fracasso, MD, PhD

11:30 a.m. - 1:00 p.m.  H24  A Metabolomic Profile of Aqueous Humor in a 24-Hour Period After Death: An Animal Model for Postmortem Interval (PMI) Estimation
Emanuela Locci, PhD; Matteo Stocchero, PhD; Alberto Chighine, MD*; Fabio De Giorgio, MD; Matteo Nioi, MD; Ernesto d’Aloja, MD, PhD

### PATHOLOGY/BIOLOGY

**11:00 a.m. - 11:15 a.m.**  
**H45**  
**Shallow-Water Blackout: A Rare Case of Death During Pool Free Diving**  
*Aldo Liberto, MD*; Martina Fichera, MD; Pasquale Malandrino, MD; Dario Condorelli; Giuseppe Cocimano, MD; Orazio Casico, MD; Edmondo Scoto; Monica Salerno, MD, PhD; Angelo Montana, MD; Giulio Di Mizio, MD, PhD

**11:15 a.m. - 11:30 a.m.**  
**H46**  
**The Elphinstone Tragedy: Understanding the Chaos of a Human Stampede on the Staircase of a Railway Station Footbridge**  
*Manoj Bhausaheb Parchake, MD*

**11:30 a.m. - 11:45 a.m.**  
**H47**  
**A Unique Pattern of Tusk Injuries by Wild Boar: A Ten-Year Autopsy Analysis**  
*Nilesh Keshav Tumram, MD*

**11:45 a.m. - 12:00 p.m.**  
**H48**  
**Hypothermia Deaths and Altered Mental Status**  
*Jasmine Saeedian*; *Joseph A. Prahlow, MD*

**12:00 p.m. - 1:00 p.m.**  
**Lunch**

### Poster Session

**11:30 a.m. - 1:00 p.m.**  
**H49**  
**An Evaluation of Sudden Deaths Due to Myocarditis: A Study of Autopsy Cases**  
*Xiang Zhang, MD*; *Peping Lei, MD*; *Rong Li*; *Mary G. Ripple, MD*; *David R. Fowler, MD*; *Ling Li, MD*  

**11:30 a.m. - 1:00 p.m.**  
**H50**  
**A Case of Pulmonary Artery Dissection in a Woman With Chronic Pulmonary Hypertension**  
*Robyn Parks*; *Lawrence Nguyen, MD*

**11:30 a.m. - 1:00 p.m.**  
**H51**  
**Mal D’Afrique: The Mysteries of Endomyocardial Fibrosis in Western Countries**  
*Claudia Perrone, MD*; *Alessio Ostuni, MD*; *Silvia Trotta*; *Andrea Andrea Marzullo, MD*; *Biagio Solarino, PhD*

**11:30 a.m. - 1:00 p.m.**  
**H52**  
**Emphysematous Gastritis: A Rare Disease With a Fulminant Course**  
*Melissa E. Toeller-DeSimone, BS*

**11:30 a.m. - 1:00 p.m.**  
**H53**  
**Cardiac Amyloidosis—Two Cases**  
*Stephen Pelletier, BS*; *Juliana Molosky*; *Theodore T. Brown, MD*; *Joseph A. Prahlow, MD*

**11:30 a.m. - 1:00 p.m.**  
**H54**  
**An Anomalous Origin of Right Coronary Artery as a Possible Cause of Sudden Cardiac Death in an Athlete: A Case Report**  
*Pauline Saint-Martin, MD, PhD; Camille Rerolle, MD; Nemo Grasset, MD; Melanie Seignier, MD; Justine Canales, MD*

**11:30 a.m. - 1:00 p.m.**  
**H55**  
**A Tell-Tale Heart: A Case of Takotsubo Cardiomyopathy at Autopsy**  
*Meredith A. Reynolds, MD*; *Kyle G. Parker, MD*; *Kelly A. Pokrywiecki, BA, BS*; *Jefree J. Schulte, MD*; *Kammi J. Henriksen, MD*; *Aliya N. Husain, MBBS*

**11:30 a.m. - 1:00 p.m.**  
**H56**  
**Autopsy Findings of Individuals Displaying Symptoms of Pica**  
*Heather M. McLendon*; *Katie C. Donohue*

**11:30 a.m. - 1:00 p.m.**  
**H57**  
**Unexpected and Sudden Cardiac Death Due to Eosinophilic Myocarditis (EM): Still a Difficult Task for Forensic Pathologists**  
*Rosario Barranco*; *Davide Bedocchi, MD*; *Alessandro Bonsignore, MD, PhD*; *Francesco Ventura, MD*
PATHOLOGY/BIOLOGY

11:30 a.m. - 1:00 p.m.  H58  An Unusual In-Custody Death  
Baiyang Xu, MD*

11:30 a.m. - 1:00 p.m.  H59  A Case of Fulminant Spontaneous Necrotizing Soft Tissues Infections (NSTI) of the Chest Wall in a Man With No Risk Factors  
Sara Gioia, MD*; Valentina Rosati, MD*; Lisa Franceschetto, MD; Fabio Suadoni, MD

11:30 a.m. - 1:00 p.m.  H60  Acute Colonic Pseudo-Obstruction (ACPO) (Ogilvie Syndrome) Leading to Respiratory Compromise and Death  
John Dewey, BS*; Joseph A. Prahlow, MD

11:30 a.m. - 1:00 p.m.  H61  Intramyocardial Lipoma of the Right Atrium: Two Cases Diagnosed at Forensic Autopsy  
Sydney C. Pawsey, BS*; Wendy M. Gunther, MD

11:30 a.m. - 1:00 p.m.  H62  A Fatal Case of Chemical Peritonitis Caused by a Spontaneous Rupture of the Pancreatic Pseudocyst: A Forensic Approach  
Massimiliano Esposito, MD*; Giuseppe Cocimano, MD*; Giuseppe D. Albano, MD; Aldo Liberto, MD; Diego Geraci, PhD; Martina Fichera, MD; Giulio Di Mizio, MD, PhD; Pasquale Malandrino, MD; Fabrizio Vanaria, MD; Monica Salerno, MD, PhD

11:30 a.m. - 1:00 p.m.  H63  Idiopathic Liver Rupture: An Italian Case Report  
Gianni De Giorgio*; Fiorenza Zotti, PhD; Eloisa Maselli, MD; Davide Ferorelli; Francesca Donno, MD; Valeria Bruno, MD; Giulia Gabinelli; Alessandro Dell’Erba, PhD

11:30 a.m. - 1:00 p.m.  H64  A Determination of the Efficacy of Two Processing Methods for Molar Teeth as a Source of DNA in Missing Persons and Unidentified Human Remains (UHR) Investigations  
Lily Josephs, BS*; Ira R. Titunik, DDS; Timothy M. Palmbach, JD; Angie Ambers, PhD

11:30 a.m. - 1:00 p.m.  H65  The Vitality of Skin Lesions in Decomposed Corpses: A Morphological and Immunohistochemical Study  
Matteo Moretti, MD; Fiorella Lanzillotta, MD*; Elena Mercurri; Giada Pansardi; Luisa Andrello, MD; Gulnaz T. Javan, PhD; Antonio M.M. Osculati, MD; Silvia D. Visona, MD

11:30 a.m. - 1:00 p.m.  H66  Mendelian Simulation of Short Tandem Repeat (STR) Genotypes From Existing Sample Data to Create Standard Truth Pedigrees for Benchmarking New Familial Inference Methods  
Stephen Turner*; Chris Hulme-Lowe, PhD; Chris Simpson; Carlos Acevedo, MS

11:30 a.m. - 1:00 p.m.  H67  An Investigation on Circular RNA (circRNA) Expression in Diabetic Cardiomyopathy (DCM) to Improve Understanding of Sudden Cardiac Death (SCD)  
Shengzhong Dong*; Yiwen Shen*; Chunyan Tu*

11:30 a.m. - 1:00 p.m.  H68  The Effects of Heat and Explosions on Forensic DNA Analyses  
Marwan Khoury*

11:30 a.m. - 1:00 p.m.  H69  Creating a Real Time-Quantitative Polymerase Chain Reaction (RT-qPCR) -Based Method for Studying Temporal DNA Degradation in Waterlogged Bone  
Isis Thornton*; D’Arcy P. Mays III; Baneshwar Singh, PhD; Claire M. Cartozzo, MS; Tal Simmons, PhD

11:30 a.m. - 1:00 p.m.  H70  Forensic DNA Phenotyping (FDP): A Prediction of Human Externally Visible Traits in Missing Person Identification  
Matteo Fabbri, MS*; Letizia Alferi, MD; Omar Bonato, MD; Mauro Coppone, MD; Paolo Frisoni, MD; Rosa Maria Gaudio; Elena Lucenti, MD; Chiara Marini, MD; Matteo Marti, PhD; Margherita Neri, MD, PhD

*Presenting Author
11:30 a.m. - 1:00 p.m. H71 The Detection of Rat Decomposition Products in a Plywood Platform Following Specimen Removal
Gabrielle E. DiEmma, BS*; Heather L. Harris, JD; Karen S. Scott, PhD

11:30 a.m. - 1:00 p.m. H72 Aquatic Decomposition of Vertebrate Remains: An Experimental Test for a Cold Case Investigation
Joseph P. Receveur, BS*; Sierra Kaszubinski, BS; Breanna R. Wydra, BA; Brianna Timmons, BS; Katelyn A. Smiles; Nicholas Babcock, MS; Courtney Weatherbee, MS; M. Eric Benbow, PhD

11:30 a.m. - 1:00 p.m. H73 The Alterations of HMGB and Troponin in Postmortem Interval (PMI): The First Experimental Study on Humans and a Review of Literature
Matteo A. Sacco, MD*; Fabrizio Cordasco, MD; Francesco Sicilia, MD; Luigi De Aloe, MD; Carmen Scalise, MD; Natalia Malar, PhD; Ivan Presta, PhD; Pietrantonio Ricci, PhD; Roberto Raffaele, BE*; Santo Gratteri, MD; Isabella Aquila, MD. PhD*

11:30 a.m. - 1:00 p.m. H74 Fetoneonatal Deaths—The Role of Forensic Investigations and Differential Diagnosis for Solving Complicated Forensic Cases: A Rare Case of Infanticide
Isabella Aquila, MD, PhD*; Matteo A. Sacco, MD*; Fabrizio Cordasco, MD*; Francesco Sicilia, MD*; Roberto Raffaele, BE*; Carmen Scalise, MD*; Orazio Malfa, MD; Luigi De Aloe, MD; Santo Gratteri, MD; Pietrantonio Ricci, PhD

11:30 a.m. - 1:00 p.m. H75 Bleach Decontamination in the Forensic Laboratory and at the Crime Scene: Investigating the Efficacy of DNA Damage in Native Versus Naked Templates
Alyssa N. Tuccinardi*; Angie Ambers, PhD

11:30 a.m. - 1:00 p.m. H76 Vertebrate Scavenging Behavior and the Decay Rate of Buried Carcasses
Luigi Mastrogiuseppe; Valentina Bugelli, MD*; Carlo P. Campobasso, MD, PhD*; Francesco Porcelli, PhD

11:30 a.m. - 1:00 p.m. H77 A Postmortem Interval (PMI) Estimation Based on Eukaryotic Community Associated With Soil Under Decomposing Porcine Remains
Amanda M. Haase, BS*; Shane Woolf, MS; Tal Simmons, PhD; Jenise Swall, PhD; Baneshwar Singh, PhD

11:30 a.m. - 1:00 p.m. H78 Atrioesophageal Fistulas (AEF) Caused by Percutaneous and Surgical Radiofrequency Ablation for Atrial Fibrillation (AF)
Emiliano G. Maresi, MD*; Stefania Zerbo, MD; Elvira Ventura Spagnolo, MD; Pierangela Fleres, MD; Antonio Guajana, MD; Gennaro Baldino, MD; Antonina Argo, PhD

11:30 a.m. - 1:00 p.m. H79 The Suitability of Cerebral Matter for the Forensic Identification of Highly Decomposed Bodies
Katharina Helm, PhD; Bettina Dunkelmann, PhD; Stefan Pittner, PhD*; Christian Stauffer, PhD; Gabriele Kreindl, ING; Tamara Kastinger, BS; Eva Müller, BS; Waltraud Zahrer, BS; Ines Grieschner, MSc; Jan Cemper-Kiesslich, PhD; Fabio Carlo Monticelli; Franz Neuhuber, PhD

11:30 a.m. - 1:00 p.m. H80 Acute Gastric Dilatation After Binge Eating: Overlapping Complications Determining a Race Against Death
Vittorio Gatto, MD; Federico Manetti, MD*; Alessandro Santurro, MD; Matteo Scopetti, MD; Cemyigit Deveci, MD; Martina Padovano, MD; Mariantonia Di Sanzo, MD; Antonio Grande, MD, PhD

11:30 a.m. - 1:00 p.m. H81 Stent Thrombosis After Percutaneous Coronary Intervention (PCI) in Spontaneous Coronary Artery Dissection (SCAD)
Federico Manetti, MD*; Cemyigit Deveci, MD; Matteo Scopetti, MD; Vittorio Gatto, MD; Alessandro Santurro, MD; Mariantonia Di Sanzo, MD; Antonio Grande, MD, PhD

*Presenting Author
H82 The Relationship Between Wischnewski Spots and Stress Hormones During Hypothermia
Alissa M. Shida, BS*; Tomoya Ikeda, PhD, MD; Naoto Tani, MA; Takaki Ishikawa, MD, PhD; Kei Ikeda, MD; Aoki Yayoi, BA

H83 New Biomarkers of Myocardial Necrosis Identification in Decomposed Bodies
Pasquale Malandrino, MD*; Francesco Amico, MD; Federico Patanè, MD; Angelo Montana, MD*; Dario Condorelli; Massimiliano Esposito, MD; Edmondo Scoto; Giulio Di Mizio, MD, PhD; Monica Salerno, MD, PhD; Cristoforo Pomara, MD, PhD

Investigation and Identification

Moderator: Veena D. Singh, MD
Co-Moderator: Pierre-Antoine Peyron, MD
Midwest Medical Examiner’s Office
Département de Médecine Légale
Ramsey, MN
Montpellier, FRANCE

1:00 p.m. - 1:15 p.m. H84 Viral Load: Handling an (Unexpectedly) High-Profile Case
Kirstin E. Howell, MD*; Kristin C. Escobar Alvarenga, MD

1:15 p.m. - 1:30 p.m. H85 Increasing Transparency: The Utility of Layered Images in Postmortem Identification
Farnaz Khalafi, MD*; Brandi C. McCleskey, MD

1:30 p.m. - 1:45 p.m. H86 An Interdisciplinary Approach to Data Collection of Unidentified Juvenile Remains at the Georgia Bureau of Investigation (GBI)
Jonathan Eisenstat, MD*; Alice F. Gooding, PhD

1:45 p.m. - 2:00 p.m. H87 Lost and Found: Forensic Anthropology and the Recovery of a 21-Year-Old Plane Crash
Kerianne Armelli, MS*; Carolyn V. Isaac, PhD; Jane Wankmiller, PhD; Rachel E. Smith, BS

2:00 p.m. - 2:15 p.m. H88 The Minnesota Protocol: A Standardized Postmortem Investigation Guideline
Marx Tobias, MD; Alper Keten*; Johannes Nicolakis, MD; Sarah Heinze, MD; Kathrin Yen, MD

2:15 p.m. - 2:30 p.m. H89 The Complicated Recovery of a House Fire Victim in Northern Michigan
Jane Wankmiller, PhD*; Rachel E. Smith, BS; Carl W. Hawkins, MD

2:30 p.m. - 2:45 p.m. H90 Selfie-Related Injuries and Deaths in Italy
Sara Gioia, MD*; Fabio Suadoni, MD; Dora Mirtella, MD; Mariano Cingolani, MD

2:45 p.m. - 3:00 p.m. H91 The Introduction of a Mobile Application to Assist in the Evaluation and Investigation of Death Scenes in Forensic Medical Practice
Gert Saayman, FCPath*; Cornelia van Graan, MS

3:00 p.m. - 3:15 p.m. Break

*Presenting Author
# Decomposition and DNA

**Moderator:** David O. Carter, PhD  
Chaminade University of Honolulu  
Honolulu, HI  

**Co-Moderator:** Carl J. Schmidt, MD  
Wayne County Medical Examiner's Office  
University of Michigan  
Detroit, MI

PATHOLOGY/BIOLOGY

10:15 a.m. - 11:05 a.m.  H99  Blunt and Sharp Force Injuries  
James R. Gill, MD*

11:05 a.m. - 12:00 p.m.  H99  Asphyxia  
Jonathan Hayes, MD*

12:00 p.m. - 2:00 p.m.  Lunch

2:00 p.m. - 3:00 p.m.  H99  Firearm Injuries  
Andrew M. Baker, MD*

3:00 p.m. - 3:50 p.m.  H99  Deaths Temporally Related to Apprehension and Custody  
Michael A. Graham, MD*

Friday—Session I

Multidisciplinary Session: Pathology/Biology I & Toxicology—Part I

**Moderator:** Dan T. Anderson, MS  
Colorado Bureau of Investigation  
Arvada, CO

**Co-Moderator:** Elisa N. Shoff, MS  
Miami-Dade Medical Examiner Department  
Miami, FL

8:30 a.m. - 8:45 a.m.  K65  Accidental Acute Combined Drug Toxicity Involving Heroin and Fentanyl in a 10-Year-Old Child  
Joseph H. Kahl, MS*; Benjamin Mathis, MD; George W. Hime, MS; Diane Boland, PhD

8:45 a.m. - 9:00 a.m.  H100  Volatile Substances Concentrations in Costal Cartilage in Relation to Blood and Urine  
Marcin Tomsia; Joanna Nowicka; Elzbieta Chelmecka; Joanna Wójcik; Magdalena Wos; Kornelia M. Drozdziok; Rafal Skowronek; Gulnaz T. Javan, PhD*

9:00 a.m. - 9:15 a.m.  K66  A Fatal Mono-Intoxication With 4-Fluoroisobutyrylfentanyl  
Roelof Oosting, PharmD; Lauriane Drouin; Rogier van der Hulst, PharmD; Ingrid Bosman, PhD*

9:15 a.m. - 9:30 a.m.  H101  The Relationship of Chronic Psychostimulant Use and Cardiovascular Disease  
Elly Riser, MD; Chamil Ariyaratne, MD, MBBS; Irfan Chaudhry, MD*; Caleb Banta-Green, PhD; Richard C. Harruff, MD, PhD

9:30 a.m. - 9:45 a.m.  K67  Circumstances, Postmortem Findings, and Toxicology in a Series of Methoxyacetylfentanyl-Related Deaths  
Robert Kronstrand, PhD*; Svante Vikingsson, PhD

9:45 a.m. - 10:00 a.m.  H102  Suicide by Acute Substance Intoxication: A Retrospective Analysis of Cases in Cook County, Illinois  
Lorenzo Gitto, MD*; Ponni Arunkumar, MD; Serenella Serinelli, MD*

10:00 a.m. - 10:15 a.m.  K68  Homicidal Paraquat-Induced Respiratory Failure: A Case Report and Overview of Paraquat Testing in the Forensic Setting  
Elaine J. Oldford, BS*; Theodore T. Brown, MD; Prentiss Jones, Jr., PhD; Kenneth D. Hutchins, MD

10:15 a.m. - 10:30 a.m.  Break
Multidisciplinary Session: Pathology/Biology I & Toxicology—Part II

Moderator: Marilyn A. Huestis, PhD  
Huestis & Smith Toxicology, LLC  
Severna Park, MD

Co-Moderator: Loralie Langman, PhD  
Mayo Clinic  
Rochester, MN

10:30 a.m. - 10:45 a.m.  
H103 Active Duty United States Military Deaths Due to 1,1-Difluoroethane Intoxication  
Sherry Jilinski, MD*; Alice Briones, DO*; Eric T. Shimomura, PhD; George F. Jackson, PhD

10:45 a.m. - 11:00 a.m.  
K69 Caught Looking: A High-Profile Vessel-Related Fatality in Miami, Florida  
Diane Boland, PhD*; Joseph H. Kahl, MS; Jennifer Gonyea; George W. Hime, MS;  
Kenneth D. Hutchins, MD

11:00 a.m. - 11:15 a.m.  
H104 Why the “Kontroversy”? Is Kratom a Killer? The Emergence of Mitragynine in Drug-Associated Deaths in West Tennessee  
Maxwell O. Rollins, MD*; Erica Curry, MD

11:15 a.m. - 11:30 a.m.  
K70 Urinary Metabolites in Fatal Intoxications With Methoxyacetylfentanyl Could Indicate Time Until Death  
Svante Vikingsson, PhD*; Robert Kronstrand, PhD

11:30 a.m. - 11:45 a.m.  
H105 Pediatric Poisonings: An Epidemiological Study  
Mete K. Gulmen, PhD, MD*; Kenan Kaya; Ozgenur K. Tok, MD

11:45 a.m. - 12:00 p.m.  
H106 An Opioid Analysis in “Natural” Manner Scene Inspection Cases  
Mary G. Ripple, MD*; David R. Fowler, MD; Dawn Zulauf; Rebecca Phipps, PhD

12:00 p.m. - 1:00 p.m.  
Lunch

Poster Session

11:30 a.m. - 1:00 p.m.  
H107 Fatal Excipient Lung Disease: An Autopsy Case Series  
Daniel Shapiro, MD*; Amy V. Rapkiewicz, MD; Mark J. Shuman, MD

11:30 a.m. - 1:00 p.m.  
H108 Loperamide Abuse: A Rising Public Health Concern?  
Ian I. Puffenberger, MD*; Meredith A. Frank, MD; James Louis Caruso, MD

11:30 a.m. - 1:00 p.m.  
H109 Body Packing of Narcotics Leading to Gastric Perforation and Death: A Case Report and Review of the Literature  
Daniel A. Kirsch, BA*; Irini A. Scordi-Bello, MD, PhD

11:30 a.m. - 1:00 p.m.  
H110 Anticoagulation and Exsanguination: A Case Series of Fatalities From Superficial Wounds in the Elderly  
Abigail L. Alexander, MD*; Priya Banerjee, MD

11:30 a.m. - 1:00 p.m.  
H111 2,4-Dinitrophenol Toxicity: A Cause of Death That Is Making a Comeback  
Allison Gaines*; Christopher Gulledge, MD

11:30 a.m. - 1:00 p.m.  
H112 Death by Intracorporeal Fentanyl Extravasation During the Replacement of an Intrathecal Pump  
Luisa Andrello, MD*; Maria Teresa Pinorini, PhD; Elia Grata; Silvia D. Visona, MD;  
Antonio M.M. Osculati, MD

*Presenting Author
11:30 a.m. - 1:00 p.m.  H113  “Everybody Hurts”: Fatal Anaphylactic Shock Induced by an Intramuscular Injection of Diclofenac  
Diana Bonuccelli, MD; Marco Conti, MD; Sara Niballi, MD; Alberto Mandoli, MD; Benedetta Baldari, MD*; Stefano D’Errico, MD, PhD

11:30 a.m. - 1:00 p.m.  H114  Tri-Allelic Patterns of Short Tandem Repeats (STRs) on D21S11 and Penta D Observed in Three Paternity Testing Cases With Down Syndrome Diagnosed Children  
Amir J. Hamuod*

11:30 a.m. - 1:00 p.m.  H115  A Rare Autopsy Case of Inferior Mesenteric Artery Laceration Associated With Blunt Abdominal Trauma in a Physically Abused Child  
Alissa M. Shida, BS*; Kei Ikeda, MD; Aoki Yayoi, BA; Naoto Tani, MA; Tomoya Ikeda, PhD, MD; Takaki Ishikawa, MD, PhD

11:30 a.m. - 1:00 p.m.  H116  Neonatal Pulmonary Arterial Hypertension (PAH): A Fatal Case of Noonan Syndrome (NS)  
Caterina Bosco, MD*; Luana Bonaccurso, MD*; Greta Cena, MD; Lucia Tattoli, PhD; Caterina Petetta, MD; Giovanni Botta, MD; Giancarlo Di Vella, MD, PhD*

11:30 a.m. - 1:00 p.m.  H117  Sudden Unexpected Death in Childhood: A Case Report of Fatal Acute Pancreatititis  
Fabio Innocenzi*; Francesco Lupariello, MD*; Alessandro Gabriele; Giovanni Botta, MD; Giancarlo Di Vella, MD, PhD*

11:30 a.m. - 1:00 p.m.  H118  Multifocal Intracranial Hemorrhage in Congenital Neurosyphilis: Autopsy Findings and Literature Review  
Michael Harrell, MD*; Heather S. Jarrell, MD; Lauren A. Decker

11:30 a.m. - 1:00 p.m.  H119  A Peculiar Autopsy Case of Infrarenal Aortic Hypoplasia (AH) and Premature Atherosclerosis in a 13-Year-Old Male  
Valentina Rosati, MD*; Sara Gioia, MD*; Massimo Lancia, MD*; Fabio Suadoni, MD

11:30 a.m. - 1:00 p.m.  H120  Histopathologic Changes in Placental Tissue Following Misoprostol Administration  
Angelina I. Phillips, MD*; Daniel C. Butler, MD*; S. Erin Presnell, MD; Evelyn T. Brunner, MD; Ryan Cuff, MD

11:30 a.m. - 1:00 p.m.  H121  Peripartum Cardiomyopathy (PPCM): A Forensic Approach  
Laura Tardanico*; Massimiliano Esposito, MD*; Pasquale Giugliano, MD; Martina Fichera, MD; Aldo Liberto, MD*; Francesco Amico, MD; Mario Giuseppe Chisari; Monica Salerno, MD, PhD; Angelo Montana, MD*; Giulio Di Mizio, MD, PhD

11:30 a.m. - 1:00 p.m.  H122  Investigating DNA Methylation Analysis for the Individualization of Monozygotic Twins  
Malorie R. Nitz*; Rachel Graziano; Claire L. Glynn, PhD

11:30 a.m. - 1:00 p.m.  H123  Pediatric Dorsal Root Ganglia Hemorrhages in a Resuscitated Canine Mauling  
Nathan S. Shaller, MD*; Anna G. McDonald, MD; Patrick E. Lantz, MD

11:30 a.m. - 1:00 p.m.  H124  The Postmortem Microbiome: An Evaluation of 16S Ribosomal RNA (rRNA) Profiles  
Gulnaz T. Javan, PhD*; Sheree J. Finley, PhD; DeEtta Mills, PhD

11:30 a.m. - 1:00 p.m.  H125  Simplified DNA Barcoding Strategy for Forensically Relevant Blow and Flesh Flies  
Joseph Truppi, BS*; Sam Kwiatkowski, PhD; Michelle R. Sanford, PhD; Michael A. Donley, MS; Katherine Welch, MS; Roger Kahn, PhD

*Presenting Author
11:30 a.m. - 1:00 p.m.  H126  The Effect of Mass-Generated Heat on Larval Development: Implications for Postmortem Interval (PMI) Estimates
Vivienne G. Heaton, PhD*; Colin Moffatt; Tal Simmons, PhD

11:30 a.m. - 1:00 p.m.  H127  The Impact of Postmortem Microbiota on Lucilia Sericata Development
Vadim Mesli, MD*; Christel Neut, PhD; Valéry C. Hédouin, MD, PhD;
Damien Charabidze, PhD; Didier Gosset, MD, PhD

11:30 a.m. - 1:00 p.m.  H128  A Survey of Bacterial Communities in Soil Associated With Porcine Remains
Denise Wohlfahrt, BS; Kailey Babcock, BS*; Shane Woolf, MS; Tal Simmons, PhD;
Baneshwar Singh, PhD

11:30 a.m. - 1:00 p.m.  H129  Cranial Hypertosis and Neuropsychiatric Disorders: Is There a Correlation?
A Comparison Between Forensic Cases and a Review of Literature
Orazio Malfa, MD*; Matteo A. Sacco, MD*; Luigi De Aloe, MD; Francesco Sicilia, MD;
Fabrizio Cordasco, MD; Carmen Scalise, MD; Pietrantonio Ricci, PhD; Roberto Raffaele, BE*;
Ludivico M. Abenavoli, PhD; Santo Gratteri, MD; Isabella Aquila, MD, PhD*

11:30 a.m. - 1:00 p.m.  H130  Patient Misinterpretation of Findings Leads to Suicide
Jack Stover*; Joseph A. Prahlow, MD

11:30 a.m. - 1:00 p.m.  H131  Colonization Rates of Barnacles (Crustacea: Cirripedia) on Different Fabrics as a Tool for Forensic Investigation of Human Remains in a Marine Environment
Elysia Tingey, BS; Jennifer Verduin, PhD; Ian Dadour, PhD*; Paola A. Magni, PhD

11:30 a.m. - 1:00 p.m.  H132  The Applicability of FLIR® Thermal Imaging of Swine Decomposition During the Louisiana Summer
Helen R. Carter, BS*; Erin J. Watson-Horzelski, PhD

11:30 a.m. - 1:00 p.m.  H133  Maternal Death by Fire and Fetal Carboxyhemoglobin Levels
Nicole D. Lee, MS*; Theodore T. Brown, MD

11:30 a.m. - 1:00 p.m.  H134  The Mouse Thanatonomicbiome is Highly Variable in Early Postmortem Intervals
Taylor L. Smith*; Molly B. Still, MS; Scott S. Crupper, PhD

11:30 a.m. - 1:00 p.m.  H135  A Fatal Hemorrhage From a Periumbilical Wound: A Case of Stabbing or a Rare Bleeding From a Caput Medusae?
Francesca Frigiolini*; Sara Lo Pinto, MD; Fiorella Caputo, MD*; Rosario Barranco*;
Giulio Fraternali Orcioni, MD; Alessandro Bonsignore, MD, PhD*; Francesco Ventura, MD*

11:30 a.m. - 1:00 p.m.  H136  Brain Damage and MicroRNA (miRNA) Dysregulation: An Experimental Study
Francesco Sessa, MS*; Francesca Maglietta, MD*; Giuseppe Bertozzi, MD*;
Luigi Cipolloni, MD, PhD; Monica Salerno, MD, PhD; Pietrantonio Ricci, PhDr;
Cristoforo Pomara, MD, PhD

11:30 a.m. - 1:00 p.m.  H137  Under Pressure: A Small Italian Town Under Attack
Michela Ferrara, MD*; Francesca Maglietta, MD*; Margherita Neri, MD, PhD;
Luigi Cipolloni, MD, PhD; Stefania De Simone, MD; Francesco Sessa, MS*;
Giuseppe Bertozzi, MD*

11:30 a.m. - 1:00 p.m.  H138  A Cold Bone Heart: A Rare Case of Death Due to Acute Myocarditis in a Subject Suffering From Chronic Constrictive Pericarditis
Lorenzo Spagnolo, MD*; Francesco Sessa, MS*; Francesca Maglietta, MD*; Pietrantonio Ricci, PhDr;
Alessandra Radogna, MD; Santina Cantatore; Irene Riezzo, MD, PhD; Giuseppe Bertozzi, MD*
PRESENTING AUTHOR

PATHOLOGY/BIOLOGY

11:30 a.m. - 1:00 p.m.  H139  Using Culturomics to Investigate the Mouse Thanatombiome
Christi Meyer*; Scott S. Crupper, PhD

11:30 a.m. - 1:00 p.m.  H140  An Accidental Asphyxiation by Christmas Lights in a Patient With Schizoaffective Disorder
Corey A. Hornersmith, BS*; Wendy M. Gunther, MD

11:30 a.m. - 1:00 p.m.  H141  When the Autopsy Is the Only Possibility to Obtain a Diagnosis: The Investigation of a Rare Case of Aortopulmonary Window (APW)
Alessandro Santuro, MD*; Cemyigit Deveci, MD; Matteo Scopetti, MD; Vittorio Gatto, MD; Federico Manetti, MD; Mariantonia Di Sanzo, MD; Antonio Grande, MD, PhD

Tracking Traumatic Injury and Death

Moderator: L.J. Dragovic, MD
Oakland County Medical Examiner's Office
Pontiac, MI

Co-Moderator: Tasha Zemrus Greenberg, MD
Tarrant County Medical Examiner's Office
Fort Worth, TX

1:00 p.m. - 1:15 p.m.  H142  A Comprehensive Review of the Pathology of Blunt Traumatic Spinal Cord Injury (TSCI) Resulting in Early Fatality
Declan McGuone, MD*; Nalin Leelatian, MD, PhD; Kristin Roman, MD

1:15 p.m. - 1:30 p.m.  H143  The Histomorphology of Cranial Fracture Healing: Preliminary Observations
Jered B. Cornelison, PhD*; Carolyn V. Isaac, PhD; Wendy L. Lackey-Cornelison, PhD; Brandy Shattuck, MD; Joyce L. deJong, DO; Amanda O. Fisher-Hubbard, MD; Theodore T. Brown, MD; Elizabeth A. Douglas, MD; Joseph A. Prahlow, MD

1:30 p.m. - 1:45 p.m.  H144  Rule Out Trauma: A Five-Year Retrospective Study on Natural Disease, External Trauma, and Manner of Death at the Harris County Institute of Forensic Sciences (HCIFS)
Monica B. Patel, DO*; Pramod Gumpeni, MD

1:45 p.m. - 2:00 p.m.  H145  Radically Invasive Projectile (R.I.P.) Ammunition: The Projectile With No Boundaries
Lauren Havrilla, DO*; Michelle B. Aurelius, MD

2:00 p.m. - 2:15 p.m.  H146  Suicides in Cook County, Illinois: A Four-Year Retrospective Study From 2015 to 2019
Reema Khan, MD*; Stephanie Powers, MD; Punni Arunkumar, MD

2:15 p.m. - 2:30 p.m.  H147  Mississippi Organ and Tissue Recovery in High-Profile Medical Legal Cases
Mark M. LeVaughn, MD*; Taylor Phillips*

2:30 p.m. - 2:45 p.m.  H148  Non-Natural Deaths on Hospital Property: A Five-Year Retrospective Review of Cases From Harris County, Texas (2014–2019)
Brooke H. Blake, MD*; Dwayne A. Wolf, MD, PhD; Merrill O. Hines III, MD

2:45 p.m. - 3:00 p.m.  H149  Autopsy Rates for Injury Deaths by Manner, Cause, and State in the United States From 2015 to 2017
Margaret Warner, PhD*; Marcus B. Nashelsky, MD; Holly Hedegaard, MD

3:00 p.m. - 3:15 p.m.  Break

*Presenting Author
Unusual and/or Confounding Deaths

Moderator: Jacqueline L. Parai, MD
Ottawa Hospital
Ottawa, ON, CANADA

Co-Moderator: Natasha L. Grandhi, MD
Georgia Bureau of Investigation
Decatur, GA

3:15 p.m. - 3:30 p.m.  H150  Radically Invasive Projectiles (R.I.P.s) and Other Unusual Ammunition: A Case Series
Elaine R. Amoresano, MD*; Patricia Aronica, MD; David R. Fowler, MD

3:30 p.m. - 3:45 p.m.  H151  Severe Hemorrhagic Retinopathy and Retinoschisis Associated With Hypoxic Ischemic Brain Injury and Coagulopathy Due to Aspiration of Popcorn Kernels
Patrick E. Lantz, MD*; William T. Harrison, MD; Anna G. McDonald, MD

3:45 p.m. - 4:00 p.m.  H152  A Tale of Two Recreational Mummification Bondage Cases: Undetermined Versus Homicide
Robyn Parks*; Julie M. Huss-Bawab, MD; Matthew Miller, MD

4:00 p.m. - 4:15 p.m.  H153  Two Firework Fatalities in North and Central Texas
Shante Hill*; Tasha Zemrus Greenberg, MD

4:15 p.m. - 4:30 p.m.  H154  “Who Dismembers Mama?”
Reema Khan, MD*; Michael D. Eckhardt, MD; Adrienne Segovia, MD

4:30 p.m. - 4:45 p.m.  H155  Pull It Out or Leave It In? Foreign Bodies Discovered During Medicolegal Death Investigation
Christina M. Tengelin, MS*

4:45 p.m. - 5:00 p.m.  H156  The Importance of Histopathology in Cases of Sudden Death Due to Alleged Electrocution With Inconclusive Autopsy Findings: A Report of Three Cases
Siddhartha Das, MD*; Pampa C. Toi, MD

Friday—Session II

Microbiome and Forensic Entomology

Moderator: David O. Carter, PhD
Chaminade University of Honolulu
Honolulu, HI

Co-Moderator: Christine J. Picard, PhD
Indianapolis, IN

8:30 a.m. - 8:45 a.m.  H157  Developing Novel Microbial Community Metrics for Predicting Manner of Death (MOD)
Sierra Kaszubinski, BS*; Jennifer L. Pechal, PhD; Heather R. Jordan, PhD; Carl J. Schmidt, MD; M. Eric Benbow, PhD

8:45 a.m. - 9:00 a.m.  H158  The Impact of Confinement in Vehicle Trunks on Decomposition and Entomological Colonization of Carcasses
Stacey L. Malainey, MA; Gail S. Anderson, PhD*

9:00 a.m. - 9:15 a.m.  H159  Estimating the Postmortem Submersion Interval (PMSI) From the Microbiome of Bone in Lacustrine and Riverine Environments in Virginia
Claire M. Cartozzo, MS*; Baneshwar Singh, PhD; Jenise Swall, PhD; Tal Simmons, PhD

*Presenting Author
PATHOLOGY/BIOLOGY

9:15 a.m. - 9:30 a.m.  H160 Evaluating the Nearest Weather Station as the Best Representation of Scene Temperature in Forensic Entomology Casework
Michelle R. Sanford, PhD*; Si Gao, MS

9:30 a.m. - 9:45 a.m.  H161 The Impact of Insect Exclusion on Eukaryotic Community Succession on Porcine Remains
Denise Wohlfahrt, BS*; Luisa V. Forger, MS; Michael Shane Woolf, MS; Tal Simmons, PhD; Baneshwar Singh, PhD

9:45 a.m. - 10:00 a.m.  H162 Understanding the Role of the Thanatomiobiota in the Decay of “Reproductive Organs” in Human Decomposition
Gulnaz T. Javan, PhD*; Holly L. Lutz; Sheree J. Finley, PhD; Silvia D. Visona, MD; Antonio M.M. Osculati, MD; Jack A. Gilbert, PhD

10:00 a.m. - 10:15 a.m.  H163 The Postmortem Clostridium Effect: A Thanatomiobiome Investigation of Cadaver Brain
Gulnaz T. Javan, PhD*; Courtnee Bell, MS; Eloise H. Mikkonen, PhD; Sheree J. Finley, PhD; Qiana Matthews, PhD

10:15 a.m. - 10:30 a.m.  Break

Postmortem Radiology

Moderator: Michelle B. Aurelius, MD
Co-Moderator: Dianne Little, MBBS
North Carolina Office of the Chief Medical Examiner
Forensic Medicine, Sydney
Raleigh, NC
Lidcombe, AUSTRALIA

10:30 a.m. - 10:45 a.m.  H164 Postmortem Cardiac-Magnetic Resonance (PMCMR) Protocol in Sudden Cardiac Deaths (SCDs)
Alessandro Santurro, MD*; Giovanni Donato Aquaro, MD; Michele Emdin, MD, PhD; Vittorio Fineschi, MD, PhD; Matteo Scopetti, MD; Benedetta Guidi, MD; Emanuela Turillazzi, MD, PhD; Marco Di Paolo, MD

10:45 a.m. - 11:00 a.m.  H165 Radiodense Bullet Wipe (RBW) Around Skeletal Entrance Gunshot Wounds: The Frequency of Detection and Evaluation of Decedent, Wound, and Ammunition Characteristics
Ashley Lukefahr, MD*; Jennifer M. Vollner, PhD; Bruce E. Anderson, PhD; David C. Winston, PhD

11:00 a.m. - 11:15 a.m.  H166 Comparing Sinus Fluid Density in Drowning Versus Non-Drowning Victims Using Postmortem Computed Tomography (PMCT)
Zuhha Ashraf, MD*; Catherine Yim, MD; Mariam Thomas, MD; Odey C. Ukpo, MD

11:15 a.m. - 11:30 a.m.  H167 Health-Induced Changes in Charred Human Remains
Antonina Argo, PhD*; Giuseppe F. Lo Re, MD; Donatella Piscionieri; Ginevra Malta, MD; Alessia Vinci, MD; Agata Crapanzano, MD; Sergio Salerno

11:30 a.m. - 11:45 a.m.  H168 Fatal Obstructive Asphyxia: Trans-Pulmonary Density Gradient Characteristic as a Relevant Identifier in Postmortem Computed Tomography (PMCT)
Wolf Schweitzer*; Lars C. Ebert, PhD*; Michael Thali, MD*

11:45 a.m. - 12:00 p.m.  H169 Using Postmortem Computed Tomography (PMCT) and Drug Screens to Triage Drug-Related Fatalities
Lauren A. Decker*; Sarah Lathrop, DVM, PhD

12:00 p.m. - 1:00 p.m.  Lunch

### Ancillary Studies and Anatomic Assessment

**Moderator:** Katherine F. Maloney, MD  
**Co-Moderator:** Ashley Lukefahr, MD  
**Erie County Medical Examiner's Office**  
**Buffalo, NY**  
**The University of Arizona**  
**Tucson, AZ**

#### 3:15 p.m. - 3:30 p.m.

**H178**  
The Utility of Postmortem Vitreous Beta-Hydroxybutyrate (BHB) Testing for Distinguishing Sudden From Prolonged Deaths and for Diagnosing Ketoacidosis  
*Kristina-Ana Klaric, MD*; *Jacqueline L. Parai, MD*; *Chris Milroy, MD, LLB*

#### 3:30 p.m. - 3:45 p.m.

**H179**  
3D Rendering of the Human Body: A Proposal of an Operative Protocol for the Application of Photogrammetry in the Autopsy Room  
*Lorenzo Gitto, MD*; *Laura Donato*; *Alessandro Di Luca, MD*; *Serenella Serinelli, MD*

#### 3:45 p.m. - 4:00 p.m.

**H180**  
Electrolytes, Glucose, and Lactate in Postmortem Blood (BL), Vitreous Humor (VH), and Synovial Fluid (SF): A Comprehensive Study  
*Supawon Srettabunjong, MD*; *Wantawanop Thongphap, BSc*; *Anchalee Chittamma*

#### 4:00 p.m. - 4:15 p.m.

**H181**  
The Usefulness of a Hand-Held Blood Glucose and Ketone Monitoring Device as a Postmortem Indicator of Diabetic Ketoacidosis (DKA)  
*Pierre-Antoine Peyron, MD*; *Maëlle Plawecki, PharmD*; *Jean-Paul Cristol, PhD*; *Maisy Lossois, MD*; *Eric Baccino, MD*

#### 4:15 p.m. - 4:30 p.m.

**H182**  
Lung Weights in Carbon Monoxide (CO) -Related Fatalities  
*Abigail J. Grande, MPH*; *Ann K. O'Neill, MPH*; *Amanda O. Fisher-Hubbard, MD*

#### 4:30 p.m. - 4:45 p.m.

**H183**  
A Model for Estimated Heart Weight With Accounting for Estimated Cardiomegaly  
*Torfinn Gustafsson, MD*; *Anders Eriksson, MD, PhD*; *Carl Johan Wingren, PhD*

#### 4:45 p.m. - 5:00 p.m.

**H184**  
Unrecognized Anatomical Larynx Variants May Lead to More Than 70% of False Larynx Fractures  
*Joao E.S. Pinheiro, PhD, MD*; *Jose L. Cascallana, PhD*; *Benito Lopez de Abajo, MD*; *Xose L. Otero, PhD*; *María Sol Rodríguez-Calvo, PhD*
**Wednesday**

**Poster Session**

11:30 a.m. - 1:00 p.m.  **I1** Demons and (Mis)Diagnosis: A Cultural Case Study of Sleep Paralysis  
*Melissa Piasecki, MD*; *Elizabeth Phelan, BA*

11:30 a.m. - 1:00 p.m.  **I2** A Mystic Religious Figure Who Became an Actress—From a Man of God to a Showgirl: A Particular Case of Circumvention of the Mentally Incapable Perpetrated Against a Couple, as Well as Crowds of People  
*Ignazio Grattagliano, PsyD*; *Antonello Bellomo, MD*; *Carla Piccininni, MD*

11:30 a.m. - 1:00 p.m.  **I3** Mental Health and Stress Relating to Crime Scene Investigators (CSIs): A Lack of Training, Support, and Resources for CSIs  
*Melanie Walchek, MFS*; *Ismail M. Sebetan, MD, PhD*; *Paul Stein, PhD*

11:30 a.m. - 1:00 p.m.  **I4** A Rare Case of Psychotic Serial Killing by Poisoning  
*Ilaria Rossetto, PhD*; *Filippo Franconi, MD*; *Alan R. Felthous, MD*; *Giancarlo Di Vella, MD, PhD*; *Stefano Ferracuti*; *Giovanni De Girolamo*; *Marco Lagazzi*; *Félice F. Carabellase, MD*

**Thursday**

**Big Data, Machine Learning, eHarm-FV**

**Moderator:**  
Emily D. Gottfried, PhD  
Medical University of South Carolina  
Charleston, SC  
**Co-Moderator:**  
Giuseppe Troccoli, MD  
Mental Health Services  
Bari, ITALY

8:30 a.m. - 8:45 a.m.  **I5** Big Data and Machine Learning: Changing the Risk Assessment Landscape  
*Casey Upfold, BA*; *Gary A. Chaimowitz, MD*; *Mini Mamak, EdD*

8:45 a.m. - 9:00 a.m.  **I6** The Electronic Hamilton Anatomy of Risk Management-Forensic Version (eHARM-FV): Launching the Fifth Generation of Risk Assessment  
*Casey Upfold, BA*; *Gary A. Chaimowitz, MD*; *Mini Mamak, EdD*

9:00 a.m. - 9:15 a.m.  **I7** Advancing Risk Assessment and Risk Management Using Analytics: The Electronic Hamilton Anatomy of Risk Management-Forensic Version (eHARM-FV)  
*Casey Upfold, BA*; *Gary A. Chaimowitz, MD*; *Mini Mamak, EdD*

9:15 a.m. - 9:30 a.m.  
**Break**
Characteristics of Forensic Patients and Review Boards

**Moderator:** Joseph Chien, DO  
**Co-Moderator:** Collin Lueck  
*Virginia Portland Health Care System*  
Portland, OR

9:30 a.m. - 9:45 a.m. **I8**  
**An Overview of Forensic Patients Within the Ontario Review Board (ORB) Patient Database**  
Casey Upfold, BA*; Gary A. Chaimowitz, MD; Mini Mamak, EdD; Heather Marie Moulden, PhD; Katelyn Mullally

9:45 a.m. - 10:00 a.m. **I9**  
**Is the Canadian Review Board Effective? An Evolving Forensic System Depending on Case Laws**  
Sebastien S. Prat, MD*; Gary A. Chaimowitz, MD

10:00 a.m. - 10:20 a.m. **I10**  
**The Legalization of Cannabis in the Canadian Review Board System**  
Natalie M. Raso, MD*; Sebastien S. Prat, MD

10:20 a.m. - 10:35 a.m.  
**Break**

Special Topics: Psychopathology of Refugees and Forensic Neurology

**Moderator:** Casey Upfold, BA  
**Co-Moderator:** Alden Parker  
*St. Joseph’s Healthcare Hamilton*  
Hamilton, ON, CANADA

10:35 a.m. - 10:50 a.m. **I11**  
**An Increasing Demand for the Psychological Evaluation of Asylum Seekers**  
Collin Lueck*

10:50 a.m. - 11:20 a.m. **I12**  
**Recent/Proposed Legal Changes in Asylum Law and the Implications for Mental Healthcare**  
Joseph Chien, DO*; Will Frizzell, MD*

11:20 a.m. - 11:35 a.m. **I13**  
**A Neurological Condition and Forensic Psychiatry: A Case Report**  
Sebastien S. Prat, MD*; Aline-Claire Huynh, BHSc; Jasreen Cheema, MD

11:35 a.m. - 1:00 p.m.  
**Lunch**

*Presenting Author*
Poster Session

11:30 a.m. - 1:00 p.m.  I14 Differences Between Readmitted and Non-Readmitted Patients Discharged From Italian Psychiatric Security Facilities
Filippo Franconi, MD*; Ilaria Rossetto, PhD; Alan R. Felthous, MD; Giancarlo Di Vella, MD, PhD; Massimo Clerici; Felice F. Carabellese, MD

11:30 a.m. - 1:00 p.m.  I15 Identification of Risk and Protective Factors for Violent Behavior in a Population of Forensic Psychiatric Patient Offenders in the Apulian and Lucan Areas of Italy
Felice F. Carabellese, MD*; Alan R. Felthous, MD; Gabriele Mandarelli, MD, PhD; Carmela Ascolillo; Fulvio Carabellese; Gianfranco Costantino, MD; Katia Di Matteo; Luigi Esposito, MD; Viola Ferrante; Domenico Guarino, MD; Gaetano Lusi, MD; Donatella La Tegola, PhD; Marika Leozappa; Angelo Liuni; Giusy Lombardo; Carmen Magistà; Giovanni Papa; Luigi Paparella; Mariella Partipilo, MD; Flavia Padalino; Francesca Pesola; Enzo Rubino, MD; Enzo Santospirito, MD; Mara Sciancalepore; Giuseppe Torchetti; Mariateresa Urbano; Roberto Catanesi, MD

11:30 a.m. - 1:00 p.m.  I16 Women and Men Who Committed Murders: Male/Female Psychopathic Homicides
Felice F. Carabellese, MD*; Alan R. Felthous, MD; Gabriele Mandarelli, MD, PhD; Domenico Montalbò; Fulvio Carabellese; Donatella La Tegola, PhD; Ilaria Rossetto, PhD; Filippo Franconi, MD; Roberto Catanesi, MD

11:30 a.m. - 1:00 p.m.  I17 Sex Offenders and Psychopathy: A Study of an Italian Sample
Donatella La Tegola, PhD*; Ilaria Rossetto, PhD; Filippo Franconi, MD; Adriana Zito, MD; Fulvio Carabellese; Fabio Ferretti, MD; Anna Coluccia, MD

Sexual Offenses

Moderator: Sebastien S. Prat, MD Co-Moderator: Mini Mamak, EdD
St. Joseph's Healthcare, McMaster University St. Joseph's Healthcare, Hamilton
Hamilton, ON, CANADA Hamilton, ON, CANADA

1:00 p.m. - 1:20 p.m.  I18 Sexual Addiction and Deviant Sexual Behavior: Are They Comorbid Disorders?
Ingrid Bertsch, MA*; Sebastien S. Prat, MD; Servane Barrault, PhD

1:20 p.m. - 1:35 p.m.  I19 The Personality Assessment Inventory (PAI): Treatment Scales and Interpersonal Characteristics in a Sample of Men Charged With or Convicted of a Sexual Offense
Alden Parker*; Emily D. Gottfried, PhD

1:35 p.m. - 3:00 p.m.  I20 Frontotemporal Dementia and Sex Offending: Neurological Neuropsychiatric and Legal Issues
Mohan Nair, MD*; Manish Fozdar, MD*; Wesley Maram, PhD*; Dean Decrisce, MD*; Jaime Coulter, JD*; Andrew Lloyd, JD*

3:00 p.m. - 3:10 p.m.  Questions & Answers

*Presenting Author
Friday

Forensic Evaluation and Diversion

Moderator: E. Thomas Lewis, MD
Medical University of South Carolina
Charleston, SC

Co-Moderator: George D. Annas, MD
State University of New York
Upstate Medical University
Syracuse, NY

8:30 a.m. - 8:45 a.m.  I21 When Crime and Illness Overlap: California's New Mental Health Diversion Plan, Assembly Bill 1810
Torri L. Montgomery, MD*

8:45 a.m. - 9:00 a.m.  I22 False Allegations of Sexual Abuse and Malpractice in Child Custody: A Big Court Case in Italy
Laura Volpini, PhD*; Giuseppe Troccoli, MD*; Luigi Mignogna, MD

9:00 a.m. - 9:45 a.m.  I23 Brain Imaging in Death Penalty Mitigation
Mohan Nair, MD*; Rob Friedman, JD*; Manish Fozdar, MD*

9:45 a.m. - 10:00 a.m.  Break

10:00 a.m. - 11:00 a.m.  I24 You Saved My Butt: A Change in Jurisdiction for a Threat Against a Judge, and Why Forensic Psychiatrists Exist
Vivian Chern Shnaidman, MD*

11:00 a.m. - 1:00 p.m.  Lunch

Poster Session

11:30 a.m. - 1:00 p.m.  I25 The Influence of a Juror’s Note-Taking on Other Jurors’ Memories for Testimony
Caitlin A. Pratt*; Jaclyn K. Maass, PhD

11:30 a.m. - 1:00 p.m.  I26 The Evaluation of Psychological Trauma of Individuals Who Escaped From Turkey Due to Human Rights Violations: Post-Traumatic Stress Disorder (PTSD)
Alper Keten*; Johannes Nicolakis, MD; Ramazan Abaci, PhD; Sarah Heinze, MD; Kathrin Yen, MD

11:30 a.m. - 1:00 p.m.  I27 The Forensic Analysis of the State of Health in Prisoners: Is It Possible to Prevent Psychiatric Diseases and Suicide Risks in Prison?
Fabrizio Cordasco, MD*; Carmen Scalise, MD; Isabella Aquila, MD. PhD*; Matteo A. Sacco, MD*; Francesco Sicilia, MD; Orazio Malfà, MD; Cristoforo Ricci, PhD; Luigi De Aloe, MD; Santo Gratteri, MD; Silvia Boca; Pietrantonio Ricci, PhD

*Presenting Author
Competency to Stand Trial

Moderator: Laura Volpini, PhD
Rome, ITALY
Co-Moderator: Vivian Chern Shnaidman, MD
Princeton, NJ

1:00 p.m. - 2:15 p.m.  I28  The Charleston Mother Emanuel African Methodist Episcopal (AME) Church Shooter: Debating the Psychiatric Experts’ Competency to Stand Trial Reports
Christopher Fields, MD*; Emily D. Gottfried, PhD*; E. Thomas Lewis, MD*; Diana Mullis, MD*

2:15 p.m. - 2:30 p.m.  Break

2:30 p.m. - 3:30 p.m.  I29  Competence in Competence: Myths, Misconceptions, and Avoiding Pitfalls
George D. Amnas, MD*; Corina Freitas, MD*

Saturday

Care, Outcomes, Crimes, Treatment, and Mental Illness

Moderator: Natalie M. Raso, MD
St. Joseph’s Healthcare Hamilton
Hamilton, ON, CANADA
Co-Moderator: Ingrid Bertsch, MA
Centre Hospitalier Régional Universitaire de Tours
Tours, FRANCE

8:30 a.m. - 9:00 a.m.  I30  Schema-Focused Therapy (SFT) in Forensic Patients With Personality Disorders: A Theoretical Model and Recommendations for Best Clinical and Preliminary Findings of a Multicenter Randomized Clinical Trial in the Netherlands
Melania Lugli, PhD*; Vivian Chern Shnaidman, MD*; Ariel V. Tabachnik, BS; Alessandra Draicchio, PsyD*

9:00 a.m. - 9:15 a.m.  I31  Suicide in a Mountainous Territory: A Ten-Year Retrospective Survey
Serena Maria Curti, MD*; Pasquale Beltempo, MD*; Anna Maria Beoni, MD; Maurizio Castelli, MD; Valerio Ricci, MD, PhD; Mirella Gherardi, MD

9:15 a.m. - 9:30 a.m.  I32  Maternal Filicide: A Descriptive and Follow-Up Study of 17 Women Hospitalized in a French Secure Unit Over a 23-Year Period
Sophie Raymond, MD*

9:30 a.m. - 9:45 a.m.  I33  White-Collar Criminals: A Breed Apart?
Matthew W. Motley, MD, PhD*

9:45 a.m. - 10:00 a.m.  Break

10:00 a.m. - 10:15 a.m.  I34  Pathways to Readmission: Investigating Patient Perspectives in a Forensic Psychiatric Setting
Shannon Kelley, PhD*; Natalie Armstrong Hoskowitz, PhD*; Kerri Kane, MA*

10:15 a.m. - 10:45 a.m.  I35  Shame Among Forensic Patients and the Potential Moderating Roles of the Social Determinants of Health
Rusan Lateef, MSW*; Amina Ali, MD*; Fiona Moloney, BS*
QUESTIONED DOCUMENTS

Wednesday

Poster Session

11:30 a.m. - 1:00 p.m.  J1  A Fast Examination of Counterfeit Pharmaceutical Packaging Through Laser-Induced Breakdown Spectroscopy (LIBS) and Attenuated Total Reflectance/Fourier Transform Infrared (ATR/FTIR) Spectroscopy
Emily A. Haase, BA, BS*; Mandy Ho, BS; Tatiana Trejos, PhD; Luis E. Arroyo, PhD

11:30 a.m. - 1:00 p.m.  J2  Surface Roughness Measurement Techniques Using Pen Pressure Measurement in Signatures and Usability for Determination of Identity
Dilara Oner, MS*; Gursel Cetin, PhD; Derya Dispinar, PhD

11:30 a.m. - 1:00 p.m.  J3  Use of Raman Spectroscopy in Forensic Sciences to Authenticate Artworks Seized by Operation Lava Jato
Carla D. Feliciano*; Evaldo Ribeiro; Ismael Heisler; Matheus Radaelli, MS; Marco A. Geus; Ricardo Mascarenhas; Fernando Comparsi; Fábio A.S. Salvador, PhD

Moderator: Diane Kruger, JD
Forensic Examiners Inc
Toronto, ON, CANADA

Co-Moderator: Tobin A. Tanaka, BS
Canada Border Services Agency
Ottawa, ON, CANADA

Co-Moderator: Miriam Angel, MS
Los Angeles Police Department
Questioned Documents
Los Angeles, CA

8:30 a.m. - 11:30 a.m.  J19 Developing a Frequency of Occurrence Proportion-Based Database in Forensic Science:
A Template Using the Handwriting Database
Thomas W. Vastrick, BS*

11:30 a.m. - 11:45 a.m.  Break

11:45 a.m. - 12:10 p.m.  J20 Statistical Analysis of Handwriting: Probabilistic Outcomes for Closed-Set Writer
Identification.
Amy M. Crawford, MS*; Alicia L. Carriquiry, PhD; Danica Ommen, PhD

12:10 p.m. - 1:10 p.m.  Lunch

Poster Session

11:30 a.m. - 1:00 p.m.  J21 The Creation of Forged Promissory Notes Using the Signature Which Was for Different
Purposes: A Case Report
Dilara Oner, MS*; Abdi Ozaslan, MD; Gursel Cetin, PhD

11:30 a.m. - 1:00 p.m.  J22 Writing Instrument Developments: Hybrid Pens, Rollerball Pens, and Mixable Fountain
Pen Ink
Tobin A. Tanaka, BS*

11:30 a.m. - 1:00 p.m.  J23 Detecting Backdated Documents Through Line Layout Approaches to Font
Identification
Thomas W. Phimney, MS, MBA*
Questioned Documents

Moderator: Dennis J. Ryan, MBA
Applied Forensics LLC
East Meadow, NY

Co-Moderator: Nina Harnarine, BSc
Forensic Examiners Inc
Toronto, ON, CANADA

1:10 p.m. - 1:40 p.m.  J24  The Interaction of Writing Profiles and Automated Scoring Rules
Cami Fuglsby, MS*; Michael Caligiuri, PhD; Danica Ommen, PhD;
Christopher P. Saunders, PhD; JoAnn Buscaglia, PhD

1:40 p.m. - 2:10 p.m.  J25  Writer Classification of Handwritten Characters Using a Neural Network
Yoko Seki, MA*; Yoshinori Akao; Shigeru Sugawara, PhD; Yoshiyasu Higashikawa, PhD

2:10 p.m. - 2:25 p.m.  J26  Availability of Measurement of Ascender and Descender Parts of Letters in
Determining the Gender of the Writer
Dilara Oner, MS*; Gursel Cetin, PhD; Omer Kurtas, MD

2:25 p.m. - 2:40 p.m.  J27  A Study of the Impact of a Primary Learned Handwriting Language on a
Secondary Language
Amanpreet Kaur, MSc*; Rakesh Kumar Garg, PhD

2:40 p.m. - 2:55 p.m.  J28  Comparing Latin With Cyrillic Script in Handwriting Identification
Andrea Ledic, MS*

2:55 p.m. - 3:10 p.m.  Break

3:10 p.m. - 4:40 p.m.  J29  The Forensic Document Examiner (FDE) Forum
Carl R. McClary, BA*; Samiah Ibrahim, BSc*; Jan Seaman Kelly, BA*

4:40 p.m. - 4:55 p.m.  Questions & Answers

*Presenting Author
Wednesday

Toxicology Section Awardees Recognition *(by invitation only)*

6:30 p.m. - 7:30 p.m. Supported by: UTAK

Poster Session

**Moderator:** Robert D. Johnson, PhD  
Tarrant County Medical Examiner’s Office  
Fort Worth, TX

**Co-Moderator:** Joseph A. Cox, MS  
Morgantown, WV

**Poster Presentations**

- **K1** Identification of Fentanyl and Fentanyl Analogs by Using High-Resolution Mass Spectrometry and Machine Learning  
  Yufei Chen, PhD; Xinyi Sui*; Nelson R. Vinueza, PhD

- **K2** An Evaluation of Screening for Drug Use Using Postmortem Prolactin (PRL) Levels in Serum and Cerebrospinal Fluid (CFS)  
  Alissa M. Shida, BS*; Naoto Tani, MA; Kei Ikeda, PhD, MD; Tomoya Ikeda, PhD, MD; Takaki Ishikawa, MD, PhD; Aoki Yayoi, BA

- **K3** Metabolism and Estimation of Intake of Intravenous Nicotine Injection  
  Alissa M. Shida, BS*; Kei Ikeda, PhD, MD; Naoto Tani, MA; Tomoya Ikeda, PhD, MD; Takaki Ishikawa, MD, PhD; Aoki Yayoi, BA

- **K4** A Validated Method for the Quantitative Determination of Anabolic Steroids in Urine by Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS)  
  Shaiju Vareed, PhD*; Ernest D. Lykissa, PhD

- **K5** Cocaine Overdose: A Fatal Record  
  Adriano Acella*; Carmelinda Angrisani, MD; Giuseppe Strisciullo, BES; Francesco Intronà, MD; Antonio De Donno, PhD

- **K6** The Identification of Xylazine in a Patient Who Presented for Heroin Withdrawal  
  Colin Appleford*; Michael P. Smith, PhD

- **K7** An Unusual Case of Suicide by Fluvoxamine Poisoning  
  Jessica Quaiotti, MD; Matteo Moretti, MD*; Claudia Carelli; Silvia D. Visona, MD; Gulnaz T. Javan, PhD; Claudia Vignali; Luca Tiojano; Luca Morini; Antonio M.M. Osculati, MD

- **K8** Delta-8-Tetrahydrocannabinol (Delta-8-THC): Increased Prevalence in Drug Seizure Cases and Impact on Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS) Analysis of Biological Specimens  
  Nicholas B. Tiscione, MS*; Steven J. Williams, BS*; Diana M. Lawrence, MSFS

- **K9** The Determination of the Organic Components of Newer Generation E-Cigarette Liquids  
  Bailey Davis, BS, BA*; Frank Dorman, PhD

- **K10** Driving Under the Influence of 1,1-Difluoroethane (DFE) and Marijuana  
  Aybike Dip, PhD; Ashraf Mozayani, PharmD, PhD*

*Presenting Author
7:30 p.m. - 9:00 p.m.  K23  Calculation of Potential Lactate/Lactate Dehydrogenase (LDH) Interference With Alcohol-Dehydrogenase (ADH)-Based Ethanol Assay  
Amanda K. Will, BS*; Sandra C. Bishop-Freeman, PhD; Julia C. Liebl, BA; Robert H. Powers, PhD

7:30 p.m. - 9:00 p.m.  K24  Fatal Unintentional Cocaine Overdose: The Importance of a Forensic Scene Investigation  
Giuliana D’anna*; Antonio De Donno, PhD; Giuseppe Strisciullo, BES; Francesco Introna, MD

7:30 p.m. - 9:00 p.m.  K25  Presumptive Identification of Nitrite by Griess Reagent Test Strips—Applications in Suicide Investigations  
Jessica Hvozdovich, MS*; Meagan L. Wisniewski, PhD; Jennifer L. Hoyer, MS; Chris W. Chronister, PhD; Bruce A. Goldberger, PhD

7:30 p.m. - 9:00 p.m.  K26  The Detection and Quantification of Tianeptine in Postmortem Blood and Urine  
Justin L. Poklis, BS*; Janet Schultz, PhD; Michele T. Stauffenberg, MD; Carl E. Wolf II, PhD

7:30 p.m. - 9:00 p.m.  K27  Attribution Signatures for the Sourcing of Dokha and Dokha-Infused Tobacco Products  
Orianna Thomas, BS*; Ellen Hondrogiannis, PhD

7:30 p.m. - 9:00 p.m.  K28  Assessment of In Vitro Methemoglobinemia Formation in Infant Samples  
Frederick Strathmann, PhD*; Cherie M. Trail, BS; Emily Fenton, BA; Laura M. Labay, PhD

7:30 p.m. - 9:00 p.m.  K29  Drug Trends in Korea and the Detection of Synthetic Cannabinoids in the Hair of Drug Abusers  
Byungseok Cho, PhD; Jeonghyun Kim, MS; Ilung Seol, PhD; Seung Kyung Baek, PhD; Eunmi Kim, PhD*

7:30 p.m. - 9:00 p.m.  K30  Electrochemical Detection of Fentanyl Using Screen-Printed Carbon Electrodes With Confirmatory Analysis of Fentanyl and Its Analogs in Oral Fluid Using Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS)  
Colby E. Ott, MS*; Hugo Cunha-Silva, PhD; Joseph A. Cox, MS; Julia Arcos-Martinez, PhD; Luis E. Arroyo, PhD

7:30 p.m. - 9:00 p.m.  K31  Frequency of Gabapentin in Postmortem Cases Screened by Enzyme-Linked Immunosorbent Assay (ELISA)  
Denice M. Teem, BS*; Daniel S. Isenschmid, PhD

7:30 p.m. - 9:00 p.m.  K32  Comparison of Data Acquisition Methods for High Resolution Mass Spectrometry (HRMS) Drug Screening  
Jessica L. Ayala, MSFS*; Sarah Kerrigan, PhD

7:30 p.m. - 9:00 p.m.  K33  Analysis of Cannabinoids in Vitreous Fluid  
Haley Berkland, BA*; Erin B. Divito, PhD; Christopher B. Divito, PhD; Frederick W. Fochtman, PhD; Stephanie J. Wetzel, PhD

7:30 p.m. - 9:00 p.m.  K34  Chiral Separation of Methylphenidate, Ethylphenidate, and Ritalinic Acid in Blood  
Christina Smith, BS*; Madeleine J. Swortwood, PhD

*Presenting Author
7:30 p.m. - 9:00 p.m.  K35 Scientific and Careful Setting Up of a Lethal Oleander Leaves Infusion
Giulia Gubinelli*; Francesca Donno, MD; Gianni De Giorgio; Ilaria Lacavalla, MD; Alessandro Dell’Erba, PhD

7:30 p.m. - 9:00 p.m.  K36 Comparison of Manually Protein Precipitation and Automated Protein Precipitation Using DPX Low Porosity Tips in Blood, Urine, and Tissues
Danielle C. Mata, MS*

7:30 p.m. - 9:00 p.m.  K37 Variability in Direct Analysis in Real Time-High Resolution Mass Spectrometry (DART*-HRMS) Instrument Parameter Optimization Due to Molecular Identity
Jessica L. Sprague, MS*; Candice Bridge, PhD

7:30 p.m. - 9:00 p.m.  K38 High-Throughput Screening of Drugs of Abuse in Biofluids via 96-Solid-Phase Microextraction and Transmission Mode Direct Analysis in Real Time-Mass Spectrometry (TM-DART*-MS)
Frederick Li, MS*; Paul Liang, BS; Brittany Laramee, BS; Brian Musselman, PhD

7:30 p.m. - 9:00 p.m.  K39 Comprehensive Analysis of 34 Fentanyl Analogs Including Carfentanil From Liver Tissue Using Quick, Easy, Cheap, Effective, Rugged, and Safe (QuEChERS) and Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS) Analysis
Kylea M. Mathison*; Joseph A. Cox, MS*; Colby E. Ott, MS; Joseph A. DelTondo, DO; James C. Kraner, PhD; Kristen M. Bailey, MS; Myron A. Gebhardt, MS; Luis E. Arroyo, PhD

7:30 p.m. - 9:00 p.m.  K40 Validation and Comparison of Three Sample Preparation Techniques for Quantitation of Amobarbital, Butalbital, and Phenobarbital in Blood and Urine Using Ultra-Fast Liquid Chromatograph/Tandem Mass Spectrometry (UFLC/MS/MS)
Chi Hin Marco Chan*; Monique Oles; Nichole D. Bynum, MS; Sabra R. Botch-Jones, MS

7:30 p.m. - 9:00 p.m.  K41 Determination of Synthetic Cannabinoids AB Pinaca and AB-Fubinaca With Disposable Screen Printed Carbon Electrodes (SPCE) Modified With Nanoparticles and Enzymes
Miriam Barquero Quirós, PhD; Luis E. Arroyo, PhD*; Julian Portuguez

7:30 p.m. - 9:00 p.m.  K42 A Fatal Case of Body Stuffer Syndrome
Francesca Iannaccone*; Costanza Filomena; Alice Chiara Manetti, MD; Sara Turco, MD

7:30 p.m. - 9:00 p.m.  K43 A Different Approach in the Estimation of the Time Since Death: Concurrence of Thanatochronological and Toxicological Data in a Case of Cocaine Assumption-Related Death
Luigi Papi; Fabio Stefanelli; Silvio Chericoni; Alice Chiara Manetti, MD*; Costanza Filomena; Francesca Iannaccone

7:30 p.m. - 9:00 p.m.  K44 Determination of Nicotine and Cotinine in Saliva
Sultan M. Büyüker*; Kaan Yilancioglu, PhD*; Rabia Aydin, BS*; Sevil Atasoy, PhD*

7:30 p.m. - 9:00 p.m.  K45 The Detection and Quantification of Fentanyl in Phormia Regina (Calliphoridae) and Its Effects on Growth and Developmental Rate
Brianna L. Robinson*; Ian Dadour, PhD; Karen S. Scott, PhD; Sabra R. Botch-Jones, MS
Thursday

Annual Lectureship in Toxicology (Not Eligible for CE Credit)

Moderator: Sabra R. Botch-Jones, MS
Boston University School of Medicine
Boston, MA

Co-Moderator: Madeleine J. Swortwood, PhD
Sam Houston State University
Huntsville, TX

9:00 a.m. - 10:00 a.m.  The Effects of Low Blood Alcohol Concentrations on Human Performance and Behavior
Dary D. Fiorentino, PhD
Van Nuys, CA

10:00 a.m. - 10:30 a.m.  Break

Drugs and Driving Special Session

Moderator: Dayong Lee, PhD
Houston Forensic Science Center
Houston, TX

Co-Moderator: Michael R. Corbett, PhD, LLM
University of Ontario
Mississauga, ON, CANADA

10:30 a.m. - 10:45 a.m.  K46  Emergence of Delta-8 Tetrahydrocannabinol (THC) in Driving Under the Influence of Drugs (DUID) Investigation Casework
Ayako Chan-Hosokawa, MS*; Loan Nguyen, BS; Renee L. LaFord, MS; Wendy R. Adams, PhD

10:45 a.m. - 11:00 a.m.  K47  A Seven-Year Review of Vehicular Crash Toxicology Data at the West Tennessee Regional Forensic Center
Elizabeth C. Conner, MPH, CHES*; Erica Curry, MD

11:00 a.m. - 11:15 a.m.  K48  Toxicological Findings and Demographics of Phencyclidine (PCP) Use in Houston From 2013 to 2018
Dayong Lee, PhD*; Peter R. Stout, PhD

11:15 a.m. - 11:30 a.m.  K49  The Prevalence and Crash Risk of Drugs in Injured Drivers in Victoria, Australia
Dimitri Gerostamoulos*

11:30 a.m. - 11:45 a.m.  K50  The Effects of Synthetic Cannabinoids and Poly-Drug Use on Drug Recognition Expert Evaluations
Amanda L.A. Mohr, MSFS*; Judith Rodriguez Salas, MS; Alex J. Krotulski, MS; David Andrascik, BS; Barry K. Logan, PhD

11:45 a.m. - 1:00 p.m.  Lunch

*Presenting Author
**TOXICOLOGY**

**Drug Trends**

**Moderator:** Dustin Tate Yeatman, MS  
West Palm Beach, FL  
Co-Moderator: Michael Wagner, MS, PA  
Fort Lauderdale, FL

1:00 p.m. - 1:15 p.m. **K51**  
The National Forensic Laboratory Information System (NFLIS) Survey Findings: Toxicology Testing Practices by Toxicology Laboratories and Medical Examiner and Coroner Offices  
DeMia P. Pressley, MS*; Liqun Wong, MS; Terrence Boos, PhD; BeLinda J. Weimer, MA; Hope Smiley-McDonald, PhD; Katherine Moore Bollinger, MS; Megan Grabenauer, PhD; Jeffrey M. Ancheta, BS; Neelima Kunta, BS; David Heller, BS; Jeri D. Ropero-Miller, PhD

1:15 p.m. - 1:30 p.m. **K52**  
Data-Supported Poly-Drug Use Among Fentanyl Users: A Toxicology Perspective  
Alex J. Krotulski, MS*; Susan Varnum, PhD; Barry K. Logan, PhD

1:30 p.m. - 1:45 p.m. **K53**  
New Trends in Lysergic Acid Diethylamide (LSD) Use and Recommendations for Analysis  
Ryanne Brown, MSFS*; Jeff Walterscheid, PhD; Jessica L. Knittel, MS

1:45 p.m. - 2:00 p.m. **K54**  
Xylazine Alone and in Combination With Opioid Drugs in Forensic Toxicology Casework  
Sherri L. Kacinko, PhD*; Edward J. Barbieri, PhD

2:00 p.m. - 2:15 p.m. **K55**  
The Persistence of 3-Methylfentanyl (3-MF) in Pennsylvania  
Donna M. Papsun, MS*; Melissa Fogarty, MSFS; Sherri L. Kacinko, PhD; Barry K. Logan, PhD

2:15 p.m. - 2:30 p.m. **K56**  
The Quantitation of N-Ethylpentylole (Ephylone) in Blood Samples From Victims of Suspected Drug-Facilitated Sexual Assault  
Lisa J. Reidy, PhD*; Kristin W. Kahl, MS; Alex Giachetti, BS; Diane Boland, PhD

2:30 p.m. - 2:45 p.m. **K57**  
Buprenorphine-Related Deaths in North Carolina From 2010 to 2018  
Sandra C. Bishop-Freeman, PhD*; Laura Friederich; Marc Feaster, BS*; Christopher T. Garrell, BS; Michelle B. Aurelius, MD; Jason S. Hudson, PhD

2:45 p.m. - 3:00 p.m. **K58**  
Break

**Novel Psychoactive Substances**

**Moderator:** Michael P. Stypa, MS  
Las Vegas Metropolitan Police Department  
Las Vegas, NV  
Co-Moderator: Marissa J. Finkelstein, MS  
Miami-Dade Medical Examiner Department  
Miami, FL

3:00 p.m. - 3:15 p.m. **K58**  
Evaluation of the Long-Term Stability of Select Phenylacetylindole, Cycloalkylindole, Quinolinyl, and Carboxamide Synthetic Cannabinoids in Human Whole Blood Using Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS)  
Erika Phung, BS*; Katherine Moore Bollinger, MS; Sabra R. Botch-Jones, MS; Daniel Lee, MS; Cassandra A. Swart, MS; Megan Grabenauer, PhD; Nichole D. Bynum, MS

3:15 p.m. - 3:30 p.m. **K59**  
The Quantitative Analysis of Fentanyl and Fentanyl Analogs in Hair  
Ryan B. Paulsen, PhD*; Michael I. Schaffer, PhD; Virginia Hill, BS; Neil Stowe, PhD; Judy Guan, BS

*Presenting Author
Presenting Author

TOXICOLOGY

3:30 p.m. - 3:45 p.m. K60 Physiochemical Characterization of 19 Fentals: Lipophilicity
Madison R. Schackmuth, BS*; Sarah Kerrigan, PhD

3:45 p.m. - 4:00 p.m. K61 Identification of Mitragyna Alkaloids and Metabolites as Biomarkers of Kratom Use in Postmortem Urine Samples
Stephanie Basiliere, BS*; Sarah Kerrigan, PhD

4:00 p.m. - 4:15 p.m. K62 Rapid Detection and Separation of Isomeric Fentanyl Analogs Using Gas Chromatography-Atmospheric Pressure Chemical Ionization-Trapped Ion Mobility-Time of Flight/Mass Spectrometry (GC-APCI-TIMS-TOF/MS)
Elisa N. Shoff, MS*; Cesar E. Ramirez, PhD; Juergen Kempf, PhD; Francisco A. Fernandez-Lima, PhD

4:15 p.m. - 4:30 p.m. K63 Determination of Novel and Non-Routine Benzodiazepines and Suvorexant in Whole Blood by Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS)
Luke Garcia*; Nicholas B. Tiscione, MS; Dustin Tate Yeatman, MS; Lauren L. Richards-Waugh, PhD

4:30 p.m. - 4:45 p.m. K64 Fentanyl Epidemic on the West Coast: Accidental Overdose Death Trends in San Francisco From 2008 to 2019
Kelsa L. West, MS*; Luke N. Rodda, PhD

Toxicology Open Forum (Not Eligible for CE Credit)

7:00 p.m. - 9:00 p.m. Supported by: Thompson Instrument Company
Waters Corporation

Friday

Multidisciplinary Session: Pathology/Biology I & Toxicology—Part I

Moderator: Dan T. Anderson, MS
Colorado Bureau of Investigation
Arvada, CO

Co-Moderator: Elisa N. Shoff, MS
Miami-Dade Medical Examiner Department
Miami, FL

8:30 a.m. - 8:45 a.m. K65 Accidental Acute Combined Drug Toxicity Involving Heroin and Fentanyl in a 10-Year-Old Child
Joseph H. Kahl, MS*; Benjamin Mathis, MD; George W. Hime, MS; Diane Boland, PhD

8:45 a.m. - 9:00 a.m. H100 Volatile Substances Concentrations in Costal Cartilage in Relation to Blood and Urine
Marcin Tom sia; Joanna Nowicka; Elzbieta Chelmecka; Joanna Wójcik; Magdalena Wos; Kornelia M. Drozdziok; Rafal Skowronek; Gulnaz T. Javan, PhD*

9:00 a.m. - 9:15 a.m. K66 A Fatal Mono-Intoxication With 4-Fluoroisobutyrylfentanyl
Roelof Oosting, PharmD; Lauriane Drouin; Rogier van der Hulst, PharmD; Ingrid Bosman, PhD*

9:15 a.m. - 9:30 a.m. H101 The Relationship of Chronic Psychostimulant Use and Cardiovascular Disease
Elly Riser, MD; Chamil Ariyaratne, MD, MBBS; Irfan Chaudhry, MD*; Caleb Banta-Green, PhD; Richard C. Harruff, MD, PhD

*Presenting Author

Thursday

Moderator: Kenneth E. Melson, JD
The George Washington University Law School
Kinsale, VA

Co-Moderator: Paula C. Brumit, DDS
University of Texas Health Science Center
Nocona, TX

8:00 p.m. - 8:20 p.m. LW1 The Murder of Matt Warren: Father of Former Alameda County Prosecutor, Three-Time California Governor, and Supreme Court of the United States (SCOTUS) Chief Justice Earl Warren
Gregory E. Laskowski, MPA*; Chris Livingston, MLIS*

8:20 p.m. - 8:40 p.m. LW2 Old Shaky: The C-124 Globemaster
James McGivney, DMD*

8:40 p.m. - 9:00 p.m. LW3 Murder of the Schoolmarm: The First School Shooting
Alexander Jason, BA*

9:00 p.m. - 9:20 p.m. LW4 To Infinity and Beyond: E.T. at the Crime Scene and the Forensic Challenges of the Current Era
Matteo Borrini, PhD*

9:20 p.m. - 9:40 p.m. LW5 Leonhard Euler’s Mysterious Blindness and Fever
John David Bullock, MD, MPH*; Harrison B. Hawley, MD; Ronald E. Warwar, MD

9:40 p.m. - 10:00 p.m. LW6 Forensic Photo Analysis: Who, What, When, Where, Why?
Colleen M. Fitzpatrick, PhD*
In order to keep BYOS.ppt informal, fun, and informative for the large and diverse audience, here are a few things to keep in mind for the BYOS.ppt program at the 2020 AAFS Annual Meeting in Anaheim, CA:

- Presentations must be in PowerPoint® format. 35mm slides are not accepted.
- Proposals must be submitted on this form accompanied by a "6-slides-per-page" printout of the presentation and an electronic copy on CD or flash drive.
- BYOS is not intended as a forum to present scientific papers. It is designed as a means to present interesting information and/or unusual case(s) that may be educational and blended with humor.
- Speakers should plan on ten minutes in which to present their material.
- Material being presented in other parts of the AAFS scientific program will not be accepted at BYOS.ppt.
- Tables, charts, and graphs should be avoided, making every effort to use slides of scenes, bodily findings, and evidence.

This completed form, a "6-slides-per-page" printout, and the electronic presentation copy should be delivered to the on-site AAFS Staff Office by 4:00 p.m. on Wednesday, February 19, 2020. Presentations will be selected and scheduled based on perceived interest to the audience and in the order in which the completed submissions are received. This form and required printout are needed to organize the BYOS.ppt program and to allow appropriate allocation of continuing education credit. A BYOS.ppt Program Form also will be placed in each registrant's meeting packet.

BYOS PROGRAM FORM

Name and Degree(s): ____________________________________________________________

Job Title: ___________________________________________________________________________________

Place of Employment: __________________________________________________________________________

AAFS Section Affiliation (if none, write "none"): _____________________________________________

The presentation is being offered primarily to:

☐ Solicit input/advice on a challenging case
☐ Present interesting information or case(s) for education purposes
☐ Entertainment

Presentation is:

☐ A single case
☐ A series of cases with a common topic
☐ Multiple cases with unrelated topics
☐ Other (please specify): __________________________________________________________________________

Briefly describe the material to be presented: ______________________________________________________________________________________

_________________________________________________________________________________________

What are the major points to be emphasized?: ______________________________________________________________________________________

_________________________________________________________________________________________

How will the attendees benefit from this presentation?: _______________________________________________________________________________

_________________________________________________________________________________________

Is there commercial interest in the material being discussed?: ☐ No ☐ Yes (if yes, please describe): _____________________________________

_________________________________________________________________________________________

How much presentation time is required?: ________ minutes How many PowerPoint® slides will be shown?: ________

Presenter's local hotel: __________________________________________ Room #: ________ Phone #: _____________________________

U.S. Cell Phone: ___________________________________ Email you can access while at the meeting: ______________________________________

The BYOS agenda, scheduled presentation times, and continuing education credit hours will be posted near the BYOS meeting room. If you have any questions, contact Sonya Bynoe at abstracts@aafs.org or at the on-site AAFS Staff Office.

*********************************************************************************************************************************************************

AAFS STAFF USE ONLY: Date Received: ______________ Time: ______________
As a sponsor of continuing education, the American Academy of Forensic Sciences (AAFS) must ensure balance, independence, objectivity, and scientific rigor in all its educational activities. All faculty participating in a sponsoring activity are expected to disclose any significant financial interest or other relationship: (1) with the manufacturer(s) of any commercial product(s) and/or provider(s) of commercial services discussed in an educational presentation; and (2) with any commercial supporters of the activity. (Significant financial interest or other relationships can include such things as grants or research support, employee, consultant, major stockholder, member of speaker’s bureaus, etc.) AAFS has an established policy regarding conflicts of interest that includes decisions the Program Committee members may make in selecting content for the Annual Scientific Meeting Program. By serving on the committee, regardless of the role, each member has agreed to comply with Section 1.4.7. of the AAFS Policy and Procedure Manual.

To serve on the 2019-20 Program Committees, it is required that relevant AAFS staff members, program committee members, and/or reviewers complete a Financial Disclosure Form before being provided access to review submissions for the program. For continuing education accreditation purposes, the disclosed relationships are published below so learners are aware of the nature of any relationships that may impact the selection of presentations for the program. If a committee member failed to provide complete disclosure of a relevant financial interest or relationship, the committee member or reviewer was not allowed to serve. The executed Faculty Disclosure Forms are on file in the AAFS Office.

The following 2019-20 Program Committee members have disclosed financial relationships with commercial entities.

Marilyn A. Huestis, PhD – Reviewer
   Evanostics, Intelligent Fingerprinting, Pneuma, Thermo Scientific™ (Consultant Fees).
Philip M. Kemp, PhD – Reviewer
   Analytical Research Laboratories (Consultant Fees).
Jason C. Kolowski, PhD – Reviewer
   LG Chem, Ltd. (Consultant Fees).

The following 2019-20 Program Committee members disclose no financial relationships with commercial entities.

A

Michael S. Adamowitz, PhD – Reviewer

PRESENTING AUTHOR
FINANCIAL DISCLOSURE

As an accredited provider of Continuing Medical Education, the American Academy of Forensic Sciences requires speakers to disclose any real or apparent conflict of interest they may have related to the content of their presentation(s). The existence of commercial or financial interest of authors related to the subject matter of their presentation(s) should not be construed as implying bias or decreasing the value of their presentation(s). However, disclosure should help participants form their own judgments. AAFS and the Program Committee review the submissions to ensure that the content is educational and not a commercial presentation for companies and their products. Participants may notify AAFS by email (abstracts@aafs.org) should any presentation be considered solely a commercial endorsement presentation. Notification should include presentation number/ID (e.g., BS10, E100, W30) and speaker name.

If an author failed to provide complete disclosure of the discussion of commercial products, a relationship with the manufacturer including employee/employer relationship, sources of support for the research project, and/or the discussion of unlabeled or unapproved uses of pharmaceuticals/medical devices, the presentation was not accepted. Authors are required to disclose at the beginning of each presentation any information disclosed and listed below. Copies of the executed disclosure forms are kept on file in the AAFS Office.

The following presenting authors have disclosed financial relationships with commercial entities.

A

Jose R. Almirall, PhD - W26
Agilent*, Analytical Solutions and Providers (ASAP Analytical) (Discussion of Commercial Products or Services).

B

Catherine O. Brown, MSFS –
Discloses no financial relationships with commercial entities. – S2
Agilent*, Waters” (Discussion of Commercial Products or Services).– B9
Bruce Budowle, PhD – B32
COPAN* (Discussion of Commercial Products or Services).

C

Kelsey Cagle – F18
Agilent” (Discussion of Commercial Products or Services).
Brady Carter, PhD – C29
Multi-Spectral Imaging System (Discussion of Unlabeled/Investigational Use of Product/Device).
Claire M. Cartozzo, MS – A132, E46, H159
Applied Biosystems*, Illumina*, Life Technologies*, Onset, QIAGEN*, THERMO FISHER”, YSI (Discussion of Commercial Products or Services).
Eoghan Casey, PhD –
Discloses no financial relationships with commercial entities. – C34, C41, S1
Cellebrite*, IBM* (Discussion of Unlabeled/Investigational Use of Product/Device). – C32
Carole E. Chaski, PhD –
SynAID (Discussion of Unlabeled/Investigational Use of Product/Device). – D29
Mollie S. Comella – B85
Applied Biosystems*, COPAN*, SoftGenetics*, THERMO FISHER” (Discussion of Commercial Products or Services).

Billy S. Cox, Jr. –
Discloses no financial relationships with commercial entities. – D28
Bosch (Discussion of Unlabeled/Investigational Use of Product/Device). – D31
Nicole S. Cusack, BS – B109
Invitrogen”, QIAGEN” (Discussion of Commercial Products or Services).
Natalia Czado, MS – B44
Applied Biosystems*, COPAN*, Thermo Fisher Scientific” (Discussion of Commercial Products or Services).

D

Alyssa Daniels – B40
Beckman Coulter*, Illumina*, QIAGEN*, THERMO FISHER” (Discussion of Commercial Products or Services).
Bailey Davis, BS, BA – K9
Agilent” (Discussion of Commercial Products or Services).
Jon Davoren, MS – B108
Illumina* (Discussion of Commercial Products or Services).
Haylea Debolt – B177
Agilent*, LECO* (Discussion of Commercial Products or Services).
Catia P. Dombaxe – E1
Bluestar* (Discussion of Unlabeled/Investigational Use of Product/Device).

F

Allie Flores, BS – B136
Bode Technology”, Promega*, Qiagen*, THERMO FISHER” (Discussion of Commercial Products or Services).

G

Ryan Greaney – E2
Fuji, Sirchie* (Discussion of Unlabeled/Investigational Use of Product/Device).
Ellen M. Greytak, PhD –
GEDmatch, Parabon* Nanolabs, (Discussion of Commercial Products or Services). – W20
Parabon* Snapshot (Discussion of Unlabeled/Investigational Use of Product/Device). – W20
Brittany C. Hudson, MS – B154
Biotech Support Group, Invitrogen™, Millipore®, Procter & Gamble®, Puritan®, Sigma Aldrich, THERMO FISHER™ (Discussion of Commercial Products or Services).

Samiah Ibrahim, BSc –
Discloses no financial relationships with commercial entities. – J17, J18, J29
Faxitron® Bioptics, LLC (Discussion of Commercial Products or Services). – J15
Donna M. Iula, PhD – W21
Cayman Chemical (Discussion of Commercial Products or Services).

Joseph H. Kahl, MS – K65
Emergent BioSolutions®, Inc. (Discussion of Commercial Products or Services).
Roger Kahn, PhD – B151
Institute of Environmental Science and Research (ESR)
(Discussion of Commercial Products or Services).
Lisa B.B. Kasamba – E1
Bluestar® (Discussion of Unlabeled/Investigational Use of Product/Device).

Amy Laabs, MFS – B23
KIWICARE®, Safariland® Group, Speedball, WD-40® (Discussion of Unlabeled/Investigational Use of Product/Device).
Steven B. Lee, PhD –
THERMO FISHER™ (Discussion of Commercial Products or Services). – B47
THERMO FISHER™ (Discussion of Unlabeled/Investigational Use of Product/Device). – B47
James W. Liang, BS – B83
Applied Biosystems®, Invitrogen™, Thermo Fisher Scientific™, Zyagen (Discussion of Commercial Products or Services).

Daniel Madrzykowski, PhD –
UL® FSRI Fire Investigation Web Portal (Discussion of Unlabeled/Investigational Use of Product/Device). – D8
Discloses no financial relationships with commercial entities. – W3

Kathleen M. Maguire, BS – B34
Bio-Rad™, COPAN®, Promega®, Puritan®, QIAGEN® (Discussion of Commercial Products or Services).
Laksh Malik – B109
Invitrogen®, QIAGEN® (Discussion of Commercial Products or Services).
Tyler L. McDermott, MS – B113
Thermo Fisher Scientific®, Verogen (Discussion of Commercial Products or Services).
Judy Melinek, MD –
Discloses no financial relationships with commercial entities. – BS2
Alumilite, Polyform, Ultronics (Discussion of Unlabeled/Investigational Use of Product/Device). – B127
Heather V. Milnthorp, MSFS – B78
Applied Biosystems®, Biomatrica®, Eppendorf®, Life Technologies™, QIAGEN® (Discussion of Commercial Products or Services).
Linda L. Mitchell, BS –
PracticePanther.com (Discussion of Unlabeled/Investigational Use of Product/Device). – J16
Discloses no financial relationships with commercial entities. – W23
CeCe Moore –
Parabon® Nanolabs (Discussion of Commercial Products or Services). – W20
Parabon® Snapshot (Discussion of Unlabeled/Investigational Use of Product/Device). – W20
Sarah V. Morello – E2
Fuji, Sirchie* (Discussion of Unlabeled/Investigational Use of Product/Device).
Ashley Morgan, MS – B110
Applied Biosystems® (Discussion of Commercial Products or Services).

John Nixon, MBA – D4
TriggerScan™ (Discussion of Unlabeled/Investigational Use of Product/Device).
Maher Noureddine, PhD –
COPAN® Italia, Thermo Fisher Scientific™ (Discussion of Commercial Products or Services). – E4
Discloses no financial relationships with commercial entities. – E77

Morgan S. Peters – B66
QIAGEN® (Discussion of Commercial Products or Services).
Pierre-Antoine Peyron, MD – H181
Abbott™ (Discussion of Commercial Products or Services).

Martina Reif, MS – C32
Cellebrite® (Discussion of Unlabeled/Investigational Use of Product/Device).
Ciara Rhodes – B38
Life Technologies™, Illumina®, QIAGEN®, Quanta Biosciences, (Discussion of Commercial Products or Services).
James M. Robertson, PhD – B6
Illumina®, InnoGenomics®, Promega®, ThermoFisher Scientific®, Verogen, (Discussion of Commercial Products or Services).

Gert Saayman, FCPath – H91
University of Pretoria (Discussion of Unlabeled/Investigational Use of Product/Device).

Matteo A. Sacco, MD –
Discloses no financial relationships with commercial entities. – D2, E96, E97, H33, H34, H35, H73, H74, H129, I27
OptiTrack™, Supermicro® Systems (Discussion of Unlabeled/Investigational Use of Product/Device). – E83

Sarah J. Seashols Williams, PhD – B33
Bode Technology®, Life Technologies®, Promega®, QIAGEN® (Discussion of Commercial Products or Services).

Ismail M. Sebetan, MD, PhD –
Discloses no financial relationships with commercial entities. – E15, E47, F22, I3
KIWICARE®, Safariland® Group, Speedball, WD-40® (Discussion of Unlabeled/Investigational Use of Product/Device). – B23

Jagmahender Singh Sehrawat, PhD –
Image J software (Discussion of Unlabeled/Investigational Use of Product/Device). – G17
Discloses no financial relationships with commercial entities. – G38
Arizona State University Dental Anthropology System (Discussion of Unlabeled/Investigational Use of Product/Device). – G43

Richard Selden, MD – A38
ANDE® Corporation (Discussion of Commercial Products or Services).

Iris L. Shields, DDS – G13
CT scan (Discussion of Unlabeled/Investigational Use of Product/Device).

Pankaj Sinha – K18
Randox® Toxicology Ltd. (Discussion of Unlabeled/Investigational Use of Product/Device).

Patricia M. Speck, DNSc –
Thermo Fisher Scientific® (Discussion of Commercial Products or Services). – E42
Discloses no financial relationships with commercial entities. – W9

Paul Stein, PhD –
Discloses no financial relationships with commercial entities. – E15, E47, F22, I3
KIWICARE®, Safariland® Group, Speedball, WD-40® (Discussion of Unlabeled/Investigational Use of Product/Device). – B23

Jonah W.P. Stone, BS – A29
Applied Biosystems®, Life Technologies®, QIAGEN® (Discussion of Commercial Products or Services).

Mark Vecellio, MFS –
Bluestar®, Fuji, Sirchie® (Discussion of Unlabeled/Investigational Use of Product/Device). – E1, E2
Discloses no financial relationships with commercial entities. – E114

Mark A. Walch, MArch, MPH – C21

Devin Walker – E1
Bluestar® (Discussion of Unlabeled/Investigational Use of Product/Device).

Denise Wohlfahrt, BS –
Applied Biosystems®, Illumina®, Invitrogen®, QIAGEN®, Zymo Research (Discussion of Commercial Products or Services). – B87

# PRESENTING AUTHOR INDEX

The presenting author index can provide a quick reference to find when and in what section presenting authors are scheduled to present at the 2020 Annual Scientific Meeting. The reference table below assists you in finding the section in which the presentation will be given. Letters correspond to the scientific discipline/section in which the presentation is being made while the number corresponds to the numerical sequence of the presentation within the section.

### Presenting Authors

**A**

- Aalders, Maurice - B92
- Abrahamsson, Christoffer K. - B196
- Accella, Adriano - K5
- Acosta, Alexander - B143
- Adams, Donovan M. - A178
- Adams, Dwight E. - W6
- Adams, Joshua L. - W8
- Ademaj, Xhemajl - B51
- Admire, Lindsey - B2
- Adserias-Garriga, Joe - A5
- Afsin, Huseyin - G3
- Agnew, Amanda M. - A122
- Ainger, Timothy J. - E35
- Aitkenhead-Peterson, Jacqueline A. - A95
- Akhtar, Shahnaz - B74
- Akiyama, Cliff - E70
- Akmeenama, Anuradha G. - B126
- Alberink, Ivo - W19
- Alexander, Abigail L. - H110
- Algee-Hewitt, Bridget F.B. - A174
- Ali, Amina - I35
- Allred, Brent M. - B161
- Almela, Angela - D23
- Almirall, Jose R. - W26
- Alongi, Alberto - B71
- AlQahtani, Sakher J. - B51
- Alsalamah, Shada - C30
- Altilie, Salem - G40
- Amadasi, Alberto - H16
- Amaral, Maria Eduarda A. - F1
- Amico, Francesco - H17
- Ammer, Saskia - A115
- Amoresano, Elaine R. - H150
- Anderson, Bruce E. - W11
- Anderson, Gail S. - H158
- Anderson, Robert D. - D39
- Andrelo, Luisa - H112
- Andrews, Sally E. - G34

**B**

- Andrews, Zachary B. - B73
- Andronowski, Janna M. - A59
- Angel, Miriam - J7
- Angrisani, Carmelinda - A3
- Annas, George D. - E51
- Antoniak, Sandra - F7
- Antoun, Vanessa - S1
- Appleford, Colin - K6
- Aquila, Isabella - D2
- Argon, Antonina - H167
- Armellin, Kerianne - A69
- Armstrong, Adam C. - W8
- Armstrong, Bonnie - W13
- Armstrong, Lena - B123
- Arroyo, Luis E. - B74
- Aschheim, Kenneth W. - G19
- Ashiq, Muhammad Irfan - B74
- Ashraf, Zuhra - H166
- Asato, Sevil - J11
- Austin, Dana - A60
- Ayala, Jessica L. - K32
- Aydin, Rabia - K44

- Babcock, Kailey - H128
- Babcock, Russell S. - W20
- Bäckström, Björn - H8
- Baden, Michael M. - F2
- Baigent, Christiane I. - A143
- Bailey, Christine - A142
- Bailey, Andrew M. - H99
- Baldari, Benedetta - H113
- Baldino, Gennaro - B71
- Barbaric, Lucija - B104
- Barie, Wyatt - B118
- Barić-Jaman, Berislav - D25

**Barranco, Rosario - H23**, **H57**, **H135**, **K12**

- Barrett, Morgan - B43
- Bartelink, Eric J. - A35
- Basiliere, Stephanie - K61
- Batters, Steven C. - S2
- Battato, Sebastiano - C14
- Bauer, Corey A. - F31
- Baumann, Michael H. - W21
- Baumgarten, Brooke R. - B155
- Beach, Jocenel J. - B103
- Beasley, Melanie M. - A110
- Beasly, Kristine G. - B76
- Bell, Kathy - E21
- Bell, Michelle L. - B88
- Beltempo, Pasquale - E18, E120
- Bennett, Jennifer - F5
- Berkland, Haley - K33
- Bertozzi, Giuseppe - E10, E11, E12
- E40, E41, E87, H2, H136, H137, H138
- Bertram, Dean J. - W6
- Bertrand, Benoit - A160
- Bertsch, Ingrid - S2
- Beyer, Jonathan D. - A113, A177, W25
- Bever, Robert A. - B106
- Beyer, Brittany N. - S2
- Bhaloo, Zain - S2
- Bieber, Frederick R. - W20
- Biehler - Gomez, Lucie - A163
- Bird, Cate E. - A85
- Bishop, Brett - W23
- Bishop-Freeman, Sandra C. - K57
- Blackwell, Thomas M. - B156
- Blair, Nathan - A73
- Blake, Brooke H. - H148
- Blevins, Brittany L. - A24
- Boileau, Michelle - B192
- Boland, Diane - K69
- Bolhofer, Katelyn L. - W22
- Bolte, John H. - D37
- Bonaccorsu, Luana - A25, E9
- Bonato, Omar - E90, H13
PRESENTING AUTHOR INDEX

Bonetti, Jennifer - B185, W21
Bonsignore, Alessandro - H19, H57, H135, K12
Boone, Alice B. - B70
Borrini, Matteo - B3, LW4
Bortz, Sean - K13
Bosch, David R. - D9, D26, D33
Bosco, Caterina - E9, H116
Bosman, Ingrid - K66
Bowen, April - D13
Boyd, Donna C. - A45

Bracewell, Tammy - A134
Bradley, Kimberly - C33
Braun, Tim - W10
Brenner, Charles H. - F10, F11
Brodeur, Amy N. - W6
Brooks, Evie K. - B215
Brosz, Helmut G. - D30, D32
Brown, Catherine O. - B9, S2
Bruno, Katelyn E. - W23
Bryant, Erick P. - E114
Bucht, Rebecca E. - B36
Budowle, Bruce - B130
Cagle, Kelsey - F18
Caldwell, Mikayla - K22
Callow, Michael - D41
Campbell, Jessica L. - A27
Campbell, Jorien - L2
Campbell, John David - LW5
Candelario Gorbea, Mariel - A107
Cao, Yiyan - B5
Capistran, Briania A. - B180
Capitaneau, Cezar - G10
Caputo, Fiorella - H23, H135
Carabellse, Felice F. - I15, I16, W5
Carew, Rachael M. - A58, E19
Carnes, Julie A. - C4
Carney, Amy Y. - W9
Carpenter, Douglas J. - W3
Carpenter, Morgan N. - B55
Carriquiry, Alicia L. - B173, W2
Carter, Brady - C29
Carter, Helen R. - H132
Carter, Joye M. - S1
Carter, Melinda L. - A170
Cartozzo, Claire M. - A132, E46, H159
Casey, Eoghlan - C32, C34, C41, S1
Castelanos, Daniel - A113
Caten, Reilly - E103
Cawley, William D. - A137
Cecchetto, Giovanni - A48
Celentano, Jennifer - A34
Cena, Greta - A25, C15
Cerreta, Michelle - B200
Chaimowitz, Gary A. - D10
Chambers, Megan I. - B130
Chan, Chi Hin Marco - K40
Chang-Hosokawa, Ayako - K46
Chancellor, Arthur S. - W8
Chany, Christopher P. - B16, B102
Chaski, Carole E. - D18, D22, D29
Chaudhry, Irfan - H101
Chauhan, Mohit - C24
Chen, Qiang - D10
Cheng, Kevin - H95
Chesson, Lesley A. - A109
Chetney, Kaitlyn - B168
Cheverko, Colleen M. - A42
Chien, Joseph - I12
Chihwine, Alberto - H24
Chowdhury, Siddharth S. - C35
Christensen, Alexander F. - A169
Christensen, Angi M. - A118
Christy, Brenda B. - B178
Chu, Elaine Y. - A30
Chu, Sarah - F14
Chung, Hee-Sun - K21
Ciolli, Andrea - E91
Cipolloni, Luigi - E12
Curran, James M. - B100
Curran, Phillip M. - B86
Curti, Serena Maria - E18, E120, I31
Cusack, Nicole O. - B109
Czado, Natalia - B44

D

Dabbs, Gretchen R. - A135
Dadour, Dan - H131
Daniels, Alyssa - B40
