AMERICAN ACADEMY OF FORENSIC SCIENCES

72ND AAFS ANNUAL SCIENTIFIC MEETING

CROSSING BORDERS

ADVANCE PROGRAM • FEBRUARY 17-22, 2020 • ANAHEIM, CA
Three Ways to Register:
- Register online at www.aafs.org
- Scan & email your registration form (three pages) to registration@aafs.org
- Mail your form with check, money order, or purchase order to: AAFS, 410 N 21st Street, Colorado Springs, CO 80904

Registration forms must be received by Monday, January 20, to be eligible to register for the 2020 Special Functions and to qualify for the discounted registration rate.

Faxed registration forms are not accepted.

BADGE INFORMATION

Salutation (Dr/Mr/Ms): _______ Badge First/Given Name: ________________
Badge Last/Given Name: ___________________ Highest Degree Attained (one degree only): ____________________
Badge Agency/School Name: ____________________________________________________________________________
Mailing Address: ______________________________________________________________________________________
Badge City: ___________________ Badge State/Province: ___________ ZIP/Postal Code: ____________
Badge Country: ____________
☐ Registrant Minimum Age: I acknowledge that all persons attending the meeting associated with this registration will be at least 18 years of age at the time of the meeting in February.

“Accompanying spouse” registration is only available to AAFS members paying the full meeting registration fee (Excludes: Non-Member, Student, Daily, and Workshop Only registrants).
☐ Yes ($50) Name: ___________________
♦ This reduced fee is intended for spouses, family members, or other traveling companions who are not members of the forensic science or legal community and may not be used for colleagues, students, or interns.

REGISTRATION INFORMATION

Email: ___________________________ Cell Phone: ___________________________
Hotel: ___________________________ First AAFS Meeting? ☐ Yes ☐ No
Vocational Status: ☐ Professional ☐ Student ☐ Academic ☐ Decision Maker ☐ Purchasing Agent ☐ Other
Gender: ☐ Male ☐ Female
Would you like to receive pre-meeting exhibitor mailings? ☐ Yes ☐ No
Emergency Contact Name: ___________________________
Emergency Contact Phone: ___________________________

ADA ACCOMMODATIONS

Please list any special dietary requirements: ________________________________________________________________

Please list ADA accommodation requests: ________________________________________________________________

Please note: This ADA Accommodations request refers to meeting/session accommodations (e.g., wheelchair access, assisted listening devices, etc.) and should specify what event(s) you are attending. ADA accommodations related to hotel room reservations should be directed to the hotel when making reservations. ADA Accommodations are required by the pre-registration deadline (January 20, 2020). Requests received after this date may not be processed or fulfilled in time. Venues may not be able to fulfill every special dietary request. Please be specific and use standard accommodation language to detail your dietary needs.
### SPECIAL FUNCTIONS

The following sessions are priced separately and are not included in the Registration Fees. Special Functions fill quickly due to limited seating. Registration for all Special Functions officially closes as of the January 20, 2020, pre-registration deadline. AAfS has a firm policy that non-registered attendance or auditing is not permitted in these sessions. *(AAfS Policy and Procedure Manual 3.1.3.3)*

REGISTRATION INFORMATION

The pre-registration deadline is **January 20, 2020**. Forms must be received by this date to qualify for the pre-registration rate and to register for Special Functions. Registration forms received after January 20, 2020, will be processed as on-site registrations.

**THREE WAYS TO REGISTER**
- Scan & email your registration form (three pages) to: registration@aafs.org.
- Mail your registration form, along with a check, money order, or purchase order to:
  
  AAFS  
  410 North 21st Street  
  Colorado Springs, CO 80904  
  (Checks must be drawn on a U.S. bank in U.S. funds, made payable to AAFS.)
- Faxed registration forms are not accepted.

**ONLINE REGISTRATION INFORMATION**
- Online registrants are required to have an AAFS Web Account to register for the meeting.
- If you are currently a member or applicant of the AAFS, you will need to login to your AAFS Web Account to start your registration.
- If you are not a member of the AAFS, but you are or have been an Author or Co-Author on a presentation (oral or poster) at an AAFS Annual Scientific Meeting, you will have an AAFS Web Account. Use the “Forgot User Name or Password” button found on the AAFS Web Login page to retrieve a forgotten password.
- If this is your first contact with the AAFS, you will need to create a new AAFS Web Account. Click the “Create Account” button on the Login Page.

**REGISTRATION CONFIRMATION**
- When you register online, you will receive an email confirmation immediately.
- When you email or mail your registration form to AAFS, a confirmation email will be sent once your registration form is processed.
- Bring a copy of your confirmation letter to the on-site pre-registration desk for meeting check-in.

**NEW THIS YEAR—LOST BADGE POLICY**
- Lost, misplaced, stolen, or forgotten badges will incur a replacement fee equal to the original purchase amount of your registration. If your badge was complimentary, the fee will be the current, on-site rate.

**QUESTIONS**
- If you have any questions or need assistance with registration, contact the AAFS Office at (719) 636-1100, ext. 111, or by email at: registration@aafs.org.
REGISTRATION INFORMATION

PRE-REGISTRATION SAVINGS
The benefits of pre-registration cannot be emphasized enough!
Over 35% savings for AAFS members!

*This is the only chance to register for Special Functions (breakfasts, luncheons, workshops, and special sessions)!*
Your pre-registration form must be received by Monday, January 20, 2020.

(*Includes admittance into AAFS sessions starting with the Tuesday evening Welcoming Reception through the Saturday morning Scientific Sessions (excludes all sessions found in section “SPECIAL FUNCTIONS” of the registration form).**

**Registration Requirement:
- **AAFS Applicants** must have a completed application on file by the application deadline.
- **Non-Member Trainees** must submit a letter from employer verifying trainee status to registration@aafs.org.
- **Non-Member Students** must submit an official Verification of Enrollment confirming enrollment during February 2020 to registration@aafs.org. Not available to those in postgraduate internships, residencies, or fellowships.
- **AFTE, IAAI, and IAI Members** must provide proof of current membership to registration@aafs.org.

PRE-REGISTRATION DEADLINE
The **deadline for pre-registration** is January 20, 2020. Registration forms must be **received by** this date. Pre-registration forms received at the AAFS office after January 20, 2020, will be processed as on-site registrations and will cancel all Special Function selections (e.g., breakfast and luncheon seminars, workshops, and special sessions). Don't delay; register today via online, mail, or scan and email your pre-registration form as soon as possible to ensure your full participation and reduced registration fees. Faxed registration forms are not accepted.

REFUNDS
All requests for refunds must be made in writing via email (hjefferson@aafs.org) or mail to the AAFS headquarters. Canceled registration fees will be refunded as follows:

<table>
<thead>

</tr>
<tr>
<td>No refunds after February 7, 2020.</td>
<td></td>
</tr>
</tbody>
</table>

ACCOMPANYING SPOUSE REGISTRATION
This reduced fee is intended for spouses, family members, or other traveling companions who are not members of the forensic science or legal community and should not be used for colleagues, interns, or students.

Accompanying Spouse registration includes a name badge only and is not eligible for Continuing Education credit, workshops, special session registration, or certificates of attendance. However, breakfast seminar and luncheon seminar tickets may be purchased by the pre-registration deadline. Accompanying Spouse registration is only available to AAFS members paying the full meeting registration fee (excludes Non-Member registrants, Student registrants, Daily registrants, and Workshop Only registrants). An Accompanying Spouse registration is available for an additional fee ($50).
ABOUT THE AAFS

For 72 years, the American Academy of Forensic Sciences (AAFS) has served a distinguished and diverse membership. Its 6,600+ members are divided into 11 sections spanning the forensic enterprise. Included among the Academy’s members are physicians, attorneys, dentists, toxicologists, anthropologists, document examiners, digital evidence experts, psychiatrists, engineers, physicists, chemists, criminalists, educators, and others. Representing all 50 United States, Canada, and 60 other countries worldwide, they actively practice forensic science and, in many cases, teach and conduct research in the field as well. Each section provides opportunities for professional development, personal contacts, awards, and recognition. Many sections publish AAFS Newsfeed articles that keep their members abreast of activities and developments in their fields.

As a professional society dedicated to the application of science to the law, the AAFS is committed to the promotion of education and the elevation of accuracy, precision, and specificity in the forensic sciences. It does so via the Journal of Forensic Sciences (its internationally recognized scientific journal), the AAFS Newsfeed, its annual scientific meeting, the conduct of seminars and meetings, and the initiation of actions and reactions to various issues of concern. For its members and affiliates, AAFS provides expert witness referrals, job opportunity listings, as well as scientific reference studies. As the world’s most prestigious forensic science organization, the AAFS represents its membership to the public and serves as the focal point for public information concerning the forensic science profession. Founded in 1948, the AAFS is headquartered in Colorado Springs, CO.

AAFS Annual Scientific Meeting

Each February, the AAFS scientific meeting gathers together approximately 5,000 world-renowned professionals to present the most current information, research, and updates in their fields. More than 1,000 scientific papers, seminars, workshops, and other special sessions are presented. In addition, approximately 150 exhibitors showcase the cutting-edge technology and services of this ever-changing profession.

Lost Badge Policy

Lost, misplaced, stolen, or forgotten badges will incur a replacement fee equal to the original purchase amount of your registration. If your badge was complimentary, the fee will be the current, on-site rate.

Attention Meeting Presenters

The Journal of Forensic Sciences encourages authors to submit previously unpublished reports and papers presented at the AAFS annual meeting.

For full instructions on manuscript preparation, consult the Information for Authors available at: https://www.aafs.org/resources/journal-of-forensic-sciences/information-for-authors/.

Manuscripts must be submitted electronically via the Journal of Forensic Sciences Manuscript Central site: http://mc.manuscriptcentral.com/jofs. For questions, please contact: jfs.editor@att.net.

Video and/or audio recording of any session(s) or parts thereof is not permitted without prior approval from the American Academy of Forensic Sciences.

English is the official language of the AAFS and its meetings; neither oral nor written translations will be provided.

Although precautions are taken to prevent schedule changes, speakers and program schedules may change due to unforeseen circumstances.

As a courtesy to others, please silence your cell phone when attending the sessions.
AWARDS

The **Distinguished Fellow Award** and the **Outstanding Early Career Achievement in Forensic Science Award** will be presented on Wednesday, February 19, during the AAFS Annual Business Meeting. Please join us in acknowledging your most distinguished colleagues as they are presented with these prestigious awards.

**Distinguished Fellows**

*Betty Layne DesPortes, JD, MS*

*Iain A. Pretty, BDS, PhD*

**Outstanding Early Career Achievement in Forensic Science Award**

*Audrey M. Williams, PhD*

**2020 Section Award Honorees**

Section Awards will be presented during Section Business Meetings, also on Wednesday, February 19 (see Section Business Meeting start times on page 12). The Section Award recipients will be acknowledged again before the entire membership during the AAFS Annual Business Meeting.

**Anthropology Section's**

T. Dale Stewart Award

J. Lawrence Angel Award

Ellis R. Kerley Research Award

H. Gill-King, PhD

Saskia Ammer, MSc

Gregory E. Berg, PhD

**Criminalistics Section's**

Paul L. Kirk Award

Mary E. Cowan Outstanding Service Award

Meritorious Service Award

Jose R. Almirall, PhD

Matthew R. Wood, PhD

Jennifer S. Mihalovich, MPH

**Digital & Multimedia Sciences Section's**

Outstanding Case Study Award

Outstanding Research Award

Brandon Epstein, BS

Marla E. Carroll, BS

Nicole R. Odom, MSFS

Jesse M. Lindmar

Josh Brunt, MS

Catherine G. Rushton, EdD

**Engineering & Applied Sciences Sciences Section's**

Founders Award

Michelle R. Hoffman, MS

**General Section's**

John R. Hunt Award

Paul W. Kehres Meritorious Service Award

Paul E. Kish, MS

Joanna L. Collins, MFS

**Odontology Section's**

Lester Luntz Award

Reidar F. Sognnaes Award of Excellence in Forensic Odontology

Richard A. Weems, DMD

Patrick W. Thevissen, PhD

**Pathology/Biology Section's**

Milton Helpern Award

Award for Achievement in the Forensic Life Sciences

Duarte Nuno Vieira, PhD, MD

John R. Wallace, PhD
AWARDS

Psychiatry & Behavioral Science Section’s
Rosner Best Paper Award
Cristina Secarea, MD

Questioned Documents Section’s
Maureen Casey-Owens Award for Best Paper or Poster
Nina Harnarine, BSc
Ordway Hilton Award
Linda L. Mitchell, BS

Toxicology Section’s
Irving Sunshine Award
Nathalie A. Desrosiers, PhD
Ray Abernethy Award
Eric S. Lavins, BS
Rolla N. Harger Award
Christine Moore, PhD, DSc
June K. Jones Scholarship
Haley Mulder, BS

The FSF Jan S. Bashinski Criminalistics Graduate Thesis Assistance Grant will be presented on Wednesday, February 19, during the Criminalistics Section Business Meeting.

FSF Jan S. Bashinski Criminalistics Graduate Thesis Assistance Grant Recipient
Cameron M. Longo, BS

The following awards will be presented on Wednesday, February 19, during the AAFS Annual Business Meeting. You'll want to be present to congratulate the recipients!

Humanitarian and Human Rights Resource Center’s Clyde Snow Award Recipient
Duarte Nuno Vieira, PhD, MD

Ambassador of Forensic Science Award Recipient
The New York County District Attorney’s Office

FSF Emerging Forensic Scientist Award Recipients
Helen M. Brandt, MS
Carrie Polston, BA
Ellyn A. Zeidman, MS

FSF Warren-Young Scholarship Recipient
Pamela Carman, BA

FSF Henry C. Lee Scholarship Recipient
Giacomo Musile, PhD
The Sections

The Sections of the American Academy of Forensic Sciences will hold their annual business meetings on Wednesday, February 19, 2020. Some of the sections will hold a luncheon prior to the start of the business meeting. All Section Luncheons require pre-registration. This is your opportunity to participate! Please attend and contribute to your section’s future plans. Specific times are noted below:

** These luncheons require pre-registration.

RECEPTIONS

Welcoming Reception — Tuesday, February 18 — 6:00 p.m. - 8:00 p.m.

This opening event is your opportunity to meet old friends and to make new acquaintances. Snacks and cash bars will be available.

AAFS 72nd Annual Wine & Cheese Reception — Thursday, February 20 — 6:00 p.m. - 8:00 p.m.

The AAFS Wine & Cheese Reception will be held to celebrate what promises to be an excellent 2020 program and to toast your return to the Academy’s 73rd Annual Scientific Meeting in 2021 (Houston, TX)!
WELCOME TO ANAHEIM!
A city built on imagination, Anaheim is where you will find plenty of things to see and do. Visitors can enjoy the inviting beaches, unparalleled shopping, entertainment, trendy restaurants, lively art districts, beautiful historic landmarks, and legendary, yet always new and changing, internationally famed family attractions.

CLIMATE
The average temperature is 70 degrees and you can find bright and sunny skies about 70% of the time.

ANAHEIM CONVENTION CENTER
800 W Katella Avenue, Anaheim, CA 92802

The Anaheim Convention Center (ACC) first became a meetings and conventions destination in 1967, and the original construction consisted of the domed Arena. Since those early days, the ACC has completed a total of seven expansions plus several cosmetic renovations and updates.

Attendees will approach the ACC from Convention Way. They will drive along a corridor of palm trees and convention hotels toward the glass-walled towers that form the dramatic rotunda lobby of the main entrance. Taxis, buses, and cars move efficiently around a traffic circle, dropping off attendees, then moving back along Convention Way.

TRANSPORTATION
Traveling to Anaheim is easy. With four major airports, there are several options for reaching your destination, including rental cars, shuttles, taxis, limousines, and ride apps (Uber/Lyft/Wings) companies.

John Wayne Airport (SNA)
SNA is located 13 miles/21 km from Anaheim. It is approximately a 20-minute drive.
(https://www.ocair.com/groundtransportation/)

Los Angeles International Airport (LAX)
LAX is located 35 miles/56 km from Anaheim. It is approximately a 50-minute drive.

Ontario International Airport (ONT)
ONT is located 36 miles/58 km from Anaheim. It is approximately a 45-minute drive.
(https://www.flyontario.com/parking-transports)

Long Beach Airport (LGB)
LGB is located 18 miles/29 km from Anaheim. It is approximately a 30-minute drive.
(http://www.lgb.org/travelers/transit.asp)

ATTRACTIONS

Disneyland® Park
Welcome to the place where imagination is the destination. For young and old, big and small—it’s the happiest place on earth! Come build memories with your family that last a lifetime as you discover the wonder of this magical, fantastical world. When you enter one of the Lands that comprise Disneyland® Park, stories come to life around you, immersing you in tales from some of your favorite Disney films.
(disneyland.disney.go.com)
**Knott's Berry Farm**
This world-renowned theme park was built from the humblest of beginnings nearly 100 years ago. Starting with a simple roadside berry stand, then a restaurant serving mouthwatering chicken dinners, Walter and Cordelia Knott attracted long lines of customers to their Buena Park farm. To keep crowds entertained, the Knott family built an entire western-themed town that remains the heart of Knott's Berry Farm today. Anchored in its rich California history and charm, Knott's Berry Farm now bursts with attractions and entertainment for all ages.
(https://www.knotts.com/)

**Universal Studios Hollywood – Universal City**
This film studio and theme park is located in the San Fernando Valley. It is one of the oldest and most famous Hollywood film studios still in use. It was initially created to offer tours of the real Universal Studios sets and is the first of many full-fledged parks located across the world.
(https://www.universalstudioshollywood.com/)

**Anaheim Garden Walk**
An “eatertainment” destination that blends dining, nightlife, family-friendly fun, outdoor art, and unique shops in a single amazing location. Garden Walk is home to a distinctive collection of popular restaurants, a vibrant nightlife with two rocking dance clubs, retail stores, and a renowned live concert venue. Anaheim GardenWalk provides a one-of-a-kind guest experience and a world-class gathering place for locals and visitors.
(https://anaheimgardenwalk.com/)

**Center Street Promenade**
Visit the rebirth of historic downtown Anaheim on Center Street Promenade, between Harbor Boulevard and Anaheim Boulevard to enjoy outdoor cafes, unique eateries, boutiques, the local farmers market, seasonal art shows, and street fairs.
(https://www.centerstreetanaheim.com/)

**Aquarium of the Pacific**
This aquarium celebrates the planet’s largest and most diverse body of water: the Pacific Ocean. Home to more than 11,000 animals, the Aquarium explores the waters of Southern California and Baja and the Northern and Tropical Pacific. A world of discovery awaits people of all ages, backgrounds, and interests.
(http://www.aquariumofpacific.org/)

**MUZEO Museum and Cultural Center**
Come explore the various exhibits that engage the community in exploring and celebrating diverse heritage, culture, and arts through creative programming.
(http://muzeo.org/)
RESTAURANTS

Agio Ristorante
2085 S Harbor Boulevard
Italian/California-inspired cuisine that incorporates the freshest ingredients and a celebration of flavors into distinctive seasonal fare.

Bubba Gump Shrimp
Anaheim Garden Walk, 321 W Katella Avenue
Bubba’s is a choice with a “down south” vibe, serving up delicious seafood dishes to amazing slow-roasted ribs and salads—all served up in a casual and fun atmosphere. Try the Shrimper’s Heaven with a variety of shrimp dishes and sauces.

Buca di Beppo
11757 Harbor Boulevard
Buca di Beppo gets to the heart of fresh Italian cooking with favorites like Chicken Carbonara, Baked Rigatoni, or Spaghetti with famous half-pound meatballs! Buca serves family-style food in two portion sizes.

Decades Bar & Grill
195 W Center Street Promenade
Are you dreaming of high-top sneakers, big shoulder pads, fanny packs, or big hair? Serving deep fried lasagna, fried chicken sandwiches, grilled cheese, cheesburgers, and more, this 80s- and 90s-themed restaurant and bar will transport you back in time.

House of Blues® Anaheim
400 W Disney Way Suite 337
Featuring Southern-inspired dishes like the Voodoo Shrimp, the House of Blues® Restaurant & Bar brings a little rock to your walk as you seek a restaurant near the Convention Center. The energetic atmosphere and soulful food make it a fun stop for Happy Hour or dinnertime.

Jazz Kitchen
1590 South Disneyland Drive
Jazz on over to the Jazz Kitchen, a savvy representation of New Orleans’ dual legacies—food and music—served up in a whimsical setting depicting the charm, ambience, and hospitality of historic and contemporary New Orleans.

JT Schmid’s Brewhouse & Eatery
Anaheim Garden Walk, 2610 E Katella Avenue
JT Schmid’s takes great pride in offering a delicious selection of handcrafted microbrews, steaks, pasta, pizza, and salads. They offer a California casual environment, but are committed to providing quality food and outstanding service that is world class.

McCormick & Schmick’s Grille
Anaheim Garden Walk, 321 W Katella Avenue
McCormick & Schmick’s Grille specializes in aged steaks, poultry, and seafood, offering dozens of rotating preparations daily for both lunch and dinner.

Mix Restaurant & Lounge
Hilton Anaheim, 777 Convention Way
Located in the Hilton Anaheim on Convention Way, the Mix Restaurant & Lounge serves a variety of imaginative dishes that tout organic and regional ingredients. For quick bites or a signature cocktail, head to the hip Mix Lounge.

Morton's The Steakhouse
1895 S Harbor Boulevard
A sophisticated steakhouse welcomes diners looking for a decadent evening meal. Specially priced bar bites are offered Monday through Friday during the Power Hour.

nFUSE Bar and Kitchen
Anaheim Marriott, 700 Convention Way
The nFuse Bar And Kitchen at the Anaheim Marriott serves California cuisine influenced by cultures around the globe. Head to the bar to enjoy an impressive selection of craft beer, 65+ varieties of whiskey, premier wines, and handcrafted cocktails.

Roy’s Restaurant
Anaheim Garden Walk, 321 W Katella Avenue
Roy’s Restaurant is one of the finest seafood restaurants in the area. The lounge offers two lovely Aloha Hours, one in the early evening and one after dinner. You will want to try the Hawaiian Martini and their famous Roasted Macadamia Nut Crusted Mahi Mahi.

Ruth’s Chris Steakhouse
2041 South Harbor Boulevard
Stop into the dinner-only restaurant for a signature sizzling steak served on a 500-degree plate with a selection of entrée accompaniments like lobster tail and shrimp. The steak dinner, done right, is paired with a world-class wine list. Visit during Sizzle, Swizzle, Swirl Happy Hour for $9 drink specials, full-sized appetizers like the spicy shrimp, and other delicious menu items.

Tony Roma’s Steak House Restaurant
1640 South Harbor Boulevard
Tony Roma’s is legendary for ribs. You can also enjoy steaks, the Kickin’ Shrimp, or Onion Loaf in the casual atmosphere. Enjoy the appetizer samplers and mini desserts.

The AAFS has selected the Hilton Anaheim as its host hotel during the 72nd Annual Scientific Meeting in Anaheim, CA. Located directly across from the Anaheim Convention Center, it is a short walk to attend meeting events. Enjoy your stay in a room designed with comfort and convenience in mind, providing a place to unwind or to catch up on work. Sleep soundly in the Hilton Serenity bed. Enjoy 32-inch flat panel HD TVs with HBO®, CNN®, and ESPN®. Work productively at the work desk featuring an ergonomic chair. Rejuvenate in the morning with the convenient coffee maker and complimentary coffee and tea. Additional amenities include five on-site dining venues, lounge, food court, on-site convenience store, fitness room, pool, and much, much more!

Early reservations are recommended to take advantage of the group-contracted rates. Please be sure to cancel your reservation if you are unable to attend or you cannot use the reservation. This will make the rooms available for other attendees and will help AAFS avoid the financial penalties associated with cancellations made after the room block closes.

Please have the following information handy when you go to make your reservations:

**Meeting Dates:** Monday, February 17, through Saturday, February 22, 2020

**Group Name:** AAFS Annual Meeting

**Group Code:** FOR

**Call-in #:** 877-776-4932

**Web-link:** [https://book.passkey.com/go/AAFS](https://book.passkey.com/go/AAFS)

**Room Rate:** $199

**Attend the Annual Business Meeting of Fellows and Members to Win a Complimentary Meeting Registration!**

The Annual Business Meeting of the Fellows and Members of the AAFS will be held Wednesday, February 19, 2020, at 4:15 p.m., at the Anaheim Convention Center in Anaheim, CA. It is essential that all Fellows and Members attend this very important meeting in order to reach a quorum for the voting process. Agenda items include the election of 2020-21 Officers, consideration of bylaw amendments, presentation of the Gradwohl Medallion, Distinguished Fellow, and Outstanding Early Career Achievement in Forensic Science Awards, and recognition of all Members being promoted to Fellow status. You also will be briefed on AAFS activities during the past year and plans for the future.

As an incentive to attend, all Fellows and Members present will automatically be entered in a drawing for a complimentary meeting registration to attend the 2021 AAFS Annual Scientific Meeting in Houston, TX.
CONTINUING EDUCATION

General Information

All meeting sessions are lectures with one or more speakers. Continuing professional education credits will be offered for physicians, dentists, and attorneys. Continuing education credit applications have been submitted for physicians, nurses, and dentists. Attorneys may request CLE credit; please see the “Legal” section on page 19.

To register for continuing education credit, please complete the appropriate section on the meeting Registration Form. An individual must be a registrant to obtain continuing education credit. Fees charged for continuing education credits are based on projected costs of providing the various types of continuing education credit. The AAFS has adopted a user-pay approach so that those individuals who benefit from the specific continuing education program are responsible for the costs incurred.

In order to be in compliance with accrediting organizations, introductions, breaks, and lunches have been deducted from the total hours. Please note that continuing education credit is not available for all sessions. All continuing education credit recipients will receive documentation regarding the number of continuing education hours awarded. Attendance reports are filed with the appropriate state or national agency, as required.

Learning Objectives of the AAFS Continuing Education Program

- Recognize the perspectives and roles of the various forensic science disciplines
- Assess current concepts and practices
- Discuss relevant forensic science issues related to science, evidence and the law
- Identify strategies for researching descriptive studies, technology and methods, diagnostics, interpretation and testimony
- Review administrative functions performed by forensic scientists

Faculty Disclosure Policy

As a sponsor of continuing education, the American Academy of Forensic Sciences must insure balance, independence, objectivity, and scientific rigor in all its educational activities. All faculty participating in a sponsoring activity are expected to disclose any significant financial interest or other relationship: (1) with the manufacturer(s) of any commercial product(s) and/or provider(s) of commercial services discussed in an educational presentation; and, (2) with any commercial supporters of the activity. (Significant financial interest or other relationship can include such things as grants or research support, employee, consultant, major stockholder, member of speaker's bureaus, etc.) AAFS has an established policy regarding conflicts of interest that includes decisions the Program Committee members may make in selecting content for the Annual Scientific Meeting Program. By serving on the committee, regardless of role, each member has agreed to comply with Section 1.4.7. of the AAFS Policy and Procedure Manual.

To serve on the 2019-20 Program Committees, it is required that AAFS staff members, program committee members, and reviewers complete a Conflict of Interest form before they are provided access to review submissions for the program. For continuing education accreditation purposes, the disclosed relationships are published below so that learners are aware of the nature of any relationships that may impact the selection of presentations for the program. If a committee member failed to provide complete disclosure of a relevant financial interest or relationship, the committee member or reviewer was not allowed to serve. The executed Faculty Conflict of Interest forms are on file in the AAFS Office.

American Board of Criminalists Approval

The American Academy of Forensic Sciences (AAFS) is approved by the American Board of Criminalistics (ABC) to offer continuing education points for approved workshops for criminalists and forensic scientists. The ABC maintains responsibility for the program, and credit may be awarded to ABC Fellows, Diplomates, and Affiliates.
CONTINUING EDUCATION

Overall Purpose and Objective Statements for Major Aspects of AAFS Programs

Workshops and Special Sessions
Purpose: To provide an opportunity for experts to present material and to lead discussion and practical exercises related to forensic science methods, procedures, diagnosis, investigation, professional relations and practices, communication, administration, and professional development.

Educational Objectives: Detailed individually in each workshop and special session announcement and description.

CE Credit: Varies from 1.5 credit hours to 16 credit hours.

Breakfast/Luncheon Seminars
Purpose: To provide an opportunity for presentation and discussion of relevant historical and current topics of forensic science interest related to specific case investigations, or general or specific investigative needs and procedures, methodologies, and testimony.

Educational Objectives: Detailed individually in each breakfast/luncheon seminar announcement and description.

CE Credit: Designated for a maximum of .75 credit hour for Breakfast Seminars and 1.0 credit hour for Luncheon Seminars.

Plenary Session
Purpose: To provide a multidisciplinary presentation and discussion of issues related to the forensic science profession.

Educational Objectives: Attendees will be able to: a) identify the challenges the forensic science profession has faced and will continue to face in terms of ensuring quality; b) identify ways to deal with the variances each challenge presents; and, c) identify the entities which have influence over setting the quality standards in the field of forensic science.

CE Credit: Designated for a maximum of 2.25 credit hours.

Oral and Poster Section Scientific Sessions
Purpose: To provide an opportunity for presentation and discussion of case reports, descriptive studies, review presentations, research, administrative issues, and investigative/diagnostic methods regarding topics and issues of importance to a primary discipline among the forensic sciences.

Educational Objectives: To meet the educational objectives stated by each presenter for his/her presentation.

CE Credit: Varies according to the individual’s session attendance. Designated for a maximum of 25.0 credit hours.

Last Word Society
Purpose: To provide a retrospective forensic analysis of historical events and to provide education about the history and evolution of forensic sciences as well as the modern methods and technologies used to re-examine past events of forensic science interest. Emphasis is placed on the evaluation of the original opinions and case outcome and on the development of newer hypotheses based on the re-analysis.

Educational Objectives: To meet the educational objectives stated by each presenter for his/her presentation.

CE Credit: Designated for a maximum of 2.0 credit hours.
CONTINUING EDUCATION

Guidelines For Claiming Credit

As the sponsor of Continuing Education Credit, the AAFS recognizes that the forensic science disciplines are inextricably linked and that interdisciplinary knowledge is critical to promote competence in forensic practice. As a result, the claiming of credit for various continuing education activities related to medicine, dentistry, law, and other forensic disciplines need not be limited to one's primary professional specialty. For example, a forensic pathologist from the Pathology/Biology Section may gain very useful and relevant information by attending a presentation in the Anthropology Section scientific session. It is appropriate to claim continuing medical education credit for that session. Many other examples exist where the claiming of continuing education credit is appropriate for attending sessions that cover material related to, but which lay outside of, one's primary professional area of expertise.

It is the conference attendee's responsibility to document which program sessions were attended and to determine those sessions for which continuing education credit may be claimed. The AAFS operates under the assumption that meeting attendees will, in general, be unlikely to attend sessions that will not be beneficial to their professional practice and that the claim for continuing education credit is justified if a session contains scientific or practice-related information that may bring new knowledge, may affirm current knowledge, or may provide information that could possibly modify one's professional practices.

Those who wish to receive continuing education credit must register and pay the Continuing Education Credit fee on the meeting Registration Form. CE Credit Request Forms will be available at the registration desk. The completed forms must be returned to AAFS by the designated deadline.

Joint Accreditation Statement

In support of improving patient care, this activity has been planned and implemented by the Postgraduate Institute for Medicine and the AAFS. Postgraduate Institute for Medicine in jointly accredited by the American Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Physician Continuing Medical Education Credit

The Postgraduate Institute for Medicine designates this live activity for a maximum of 49.75 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Dental Credit

This continuing education activity has been planned and implemented in accordance with the standards of the ADA Continuing Education Recognition Program (ADA CERP) through joint efforts between Postgraduate Institute for Medicine and the American Academy of Forensic Sciences.

Postgraduate Institute for Medicine is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of the credit hours by boards of dentistry. Postgraduate Institute for Medicine designates this activity for 49.75 continuing education credits. Concerns or complaints about a CE Provider may be directed to the provider or to ADA CERP at www.ada.org/cerp.

Legal Credit

Continuing legal education credit will be awarded on an hour-for-hour basis. Attorneys may file the AAFS-issued CLE certificate with their respective state bars. Please contact Continuing Education Coordinator Kimberly Wrasse, kwrasse@aafs.org, no later than the January 20, 2020, pre-registration deadline if your state bar will not allow you to self-report. AAFS will apply for accreditation/approval from your state in this circumstance.

Non Physician Credit

A general non physician certificate of attendance will be available.

General Credit

General continuing education credit is offered for those practicing the various forensic science disciplines not represented in the aforementioned list.
The American Academy of Forensic Sciences would like to thank the following supporters for their contributions to the 2020 AAFS 72nd Annual Scientific Meeting:

Ellis R. Kerley Forensic Sciences Foundation

Magnet Forensics

NMS Labs, Inc

Price-Hansen and Associates, LLC

The Center for Forensic Science Research & Education at the Fredric Rieders Family Foundation

Thomson Instrument Company

UTAK

Waters Corporation
CALENDAR OF EVENTS

Friday, February 14, 2020
8:00 a.m. - 5:00 p.m. American Board of Criminalistics (ABC) Quality Assurance Committee

Saturday, February 15, 2020
8:00 a.m. - 5:00 p.m. ABC Board of Directors
8:00 a.m. - 5:00 p.m. ABC Examination Committee
8:30 a.m. - 5:00 p.m. ASTM E30 Forensic Sciences
8:30 a.m. - 5:00 p.m. ASTM E30.90 and E30.12
1:00 p.m. - 5:00 p.m. Academy Standards Board (ASB) Board of Directors
3:30 p.m. - 5:30 p.m. American Board of Forensic Odontology (ABFO) Bitemark Workshop

Sunday, February 16, 2020
8:00 a.m. - 12:00 p.m. National Safety Council (NSC) Executive Board
8:00 a.m. - 1:00 p.m. ASB Board of Directors
8:00 a.m. - 5:00 p.m. Forensic Science Education Programs Accreditation Commission (FEPAC) Business Meeting
8:00 a.m. - 5:00 p.m. ABC Board of Directors
8:00 a.m. - 5:00 p.m. ABC Examination Committee
8:00 a.m. - 5:00 p.m. Forensic Specialties Accreditation Board (FSAB) Board of Directors
8:00 a.m. - 6:00 p.m. American Board of Forensic Odontology (ABFO) Dental Identification Workshop
8:30 a.m. - 5:00 p.m. ASTM E30 Forensic Sciences
1:00 p.m. - 5:00 p.m. AAFS REGISTRATION OPEN
1:00 p.m. - 5:00 p.m. NSC Alcohol, Drugs and Impairment Division (ADID)
1:00 p.m. - 6:00 p.m. AAFS Cyber Cafe
1:00 p.m. - 6:00 p.m. AAFS Speaker Ready Room

Monday, February 17, 2020
6:00 a.m. - 6:00 p.m. AAFS Speaker Ready Room

Books available for sale at the AAFS Sales Desk
10:00 a.m. - 10:50 a.m. YFSF 25th Anniversary Networking Reception (by Invitation Only)
10:00 a.m. - 12:00 p.m. Diversity Outreach Committee
12:00 p.m. - 2:00 p.m. AAFS 2019–20 Section Officers Luncheon and Meeting
12:00 p.m. - 2:00 p.m. 50th Annual Business Meeting and Luncheon of the ASFO
12:00 p.m. - 2:30 p.m. AAFS Long Term Planning Committee (LTPC)
1:00 p.m. - 5:00 p.m. Workshop #26: Overcoming Analytical Challenges Inherent in New Psychoactive Substances With Gas Chromatography Coupled With Vapor Phase Infrared Detection (GC-IRD) (Pre-Registration Required)
1:00 p.m. - 5:00 p.m. ABFT Board of Directors
1:00 p.m. - 5:00 p.m. NAME 2020 Interim Scientific Program
1:30 p.m. - 3:00 p.m. FEPAC Program Directors
3:30 p.m. - 5:00 p.m. Council of Forensic Science Educators (COFSE)
5:00 p.m. - 7:00 p.m. Anthropology Section Diversity Committee
6:00 p.m. - 8:00 p.m. AAFS Welcoming Reception
6:00 p.m. - 8:00 p.m. Employment Forum
6:00 p.m. - 8:00 p.m. Humanitarian and Human Rights Resource Center (HHRRC) Poster & Networking Session
8:00 p.m. - 10:00 p.m. Diversity and Inclusion in Forensic Sciences Reception
8:00 p.m. - 10:00 p.m. Evening Session: Dracula, Twilight, and Blood Cults: Why Is It That Vampires Never Die?
(Open to All Meeting Attendees)

Wednesday, February 19, 2020

6:00 a.m. - 6:00 p.m. AAFS Speaker Ready Room
6:45 a.m. - 5:00 p.m. AAFS REGISTRATION OPEN
7:00 a.m. - 8:30 a.m. Breakfast #3: The Science Behind Traffic Accident Reconstruction With Real-World Crashes
(Pre-Registration Required)
7:00 a.m. - 12:00 p.m. Society of Forensic Toxicologists (SOFT) Board of Directors Meeting
7:00 a.m. - 6:00 p.m. AAFS Cyber Cafe
7:00 a.m. - 6:00 p.m. Press Room
8:00 a.m. - 8:45 a.m. AAFS ACADEMY CUP (Open to All Meeting Attendees)
8:00 a.m. - 9:00 a.m. American Board of Forensic Anthropology (ABFA) “How To” Apply to Board Exam
8:00 a.m. - 5:00 p.m. ABC Certification Examination
8:30 a.m. - 11:30 a.m. American Dental Association (ADA) OSAC Forensic Odontology Taskforce
9:00 a.m. - 11:30 a.m. AAFS PLENARY SESSION (Open to All Meeting Attendees)
11:00 a.m. - 12:00 p.m. AAFS Membership Application “How To” Session
11:00 a.m. - 12:00 p.m. International Affairs Committee
11:00 a.m. - 12:00 p.m. Theoretical Forensic Sciences “Think Tank” Committee
CALENDAR OF EVENTS

11:30 a.m. - 1:00 p.m. Poster Sessions – Anthropology, Criminalistics, Digital & Multimedia Sciences, Engineering & Applied Sciences, General, Jurisprudence, Odontology, Pathology/Biology, Psychiatry & Behavioral Science, Questioned Documents, YFSF
Posters will be available for viewing from 10:00 a.m. – 1:00 p.m. Presenting authors will be available for discussion from 11:30 a.m. – 1:00 p.m.

11:30 a.m. - 4:00 p.m. EXHIBITS OPEN

12:00 p.m. - 1:00 p.m. Criminalistics Section Luncheon (Pre-Registration Required)
12:00 p.m. - 1:15 p.m. Pathology/Biology Section Luncheon (Pre-Registration Required)
12:00 p.m. - 1:30 p.m. General Section Luncheon (Pre-Registration Required)
12:00 p.m. - 1:45 p.m. Jurisprudence Section Luncheon (Pre-Registration Required)
12:00 p.m. - 1:45 p.m. Psychiatry & Behavioral Science Section Luncheon (Pre-Registration Required)
12:00 p.m. - 1:45 p.m. Toxicology Section Luncheon (Pre-Registration Required)
12:00 p.m. - 1:45 p.m. Odontology Section Executive Committee Luncheon

12:30 p.m. - 1:45 p.m. ABFA Diplomates
12:30 p.m. - 1:45 p.m. Digital & Multimedia Sciences Section Luncheon (Pre-Registration Required)

1:00 p.m. - 2:00 p.m. AAFS Abstract Submission “How To” Session
1:00 p.m. - 3:45 p.m. Criminalistics Section Business Meeting
1:30 p.m. - 3:45 p.m. Pathology/Biology Section Business Meeting
1:45 p.m. - 3:45 p.m. General Section Business Meeting
2:00 p.m. - 3:45 p.m. Anthropology Section Business Meeting
2:00 p.m. - 3:45 p.m. Engineering & Applied Sciences Section Business Meeting
2:00 p.m. - 3:45 p.m. Digital & Multimedia Sciences Section Business Meeting
2:00 p.m. - 3:45 p.m. Jurisprudence Section Business Meeting
2:00 p.m. - 3:45 p.m. Psychiatry & Behavioral Science Section Business Meeting
2:00 p.m. - 3:45 p.m. Toxicology Section Business Meeting

2:00 p.m. - 3:45 p.m. Odontology Section Business Meeting
2:00 p.m. - 3:45 p.m. Questioned Documents Section Business Meeting

4:15 p.m. - 5:30 p.m. AAFS ANNUAL BUSINESS MEETING & AWARDS CEREMONY
5:30 p.m. - 7:30 p.m. Society of Forensic Anthropologists (SOF) General Membership Meeting
6:30 p.m. - 8:00 p.m. Boston University School of Medicine Alumni and Student Reception
6:30 p.m. - 8:30 p.m. Center for Advanced Research in Forensic Science (CARFS) Poster Session & Reception
7:00 p.m. - 8:30 p.m. The George Washington University Forensic Sciences Alumni Reception
7:00 p.m. - 9:00 p.m. Marshall University Forensic Science Alumni Reception
7:00 p.m. - 10:00 p.m. John Jay on the Road: AAFS Alumni Reception
7:30 p.m. - 9:00 p.m. Toxicology Section Poster Session
8:00 p.m. - 10:00 p.m. Bring Your Own Slides (BYOS) (Open to All Meeting Attendees)
8:00 p.m. - 10:00 p.m. Sam Houston State University Alumni and Student Reception
8:00 p.m. - 10:00 p.m. University of New Haven Student and Alumni Reception

The purpose of the Student Academy of Forensic Sciences is to bring to the attention of local area high school and college students the vital importance of the application of scientific principles to the administration of justice. It acquaints the participants with the role of the forensic science disciplines in the legal system as well as the education and training required for the career in each discipline. All high school and college-age students are welcome to attend.

Learning Overview: Attendees will have an appreciation of the impact the 2009 Report by the NAS, *Strengthening Forensic Science in the United States: A Path Forward*, has had on several forensic disciplines.

Impact on the Forensic Science Community: Forensic sciences have been under the shadow of the NAS Report for the past ten years. This symposium will impact the forensic science community by providing an update on the state of many disciplines with respect to method reliability and testimonial boundaries, both of which were called into question by the NAS Report.

Program Description: The Interdisciplinary Symposium will bring together speakers from a wide range of disciplines who will discuss their responses to the recommendations listed in the 2009 NAS Report, *Strengthening Forensic Science in the United States: A Path Forward*. 

The NAS Report, *Strengthening Forensic Science in the United States: A Path Forward*, commonly referred to as the NAS Report by the forensic community, was released in February 2009 during the Annual Scientific Meeting in Denver, CO. This Report was unprecedented because it brought to light many issues that had been hampering the evolution of forensic science. It provided 13 comprehensive recommendations, starting with the establishment of a National Institute of Forensic Sciences (NIFS). This was described as an independent federal entity designated with the responsibility of supporting and overseeing forensic science across the country. The authors advocated that law enforcement agencies should no longer be the primary administrators of their crime laboratories and that medical examiner systems should replace coroner’s offices. Laboratory accreditation, individual examiner certification, and standardization of procedures were additional recommendations proposed in the NAS Report. Two significant recommendations to the forensic sciences, more specifically to the pattern-based evidence disciplines, revolved around: (1) improving their scientific foundations and reliability through research and validation, and (2) ensuring the accuracy of testimony offered by experts in court. Many of the NAS recommendations have not come to fruition, including the creation of NIFS. However, changes have occurred in response to some of the recommendations. Various questions can be posed to assess the impact of those changes. Has the community devoted time and resources to validating current techniques and methods? Are new disciplines embracing the scientific method? What does a “match” or an “identification” mean today? How conclusively are examiners allowed to state their results? What does the future hold for forensic expert testimony? Have court systems outside of the United States taken any notice of the changes occurring here?

This year’s symposium will feature 13 speakers across both scientific and national borders who will provide their perspectives on how the NAS Report has changed (or not) their business practices over the past decade. Many of the forensic disciplines discussed in the report will be addressed, including DNA, friction ridge, firearms, documents, odontology, and digital/multimedia evidence examination. Responses in crime scene analysis and medicolegal investigations will be presented as well. Members of the legal community will also share their thoughts on how they interpret the conclusions made by forensic experts in written reports and in trial. In addition, the efforts of the National Institute of Justice (NIJ) to fund research in these areas will be discussed. This symposium intends be a valuable session to forensic science practitioners, managers, and legal representatives.

Program Co-Chair:
Hannah N. Simmons, BS  
Raleigh, NC

Learning Overview: After attending this presentation, attendees will better understand forensic science and how everyone’s work can impact and enhance other scientists, and vice versa, regardless of the discipline. In addition, attendees will learn about the advantages and importance of proper resume writing and interviewing skills.

Impact on the Forensic Science Community: The Young Forensic Scientists Forum (YFSF) has historically provided a venue for those forensic scientists with less than five years of professional experience to interact with, and further integrate into, their prospective fields as well as to learn about all the other disciplines. The YFSF should provide the space and opportunity for attendees/speakers to grow, develop, network, and learn from one another. This will allow young scientists the confidence to progress in their fields and one day hopefully provide the same opportunity to another young scientist.

Program Description: This special session provides necessary information to young forensic scientists regarding the various disciplines within the AAFS and will serve as a forum to exchange, discuss, and cultivate new ideas. This full-day program has been put together to cover a wide range of topics and inform attendees as to how these topics relate to other, sometimes unrelated, disciplines, techniques, and individuals. The YFSF aims to show all young forensic scientists that what makes us special isn’t just who we are alone, but also who we are together.

Every year the American Academy of Forensic Sciences draws in thousands of globally recognized experts and professionals to present research, hold workshops, and showcase the various disciplines represented within the Academy. Further, the YFSF offers two opportunities for young forensic scientists to present their own work or research: the Bring Your Own Posters (BYOP) Session and the Bring Your Own Slides (BYOS) Session.

The session will feature speakers from many of the AAFS sections who will discuss their work and how they crossed borders, figuratively and literally, to collaborate with other disciplines. Through these presentations, attendees will learn how experienced practitioners and professionals have contributed to forensic science as a whole and how their work has benefitted from and was helped by interdisciplinary combining of knowledge bases. With a rapid push for specialization within a given discipline, it has remained vital for leaders in forensic science to remember the importance of cross-discipline collaboration and partnership. Through this Special Session, forensic experts will provide mentorship to young forensic scientists by inspiring interdisciplinary cooperation in casework, research, and community engagement.
Finally, in the spirit of interdisciplinary collaboration and to honor our commitment to improving and advancing communication, for the first time the YFSF is seeking to provide the opportunity to attendees to network with AAFS members and many others to encourage the sharing of information and experiences. This year’s Special Session has been re-designed to incorporate a networking morning coffee break where all YFSF attendees and distinguished members from the AAFS sections can meet, mingle, and have discussions. Further, the discussion and resume review panel has been lengthened and will be enhanced by the addition of a speaker specifically addressing resumes and interview preparation, so don’t forget to update and bring several copies of your resume with you!

Speakers:

**Steven C. Batterman, PhD**  
Cherry Hill, NJ

**Brittany N. Beyer, MS**  
Houston Forensic Science Center  
Houston, TX

**Patrick Buzzini, PhD**  
Sam Houston State University  
Huntsville, TX

**Melissa A. Connor, PhD**  
Colorado Mesa University  
Grand Junction, CO

**Christian Crowder, PhD**  
Southwestern Institute of Forensic Sciences

FORENSIC SCIENCE EDUCATION PROGRAMS
ACCREDITATION COMMISSION (FEPAC)

Pre-Registration Not Required — Open to All Meeting Attendees

Accreditation of Forensic Science Academic Programs Through the FEPAC

Tuesday

February 18, 2020 8:30 a.m. – 12:45 p.m.

Chair:
Dwight E. Adams, PhD
University of Central Oklahoma
Forensic Science Institute
Edmond, OK

Commissioner:
Sarah J. Seashols Williams, PhD
Virginia Commonwealth University
Richmond, VA

Commissioner:
Jason L. Schroeder, MS
Harris County Institute of Forensic Science
Houston, TX

Commissioner:
Patrick A. Eller, MS
Metadata Forensics LLC
Richmond, VA

Accreditation & Outreach Coordinator:
Nancy J. Jackson
American Academy of Forensic Sciences
Colorado Springs, CO

Learning Overview: Upon completion of this session, the participant should be able to understand the process of accreditation through the AAFS FEPAC mechanism and be able to participate in the process as a reviewer of academic programs. Attendees from academic programs will also learn about the process of accreditation from different perspectives.

Program Description: This session has been developed to assist academic institutions offering undergraduate and graduate degree programs in forensic science and forensic digital evidence to prepare for the accreditation process through the FEPAC. This session will also assist future on-site evaluators (academic and practitioners) to prepare for on-site evaluations of academic programs. Successful completion of this one-day session will qualify participants for consideration to serve as on-site evaluators for FEPAC in the future (please note that participants must still meet other FEPAC requirements, such as membership in the AAFS and designation as either a practitioner or academician).

This training session will highlight updates to the FEPAC Standards for Accreditation and provide valuable information for both program directors and on-site evaluators.

The FEPAC is a standing committee of the AAFS with a membership that includes five educators, five forensic science practitioners, and a public member as voting members. The mission of the FEPAC is to maintain and enhance the quality of forensic science education through a formal evaluation and recognition of college-level academic programs. The primary function of the committee is to develop and maintain standards and to administer an accreditation program that recognizes and distinguishes high-quality undergraduate and graduate forensic science programs. Forty academic programs have successfully completed the accreditation process since 2003. Additional information on FEPAC can be found on the FEPAC website: http://fepac-edu.org.

ES1 Dracula, Twilight, and Blood Cults: Why Is It That Vampires Never Die?

Tuesday

February 18, 2020  8:00 p.m. – 10:00 p.m.

Corina Freitas, MD*  George D. Annas, MD*  Jarrod A. Marks, MD*
Syracuse, NY  State University of New York  Tufts Medical Center
Upstate Medical University  Syracuse, NY  Boston, MA

Learning Overview: After attending this presentations, attendees will: (1) gain knowledge in the historical, medical, and psychoanalytic theories behind vampire beliefs; (2) advance skills regarding the manner in which “vampirism,” “vampire cults,” and “vampire communities” may present clinically and forensically; and (3) improve knowledge in historical reports of sadistic mass murder that may have contributed to vampire lore.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by increasing the existing knowledge of the fundamentals of the current field and thus improve forensic competence and performance.

From the ancient world to the present, vampires have held a tight grip on our fascination and fear and this has yet to be released. Traces of the legend are found in some of the oldest surviving mythologies and have spilled over into history and lore. Such mythology associated vampires with female figures representing potential destruction and with children in a state of dependency and helplessness. Similar beliefs are traced to ancient cultures across the globe, often depicting demonic female figures who fused relationships between the living and the dead, expressed through blood rituals as well as sexualized and aggressive exchanges.1

However, it was Bram Stoker who introduced us to the great Dracula in the late 19th century, and it was this quintessential Byronic hero who fathered countless other characters. From the monstrous presentations of Nosferatu, and Underworld’s Markus, to the charming Lestat and adorable sparkly Edward, and everything in between, our fascination with Dracula and his ever-evolving progeny shows no signs of decay.

In the modern era, some vampires have been transformed from evil beasts to misunderstood, and ostracized, supernatural heroes.2 With this change, some of their ideologies went from that of those cursed with turmoiled “un-deadness” to those having (and sometimes offering) immortality; from forced isolation to offering a new community; from subhuman viciousness to displaying animal traits that convey energy and natural instincts. Flauting the appeal of the aristocrat or outlaw, and inciting adventure at once terrifying and safe, the vampires in these stories have “evolved” into uncannily irresistible figures.3 What is it that so intrigues us about them? Our speakers will lead us on a journey where we can explore this fascination via culture and psychoanalytic theory, as well as historical figures purported to have inspired the legend—tales of which include sadism and mass murder eclipsing any terror found in fiction.

Also discussed will be cases from the early 1800s where misperception of infectious illness caused mass hysteria, leading to the belief that the dead were rising from their graves and literally sucking vitality out of the living. This hysteria ultimately culminated in the cannibalistic rituals of the recently deceased to stop the dead from harming the living. However, such a ritual has been documented as recently as 2003, proving that these seemingly old beliefs from a forgotten time of darkness and irrational superstition for some reason draw appeal to this day.

Indeed, we are far from immune to such seeming madness. Modern vampire “cults” tragically show us how an obsession with these creatures can go too far. What drives such people into these alternate realities? Mental Illness? Sadism? Or is there more complexity to these stories? Perhaps we will never know, but one thing is certain: while legends postulate many ways that vampires may be killed, time has proven that they will, indeed, live forever.

ACADEMY CUP

Pre-Registration Not Required — Open to All Meeting Attendees

Wednesday

February 19, 2020 8:00 a.m. – 8:45 a.m.

The AAFS 2020 Academy Cup will take place on Wednesday, February 19, 2020, before the Plenary Session. Section teams meet at 8:00 a.m., an hour before the Plenary Session, for instruction and team strategy. The game will start at 8:10 a.m. and consist of multiple-choice and true-or-false questions projected onto a screen to test each section's knowledge.

Each section's team is comprised of members, Past President(s), Past Vice President(s), Board Member(s) and/or Section Officer(s), Chair, Secretary, Young Forensic Scientist Forum (YFSF) volunteers, and anyone who wants to play. The YFSF volunteers will be assigned to sections on Tuesday at the YFSF Special Session. The game will be 30 minutes long, then all answer sheets need to be turned in.

The winning team will be announced and the Academy Cup trophy presented at the AAFS Annual Business Meeting (ABM) at 4:15 p.m. that same day. Teams should be present at the ABM to find out who won, and the winning team should be available at the conclusion of the ABM to have a group photo taken.

Academy Cup Committee:

Chair: Laura L. Liptai, PhD, Engineering & Applied Sciences
      (liptai@biomedicalforensics.com)
Co-Chair: Carla Miller Noziglia, MS, Criminalistics
Co-Chair: Matthew R. Wood, PhD, Criminalistics

Academy Cup Team Leaders:

Anthropology: Paul D. Emanovsky, PhD; Kristen Hartnett-McCann, PhD
Criminalistics: Patrick Buzzini, PhD; Noelle J. Umback, JD
Digital & Multimedia Sciences: Marla E. Carroll, BS; Jason M. Paroff, JD
Engineering & Applied Sciences: Darren Franck, MSME; David Pienkowski, PhD
General: Steven C. Clark, PhD; Melissa A. Connor, PhD
Jurisprudence: Pamela A.W. King, JD; Robert M. Sanger, JD
Odontology: Adam J. Freeman, DDS; Roger D. Metcalf, DDS, JD
Pathology/Biology: Chris Milroy, MD, LLB; Carl J. Schmidt, MD
Psychiatry & Behavioral Science: Dean DeCrisce, MD; Eleanor B. Vo, MD
Questioned Documents: Jan Seaman Kelly, BA; Karen J. Nobles, MFS
Toxicology: William R. Johnson, BA; Sherri L. Kacinko, PhD

Program:

8:00 a.m. - 8:10 a.m. Instructions and Introductions of Team Leaders
8:10 a.m. - 8:40 a.m. PowerPoint* Questions and Answers
8:40 a.m. - 8:45 a.m. Team Answer Sheet Turned in by YFSF Representative for Each Team
PLenary Session

American Academy of Forensic Sciences
Den Haag, Netherlands

Plenary Session Chair:
C. Ken Williams, MS, JD
New Jersey State Police Office of Forensic Sciences
Central Regional Laboratory
Hamilton, NJ

Plenary Session Co-Chair:
Julie A. Howe, MBA
Saint Louis University
Doisy College of Health Sciences
St. Louis, MO

Speakers

Thomas F. Callaghan, PhD
Federal Bureau of Investigations
Quantico, VA

John Fudenberg, MBA
Office of the Coroner/Medical Examiner
Las Vegas, NV

David Reichert
Gordon Thomas Honeywell
Auburn, WA

Overview: Advances in technology have played a tremendous role in making many daily routines and extraordinary tasks seem ordinary. Individuals may live in one area but work in a different city, state, or even country. While crossing borders, individuals may use personal electronic devices to listen to a book, catch up on the latest news, or participate in conference calls. If using mass transit to make the commute, individuals may even prepare lectures, write publications, or simply crush candy to pass the time. Travel innovations have also made it considerably easier for individuals to attend meetings within their respective countries or at the international level.

Technological advances can be worthwhile. However, the innovations are often used for nefarious acts as well. Individuals share information across borders to support criminal enterprises; drugs are grown or manufactured in one country and transported to another; firearms purchased in one jurisdiction may be used to commit crimes in another; individuals, often exploited through the hope of a better life across international borders, lose their independence as they become victims of human trafficking; putative suspects may use available technological advances to avoid apprehension; and these are but a few of the many ways in which integrity is compromised for personal benefit or gain.

The American Academy of Forensic Sciences is a multidisciplinary organization, representing 11 sections across the forensic sciences with both American and International members. The Annual Scientific Meeting of the AAFS fosters inclusiveness across all sections, disciplines, and nationalities through collaboration, networking, and the cross-pollination of knowledge across the forensic community. It is beneficial for members of the community to convene to share in successes, to learn from failures, and to acknowledge advances in the field.
Overview cont.:

This program is designed to allow members of the forensic community to share in the knowledge gained through experience and to learn of advances on the horizon. John Fudenburg will discuss the strengths and weaknesses of the Clark County Coroner/Medical Examiner’s Office during the handling of the worst mass shooting in modern United States history. An emphasis will be placed on the interdisciplinary efforts of the different agencies involved and the various deployment areas necessary during a mass fatality incident. Specific attention will be given to the Family Assistance Center and the on-going mental health/wellness of responders.

Thomas Callaghan will provide an overview of the Federal Bureau of Investigation’s (FBI’s) Next Generation Identification and Facial Recognition Programs, along with the FBI’s Rapid DNA expansion of the Combined DNA Index System (CODIS) into the booking station. Similarities, differences, and privacy concerns with finger, face, and DNA biometric modalities will be discussed. This presentation will also reveal how DNA databases, like CODIS and Facial Recognition queries of government datasets and online photo galleries, use the Automated Fingerprint Identification System (AFIS) model daily to identify potential perpetrators.

Dave Reichert will share his observations on human trafficking from the perspective of a 34-year career officer who gathered intelligence as the lead investigator in the Green River Serial Killer case, ultimately bringing justice to the families of the 49 confirmed victims. This presentation will also detail the journey of an investigator to his 14 years as a United States Congressman and, finally, to his present role as an advocate for impactful global forensic policy.

The program will conclude with a shared learning opportunity for the attendees and speakers.

BS1 Ethno-Cultural and Religious Considerations in the Management of the Dead

Monday, February 17, 2020    7:00 a.m. – 8:30 a.m.                      .75 CE Hour

Amber D. Riley, MS*  
Deco Education & Consulting  
San Diego, CA

Sakher J. AlQahtani, PhD*  
King Saud University, College of Dentistry  
Riyadh, SAUDI ARABIA

James F. Goodrich, FFOMP*  
Cambridge, Waikato, NEW ZEALAND

Learning Overview: After attending this presentation, attendees will have a greater knowledge of the ethics, customs, norms, and taboos surrounding death and the dead for many minority cultures and religions within their professional and personal communities. This presentation will describe several cultures and religions that forensic professionals may encounter in their jurisdictions, both in the United States and worldwide, along with each respective approach to the management of their dead, based upon this better understanding.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by serving to assist the forensic professional in overcoming some of the obstacles that are present when identifying, investigating, and examining a decedent that is a member of these ethno-cultural communities.

Culture and religion profoundly influence many aspects of modern life. These factors also carry forward after death and may affect our management of the deceased. We recognize that increasing human migration across global geographical borders results in decedents sometimes being managed within a culture and community that is foreign to them. Loved ones, family, and members of the integrated community of the deceased also bring expectations, norms, and taboos to a forensic setting, and these influences may at times increase the complexity of and even hinder the process of examination, identification, and release of the dead. Although it is impossible to be intimately familiar with all religions and cultures, we as forensic professionals should be educated and sensitive to the roles each may play in our respective areas of expertise while avoiding the risk of stereotyping the deceased.

It is important to the process and to the outcome that the forensic professional understands not only the ethno-cultural and religious considerations associated with the deceased and other members of the affected community, but also their own and how these may relate to the context and perhaps to any biases that may be subsequently introduced. So, the complexity of the juxtaposition of different cultures and expectations may be multiplied in a situation where the forensic practitioner is anything other than the ideal of absolute neutrality.

The interplay of the deceased’s culture and the forensic professional’s legal and ethical responsibilities can pose significant challenges when experienced against a backdrop of factors, including gender and acculturation, notably in cases in which there are multiple and/or commingled fatalities being examined at one time in one spatial setting. Varied cultural and religious mores for managing the dead also dictate appropriate disclosures, privacy, and communication with the relatives of the deceased. Some difficulties can at least be partially overcome with an understanding of these sensitivities.

This presentation hopes to highlight many of the unique aspects of the belief systems and social constructs that may be encountered during the career of a forensic professional in the context of the management of the dead, and to provide tools and a framework for increased sensitivity and understanding. This, in turn, will provide an opportunity to allow the dignity and basic human rights of the deceased to perhaps be respected more fully.

Examples will be drawn from many cultural and religious backgrounds, including Islam, Judaism, Christianity, Hinduism, Buddhism, Native American, Maori, and Pasifika peoples.

bs2 the working stiffs: writing and publishing the experiences of a forensic pathologist in both fiction and non-fiction

Tuesday, February 18, 2020    7:00 a.m. – 8:30 a.m.         .75 CE Hour

Judy Melinek, MD*  
PathologyExpert, Inc  
San Francisco, CA

T.J. Mitchell, BA*  
PathologyExpert, Inc  
San Francisco, CA

Learning Overview: The goal of this presentation is to demonstrate how a collaboration between a scientist and a writer can effectuate the communication of complex forensic concepts to a lay audience.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by helping attendees be able to communicate scientific concepts to a lay audience, in writing and in testimony, and by navigating issues pertaining to confidentiality of medical information.

This presentation takes as its thesis the importance of reflecting scientific rigor in writing both non-fiction and fiction for a lay audience. The challenges of writing while continuing to testify as an expert witness in real-life criminal and civil court cases will be explored. In addition, the perpetual tension between fiction and science—maintaining a balance between narrative demands and medical verisimilitude—will be discussed.

Journal writing can be an effective way of documenting what a scientist encounters in clinical detail. Other ways of tracking forensic cases include spreadsheets and medical databases. In some offices, it is not uncommon to collect newspaper clippings of the deaths that are investigated and picked up by the media and place them in the case file. However, newspaper accounts may not be accurate; this presentation will provide examples of how eyewitness statements and assumptions made by the police or death investigators can be found to be in error when the body is taken to autopsy. Writing and documenting what a pathologist sees at the time of autopsy is crucial for clinical decision making and peer review, including review by outside experts. Furthermore, taking written notes about one’s daily experiences and what one learns through those experiences can also become a psychological outlet: a way to “decompress” after a long day of working in extreme conditions, or a way to deal with the grief and anger of family members.1,2 Writing can be a therapeutic exercise that supplements formal training in forensic pathology and should be encouraged in forensic fellowship training.3

Working in an understaffed and underfunded environment can also put stress on the forensic team and may incubate intramural tension. Mass fatality response, along with a backlog of routine cases delayed by ancillary lab studies, can add to the pressures pathologists experience. Journaling can help forensic professionals deal with the stresses of the job, but non-disclosure agreements and privacy policies may restrict professional communication and publication in a public forum. In academic writing, de-identification is used when sharing case reports, and this method can be used in writing non-fiction for public consumption. Fictionalizing actual forensic cases can allow scientists a way to explore the work that they do and share their experiences, both with other professionals and with the lay public.

A case report will be presented of a petty thief who stole a laptop and was chased down and shot dead in public by the laptop's owner. This case involved a complex gunshot wound trajectory analysis and the collection of property as evidence. Forensic-noir mystery writers such as Kathy Reichs, Patricia Cornwell, Jon Jefferson, and William Bass, all of whom worked in various capacities in the forensic sciences professional discipline, provided the inspiration to explore ways to educate the public about real-world forensic science through the use of a fictional narrative voice.

BS3 The Science Behind Traffic Accident Reconstruction With Real-World Crashes

Wednesday, February 19, 2020 7:00 a.m. – 8:30 a.m. .75 CE Hour

Kurt D. Weiss, MS*
Case Study Collision Science, LLC
Santa Barbara, CA

Darren Franck, MSME
Advanced Engineering Associates, Inc
Charleston, WV

Learning Overview: The goal of this presentation is to share with the forensic science community the data sources and detailed methodology used in traffic collision reconstruction.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by demonstrating through real-world case studies the data used and methodologies applied to the reconstruction of traffic collisions.

An analysis of four real-world crashes will demonstrate the science behind traffic accident reconstruction. Reconstructing a crash is a multidisciplinary process. The reconstructionist gathers objective and subjective information, performs case-specific research, then applies the fundamental principles of physics to determine, for example, impact classifications, vehicle heading, impact configuration, impact (closing) speed, velocity change or Delta-V (DV), rollover distance, roll count, and roll rate. The reconstruction results are important input to the injury analysis and the assessment of injury patterns, risk, and prevention.

The primary information source is the Traffic Collision Report, which may provide: (1) objective party information (e.g., occupant and vehicle year, make, model, Vehicle Identification Number (VIN)); (2) objective site information (location and roadway, intersection, and Global Positioning System (GPS) details), scene diagrams with measurements of physical evidence (tire friction marks, fractured glass, roadway scrapes and gouges, scarred tree bark, fractured signs or light posts, disturbed dirt and/or vegetation), point of impact, and vehicle rest locations; (3) at-scene police photographs of site evidence and vehicle damage; and (4) subjective information (e.g., party statements, vehicle code violations, police collision summary and primary collision factor identifying party and cause).

Case-specific research may include: (1) at-scene witness photographs, which are often taken with cell phone cameras; these photographs are crucial absent police photographic documentation of site and vehicle evidence; (2) security videos that can help refine the analysis by providing objective evidence of vehicle movements prior to and after the crash; (3) aerial photography from online image archives that orient and supplement scene diagrams; (4) drive-through videos that provide a street view of the roadway and/or intersection; (5) site inspections that clarify roadways, controls, and obstacles; (6) subject vehicle inspections with crush profile measurements document property damage and reveal relative impact alignment or vehicle movement; (7) Airbag Control Module (ACM) data that quantifies pre-crash vehicle speeds and accelerations and driver actions (e.g., swerving, braking); (8) subjective information (e.g., witness statements and deposition testimony) that helps qualify collision events and estimates of vehicle speeds, distances, and movements. These sources may also provide prior useful site, vehicle, or occupant history; and (9) exemplar vehicle inspections, scaled vehicle drawings, specifications, and crash test data that may be used to determine the collision severity.

An analysis of four real-world crashes demonstrate the science behind traffic accident reconstruction. Case 1 involved a fatal collision; vehicle crush measurements quantified collision severity. Case 2 was a vehicle-motorcycle crash; a download of ACM yielded pre-crash data. Case 3 describes a wrong-way, intoxicated driver in a high-speed crash; the patrol car’s on-board video quantified vehicle impact speeds. Case 4 was a vehicle-motorcycle crash; stationary security videos quantified vehicle impact speeds.

BS4 A Tour of a Cannabis Extract Manufacturing Facility in Maine

Thursday, February 20, 2020  7:00 a.m. – 8:30 a.m.  .75 CE Hour

Jennifer A. Paris, BS*
New Hampshire State Police Forensic Laboratory
Concord, NH

Anna K. Weaver, BS
New Hampshire Department of Safety
Concord, NH

Learning Overview: After attending this presentation, attendees will have a better understanding of the operation of a small state-licensed and inspected cannabis extract manufacturing facility.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by promoting an understanding of the processes used to concentrate cannabinoids, how products are diluted, prepared, and packaged in order to comply with the relevant laws and regulations, and may be helpful for attendees who are assisting in building a local or state jurisdiction's medical or recreational marijuana program.

The state of Maine enacted a medical marijuana law after a citizen-led ballot initiative passed in November 1999. Since that point in time, multiple amendments have been made to the statute following feedback from patients, caregivers, medical providers, and a specially developed task force. Although a 2016 law was passed to allow for the recreational use of marijuana, and a 2017 law was passed concerning taxation and other regulations surrounding recreational marijuana, the commercial sale of the plant and products made from it have not yet begun.

Today, Maine permits both growing and processing of marijuana by individuals holding a medical card (i.e., “patients”). In addition, patients and caregivers are allowed to use a third-party manufacturing facility to convert their harvested marijuana or hemp into concentrated forms. These facilities are registered, inspected, and licensed by the state of Maine. They are expected to adhere to strict procedures regarding site safety and security, the quantity and type of plants on site, the quantity of harvested product on site, the use of “inherently hazardous substances,” and the disposal of waste materials, among other standards.

This presentation will briefly cover the regulations in place for Maine's program, then focus on the specifics with respect to a small, registered manufacturing facility. Chemists from the New Hampshire State Police Forensic Laboratory were given the opportunity to tour one such facility in the summer of 2019 while extractions were in progress. This cannabis extract manufacturing facility employs supercritical carbon dioxide processing of harvested marijuana and/or flowering hemp grown by patients or their caregivers to produce highly purified concentrates devoid of terpenes. In addition, the facility was equipped with a closed-loop extraction system to produce butane honey oil, shatter, and “diamonds.” Discussions regarding purity, concentration, cannabinoid profiles, and all aspects of the operation, including the evolution of the facility's practices over time, took place with the owner/operator of the facility. Attendees will be informed regarding the outdoor grow area, extraction and purification processes, preparation of food products, and product packaging materials at the visited facility.

Given the increased number of states where cannabis products are legal for medical or recreational use, it is important for those involved in the analysis of seized drugs to have an understanding of the processes used to concentrate cannabinoids from harvested marijuana and flowering hemp.

BS5 Practical Aspects of Developing and Incorporating a Postmortem Computed Tomography (PMCT) Service Into a Medical Examiner’s Office

**Lauren Edelman, MD***  
Travis County Medical Examiner  
Austin, TX

**Keith Pinckard, MD, PhD**  
Travis County Medical Examiner  
Austin, TX

**Learning Overview:** After attending this presentation, attendees will understand the concepts and considerations involved in incorporating PMCT into the practice of a medium-sized, regional medical examiner's office, including staffing, scanning protocols, triage of cases, study interpretation, and novel and alternative data storage solutions. Developing and incorporating a PMCT service is a complex project, with broad implications for many aspects of an individual office.

**Impact on the Forensic Science Community:** This presentation will impact the forensic science community by providing a framework and blueprint that can be used to incorporate and implement this burgeoning technology within the scope of death investigation for medical examiner's and coroner's offices.

The services of a consultant were engaged as part of the budget request associated with purchasing the Computed Tomography (CT) scanner. The consultant provided guidance for technical and structural considerations critical for drafting the purchasing bid documents and review of the bids for the purchase of the CT scanner and associated equipment. After installation by the vendor, the consultant also provided the basic scanning protocols that are programmed into the scanner for ease of use and include protocols for standard adult, bariatric, pediatric, charred remains, skeletal remains, and decomposed remains. This is a key component, since standard protocols that are provided by CT scanner vendors are designed for clinically based studies on living patients.

As part of the purchasing contract, the forensic autopsy technicians, none of whom have formal radiology technology training, received in-person instruction in the practical aspects of operating the equipment. Performing the scans with the appropriate protocols requires minimal direct management by the forensic autopsy technicians. Once the protocols are in place and validated, scanning proved to be relatively simple and straightforward. Scanning is performed during routine working hours on a rolling basis as decedents are brought into the office; scans are completed prior to the processing and external examination of the body. All decedents that are physically capable of fitting into the CT scanner are imaged. The rationale for this is two-fold. First, scanning every decedent as a matter of routine may guide how the pathologist approaches the case. Second, scanning creates a permanent 3D radiographic record of the body that can be reviewed long after the body has been permanently altered by autopsy.

The scans are reviewed and interpreted by the forensic pathologists as a group during a morning conference prior to performing examinations and again individually when medical examiner reports are written. The medical examiners in the office received training in CT interpretation by two physicians with prior PMCT experience who were already on staff. The learning curve of CT interpretation is very steep; familiarity with visualizing cross-sectional anatomy in three dimensions simultaneously comes surprisingly quickly. Furthermore, because all decedents are scanned, each pathologist gets immediate feedback by comparing autopsy findings to what was observed on the scans—a practice that builds interpretive skills and confidence rapidly. Once the medical examiner staff is comfortable with reading CT scans, decisions can be made regarding which types of cases might be able to be supplanted by PMCT.

A novel cloud-based storage and image-viewing software solution was purchased rather than a traditional Picture Archiving and Communication System (PACS). It has virtually identical capabilities, including permanent long-term storage with system redundancy, at a fraction of the cost of a standard PACS solution. In the opinion of the regional medical examiner's office, PACS is a vastly more sophisticated and ultimately far more expensive solution than what is actually required for death investigation purposes. For offices affiliated with medical centers, it may be possible and cost-effective to “partner” and obtain a node on a hospital’s PACS. However, offices without this benefit have struggled to devise a system tailored to the unique needs of death investigation without the associated burdensome cost of a PACS—a cost factor that may deter an office from obtaining PMCT capability altogether. It is thought that this regional medical examiner's office is the first office to pilot and utilize this type of storage and viewing solution.

As more death investigation offices around the country begin to integrate CT imaging as part of the physician's toolkit, it is critical to share operating procedures and innovative solutions to common problems to assist others in participating in this exciting advancement in the field of forensic pathology.
BS6 Is a Soldier’s Combat Stress a Reason to Commit Five Murders?

Friday, February 21, 2020  7:00 a.m. – 8:30 a.m.  .75 CE Hour

T.L. Williams, MFS*  
Fredericksburg, VA

Phillip M. Curran, MFS*  
United States Army Criminal Investigation Command  
Quantico, VA

Celia M. Gallo, MFS*  
United States Army Criminal Investigation Command  
Quantico, VA

Rick Malone, MD*  
N5 Forensic Behavioral Science, LLC  
Woodbridge, VA

Angel L. Miles, MA*  
United States Army Criminal Investigation Command  
Fayetteville, NC

Learning Overview: After attending this presentation, attendees will have a better understanding of locating, identifying, and collecting evidence and the documentation of the crime scene associated with a mass casualty investigation. Attendees will also be aware of the policies and procedures for conducting a crime scene investigation (timeliness, thoroughness, and timely reporting) and casualty liaison briefings provided to the primary and secondary next-of-kin. This presentation will also enable attendees to understand how the psychological evaluation of the subject may or may not have affected the outcome of the trial by court-martial and the results of the court-martial.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by demonstrating that a mass casualty investigation must be conducted in a timely and thorough manner in order to provide the court with the best evidence for conviction. The psychological evaluation will assist in determining if the subject was mentally responsible, and, if so, whether he should receive life with or without parole or the death penalty.

SGT John M. Russell had been seen at the Combat Stress Center (CSC), Camp Liberty, Iraq, on three separate occasions and had a noon appointment on May 11, 2009. At approximately 1:41 p.m. on May 11, 2009, the United States Army Criminal Investigation Command (known as CID) was notified of the shooting of several personnel inside the CSC. The investigation revealed that at approximately 12:30 p.m. on May 11, 2009, SGT Russell entered the CSC and methodically shot and killed five United States service members (a Navy Commander and an Army Major, a Sergeant, and two Private First Classes). SGT Russell was also listed for the offense of attempted murder and aggravated assault when he fired at two soldiers and missed. The Navy Commander was the only victim known to SGT Russell. SGT Russell, who did not have a weapon, gained possession of his escort’s weapon (an M16 rifle), ordered his escort from the vehicle, then drove back to the CSC where he opened fire on unarmed personnel. Due to the regulatory requirements, all soldiers were required to carry their assigned weapons at all times in the combat environment on most camps; the only exception was a medical facility. Soldiers entering the CSC were required to place their weapons in an arms room while being treated; therefore, all soldiers in the CSC were unarmed and vulnerable. SGT Russell was subsequently disarmed and placed under apprehension.

More than 28 CID special agents in Iraq were involved in processing the crime scene and interviews of the victims, witnesses, and subject. More CID special agents around the world were involved in the autopsies, background investigation of the subject, and developing information for the court-martial. The preliminary crime scene reconstruction took approximately one week (the crime scene was maintained for many years, until it had to be bulldozed). The special agents conducted bloodstain spatter analysis, ballistic reconstruction, and a plethora of other forensic analyses of the five separate areas where the victims were murdered.

SGT Russell was evaluated and it was determined he was not mentally competent to stand trial; SGT Russell was placed in a mental health facility where he was evaluated for approximately four years. During this time, he was seen by several mental health professionals, questioned to determine his mental status, and medicated until he was considered restored to competency and returned to military custody.

*Presenting Author
On May 15, 2012, prosecutors decided to seek the death penalty and SGT Russell's defense stated he would pursue an insanity defense. On May 18, 2012, I Corps, Joint Base Lewis-McChord (JBLM) released the General Court-Martial Convening Authority (GCMCA) findings. The GCMCA referred court-martial charges against SGT Russell to a General Court-Martial empowered to adjudge a capital sentence.

During the court-martial proceedings, the defense blamed the combat mental health professionals for SGT Russell's actions and indicated that they could have prevented this mass casualty. SGT Russell was subsequently found guilty and on May 16, 2013, an Army judge sentenced SGT Russell to life without the possibility of parole for the shooting death of two care providers, two patients, and an escort. The judge stated, "You are not a monster, but you have knowingly and deliberately done incredibly monstrous things."
L1  The Disappearance and Murder of Sierra LaMar: A Multidisciplinary Case Study

Thursday
February 20, 2020     12:00 p.m. – 1:30 p.m.     1.0 CE Hour

Melissa A. Dupée, MSFS*  
Santa Clara County Crime Laboratory  
San Jose, CA

Michelle L. Bell, BA*  
San Jose, CA

Learning Overview: The goal of this presentation is to inform attendees of a complex homicide investigation that was heavily fueled by physical evidence examinations, including DNA, trace evidence, digital and video evidence, latent prints, and questioned documents.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by showcasing the ability for multiple forensic disciplines to work together to achieve the maximum potential of the evidence items submitted in a missing person case turned homicide.

Fifteen-year-old Sierra LaMar left her Morgan Hill, CA, home on March 16, 2012, but never made it to school. Her school bag, containing the clothes she’d been wearing the day she disappeared, and her discarded cell phone were found a short time later. Thus began an investigation that utilized multiple crime lab disciplines, culminating in a months-long 2017 trial that found Antolin Garcia Torres guilty of kidnap and murder, even though Sierra’s body has never been found.

DNA was instrumental in identifying a suspect. Biological evidence found on Sierra’s clothes matched to Garcia Torres in the Combined DNA Index System (CODIS), and a later search of his vehicle yielded additional evidence. The DNA testing for this case, much of which was developed in the first few days following Sierra’s disappearance, utilized a plethora of DNA techniques and resulted in a variety of conclusions, each of which required a different type of statistical analysis, including mixtures, paternity testing, and Y-chromosomal Short Tandem Repeats (Y-STRs).

Trace evidence played a big part in this case. The trace evidence analyses required travel to assorted sites in Morgan Hill to collect comparison samples for testing. Examinations of Sierra’s clothing and Garcia Torres’ vehicle revealed various types of trace evidence, including hair, fibers, glass beads, soil, botanicals, and insect parts. Extensive examinations were performed on Sierra’s cell phone, which had turned on and off several times following her disappearance. This prompted a visit to the Samsung® facility in South Korea by an investigator involved in the case.

Questioned documents examination was performed when a notebook of Sierra’s was discovered at school, with notes written in it suggesting she was thinking of running away. Video evidence was paramount in this case. At the beginning of the investigation, video evidence from near the school bus stop and from the school bus itself was reviewed to see if Sierra had made it that far that morning. Later, video from the parking lot of the defendant’s home and from his transactions at a bank were converted to a format that could be more easily viewed in court. In addition, video showed the defendant a few nights before Sierra’s disappearance purchasing only a gallon of bleach and a turkey baster—a strange purchase for a 21-year-old male to be making by himself at night.

Prior to the abduction of Sierra, there were multiple attempted kidnappings in Morgan Hill. Investigators, interested to see if they could somehow link these attacks to Sierra’s disappearance, requested that a Taser®, left at one of the scenes by the perpetrator, be processed for latent prints. A latent fingerprint was developed on the battery of the Taser® and was identified as Antolin Garcia Torres’ print. Therefore, these attempted kidnappings became a part of the Sierra LaMar trial, showing that the defendant had a history of attacking women, and he was found guilty of these crimes as well. The work conducted by all these forensic disciplines in conjunction helped find a suspect, connected him to other crimes, and put to rest several defense theories. Antolin Garcia Torres was sentenced to life in prison without the possibility of parole.

Learning Overview: After attending this presentation, attendees will better understand the role of brain fingerprinting to detect concealed information in forensic criminal cases.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by informing the competence of attendees through increasing the ability to interpret an emerging scientific method used to detect concealed information stored in the brain via the use of Electroencephalographic (EEG) brain responses/brainwaves.

Between 10% and 70% of criminal defendants claim crime-related amnesia; there is limited published literature on objective assessments of memory loss in a criminal setting. Interview techniques combined with psychological testing have been developed to assess possible malingering of memory loss. Investigators have long sought a reliable means of detecting deception. The Guilty Knowledge Test (GKT) is an early predecessor to brain fingerprinting and measures the individual's autonomic response to information known or not known about a crime.1

Recently, brain fingerprinting techniques using brain wave response have emerged as a scientific method to detect potentially concealed information stored in the brain. Brain fingerprinting techniques measure EEG brain responses/brainwaves and compute a determination of “information present” (the subject knows the critical information) or “information absent” (the subject does not). According to this theory, if the individual is familiar with the information presented, a P300 brain wave is emitted and measured by an EEG.2

Farwell reports that in more than 200 test cases, brain fingerprinting yielded a 100% accuracy rate with a 0% error rate in distinguishing those who possessed specific target knowledge from those who did not.1 As an example, in an experiment on 17 Federal Bureau of Investigation (FBI) agents, analysis using this P-300 brain fingerprinting technique yielded a 100% identification rate of FBI agents with FBI-relevant knowledge.1 Dr. Farwell has coined the term “Farwell Brain Fingerprinting” (FBF) that he proposes has the ability to detect concealed information.1

The application of this FBF technique to forensic criminal cases was highlighted in the 2003 case of Harrington v. State. Terry Harrington sought to overturn his 1978 murder conviction on several grounds, including new evidence in the form of FBF that was not available at his original trial. Dr. Farwell administered his test to Mr. Harrington and rendered a report to the Iowa District Court analyzing Mr. Harrington's responses to information about the crime. Dr. Farwell asserted that his analyses supported Mr. Harrington's assertion that he was not guilty and, therefore, it should be allowed into evidence to help overturn his conviction. In contrast, the district attorney challenged these results, noting several factors that could have impacted the FBF outcome. The panel will review how the admissibility of this newly emerging FBF technique was addressed by the district and appellate courts and its impact, if any, on the legal outcome of Mr. Harrington.3 The strengths and limitations of this approach will be discussed and admissibility under the Daubert standard will be highlighted.

W1 Drug Delivery Homicide: Prosecution, Defense, and Expert Testimony

Monday

February 17, 2020 8:30 a.m. – 12:00 p.m. 3.0 CE Hours

Learning Overview: The goals of this presentation are to: (1) discuss the theories of prosecution and defense under “drug-delivery-resulting-in-death” statutes and sentencing; (2) describe and explain the nuances of the Supreme Court of the United States (SCOTUS) decision in Burrage v. United States; (3) analyze the strengths and weaknesses of fact patterns drug-delivery-resulting-in-death cases; (4) identify and articulate the limitations of toxicological and medical testimony in these cases; and (5) prepare for testimony and direct and cross-examination in drug-delivery-resulting-in-death cases.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by providing background on the legal challenges for charging, defending, or providing opinions and testimony in cases in which an individual’s death is alleged to have resulted from another individual’s actions in supplying the drugs that caused the death. Prosecutors, defense attorneys, and testifying experts will be better prepared to provide scientifically supported evidence in the appropriate context to triers of fact in these cases.

## W1 Drug Delivery Homicide: Prosecution, Defense, and Expert Testimony

**Program Description:** This program will evaluate from the jurisprudence, pathology, and toxicology perspectives the legal theories and testimony required to prosecute or defend cases involving allegations that one individual's actions caused the death of another person by supplying them with a drug, either licit or illicit. There is a growing trend toward prosecution of these cases, and this workshop is intended to prepare all the professionals involved in these cases.

W2  Statistical Learning Algorithms for Forensic Scientists

Monday

February 17, 2020    8:30 a.m. – 12:15 p.m.                     3.25 CE Hours

**Learning Overview:** The goals of this workshop are to: (1) introduce attendees to the basics of supervised learning algorithms in the context of forensic applications, including firearms and footwear examination and trace evidence, while placing emphasis on classification trees, random forests, and, time permitting, neural networks; (2) introduce the concept of a similarity score to quantify the similarity between two items; (3) show how learning algorithms can be trained to classify objects into pre-determined classes; (4) discuss limitations of Machine Learning (ML) algorithms and introduce methods for assessing their performance; and (5) discuss the concept of a Score-based Likelihood Ratio (SLR): computation, advantages, and limitations.

**Impact on the Forensic Science Community:** The use of learning algorithms will increase as measurement of features in various types of evidence improve. This is particularly true in the case of pattern evidence. Forensic scientists will greatly benefit from understanding the basic ideas that underpin statistical learning since these types of methods have already been proposed for firearms examination, fingerprints, glass comparison, and shoe print evidence. Most quantitative training for forensic scientists emphasize classical statistical ideas, so a workshop in which forensic practitioners are exposed to learning algorithms is novel and timely.

**Chair:**

W3 Recent Advances in Understanding Fire Pattern Production

Monday

February 17, 2020  8:30 a.m. – 12:15 p.m.  3.5 CE Hours

Learning Overview: After attending this workshop, attendees will have an appreciation not only for the difficulty in determining the origin of a fully involved fire, but also some of the solutions to the problem resulting from recent full-scale fire experiments performed at Underwriters Laboratories (UL). The outcome of the research emphasizes the point that “If you don’t understand the ventilation, you won’t understand the fire.”

Impact on the Forensic Science Community: This workshop will impact the forensic science community by providing investigators with the tools they need to understand and correctly interpret fire patterns and use that interpretation to find the fire’s origin. In the past decade, the validity of fire origin determination has been called into question because sometimes investigators have been misled by ventilation-generated patterns.

Chair:  John J. Lentini, BA  
Scientific Fire Analysis, LLC

Co-Chair:  Douglas J. Carpenter, MS  
Combustion Science & Engineering, Inc  
Columbia, MD

Faculty:  
Daniel Madrzykowski, PhD  
Underwriters Laboratories Firefighter Safety Research Institute  
Columbia, MD

Targeted Audience: Criminalistics, Engineering & Applied Sciences, General

Knowledge Level Required: Intermediate (some knowledge of subject presented)

Expected Handout Length: 400 pages

Program Description: Presenters will discuss the results of two years of full-scale fire tests on two full-sized test structures conducted at UL. The results will help investigators avoid mistakes that have been documented in the past decade and arrive at the correct interpretation of post-fire artifacts. Attendees will learn how to access a freely available interactive web portal so as to allow experimental results to be compared with real-world fires.

W4  The Impact of the 2018 Farm Bill on the Forensic Analysis of Cannabis

Monday

February 17, 2020  8:30 a.m. – 12:30 p.m.  3.5 CE Hours

Learning Overview: After attending this presentation, attendees will understand the legal and forensic landscape of marihuana/hemp analysis and also understand a validated analytical approach that meets these new requirements.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by providing a framework for meeting the forensic requirements of the 2018 Farm Bill.

Chair: Richard P. Meyers, MSFS
Drug Enforcement Administration
Office of Forensic Sciences
Springfield, VA

Co-Chair: Sandra E. Rodriguez-Cruz, PhD
Drug Enforcement Administration
Special Testing and Research Laboratory
Dulles, VA

Faculty:
Linda C. Jackson, MS

Richmond, VA

Shawn K. West, MSFS
Colorado Bureau of Investigation
Pueblo, CO

Targeted Audience: Criminalistics, General, Jurisprudence
Knowledge Level Required: Intermediate (some knowledge of subject presented)
Expected Handout Length: 200 pages

Program Description: This workshop will provide an overview of changes in the law, describe an analytical approach to providing reliable results that conform to the new legal requirements, and provide an overview of the work done to validate the methods incorporated into the analytical approach. State laboratory managers will describe their varying approaches to meeting these new challenges from a state that had legalized marijuana prior to changes in federal law and a state that had not.

Program:

8:30 a.m. - 8:40 a.m.  An Overview of the Changes to Federal Drug Law
Richard P. Meyers, MSFS

8:40 a.m. - 9:00 a.m.  The Effects on Analytical Procedures—The Virginia Experience
Linda C. Jackson, MS

9:00 a.m. - 9:20 a.m.  The Effects on Analytical Procedures—The Colorado Experience
Shawn K. West, MSFS

9:20 a.m. - 9:35 a.m.  Break

9:35 a.m. - 11:00 a.m.  The Development of New Analytical Protocol
Sandra E. Rodriguez-Cruz, PhD

11:00 a.m. - 11:45 a.m.  Collaboration in Developing New Analytical Protocol
Linda C. Jackson, MS

11:45 a.m. - 12:30 p.m.  Panel Discussion
Sandra E. Rodriguez-Cruz, PhD; Linda C. Jackson, MS; Shawn K. West, MSFS; Richard P. Meyers, MSFS
**W5  The Psychopathology of Homicide**

**Monday**

February 17, 2020  8:30 a.m. – 12:30 p.m.  3.5 CE Hours

**Learning Overview:** After attending this presentation, attendees will better understand the relationship between psychopathology and the phenomenon of homicide.

**Impact on the Forensic Science Community:** This presentation will impact the forensic science community by demonstrating how the identification of the features of psychopathology of homicide can inform treatment planning.

**Chair:**
Alan R. Felthous, MD  
Saint Louis University School of Medicine  
St. Louis, MO

**Co-Chair:**
Felice F. Carabellese, MD  
University of Bari, Section of Forensic Psychiatry  
Bari, ITALY

**Faculty:**
Carlo P. Campobasso, MD, PhD  
University of Campania  
Department of Experimental Medicine  
Napoli, ITALY

Giancarlo Di Vella, MD, PhD  
University of Torino  
Department of Public Health Sciences  
Torino, ITALY

Gabriele Mandarelli, MD, PhD  
University of Rome “Sapienza”  
Rome, ITALY

Ilaria Rossetto, PhD  
Residences for Execution Safety Measures  
Castiglione delle Stiviere, ITALY

Silvia Trotta  
Institute of Legal Medicine  
Bari, ITALY

**Targeted Audience:** Criminalistics, Pathology/Biology, Psychiatry & Behavioral Science

**Knowledge Level Required:** Intermediate (some knowledge of subject presented)

**Expected Handout Length:** 300 pages
Program Description: The workshop speakers will debate from different points of view the psychopathology of men and women who kill; the psychopathology of men and women of criminal organizations, such as the Sicilian mafia; combined homicide suicide; the Not Guilty by Reason of Insanity (NGRI) killers: a national sample; forensic psychiatric evaluations of defendants in homicide cases: literature analysis and forensic cases; and treatment outcomes following a killing conviction. Several general pathologists will speak on topics that pertain to the killer's mental state from the perspective of forensic pathology and the investigation of homicide. The criminological and psychiatric data from a multicenter national Italian sample of forensic psychiatric patients will be also discussed.

Program:

8:30 a.m. - 9:00 a.m. The Underpinnings of Combined Homicide-Suicide
Alan R. Felthous, MD

9:00 a.m. - 9:30 a.m. The Psychopathology of Men and Women Who Kill
Felice F. Carabellese, MD

9:30 a.m. - 10:00 a.m. The Killer's Mental State From the Perspective of Forensic Pathology
Giancarlo Di Vella, MD, PhD

10:00 a.m. - 10:30 a.m. The Role of the Forensic Pathologist in Serial Homicides
Carlo P. Campobasso, MD, PhD

10:30 a.m. - 11:00 a.m. Break

11:00 a.m. - 11:30 a.m. Treatment Outcomes Following Conviction for Homicide
Ilaria Rossetto, PhD

11:30 a.m. - 12:00 p.m. Investigation of Homicide
Silvia Trotta

12:00 p.m. - 12:30 p.m. Forensic Psychiatric Evaluation of Defendants in Homicide Cases: A Literature Review and Analysis of Preliminary Data From a Multicenter Italian Study
Gabriele Mandarelli, MD, PhD
Pre-Registration Required — $200 w/registration; $250 workshop only

W6  High-Impact Practices in Forensic Science Education

Monday

February 17, 2020  8:30 a.m. – 4:15 p.m.  6.25 CE Hours

Learning Overview: After attending this presentation, attendees will learn how high-impact practices can be used in forensic science education and discover how to adapt their courses using common programing for students by: (1) identifying and describing a variety of high-impact practices; (2) recognizing useful high-impact practices dependent on the environment; and (3) discovering innovative high-impact practices that could be incorporated into their classroom.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by exploring a variety of high-impact practices and gaining insight into a broader scope of common methods useful in forensic science teaching. By discussing multiple types of high-impact practice techniques and the application of these practices in forensic science education, attendees will be able to incorporate tools into their forensic science classrooms and programs.

Chair:
Gina Londino-Smolar, MS
Indiana University–Purdue University Indianapolis
Indianapolis, IN

Faculty:
Dwight E. Adams, PhD
University of Central Oklahoma
Forensic Science Institute
Edmond, OK

Buffalo, NY

Joseph Levi White, MS
Defense Forensic Science Center
Digital Evidence-CFI
Forest Park, GA

Targeted Audience: All disciplines
Knowledge Level Required: Basic (little to no knowledge of subject presented)
Expected Handout Length: 100 pages
**Program Description:** A variety of high-impact practice methods currently in use in various forensic science education programs will be shared. These methods will include first-year experiences, living-learning communities, field trips, community-focused projects, casework and scholarly research, project-based learning courses, and the student transformative learning record. Each discussion will include real-life examples of how the high-impact practice method is implemented within the curriculum or program. Due to the requirement of these types of high-impact practices for Forensic Science Education Programs Accreditation Commission (FEPAC) accreditation, there will be a discussion of the importance of these practices within forensic science education and how the standards can be achieved in multiples ways. Attendees will learn how to apply these methods toward any discipline or program.

W7 New Advances in Forensic Human Identification: Issues and Approaches

Monday
February 17, 2020 8:30 a.m. – 4:45 p.m. 6.75 CE Hours

Learning Overview: After attending this presentation, attendees will have a heightened understanding of: (1) the factors affecting human identification; and (2) how the application of new, innovative, and cross-disciplinary techniques have the potential to overcome these issues, which will be detailed through case examples.

Impact on the Forensic Science Community: This presentation will impact the forensic science community through the presentation of multidisciplinary approaches toward human identification, pointing out the novel techniques suitable for this purpose, encouraging collaboration and innovation among different forensic specialties to document and to integrate several lines of evidence.

W8  Death Investigations in the Military: Case Studies From Around the World

Monday

February 17, 2020  8:30 a.m. – 5:00 p.m.  6.75 CE Hours

Learning Overview: After attending this presentation, attendees will understand: (1) processing a variety of death scenes; (2) forensic capabilities of military investigators; (3) investigative considerations in foreign countries; (4) coordination with international agencies; (5) domestic violence impact on child death; (6) staged suicide; (7) scene reconstruction; and (8) laboratory capabilities.

Impact on the Forensic Science Community: This presentation will impact the forensic science community through detailed accounts of a variety of death investigations as described by Army Special Agents who participated in the cases. The investigations represent various circumstances and illustrate the worldwide capabilities and responsibilities of military investigative agencies, along with legal and laboratory support.

Chair:
Steven Geniuk, MS
United States Army Military Police School
Forensic Science Training Facility
Fort Leonard Wood, MO

Faculty:
Joshua L. Adams, PhD
United States Army Criminal Investigation Command
Fort Myer, VA

Adam C. Armstrong, MS

United States Army Criminal Investigation Command
Fort Meade, MD

Donald Hayden, MFS
Waynesville, MO

Derek J. Kingsbury, MBA
United States Army Criminal Investigation Command
Joint Base Lewis-McChord, WA

Keith M. McCullen, MFS
Black River, NY

Vanessa R. Neff, MS
United States Army Criminal Investigation Command
Fort Hood, TX

Scott Roeske, MFS
Fort Sill, OK

Edmund D. Tamburini, MFS
McDonough, GA

Targeted Audience: Criminalistics, General, Jurisprudence, Pathology/Biology, Psychiatry & Behavioral Science

Knowledge Level Required: Intermediate (some knowledge of subject presented)

Expected Handout Length: 120 pages
Program Description: Investigators from the United States Army Criminal Investigation Division specializing in forensic science will present seven case studies illustrating a wide variety of death investigations spanning the globe. Additionally, a representative from the Army's Judge Advocate General (JAG) Corps will provide an overview of the military criminal justice system. The United States military crime lab representatives will share their expeditionary capabilities in support of Department Of Defense investigations worldwide.

Program:

8:30 a.m. - 8:40 a.m. | Introduction
Steven Geniuk, MS; Precious JeanBatiste, MS

8:40 a.m. - 9:20 a.m. | An Overview of Military Death Investigations
Armando B. Dela Rosa, Jr., MA

9:20 a.m. - 10:00 a.m. | DNA Finds a Missing Soldier
Derek J. Kingsbury, MBA

10:00 a.m. - 10:15 a.m. | Break

10:15 a.m. - 10:45 a.m. | Crossed Paths Family
Scott Roeske, MFS

10:45 a.m. - 11:15 a.m. | Strangulation and a Sunken Car
Vanessa R. Neff, MS

11:15 a.m. - 11:45 a.m. | Suicide, Staging, and Arson
Arthur S. Chancellor, MA

11:45 a.m. - 1:00 p.m. | Lunch

1:00 p.m. - 1:30 p.m. | A Nine-Shot Suicide
Joshua L. Adams, PhD; Sarah N. Crosby, MS

1:30 p.m. - 2:30 p.m. | Double Homicide by Stalker
Donald Hayden, MFS; Adam C. Armstrong, MS

2:30 p.m. - 3:00 p.m. | Saved by a Smart Book
Keith M. McCullen, MFS

3:00 p.m. - 3:15 p.m. | Break

3:15 p.m. - 3:55 p.m. | The United States Army Criminal Investigation Laboratory (USACIL) in Death Cases
Edmund D. Tamburini, MFS

3:55 p.m. - 4:35 p.m. | The Military Court Process
Precious JeanBatiste, MS

4:35 p.m. - 5:00 p.m. | Wrap-Up and Questions
Steven Geniuk, MS; Precious JeanBatiste, MS
W9  Interpersonal Violence and Elder Abuse: Maltreatment That Crosses All Borders

Monday
February 17, 2020  8:30 a.m. – 5:00 p.m.  7.0 CE Hours

Learning Overview: After attending this presentation, attendees will be able to identify multiple forms of abuse and mistreatment, recognize the impact of abuse across the lifespan, and specify key points for the prosecution of abusers.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by broadening the education of those working with victims of violence. This presentation will enhance not only the ability to intervene in maltreatment but to prosecute the abuser.

Chair:

Hoover, AL
Kathleen S. Thimens, DNP
Barnes Jewish College, Goldfarb School of Nursing
Saint Louis, MO
David A. Williams, DDS
Randallstown, MD
Joyce P. Williams, DNP
Randallstown, MD

Targeted Audience: General
Knowledge Level Required: Basic (little to no knowledge of subject presented)
Expected Handout Length: 50 pages
Program Description: This presentation will provide attendees the tools and information they need to identify and intervene in interpersonal violence and elder abuse in their communities. Maltreatment across the lifespan will be addressed, with clear and concise case studies and examples that attendees will be able to use to broaden their understanding of the impact of violence on all age groups. Topics include forensic markers of abuse, wound identification, documentation of abuse, working with victims of violence, and evidence collection that leads to successful arrest and prosecution of perpetrators of abuse.

Program:

8:30 a.m. - 9:15 a.m. The Impact of Trauma on Health: Crossing the Boundaries
Patricia M. Speck, DNSc

9:15 a.m. - 10:00 a.m. Strangulation in Interpersonal Violence and Elder Abuse
Debra Holbrook, MSN

10:00 a.m. - 10:30 a.m. Age-Related Changes and Comorbidities: Differentiating Abuse
Kathleen S. Thimsen, DNP

10:30 a.m. - 10:45 a.m. Break

10:45 a.m. - 11:30 a.m. Reaching Across Professional Borders: Creating Coordinated Community Response to Elder Abuse
Rachell A. Ekroos, PhD

11:30 a.m. - 12:00 p.m. Panel Discussion
Patricia M. Speck, DNSc; Debra Holbrook, MSN; Kathleen S. Thimsen, DNP; Rachell A. Ekroos, PhD

12:00 p.m. - 1:00 p.m. Lunch

1:00 p.m. - 1:45 p.m. Interpersonal Violence and Elder Abuse: Where’s the Border?
Amy Y. Carney, PhD

1:45 p.m. - 2:30 p.m. Investigating Abuse and Neglect in Health Care Facilities
Stacey A. Mitchell, DNP

2:30 p.m. - 2:45 p.m. Break

2:45 p.m. - 3:30 p.m. Elder Sexual Abuse: A Case Review
Diana K. Faugno, MSN

3:30 p.m. - 4:15 p.m. The Elderly in Disasters
David A. Williams, DDS; Joyce P. Williams, DNP

4:15 p.m. - 4:45 p.m. Panel Discussion
Amy Y. Carney, PhD; Stacey A. Mitchell, DNP; Diana K. Faugno, MSN; David A. Williams, DDS; Joyce P. Williams, DNP

4:45 p.m. - 5:00 p.m. Questions and Wrap-Up
Patricia M. Speck, DNSc; Debra Holbrook, MSN; Kathleen S. Thimsen, DNP; Rachell A. Ekroos, PhD; Amy Y. Carney, PhD; Stacey A. Mitchell, DNP; Diana K. Faugno, MSN; David A. Williams, DDS; Joyce P. Williams, DNP
W10 The Investigation and Analysis of Health Care Serial Killers

Monday
February 17, 2020  8:30 a.m. – 5:00 p.m.  7.0 CE Hours

Learning Overview: After attending this presentation, attendees will: (1) state the different motivations of health care serial killers; (2) understand some of the challenges associated with analytical testing and result interpretation; (3) list the agents that have been used in medical killings and describe their mechanism of action; and (4) understand how to best prepare for case presentation in a legal proceeding.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by providing a multidisciplinary approach to understanding, identifying, and investigating health care serial killers.

Chair:

**Pre-Recorded/Remote Presentation

Targeted Audience: Jurisprudence; Psychiatry & Behavioral Science; Toxicology
Knowledge Level Required: Basic (little to no knowledge of subject presented)
Expected Handout Length: 100 pages
Supported By: NMS Labs, Inc
Program Description: The health care serial killer is a unique type of criminal offender who is employed as a medical provider and intentionally ends the life of a person under their care. The motivations to kill are varied, but include ending the suffering of a patient who unlikely will recover, minimizing the emotional toll of the relatives, achieving recognition from their colleagues by accomplishing life-saving resuscitation measures, and exerting dominance over a weaker individual.

These cases are challenging to recognize as they typically occur over an extended period of time, involve different care facilities, and include patients who are severely ill and/or have a terminal diagnosis. Toxicology testing may not include the administered substance or interpretation is confounded due to variables such as analyte instability and the poor health status of the patient. Instead, identification and investigations tend to occur when a correlation between a care provider’s presence and a cluster of deaths is observed.

Pre-Registration Required — $250 w/registration; $300 workshop only

W11 The Native American Graves Protection and Repatriation Act (NAGPRA) and the Medicolegal System: Legal, Practical, and Ethical Considerations for Practitioners

Monday

February 17, 2020          8:30 a.m. – 5:15 p.m.          7.25 CE Hours

Learning Overview: After attending this presentation, attendees will: (1) better understand NAGPRA and how it applies to Medical Examiner/Coroner (ME/C) offices that come into possession of non-forensic Native American remains; (2) learn the legal responsibilities necessary to be compliant with the federal law and understand when and how NAGPRA-compliant protocols should be followed; (3) learn how to complete each step of the NAGPRA process, including what types of evidence are used to determine cultural affiliation; and (4) learn best practices for communicating with tribes.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by providing attendees with an understanding of why and how the federal NAGPRA law applies to the medicolegal system when non-forensic Native American remains are submitted to ME/C offices and the possible repercussions for non-compliance. NAGPRA governs the treatment and disposition of Native American remains in any state office that receives federal funding and provides a legal pathway for Native Americans to claim and repatriate the remains of their ancestors. As ME/C offices receive federal funding by the distribution of these funds through the state to local government agencies and are often in the possession of non-forensic Native American remains, they fall within the legal purview of the law.

Chair:        Co-Chair:
Megan K. Kleeschulte, MA        Amy Z. Mundorff, PhD
University of Tennessee, Knoxville        University of Tennessee, Knoxville
Knoxville, TN        Knoxville, TN

Faculty:
Bruce E. Anderson, PhD
Pima County Office of the Medical Examiner
Forensic Science Center
Tucson, AZ

Ellen Lofaro, PhD
University of Tennessee, Knoxville
Knoxville, TN

Targeted Audience: Anthropology, General, Jurisprudence, Pathology/Biology

Knowledge Level Required: Basic (little to no knowledge of subject presented)

Expected Handout Length: 50 pages

Program Description: This workshop provides training on the application and protocols of NAGPRA for the medicolegal system. ME/C offices have been identified as systems that legally fall under the definition of museum as it is employed in NAGPRA and, therefore, are required to comply with the law’s mandates. This workshop will cover the history leading to the passage of NAGPRA and will provide an in-depth discussion of the definitions included in the law and how they apply to the medicolegal system. This session will also provide hands-on training on how to determine whether your office is in possession or control of Native American remains, how to initiate consultation with tribes, what evidence should be used for making cultural affiliation determinations, how to fill out notice of inventory completion templates, how notices get published on the federal register, and how to facilitate the final physical transfer of remains when control of claimed remains transfers to claimant tribes. This hands-on training will be accomplished using different scenarios that mimic the various contextual situations practitioners may encounter regarding Native American remains.
WORKSHOPS

Pre-Registration Required — $200 w/registration; $250 workshop only

W11 The Native American Graves Protection and Repatriation Act (NAGPRA) and the Medicolegal System: Legal, Practical, and Ethical Considerations for Practitioners

Program:

8:30 a.m. - 8:40 a.m. Welcome and Introduction
Megan K. Kleeschulte, MA

8:40 a.m. - 9:40 a.m. History Leading to the Passage of NAGPRA
Ellen Lofaro, PhD

9:40 a.m. - 10:30 a.m. The Law: Stipulations, Definitions, and Terminology
Megan K. Kleeschulte, MA

10:30 a.m. - 10:45 a.m. Break

10:45 a.m. - 11:15 a.m. Determining Forensic vs. Non-Forensic Significance
Bruce E. Anderson, PhD

11:15 a.m. - 12:00 p.m. Distinguishing Native American Remains From Other Groups
Bruce E. Anderson, PhD

12:00 p.m. - 1:00 p.m. Lunch

1:00 p.m. - 2:00 p.m. The NAGPRA Process: A Step-by-Step Review of Compliant Protocols
Megan K. Kleeschulte, MA; Ellen Lofaro, PhD

2:00 p.m. - 2:30 p.m. The Pima County Office of the Medical Examiner: A Case Study
Megan K. Kleeschulte, MA; Bruce E. Anderson, PhD

2:30 p.m. - 2:45 p.m. Break

2:45 p.m. - 5:15 p.m. Mock Scenarios
Megan K. Kleeschulte, MA; Ellen Lofaro, PhD

W12 KidStats: Improving the Subadult Biological Profile

Monday

February 17, 2020 8:30 a.m. – 5:15 p.m. 7.25 CE Hours

Learning Overview: After attending this workshop, attendees will be trained on the most up-to-date techniques to estimate subadult age and sex and on KidStats, a freely available web-based graphical user interface.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by providing attendees with applied experience in collecting subadult data from 3D printed remains of individuals between birth and 15 years and the application of these data in a statistical framework.

Chair:
Kyra E. Stull, PhD
University of Nevada, Reno
Department of Anthropology
Reno, NV

Co-Chair:
Heather M. Garvin, PhD
Des Moines University
Department of Anatomy
Des Moines, IA

Faculty:
Louise K. Corron, PhD
University of Nevada, Reno
Department of Anthropology
Reno, NV

Michael H. Price, PhD
Santa Fe Institute
Santa Fe, NM

Alexandra R. Klales, PhD
Washburn University
Forensic Anthropology Program
Topeka, KS

Targeted Audience: Anthropology

Knowledge Level Required: Intermediate (some knowledge of subject presented)

Expected Handout Length: 25 pages

Restricted Audience Size: 30
Program Description: Forensic anthropological research is generally less focused on the subadult biological profile, mainly because of the difficulty in accessing skeletal samples to develop techniques. Subsequently, methods development to estimate subadult parameters of the biological profile (e.g., age, sex, and stature) is lacking. A large sample of postmortem computed tomography images of children between birth and 20 years (~1,100) allowed for the development and validation of age and sex estimation techniques using a contemporary subadult sample. This workshop will provide information on the statistics that went into the development of these models and hands-on opportunities with 3D printed skeletal elements of individuals from the sample allowing for a direct opportunity to collect age and sex indicators. The workshop participants will also work with KidStats, a freely available graphical user interface allowing practitioners all around the world to estimate the age of children based on the age indicators collected.

Program:

8:30 a.m. - 9:00 a.m. Welcome and Introduction  
*Kyra E. Stull, PhD*

9:00 a.m. - 9:15 a.m. The Subadult Study Sample  
*Kyra E. Stull, PhD*

9:15 a.m. - 10:15 a.m. Discussing Landmark Placement, Protocol Development, and Reliability of Indicators  
*Heather M. Garvin, PhD; Alexandra R. Klales, PhD; Louise K. Corron, PhD*

10:15 a.m. - 10:45 a.m. Subadult Sex Estimation (Pelvis)  
*Heather M. Garvin, PhD; Alexandra R. Klales, PhD*

10:45 a.m. - 11:00 a.m. Break

11:00 a.m. - 11:30 a.m. Subadult Sex Estimation (Pelvis and Long Bones)  
*Kyra E. Stull, PhD*

11:30 a.m. - 12:00 p.m. Stature and Body Mass Estimation  
*Heather M. Garvin, PhD*

12:00 p.m. - 1:00 p.m. Lunch

1:00 p.m. - 2:30 p.m. Subadult Age Estimation and Development of Mixed Cumulative Probit (MCP)  
*Michael H. Price, PhD; Kyra E. Stull, PhD*

2:30 p.m. - 2:45 p.m. Break

2:45 p.m. - 4:45 p.m. Hands-On With 3D Printed Subadult Material  
*Kyra E. Stull, PhD; Heather M. Garvin, PhD; Alexandra R. Klales, PhD; Louise K. Corron, PhD*

4:45 p.m. - 5:15 p.m. Concluding Remarks  
*Kyra E. Stull, PhD*
W13 A Primer on Multidisciplinary Investigations of Pediatric Injuries and Deaths

Monday

February 17, 2020 8:30 a.m. – 5:30 p.m. 7.25 CE Hours

Learning Overview: Attendees will be able to demonstrate the ability to analyze and evaluate available data in a pediatric death or injury case to formulate a viable hypothesis regarding the actual mechanism of the pathology in question. After attending this presentation, attendees will be better able to differentiate and implement effective investigative techniques from lesser alternatives.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by exposing practitioners to an effective multidisciplinary team approach to prospectively work through investigations as they progress to a conclusion.

Chair: J.C.U. Downs, MD

Salt Lake County District Attorney’s Office
Salt Lake City, UT

Targeted Audience: Criminalistics, General, Jurisprudence, Odontology, Pathology/Biology, Toxicology

Knowledge Level Required: Intermediate (some knowledge of subject presented)

Expected Handout Length: 100 pages

Program Description: This workshop will teach investigators, physicians, scientists, attorneys, and others working on child deaths and injuries how to objectively and effectively gather, analyze, and appraise evidence in cases of pediatric injury and/or death

Proceeds from this workshop will benefit the Forensic Sciences Foundation, Inc.
W13  A Primer on Multidisciplinary Investigations of Pediatric Injuries and Deaths

Program:

8:30 a.m. - 8:45 a.m.  Introduction, Objectives, and Purpose  
J.C.U. Downs, MD; Bonnie Armstrong, BS

8:45 a.m. - 9:45 a.m.  Overview of Medical Aspects of Child Physical Abuse  
J.C.U. Downs, MD

9:45 a.m. - 10:00 a.m. Break

10:00 a.m. - 11:15 a.m. Forensic Investigative Techniques  
Bonnie Armstrong, BS

11:15 a.m. - 11:45 a.m. Interviews in Child Physical Abuse and Neglect: The Devil is in the Details—Part 1  
Bonnie Armstrong, BS; Robert N. Parrish, JD

11:45 a.m. - 12:45 p.m. Lunch

12:45 p.m. - 1:45 p.m. Interviews in Child Physical Abuse and Neglect: The Devil is in the Details—Part 2  
Bonnie Armstrong, BS; Robert N. Parrish, JD

1:45 p.m. - 2:15 p.m. Timeline Development—Part 1  
Bonnie Armstrong, BS

2:15 p.m. - 2:30 p.m. Break

2:30 p.m. - 3:30 p.m. Timeline Development—Part 2  
Bonnie Armstrong, BS

3:30 p.m. - 4:00 p.m. Pediatric Head Trauma—An Overview  
J.C.U. Downs, MD; Robert N. Parrish, JD

4:00 p.m. - 4:15 p.m. Break

4:15 p.m. - 5:15 p.m. Pediatric Head Trauma—How Thorough Investigation Impacts the Legal Case for Success  
Robert N. Parrish, JD

5:15 p.m. - 5:30 p.m. Discussion/Questions and Answers  
Bonnie Armstrong, BS; Robert N. Parrish, JD; J.C.U. Downs, MD
W14  Mass Disasters and Disaster Victim Identification (DVI)

Monday
February 17, 2020  8:30 a.m. – 5:30 p.m.  7.5 CE Hours

Learning Overview: After attending this presentation, attendees will be able to: (1) understand the historical background of DVI; (2) recognize the need for standards and best practices; (3) understand the integrated contributions of the various forensic sciences to DVI; and (4) understand the critical relationship of the Victim Information Center to the identification process.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by providing attendees with an understanding of the current state of mass fatality victim identification as it exists in the United States. Presentations will encompass the breadth of the forensic sciences, including ethical considerations and the role of the Victim Information Center in mass fatality identifications.

Cynthia Gavin, PhD
Parkville, MD

Targeted Audience: Anthropology, Criminalistics, General, Jurisprudence, Odontology, Pathology/Biology

Knowledge Level Required: Basic (little to no knowledge of subject presented)

Expected Handout Length: 275 pages

Program Description: DVI is the comprehensive process of human identification as applied to mass fatality events. Although by definition a mass fatality event is any situation that overwhelms local resources, we generally think of a situation in which identification is hampered by the event and recovery process. Human remains that have been badly traumatized, heavily decomposed, or recovered outside of their normal context are examples that fit this description. In response to the 2009 National Academy of Sciences (NAS) Report, a movement to create standards within the forensic sciences was started. DVI was included and the creation of standards and best practices within the field are ongoing. DVI is the concerted and combined efforts of dedicated scientists, specialists, and governmental and private agencies. It is practiced under far-less-than-perfect conditions under circumstances that are often politically and culturally charged.

W15  Dementia Workup for Forensic Pathologists Following a Condensed National Institute on Aging-Alzheimer’s Association (NIA-AA) Protocol

Tuesday

February 18, 2020  8:30 a.m. – 12:00 p.m.  3.25 CE Hours

Learning Overview: After attending this presentations, attendees will: (1) become familiar with the diagnostic workup and grading schemes for common classes of dementia; (2) be able to accurately identify and sample appropriate regions of the brain according to the Condensed Protocol for dementia workup; and (3) understand the benefits and limitations of the Condensed and NIA-AA Protocols for dementia workup.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by presenting a method that reduces the cost of histopathologic dementia workup while maintaining diagnostic performance.

W16 Forensic Multimedia Authentication: Real-Life Challenges

Tuesday

February 18, 2020 8:30 a.m. – 12:00 p.m. 3.0 CE Hours

Learning Overview: After attending this workshop, attendees will: (1) become familiar with the latest developments in forensic video and audio authentication, enhancement, and restoration; (2) understand criteria used for media authentication; (3) understand how to conduct analysis within a forensic framework; and (4) explore the latest technologies in the generation of synthetic imagery, including deepfakes, face2face, and others.

Impact on the Forensic Science Community: This workshop will impact the forensic community by: (1) explaining the scientific approach in forensic media authentication, enhancement, and restoration; (2) demonstrating an authentication investigation framework; and (3) discussing tools used to create and combat multimedia forgery.

W16 Forensic Multimedia Authentication: Real-Life Challenges

Program Description: This workshop on the impact of emerging technologies on multimedia forensics will examine the new and emerging technologies affecting multimedia forensics today and over the coming decades. The information shared during the workshop is from academics, researchers, and practitioners currently working and researching in these new technology areas. Participants will be informed of the latest developments in forensic video and audio authentication, enhancement, and restoration. This includes the latest technologies in the generation of synthetic imagery, including deepfakes, face2face, and others. This workshop assembles an experienced group of people impacting the world of multimedia forensics on a variety of topics.

Program:

8:30 a.m. - 9:00 a.m.  Video DeepFakes, Face2Face, and FaceSwap
Jeff M. Smith, MS

9:00 a.m. - 9:30 a.m.  Adaptive 3D Face Models for Denoising, Deblurring, and Superresolution of Human Faces in Closed-Circuit Television (CCTV)

W17  The Murder of Women: A Global Issue That Demands Action

Tuesday

February 18, 2020    8:30 a.m. – 12:00 p.m.       3.0 CE Hours

Learning Overview: After attending this presentation, attendees will understand and recognize how discrimination against women prevails throughout the world, and how violence against women, a serious violation of human rights, is the most severe consequence of such discrimination. The Inter-American Court of Human Rights defined femicide as “the murder of women by gender” considering that these deaths result from structural and social attitudes, rooted in a culture of gender-based violence and discrimination. Acts of violence against women based on their status as women demand the serious and specific attention of the international community.

Attendees will become more aware of the various types of violence that are manifested in many ways. Most victims are raped and many are mutilated, tortured, or dismembered. Femicide is a complex phenomenon, ranging from the murder of women by their partners or ex-partners, to their kidnapping followed by rape and subsequent killing committed by unknown perpetrators, to ritual crimes performed by sects or other groups.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by empowering attendees to understand that it is an obligation of the United States to prevent and eradicate femicide and to adopt administrative, legislative, and judicial measures to prohibit gender discrimination. States must ensure the exercise of the rights of women and pursue, by all appropriate means and without delay, policies that prevent, punish, and eradicate violence against women. States have the obligation to standardize all their protocols and manuals; to update their research criteria; and to restructure the administration of justice related to investigate disappearances, sexual violence, and murder of women. These measures have implications not only for the United States, but also for other systems of human rights protection, such as the European Court of Human Rights. After implementation of various policies addressing this crucial issue, states should be held responsible for lack of diligence in investigations, lack of access to justice for the families of the victims, and therefore for the impunity of the perpetrators. To sum up, states are responsible for taking the necessary steps to ensure a life free of violence for women.

Targeted Audience: Criminalistics, Jurisprudence, Pathology/Biology, Psychiatry & Behavioral Science

Knowledge Level Required: Basic (little to no knowledge of subject presented)

Expected Handout Length: 30 Pages
Program Description: This workshop will show how to monitor the issue of femicide in the future and what types of data and information will be used. Scientists think it reasonable to create scientifically based monitoring with a proper strategy together with all national and international partners. Such a structure must promote the creation of comparable national databases, while also systematically involving existing international systems of data collection and their experience. It became very clear, during research, that the collection of police data alone would not be sufficient for analyzing the cases in the detail needed for prevention and intervention. Therefore, many countries have adopted the strategy of collecting information on all the cases known to the media and collating it with the criminological data and—insofar as is possible—data recorded by health and support systems. This strategy makes it possible to obtain more background information on femicides, which is important for future prevention and early interventions. In order to stabilize the collection of data and information at the European level, it is important to publicly finance work resources at the national level in order to create and continuously update national databases in a way that makes international comparison possible. Furthermore, a scientifically based monitoring body must coordinate data collection and supply it to joint databases. Only in this way will it be possible, in the long-term, to create a bigger pool of data that allows deeper analysis and prevention of the problem at the European, American, and international level.

W18 Injury Biomechanics: An Interdisciplinary Approach and Forensic Applications

Tuesday

February 18, 2020 8:30 a.m. – 12:30 p.m. 3.5 CE Hours

Learning Overview: After attending this workshop, attendees will comprehend the advantages of using an interdisciplinary team to address questions concerning injury biomechanics and associated trauma analysis. Attendees will be exposed to the applications of injury biomechanics across multiple scientific disciplines through presentations and hands-on experiences. Additionally, attendees will be introduced to the value of experimental testing in developing and validating forensic methods of injury analysis and the importance of scientific validity and error rates.

Impact on the Forensic Science Community: This workshop will impact the forensic science community by providing attendees with an introduction to injury biomechanics and the applications of this research to forensic anthropology, engineering and applied sciences, and forensic pathology.

W18 Injury Biomechanics: An Interdisciplinary Approach and Forensic Applications

Program Description: Injury biomechanics is the science that relates mechanical forces to disruption of anatomical regions of the human body. This multidisciplinary field encompasses engineering, physics, and medicine and can offer improved validity of trauma analyses and interpretation to the field of forensic anthropology. This workshop will provide attendees with an introduction to injury biomechanics, applications, and limitations of forensic injury biomechanics, how to effectively collect and analyze quantitative data used in injury biomechanics, experimental design, in addition to detailed presentations on current experimental research with subsequent trauma evaluation and interpretations. Presentations will demonstrate the importance and value of interdisciplinary experimental research to trauma analyses, re-creating traumatic events, and expert testimonies. An emphasis will be on skeletal trauma. Attendees will have the opportunity to discuss the role of injury biomechanics in forensic fields with the panel of experts. Attendees will leave the workshop with a greater understanding of the contributions of experimental research to forensic applications.

Program:

8:30 a.m. - 8:40 a.m. Welcome and Introductions
Amanda M. Agnew, PhD; Angela L. Harden, MA; John H. Bolte, PhD; Yun-Seok Kang, PhD

8:40 a.m. - 9:00 a.m. Introduction to the Field of Injury Biomechanics
John H. Bolte, PhD

9:00 a.m. - 9:45 a.m. Applications and Limitations of Forensic Injury Biomechanics
Angela L. Harden, MA; Amanda M. Agnew, PhD

9:45 a.m. - 10:00 a.m. Break

10:00 a.m. - 10:30 a.m. Quantitative Data and Experimental Design
Yun-Seok Kang, PhD; John H. Bolte, PhD

10:30 a.m. - 11:30 a.m. An Experimental Research Project: Thoracic Trauma
Amanda M. Agnew, PhD; Yun-Seok Kang, PhD; John H. Bolte, PhD; Angela L. Harden, MA

11:30 a.m. - 12:15 p.m. Experimental Research Project: Underbody Blast Trauma
John H. Bolte, PhD; Amanda M. Agnew, PhD

12:15 p.m. - 12:30 p.m. Questions and Answers
Amanda M. Agnew, PhD; Angela L. Harden, MA; John H. Bolte, PhD; Yun-Seok Kang, PhD
W19  Think Tank on the Leading Edge of Forensic Science, Including Robotics, Drug Intelligence, Analytical Chemistry, Technology Rules, Bayesian Approach, Legal Technology Developments, Research and Development (R&D) in a Forensic Lab, Veterinary Forensics, and Aquatic Death Investigation

Tuesday

February 18, 2020  8:30 a.m. – 12:30 p.m.  3.75 CE Hours

Learning Overview: After attending this presentation, attendees will better understand the various new advances in forensic science that promise to have an important impact on their work.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by discussing the absolute latest new developments in robotics, drug intelligence, analytical chemistry technology rules, Bayesian approach, legal technology developments, R&D in a forensic lab, veterinary forensics, and aquatic death investigations. This workshop will help attendees be on the leading edge.

Chair:
Laura L. Liptai, PhD

Martha Smith-Blackmore, DVM
Forensic Veterinary Investigations, LLC
Boston, MA

Arian C. Van Asten, PhD
University of Amsterdam
Amsterdam, NETHERLANDS

Sheila Willis, PhD
National Institute of Standards and Technology
Gaithersburg, MD

Andrea Zaferes, BA
Dutchess County Medical Examiner Office
Shokan, NY

Targeted Audience: All Disciplines
Knowledge Level Required: Intermediate (some knowledge of subject presented)
Expected Handout Length: 80 Pages
Program Description: Experts from all over the world will discuss the new developments that are in the process of revolutionizing forensic science. The speakers are the best of the best within each of their areas of expertise. Practical examples will be presented on robotics, drug intelligence, analytical chemistry, technology rules, Bayesian approach, legal technology developments, research and development (R&D) in a forensic lab, veterinary forensics, and aquatic death investigations. This presentation will provide an overview of exciting new advances and open a forum for the discussion of issues that may arise regarding these new developments that will ultimately impact the forensic science community. A wide variety of new technology that will soon impact forensic scientist has been identified within the AAFS Think Tank Committee.

Program:

8:30 a.m. - 8:40 a.m.  
Opening Remarks  
Laura L. Liptai, PhD

8:40 a.m. - 9:05 a.m.  
Managing R&D in a Forensic Lab in a Fast-Changing World  
Annemieke de Vries, PhD

9:05 a.m. - 9:30 a.m.  
Emerging Drug Threats and Drug Intelligence  
Jeri D. Ropero-Miller, PhD

9:30 a.m. - 9:55 a.m.  
An Example of Bayesian Approach in Forensic Reports  
Ivo Alberink, PhD

9:55 a.m. - 10:20 a.m.  
Technology Rules OK?  
Sheila Willis, PhD

10:20 a.m. - 10:30 a.m.  
Break

10:30 a.m. - 10:55 a.m.  
Most Important Legal Technology Developments in 2019–2020  
Stephanie Domitrovich, JD, PhD

10:55 a.m. - 11:15 a.m.  
New Developments in Forensic Analytical Chemistry  
Arian C. Van Asten, PhD

11:15 a.m. - 11:35 a.m.  
Integrating Robotics Into Forensics  
Kevin W.P. Miller, PhD

11:35 a.m. - 11:55 a.m.  
Veterinary Forensics  
Martha Smith-Blackmore, DVM

11:55 a.m. - 12:20 p.m.  
Aquatic Death/Abuse Investigations Need to Stop Breaking Basic Scene Investigation Standards and Need to Require Specialized Training  
Andrea Zaferes, BA

12:20 p.m. - 12:30 p.m.  
Closing Remarks  
Zeno J. Gerads, PhD
W20 Genetic Genealogy: Science, Law, and Ethics

Tuesday

February 18, 2020 8:30 a.m. – 4:45 p.m.  6.75 CE Hours

Learning Overview: After attending this workshop, attendees will have a better understanding of how genetic genealogy works, how it is used by law enforcement, its admissibility in court, and the ethics of using personal DNA data of relatives to solve crimes.

Impact on the Forensic Science Community: This workshop will impact the forensic science community by providing a clear understanding of the use of genetic genealogy to solve crimes and to better equip forensic scientists to appreciate the legal and ethical issues that it presents.

Chair:
Donald E. Shelton, JD, PhD
University of Michigan-Dearborn
Criminal Justice Program
Dearborn, MI

Faculty:
Russell S. Babcock, JD
Law Office of Russell Babcock
San Diego, CA

Henry T. Greely, JD
Stanford University
Stanford, CA

Ellen M. Greytak, PhD
Parabon NanoLabs, Inc.
Reston, VA

Co-Chair:
Frederick R. Bieber, PhD
Brigham & Women's Hospital
Department of Pathology
Boston, MA

Ted R. Hunt, JD
United States Department of Justice
Washington, DC

Roderick T. Kennedy, JD
Los Ranchos, NM

CeCe Moore
Reston, VA

Targeted Audience: Criminalistics, General, Jurisprudence, Pathology/Biology, Psychiatry & Behavioral Science

Knowledge Level Required: Basic (little to no knowledge of subject presented)

Expected Handout Length: 100 Pages

Program Description: Since the identification and arrest of the suspect in the “Golden State Killer” investigation in early 2018 using novel DNA and genealogy tools, dozens of law enforcement investigators in North America have effectively used such methods in high-profile cold cases. This workshop includes a description of the DNA technology used, the database search process itself, the methods of genealogy searching, and the legality and ethics of the process, all from expert leaders in those fields. Speakers include CeCe Moore, the genealogist who pioneered the method in the “Golden State Killer” case, biomedical DNA specialists, lawyers, professors, and ethics experts.
# WORKSHOPS

*Pre-Registration Required — $200 w/registration; $250 workshop only*

W21  A Decade of Designer Drugs: Lessons Learned and Future Directions

Tuesday

February 18, 2020  8:30 a.m. – 5:00 p.m.  6.75 CE Hours

Learning Overview: After attending this workshop, attendees will be able to: (1) discuss current and past trends in Novel Psychoactive Substances (NPS); (2) describe and explain the means by which new substances are assessed for their potency and toxicity; (3) identify resources and strategies for the investigation of NPS toxicity outbreaks and impacts on user populations; (4) assess the available analytical techniques for resolving the identity of positional isomers of new drugs; and (5) apply best practices in the use of standard reference materials and proficiency testing for forensic NPS casework.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by providing a ten-year perspective on how forensic and research sciences responded to the phenomenon of designer drugs, later NPS, the tools and workflows that have been developed, current approaches to evaluating drug toxicity, the impact of NPS on drug user behavior, and best practices for the future identification of structural identity and detail of newly emergent substances.

Gaithersburg, MD

Targeted Audience: Criminalistics, General, Pathology/Biology, Toxicology
Knowledge Level Required: Intermediate (some knowledge of subject presented)
Expected Handout Length: 250 Pages
Sponsored by: NMS Labs, Inc.

Program Description: This workshop will bring together forensic chemists, medical examiners, death investigators, forensic toxicologists, emergency responders, and public health officials to reflect on the past decade of NPS. This workshop will provide a forum in which experts across different disciplines can share their varying perspectives on the NPS epidemic.

W22  “All Rise”: Successfully Navigating the Judicial System as an Expert Witness

Tuesday

February 18, 2020  8:30 a.m. – 5:00 p.m.  6.75 CE Hours

Learning Overview: After attending this workshop, attendees will be well-versed in the decorum, procedures, expectations, and environment of a modern United States courtroom through active participation in the process.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by offering real-world experience in expert testimony in an environment conducive to productive learning without the stress of an actual trial.

Chair:
Laura C. Fulginiti, PhD
Forensic Science Center
Phoenix, AZ

Faculty:
Katelyn L. Bolhofner, PhD
Arizona State University
Glendale, AZ

Betty Layne DesPortes, JD, MS
Benjamin & DesPortes, PC
Richmond, VA

Kristen Hartnett-McCann, PhD
Office of the Chief Medical Examiner
Farmington, CT

Co-Chair:
Daniel G. Martin, JD
Superior Court of Arizona
Phoenix, AZ

Kristin Larish, JD
Maricopa County Attorney’s Office
Phoenix, AZ

Andrew C. Seidel, PhD
Arizona State University
Tempe, AZ

Targeted Audience: All Disciplines
Knowledge Level Required: Basic (little to no knowledge of subject presented)
Expected Handout Length: 50 Pages
Restricted Audience Size: 50

Program Description: This workshop is designed to introduce and expand the understanding of expert witnesses who are confronted with the judicial process as part of their work. Using an actual courtroom set-up, the organizers plan to include the attendees in real-life scenarios as expert witnesses on the stand and as jurors evaluating the proffered testimony.
WORKSHOPS

Pre-Registration Required — $200 w/registration; $250 workshop only

W22 “All Rise”: Successfully Navigating the Judicial System as an Expert Witness

Program:

8:30 a.m. - 8:35 a.m.  Introduction
Laura C. Fulginiti, PhD

8:35 a.m. - 9:20 a.m.  The United States Judicial System
Daniel G. Martin, JD

9:20 a.m. - 9:50 a.m.  The Expert’s Role in the Judicial Process
Laura C. Fulginiti, PhD

9:50 a.m. - 10:10 a.m.  Break

10:10 a.m. - 10:25 a.m.  Courtroom Basics
Laura C. Fulginiti, PhD; Daniel G. Martin, JD; Betty Layne DesPortes, JD, MS; Kristen Hartnett-McCann, PhD; Katelyn L. Bolhofner, PhD; Andrew C. Seidel, MA; Kristin Larish, JD

10:25 a.m. - 10:45 a.m.  Pretrial Hearings: Daubert Demonstration
Daniel G. Martin, JD; Betty Layne DesPortes, JD, MS; Kristin Larish, JD; Kristen Hartnett-McCann, PhD

10:45 a.m. - 11:05 a.m.  Trial Practice 1: Credentialing
Laura C. Fulginiti, PhD; Daniel G. Martin, JD; Betty Layne DesPortes, JD, MS; Kristen Larish, JD; Kristen Hartnett-McCann, PhD; Katelyn L. Bolhofner, PhD; Andrew C. Seidel, MA

11:05 a.m. - 11:25 a.m.  Trial Practice 2: Credentialing
Laura C. Fulginiti, PhD; Daniel G. Martin, JD; Betty Layne DesPortes, JD, MS; Kristen Larish, JD; Kristen Hartnett-McCann, PhD; Katelyn L. Bolhofner, PhD; Andrew C. Seidel, MA

11:25 a.m. - 11:45 a.m.  Trial Practice 3: Fact Witnesses
Laura C. Fulginiti, PhD; Daniel G. Martin, JD; Betty Layne DesPortes, JD, MS; Kristen Larish, JD; Kristen Hartnett-McCann, PhD; Katelyn L. Bolhofner, PhD; Andrew C. Seidel, MA

11:45 a.m. - 12:45 p.m.  Lunch

12:45 p.m. - 1:05 p.m.  Trial Practice 4: Fact Witnesses
Laura C. Fulginiti, PhD; Daniel G. Martin, JD; Betty Layne DesPortes, JD, MS; Kristen Larish, JD; Kristen Hartnett-McCann, PhD; Katelyn L. Bolhofner, PhD; Andrew C. Seidel, MA

1:05 p.m. - 1:25 p.m.  Trial Practice 5: Fact Witnesses
Laura C. Fulginiti, PhD; Daniel G. Martin, JD; Betty Layne DesPortes, JD, MS; Kristen Larish, JD; Kristen Hartnett-McCann, PhD; Katelyn L. Bolhofner, PhD; Andrew C. Seidel, MA

1:25 p.m. - 1:45 p.m.  Trial Practice 6: Professional Opinions
Laura C. Fulginiti, PhD; Daniel G. Martin, JD; Betty Layne DesPortes, JD, MS; Kristen Larish, JD; Kristen Hartnett-McCann, PhD; Katelyn L. Bolhofner, PhD; Andrew C. Seidel, MA
W22 “All Rise”: Successfully Navigating the Judicial System as an Expert Witness

Program cont.:

1:45 p.m. - 2:05 p.m.

W23    Dispelling the Myths About the Forensic Examination of Handprinting

Tuesday

February 18, 2020    8:30 a.m. – 5:00 p.m.    6.75 CE Hours

Learning Overview: After attending this workshop, attendees will be informed about the development of manuscript handprinting, motor-control theories regarding how handprinting is learned, examination techniques with handprinting, and will conduct hands-on examinations of genuine and simulated handprinting.

Impact on the Forensic Science Community: This workshop will impact the forensic science community by informing attendees on the history and development of manuscript handprinting, and will enhance their abilities to conduct handprinting examinations. Attendees will also be prepared to defend the reliability of handprinting examinations in court.

Chair:
Linton Mohammed, PhD
Forensic Science Consultants, Inc
Burlingame, CA

Co-Chair:
Linda L. Mitchell, BS
Forensic QDE Lab, LLC
Escondido, CA

Faculty:
Brett Bishop
Cheney, WA

Katelyn E. Bruno, MFS
Quantico, VA

Lloyd Cunningham
Alamo, CA

Targeted Audience: Questioned Documents

Knowledge Level Required: Intermediate (some knowledge of subject presented)

Expected Handout Length: 20 Pages

Program Description: This full-day workshop will provide attendees with knowledge of the development of handprinting from the schoolroom and from motor control principles. Recent cases in which the reliability of handprinting evidence was criticized will be discussed. There will be a significant hands-on component in which attendees will be able to learn techniques of examining genuine and simulated handprinting.
Pre-Registration Required — $200 w/registration; $250 workshop only

W24 Forensic Postmortem Radiology: Crossing the Border Between Radiology and Pathology

Tuesday
February 18, 2020 8:30 a.m. – 5:00 p.m. 7.0 CE Hours

Learning Overview: After attending this workshop, attendees will: (1) learn the basics in how to get started in the field of forensic radiology, (2) understand the current state of the art and levels of evidence in forensic radiology, (3) learn about applications to assist forensic pathologists and practitioners in medical death investigations, and (4) finally will be made aware of potential resources available to interested practitioners.

Impact on the Forensic Science Community: This presentation will impact the forensic science community by providing attendees with expertise from around the world on the use of best practices and the evidence base of forensic postmortem radiology.

Chair:
Summer J. Decker, PhD
University of South Florida Department of Radiology
Morsani College of Medicine
Tampa, FL

Faculty:
Natalie L. Adolphi, PhD
McCormick Lab
Albuquerque, NM

Lars C. Ebert, PhD
Universitat Zurich
Zurich, SWITZERLAND

David Errickson, PhD
Cranfield University
Shrivenham, UNITED KINGDOM

Jonathan M. Ford, PhD
Department of Radiology
Tampa, FL

Frances E. Hollingbury, MBChB
East Midlands Forensic Pathology Unit
Leicester, UNITED KINGDOM

Co-Chair:
Edward Mazuchowski II, MD, PhD
Joint Trauma System
Joint Base San Antonio-Fort Sam Houston, TX

Jeroen J.F. Kroll
Maastricht University Medical Center
Maastricht, NETHERLANDS

Chris O’Donnell, MD
Victorian Institute for Forensic Medicine
Melbourne, AUSTRALIA

Lars Oesterhelweg
Institut für Rechtsmedizin der Charité
Berlin, GERMANY

Targeted Audience: Pathology/Biology
Knowledge Level Required: Basic (little to no knowledge of subject presented)
Expected Handout Length: 150 Pages
Program Description: The “Virtual Autopsy” or “Virtopsy” utilizes Multislice Computed Tomography (MSCT) or Postmortem CT (PMCT) and Magnetic Resonance Imaging (MRI) combined with 3D imaging technology to create vivid images of the interior of the human body. This can be accomplished not only in the living but also in the dead. In the past decades, an increasing use of these techniques, in the postmortem setting, has been seen in the field of forensics. However, without the proper knowledge of the potential benefits but also the limitations of forensic postmortem radiology, its implementation in the field of forensics is impossible. The international group of speakers in this workshop have extensive experience in implementing forensic postmortem radiology workflows, interpreting case studies, and/or implementing this in advanced imaging modalities. The international background and diversity of professional backgrounds of the speakers provides the participants an opportunity to gain a broad perspective, crossing the borders between specialties, on this exciting field. Many of the speakers, who all are internationally seen as experts in their fields, have been on the forefront of forensic postmortem radiology or can even be seen as founding fathers in this field.

The goal of this workshop is to share knowledge and experiences with those who are working in the field of forensics and are currently thinking about implementing this new and important modality; they should really attend this course. Those who already are using forensic postmortem radiology are also welcome, not only to learn from this highly experienced faculty, but also to share their experiences in this field. This program offers a broad range of topics from the young child to disaster victim identification and from obtaining data to advanced 3D visualization.

At the end of the sessions, there will be an interactive case session in which the audience is asked to participate. During these sessions, cases will be presented showing the potential and limitations of forensic postmortem radiology.

Program:

8:30 a.m. - 9:00 a.m.  Introductions, Background, and a Historical Overview
                      Michael Thali, MD

9:00 a.m. - 9:30 a.m.  Acquiring PMCT Scan Tips and Tricks: A Technician's Perspective
                      Jeroen J.F. Kroll

9:30 a.m. - 10:00 a.m. The Development of a Forensic CT Service in a High-Volume U.S. Medical Examiner Office
                       Natalie L. Adolphi, PhD

10:00 a.m. - 10:30 a.m. Break

10:45 a.m. - 11:30 a.m. Directed PMCT Angiography and an Evaluation of Resuscitative Medical Therapy
                        Edward Mazuchowski II, MD, PhD

11:30 a.m. - 12:00 p.m. Forensic PMCT in Children: Application and Limitations
                         Rick R. Van Rijn, PhD

12:00 p.m. - 12:30 p.m. Interactive Cases I
                         Jeroen J.F. Kroll; Rick R. Van Rijn, PhD

12:30 p.m. - 1:30 p.m. Lunch
WORKSHOPS

Pre-Registration Required — $200 w/registration; $250 workshop only

W24  Forensic Postmortem Radiology: Crossing the Border Between Radiology and Pathology

Program cont.:

1:30 p.m. - 2:00 p.m.  PMCT in Gunshot Wound (GSW) and Fatal Penetrating Trauma  
Lars Oesterhelweg

2:00 p.m. - 2:30 p.m.  PMCT in Disaster Victim Identification  
Frances E. Hollingbury, MBChB

2:30 p.m. - 3:05 p.m.  3D Visualization in Forensic Postmortem Radiology: Possibilities and Examples  
Summer J. Decker, PhD

3:05 p.m. - 3:20 p.m.  Break

3:20 p.m. - 3:50 p.m.  Virtual Crime Scenes: Digital Evidence Documentation and Courtroom Use  
David Errickson, PhD

3:50 p.m. - 4:30 p.m.  Emerging Technologies  
Lars C. Ebert, PhD; Jonathan M. Ford, PhD

4:30 p.m. - 5:00 p.m.  Interactive Cases II  
Summer J. Decker, PhD; Lars C. Ebert, PhD; David Errickson, PhD; Jonathan M. Ford, PhD
WORKSHOPS

Pre-Registration Required — $250 w/registration; $300 workshop only

W25  Working Toward a Wellness Mindset for Forensic and Investigative Personnel: Addressing Stress and Trauma in the Workforce and Taking Steps to Change Agency and Professional Culture

Tuesday

February 18, 2020  8:30 a.m. – 5:00 p.m.  6.5 CE Hours

Learning Overview: After attending this workshop, attendees will understand and recognize how stress and trauma are tied to the forensic professions, including in the form of vicarious trauma, and how exposure to trauma and stress impacts an employee's personal and professional performance. Attendees will also learn evidence-based strategies to mitigate and reduce the impacts of stress and trauma, as well as learn from the experience of the anthropology program at the University of South Florida and the Maryland State Police's Crime Laboratory efforts to address stress and trauma. Attendees will be more aware of the various types of trauma that investigators and investigative personnel routinely encounter and the potential impacts this may have, not only on the individual, but on the investigation and/or service provision. This workshop builds upon and expands the content of the half-day workshop presented at the American Academy of Forensic Sciences Annual Scientific Meeting in 2019. Paths forward and the implementation and incorporation of Evidence-Based Policy (EBP) will also be addressed so attendees can examine what policies and assistance are available in their own agencies or assist in policy development. This workshop will address concerns related to both line-level and supervisory personnel.

Impact on the Forensic Science Community: This workshop will impact the forensic science community by providing attendees with the understanding that the human experience is variable, and trauma exposure and symptoms even more so, leading to behavior patterns that can be complex and abstract and by recognizing the manifestations of a variety of psychological—both behavioral and cognitive—impacts as a reaction to trauma and stress exposure on the job. This workshop will also address the concept of trauma-informed agencies, ensuring that appropriate resources are available to employees, focusing on evidence-based interventions. By attending this workshop, attendees will be better equipped to understand the potentially short- and long-term impacts of trauma, as well as how to adapt investigative approaches and provide resources that will lead to increased chances of not only a positive work environment, but likely a more efficient and cost-effective solution to maintaining employee health and well-being to avoid burn-out and decreased cognitive abilities that may impact service provision and job performance.

Chair:
Amanda L. Farrell, PhD
Marymount University
Arlington, VA

Co-Chair:
Jonathan D. Bethard, PhD
University of South Florida
Tampa, FL

Faculty:
Timothy J. Ainger, PhD
University of Kentucky
Lexington, KY

Daniel E. Katz, MFS
Maryland State Police Forensic Sciences Division
Pikesville, MD

Lurena A. Huffman, BS
Houston Forensic Science Center
Houston, TX

Christopher J. Scallon, MS
Norfolk Police Department
Norfolk, VA

Targeted Audience: All Disciplines
Knowledge Level Required: Basic (little to no knowledge of subject presented)
Expected Handout Length: 60 Pages
Program Description: This workshop will aid attendees in identifying factors associated with these needs and their expression, particularly with regard to identifying “problem behaviors,” and detecting the symptoms of post-traumatic exposure, in addition to identifying and implementing empirically supported strategies for proper identification and management of cognitive concerns. Attendees will be exposed to a wide array of behaviors, as well as to how these behaviors can be identified and addressed. Topical discussions will be further supported by case studies and videos.

Program:

8:30 a.m. - 8:40 a.m. Welcome
Amanda L. Farrell, PhD; Jonathan D. Bethard, PhD; Lurena A. Huffman, BS

8:40 a.m. - 9:00 a.m. Introduction: Context, Approach, and Panel
Amanda L. Farrell, PhD

9:00 a.m. - 10:00 a.m. Stress, Trauma, and Their Impact on Forensic Professionals
Amanda L. Farrell, PhD; Timothy J. Ainger, PhD; Christopher J. Scallon, MS

10:00 a.m. - 10:15 a.m. Break

10:15 a.m. - 11:00 a.m. Cognitive and Long-Term Impacts of Trauma
Timothy J. Ainger, PhD

11:00 a.m. - 11:45 a.m. Addressing Vicarious Trauma and Becoming a Trauma-Informed Agency
Christopher J. Scallon, MS

11:45 a.m. - 12:00 p.m. Moderated Discussion/Questions and Answers
Lurena A. Huffman, BS

12:00 p.m. - 1:30 p.m. Lunch

1:30 p.m. - 2:45 p.m. Learning From Examples
Jonathan D. Bethard, PhD; Daniel E. Katz, MFS

2:45 p.m. - 3:00 p.m. Break

3:00 p.m. - 4:30 p.m. Evidence-Based Strategies and Interventions
Amanda L. Farrell, PhD; Timothy J. Ainger, PhD; Christopher J. Scallon, MS

4:30 p.m. - 5:00 p.m. Moderated Discussion/Questions and Answers
Lurena A. Huffman, BS
Pre-Registration Required — $100 w/registration; $125 workshop only

WORKSHOPS

**W26** Overcoming Analytical Challenges Inherent in New Psychoactive Substances With Gas Chromatography Coupled With Vapor Phase Infrared Detection (GC-IRD)

**Tuesday**

February 18, 2020 1:00 p.m. – 5:00 p.m. 3.75 CE Hours

**Learning Overview:** The goals of this presentation are to obtain: (1) a more comprehensive awareness and understanding of the analytical challenges inherent in the analysis of novel and emerging drugs; (2) an overview and better understanding of the role of GC-IRD applications in the analysis of seized drugs; and (3) knowledge and tools for the optimization of GC-IRD methodology for the analysis of opioids, synthetic cathinones, and synthetic cannabinoids.

**Impact on the Forensic Science Community:** This presentation will impact the forensic science community by informing attendees that GC-IRD is a useful alternative for the rapid detection and identification of novel substances when routine analytical techniques yield limited information.

**Chair:**
Agnes D. Winokur, MS
Drug Enforcement Administration/Southeast Laboratory
Miami, FL

**Co-Chair:**
Reta Newman, MA
Pinellas County Forensic Lab
Largo, FL

**Faculty:**
Jose R. Almirall, PhD
Florida International University
Department of Chemistry
Miami, FL

Randall Clark, PhD
Auburn University
School of Pharmacy
Auburn, AL

**Targeted Audience:** Criminalistics, General

**Knowledge Level Required:** Basic (little to no knowledge of subject presented)

**Expected Handout Length:** 50 Pages

**Program Description:** This program will be broken down into three main sections. Section 1 will address the struggles that forensic scientists are experiencing in their ability to detect and identify new psychoactive substances. Section 2 will focus on the theory and on demonstrating how the role of GC-IRD methodologies are increasing the capabilities of forensic laboratories. The last section will illustrate how GC-IRD applications and modern technological advances can facilitate the rapid analysis of opioids, synthetic cathinones, and synthetic cannabinoids.

Program cont.:

11:50 a.m. - 12:15 p.m. Investigating the Rise and Fall of Opioids Using Data Acquired by Liquid Chromatography/Time of Flight/Mass Spectrometry (2017-DN-BX-0169)
Judith Rodriguez Salas, MS

12:15 p.m. - 1:35 p.m. Lunch

Afternoon Session I – Impression and Pattern Evidence/Trace Evidence
Moderator: Gregory Dutton, PhD

1:35 p.m. - 2:00 p.m. Quantitative Measures for Footwear Impression Comparisons (DJO-NIJ-17-RO-0202)
Steven P. Lund, PhD

2:00 p.m. - 2:25 p.m. Testing the Accuracy and Reliability of Palmar Friction Ridge Comparisons: A Black Box Study (2017-DN-BX-0170)
Heidi Eldridge, MS

Tatiana Trejos, PhD; Luis E. Arroyo PhD

2:50 p.m. - 3:15 p.m. Facilitating the Adoption of Glass Evidence Analyses in Forensic Laboratories (2015-DN-BX-K049)
Jose R. Almirall, PhD

3:15 p.m. - 3:30 p.m. Break

Afternoon Session II – Forensic Anthropology and Forensic Pathology
Moderator: Danielle L. McLeod-Henning, MFS

3:30 p.m. - 3:55 p.m. Developing an Online Resource for Species Identification of Skeletal Remains (2018-DU-BX-0229)
Heather M. Garvin, PhD

3:55 p.m. - 4:20 p.m. Development Responses to Fluctuating Temperatures of a Forensically Important Blow Fly (Cochliomyia Macellaria) (2016-DN-BX-0204)
Travis Rusch

4:20 p.m. - 4:45 p.m. Understanding the Role of the Thanatobiota in the Decay of “Reproductive Organs” in Human Decomposition (2017-MU-MU-0042)
Gulnaz T. Javan, PhD

4:45 p.m. - 5:10 p.m. Using Microbiome Tools to Estimate the Postmortem Interval of Human Remains (2015-DN-BX-K016)
Jessica L. Metcalf, PhD
2020 Interim Scientific Program
Mass Fatality: Planning and Management

Tuesday
February 18, 2020  1:00 p.m. – 5:00 p.m.

This program will include a multidisciplinary panel discussion relative to mass fatality planning and management.

Program:

1:00 p.m. - 1:05 p.m.  Welcome and Introduction
Sally S. Aiken, MD, President, National Association of Medical Examiners

1:05 p.m. - 1:10 p.m.  Opening Remarks
Suzanne R. Utley, MDL

1:10 p.m. - 1:40 p.m.  National Missing and Unidentified Persons System (NamUs) for Critical Incidents
Emily A. Craig, PhD

1:40 p.m. - 2:10 p.m.  Calling an Audible: Continuity of Operations Planning (COOP) and Mass Fatality Incident (MFI) Planning
Shawn Wilson

2:10 p.m. - 2:40 p.m.  Mass Fatality Management—Preparation for a Complex Coordinated Attack (CCA)
Roger A. Mitchell, Jr.

2:40 p.m. - 2:50 p.m.  Break

2:50 p.m. - 3:20 p.m.  Planning, Partnerships, and Preparing for the Unexpected
Melanie Rouse, MS

3:20 p.m. - 3:50 p.m.  Flight 3407: A Commercial Airline Crash in Western New York
Katherine F. Maloney, MD

3:50 p.m. - 4:20 p.m.  Mass Fatality Preparedness—Lessons Learned From the October 1, 2017, Shooting in Las Vegas
John Fudenberg, MBA

4:20 p.m. - 5:00 p.m.  Mass Fatality Planning and Aftermath: Panel Discussion
Sally S. Aiken, MD; Suzanne R. Utley, MD; Emily A. Craig, PhD; Shawn Wilson; Roger A. Mitchell, Jr.; Melanie Rouse, MS; Katherine F. Maloney, MD; John Fudenberg, MBA

This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of MedChi, The Maryland State Medical Society, and the National Association of Medical Examiners. MedChi is accredited by the ACCME to provide continuing medical education for physicians. MedChi designates this live activity for a maximum of 3.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Continuing Education Administration Fee: There is an administrative charge ($75 pre-registration, $100 at the door registration) for persons wishing to receive this credit. It will be necessary for you to complete a program evaluation as well as pay the administrative fee to receive CME credit for this meeting.

Self-Assessment Module: The American Board of Pathology has deemed the National Association of Medical Examiners to be an approved provider of Self-Assessment Modules (SAMs) for the Life-Long Learning and Self-Assessment Requirement (Part II) for Maintenance of Certification in Forensic Pathology. This activity has been planned and implemented in accordance with those guidelines and qualify for a maximum of 3.5 hours of SAMs. There is an administrative charge of $35 for Members and $105 for Non-Members.

Registration Fee: There is a registration fee of $150 for Members, $200 at the door and $200 for Non-Members, $250 at the door. Registrations are totally separate from the AAFS. Contact Denise McNally at 660-734-1891 or email name@thename.org to receive a registration form.
HUMANITARIAN AND HUMAN RIGHTS RESOURCE CENTER

Poster Session

American Academy of Forensic Sciences 72nd Annual Scientific Meeting

Pre-Registration Not Required — Open to All Meeting Attendees

Tuesday

February 18, 2020 6:00 p.m. – 8:00 p.m.

The Humanitarian and Human Rights Resource Center (HHRRC) of the American Academy of Forensic Sciences (AAFS), with support from the National Institute of Justice's Forensic Technology Center of Excellence, provides needed resources and support to apply modern forensic science to global humanitarian and human rights projects. This Humanitarian and Human Rights Poster Session is an open meeting where attendees can meet our HHRRC researchers and learn about the application of forensic science to investigate humanitarian and human rights injustices.

Information will be available at www.forensicCOE.org.

Program:

6:00 p.m. - 8:00 p.m.
Urban Scavenging of Skeletal Remains by the Slender Mongoose (Galerella Sanguinea) in Johannesburg, South Africa
Craig A. Keyes, MS; Jolandie Myburgh, MSc; Desiré Brits, PhD

6:00 p.m. - 8:00 p.m.
Application of Stable Isotopes for Geolocating Unidentified Border Crossers From the Texas-Mexico Border
Eric J. Bartelink, PhD; Sarah A. Hall, MA; Samuel A. Mijal, BS; Vanessa C. Reeves, BA; Alina Tichinin

6:00 p.m. - 8:00 p.m.
Building Forensic Capacity in Post-Conflict Uganda
Hugh H. Tuller, MA; Paul D. Emanovsky, PhD; Jaymelee Kim, PhD; Dawnie W. Steadman, PhD

6:00 p.m. - 8:00 p.m.
Scene Documentation for Human Rights Investigators
Tal Simmons, PhD; Scott Edwards, PhD

6:00 p.m. - 8:00 p.m.
Humanitarian Forensic Action for Resolving and Preventing the Missing
Morris V. Tidball-Binz, MD

6:00 p.m. - 8:00 p.m.
Strategies for the Identification of Migrants in the Mediterranean: The Shipwreck of April 18, 2015
Cristina Cattaneo, PhD; Debora Mazzarelli, BS; Giulia Caccia, BSc; Danilo De Angelis, DDS; Annalisa Cappella, PhD; Pasquale Poppa, BS; Douglas H. Ubelaker, PhD; Luca Sconfienza, MD; Zuzana Obertova, PhD; Richard Jantz, PhD; Stephen D. Ousley, PhD; Laura Manthey, MD; Tony Fracasso, MD; Lucie Biehler-Gomez; Barbara Bertoglio, BSc; Carlo Previderé, PhD; Morris V. Tidball-Binz, MD; José P. Baraybar, MSc, PhD; Oran Finegan, MSc; Rossella Di Liberto; Federica Giannotta; Giuliana Perrotta, MA

Moderator: Douglas H. Ubelaker, PhD
Smithsonian National Museum of Natural History
Washington, DC

Co-Moderator: Jeri D. Ropero-Miller, PhD
RTI International
Research Triangle Park, NC
Program cont.:

6:00 p.m. - 8:00 p.m.  Using Environmental and Archaeological Samples to Build Forensic Isoscapes of the Peruvian Andes: Paths Forward for Identifying Victims From the Time of Violence in Peru (1980–1990s)
Beth K. Scaffidi, PhD; Gwyneth W. Gordon, PhD; Roberto C. Parra, MA; Kelly Knudson, PhD; Martha R. Palma Malaga, MG; Tiffiny A. Tung, PhD

6:00 p.m. - 8:00 p.m.  Isotopes and Isoscapes: Their Potential and Limitations in Aiding the Identification Process of Undocumented Border Crossers From Mexico
Saskia Ammer, MSc

6:00 p.m. - 8:00 p.m.  A Protocol Validation of Qualitative and Quantitative Methods and Its Application in Forensic Anthropology: A Pilot Study
Cláudia Regina Plens, PhD

6:00 p.m. - 8:00 p.m.  The Humanitarian and Human Rights Crisis in South Texas Exemplified Through the Tres Norias Cemetery
Kate Spradley, PhD; Timothy P. Gocha, PhD; Chloe P. McDaneld, MA; Courtney C. Siegert, MA

6:00 p.m. - 8:00 p.m.  The Detection of Chemical Weapon Nerve Agents in Bone: Expanding the Post-Incident Interval for Verifying Nerve Agent Exposure Using Biomatrices
Katie M. Rubin, PhD; Bruce A. Goldberger, PhD

**NOTE:** Additional posters on humanitarian and human rights will be invited to exhibit during the session.
Due to potential changes in the program, the AAFS encourages you to access the most up-to-date schedule on the AAFS website at www.aafs.org.
## Wednesday

### Poster Session

| Time       | 11:30 a.m. - 1:00 p.m. | A1 | Collaborative Approaches in the Identification of Transgender and Gender Variant Decedents  
Amy Michael, PhD*; Mariyam I. Isa, MA*; Lee Redgrave; Anthony Redgrave, MS |
|------------|------------------------|----|----------------------------------------------------------------------------------|
| Time       | 11:30 a.m. - 1:00 p.m. | A2 | The Frontal Versus Basal Region of the Cranium: A Comparison of the Best Sex Prediction Parameters Using Discriminant Function Analysis  
Preetika M. Chatterjee, PhD; Kewal Krishan, PhD* |
| Time       | 11:30 a.m. - 1:00 p.m. | A3 | Sex Determination Through the Evaluation of Foramen Magnum Measurements on an Italian Population  
Carmelinda Angrisani, MD*; Federica Mele, MD; Roberto Maselli; Francesco Introna, MD; Antonio De Donno, PhD |
| Time       | 11:30 a.m. - 1:00 p.m. | A4 | Assessing the Utility of Vertebral Body Heights as a Sex Indicator in United States Whites and Koreans  
Yangseung Jeong, PhD*; Eun Jin Woo; Simon Pergande; Omar Aly |
| Time       | 11:30 a.m. - 1:00 p.m. | A5 | Estimation of Sex Based on Postcranial Elements in North American and Latin American Populations  
Sara C. Zapico, PhD*; Joe Adserias-Garriga, DDS, PhD* |
| Time       | 11:30 a.m. - 1:00 p.m. | A6 | Evaluating Sexual Dimorphism Among South African Groups Using Dentition  
Goodness P. Shakoane, BS; Ericka N. L'Abbe, PhD; Marie Christine Dussault, PhD* |
| Time       | 11:30 a.m. - 1:00 p.m. | A7 | The Relationship Between Soft Tissue Anatomy and Skeletal Sexual Dimorphism in the Cranium and Clavicle  
Jade S. De La Paz, MS*; Stephanie Woodley, PhD; Nawaporn Techataweewan, PhD; Hallie Buckley, PhD; Siân Halcrow, PhD |
| Time       | 11:30 a.m. - 1:00 p.m. | A8 | Sexual Dimorphism in the Shape of the Auricular Surface of the Ilium  
Madeline Parker, MS*; Stephen P. Nawrocki, PhD; Krista E. Latham, PhD |
| Time       | 11:30 a.m. - 1:00 p.m. | A9 | Application and Evaluation of Adult Morphological Sex Traits Using the Subadult Innominate  
Stephanie J. Cole, MS*; Kyra E. Stull, PhD |
| Time       | 11:30 a.m. - 1:00 p.m. | A10 | Sex Estimation of the Subadult Pelvis Prior to Acetabular Fusion  
Heather M. Garvin, PhD*; Katherine A. Marciniec, BS; Laura E. Cirillo, MA; Michala K. Stock, PhD; Kyra E. Stull, PhD |
| Time       | 11:30 a.m. - 1:00 p.m. | A11 | 3D Models of Paranasal Sinuses to Establish Age, Sex, and Ethnicity Across Three Modern Populations  
Madeline H. Robles, MS, MRes*; Ruth M. Morgan, PhD; Carolyn Rando, PhD |
| Time       | 11:30 a.m. - 1:00 p.m. | A12 | Assessing the Accuracy of Current Ancestry and Sex Estimation Methods on a Japanese Sample  
Cassie E. Skipper, MA*; Marin A. Pilloud, PhD |

*Presenting Author*
11:30 a.m. - 1:00 p.m.  A13 Crossing the Borders of Linguistics, Ancestry, and Race in the Field of Forensic Anthropology
Alba E. Craig, BA*; Krista E. Latham, PhD

11:30 a.m. - 1:00 p.m.  A14 The Use of Eye Tracking Technology in Forensic Anthropology: An Empirical Approach to Advancing the Understanding of Complex Visual Tasks in Cranial Macromorphoscopic Trait Evaluations
Sherry Nakhaeizadeh*; Micayla C. Spiros, MS; Joseph T. Hefner, PhD; Tim Thompson, PhD; Ruth M. Morgan, PhD

11:30 a.m. - 1:00 p.m.  A15 Eye Tracking to Assess Decision-Making in Cranial Macromorphoscopic (MMS) Trait Evaluation: Implications of Education and Training in Method Application
Micayla C. Spiros, MS*; Sherry Nakhaeizadeh; Ruth M. Morgan, PhD; Tim Thompson, PhD; Joseph T. Hefner, PhD

11:30 a.m. - 1:00 p.m.  A16 Metric and Non-Metric Ancestry Evaluation Analysis of the Craniofacial Region in Greek-Cypriots: A Pilot Study
Madyson R. Stephenson*; Anna S. La Valley, MS; Xenia P. Kyriakou, MA

11:30 a.m. - 1:00 p.m.  A17 Craniomechanical Modularity and Integration: Implications for Ancestry Assessment
Janet E. Finlayson, MA*; Michala K. Stock, PhD

11:30 a.m. - 1:00 p.m.  A18 Re-Evaluating Skeletal Ancestry Traits Using Three-Dimensional Technology
Elisabeth Cuerrier-Richer, MSc*; Tracy Rogers, PhD

11:30 a.m. - 1:00 p.m.  A19 A Comparison of Two Data Collection Methods for the (hu)MANid Program on a Diverse Sample of Mandibles
Paige A. Lynch, MS*; Luis L. Cabo, MS

11:30 a.m. - 1:00 p.m.  A20 Craniometric Variation and FORDISC® Misclassification in Latin American and Asian Individuals
Miriam Rangel, BS*; Kanya Godde, PhD*

11:30 a.m. - 1:00 p.m.  A21 Geographic Origin Estimation of Latin American Individuals Using Craniometric Data
Kari Helgeson, MA*; Kate Spradley, PhD

11:30 a.m. - 1:00 p.m.  A22 The Impact of Error in Femur Subtrochanteric Measurements on the Assessment of Population Affinity
Briana T. New, MA*; Emily S. Silverman, MA; Sabrina C. Título, MA

11:30 a.m. - 1:00 p.m.  A23 Odontometric Variation of Male Skeletal Samples From the United States and South Africa
Dori E. Kenessey, BA*; Tatiana Vleming-Mendieta, MS; G. Richard Scott, PhD; Marin A. Pilloud, PhD

11:30 a.m. - 1:00 p.m.  A24 Influence of Ancestry on Sexual Dimorphism in the Human Mandibular Canine
Britney L. Blevins, MA*

11:30 a.m. - 1:00 p.m.  A25 Human Trafficking: A Challenging Case of Age Assessment
Greta Cena, MD*; Caterina Bosco, MD; Luana Bonaccorso, MD*; Davide Santovito, MD; Sara S. Racalbuto, PsyD; Elena Coppo, MD; Giancarlo Di Vella, MD, PhD*
11:30 a.m. - 1:00 p.m. A26 Age-Old Problems: Using the Pars Basilaris to Estimate Age-At-Death in Non-Adult Individuals
Claire M. Hodson, PhD*; Rebecca Gowland, PhD

11:30 a.m. - 1:00 p.m. A27 Why Cranial Sutures Should be Included in Adult Age-At-Death Estimates
Jessica L. Campbell, PhD*; Stephen P. Nawrocki, PhD

11:30 a.m. - 1:00 p.m. A28 A Comparison of Two Dental Age Estimation Methods Using Transition Analysis (TA)
Kelly R. Kamnikar, MA*; Amber M. Plemmons, MA; Nicholas P. Herrmann, PhD; Jennifer E. Spence, PhD; Yann Heuzé, PhD; Joseph T. Hefner, PhD

11:30 a.m. - 1:00 p.m. A29 The Ability to Obtain Full DNA Profiles From Nail Clippings After Long-Term Storage at Room Temperature Could Impact the Process of Human Identification
Jonah W.P. Stone, BS*; Krista E. Latham, PhD; Cynthia Cale, MS; Stephen P. Nawrocki, PhD; Gay L. Bush, PhD

11:30 a.m. - 1:00 p.m. A30 The Applicability of Intralimb Indices in the Subadult Biological Profile
Elaine Y. Chu, MA*; Kyra E. Stull, PhD

11:30 a.m. - 1:00 p.m. A31 The Application of Non-Destructive Dental Age Estimation (DAE) Methods Using Root Translucency on Latin American Hispanics
Melinda V. Rogers, BS*; Nicholas P. Herrmann, PhD; Kate Spradley, PhD; James P. Fancher, DDS, PhD

11:30 a.m. - 1:00 p.m. A32 Reevaluating the Use of Percentage of Bone for Histological Age Estimations
Mariah E. Moe, MA*; Timothy P. Gocha, PhD

Thursday—Session I

Search and Recovery Protocols and Identification of Victims in Wildfires: Multidisciplinary Perspectives

Moderator: Alison Galloway, PhD
University of California
Santa Cruz, CA

Co-Moderator: Angela L. Harden, MA
The Ohio State University
Columbus, OH

8:30 a.m. - 8:45 a.m. A33 An Overview of the Camp Fire and Wildfire Situation in the West
Colleen F. Milligan, PhD*; Ashley E. Kendell, PhD; Alison Galloway, PhD

8:45 a.m. - 9:00 a.m. A34 Butte County’s Response to the 2018 California Camp Fire
Jennifer Celentano*

9:00 a.m. - 9:15 a.m. A35 Search and Recovery Protocols for Fatal Fire Victims of the 2018 California Camp Fire
Eric J. Bartelink, PhD*; Ashley E. Kendell, PhD; Jacqueline L. Galimany, BS; Karen Gardner, MA; Leigh Hayes; Casey A. Hegel, BA; Vanessa C. Reeves, BA; Alyssa Straub, BA; Maura Timmons, BS; Leah Tray, BA

9:15 a.m. - 9:30 a.m. A36 Forensic Pathology, Identification, Morgue Operations, and Management of the Camp Fire Victims
Kimbelry D. Gin*; Kathy Raven, MD*
9:30 a.m. - 9:45 a.m. A37 Wildfire Search, Recovery, and Identification of Victims: Post-Recovery Anthropological Analysis and Identification  
Lauren Zephro, PhD*; James D. Wood, DDS*; Alison Galloway, PhD

9:45 a.m. - 10:00 a.m. A38 Wildfire Search Protocols and Victim Recovery  
Richard Selden, MD*; Rosemary Turingan Witkowski

10:00 a.m. - 10:15 a.m. Break

10:15 a.m. - 10:30 a.m. A39 Outside Agency Response to the California Camp Fire  
Timothy P. Gocha, PhD*; Kyra E. Stull, PhD*; Marin A. Pilloud, PhD

10:30 a.m. - 10:45 a.m. A40 Demography of the Camp Fire Fatalities  
Samuel A. Mijal, BS*; P. Willey, PhD

10:45 a.m. - 11:00 a.m. A41 Locational Analysis of the Camp Fire Fatalities in Communities and Residences  
Casey A. Hegel, BA*; Samuel A. Mijal, BS

11:00 a.m. - 11:15 a.m. A42 Anthropology and Mass Fatality Management in Wildfire Disasters  
Colleen M. Cheverko, PhD*; Colleen F. Milligan, PhD; Melanie M. Beasley, PhD; Lisa N. Bright, PhD; Shannon J. Clinkinbeard, BA; Leigh Hayes; Jessica Hotaling, BA; Mallory J. Peters, MA; Julia R. Prince-Buitenhuys, MA

11:15 a.m. - 11:30 a.m. Discussion  
Ashley Kendell, PhD

11:30 a.m. - 12:45 p.m. Lunch

Poster Session

11:30 a.m. - 1:00 p.m. A43 The Infant Injury Database  
Miriam E. Soto Martinez, PhD*; Jason M. Wiersema, PhD; Deborah C. Pinto, PhD; Julie M. Fleischman, PhD; Christian Crowder, PhD; Jennifer C. Love, PhD; Sharon M. Derrick, PhD; Christopher S. Greeley, MD; Marcella Donaruma-Kwoh, MD; Angela Bachim, MD

11:30 a.m. - 1:00 p.m. A44 Pediatric Posterior Rib Terminus Defects: An Investigation of a Potential Mimic of Traumatic Injury  
Jason M. Wiersema, PhD*; Miriam E. Soto Martinez, PhD; Deborah C. Pinto, PhD; Julie M. Fleischman, PhD; Dwayne A. Wolf, MD, PhD; Aubrie M. Sanchez, MS, MPH

11:30 a.m. - 1:00 p.m. A45 Evaluating Bone Fracture Healing and Variability Across Forensic Samples Using an Anabolic/Catabolic Model of Bone Repair  
Donna C. Boyd, PhD*

11:30 a.m. - 1:00 p.m. A46 Anthropological Examinations of the Hyoid, Thyroid Cartilage, and Cricoid Cartilage in Cases of Possible Neck Trauma  
Christopher W. Rainwater, MS*; Esther H. Choo, BA

11:30 a.m. - 1:00 p.m. A47 Utilizing Reflectance Transformation Imaging (RTI) for the Analysis of Saw Mark Characteristics on Kerf Walls: A Comparison of Traditional Imaging Techniques  
Britny Martlin*; Carolyn Rando, PhD

*Presenting Author
11:30 a.m. - 1:00 p.m. A62 An Assessment of How “Predictive” Human Geolocation Models Perform When Compared to a “Known” Geolocated Human Enamel Data-Set
Momoko Ueda, MA*; Lynne S. Bell, PhD

11:30 a.m. - 1:00 p.m. A63 Subadult Body Mass Estimation From Skeletal Remains: Validation for Femoral Cross-Section Methods in a Contemporary Taiwanese Population
An-Di Yim, MA, MS*; Lyle W. Konigsberg, PhD; Hsiao-Lin Hwa, MD, PhD; Jo-Yu Chen, MD; Hon-Man Liu, MD

11:30 a.m. - 1:00 p.m. A64 A Comparative Analysis of Nasal Profile Estimation Methods for Facial Reconstruction
Dong-Ho Eddie Kim, BSc*; Hankyu Kim; Deog-Im Kim, PhD; Dae-Kyoon Park, MD, PhD; U-Young Lee, MD, PhD; Yi-suk Kim, MD, PhD

11:30 a.m. - 1:00 p.m. A65 The Application of Morphometric and Morphoscopic Features of the Nose in Facial Reconstruction: A Study on a North Indian Population
Tej Kaur, MSc*; Bahadur Singh, MSc; Kewal Krishan, PhD; Adarsh Kumar, MD

11:30 a.m. - 1:00 p.m. A66 Nose Approximation From Cone-Beam Computed Tomography (CBCT) Using a New Computer-Assisted Method
Alison F. Ridel, PhD; Fabrice Demeter, PhD; Ericka N. L'Abbe, PhD*; Dirk Vandermeulen, PhD; Anna C. Oettle, PhD

11:30 a.m. - 1:00 p.m. A67 The First Recovery and Identification Project of Missing Casualties in the Korean Demilitarized Zone (DMZ)
Yu Ryang Jang, PhD*; Nahyok Im, PhD

11:30 a.m. - 1:00 p.m. A68 Historical and Cultural Complications of Repatriating Forensic “Cases” in the Southeastern United States
Alice F. Gooding, PhD*; Jonathan Eisenstat, MD

11:30 a.m. - 1:00 p.m. A69 Skeletal Preparation Using a Modified Steam Kettle: A Fast, Easy, and Low-Maintenance Method for Processing Human Remains
Kerianne Armelli, MS*; Jered B. Cornelison, PhD; Carolyn V. Isaac, PhD

11:30 a.m. - 1:00 p.m. A70 Salary, Wage Transparency, and Forensic Anthropology
Nicholas V. Passalacqua, PhD*; Elaine Y. Chu, MA; Marin A. Pilloud, PhD

11:30 a.m. - 1:00 p.m. A71 Learning From Our Casework: The Forensic Anthropology Database for Assessing Methods Accuracy (FADAMA)
Cris E. Hughes, PhD*; Chelsey A. Juarez, PhD; Katharine Chapman Pope, MA; Brian F. Spatola, MA

11:30 a.m. - 1:00 p.m. A72 3D Slicer as a Tool for Creating Virtual Bone Models From Computed Tomography (CT) Data: Toward Validating a Step-By-Step Method
Madeline H. Robles, MS, MRes*; Rachael M. Carew, MSc; Ruth M. Morgan, PhD; Carolyn Rando, PhD

11:30 a.m. - 1:00 p.m. A73 Gerdy’s Tubercle Shape and Associated Biomechanical Factors
Hailey Collord-Stalder, BA*; Nathan Blair, BS*

11:30 a.m. - 1:00 p.m. A74 Fatal Shotgun Trauma to the Cranium With Discrimination Between Manners of Death
Samantha W. Coberly, MA*
Issues Surrounding Human Rights and Migration

Moderator: Krista E. Latham, PhD
University of Indianapolis
Indianapolis, IN

Co-Moderator: Brittany S. Walter, PhD
Defense POW/MIA Accounting Agency
Identification Laboratory
Offutt Air Force Base, NE

12:45 p.m. - 1:00 p.m. A75 Comparing Dental Indicators of Developmental Stress in Unidentified Migrant Remains to Narratives From Living Migrants: A Cross-Disciplinary Approach
Lauren G. Koutlias, MA*; Michelle D. Hamilton, PhD; Diana Newberry, MA; Nicholas P. Herrmann, PhD; Kate Spradley, PhD

1:00 p.m. - 1:15 p.m. A76 Impacts of Biosocial Environment on Developmental Plasticity Among Unidentified Presumed Migrant Skeletal Remains Recovered Along the United States-Mexico Border
Caroline Znachko, MA*; Michelle D. Hamilton, PhD; Bruce E. Anderson, PhD; Kate Spradley, PhD; James Watson, PhD

1:15 p.m. - 1:30 p.m. A77 The Use of Paid Informants in Post-Conflict Human Rights Contexts
Hugh H. Tuller, MA*; Popi Chrysostomou, MSc

1:30 p.m. - 1:45 p.m. A78 The Use of an Integrated Multidisciplinary Approach to Resolve Non-Identified Human Skeletal Remains in Cyprus
Aikaterini Papaioannou, MS*; Popi Chrysostomou, MSc; Gulbanu K. Zorba, MS; Mine Balman, MS

1:45 p.m. - 2:00 p.m. A79 What Happens to Unidentified or Unclaimed Human Remains Within the Contexts of Five Asian Medicolegal Systems?
Sherry C. Fox, PhD*; Laurel Clegg, MSc; Lay See Khoo, PhD; Rijen Shrestha, MD; Alex Starkie; Panjai Woharndee, MD, PhD

2:00 p.m. - 2:15 p.m. A80 Antemortem Data Collection in West Africa as Part of the Effort to Identify Deceased Migrants: A Humanitarian Dilemma
Laurel Clegg, MSc*; Carolina Pagnini, MD; Derek C. Benedix, PhD; Ivett Kovari, PhD; Bilal Sablouh, MD; Jose P. Baraybar, MSc, PhD

2:15 p.m. - 2:30 p.m. Break

Diversity and Inclusion Symposium—Humanitarian Concerns in Migration: Conflict, Climate, and Ethics

Moderator: Martha Nuño Diaz, MA
University of California, Berkeley
Davis, CA

Co-Moderator: Davette N. Gadison, MA
Tulane University
Department of Anthropology
New Orleans, LA

2:30 p.m. - 2:45 p.m. A81 Climate, Conflict, and Migration—Applications of Forensic Science to Address Humanitarian Issues in a Growingly Complex Global Environment
Oran Finegan, MSc*; Pierre M.M. Gayomarc’h, PhD; Davette N. Gadison, MA

2:45 p.m. - 3:00 p.m. A82 Crossing Borders: Conflict Evolution and Climate Change—The Humanitarian Consequences on Human Migration
Sarah Wagner*

*Presenting Author
3:00 p.m. - 3:15 p.m. A83 Crossing Borders and Conflict: The Complex Circumstances of Those Who Disappear in Armed Conflict and the Simple Duty of Care to Bring Them Home
Laurel Clegg, MSc*; Derek Congram, PhD*

3:15 p.m. - 3:30 p.m. A84 The Role of Civil Society and the State in Transnational Identifications at the United States-Mexico Border
Kate Spradley, PhD*; Courtney C. Siegert, MA; Mercedes Doretti, MA; Robin C. Reineke, PhD; Eduardo Canales, BS; Christine M. Kovic, PhD

3:30 p.m. - 3:45 p.m. A85 Empathy and the Identification of Missing Migrants
Cate E. Bird, PhD*; Jason D.P. Bird, PhD; Jose P. Baraybar, MSc, PhD; Derek C. Benedix, PhD

3:45 p.m. - 4:00 p.m. A86 Assembling a Forensics of Structural Violence
Adam R. Rosenblatt, PhD*

4:00 p.m. - 4:15 p.m. A87 Beyond Identification: Structural Vulnerability and the Investigation of Migrant Deaths
Angela Soler, PhD*; Jared S. Beatrice, PhD; Robin C. Reineke, PhD; Daniel L. Martinez, PhD

4:15 p.m. - 4:30 p.m. A88 Families of the Missing: Forensic Obligations to Families During the Identification Process
Robin C. Reineke, PhD*; Mirza M. Monterroso, MA; Mercedes Doretti, MA; Carmen E. Osorno Solís; Rachel Daniell, MPhil; Eduardo Canales, BS

4:30 p.m. - 4:45 p.m. A89 Revisiting the Concepts of “Race” and “Ancestry” Regarding Missing Migrants in the United States
Justin R. Maiers, MS*; Jonathan D. Bethard, PhD; Chaunesey Clemmons, BA

4:45 p.m. - 5:00 p.m. A90 Policy, Ethics, and the Use of DNA in Migrant Families
Sara H. Katsanis, MS*; Diana J. Madden, MA; Valedie Oray; Jennifer K. Wagner, JD, PhD

5:00 p.m. - 5:15 p.m. A91 Counting the Uncountable: Certification of Deaths in the Borderlands
Veena D. Singh, MD*

5:15 p.m. - 5:30 p.m. Discussion
Adam R. Rosenblatt, PhD

*Presenting Author
**Thursday—Session II**

**Taphonomy and Postmortem Interval**

**Moderator:** Joan A. Bytheway, PhD  
**Co-Moderator:** Summer J. Decker, PhD  

**Sam Houston State University**  
**University of South Florida**  
**Huntsville, TX**  
**Department of Radiology**  
**Morsani College of Medicine**  
**Tampa, FL**

8:30 a.m. - 8:45 a.m.  
**A92 The Detection and Characterization of Human Decomposition Products by Infrared Spectroscopy**  
Afrin Lopa, MS*; Liotta N. Dowdy, MA; David S. Perry, PhD; Timothy Matney, PhD; Linda R. Barrett, PhD; Erin H. Kimmerle, PhD

8:45 a.m. - 9:00 a.m.  
**A93 Geographic Information Software (GIS) Application for Building a Nationally Representative Forensic Taphonomy Database**  
Katherine E. Weisensee, PhD*; Blake Lytle, MS; Patricia Carbajales, MS; Anne Shillinglaw, BS

9:00 a.m. - 9:15 a.m.  
**A94 Why Hasn't the United Kingdom Got a Human Taphonomy Facility (HTF) Yet?**  
Anna Williams, PhD*; Chris Rogers, PhD; John P. Cassella, PhD

9:15 a.m. - 9:30 a.m.  
**A95 Changes in the Cadaver Decomposition Island (CDI) and Soil Chemistry: An 18-Month Time Series for Scavenged and Protected Human Cadavers**  
Jacqueline A. Aitkenhead-Peterson, PhD*; Haeli Kennedy; Jasmine Garcia; Joan A. Bytheway, PhD

9:30 a.m. - 9:45 a.m.  
**A96 The Importance of Taphonomic History When Conducting Histological and Isotopic Analyses on Bone**  
Rebecca Reid, MSc*; Miranda Jans, PhD; Lesley A. Chesson, MS; Rebecca J. Wilson-Taylor, PhD; Gregory E. Berg, PhD

9:45 a.m. - 10:00 a.m.  
**A97 Prediction of Minimum Postmortem Submersion Interval (PMSImin) Based on Eukaryotic Community Succession on Skeletal Remains Recovered From an Aquatic Environment**  
Sala D. Randall, BS*; Claire M. Cartozzo, MS; Tal Simmons, PhD; Jenise Swall, PhD; Baneshwar Singh, PhD

10:00 a.m. - 10:30 a.m.  
**Break**

---

**Data-Driven Strategies for Investigating the Deaths of Missing Migrants**

**Moderator:** Kate Spradley, PhD  
**Co-Moderator:** Donovan M. Adams, MS  

**Texas State University**  
**University of Nevada, Reno**  
**San Marcos, TX**  
**Reno, NV**

10:30 a.m. - 10:45 a.m.  
**A98 Quantifying Missing Migrant Antemortem Data and Their Identification Significance**  
Mercedes Doretti, MA*; Carmen E. Osorno Solis; Karla Hernandez Mares, MA; Laura Eliz Alexa Sevilla Maldonado; Rachel Daniell, MPhil

*Presenting Author
ANTHROPOLOGY

10:45 a.m. - 11:00 a.m.  A99  DNA Identifications of Migrant Remains at the Pima County, Arizona, Office of the Medical Examiner (2000-2019)
Caitlin C.M. Vogelsberg, PhD*; Robin C. Reineke, PhD; Mirza M. Monterroso, MA; Jennifer M. Vollner, PhD; Bruce E. Anderson, PhD

11:00 a.m. - 11:15 a.m.  A100  Investigating Unidentified Migrant Remains Across Texas Jurisdictions: An Analysis of Positive Identifications by Operation Identification at Texas State University
Molly A. Kaplan, BA*; Molly Miranker, MA; Kate Spradley, PhD; Courtney C. Siegert, MA; Chloë P. McDaneld, MA

11:15 a.m. - 11:30 a.m.  A101  The Application of Geographic Information Systems (GIS) to the Migrant Crisis in South Texas: Modeling Migration in Brooks County, Texas
Courtney C. Siegert, MA*; Sophia Mavroudas, MA; Devora S. Gleiber, MA; Nicholas P. Herrmann, PhD; Kate Spradley, PhD

11:30 a.m. - 11:45 a.m.  A102  NamUs Location Data: Cluster Analysis of Migrant Deaths at the Texas-Mexico Border From 1990 to 2017
Molly Miranker, MA*; Alberto Giordano, PhD

11:45 a.m. - 12:00 p.m.  Discussion
Dawnie Wolfe Steadman, PhD

12:00 p.m. - 1:00 p.m.  Lunch

Puerto Rico: Crossing Regional, Discipline, and Cultural Borders to Strengthen a Criminal Justice System

<table>
<thead>
<tr>
<th>Time</th>
<th>Session</th>
</tr>
</thead>
</table>
| 1:00 p.m. - 1:15 p.m. | A103  Operational and Leadership Assessment During the Puerto Rico Forensic Science Project: How the American Society of Crime Laboratory Directors (ASCLD) Lab Directors, National Association of Attorneys General (NAAG) and Forensic Scientists Assisted the Puerto Rico Laboratory After Hurricane Maria  
Matthew J. Gamette, MS*; Amie Ely, JD* |
| 1:15 p.m. - 1:30 p.m. | A104  Puerto Rico Forensic Science Project: The Puerto Rico Forensic Services Perspective  
Matthew J. Gamette, MS* |
| 1:30 p.m. - 1:45 p.m. | A105  Infrastructure, Organization, and Challenges of the Puerto Rico Medical Examiner System  
Danny A. Milner, Jr., MD, MSc* |
| 1:45 p.m. - 2:00 p.m. | A106  Decedent Tracking: A Need for an Accurate Headcount in the Medical Examiner’s Office  
Jennifer C. Love, PhD* |
| 2:00 p.m. - 2:15 p.m. | A107  Challenges and Lessons Learned From Having an External Expert Step Into the DNA Laboratory  
Ray Wickenheiser, DPS*; Mariel Candelario Gorbea, MSFS* |
| 2:15 p.m. - 2:30 p.m. | A108  The American Board of Forensic Anthropology (ABFA) Response to the Puerto Rico Bureau of Forensic Sciences (BFS): Partnering With the National Association of Attorney’s General and the American Society of Crime Laboratory Directors  
Dana Austin, PhD*; Maria Teresa A. Tersigni-Tarrant, PhD* |
Crossing Borders: International and Multidisciplinary Applications of Isotope Analysis in Forensic Anthropology

Moderator: Saskia Ammer, MSc
Munich, GERMANY

Co-Moderator: Janet E. Finlayson, MA
C.A. Pound Human Identification Laboratory
University of Florida
Gainesville, FL

3:15 p.m. - 3:30 p.m. A109 Assessing Isotope Data Comparability: An Example From the Application of Isotope Testing to Unidentified Human Remains From Past Conflicts
Lesley A. Chesson, MS*; Amelia J. Edwards, MS; Eric J. Bartelink, PhD; Thuan H. Chau, MS; Gregory E. Berg, PhD

3:30 p.m. - 3:45 p.m. A110 Using Stable Nitrogen Isotope Ratios From Fly Larvae for Postmortem Interval (PMI) Estimation
Melanie M. Beasley, PhD*; Julie Lesnik, PhD; Hayden McKee, MSc; Anielle Duncan, BA; Dawnie W. Steadman, PhD

3:45 p.m. - 4:00 p.m. A111 Crossing Borders: International and Multidisciplinary Applications of Isotope Analysis in Forensic Anthropology
Gabriela B. Nardoto*; Luiz Antonio Martinelli

4:00 p.m. - 4:15 p.m. A112 Isotopic Analyses of New York City’s Unidentified Individuals: Differentiating Migrants From Local Residents in a Multicultural Metropolitan Context
Rhonda L. Quinn*; Helen S. Alesbury, MA; Angela Soler, PhD; Ligia E. Ceja, BS; Linda Godfrey, PhD; Jacob B. Setera

4:15 p.m. - 4:30 p.m. A113 Isotope Analysis in Modern Colombian Teeth: A Forensic Application
Daniel Castellanos, MA*; Elizabeth A. DiGangi, PhD; Jonathan D. Bethard, PhD*; George D. Kamenov, PhD

4:30 p.m. - 4:45 p.m. A114 Examining Stable Isotope Ratios From Victims of the Internal Armed Conflict in Peru (1980s-2000) to Establish Local or Non-Local Geographic Origins: A Preliminary Analysis of the Victims of the Military Base Los Cabitos, Ayacucho, Peru
Tiffiny A. Tung, PhD*; Natasha P. Yang, BS; Roberto C. Parra, MA; Martha R. Palma Malaga, MG

4:45 p.m. - 5:00 p.m. A115 Spatial Distributions of Isotope Ratios in Tap Water, Hair, and Teeth From Latin America for Region of Origin Predictions of Unidentified Border Crossers
Saskia Ammer, MSc*; Eric J. Bartelink, PhD*

5:00 p.m. - 5:15 p.m. A116 Considerations for Isotope Analysis of Human Hair: The Impact of Postmortem Environmental Exposure
Tiffany B. Saul, PhD*; Lesley A. Chesson, MS; Dawnie W. Steadman, PhD; Daniel J. Wescott, PhD; Gwyneth W. Gordon, PhD

5:15 p.m. - 5:30 p.m. Discussion
Eric J. Bartelink, PhD; Glen P. Jackson, PhD

Friday

Trauma Analysis

Moderator: Vicki Wedel, PhD  
Western University of Health Sciences  
Pomona, CA  
Co-Moderator: Sidney Thompson, BA  
Indianapolis, IN

8:30 a.m. - 8:45 a.m.  A117 Differentiating Handsaw Tooth Shape Based on the Analysis of the Kerf Floor Contour  
Alexandra R. Klales, PhD*; Ashley B. Maxwell, PhD; Erin Chapman, PhD

8:45 a.m. - 9:00 a.m.  A118 Forensic Fractography of Bone Using Computed Tomography (CT) Scans  
Angi M. Christensen, PhD*; Summer J. Decker, PhD

9:00 a.m. - 9:15 a.m.  A119 The Application of Fractography in Trauma Analysis of Complex Long Bone Fractures  
Mariyam I. Isa, MA*; Todd W. Fenton, PhD; Lillian Antonelli; Patrick E. Vaughan, MS;  
Feng Wei, PhD

9:15 a.m. - 9:30 a.m.  A120 The Repository of Antemortem Injury Response (REPAIR): An Invaluable Online Resource for Known Age Fractures for Comparison and Research  
Carolyn V. Isaac, PhD*; Jered B. Cornelison, PhD; Joseph A. Prahlow, MD

9:30 a.m. - 9:45 a.m.  A121 Variation in Human Rib Failure Mechanisms in Experimental Anterior-Posterior Loading  
Angela L. Harden, MA*; Yun-Seok Kang, PhD; Akshara Sreedhar, BS; Amanda M. Agnew, PhD

9:45 a.m. - 10:00 a.m.  A122 Rib Fractures: An Experimental Approach to Identifying Intrinsic Sources of Variability  
Amanda M. Agnew, PhD*; Angela L. Harden, MA; Akshara Sreedhar, BS; John H. Bolte, PhD;  
Yun-Seok Kang, PhD

10:00 a.m. - 10:15 a.m.  Break

Biological Profile

Moderator: Debra Prince Zinni, PhD  
Defense POW/MIA Accounting Agency  
Joint Base Pearl Harbor-Hickam, HI  
Co-Moderator: Victoria M. Dominguez, PhD  
Lehman College  
City University of New York  
Bronx, NY

10:15 a.m. - 10:30 a.m.  A123 Histological Age Estimation of the Femur Using Random Forest Regression  
Michael W. Kenyhercz, PhD*; Christian Crowder, PhD;Victoria M. Dominguez, PhD

10:30 a.m. - 10:45 a.m.  A124 Longitudinal Variation in Skeletal and Dental Development  
Anna L.M. Rautman, MS*; Heather J.H. Edgar, PhD

10:45 a.m. - 11:00 a.m.  A125 Subadult Age Estimation Using a Mixed Cumulative Probit and Its Application in KidStats  
Kyra E. Stull, PhD*; Michael H. Price, PhD; Louise K. Corron, PhD; Elaine Y. Chu, MA

11:00 a.m. - 11:15 a.m.  A126 Conditional Independence and Appropriate Number of Stages in Juvenile Dental Age Estimation  
Valerie Sgheiza, MA*
11:15 a.m. - 11:30 a.m.  A127  Dental Morphology as a Key to Understanding the Population History of Latinos  
Rebecca L. George, MA*

11:30 a.m. - 11:45 a.m.  A128  Cranial Feminization Surgery Methods and Osteological Identification of Post-Operative Individuals  
Laura E. Cirillo, MA*; Jordan C. Deschamps-Braly, MD; Kyra E. Stull, PhD; Marin A. Pilloud, PhD

11:45 a.m. - 1:00 p.m.  Lunch

**Poster Session**

11:30 a.m. - 1:00 p.m.  A129  A Classification System of Thermal Damage to Human Remains  
Elayne J. Pope, PhD*; Alison Galloway, PhD*; Chelsey A. Juarez, PhD*

11:30 a.m. - 1:00 p.m.  A130  Quantitative Ancient and Forensic DNA Techniques for Maximum DNA Recovery From Thermally Altered Bones and Teeth  
Matthew V. Emery, PhD*; Katelyn L. Bolhofner, PhD; Stevie Winingear, MA; Robert F. Oldt, BS; Sreetharan Kanthaswamy, PhD; Jane E. Buikstra, PhD; Laura C. Fulginiti, PhD; Anne Stone, PhD

11:30 a.m. - 1:00 p.m.  A131  Assessing DNA Quality and Quantity From Cadaveric Blood Stored on Untreated Blood Cards: The Impact on Short Tandem Repeat (STR) Quality and the Utility of Variably Amplified Markers for the Individual Estimation of Trihybrid Ancestry and Admixture Proportions  
Frankie L. West, PhD*; Bridget F.B. Algee-Hewitt, PhD

11:30 a.m. - 1:00 p.m.  A132  Postmortem Submersion Interval (PMSI) Estimation From the Microbiome of Bone in a Freshwater River  
Claire M. Cartozzo, MS*; Baneshwar Singh, PhD; Jenise Swall, PhD; Tal Simmons, PhD

11:30 a.m. - 1:00 p.m.  A133  The Influence of Water Current on the Rate and Pattern of Decomposition  
Natalie Mirosh*; Vivienne G. Heaton, PhD; Jamie K. Pringle, PhD; Kristopher D. Wisniewski, PhD

11:30 a.m. - 1:00 p.m.  A134  Macroscopic Analysis and Scanning Electron Microscopy (SEM) of Immature Permanent Molars Immersed in Hydrochloric Acid (HCL, 38%)  
Christine Jones, PhD*; Tammy Bracewell, PhD*

11:30 a.m. - 1:00 p.m.  A135  A Paired Comparison of the Rate and Pattern of Decomposition in Small- and Large-Bodied Human Cadavers  
Gretchen R. Dabbs, PhD*; Christiane I. Baigent, MSc

11:30 a.m. - 1:00 p.m.  A136  The Differential Rate of Human Decomposition in an Enclosed Vehicle Compared to an Outdoor Environment  
West West, BS; Hannah Cervenka, BS; Haeli Kennedy*; Joan A. Bytheway, PhD

11:30 a.m. - 1:00 p.m.  A137  Location, Location, Location: Environmental Variation and Human Decomposition in Knoxville, Tennessee  
William D. Cawley, MA*; Derek A. Boyd, MA

*Presenting Author
A Preliminary Decomposition Study Within the Willamette Valley (WV) of Oregon: Multi-Method Comparison and Sharp Force Trauma Effects

Cheyenne Collins*; Jeanne McLaughlin, PhD; Frances J. White, PhD

Evaluating the Application of Multiple Postmortem Interval (PMI) Estimation Methods in Louisiana

Sophia I. Reck, MA*

Utilizing Metabolomics Toward Time-Dependent Metabolite Monitoring in Different Postmortem Specimens During Human Decomposition

Katharina M. Höland, MS*; Shawn R. Campagna, PhD; Dawnie W. Steadman, PhD; Jennifer M. DeBruyn, PhD; Hayden McKee, MSc; Allison R. Mason, BS; Amanda May, PhD; Thomas Delgado; Sarah Schwing, BA, BS

Bacterial Community Succession: Postmortem Interval (PMI) Estimation of Forensic Anthropological Remains

Randi M. Depp, MS*; Luis L. Cabo, MS; Michael Foulk, PhD

The Effects of Scavenging on a Donor From the Western Carolina University Forensic Osteology Research Station (FOREST)

Christine Bailey, MA*

Coyote Pup Scavenging as Distinct From Adult Behavior: The Potential for Reproductive Patterns to Inform the Estimation of Postmortem Interval

Christiane I. Baigent, MSc*; David E. Kintz, Jr., BS*; Melissa A. Connor, PhD; Gretchen R. Dabbs, PhD

The Patterns of Striped Skunk Scavenging on Human Remains

Alexander J. Smith, BA*; Melissa A. Connor, PhD

Instars and Stripes: The Scavenging Behavior and Taphonomic Contribution of the Striped Skunk

Rachel E. Smith, BS*; Jane Wankmiller, PhD

Out of the Jaws: Identifying Postmortem Alligator (A. mississippiensis) Scavenging on the Human Skeleton

Dayanira Lopez, MS*; Heather A. Walsh-Haney, PhD; Sunil P.A. Hewage

Does Donor Skin Color Affect Total Body Scores (TBSs)?

Crystal L. Crabb, BS*; Megan F. Veltri, BS*

Preliminary Investigations for Documenting Human Skeletal Remains in Obstructed Wooded Environments

Morgan J. Ferrell, BA*; John J. Schultz, PhD; Megan L. McCollum

Refining Data Collection Parameters for the Photogrammetric Documentation of Outdoor Skeletal Scatter Scenes: Considering Ground Surfaces

Megan L. McCollum*; John J. Schultz, PhD; Morgan J. Ferrell, BA

Identification of Bone Using an Alternate Light Source (ALS) in Terrestrial Pedestrian Searches

Sara M. Getz, PhD*; Christian Petersen, PhD; Tanyin Watson
ANTHROPOLOGY

11:30 a.m. - 1:00 p.m. A151 A Retrospective Study of Forensic Fire Searches and Recoveries at Mercyhurst University: 1983-2019
Diana L. Messer, MS*; Andrea Ost, MS; Dennis C. Dirkmaat, PhD

11:30 a.m. - 1:00 p.m. A152 An Evaluation of Mitochondrial DNA Success Rates in a Commingled Assemblage From the Cabanatuan Prisoner of War (POW) Cemetery
Mary S. Megyesi, PhD; Diana L. Messer, MS*; Jessica K. Juarez, PhD; Sarah M. Richer, PhD; Suni M. Edson, MS

11:30 a.m. - 1:00 p.m. A153 Standardizing the Use of Grave Markers for Unidentified Migrant Remains in South Texas Cemeteries
Molly A. Kaplan, BA*; Kate Spradley, PhD; Mercedes Doretti, MA; Eduardo Canales, BS; Christine M. Kovic, PhD; Alberto Giordano, PhD; Nicholas P. Herrmann, PhD; Courtney C. Siegert, MA; Chloé P. McDanel, MA; Molly Miranker, MA; Timothy P. Gocha, PhD

11:30 a.m. - 1:00 p.m. A154 Assessing Fluctuating Asymmetry in the Crania and Lower Limb Bones of Two Modern Populations
Shelby Garza, MA*; Emilie Wiedenmeyer, BA; Kari Helgeson, MA; Kate Spradley, PhD

11:30 a.m. - 1:00 p.m. A155 Migrants, Crime, and Unidentified Bodies: The Wits Human Identification Unit (HIU) Experience
Desiré Brits, PhD*; Maryna Steyn, PhD

11:30 a.m. - 1:00 p.m. A156 A Multidisciplinary Identification Approach of Armed Conflict Victims Exhumed From La Resurrección Cemetery in Granada, Colombia
Alexandra Semma Tamayo, MS*

11:30 a.m. - 1:00 p.m. A157 The Detection of Cancerous Lesions in Skeletal Remains Using Visual Methods and Radiographs
Sara Fatula, BS*

11:30 a.m. - 1:00 p.m. A158 The Characterization of Peri-Mortem Trauma on World War II (WWII) German Pilots
Emeline Verna*; Laetitia Bouniol, MS; Emeline Sperandio, MS; Loic Lalys, PhD; Caroline Costedoat, PhD; Michel Signoli, PhD; Jean-marc Femolant, MS

11:30 a.m. - 1:00 p.m. A159 Photogrammetry Using Multiple Camera Systems of Mass Graves in a Humanitarian Context
Sarah F. Skoropa, BA*; Roland Wessling, MSc

11:30 a.m. - 1:00 p.m. A160 Age-At-Death Estimation Using Dental Cementum Increments: Validation and Limitations
Benoit Bertrand, PhD*; Vadim Mesli, MD; Anne A. Becart, DDS, PhD; Martine Vercauteren, PhD; Valéry C. Hédouin, MD, PhD; Didier Gosset, MD, PhD

11:30 a.m. - 1:00 p.m. A161 Craniofacial Anthropometric Analysis Between the Nose and Nasal Aperture Utilizing 3D Computed Tomography (CT) Scanned Images From Korean Subjects
Joon Yeol Ryu*; Won-Joon Lee, MD

11:30 a.m. - 1:00 p.m. A162 The Determination and Prevalence of Non-Forensic Specimens in an Unidentified Collection at the Georgia Bureau of Investigation (GBI)
Christopher M. Goden, BS*; Alice F. Gooding, PhD

*Presenting Author

Poster Session

11:30 a.m. - 1:00 p.m.  B1  Complex DNA Mixture Analysis: Massively Parallel Sequencing (MPS) of Rare Single Nucleotide Polymorphisms (SNPs)
Martha Petrovick, PhD*; Natalie Damaso, PhD; Tara Boettcher, BS; Josh Dettman, PhD; Darrell O. Ricke, PhD; Philip Fremont-Smith, MS; Kyleen E. Elwick, PhD; Mark F. Kavlick, PhD; James M. Robertson, PhD; Eric Schwoebel, PhD

11:30 a.m. - 1:00 p.m.  B2  Implementing Hematoxylin Into Casework at the North Carolina State Crime Laboratory
Lindsey Admire, MS*; Kristen Crawford, MS; Melanie Carson, BS; Samantha McDonald, BS; David M. Freehling, BS

11:30 a.m. - 1:00 p.m.  B3  The “Secondary Burial” in Southern Italy: How Traditional Funerary Practices Affect DNA Preservation in Forensic Human Identification
Ciro Di Nunzio, PhD*; Michele Di Nunzio*; Aldo Di Nunzio*; Pietrantonio Ricci, PhD; Matteo Borrini, PhD*

11:30 a.m. - 1:00 p.m.  B4  The Student Experience in Participating in a Collaborative Exercise for Methylation-Based Body Fluid Identification
Carly E. Mills, BS*; Yijian Cao, BSc; Daniele S. Podini, PhD; Hwan Young Lee, PhD

11:30 a.m. - 1:00 p.m.  B5  A Student Experience Evaluating the Ability of a Methylation-Based Age Prediction Model to Be Implemented in the Forensic Laboratory as Part of a Collaborative Study
Yijian Cao, BSc*; Carly E. Mills, BS*; Hwan Young Lee, PhD; Daniele S. Podini, PhD

11:30 a.m. - 1:00 p.m.  B6  A Comparison of InnoQuant® and Quantifiler® Trio as Quantification/Degradation Methods for Predicting Next Generation Sequencing (NGS) Success
Jessica M. McLamb, MS; Natalie Damaso, PhD; James M. Robertson, PhD*

11:30 a.m. - 1:00 p.m.  B7  Further Evaluation of a Dry Vacuuming Technique for Recovery of DNA From Handwritten Documents
Christian Hopkins, BS; Patrick McLaughlin, BS; Mechthild K. Prinz, PhD*

11:30 a.m. - 1:00 p.m.  B8  Eye and Skin Color Identity Single Nucleotide Polymorphisms (SNPs) Screening Using Polymerase Chain Reaction (PCR) High Resolution Melt (HRM) Assays
Lakin Prescott*; Farah Narmouq*; Kelly M. Elkins, PhD

11:30 a.m. - 1:00 p.m.  B9  Assessing Potential Inhibitory Effects of Personal Lubricant on the Ability to Detect Biomarkers Consistent With Semen, Saliva, and Vaginal Fluid
Catherine O. Brown, MSFS*; Heather E. McKiernan, PhD; Phillip Danielson, PhD; Kevin M. Legg, PhD

11:30 a.m. - 1:00 p.m.  B10  Developing a Forensically Relevant Single-Cell Interpretation Strategy for Human Identification
Amanda J. Gonzalez, MS*; Harish Swaminathan, PhD; Ken Duffy, PhD; Catherine M. Grgicak, PhD

11:30 a.m. - 1:00 p.m.  B11  High-Throughput and Simultaneous Analysis of 12 Cannabinoids in Hemp Oil Using Liquid Chromatography With Ultraviolet (LC-UV) Detection
Liguo Song, PhD*; Shashi B. Pathipaka, MS; James D. Leese, BS; Madison Chao, BS; Tranellie Collins, BS; John P. Westein, BS

*Presenting Author
Presenting Author 

11:30 a.m. - 1:00 p.m.  B12  Cannabinoid Content in Commercially Available Oils
Tiffany M. Matyja*, Kenyon M. Evans-Nguyen, PhD; John Struss, PhD

11:30 a.m. - 1:00 p.m.  B13  The Detection and Identification of Synthetic Cathinones by Portable Nano-Liquid Chromatography (Nano-LC) With Dual Wavelength Ultraviolet (UV) Detection
Marisa C. May, BS*; David C. Pavone, BS; Ira S. Lurie, PhD

11:30 a.m. - 1:00 p.m.  B14  Retrofitting Massively Parallel Sequencing (MPS) for HLA-DQA1 and Polymarker (PM) in Forensic Casework
Audrey V. Hoyle, BS*; Erin Weaver, BS*; Fabio Oldoni, PhD; Robert Lagacé, BS; Daniele S. Podini, PhD

11:30 a.m. - 1:00 p.m.  B15  A Method Development for Analyzing 17 Benzodiazepines and Metabolites Used in Crimes Using Solid Phase Extraction-Tandem Mass Spectrometry
Vadoud Niri, PhD*; Kimberly E. LaGatta, BS; Michaela Gysbers; Taylor Maslin; Shokouh Haddadi, PhD

11:30 a.m. - 1:00 p.m.  B16  “Free Range” Gunshot Primer Residue: A Study on Multiple Transfers of Gunshot Primer Residue
Christopher P. Chany, MS*; Thomas R. White, BS; Stephanie A. Freiwald, BS

11:30 a.m. - 1:00 p.m.  B17  Ambient Ionization Mass Spectrometry (AMS): A New Forensic Tool for Adhesive Tape Evidence Discrimination
Maureen E. Oliva, BS*; Yinglei Pu, BS; Dong Zhang, BS; Gerardo Gamez, PhD

11:30 a.m. - 1:00 p.m.  B18  Supplementary Viewing Techniques of Gunshot Residue (GSR) Utilizing Infrared (IR) and Fluorescence
Christopher L. Ardell, BS*; Zachary E. Weitzel, BS; Charles A. Smith, BS; Amanda L. Bazzanini, MS

11:30 a.m. - 1:00 p.m.  B19  The Development of a Rapid, Reliable Detection Method for Synthetic Cathinones
Mario O. Vendrell-Dones, BS*, Chiara Deriu, MS; Ling Wang, MS; Bruce R. McCord, PhD

11:30 a.m. - 1:00 p.m.  B20  A Validation Study of the Synthetic Cannabinoid 5-Fluoro PB-22
Trista Gray, BS*; Erin Shonsey, PhD

11:30 a.m. - 1:00 p.m.  B21  Metabolism of Furanylfentanyl in Fresh Human Hepatocytes: Detection and Confirmation of Furan Ring-Opened Carboxylic Acid Metabolite
Tatsuyuki Kanamori*; Yuki Okada, MS; Hiroki Segawa, PhD; Tadashi Yamamura, PhD; Kenji Kuwayama, PhD; Kenji Tsujikawa, PhD; Yoko Togawa Iwata, PhD

11:30 a.m. - 1:00 p.m.  B22  An Analysis of Smokeless Powders, Smokeless Powder Residues, and Pyrolysis Products by Gas Chromatography/Mass Spectrometry (GC/MS)
Emily C. Lennert, BS*; Candice Bridge, PhD

11:30 a.m. - 1:00 p.m.  B23  An Analysis of Test Exemplar Techniques in Relation to Footwear Examinations
Ismail M. Sebetan, MD, PhD*; Paul Stein, PhD*; Amy Laabs, MFS*

11:30 a.m. - 1:00 p.m.  B24  Magneto-Archimedes Levitation (MagLev) Separation of Drugs
Joe Bozenko, MSc*; Christoffer K. Abrahamsson, PhD; Michael J. Fink, PhD; Amit Nargarkar, PhD; Dan Preston, PhD; Shencheng Ge, PhD; George Whitesides, PhD

11:30 a.m. - 1:00 p.m.  B25  An Investigation Into the Use of Amino Acid Ratios to Distinguish Between the Hairs of Similar Individuals
Allison M. Macri*; Alyssa L. Marsico, PhD

*Presenting Author
11:30 a.m. - 1:00 p.m.  **B26**  A Comparison of Area of Origin Determination of Impact Spatter From Vertical and Horizontal Surfaces  
*Presenting Author* Alexis P. Johnson, BA*; Michael J. Van Stratton, BS; Melissa M. Bailey, PhD

11:30 a.m. - 1:00 p.m.  **B27**  An Analysis of Organic and Inorganic Gunshot Residues (OGSR and IGSR) Via Electrochemical Methods With Screen-Printed Carbon Electrodes and Nanoparticle Modifications  
Colby E. Ott, MS*; Pedro Calderón-Arce, MS; Korina Menking-Hoggatt, MS; Courtney H. Vander Pyl, MS; Ana L. Alvarado-Gámez, PhD; Tatiana Trejos, PhD; Luis E. Arroyo, PhD

11:30 a.m. - 1:00 p.m.  **B28**  The Utilization of Classical Forensic Methods in the Study and Preservation of Human History and Cultures, the Conservation and Restoration of Objects of Art and Artifacts, as Well as the Detection of Art Fraud and Counterfeiting  
Nicholas Petraco, MS*; Mary Eng, BS

11:30 a.m. - 1:00 p.m.  **B29**  The Chemical Composition of Gunshot Residue (GSR) of Commonly Encountered Samples in Shooting Events in Kosovo by an Optimized and Validated Scanning Electron Microscopy With Energy Dispersive X-Ray Spectroscopy (SEM/EDS) Method  
Milazim Tahirukaj*; Blerim Olluri, PhD*; Andriana Surleva

11:30 a.m. - 1:00 p.m.  **B30**  The Effect of pH on Presumptive Forensic Serological Testing  
Ariel B. Smart, BS*; Kimberlee Sue Moran, MSc; Ja’Neisha Hutley, MS; Stephanie L. Murphy, PhD

11:30 a.m. - 1:00 p.m.  **B31**  Analyzing Gamma-Hydroxybutyrate (GHB) by Fourier Transform Infrared Spectroscopy (FTIR) With Minimal Sample Preparation  
Anna Stuteville*; Lauren L. Richards-Waugh, PhD; Samantha M. Leach, MS; Morgan M. Levitas, MFS; Luke C. Short, PhD

---

**Thursday—Session I**

**Sample Collection**

*Moderator:* Janine Kishbaugh, MS  
*Cedar Crest College*  
*Allentown, PA*

8:30 a.m. - 8:45 a.m.  **B32**  Presumptive Test Compatibility With Efficient DNA Collection Swabs  
Bruce Budowle, PhD*

8:45 a.m. - 9:00 a.m.  **B33**  A Comparison of DNA Typing Success in Compromised Blood and Touch Samples Based on Sampling Swab Composition  
Ciara Rhodes; Memunatu J. Koroma, BS; Brittany C. Hudson, MS; Nubaha Islam, BS; Haris Muki, BS; Tracey Dawson Cruz, PhD; Robert A. Bever, PhD; Sarah J. Seashols Williams, PhD*

9:00 a.m. - 9:20 a.m.  **B34**  A Comparison of DNA Profiles Recovered From Cotton Versus Nylon-Flocked Swabs From Postcoital Cervicovaginal Samples  
Kathleen M. Maguire, BS*; Janine Kishbaugh, MS; Jillian Conte, PhD; Lawrence Quarino, PhD

*Presenting Author*
9:20 a.m. - 9:35 a.m.  B35  Direct Polymerase Chain Reaction (PCR) Using MicroFLOQ® Direct Swabs With a Modified QIAGEN® Investigator 24plex GO! Protocol From Decomposing Human Remains for Disaster Victim Identification (DVI) Applications  
Coral K. Loockerman, MS; Sheree R. Hughes, PhD; Rachel M. Houston, PhD*

9:35 a.m. - 9:55 a.m.  B36  Criminalists at the Crime Scene: Where Do They Come From and Where Can They Go?  
Rebecca E. Bucht, PhD*; Michelle D. Miranda, PhD*; Claude Roux, PhD*; Sheila Willis, PhD*

9:55 a.m. - 10:10 a.m.  Break

**Body Fluids and Screening**

**Moderator:** Sabrina S. Seehafer, PhD  
Ankeny, IA

10:10 a.m. - 10:25 a.m.  B37  The Utilization of Sex Hormone Antibodies for Screening and Separation of Trace Biological Mixtures  
Kristin Jones, BS*; Susan Greenspoon, PhD; Christopher J. Ehrhardt, PhD

10:25 a.m. - 10:40 a.m.  B38  Classification of Body Fluid Source in Dried Samples Using a Panel of MicroRNAs (miRNAs)  
Ciara Rhodes*; Annabelle C. Campbell, BSc; Carolyn Lewis, BS; Tracey Dawson Cruz, PhD; Edward Boone, PhD; Sarah J. Seashols Williams, PhD

10:40 a.m. - 11:00 a.m.  B39  A Determination of the Optimal Method for the Detection of Vaginal Fluid  
Melissa Rogers*; Lawrence Quarino, PhD; Amrita Lal-Paterson, MSFS; Janine Kishbaugh, MS

11:00 a.m. - 11:15 a.m.  B40  Forensic Body Fluid Identification Using Microbiome Signature Attribution Through 18S Recombinant DNA (rDNA) High-Throughput Sequencing  
Alyssa Daniels*; Ines Benaissa, BS; Sarah J. Seashols Williams, PhD; Baneshwar Singh, PhD; Denise Wohlfahrt, BS; Kathleen D. Brim, BS; Eric A. Abshier, MS; Francy S. Nogales, BS; Haris Mukic, BS; Angela L. Brand, MS

11:15 a.m. - 11:30 a.m.  B41  Integration of Microchip Electrophoresis and a Validated Messenger RNA (mRNA) Panel as a Novel Approach to Forensic Body Fluid Identification  
Tiffany R. Layne, MS*; Rachel I. Fleming, PhD; Dion Sheppard, MS; Andrew Sarman, MS; John Bone, BS; James P. Landers, PhD

11:30 a.m. - 12:00 p.m.  B42  Advances in the Development of Portable Surface-Enhanced Raman Spectroscopy (SERS) for Rapid, Sensitive, Confirmatory Identification of Human Body Fluids  
Miranda L. Shaine, BS; Richard S. Andino, PhD; Ranjith Premasiri, PhD; Harrison Ingraham, BS; Amy N. Brodeur, MFS; Lawrence Ziegler, PhD*

11:50 a.m. - 12:00 p.m.  Discussion

12:00 p.m. - 1:00 p.m.  Lunch

*Presenting Author
CRIMINALISTICS

Poster Session

11:30 a.m. - 1:00 p.m.  B43  A Comparison of Short Tandem Repeat (STR) Allelic Recovery Post-Ultraviolet (UV) Damage Utilizing the PreCR® Repair Method: Singleplex Versus Multiplex Polymerase Chain Reaction (PCR) Amplification
Morgan Barrett, BS*; David San Pietro, PhD

11:30 a.m. - 1:00 p.m.  B44  A Comparison of Genotyping Success of Cotton and FLOQ™ Swabs on Casings Using Direct Polymerase Chain Reaction (PCR)
Natalia Czado, MS*; Stephen D. Towery; Yolonda B. Miller

11:30 a.m. - 1:00 p.m.  B45  A Comparison of the Overall Quality and Quantity of DNA Evidence From Fingerprints Collected From Various Substrates Found at Simulated Crime Scenes
Sulekha Coticone, PhD*; Lora Bailey Van Houten, MS*

11:30 a.m. - 1:00 p.m.  B46  An Internal Validation of the ANDE® 6C Rapid DNA Analysis System for Forensic Samples
Krista A. Herrera, BS*; Brandy L. Plean, MS; Ashley N. Henderson, BS; Amy McGuckian, MSFS; Kelly Beatty, MSFS; Julie Conover Sikorsky, MS

11:30 a.m. - 1:00 p.m.  B47  Accelerating DNA Extractions Using a Microwave Toward Increasing the Speed and Success of Rapid DNA Analysis
Steven B. Lee, PhD*; Eric Yan Hung Yu, MS; Kenya Thomas, BS; Georgiana C. Gibson-Daw, PhD; Ling Wang, MS; Dide Boelens, MS; Roberta Mariot, PhD; Meghan N. Roig, MSFS; Mallory Baud, BS; Mirna S. Ghemrawi, MS; Fabiana Taglia; Bruce R. McCord, PhD; Kevin Lothridge, MSc

11:30 a.m. - 1:00 p.m.  B48  Considerations for Database Searching With Siblings
Lisa Sansom, BS*; Melody Josserand, MS; Michael D. Coble, PhD

11:30 a.m. - 1:00 p.m.  B49  Internal Validation of the Applied Biosystems™ RapidHIT™ ID System Using ACE and INTEL Cartridges
Ashley N. Henderson, BS*; Brandy L. Plean, MS; Krista A. Herrera, BS; Amy McGuckian, MSFS; Kelly Beatty, MSFS; Julie Conover Sikorsky, MS

11:30 a.m. - 1:00 p.m.  B50  Performance of Microhaplotype and Short Tandem Repeat (STR) Biomarkers in Mixture Detection and Deconvolution
Fabio Oldoni, PhD*; Drew A. Bader; Chiara Fantinato; Sharon C. Wootton, PhD; Robert Lagacé, BS; Ryo Hasegawa, BS; Joseph P. Chang, BS; Daniele S. Podini, PhD

11:30 a.m. - 1:00 p.m.  B51  Optimization Parameters of Fragmentary Voltage and Collision Energy for the Identification and Separation of 1,3,5-Triamino-2,4,6-Trinitrobenzene (TATB) From Other Explosives With Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS)
Blerim Olluri, PhD*; Milazim Tahirukaj*; Xhemajl Ademaj, PhD*; Herolind Krasniqi*

11:30 a.m. - 1:00 p.m.  B52  Forensic Fiber Analysis by Thermal Desorption/Pyrolysis Direct Analysis in Real Time Mass Spectrometry (TD/Py-DART™-MS)
Mengliang Zhang, PhD*; Jared Frazier; Virginia Benefield

11:30 a.m. - 1:00 p.m.  B53  Preservation of Trace Compounds From Headspace Analysis in Adsorbent Capillaries
Megan Harries, BS; Kavita M. Jeerage, PhD*

11:30 a.m. - 1:00 p.m.  B54  The Sensitivity of Fingermark Color Contrast Between Sexes
Mallory R. Einfalt, BS*; Josep De Alcaraz-Fossoul, PhD; Brooke W. Kamrath, PhD

*Presenting Author
11:30 a.m. - 1:00 p.m.  B69  A Non-Destructive Genomic Analysis of Single Pollen Grains
Luz J. Kelley, MS*; Bryan McCullough; Elizabeth J. Rose, BS; Matthieu Baudelet, PhD; Mauro Martinez Labrador, MPh

11:30 a.m. - 1:00 p.m.  B70  The Enhancement of Human Scent Profiles as Forensic Evidence
Alice B. Boone, BS*; Kenneth G. Furton, PhD; Howard K. Holness, PhD

11:30 a.m. - 1:00 p.m.  B71  Bondage Practices in an Asphyxiation Death: An Accidental Death
Alberto Alongi*; Elvira Ventura Spagnolo, MD*; Gennaro Baldino, MD*; Cristina Mondello, MD; Antonina Argo, PhD

11:30 a.m. - 1:00 p.m.  B72  The Characterization of Volatile Organic Compounds (VOCs) Present in the Headspace of Decomposing Livestock, Fish, and Human Remains
Jisook Min, PhD*; Youngwoong Han; Bohyun Kim; Young-Shin Go; Seh Yeon Park; Sangcheol Heo; Kiwook Kim, MS; Giwon Park

11:30 a.m. - 1:00 p.m.  B73  An Assessment of Elemental Homogeneity in Glass Using Micro-X-Ray Fluorescence Spectroscopy (µ-XRF) and Laser-Induced Breakdown Spectroscopy (LIBS)
Oriana Ovide*; Zachary B. Andrews*; Ruthmara Corzo, PhD; Tatiana Trejos, PhD

11:30 a.m. - 1:00 p.m.  B74  The Identification of the Polymer-Bounded Drugs on the Fabric Surface: A Challenge to the Forensic Drug Analysts
Shahnaz Akhtar, MPhil*; Abdul Razaq, MPhil*; Khalid S. Feras, MPhil*; Muhammad Irfan Ashiq, PhD*; Mohammad A. Tahir, PhD

Sample Prep and Extraction

Moderator: Daniele S. Podini, PhD  Co-Moderator: Katherine B. Gettings, PhD
Department of Forensic Science  National Institute of Standards and Technology
Washington, DC  Gaithersburg, MD

1:00 p.m. - 1:15 p.m.  B75  The Influence of DNA Extraction Methods on the Quantity and Quality of Retained Genetic Material
Brian Kemp*; Kristine G. Beaty, PhD; Brittany L. Bingham, BA; Upuli A. DeSilva; Mary Faith Flores; Cara Monroe; Jodi Lynn Barta, PhD

1:15 p.m. - 1:30 p.m.  B76  Where, Oh Where, Has the DNA Gone?
Kristine G. Beaty, PhD*; Brittany L. Bingham, BA; Upuli A. DeSilva; Mary Faith Flores; Cara Monroe; Jodi Lynn Barta, PhD; Brian Kemp

1:30 p.m. - 1:45 p.m.  B77  Battling the Backlog: A Novel Bioanalytical System for the Separation and Collection of Intact Spermatozoa
Sarah Wright*; Norman Dovichi, PhD

1:45 p.m. - 2:00 p.m.  B78  WITHDRAWN

2:00 p.m. - 2:15 p.m.  B79  The Application of Optical Trapping to Obtain Single-Source Short Tandem Repeat (STR) Profiles From Forensically Relevant Body Fluid Mixtures With Modified DNA Analysis Workflow
Benjamin J. O'Brien, BS*; Michael K. Valle, BS; Nicole A. Auka, MSFS; Tracey Dawson Cruz, PhD; Joseph E. Reiner, PhD; Sarah J. Seashols Williams, PhD

*Presenting Author
CRIMINALISTICS

2:15 p.m. - 2:30 p.m.  B80  The Development and Automation of a Swab In-DNA Out Platform Using Dynamic Solid Phase Extraction (SPE)
Leah M. Dignan, BS*; Kimberly Jackson; Michael Shane Woolf, MS; Christopher J. Tomley, BS; James P. Landers, PhD

2:30 p.m. - 2:45 p.m.  Break

Non-Human DNA

**Moderator:** Andrew J. Schweighardt, PhD  
Northport, NY

**Co-Moderator:** Nasir A. Butt, PhD  
Cuyahoga County Medical Examiner’s Office  
Cleveland, OH

2:45 p.m. - 3:00 p.m.  B81  Developing Investigative Leads and Potential Evidence in Wildlife Crime: Consideration of Human DNA Recovery From Handled Eggs and Birds of Prey Feathers
Katherine L. Wood, MS; Georgina E. Meakin, PhD*

3:00 p.m. - 3:15 p.m.  B82  Pyrosequencing-Based DNA Analysis for Species Identification
Mirna S. Ghemrawi, MS*; Frank Fischinger, MS; Mark Guilliano, PhD; George T. Duncan, PhD; Bruce R. McCord, PhD

3:15 p.m. - 3:30 p.m.  B83  A Short Interspersed Nuclear Element (SINE) -Based Multiplex Quantitative Real-Time Polymerase Chain Reaction (qPCR) Assay for Human-Dog-Cat Species Identification and DNA Quantification
James W. Liang, BS*; Heather G. Miller Coyle, PhD

3:30 p.m. - 3:45 p.m.  B84  Using Environmental DNA (eDNA) and Vertebrate Metabarcoding to Characterize Biological Communities: A New Method for Conservation Genetics and Wildlife Forensics
Hillary L. Eaton, PhD*; Catherine E. Benson, PhD; Matthew J. Valente, MS; Courtney S. Turner-Rathbone, BS

3:45 p.m. - 4:00 p.m.  B85  Human Identity From the Mosquito Midgut Using GlobalFiler™ Express
Mollie S. Comella*; Joann Butkus; Scott Lindner, PhD; Reena Roy, PhD

4:00 p.m. - 4:15 p.m.  B86  Signatures of Suicide in the Human Postmortem Microbiome
Katelyn A. Smiles*; Jennifer L. Pechal, PhD; Carl J. Schmidt, MD; Heather R. Jordan, PhD; M. Eric Benbow, PhD

4:15 p.m. - 4:30 p.m.  B87  The Impact of Environmental Exposure and Chemical Contaminants on Microbial Signature Associated With Forensically Relevant Human Biological Samples
Denise Wohlfahrt, BS*; Francy S. Nogales, BS; Raquel Green, BS; Najai Bradley; Kathleen D. Brim, BS; James P. Brooks, PhD; Sarah J. Seashols Williams, PhD; Baneshwar Singh, PhD

4:30 p.m. - 4:45 p.m.  B88  A Multidisciplinary Effort to Identify the Cat Killer of Silicon Valley
Jeremiah Garrido, BS*; Christina D. Lindquist, MS*; Michelle L. Bell, BA*

4:45 p.m. - 5:00 p.m.  Discussion
**Thursday—Session II**

**Multidisciplinary Session: Criminalistics II & Engineering & Applied Sciences**

**Moderator:** Sandra B. Sachs, PhD  
Oakland Police Department  
Oakland, CA

Friday—Session I

Massive Parallel Sequencing and SNPs

**Moderator:** Season E. Seferyn, MSFS  
Onondaga County Center for Forensic Sciences  
Syracuse, NY

8:30 a.m. - 8:45 a.m. **B104** On the Migration Route: Challenges in the Forensic Application of Massively Parallel Sequencing (MPS) in Human Body Identification  
Lucija Barbaric*, Ivana Horjan, PhD; Adela Makar; Andrea Ledic, MS

8:45 a.m. - 9:00 a.m. **B105** Advances in Microhaplotypes (Microhaps) as a Comprehensive Forensic Marker  
Fabio Oldoni, PhD; Leena Yoon, BS; Aishwaryaa Subramanian; Sathya Prakash Harihar; Drew A. Bader; Sharon C. Wootton, PhD; Robert Lagace, BS; Ryo Hasegawa, BS; Joseph P. Chang, BS; Kenneth Kidd, PhD; Daniele S. Podini, PhD*

9:00 a.m. - 9:15 a.m. **B106** Assessing the Reliability of Single Nucleotide Polymorphism (SNP) Micro-Array Data for Forensic Genealogy  
Robert A. Bever, PhD*; Jon Davoren, MS; Erin Sweeney, MS; Teresa Vreeland, BS; Mike Cariola, MFS

9:15 a.m. - 9:30 a.m. **B107** Multi-Marker Match Statistics: Combining Results Across Sequence-Based Short Tandem Repeat (STR) and Identity Single Nucleotide Polymorphism (SNP) Markers  
Katherine B. Gettings, PhD*; Andreas Tillmar, PhD; Peter M. Vallone, PhD

9:30 a.m. - 9:45 a.m. **B108** An Evaluation of the Illumina® Infinium™ Omni Express Exome Bead Chip for Forensic Testing  
Jon Davoren, MS*; Giovanna M. Vidoli, PhD; Amy Z. Mundorff, PhD

9:45 a.m. - 10:00 a.m. **Break**

Forensic Biology

**Moderator:** Baneshwar Singh, PhD  
Virginia Commonwealth University  
Richmond, VA

10:00 a.m. - 10:15 a.m. **B109** DNA Storage Under Multiple Conditions  
Nicole S. Cusack, BS*; Laksh Malik*; Daniele S. Podini, PhD; Moses S. Schanfield, PhD

10:15 a.m. - 10:30 a.m. **B110** Optimizing an Integrated Workflow for Processing Paper Evidence in a Multidiscipline Crime Laboratory  
Ashley Morgan, MS*; Patrick McLaughlin, BS; Mechthild K. Prinz, PhD

10:30 a.m. - 10:50 a.m. **B111** Data Interpretation Guidelines for Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS) -Based Forensic Proteomics  
Kristin Jarman, PhD*; Eric D. Merkley, PhD; Karen L. Wahl, PhD

10:50 a.m. - 11:05 a.m. **B112** The Identification of Cadaver Liver Tissues Using Postmortem Transcriptome Biomarkers  
Gulnaz T. Javan, PhD*; Sheree J. Finley, PhD; Erin K. Hanson, PhD; Silvia D. Visona, MD; Antonio M.M. Osculati, MD; John Ballantyne, PhD

11:05 a.m. - 11:20 a.m. **Break**

Criminalistics Believe It or Not!

Moderator: Sandra B. Sachs, PhD
Oakland Police Department
Oakland, CA

Co-Moderator: Jason L. Linder, MFS
Nebraska State Patrol
Lincoln, NE

7:00 p.m. - 9:00 p.m.  Criminalistics Believe It or Not!

Please set aside some time Friday evening to join the casual Criminalistics Believe It or Not! session. The evening is intended to be an informal, entertaining, yet informative session; past presentations have regaled crowds with stories of bullets and explosions going awry, investigations of the same, how hair played a pivotal role in a case, unique or historical evidence substrates, koalas, the forensic story of capturing the Golden State Killer, interesting drug submissions, cats at crime scenes, the arc of building a case in court, and dare it be said, poop!

Just like last year, this year’s list of Believe It Or Not! speakers, as well as the subject matter of each presentation, will be kept under wraps until the last minute to keep our attendees in suspense.

After the more serious science has finished for the day, come and listen to your friends and colleagues share stories of their forensic (mis)adventures. If you’ve ever found yourself with nothing to do on the Friday night before the end of the annual meeting, this session is for you!

*Presenting Author
Drugs V

Moderator: Jason L. Linder, MFS
Nebraska State Patrol
Lincoln, NE

10:15 a.m. - 10:30 a.m. B206 The Determination of Total Tetrahydrocannabinol (THC) Concentration in Plant Material Via High Performance Liquid Chromatography With Ultraviolet Visible Diode Array Detection (HPLC-UV DAD)
Stephanie Olofson, MS*; Kaitlin A. Schroeder, MS

10:30 a.m. - 10:45 a.m. B207 High-Performance Thin-Layer Chromatography (HPTLC) Densitometric Analysis of Cannabinoids in Cannabis sativa L.
Yifan Liu*; Thomas A. Brettell, PhD; Matthew R. Wood, PhD; Marianne E. Staretz, PhD

10:45 a.m. - 11:00 a.m. B208 A New Analytical Scheme for the Analysis of Cannabis Plant Material: Marijuana or Hemp?
Sandra E. Rodriguez-Cruz, PhD*

11:00 a.m. - 11:15 a.m. B209 Forty-Plus Ways Not to Analyze Beverages for Cannabinoids
Carl E. Wolf II, PhD*; Hedi L. Brightman, BS; Justin L. Poklis, BS; William J. Korzun, PhD

11:15 a.m. - 11:30 a.m. B210 An Analysis of Illicit Drugs by Portable Ion-Trap Gas Chromatography/Mass Spectrometry (GC/MS)
Leah Rynearson, BS; Zachary Lawton, MS; Meghann McMahon, MS; Pauline E. Leary, PhD*; Koby Kizzire, PhD; Brooke W. Kammrath, PhD

11:30 a.m. - 11:45 a.m. B211 New Psychoactive Substances in Forensic Drug Cases: Crossing the Borders of Gas Chromatography/Mass Spectrometry (GC/MS) Selectivity
Ruben F. Kranenburg, MS*; Arian C. Van Asten, PhD

Saturday—Session II

Trace I

Moderator: Sandra B. Sachs, PhD
Oakland Police Department
Oakland, CA

8:30 a.m. - 8:50 a.m. B212 Implementing Raman Spectroscopy as a Tool to Characterize Sexual Assault Lubricants
Santana A.L. Thomas, PhD*; Nicholas Andersen; Mark Maric, PhD; Candice Bridge, PhD

8:50 a.m. - 9:10 a.m. B213 Assessing the Value of a Physical End Match in Trace Evidence: A Comparison of Human-Based and Computational-Based Approaches
Meghan Prusinowski, MS*; Evie K. Brooks, BS; Pedram Tavadze, MS; Aldo Romero, PhD; Tatiana Trejos, PhD

9:10 a.m. - 9:30 a.m. B214 A Survey of Elements Detected in Automotive Paint Layers by Scanning Electron Microscope/Energy Dispersive X-Ray Spectrometry (SEM/EDS)
Christopher S. Palenik, PhD*; Ethan Groves, BS; Lina Michely, Ph.D; Yu Chen Lim, MS; Skip Palenik, BS

*Presenting Author
9:30 a.m. - 9:50 a.m.  **B215**  Parameter Optimization and Validation for Qualitative Elemental Analysis of Electrical Tape Backings by X-Ray Fluorescence (XRF)
Evie K. Brooks, BS*; Andria H. Mehlretter, MSFS; Susan M. Marvin, PhD; Tatiana Trejos, PhD

9:50 a.m. - 10:00 a.m.  **Break**

Trace II/Thanatochemistry at Scene

**Moderator:** Sandra B. Sachs, PhD
Oakland Police Department
Oakland, CA

10:00 a.m. - 10:20 a.m.  **B216**  A Quantitative Trace Elemental Analysis of Aluminum Materials for Forensic Discrimination
Michelle Jordan*; Christopher P. Saunders, PhD; JoAnn Buscaglia, PhD

10:20 a.m. - 10:40 a.m.  **B217**  Vibrational Spectroscopic Analysis of 3D-Printed Polymers Pre- and Post-Manufacturing
Ryan G. Zdenek*; April Bowen, BS; John A. Reffner, PhD; Maria-Isabel Carnasciali, PhD;
Brooke W. Kammrath, PhD

10:40 a.m. - 11:00 a.m.  **B218**  Non-Destructive Separation of Pollen Grain Constituents for Biochemical Analysis
Bryan McCullough*; Luz J. Kelley, MS; Gerardo Sibaha, BS; Kayley Jenks, BS;
Matthieu Baudelet, PhD; Mauro Martinez Labrador, MPH

11:00 a.m. - 11:20 a.m.  **B219**  Thanatochemistry at the Crime Scene: A Microfluidic Paper-Based Device for Ammonium Analysis in the Vitreous Humor
Giacomo Musile, PhD*; Yvane Agard, MS; Elio De Palo; Ksenia Shestakova, MS;
Federica Bortolotti, PhD, MD; Franco Tagliaro, PhD, MD

*Presenting Author
**Wednesday**

**Poster Session**

11:30 a.m. - 1:00 p.m.  
**C1** The Development of a Cleaning Protocol for Mobile Devices Damaged by Fire  
Caige McCabe, BS*; Josh Brunty, MS; Lauren L. Richards-Waugh, PhD; Dale Mosley

11:30 a.m. - 1:00 p.m.  
**C2** Ear Asymmetry—A Preliminary Evaluation of Identification Accuracy for Forensic Purposes  
Laura Donato*; Al Ozonoff, PhD; Alessandro Di Luca, MD

11:30 a.m. - 1:00 p.m.  
**C3** An Investigation Into the Encoding and Encryption of Black Box Data on a DJI Spark  
Elijah A. Vela*; Josh Brunty, MS; Dale Mosley; Rob Attoe, BS

**Thursday**

**Interfaces: Finding the Borders I**

**Moderator:** Eddy B. Brixen, BA  
ERB-Consult  
Smorum, DENMARK  
**Co-Moderator:** Douglas R. White, MS  
National Institute of Standards and Technology  
Gaithersburg, MD

8:30 a.m. - 8:35 a.m.  
**C4** The Organization of Scientific Area Committees (OSAC) Digital/Multimedia Scientific Area Committee Standards Work—Part 1: Digital Evidence and Video/Imaging Technology and Analysis (VITAL)  
Julie A. Carnes*; Steven B. Watson, BA*; Christina A. Malone, MSFS; Richard Vorder Bruegge, PhD

8:35 a.m. - 8:55 a.m.  
**C5** The Organization of Scientific Area Committees (OSAC) Digital/Multimedia Scientific Area Committee Standards Work—Part 2: Facial Identification and Speaker Recognition  
Lora Sims*; David Brian Marks, MS*; Richard Vorder Bruegge, PhD; Jane Wankmiller, PhD; Steven B. Lee, PhD; Mark Dolfi

9:15 a.m. - 9:35 a.m.  
**C6** On Generic Digital Forensic Readiness  
Martin S. Olivier, PhD*

9:35 a.m. - 9:50 a.m.  
**C7** The National Institute of Standards and Technology (NIST) Scientific Foundation Study for Digital Examiners  
Barbara Guttman, BA*; Mary T. Laamanen, MS*; Craig Russell, MS

9:50 a.m. - 10:00 a.m.  
**Break**

*Presenting Author*
## Implementation: Mobile Borders I

**Moderator:** Tanveer A. Zia, PhD  
**Charles Sturt University**  
**Wagga Wagga, AUSTRALIA**  

**Co-Moderator:** Jason M. Paroff, JD  
**Epiq Systems, Inc**  
**New York, NY**

Identification: Borders of Intelligence I

**Moderator:** Joseph Levi White, MS  
Defense Forensic Science Center  
Forest Park, GA

1:00 p.m. - 1:20 p.m.  **C17** The Application of Artificial Intelligence (AI) in Digital Forensic Science  
Zeno J. Geradts, PhD*

1:20 p.m. - 1:35 p.m.  **C18** Cloth Classification With a Semi-Supervised Generative Adversarial Network (SGAN)  
Jette Korthals Altes, BS; Andrea Macarulla, MSc; Owen Corrigan, PhD; Zeno J. Geradts, PhD*

1:35 p.m. - 1:55 p.m.  **C19** A Wild Manhunt for Stego Images Created by Mobile Apps  
Li Lin*; Wenhao Chen, BS; Stephanie Reinders, BA*; Yong Guan, PhD; Min Wu, PhD; Jennifer Newman, PhD*

1:55 p.m. - 2:10 p.m.  **C20** Control Point Selection for Analysis and Height Measurement From Closed-Circuit Television (CCTV) Images  
Angela Savva, BS; Domenic Raneri, BS; Sebastien Moret, PhD; Philip Maynard, PhD*

2:10 p.m. - 2:30 p.m.  **C21** Using an Orthogonal Fingerprint Matcher to Boost Recognition of Contactless Fingerprints  
Mark A. Walch, MArch, MPH*

2:30 p.m. - 2:40 p.m.  **Break**

Innovation: Borders of Intelligence II

**Moderator:** Yong Guan, PhD  
Iowa State University  
Ames, IA  
**Co-Moderator:** Alex J. Nelson, PhD  
National Institute of Standards and Technology  
Gaithersburg, MD

2:40 p.m. - 2:55 p.m.  **C22** Machine Learning in Data From Crime-Related Mobile Devices: Bidirectional Recurrent Neural Networks for Named-Entity Recognition (NER) in WhatsApp, Instagram™, and Facebook® Messenger Text Conversations  
Matheus S. Oliveira*; Daniel M. Caldas, MS; Thiago P. Faleiros

2:55 p.m. - 3:10 p.m.  **C23** Steganography Detection Using Machine Learning (ML)  
Joshua Ralls*; Shuangteng Zhang, PhD*

3:10 p.m. - 3:20 p.m.  **C24** Digital Forensic Evidence Cracking an Ingenious Murder Cover-Up: Lochner's Principle Re-Validated  
Mohit Chauhan, MBBS, MD, DHM*

3:20 p.m. - 3:30 p.m.  **C25** Quantum Digital Forensics: The Applications of Digital Forensics in a Quantum World  
Suzanne I. Myers*

3:30 p.m. - 3:50 p.m.  **C26** Applications of a Convolutional Neural Network (CNN) for Automatic Classification of Outsole Features  
Miranda R. Tilton, MS*; Susan VanderPlas, PhD

3:50 p.m. - 4:00 p.m.  **Break**
Inspiration: Beyond the Borders

Moderator: Andrew N. Crouse, BA
Epiq Systems, Inc
Washington, DC

4:00 p.m. - 4:15 p.m. C27 An Effective Security Assessment Framework for Drone as a Service (DaaS): A Digital Forensic Technique
Fahad Salamh, PhD*; Umit Karabiyik, PhD; Marcus Rogers, PhD

4:15 p.m. - 4:30 p.m. C28 The Forensic Utility of Smart Doorbells
Christina A. Malone, MSFS*; Carl R. Kriigel, MA*; Seth M. Eisenberg; Hillary Lathrop, PhD

4:30 p.m. - 4:50 p.m. C29 Counterfeit Drug Detection Using Multi-Spectral Imaging
Brady Carter, PhD*

4:50 p.m. - 5:05 p.m. C30 Pathways to the Identification of Multinational Victims of Mass Disasters: The Role of Blockchain Technology
Shada Alsalamah, PhD*; Emilio Nuzzolese, PhD*

Friday

Illumination: Finding the Borders II

Moderator: Jason Lewis, PhD
University of South Florida
Tampa, FL

8:30 a.m. - 8:35 a.m. Welcome
Marla E. Carroll, BS

8:35 a.m. - 8:50 a.m. C31 A Proposed Framework for Digital Video Authentication
Gregory S. Wales, MS*; Catalin Grigoras, PhD; Jeff M. Smith, MS

8:50 a.m. - 9:15 a.m. C32 Automated Standards-Based Normalization and Correlation of Mobile Device Evidence
Eoghan Casey, PhD*; Martina Reif, MS*; Quentin Rossy, PhD

9:15 a.m. - 9:30 a.m. C33 Known Source Artifacts Examination With Digital Forensic Tools
Hayden A. Hendrickson, BS; Amanda A. Moses, BS*; Kimberly Bradley, MS*; Shuangteng Zhang, PhD

9:30 a.m. - 9:55 a.m. C34 Teaching Digital Forensics to Young Women and Underserved Youth
Eoghan Casey, PhD*; Daryl Pfeif, BA

9:55 a.m. - 10:05 a.m. Break

*Presenting Author
**Inquisitive: Mobile Borders II**

**Moderator:** Walter T. Hart, MBA  
*Silicon Valley Bank  
San Francisco, CA*

10:05 a.m. - 10:30 a.m.  C35  **iOS® Photo Vault Forensics**  
*Siddharth S. Chowdhury, MS*; Kayla Rux; Kathryn C. Seigfried-Spellar, PhD*

10:30 a.m. - 10:50 a.m.  C36  **A Constantly Moving Target: Best Practices for Apple® iOS® Device Seizure, Access, and Extraction**  
*Joseph Levi White, MS*

10:50 a.m. - 11:05 a.m.  C37  **Unlocking Fingerprint Scanner-Enabled Mobile Phones**  
*Christina A. Malone, MSFS*; Anthony Koertner, MS; Seth M. Eisenberg; Hillary Lathrop, PhD

11:05 a.m. - 11:20 a.m.  C38  **A Forensic Comparative Analysis of a Fitness Tracking Application on Mobile Devices Assigned**  
*Christina A. Malone, MSFS*; Carl R. Kriigel, MA*; Seth M. Eisenberg; Hillary Lathrop, PhD

11:20 a.m. - 11:35 a.m.  C39  **Android™ App Forensic Evidence Database (AndroidAED)**  
*Chen Shi, MS*; Chao-Chun Cheng; Connor Kocolowski; Emmett Kozlowski, BS; Justin Kuennen, BS; Matthew Lawlor, BS; Mitchell Kerr, BS; Jacob Stair, BS; Zhonghao Liao, PhD; Zhenqiang Gong, PHD; Yong Guan, PhD

11:35 a.m. - 11:50 a.m.  C40  **The Use of the On-Screen Time Display for Authentication of Body-Worn Video**  
*Gretchel Lomboy, MSc*; James Zjalic, MSc

11:50 a.m. - 1:15 p.m.  Lunch

**Multidisciplinary Session: Digital & Multimedia Sciences & Jurisprudence—Digital Forensics I**

**Moderator:** Maxwell Christopher Fabricant, JD  
*The Innocence Project  
New York, NY*

**Co-Moderator:** Danielle D. Ruttman, JD  
*Brooklyn, NY*

1:15 p.m. - 1:30 p.m.  F27  **The Need for a Full Specification for Digital Forensic Tool Validation**  
*Nicolas R. Hughes, JD*

1:30 p.m. - 2:00 p.m.  C41  **Narrative Use Cases for Harmonizing Forensic Science Practices and Digital/Multimedia Evidence**  
*Mark Pollitt, PhD*; Eoghan Casey, PhD*

2:00 p.m. - 3:00 p.m.  C42  **Digital Evidence in the United States Courts of Appeal**  
*Martin Novak, MPA*

3:00 p.m. - 3:15 p.m.  Break

*Presenting Author*

Poster Session

11:30 a.m. - 1:00 p.m. D1 Amusement Park Accidents Caused by Fatigue Failure
Chan-Seong Park, PhD*; Honh-Pil Jeon; Kwangsoo Choi, MA; Jae-mo Goh, PhD; Nam-Kyu Park, PhD

11:30 a.m. - 1:00 p.m. D2 The Role of the Dynamometer in the Analysis of Manner of Death by Asphyxia: A Case Report and Review of the Literature
Matteo A. Sacco, MD*; Fabrizio Cordasco, MD*; Francesco Sicilia, MD*; Luigi De Aloe, MD; Orazio Malfa, MD; Carmen Scalise, MD; Gionata Fragomeni, PhD; Pietrantonio Ricci, PhD; Santo Gratteri, MD; Isabella Aquila, MD, PhD*

11:30 a.m. - 1:00 p.m. D3 Railway Fatalities: The Importance of the Autopsy for the Reconstruction of Railway Accidents
Claudia Perrone, MD*; Ilaria Santoiemma; Alessandra Stellacci; Salvatore Moliterno, MD; Lucia Nardelli; Alessio Ostuni, MD; Francesco Vinci, MD

Thursday—Session I

Weapons: Knives & Firearms

Moderator: Kurt D. Weiss, MS
Case Study Collision Science, LLC
Santa Barbara, CA

8:30 a.m. - 8:50 a.m. D4 A Comparison of Scientifically Valid and Traditional Firearm Trigger Mechanism Evaluation Techniques
John Nixon, MBA*

8:50 a.m. - 9:10 a.m. D5 A Defect Investigation of a Gun Rack
Darren Franck, MSME*; Harold Franck, MSEE

9:10 a.m. - 9:30 a.m. D6 The Effect of Fabric Tension on Knife and Tool Damage
Patrick H. Geoghegan, PhD*; Debra J. Carr, PhD; Sarah V. Hainsworth, PhD

9:30 a.m. - 10:00 a.m. D7 The Effectiveness of Overt and Covert Protection Against Attacks by Sharp Implements
Sarah V. Hainsworth, PhD*; Patrick H. Geoghegan, PhD

10:00 a.m. - 10:15 a.m. Break
Fire & Explosion Investigations

**Moderator:** Darren Franck, MSME  
*Advanced Engineering Associates, Inc*  
Charleston, WV

10:15 a.m. - 10:30 a.m. **D8** *The Impact of Ventilation on Fire Patterns in Full-Scale Structures: Experiments, Analysis, and Education*  
Daniel Madrzykowski, PhD*; Craig G. Weinschenk, PhD

10:30 a.m. - 10:50 a.m. **D9** *The Explosive Destruction of a Horse Trailer With Integrated Living Quarters*  
David R. Bosch, PhD*; Mark C. Pozzi, MS*

10:50 a.m. - 11:05 a.m. **D10** *An Investigation Into the Cause of a Fire Engulfing Two Collided Buses*  
Qiang Chen, PhD*; Xiao Hu*

11:05 a.m. - 11:25 a.m. **D11** *Understanding and Controlling the Potential Risk of Jobsite Construction Hazards*  
Daniel M. Honig, PE*

11:25 a.m. - 11:40 a.m. **Break**

Poster Session

11:30 a.m. - 1:00 p.m. **D12** *Improving the Accuracy of the Quantitative Method for Evaluating Fracture Load by Blunt Force: A Proposal for the Fracture Load Analysis Method Using the Victim's Bone Shape, Bone Mineral Density Distribution, and Soft Tissue Thickness*  
Tatsuya Fukuoka, ME*; Yasumi Ito, PhD; Ryuichi Yamada; Yoshiyuki Kagiyama, PhD; Tomotaka Matsubara; Sonoka Okura; Tetsuya Nemoto, PhD

11:30 a.m. - 1:00 p.m. **D13** *Physical Properties of Additive Manufacturing to Combat the Illicit Use of 3D Printing Technology*  
April Bowen, BS*; Ryan G. Zdenek; Brooke W. Kammrath, PhD; Maria-Isabel Carnasciali, PhD

11:30 a.m. - 1:00 p.m. **D14** *Hot-Air Ballooning—Rare as Disastrous Incidents: An Italian Case Report*  
Eloisa Maselli, MD; Aldo Di Fazio; Gianni De Giorgio*; Alessandro Dell’Erba, PhD

Samples, Magnets, & Trace Elements

**Moderator:** Harold Franck, MSEE  
*Advanced Engineering Associates, Inc*  
Charleston, WV

11:40 a.m. - 11:55 a.m. **D15** *Complexity vs. Uncertainty in Models*  
Willem A. Schreuder, PhD*

11:55 a.m. - 12:10 p.m. **D16** *Bulk and Micro-Scale Trace Element Analysis of Glass Standard Reference Materials (SRMs) Using Modern Nuclear Analytical Methods and Laser Ablation-Inductively Coupled Plasma/Mass Spectrometry (LA-ICP/MS)*  
Nicholas Sharp, PhD*; Jamie L. Weaver, PhD; Maria Martinez, PhD; Ruthmara Corzo, PhD; Rick Paul, PhD; Jose R. Almirall, PhD; Eric B. Steel

Thursday—Session II

Multidisciplinary Session: Criminalistics II & Engineering & Applied Sciences

8:30 a.m. - 8:45 a.m.  B89  “A Gun Too Far”—Reconstruction of a Homicide
Alexander Jason, BA*

8:45 a.m. - 9:00 a.m.  D29  Who Was Texting During the Alleged Kidnapping and Rape?
Carole E. Chaski, PhD*

9:00 a.m. - 9:15 a.m.  B90  Crowbar Paints in Forensic Investigations With In-Depth Techniques: A Casework Investigation and the Start of a Multi-Technique Database
Peter de Joode; Xiaoma Xu, PhD; Jill R. Klaasse; Maurice Olderiks; Zita Y. van Zanten; Gerard J.Q. van der Peijl, PhD*

9:15 a.m. - 9:30 a.m.  D30  Electrical Fire or Arson Crime?
Helmut G. Brosz, BASc*

9:30 a.m. - 9:45 a.m.  B91  The Refinement and Application of a Kinetic Model to Predict the Evaporation of Gasoline for Fire Debris Analysis
Amanda L. Setser, MS*; Victoria L. McGuffin, PhD; Ruth Waddell Smith, PhD

9:45 a.m. - 10:15 a.m.  D31  When Law Enforcement Relies on Some On-Board Vehicle Crash Data to Reconstruct a Crash Reconstruction in Criminal Prosecution, but the Overlooked Data is Exculpatory
Billy S. Cox, Jr.*

10:15 a.m. - 10:30 a.m.  Break

10:30 a.m. - 10:45 a.m.  B92  Photogrammetry Using Visible, Infrared, Hyperspectral, and Thermal Imaging of Crime Scenes
Gerda Edelman; Maurice Aalders*

10:45 a.m. - 11:00 a.m.  D32  Spoliation: Wilfull Loss of Evidence Crime in an Electrocution Case
Helmut G. Brosz, BASc*

11:00 a.m. - 11:15 a.m.  B93  Forensic Gait Analysis: State of the Science and a Case Study
Michael S. Nirenberg, DPM*

11:15 a.m. - 11:30 a.m.  B94  Interdisciplinary Forensic Investigations—Combining Evidence in Complex Cases
Irene Kuiper; Jan A. De Koeijer, MD; Gerard J.Q. van der Peijl, PhD*

11:30 a.m. - 12:00 p.m.  D33  Criminal Engineering and Science Without Consequences: Why?
David R. Bosch, PhD*; Mark C. Pozzi, MS*; Kenneth J. Saczalski, PhD*; Carley C. Ward, PhD; Parris Ward, JD

*Presenting Author
Friday

Head & Neck Trauma Research

**Moderator:** Kurt D. Weiss, MS
*Case Study Collision Science, LLC*
Santa Barbara, CA

8:30 a.m. - 8:55 a.m. D34  **Head and Neck Trauma: BioMedical Engineering Analysis of Entrapment Testing**
Laura L. Liptai, PhD*; Ellyson Maleski, BS*

8:55 a.m. - 9:10 a.m. D35  **An Experimental Study of Inertial Mechanisms of Motorcycle Helmet Accident Retention Failures**
Kenneth J. Saczalski, PhD*; Mark N. West, BS; Mark C. Pozzi, MS*; Todd Saczalski, BSMET

9:10 a.m. - 9:30 a.m. D36  **The 1921 Death of Nino Martoglio, Pirandello's Mentor: A Cold Case and Literature Review**
Massimiliano Esposito, MD*; Giuseppe D. Albano, MD; Antonino Barbaro Paratore, MS; Sebastiano Battiato, PhD; Pasquale Malandrino, MD; Fabrizio Vanaria, MD; Sabrina Franco; Monica Salerno, MD, PhD; Giulio Di Mizio, MD, PhD; Cristoforo Pomara, MD, PhD

9:30 a.m. - 9:50 a.m. D37  **Skull Fracture Risk: An Experimental Comparison Between Elastic (Drone) and Inelastic (Wood Block) Impacts Focused on Fracture Type and Tolerance Using Instrumented Postmortem Human Subjects (PMHS)**
John H. Bolte, PhD*; David Stark, PhD; Amanda M. Agnew, PhD; Yun-Seok Kang, PhD

9:50 a.m. - 10:10 a.m. D38  **Cervical Spine Injury of Postmortem Human Subjects in Rear-End Impacts**
Yun-Seok Kang, PhD*; John H. Bolte, PhD

10:10 a.m. - 10:25 a.m. Break

10:25 a.m. - 10:40 a.m. D39  **Head Injury Criteria (HIC) Scaling for Assessing Closed Head Injury Risk**
Robert D. Anderson, MS*; Billy S. Cox, Jr.

Video Analysis & Vehicle System Forensics

**Moderator:** Robert D. Anderson, MS
*Biomechanics Analysis*
Tempe, AZ

10:40 a.m. - 10:50 a.m. D40  **Forensic Motor Vehicle Accident Investigation**
David Pienkowski, PhD*

10:50 a.m. - 11:10 a.m. D41  **Body-Mounted Camera Motion Analysis—Accuracy and Validation of 3D Camera Match Solutions**
Michael Callahan, BSME*; Brady Held, BFA*; Sean G. Snyder, BS*

11:10 a.m. - 11:30 a.m. D42  **3D Computer Photogrammetric Analysis of Multiple Surveillance Cameras Synchronized Into a Single Data Set to Track the Movement of a Vehicle**
Jorge Mendoza, BS, ME*

11:30 a.m. - 11:50 a.m. D43  **Vehicle System Forensics and Criminal Investigations Involving Automobiles**
Wesley Vandiver, BA*

Friday

Dental Age Assessment

Moderator: Iris L. Shields, DDS
Bel Air, MD

Co-Moderator: Michael Clay, DMD
Foley, AL

8:30 a.m. - 9:00 a.m.  G27  Thresholding Adulthood: What Are We Doing?
James F. Goodrich, FFOMP*

9:00 a.m. - 9:20 a.m.  G28  Method Differences, Population Differences, or Examiner Differences: Which Affects the Age Estimation the Most?
Sakher J. AlQahtani, PhD*

9:20 a.m. - 9:40 a.m.  G29  Forensic Age Estimation Based on the London Atlas of Human Tooth Development and Eruption Assessment in a Population With Systemic Disorders: A Pilot Study
Cristiana M.P. Pereira, PhD*; Lucianna P. Russell, MD; Maria Pádua, DDS; Ricardo H.A. Silva, PhD; Rui Filipe Vargas de Sousa Santos, PhD

9:40 a.m. - 9:55 a.m.  G30  Dental Age and Odds Probability at the 18-Year Threshold
Graham J. Roberts, MDS*; Fraser McDonald, PhD; Fiona Warburton, MS; Victoria S. Lucas, PhD*

9:55 a.m. - 10:15 a.m.  G31  Calculating the Standard Deviation: An Innovative Approach for Utilizing Historical Databases
Sakher J. AlQahtani, PhD*; Kenneth W. Aschheim, DDS*

10:15 a.m. - 10:30 a.m.  Break

Dental Age Assessment

Moderator: Amanda L. Thompson, DMD
Birmingham, AL

10:30 a.m. - 10:45 a.m.  G32  Third Molar Development in Caucasian and Chinese Populations and Its Implication in Dental Age Estimation
Jayakumar Jayaraman, PhD*; Graham J. Roberts, MDS

10:45 a.m. - 11:00 a.m.  G33  Minimum Values for Mandibular Maturity Markers
Victoria S. Lucas, PhD*; Fraser McDonald, PhD; Graham J. Roberts, MDS

11:00 a.m. - 11:15 a.m.  G34  Dental Development in a London Population of Diverse Ethnicity
Sally E. Andrews, MS*; Graham J. Roberts, MDS; Fraser McDonald, PhD; Pat Set, FRCR; Fiona Gilbert, FRCR

11:15 a.m. - 11:30 a.m.  G35  A Comparison of Dental Age Estimations From Two Radiographic Methods of Metric Analysis in North Indian Young Adults
Deeksha Sankhyan; Jagmahender Singh Sehrawat, PhD*

*Presenting Author
11:30 a.m. - 11:50 a.m.  G36  Demirjian 2.0  
Corinne D'Anjou, DMD*; Derek M. Draft, DDS*; Arto Demirjian, DMD; Sigrid I. Kvaal; Normand Bach, DMD

11:50 a.m. - 1:30 p.m.  Lunch

**Poster Session**

11:30 a.m. - 1:00 p.m.  G37  An Analysis of a Dental Prosthesis Technique in Korean War Casualties  
Seoeun Oh*; Hyejin Lee; Seokdong Oh; Kyoungmin Koh; Yu Ryang Jang, PhD

11:30 a.m. - 1:00 p.m.  G38  The Advantages and Limitations of Various Dental Age Estimation Methods in Forensic Odontology: A Systematic Review  
Jagmahender Singh Sehrawat, PhD*

11:30 a.m. - 1:00 p.m.  G39  Disaster Victims Identification (DVI) Using Digital Radiology: A Case Report of a Brumadinho Victim Identification by the Dental Comparative Method  
Sandra G.G. da Silva*; Luciene M. Corradi, MS; Denise V. Travassos

**Dental Age Assessment**

*Moderator: Grace Chung, DDS  
Clark County Office of Coroner/Medical Examiner  
Las Vegas, NV*

1:30 p.m. - 1:45 p.m.  G40  A Data-Driven Process, Prediction, and Reporting Model to Improve Human Identification Using the Mobile Application Intelligent System in Automation of Legitimated Examination Methods (iSALEM)  
Salem Altalie, FACLM*

1:45 p.m. - 2:00 p.m.  G41  The Estimation of Sex From Dental Arch Dimensions: An Odontometric Analysis  
Tanuj Kanchan, MD*; Rutwik D. Shedge, MSc; Vinay Kumar Chugh, MDS; Ankita Chugh, MDS

2:00 p.m. - 2:15 p.m.  G42  Cementum Annuli: Technique, Microscopy, and Assessment of Age  
Michael Clay, DMD*; Murray K. Marks, PhD; James M. Lewis, DMD; Paula C. Brumit, DDS

2:15 p.m. - 2:30 p.m.  G43  Morphological Examinations of the Teeth and Jaw Fragments Retrieved From an Ajnala Skeletal Assemblage: A Forensic Odontological Study  
Jagmahender Singh Sehrawat, PhD*; Ashith B. Acharya, GDO

2:30 p.m. - 2:45 p.m.  Break

*Presenting Author
Thomas Krauss Memorial Bitemark Session

Moderator: Roland G. Chew, DDS
         Fremont, CA

2:45 p.m.  - 3:00 p.m.  G44  The Importance of Bitemarks in Child Abuse Cases in Turkey
         Huseyin Afsin, PhD*; Sermet Koc; Gulnaz T. Javan, PhD

3:00 p.m.  - 3:15 p.m.  G45  A 3D Analysis of Bitemarks: A Validation Study Using an Intraoral Scanner
         Géromine Fournier, DDS*; Frederic Savall; Norbert Telmon, PhD, MD; Delphine Maret, PhD

3:15 p.m.  - 3:35 p.m.  G46  3D Dental Digital Study Models in Bitemark Comparison
         Robert B.J. Dorion, DDS*

3:35 p.m.  - 3:50 p.m.  G47  Non-Bitemarks That I Have Known
         Robert E. Wood, DDS, PhD*; Yolanda Nerkowski, BA*; Taylor L. Gardner, BFS*

3:50 p.m.  - 4:10 p.m.  G48  A Historic Perspective of Bitemark Analysis and Bitemark Comparison
         Robert B.J. Dorion, DDS*
**PATHOLOGY/BIOLOGY**

**Wednesday**

**Poster Session**

Katie C. Donohue*; Heather M. McLendon* |
| 11:30 a.m. - 1:00 p.m. | H6 Frangible Ammunition in Gunshot Wound Suicides in the Hampton Roads Region of Virginia: An Upward Trend?  
Catherine G. Wilson, BS*; Gary M. Zientek, MD; Wendy M. Gunther, MD |
| 11:30 a.m. - 1:00 p.m. | H7 The Feasibility of an Enteroclysis Pump for Postmortem Computed Tomography Angiography (PMCTA)  
Marloes E.M. Vester, MD; Ellen Servaas, MSc; Ludo F.M. Beenen, MD; Mara Clerkx; Astrid De La Rie, MS; Nick Lobé; Maaike J. Vogel; Rick R. Van Rijn, MD, PhD*; Roelof-Jan G. Oostra, PhD |
| 11:30 a.m. - 1:00 p.m. | H8 The Utility of Routine Histological Sampling in the Assessment of Cause and Manner of Death in Medicolegal Autopsies—Fire, Immersion, and Traffic-Related Deaths  
Björn Bäckström, MD*; Staffan Finn; Peter Lydig; Oscar Sandberg; Anders Eriksson, MD, PhD; Torfinn Gustafsson, MD |
| 11:30 a.m. - 1:00 p.m. | H9 Fibroplasia Ossificans Progressiva (FOP): Could Autopsy Define Syndromic Features?  
Vittorio Bolcato, MD; Matteo Moretti, MD*; Claudia Carelli; Davide Radaelli; Paolo Musto; Silvia D. Visona, MD; Gulnaz T. Javan, PhD; Antonio M.M. Oscalati, MD |
| 11:30 a.m. - 1:00 p.m. | H10 A Questionable Cause of Death Alphabet Soup: Anaphylaxis, Bees, Cocaine, Diabetic Ketoacidosis (DKA), Emphysema, Fogger, Hypothermia, Insecticide, and Opiates  
Thomas B. Duong, BS*; John Winterholler, BS; Joseph A. Prahlow, MD; Prentiss Jones, Jr., PhD |
| 11:30 a.m. - 1:00 p.m. | H11 The Importance of Dashboard Camera Analysis in Fatal Vehicle-Pedestrian Crash Reconstruction  
Paolo Fais, PhD*; Jennifer Pascali, PhD; Guido Pelletti, MD; Alessio Giusti; Susi Pelotti, MD |
| 11:30 a.m. - 1:00 p.m. | H12 Computed Tomography (CT) and X-Ray Angiography on a Case of Traumatic Carotid Artery Occlusion Following a Physical Altercation Resulting in Cerebral Infarction  
Francesco Pontoriero, DO*; Rochelle A. Simon, MD; Zabiullah Ali, MD; Nikki Mourtzinos, DO; David R. Fowler, MD |
11:30 a.m. - 1:00 p.m.  H13  IL-15, CD-15, and Tryptase as Markers of Wound Vitality in Compressed Neck Skin: When Conventional Macroscopic and Histological Findings Fail
Omar Bonato, MD*; Sara Chierici; Elena Lucenti, MD; Mauro Coppone, MD; Letizia Alfieri, MD; Enrica Calabrese, MD; Paolo Frisoni, MD; Matteo Fabbri, MS; Matteo Marti, PhD; Rosa Maria Gaudio; Margherita Neri, MD, PhD

11:30 a.m. - 1:00 p.m.  H14  Where is the Neoplasm? The Postmortem Diagnosis of Intravascular Large B-Cell Lymphoma (IVLBCL)
Zoe Del Fante, MD*; Nicola Di Fazio; Silvia Romano; Alessandra De Matteis, MD; Paola Santoro, MD; Aniello Maiese, MD

11:30 a.m. - 1:00 p.m.  H15  Numerical Postmortem Interval (PMI) Estimation Streamlined for Forensic Practice: Combining Photogrammetry, Thermal Imaging, and Computed Tomography (CT)
Leah Wilk*; Gerda Edelman; Maurice Aalders

11:30 a.m. - 1:00 p.m.  H16  When Hidden Elder Abuse Leads to Death: An Analysis of Casework
Alberto Amadasi, MD*; Federica Fersini; Paolo Fais, PhD; Guido Pelletti, MD; Maria Carla Mazzotti, MD; Susi Pelotti, MD

11:30 a.m. - 1:00 p.m.  H17  A Corpse in a Suitcase: A Case of Strangulation
Francesco Amico, MD*; Marco Torrisi; Dario Condorelli; Ilenia Russo; Martina Fichera, MD; Giuseppe Cocimano, MD; Giulio Di Mizio, MD, PhD; Monica Salerno, MD, PhD; Angelo Montana, MD*; Fabrizio Vanaria, MD*

11:30 a.m. - 1:00 p.m.  H18  The Analysis of Head Injury in the Evaluation of Manner of Death: A Forensic Case Series and a Review of the Literature
Isabella Aquila, MD, PhD*; Francesco Sicilia, MD; Carmen Scalise, MD*; Luigi De Aloe, MD; Fabrizio Cordasco, MD*; Santo Gratteri, MD; Matteo A. Sacco, MD; Pietrantonio Ricci, PhD

11:30 a.m. - 1:00 p.m.  H19  The Anesthesiologist’s Responsibility in Intracranial Placement of the Nasogastric Tube (NGT): A Case Series and Literature Review
Alessandro Bonsignore, MD, PhD*; Gianluca Landi; Federico Longhini, MD; Francesca Buffelli, PhD, MD

11:30 a.m. - 1:00 p.m.  H20  Powder-Free DNA Extraction Protocol From Bones and Teeth
Heitor Correa*; Gloria Brescia; Venusia Cortellini, PhD; Andrea Verzeletti, MD

11:30 a.m. - 1:00 p.m.  H21  A Complete Transection of the Aorta During Resuscitative Efforts
Amanda Ho*; Grant W. Herndon, DO

11:30 a.m. - 1:00 p.m.  H22  A Proposal of a Score to Evaluate Discrepancies Between the Results of External Body Examination and Forensic Autopsy
Sara Gioia, MD*; Valentina Rosati, MD*; Massimo Lancia, MD*; Fabio Suadoni, MD

11:30 a.m. - 1:00 p.m.  H23  Immunohistochemical Detection of Fibronectin, P-Selectine, FVIII, HSP-70, and MRP-8 in the Skin of Ligature Marks of Suicidal Hangings
Fiorella Caputo, MD*; Rosario Barranco*; Francesco Ventura, MD*; Tony Fracasso, MD, PhD

11:30 a.m. - 1:00 p.m.  H24  A Metabolomic Profile of Aqueous Humor in a 24-Hour Period After Death: An Animal Model for Postmortem Interval (PMI) Estimation
Emanuela Locci, PhD; Matteo Stocchero, PhD; Alberto Chighine, MD*; Fabio De Giorgio, MD; Matteo Nioi, MD; Ernesto d’Aloja, MD, PhD

*Presenting Author
PATHOLOGY/BIOLOGY

11:30 a.m. - 1:00 p.m.  H25  Muscle Protein Degradation in Postmortem Interval (PMI) Estimation: Recent Accomplishments and Current Challenges
Stefan Pittner, PhD*; Bianca Ehrenfellner, MS; Katharina Weitgasser, MS; Angela Zissler, PhD; Peter Steinbacher, PhD; Fabio Carlo Monticelli

11:30 a.m. - 1:00 p.m.  H26  The Importance of Being Earnest: The Role of Autopsy in Preventing Litigation Related to the Management of Liver and Digestive Disorders
Stefano D’Errico, PhD; Benedetta Baldari, MD; Alessandro Santurro, MD; Mariarosaria Aromataro, MD, PhD; Matteo Scopetti, MD*

11:30 a.m. - 1:00 p.m.  H27  A Preliminary Assessment of the Persistence of Prostate Specific Antigen (PSA) Transfers Under Various Conditions
Keryne Skead*; David San Pietro, PhD

11:30 a.m. - 1:00 p.m.  H28  Recovery of DNA From Washed Bloodstains
Isil T. Erdogan, MS*; Tugba Ünsal, PhD*; Aysun Gungor, MS; Kaan Yilancioglu, PhD; Sevil Atasoy, PhD

11:30 a.m. - 1:00 p.m.  H29  Changes in Receptor Expression of σ-1R in the Pineal Gland Related to Different Causes of Death
Elvira Ventura Spagnolo, MD*; Cristina Mondello, MD*; Gennaro Baldino, MD*; Antonio Guajana, MD; Letteria Minutoli, MD; Domenico PUzzolo, MD; Vincenzo Macaione, MD; Luigi Cardia, MD; Antonina Argo, PhD; Stefania Zerbo, MD; Alessio Asmundo

11:30 a.m. - 1:00 p.m.  H30  Early Myocardial Ischemia: An Immunohistochemical Analysis of Dystrophin and Matrix Metalloproteinase 9 (MMP-9)
Cristina Mondello, MD*; Elvira Ventura Spagnolo, MD; Salvatore Roccuzzo, MD; Luigi Cardia, MD; Alessio Asmundo

11:30 a.m. - 1:00 p.m.  H31  A Case of Suicide by Hemlock Intoxication
Stephanie Diu, BA*; Erica Maney*; Pamela L. Marshall, PhD; Jennifer L. Hammers, DO

11:30 a.m. - 1:00 p.m.  H32  A Fatality by Caustic Soda: Accidental or Suicidal?
Manoj Bhausaheb Parchake, MD*

11:30 a.m. - 1:00 p.m.  H33  The Evolution of Safety Systems in Traumatic Deaths Due to Road Traffic Accidents: A Case Report and Review of the Literature
Luigi De Aloe, MD*; Fabrizio Cordasco, MD*; Francesco Sicilia, MD; Matteo A. Sacco, MD*; Carmen Scalise, MD; Pietrantonio Ricci, PhD; Orazio Malfa, MD; Santo Gratteri, MD; Isabella Aquila, MD, PhD*

11:30 a.m. - 1:00 p.m.  H34  Is the Survey of Forensic Botany Useful? The Application and Limits of Forensic Case Analysis
Isabella Aquila, MD, PhD*; Luigi De Aloe, MD; Francesco Sicilia, MD; Matteo A. Sacco, MD*; Carmen Scalise, MD; Fabrizio Cordasco, MD; Roberto Raffaele, BE*; Vincenzo Rania, MD; Paola Frati, PhD; Vittorio Fineschi, MD, PhD; Santo Gratteri, MD; Pietrantonio Ricci, PhD

11:30 a.m. - 1:00 p.m.  H35  The Immunohistochemical Analysis in the Diagnosis of Freshwater Versus Saltwater Drowning: A Case Report and a Review of the Literature
Isabella Aquila, MD, PhD*; Orazio Malfa, MD; Matteo A. Sacco, MD*; Francesco Sicilia, MD; Fabrizio Cordasco, MD; Luigi De Aloe, MD; Carmen Scalise, MD; Santo Gratteri, MD; Pietrantonio Ricci, PhD

11:30 a.m. - 1:00 p.m.  H63 Idiopathic Liver Rupture: An Italian Case Report
Gianni De Giorgio*; Fiorenza Zotti, PhD; Eloisa Maselli, MD; Davide Ferorelli; Francesca Donno, MD; Valeria Bruno, MD; Giulia Gabinelli; Alessandro Dell’Erba, PhD

11:30 a.m. - 1:00 p.m.  H64 A Determination of the Efficacy of Two Processing Methods for Molar Teeth as a Source of DNA in Missing Persons and Unidentified Human Remains (UHR) Investigations
Lily Josephs, BS*; Ira R. Titunik, DDS; Timothy M. Palmbach, JD; Angie Ambers, PhD

11:30 a.m. - 1:00 p.m.  H65 The Vitality of Skin Lesions in Decomposed Corpses: A Morphological and Immunohistochemical Study
Matteo Moretti, MD; Fiorella Lanzillotta, MD*; Elena Mercuri; Giada Pansardi; Luisa Andreollo, MD; Gulnaz T. Javan, PhD; Antonio M.M. Osculati, MD; Silvia D. Visona, MD

11:30 a.m. - 1:00 p.m.  H66 Mendelian Simulation of Short Tandem Repeat (STR) Genotypes From Existing Sample Data to Create Standard Truth Pedigrees for Benchmarking New Familial Inference Methods
Stephen Turner*; Chris Hulme-Lowe, PhD; Chris Simpson; Carlos Acevedo, MS

11:30 a.m. - 1:00 p.m.  H67 An Investigation on Circular RNA (circRNA) Expression in Diabetic Cardiomyopathy (DCM) to Improve Understanding of Sudden Cardiac Death (SCD)
Shengzhong Dong*; Yiwen Shen*; Chunyan Tu*

11:30 a.m. - 1:00 p.m.  H68 The Effects of Heat and Explosions on Forensic DNA Analyses
Marwan Khoury*

11:30 a.m. - 1:00 p.m.  H69 Creating a Real Time-Quantitative Polymerase Chain Reaction (RT-qPCR) -Based Method for Studying Temporal DNA Degradation in Waterlogged Bone
Isis Thornton*; D'Arcy P. Mays III; Baneshwar Singh, PhD; Claire M. Cartozzo, MS; Tal Simmons, PhD

11:30 a.m. - 1:00 p.m.  H70 Forensic DNA Phenotyping (FDP): A Prediction of Human Externally Visible Traits in Missing Person Identification
Matteo Fabbri, MS*; Letizia Alfiere, MD; Omar Bonato, MD; Mauro Coppone, MD; Paolo Frisoni, MD; Rosa Maria Gaudio; Elena Lucenti, MD; Chiara Marini, MD; Matteo Marti, PhD; Margherita Neri, MD, PhD

PATHOLOGY/BIOLOGY

11:30 a.m. - 1:00 p.m. H82 The Relationship Between Wischnewski Spots and Stress Hormones During Hypothermia
   Alissa M. Shida, BS*; Tomoya Ikeda, PhD, MD; Naoto Tani, MA; Takaki Ishikawa, MD, PhD; Kei Ikeda, MD; Aoki Yayoi, BA

11:30 a.m. - 1:00 p.m. H83 New Biomarkers of Myocardial Necrosis Identification in Decomposed Bodies
   Pasquale Malandrino, MD*; Francesco Amico, MD; Federico Patanè, MD; Angelo Montana, MD*; Dario Condorelli; Massimiliano Esposito, MD; Edmondo Scoto; Giulio Di Mizio, MD, PhD; Monica Salerno, MD, PhD; Cristoforo Pomara, MD, PhD

Investigation and Identification

Moderator: Veena D. Singh, MD
Midwest Medical Examiner’s Office
Ramsey, MN

Co-Moderator: Pierre-Antoine Peyron, MD
Département de Médecine Légale
Montpellier, FRANCE

1:00 p.m. - 1:15 p.m. H84 Viral Load: Handling an (Unexpectedly) High-Profile Case
   Kirstin E. Howell, MD*; Kristin C. Escobar Alvarenga, MD

1:15 p.m. - 1:30 p.m. H85 Increasing Transparency: The Utility of Layered Images in Postmortem Identification
   Farnaz Khalafi, MD*; Brandi C. McCleskey, MD

1:30 p.m. - 1:45 p.m. H86 An Interdisciplinary Approach to Data Collection of Unidentified Juvenile Remains at the Georgia Bureau of Investigation (GBI)
   Jonathan Eisenstat, MD*; Alice F. Gooding, PhD

1:45 p.m. - 2:00 p.m. H87 Lost and Found: Forensic Anthropology and the Recovery of a 21-Year-Old Plane Crash
   Kerianne Armelli, MS*; Carolyn V. Isaac, PhD; Jane Wankmiller, PhD; Rachel E. Smith, BS

2:00 p.m. - 2:15 p.m. H88 WITHDRAWN

2:15 p.m. - 2:30 p.m. H89 The Complicated Recovery of a House Fire Victim in Northern Michigan
   Jane Wankmiller, PhD*; Rachel E. Smith, BS; Carl W. Hawkins, MD

2:30 p.m. - 2:45 p.m. H90 Selfie-Related Injuries and Deaths in Italy
   Sara Gioia, MD*; Fabio Suadoni, MD; Dora Mirtella, MD; Mariano Cingolani, MD

2:45 p.m. - 3:00 p.m. H91 The Introduction of a Mobile Application to Assist in the Evaluation and Investigation of Death Scenes in Forensic Medical Practice
   Gert Saayman, FCPath*; Cornelia van Graan, MS

3:00 p.m. - 3:15 p.m. Break

*Presenting Author
Decomposition and DNA

Moderator: David O. Carter, PhD
Chaminade University of Honolulu
Honolulu, HI

Co-Moderator: Carl J. Schmidt, MD
Wayne County Medical Examiner’s Office
University of Michigan
Detroit, MI

3:15 p.m. - 3:30 p.m. H92 An Evaluation of Selected Hematopoietic Immunohistochemical Stains in Decedents in Varying States of Decomposition
Catherine R. Miller, MD*; Juan P. Olano, MD; Judith Aronson, MD; You-Wen Qian, MD

3:30 p.m. - 3:45 p.m. H93 “Forens-OMICS”: The Application of Omics Sciences to Forensic Investigations
Noemi Procopio, PhD*; Natalie R. Langley, PhD; Beatrix Dudzik, PhD; Paul Wood, PhD

3:45 p.m. - 4:00 p.m. H94 Proteogenomics: Shifting Touch Sample Analysis Paradigms
Curt Hewitt*; Myles W. Gardner, PhD; Michael A. Freitas, PhD; August E. Woerner, PhD; Kathleen Q. Schulte, MS; Danielle S. LeSassier, PhD; Maryam Baniasad, BS; Andrew J. Reed, PhD; Megan E. Powals, BS; Alan R. Smith, BS; Nicolette C. Albright, MS; Benjamin C. Ludolph, BS; Liwen Zhang, PhD; Leah Allen, BS; Katharina L. Weber, BS

4:00 p.m. - 4:15 p.m. H95 Developing Biological Models for the Probabilistic Genotyping of Next Generation Sequencing (NGS) Data
Kevin Cheng*; Meng-Han Lin, PhD; Jo-Anne Bright, PhD; James M. Curran, PhD; John S. Buckleton, PhD

4:15 p.m. - 4:30 p.m. H96 Decomposition Odor Production in a Tropical Savannah
Lena M. Dubois, MSc; Carlos A. Gutierrez, MS; David O. Carter, PhD; Jean-François M. Focant, PhD; Katelynn A. Perrault, PhD*

4:30 p.m. - 4:45 p.m. H97 Comparing Resolution of Mixtures by DNA Sequencing Using the Illumina® MiSeq® FGx System
Michael Moretto, MS*; Robin W. Cotton, PhD

4:45 p.m. - 5:00 p.m. H98 Seasonal Differences in Soil Chemistry and Biology Impacted by Long-Term Human Decomposition
Lois S. Taylor, MS*; Allison R. Mason, BS; Ernest C. Bernard, PhD; Mary C. Davis, MSc; Dawnie W. Steadman, PhD; Jennifer M. DeBruyn, PhD

Thursday—Session II

Jay Dix Memorial Bonus Day

9:00 a.m. - 9:10 a.m. H99 Jay Dix Memorial Bonus Day Introduction
Joseph A. Prahlow, MD*; James R. Gill, MD*; Jonathan Hayes, MD*; Andrew M. Baker, MD*; Michael A. Graham, MD*

9:10 a.m. - 10:00 a.m. H99 Investigation of Environment-Related Deaths
Joseph A. Prahlow, MD*

10:00 a.m. - 10:15 a.m. Break

*Presenting Author
10:15 a.m. - 11:05 a.m.  H99  Blunt and Sharp Force Injuries
James R. Gill, MD*

11:05 a.m. - 12:00 p.m.  H99  Asphyxia
Jonathan Hayes, MD*

12:00 p.m. - 2:00 p.m.  Lunch

2:00 p.m. - 3:00 p.m.  H99  Firearm Injuries
Andrew M. Baker, MD*

3:00 p.m. - 3:50 p.m.  H99  Deaths Temporally Related to Apprehension and Custody
Michael A. Graham, MD*

Friday—Session I

Multidisciplinary Session: Pathology/Biology I & Toxicology—Part I

<table>

8:30 a.m. - 8:45 a.m.  K65  Accidental Acute Combined Drug Toxicity Involving Heroin and Fentanyl in a 10-Year-Old Child
Joseph H. Kahl, MS*; Benjamin Mathis, MD; George W. Hime, MS; Diane Boland, PhD

8:45 a.m. - 9:00 a.m.  H100  Volatile Substances Concentrations in Costal Cartilage in Relation to Blood and Urine
Marcin Tomsia; Joanna Nowicka; Elzbieta Chelmecka; Joanna Wójcik; Magdalena Wos; Kornelia M. Drozdziok; Rafal Skowronek; Gulnaz T. Javan, PhD*

9:00 a.m. - 9:15 a.m.  K66  A Fatal Mono-Intoxication With 4-Fluoroisobutyrylfentanyl
Roelof Oosting, PharmD; Lauriane Drouin; Rogier van der Hulst, PharmD; Ingrid Bosman, PhD*

9:15 a.m. - 9:30 a.m.  H101  The Relationship of Chronic Psychostimulant Use and Cardiovascular Disease
Elly Riser, MD; Chamil Ariyaratne, MD, MBBS; Irfan Chaudhry, MD*; Caleb Banta-Green, PhD; Richard C. Harruff, MD, PhD

9:30 a.m. - 9:45 a.m.  K67  Circumstances, Postmortem Findings, and Toxicology in a Series of Methoxyacetylfentanyl-Related Deaths
Robert Kronstrand, PhD*; Svante Vikingsson, PhD

9:45 a.m. - 10:00 a.m.  H102  Suicide by Acute Substance Intoxication: A Retrospective Analysis of Cases in Cook County, Illinois
Lorenzo Gitto, MD*; Ponni Arunkumar, MD; Serenella Serinelli, MD*

10:00 a.m. - 10:15 a.m.  K68  Homicidal Paraquat-Induced Respiratory Failure: A Case Report and Overview of Paraquat Testing in the Forensic Setting
Elaine J. Oldford, BS*; Theodore T. Brown, MD; Prentiss Jones, Jr., PhD; Kenneth D. Hutchins, MD

10:15 a.m. - 10:30 a.m.  Break

*Presenting Author
Multidisciplinary Session: Pathology/Biology I & Toxicology—Part II

Moderator: Marilyn A. Huestis, PhD
Huestis & Smith Toxicology, LLC
Severna Park, MD

Co-Moderator: Lorale Langman, PhD
Mayo Clinic
Rochester, MN

10:30 a.m. - 10:45 a.m.  H103  Active Duty United States Military Deaths Due to 1,1-Difluoroethane Intoxication
Sherry Jilinski, MD*; Alice Briones, DO*; Eric T. Shimomura, PhD; George F. Jackson, PhD

10:45 a.m. - 11:00 a.m.  K69  Caught Looking: A High-Profile Vessel-Related Fatality in Miami, Florida
Diane Boland, PhD*; Joseph H. Kahl, MS; Jennifer Gonyea; George W. Hime, MS; Kenneth D. Hutchins, MD

11:00 a.m. - 11:15 a.m.  H104  Why the “Kontrversy”? Is Kratom a Killer? The Emergence of Mitragynine in Drug-Associated Deaths in West Tennessee
Maxwell O. Rollins, MD*; Erica Curry, MD

11:15 a.m. - 11:30 a.m.  K70  Urinary Metabolites in Fatal Intoxications With Methoxyacetylfentanyl Could Indicate Time Until Death
Svante Vikingsson, PhD*; Robert Kronstrand, PhD

11:30 a.m. - 11:45 a.m.  H105  Pediatric Poisonings: An Epidemiological Study
Mete K. Gulmen, PhD, MD*; Kenan Kaya; Ozgenur K. Tok, MD

11:45 a.m. - 12:00 p.m.  H106  An Opioid Analysis in “Natural” Manner Scene Inspection Cases
Mary G. Ripple, MD*; David R. Fowler, MD; Dawn Zulauf; Rebecca Phipps, PhD

12:00 p.m. - 1:00 p.m.  Lunch

Poster Session

11:30 a.m. - 1:00 p.m.  H107  Fatal Excipient Lung Disease: An Autopsy Case Series
Daniel Shapiro, MD*; Amy V. Rapkiewicz, MD; Mark J. Shuman, MD

11:30 a.m. - 1:00 p.m.  H108  Loperamide Abuse: A Rising Public Health Concern?
Ian J. Puffenberger, MD*; Meredith A. Frank, MD; James Louis Caruso, MD

11:30 a.m. - 1:00 p.m.  H109  Body Packing of Narcotics Leading to Gastric Perforation and Death: A Case Report and Review of the Literature
Daniel A. Kirsch, BA*; Irini A. Scordi-Bello, MD, PhD

11:30 a.m. - 1:00 p.m.  H110  Anticoagulation and Exsanguination: A Case Series of Fatalities From Superficial Wounds in the Elderly
Abigail L. Alexander, MD*; Priya Banerjee, MD

11:30 a.m. - 1:00 p.m.  H111  2,4-Dinitrophenol Toxicity: A Cause of Death That Is Making a Comeback
Allison Gaines*; Christopher Gulledge, MD

11:30 a.m. - 1:00 p.m.  H112  Death by Intracorporeal Fentanyl Extravasation During the Replacement of an Intrathecal Pump
Luisa Andreollo, MD*; Maria Teresa Pinorini, PhD; Elia Grata; Silvia D. Visona, MD; Antonio M.M. Osculati, MD

Christina M. Tengelin, MS*

4:45 p.m. - 5:00 p.m. H156 The Importance of Histopathology in Cases of Sudden Death Due to Alleged Electrocution With Inconclusive Autopsy Findings: A Report of Three Cases
Siddhartha Das, MD*; Pampa C. Toi, MD

Friday—Session II

Microbiome and Forensic Entomology

Moderator: David O. Carter, PhD
Chaminade University of Honolulu
Honolulu, HI

Co-Moderator: Jason H. Byrd, PhD
University of Florida
Gainesville, FL

8:30 a.m. - 8:45 a.m. H157 Developing Novel Microbial Community Metrics for Predicting Manner of Death (MOD)
Sierra Kaszubinski, BS*; Jennifer L. Pechal, PhD; Heather R. Jordan, PhD;
Carl J. Schmidt, MD; M. Eric Benbow, PhD

8:45 a.m. - 9:00 a.m. H158 The Impact of Confinement in Vehicle Trunks on Decomposition and Entomological Colonization of Carcasses
Stacey L. Malainey, MA; Gail S. Anderson, PhD*

9:00 a.m. - 9:15 a.m. H159 Estimating the Postmortem Submersion Interval (PMSI) From the Microbiome of Bone in Lacustrine and Riverine Environments in Virginia
Claire M. Cartozzo, MS*; Baneshwar Singh, PhD; Jenise Swall, PhD; Tal Simmons, PhD

*Presenting Author
PATHOLOGY/BIOLOGY

9:15 a.m. - 9:30 a.m.  H160 Evaluating the Nearest Weather Station as the Best Representation of Scene Temperature in Forensic Entomology Casework
Michelle R. Sanford, PhD*; Si Gao, MS

9:30 a.m. - 9:45 a.m.  H161 The Impact of Insect Exclusion on Eukaryotic Community Succession on Porcine Remains
Denise Wohlfahrt, BS*; Luisa V. Forger, MS; Michael Shane Woolf, MS; Tal Simmons, PhD; Baneshwar Singh, PhD

9:45 a.m. - 10:00 a.m.  H162 Understanding the Role of the Thanatomiobiota in the Decay of “Reproductive Organs” in Human Decomposition
Gulnaz T. Javan, PhD*; Holly L. Lutz; Sheree J. Finley, PhD; Silvia D. Visina, MD; Antonio M.M. Osculati, MD; Jack A. Gilbert, PhD

10:00 a.m. - 10:15 a.m.  H163 The Postmortem Clostridium Effect: A Thanatomiobiome Investigation of Cadaver Brain
Gulnaz T. Javan, PhD*; Courtnee Bell, MS; Eloise H. Mikkonen, PhD; Sheree J. Finley, PhD; Qiana Matthews, PhD

10:15 a.m. - 10:30 a.m.  Break

Postmortem Radiology

Moderator: Giancarlo Di Vella, MD, PhD  University of Torino, Department Public Health Sciences  Raleigh, NC
Co-Moderator: Dianne Little, MBBS  Forensic Medicine, Sydney  Lidcombe, AUSTRALIA

10:30 a.m. - 10:45 a.m.  H164 Postmortem Cardiac-Magnetic Resonance (PMCMR) Protocol in Sudden Cardiac Deaths (SCDs)
Alessandro Santurro, MD*; Giovanni Donato Aquaro, MD; Michele Emdin, MD, PhD; Vittorio Fineschi, MD, PhD; Matteo Scopetti, MD; Benedetta Guidi, MD; Emanuela Turillazzi, MD, PhD; Marco Di Paolo, MD

10:45 a.m. - 11:00 a.m.  H165 Radiodense Bullet Wipe (RBW) Around Skeletal Entrance Gunshot Wounds: The Frequency of Detection and Evaluation of Decedent, Wound, and Ammunition Characteristics
Ashley Lukefahr, MD*; Jennifer M. Vollner, PhD; Bruce E. Anderson, PhD; David C. Winston, PhD

11:00 a.m. - 11:15 a.m.  H166 Comparing Sinus Fluid Density in Drowning Versus Non-Drowning Victims Using Postmortem Computed Tomography (PMCT)
Zuhha Ashraf, MD*; Catherine Yin, MD; Mariam Thomas, MD; Odey C. Ukpo, MD

11:15 a.m. - 11:30 a.m.  H167 Heat-Induced Changes in Charred Human Remains
Antonina Argo, PhD*; Giuseppe F. Lo Re, MD; Donatella Piscionieri; Ginevra Malta, MD; Alessia Vinci, MD; Agata Crapanzano, MD; Sergio Salerno

11:30 a.m. - 11:45 a.m.  H168 Fatal Obstructive Asphyxia: Trans-Pulmonary Density Gradient Characteristic as a Relevant Identifier in Postmortem Computed Tomography (PMCT)
Wolf Schweitzer; Lars C. Ebert, PhD*; Michael Thal, MD*

11:45 a.m. - 12:00 p.m.  H169 Using Postmortem Computed Tomography (PMCT) and Drug Screens to Triage Drug-Related Fatalities
Lauren A. Decker*; Sarah Lathrop, DVM, PhD

12:00 p.m. - 1:00 p.m.  Lunch
PATHOLOGY/BIOLOGY

Pediatric/Maternal Mortality

Moderator: Robert F. Corliss, MD
University of Wisconsin Hospital
Madison, WI

Co-Moderator: Rudy J. Castellani, MD
Western Michigan University School of Medicine
Kalamazoo, MI

1:00 p.m. - 1:15 p.m.  H170 The Diagnostic Accuracy of Unexplained Intracranial Hemorrhage as an Indicator of Abusive Head Trauma in the Context of a Coagulopathy
Michael Freeman, MD, PhD; Ellen M.F. Strömmer, MPH*

1:15 p.m. - 1:30 p.m.  H171 Pediatric Accidental Deaths in Cook County, Illinois
Serenella Serinelli, MD*; Ponni Arunkumar, MD; Lorenzo Giotto, MD*

1:30 p.m. - 1:45 p.m.  H172 Histologic Findings of the Pancreas in Infant Deaths: A Review of Cases at the State of Maryland Office of the Chief Medical Examiner (MD OCME)
Derek Musgrove*; Nikki Mourtzinos, DO; David R. Fowler, MD

1:45 p.m. - 2:00 p.m.  H173 Retinal (RH) and Optic Nerve Sheath Hemorrhage (ONSH), Papilledema, and Spinal Cord Nerve Root/Ganglia Hemorrhage Associated With a Cerebral Cavernous Malformation
Dongfang Yu, MD, PhD*; Ryan T. Mott, MD; William J. Beuerlein, DO; Patrick E. Lantz, MD

2:00 p.m. - 2:15 p.m.  H174 Recognizing Congenital Syphilis: The Consequences of the Return of an Epidemic
Jia Jun Guan, MD*; Yulai Wang, MD; Julie M. Huss-Bawab, MD

2:15 p.m. - 2:30 p.m.  H175 Cervical Vertebral En Bloc Examination in Pediatric Deaths: The New York City Experience (2011–2019)
Rebecca Folkerth, MD*; Anne M. Laib, MD; Michelle Stram

2:30 p.m. - 2:45 p.m.  H176 Maternal Death Investigation in the Setting of Rising Maternal Mortality in the United States: Trends in Maryland From 2003 to 2019
Colleen Klein, MD*; Stephanie A. Dean, MD; David R. Fowler, MD

2:45 p.m. - 3:00 p.m.  H177 A Histological Study of Persistent Pulmonary Hypertension of the Newborn (PPHN): A Five-Year Retrospective Analysis of a Fatal Cause in Neonates
Caterina Petetta, MD*; Giovanni Botta, MD; Ezio Fulcheri, MD; Francesca Buffelli, PhD, MD; Niccolò D. Mellonii, MD*; Giancarlo Di Vella, MD, PhD*

3:00 p.m. - 3:15 p.m.  Break
## Ancillary Studies and Anatomic Assessment

**Moderator:** Katherine F. Maloney, MD  
**Erie County Medical Examiner's Office**  
**Buffalo, NY**  
**Co-Moderator:** Ashley Lukefahr, MD  
**The University of Arizona**  
**Tucson, AZ**

**Honolulu, HI**  
**San Diego County Sheriff’s Regional Crime Lab**  
**San Diego, CA**

8:30 a.m. - 8:55 a.m. **J4** The Authenticity of Questioned Pretty Good Privacy (PGP) -Signed Digital Documents
Martin S. Olivier, PhD*

8:55 a.m. - 9:15 a.m. **J5** What’s Old Is New Again: Portable Instant Photo Systems and Questioned Documents Redux
Javaid Khan*

9:15 a.m. - 9:40 a.m. **J6** Delving Into Digitally Processed Documents: How Does Optical Character Recognition (OCR) Impact Documents?
Nina Harmanine, BSc*

9:40 a.m. - 10:40 a.m. **J7** Application of the “Value of Evidence” Approach in Forensic Document Examination
Miriam Angel, MS*

10:40 a.m. - 11:00 a.m. Break

11:00 a.m. - 12:00 p.m. **J8** Characteristics Observed in Impressions Produced by Signature Stamps
Jan Seaman Kelly, BA*

12:00 p.m. - 1:00 p.m. Lunch

*Presenting Author
Poster Session

11:30 a.m. - 1:00 p.m.  J9  Testing the Perceptual Accuracy of a Subject’s Ability to Identify Their Own Handwritten Numbers and Words
Jacqueline Joseph*

11:30 a.m. - 1:00 p.m.  J10  Database Usage in Handwriting Comparisons
Dilara Oner, MS*; Salih Cengiz, PhD; Gursel Cetin, PhD

11:30 a.m. - 1:00 p.m.  J11  Education and Training in Forensic Document Analysis Offered as an Elective Course to Undergraduate Forensic Science Students in Turkey
Sevil Atasoy, PhD*; Zekai Genç, PhD; Kaan Yilancioglu, PhD

Questioned Documents

Moderator:  James A. Black, BS
Lake Forest, CA

Co-Moderator:  Zain Bhaloo, MSc
Canada Border Services Agency
Ottawa, ON, CANADA

1:00 p.m. - 1:20 p.m.  J12  Investigating the Interlaboratory Reproducibility of Magnetic Flux Measurements of Toners
Carrie Polston, BA*; Williams Mazzella, PhD; Patrick Buzzini, PhD

1:20 p.m. - 1:50 p.m.  J13  Decipherment of Latent Handwriting Impressions: Point/Counterpoint
Thomas W. Vastrick, BS*

1:50 p.m. - 2:10 p.m.  J14  Infrared (IR) Luminescence With Different Paper Substrates
Dennis J. Ryan, MBA*

2:10 p.m. - 2:30 p.m.  J15  X-Ray Cabinets Applied to Forensic Document Examination
Samiah Ibrahim, BSc*; Tobin A. Tanaka, BS*

2:30 p.m. - 3:00 p.m.  J16  Practice Management Software: The Key to Staying Organized
Linda L. Mitchell, BS*

3:00 p.m. - 3:15 p.m.  Break

3:15 p.m. - 3:30 p.m.  J17  Forensic Document Examination: Early Incorporation of the Forensic Intelligence Paradigm
Samiah Ibrahim, BSc*

3:30 p.m. - 5:00 p.m.  J18  Crossing Borders: Issues From Inter-Jurisdictional Casework
Linton Mohammed, PhD*; Thomas W. Vastrick, BS*; Tobin A. Tanaka, BS*; Samiah Ibrahim, BSc*
Friday

Questioned Documents

Moderator: Diane Kruger, JD
Forensic Examiners Inc
Toronto, ON, CANADA

Co-Moderator: Tobin A. Tanaka, BS
Canada Border Services Agency
Ottawa, ON, CANADA

Co-Moderator: Miriam Angel, MS
Los Angeles Police Department
Questioned Documents
Los Angeles, CA

8:30 a.m. - 11:30 a.m. J19 Developing a Frequency of Occurrence Proportion-Based Database in Forensic Science: A Template Using the Handwriting Database
Thomas W. Vastrick, BS*

11:30 a.m. - 11:45 a.m. Break

Amy M. Crawford, MS*; Alicia L. Carriquiry, PhD; Danica Ommen, PhD

12:10 p.m. - 1:10 p.m. Lunch

Poster Session

11:30 a.m. - 1:00 p.m. J21 The Creation of Forged Promissory Notes Using the Signature Which Was for Different Purposes: A Case Report
Dilara Oner, MS*; Abdi Ozaslan, MD; Gursel Cetin, PhD

11:30 a.m. - 1:00 p.m. J22 Writing Instrument Developments: Hybrid Pens, Rollerball Pens, and Mixable Fountain Pen Ink
Tobin A. Tanaka, BS*

11:30 a.m. - 1:00 p.m. J23 Detecting Backdated Documents Through Line Layout Approaches to Font Identification
Thomas W. Phinney, MS, MBA*
Questioned Documents

**Moderator:** Dennis J. Ryan, MBA  
Applied Forensics LLC  
East Meadow, NY

**Co-Moderator:** Nina Harnarine, BSc  
Forensic Examiners Inc  
Toronto, ON, CANADA

1:10 p.m. - 1:40 p.m.  **J24**  
**The Interaction of Writing Profiles and Automated Scoring Rules**  
Cami Fuglsby, MS*; Michael Caligiuri, PhD; Danica Ommen, PhD; Christopher P. Saunders, PhD; JoAnn Buscaglia, PhD

1:40 p.m. - 2:10 p.m.  **J25**  
**Writer Classification of Handwritten Characters Using a Neural Network**  
Yoko Seki, MA*; Yoshinori Akao; Shigeru Sugawara, PhD; Yoshiyasu Higashikawa, PhD

2:10 p.m. - 2:25 p.m.  **J26**  
**Availability of Measurement of Ascender and Descender Parts of Letters in Determining the Gender of the Writer**  
Dilara Oner, MS*; Gursel Cetin, PhD; Omer Kurtas, MD

2:25 p.m. - 2:40 p.m.  **J27**  
**A Study of the Impact of a Primary Learned Handwriting Language on a Secondary Language**  
Amanpreet Kaur, MSc*; Rakesh Kumar Garg, PhD

2:40 p.m. - 2:55 p.m.  **J28**  
**Comparing Latin With Cyrillic Script in Handwriting Identification**  
Andrea Ledic, MS*

2:55 p.m. - 3:10 p.m.  Break

3:10 p.m. - 4:40 p.m.  **J29**  
**The Forensic Document Examiner (FDE) Forum**  
Carl R. McClary, BA*; Samiah Ibrahim, BSc*; Jan Seaman Kelly, BA*

4:40 p.m. - 4:55 p.m.  Questions & Answers

*Presenting Author*
**Wednesday**

**Toxicology Section Awardees Recognition (by invitation only)**

6:30 p.m. - 7:30 p.m.  
**Supported by:** UTAK

**Poster Session**

7:30 p.m. - 9:00 p.m.  
**K1**  
**Identification of Fentanyl and Fentanyl Analogs by Using High-Resolution Mass Spectrometry and Machine Learning**  
Yufei Chen, PhD; Xinyi Sui*; Nelson R. Vinueza, PhD

7:30 p.m. - 9:00 p.m.  
**K2**  
**An Evaluation of Screening for Drug Use Using Postmortem Prolactin (PRL) Levels in Serum and Cerebrospinal Fluid (CFS)**  
Alissa M. Shida, BS*; Naoto Tani, MA; Kei Ikeda, MD; Tomoya Ikeda, PhD, MD; Takaki Ishikawa, MD, PhD; Aoki Yayoi, BA

7:30 p.m. - 9:00 p.m.  
**K3**  
**Metabolism and Estimation of Intake of Intravenous Nicotine Injection**  
Alissa M. Shida, BS*; Kei Ikeda, MD; Naoto Tani, MA; Tomoya Ikeda, PhD, MD; Takaki Ishikawa, MD, PhD; Aoki Yayoi, BA

7:30 p.m. - 9:00 p.m.  
**K4**  
**A Validated Method for the Quantitative Determination of Anabolic Steroids in Urine by Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS)**  
Shaiju Vareed, PhD*; Ernest D. Lykissa, PhD

7:30 p.m. - 9:00 p.m.  
**K5**  
**Cocaine Overdose: A Fatal Record**  
Adriano Acella*; Carmelinda Angrisani, MD; Giuseppe Strisciullo, BES; Francesco Introna, MD; Antonio De Donno, PhD

7:30 p.m. - 9:00 p.m.  
**K6**  
**The Identification of Xylazine in a Patient Who Presented for Heroin Withdrawal**  
Colin Appleford*; Michael P. Smith, PhD

7:30 p.m. - 9:00 p.m.  
**K7**  
**An Unusual Case of Suicide by Fluvoxamine Poisoning**  
Jessica Quaiotti, MD; Matteo Moretti, MD*; Claudia Carelli; Silvia D. Visona, MD; Gulnaz T. Javan, PhD; Claudia Vignali; Luca Tojana; Luca Morini; Antonio M.M. Osculati, MD

7:30 p.m. - 9:00 p.m.  
**K8**  
**Delta-8-Tetrahydrocannabinol (Delta-8-THC): Increased Prevalence in Drug Seizure Cases and Impact on Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS) Analysis of Biological Specimens**  
Nicholas B. Tiscione, MS*; Steven J. Williams, BS*; Diana M. Lawrence, MSFS

7:30 p.m. - 9:00 p.m.  
**K9**  
**The Determination of the Organic Components of Newer Generation E-Cigarette Liquids**  
Bailey Davis, BS, BA*; Frank Dorman, PhD

7:30 p.m. - 9:00 p.m.  
**K10**  
**Driving Under the Influence of 1,1-Difluoroethane (DFE) and Marijuana**  
Aybike Dip, PhD; Ashraf Mozayani, PharmD, PhD*
7:30 p.m. - 9:00 p.m.  K11  Driving Under the Influence (DUI) in the United States and Brazil
Aline T. Bruni; Ashraf Mozayani, PharmD, PhD*

7:30 p.m. - 9:00 p.m.  K12  Methadone-Related Deaths: A Six-Year Study in a Major Italian City
Stefano Errico*; Davide Bedocchi, MD; Martina Drommi*; Rosario Barranco*; Alessandro Bonsignore, MD, PhD*; Francesco Ventura, MD*

7:30 p.m. - 9:00 p.m.  K13  Comparison of Ethanol Concentrations in Blood and End-Expired Breath During a Controlled Drinking Study
Sean Bortz, BS*; Diane Kalscheur, BS; Lindsey K. Skaggs, BS; Heather Barkholtz, PhD

7:30 p.m. - 9:00 p.m.  K14  Longitudinal Transdermal Fentanyl Compared With Morphine Sulfate Treatments in a Rabbit (Oryctolagus cuniculus) Model System: Impacts on Behavior and Health
Janna M. Andronowski, PhD*; Adam J. Schuiller, BS; Abigail R. LaMarca; Reed A. Davis, MS; Mary E. Cole, Ph.D; Gina R. Tubo

7:30 p.m. - 9:00 p.m.  K15  Fatal Formalin Intoxication in Thailand: A Case Report
Kamonpan Limlek, MD*; Arthit Surawisankun, MD; Peerayuht Phuangphung, PhD

7:30 p.m. - 9:00 p.m.  K16  Determination of Chiral Cathinone in Fresh Samples of Catha Edulis
Abdulrhman M. Dhabbah, PhD*

7:30 p.m. - 9:00 p.m.  K17  A Targeted Qualitative Screen for the Detection of Pesticides in Postmortem Specimens by Ultra High Performance Liquid Chromatography-Ion Trap-Mass Spectrometry (UHPLC-Ion Trap-MS*)
Marissa J. Finkelstein, MS*; Elisa N. Shoff, MS; Joseph H. Kahl, MS; George W. Hime, MS; Diane Boland, PhD

7:30 p.m. - 9:00 p.m.  K18  Application of Biochip Array Technology to the Simultaneous Screening of Drugs From a Single Hair Sample Using the Biochip Analyzer Evidence Investigator
Pankaj Sinha*

7:30 p.m. - 9:00 p.m.  K19  Driving Under the Influence of Alcohol (DUI) and Drugs (DUID) in Southern Italy: Case Reports Showing the Necessity of a Multidisciplinary Protocol to Prove DUI and DUID
Ciro Di Nunzio, PhD*; Aldo Di Nunzio*; Michele Di Nunzio*; Pietrantonio Ricci, PhD

7:30 p.m. - 9:00 p.m.  K20  AH-7921 and U-47700 Series Analogs: Spectroscopic Characterization and mu-Opioid Receptor Pharmacology
John L. Kristensky, PhD*; Alexander C. Zambon, PhD; Thomas Hsu, PhD; Jayapal Reddy Mallareddy

7:30 p.m. - 9:00 p.m.  K21  Screening of New Psychoactive Substances (NPS) in Human Plasma Using Magnetic Solid Phase Extraction (m-SPE) by Liquid Chromatography/Quadrupole Time-of-Flight/Mass Spectrometry (LC/qTOF/MS)
Hee-Sun Chung, PhD*

7:30 p.m. - 9:00 p.m.  K22  Evaluation of Sample Preparation Techniques for the Detection and Quantitation of Benzodiazepines in Human Urine and Whole Blood Using High-Performance Liquid Chromatography/Tandem Mass Spectrometry (HPLC-MS/MS)
Cassandra A. Swart, MS*; Mikayla Caldwell, MS*; Michael Moretto, MS; Andrew D. Ziegler, MS; Jenna Gardner, BA; Nichole D. Bynum, MS; Katherine Moore Bollinger, MS; Sabra R. Botch-Jones, MS

*Presenting Author
7:30 p.m. - 9:00 p.m.  K23 Calculation of Potential Lactate/Lactate Dehydrogenase (LDH) Interference With Alcohol-Dehydrogenase (ADH)-Based Ethanol Assay
Amanda K. Will, BS*; Sandra C. Bishop-Freeman, PhD; Julia C. Liebl, BA; Robert H. Powers, PhD

7:30 p.m. - 9:00 p.m.  K24 Fatal Unintentional Cocaine Overdose: The Importance of a Forensic Scene Investigation
Giuliana D' anna*; Antonio De Donno, PhD; Giuseppe Strisciullo, BES; Francesco Introna, MD

7:30 p.m. - 9:00 p.m.  K25 Presumptive Identification of Nitrite by Griess Reagent Test Strips—Applications in Suicide Investigations
Jessica Hvozdovich, MS*; Meagan L. Wisniewski, PhD; Jennifer L. Hoyer, MS; Chris W. Chronister, PhD; Bruce A. Goldberger, PhD

7:30 p.m. - 9:00 p.m.  K26 The Detection and Quantification of Tianeptine in Postmortem Blood and Urine
Justin L. Poklis, BS*; Janet Schultz, PhD; Michele T. Stauffenberg, MD; Carl E. Wolf II, PhD

7:30 p.m. - 9:00 p.m.  K27 Attribution Signatures for the Sourcing of Dokha and Dokha-Infused Tobacco Products
Orianna Thomas, BS*; Ellen Hondrogiannis, PhD

7:30 p.m. - 9:00 p.m.  K28 Assessment of In Vitro Methemoglobinemia Formation in Infant Samples
Frederick Strathmann, PhD*; Cherie M. Trail, BS; Emily Fenton, BA; Laura M. Labay, PhD

7:30 p.m. - 9:00 p.m.  K29 Drug Trends in Korea and the Detection of Synthetic Cannabinoids in the Hair of Drug Abusers
Byungseok Cho, PhD; Jeonghyun Kim, MS; Ilung Seol, PhD; Seung Kyung Baeck, PhD; Eunmi Kim, PhD*

7:30 p.m. - 9:00 p.m.  K30 Electrochemical Detection of Fentanyl Using Screen-Printed Carbon Electrodes With Confirmatory Analysis of Fentanyl and Its Analogs in Oral Fluid Using Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS)
Colby E. Ott, MS*; Hugo Cunha-Silva, PhD; Joseph A. Cox, MS; Julia Arcos-Martinez, PhD; Luis E. Arroyo, PhD

7:30 p.m. - 9:00 p.m.  K31 Frequency of Gabapentin in Postmortem Cases Screened by Enzyme-Linked Immunosorbent Assay (ELISA)
Denice M. Teem, BS*; Daniel S. Isenschmid, PhD

7:30 p.m. - 9:00 p.m.  K32 Comparison of Data Acquisition Methods for High Resolution Mass Spectrometry (HRMS) Drug Screening
Jessica L. Ayala, MSFS*; Sarah Kerrigan, PhD

7:30 p.m. - 9:00 p.m.  K33 Analysis of Cannabinoids in Vitreous Fluid
Haley Berkland, BA*; Erin B. Divito, PhD; Christopher B. Divito, PhD; Frederick W. Fochtman, PhD; Stephanie J. Wetzel, PhD

7:30 p.m. - 9:00 p.m.  K34 Chiral Separation of Methylphenidate, Ethylphenidate, and Ritalinic Acid in Blood
Christina Smith, BS*; Madeleine J. Swortwood, PhD

*Presenting Author
7:30 p.m. - 9:00 p.m.  

K35 Scientific and Careful Setting Up of a Lethal Oleander Leaves Infusion  
Giulia Gubinelli*; Francesca Donno, MD; Gianni De Giorgio; Ilaria Lacavalla, MD; Alessandro Dell’Erba, PhD

K36 Comparison of Manually Protein Precipitation and Automated Protein Precipitation Using DPX Low Porosity Tips in Blood, Urine, and Tissues  
Danielle C. Mata, MS*

K37 Variability in Direct Analysis in Real Time-High Resolution Mass Spectrometry (DART*-HRMS) Instrument Parameter Optimization Due to Molecular Identity  
Jessica L. Sprague, MS*; Candice Bridge, PhD

K38 High-Throughput Screening of Drugs of Abuse in Biofluids via 96-Solid-Phase Microextraction and Transmission Mode Direct Analysis in Real Time-Mass Spectrometry (TM-DART*-MS)  
Frederick Li, MS*; Paul Liang, BS; Brittany Laramee, BS; Brian Musselman, PhD

K39 Comprehensive Analysis of 34 Fentanyl Analogs Including Carfentanil From Liver Tissue Using Quick, Easy, Cheap, Effective, Rugged, and Safe (QuEChERS) and Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS) Analysis  
Kylea M. Mathison*; Joseph A. Cox, MS*; Colby E. Ott, MS; Joseph A. DelTondo, DO; James C. Kraner, PhD; Kristen M. Bailey, MS; Myron A. Gebhardt, MS; Luis E. Arroyo, PhD

K40 Validation and Comparison of Three Sample Preparation Techniques for Quantitation of Amobarbital, Butalbital, and Phenobarbital in Blood and Urine Using Ultra-Fast Liquid Chromatography/Tandem Mass Spectrometry (UFLC/MS/MS)  
Chi Hin Marco Chan*; Monique Oles; Nichole D. Bynum, MS; Sabra R. Botch-Jones, MS

K41 Determination of Synthetic Cannabinoids AB Pinaca and AB-Fubinaca With Disposable Screen Printed Carbon Electrodes (SPCE) Modified With Nanoparticles and Enzymes  
Miriam Barquero Quirós, PhD; Luis E. Arroyo, PhD*; Julian Portuguez

K42 A Fatal Case of Body Stuffer Syndrome  
Francesca Iannaccone*; Costanza Filomena; Alice Chiara Manetti, MD; Sara Turco, MD

K43 A Different Approach in the Estimation of the Time Since Death: Concurrence of Thanatochronological and Toxicological Data in a Case of Cocaine Assumption-Related Death  
Luigi Papi; Fabio Stefanelli; Silvio Chericoni; Alice Chiara Manetti, MD*; Costanza Filomena; Francesca Iannaccone

K44 Determination of Nicotine and Cotinine in Saliva  
Sultan M. Büyüker*; Kaan Yilanciglu, PhD*; Rabia Aydin, BS*; Sevil Atasoy, PhD*

K45 The Detection and Quantification of Fentanyl in Phormia Regina (Calliphoridae) and Its Effects on Growth and Developmental Rate  
Brianna L. Robinson*; Ian Dadour, PhD; Karen S. Scott, PhD; Sabra R. Botch-Jones, MS

*Presenting Author
## Thursday

### Annual Lectureship in Toxicology (Not Eligible for CE Credit)

**Moderator:** Sabra R. Botch-Jones, MS  
Boston University School of Medicine  
Boston, MA  

**Co-Moderator:** Madeleine J. Swortwood, PhD  
Sam Houston State University  
Huntsville, TX

<table>
<thead>
<tr>
<th>Time</th>
<th>Session</th>
</tr>
</thead>
</table>
| 9:00 a.m.  | **The Effects of Low Blood Alcohol Concentrations on Human Performance and Behavior**  
Dary D. Fiorentino, PhD  
Van Nuys, CA |
| 10:00 a.m. | **Break**                                                                |

### Drugs and Driving Special Session

**Moderator:** Dayong Lee, PhD  
Houston Forensic Science Center  
Houston, TX  

**Co-Moderator:** Michael R. Corbett, PhD, LLM  
University of Ontario  
Mississauga, ON, CANADA

<table>
<thead>
<tr>
<th>Time</th>
<th>Session</th>
</tr>
</thead>
</table>
| 10:30 a.m. | **Emergence of Delta-8 Tetrahydrocannabinol (THC) in Driving Under the Influence of Drugs (DUID) Investigation Casework**  
Ayako Chan-Hosokawa, MS*; Loan Nguyen, BS; Renee L. LaFord, MS; Wendy R. Adams, PhD |
| 10:45 a.m. | **A Seven-Year Review of Vehicular Crash Toxicology Data at the West Tennessee Regional Forensic Center**  
Elizabeth C. Conner, MPH, CHES*; Erica Curry, MD |
| 11:00 a.m. | **Toxicological Findings and Demographics of Phencyclidine (PCP) Use in Houston From 2013 to 2018**  
Dayong Lee, PhD*; Peter R. Stout, PhD |
| 11:15 a.m. | **WITHDRAWN**                                                            |
| 11:30 a.m. | **The Effects of Synthetic Cannabinoids and Poly-Drug Use on Drug Recognition Expert Evaluations**  
Amanda L.A. Mohr, MSFS*; Judith Rodriguez Salas, MS; Alex J. Krotulski, MS;  
David Andrascik, BS; Barry K. Logan, PhD |
| 11:45 a.m. | **Lunch**                                                                |
Drug Trends

Moderator: Dustin Tate Yeatman, MS  
Co-Moderator: Michael Wagner, MS, PA  
West Palm Beach, FL \ Fort Lauderdale, FL

1:00 p.m. - 1:15 p.m.  
**K51**  
The National Forensic Laboratory Information System (NFLIS) Survey Findings: Toxicology Testing Practices by Toxicology Laboratories and Medical Examiner and Coroner Offices  
DeMia P. Pressley, MS*; Liqun Wong, MS; Terrence Boos, PhD; BeLinda J. Weimer, MA; Hope Smiley-McDonald, PhD; Katherine Moore Bollinger, MS; Megan Grabenauer, PhD; Jeffrey M. Ancheta, BS; Neelima Kunta, BS; David Heller, BS; Jeri D. Ropero-Miller, PhD

1:15 p.m. - 1:30 p.m.  
**K52**  
Data-Supported Poly-Drug Use Among Fentanyl Users: A Toxicology Perspective  
Alex J. Krotulski, MS*; Susan Varnum, PhD; Barry K. Logan, PhD

1:30 p.m. - 1:45 p.m.  
**K53**  
New Trends in Lysergic Acid Diethylamide (LSD) Use and Recommendations for Analysis  
Ryianne Brown, MSFS*; Jeff Walterscheid, PhD; Jessica L. Knittel, MS

1:45 p.m. - 2:00 p.m.  
**K54**  
Xylazine Alone and in Combination With Opioid Drugs in Forensic Toxicology Casework  
Sherri L. Kacinko, PhD*; Edward J. Barbieri, PhD

2:00 p.m. - 2:15 p.m.  
**K55**  
The Persistence of 3-Methylfentanyl (3-MF) in Pennsylvania  
Donna M. Papsun, MS*; Melissa Fogarty, MSFS; Sherri L. Kacinko, PhD; Barry K. Logan, PhD

2:15 p.m. - 2:30 p.m.  
**K56**  
The Quantitation of N-Ethylpentylone (Ephylone) in Blood Samples From Victims of Suspected Drug-Facilitated Sexual Assault  
Lisa J. Reidy, PhD*; Kristin W. Kahl, MS; Alex Giachetti, BS; Diane Boland, PhD

2:30 p.m. - 2:45 p.m.  
**K57**  
Buprenorphine-Related Deaths in North Carolina From 2010 to 2018  
Sandra C. Bishop-Freeman, PhD*; Laura Friederich; Marc Feaster, BS*; Christopher T. Garrell, BS; Michelle B. Aurelius, MD; Jason S. Hudson, PhD

2:45 p.m. - 3:00 p.m.  
Break

Novel Psychoactive Substances

Moderator: Michael P. Stypa, MS  
Co-Moderator: Marissa J. Finkelstein, MS  
Las Vegas Metropolitan Police Department \ Miami-Dade Medical Examiner Department  
Las Vegas, NV \ Miami, FL

3:00 p.m. - 3:15 p.m.  
**K58**  
Evaluation of the Long-Term Stability of Select Phenylacetylene, Cycloalkylindole, Quinolinyl, and Carboxamide Synthetic Cannabinoids in Human Whole Blood Using Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS)  
Erika Phung, BS*; Katherine Moore Bollinger, MS; Sabra R. Botch-Jones, MS; Daniel Lee, MS; Cassandra A. Swart, MS; Megan Grabenauer, PhD; Nichole D. Bynum, MS

3:15 p.m. - 3:30 p.m.  
**K59**  
The Quantitative Analysis of Fentanyl and Fentanyl Analogs in Hair  
Ryan B. Paulsen, PhD*; Michael I. Schaffer, PhD; Virginia Hill, BS; Neil Stowe, PhD; Judy Guan, BS

*Presenting Author
3:30 p.m. - 3:45 p.m.  K60  Physicochemical Characterization of 19 Fentalogs: Lipophilicity  
Madison R. Schackmuth, BS*; Sarah Kerrigan, PhD

3:45 p.m. - 4:00 p.m.  K61  Identification of Mitragyna Alkaloids and Metabolites as Biomarkers of Kratom Use in Postmortem Urine Samples  
Stephanie Basiliere, BS*; Sarah Kerrigan, PhD

4:00 p.m. - 4:15 p.m.  K62  Rapid Detection and Separation of Isomeric Fentanyl Analogs Using Gas Chromatography-Atmospheric Pressure Chemical Ionization-Trapped Ion Mobility-Time of Flight/Mass Spectrometry (GC-APCI-TIMS-TOF/MS)  
Elisa N. Shoff, MS*; Cesar E. Ramirez, PhD; Juergen Kempf, PhD; Francisco A. Fernandez-Lima, PhD

4:15 p.m. - 4:30 p.m.  K63  Determination of Novel and Non-Routine Benzodiazepines and Suvorexant in Whole Blood by Liquid Chromatography/Tandem Mass Spectrometry (LC/MS/MS)  
Luke García*, Nicholas B. Tiscione, MS; Dustin Tate Yeatman, MS; Lauren L. Richards-Waugh, PhD

4:30 p.m. - 4:45 p.m.  K64  Fentanyl Epidemic on the West Coast: Accidental Overdose Death Trends in San Francisco From 2008 to 2019  
Kelsa L. West, MS*; Luke N. Rodda, PhD

Toxicology Open Forum (Not Eligible for CE Credit)

7:00 p.m. - 9:00 p.m. Supported by: Thompson Instrument Company  
Waters Corporation

Friday

Multidisciplinary Session: Pathology/Biology I & Toxicology—Part I

Moderator: Dan T. Anderson, MS  
Colorado Bureau of Investigation  
Arvada, CO  
Co-Moderator: Elisa N. Shoff, MS  
Miami-Dade Medical Examiner Department  
Miami, FL

8:30 a.m. - 8:45 a.m.  K65  Accidental Acute Combined Drug Toxicity Involving Heroin and Fentanyl in a 10-Year-Old Child  
Joseph H. Kahl, MS*; Benjamin Mathis, MD; George W. Hime, MS; Diane Boland, PhD

8:45 a.m. - 9:00 a.m.  H100  Volatile Substances Concentrations in Costal Cartilage in Relation to Blood and Urine  
Marcin Tom sia; Joanna Nowicka; Elzbieta Chelmecka; Joanna Wójcik; Magdalena Wos; Kornelia M. Drozdziok; Rafał Skowronek; Gulnaz T. Javan, PhD*

9:00 a.m. - 9:15 a.m.  K66  A Fatal Mono-Intoxication With 4-Fluoroisobutyrylfentanyl  
Roelof Oosting, PharmD; Lauriane Drouin; Rogier van der Hulst, PharmD; Ingrid Bosman, PhD*

9:15 a.m. - 9:30 a.m.  H101  The Relationship of Chronic Psychostimulant Use and Cardiovascular Disease  
Elly Riser, MD; Chamil Ariyaratne, MD, MBBS; Irfan Chaudhry, MD*; Caleb Banta-Green, PhD; Richard C. Harruff, MD, PhD

*Presenting Author
9:30 a.m. - 9:45 a.m.  K67  Circumstances, Postmortem Findings, and Toxicology in a Series of Methoxyacetylfentanyl-Related Deaths
Robert Kronstrand, PhD*; Svante Vikingsson, PhD

9:45 a.m. - 10:00 a.m.  H102  Suicide by Acute Substance Intoxication: A Retrospective Analysis of Cases in Cook County, Illinois

In order to keep BYOS.ppt informal, fun, and informative for the large and diverse audience, here are a few things to keep in mind for the BYOS.ppt program at the 2020 AAFS Annual Meeting in Anaheim, CA:

- Presentations must be in PowerPoint® format. 35mm slides are not accepted.
- Proposals must be submitted on this form accompanied by a “6-slides-per-page” printout of the presentation and an electronic copy on CD or flash drive.
- BYOS is not intended as a forum to present scientific papers. It is designed as a means to present interesting information and/or unusual case(s) that may be educational and blended with humor.
- Speakers should plan on ten minutes in which to present their material.
- Material being presented in other parts of the AAFS scientific program will not be accepted at BYOS.ppt.
- Tables, charts, and graphs should be avoided, making every effort to use slides of scenes, bodily findings, and evidence.

This completed form, a “6-slides-per-page” printout, and the electronic presentation copy should be delivered to the on-site AAFS Staff Office by 4:00 p.m. on Wednesday, February 19, 2020. Presentations will be selected and scheduled based on perceived interest to the audience and in the order in which the completed submissions are received. This form and required printout are needed to organize the BYOS.ppt program and to allow appropriate allocation of continuing education credit. A BYOS.ppt Program Form also will be placed in each registrant’s meeting packet.

BYOS PROGRAM FORM

Name and Degree(s): _________________________________________________________________________________________________________

Job Title: ___________________________________________________________________________________________________________________

Place of Employment: _________________________________________________________________________________________________________

AAFS Section Affiliation (if none, write "none"): ____________________________________________________________________________________

The presentation is being offered primarily to:

- Solicit input/advice on a challenging case
- Present interesting information or case(s) for education purposes
- Entertainment

Presentation is:
- A single case
- A series of cases with a common topic
- Multiple cases with unrelated topics
- Other (please specify): ______________________________________________________________________________________________

Briefly describe the material to be presented: _______________________________________________________________________________________

What are the major points to be emphasized?: _______________________________________________________________________________________

How will the attendees benefit from this presentation?: _______________________________________________________________________________

Is there commercial interest in the material being discussed?:          No          Yes (if yes, please describe): _______________________________________

How much presentation time is required?: ________ minutes            How many PowerPoint® slides will be shown?: ________

Presenter’s local hotel: ________________________________________________ Room #: ____________  Phone #: _____________________________

U.S. Cell Phone: ___________________________________     Email you can access while at the meeting: ______________________________________

The BYOS agenda, scheduled presentation times, and continuing education credit hours will be posted near the BYOS meeting room. If you have any questions, contact Sonya Bynoe at abstracts@aafs.org or at the on-site AAFS Staff Office.

******************************************************************************

AAFS STAFF USE ONLY:    Date Received: ______________ Time: ______________
As a sponsor of continuing education, the American Academy of Forensic Sciences (AAFS) must ensure balance, independence, objectivity, and scientific rigor in all its educational activities. All faculty participating in a sponsoring activity are expected to disclose any significant financial interest or other relationship: (1) with the manufacturer(s) of any commercial product(s) and/or provider(s) of commercial services discussed in an educational presentation; and (2) with any commercial supporters of the activity. (Significant financial interest or other relationships can include such things as grants or research support, employee, consultant, major stockholder, member of speaker’s bureaus, etc.) AAFS has an established policy regarding conflicts of interest that includes decisions the Program Committee members may make in selecting content for the Annual Scientific Meeting Program. By serving on the committee, regardless of the role, each member has agreed to comply with Section 1.4.7. of the AAFS Policy and Procedure Manual.

To serve on the 2019-20 Program Committees, it is required that relevant AAFS staff members, program committee members, and/or reviewers complete a Financial Disclosure Form before being provided access to review submissions for the program. For continuing education accreditation purposes, the disclosed relationships are published below so learners are aware of the nature of any relationships that may impact the selection of presentations for the program. If a committee member failed to provide complete disclosure of a relevant financial interest or relationship, the committee member or reviewer was not allowed to serve. The executed Faculty Disclosure Forms are on file in the AAFS Office.

PRESENTING AUTHOR
FINANCIAL DISCLOSURE

As an accredited provider of Continuing Medical Education, the American Academy of Forensic Sciences requires speakers to disclose any real or apparent conflict of interest they may have related to the content of their presentation(s). The existence of commercial or financial interest of authors related to the subject matter of their presentation(s) should not be construed as implying bias or decreasing the value of their presentation(s). However, disclosure should help participants form their own judgments. AAFS and the Program Committee review the submissions to ensure that the content is educational and not a commercial presentation for companies and their products. Participants may notify AAFS by email (abstracts@aafs.org) should any presentation be considered solely a commercial endorsement presentation. Notification should include presentation number/ID (e.g., BS10, E100, W30) and speaker name.

If an author failed to provide complete disclosure of the discussion of commercial products, a relationship with the manufacturer including employee/employer relationship, sources of support for the research project, and/or the discussion of unlabeled or unapproved uses of pharmaceuticals/medical devices, the presentation was not accepted. Authors are required to disclose at the beginning of each presentation any information disclosed and listed below. Copies of the executed disclosure forms are kept on file in the AAFS Office.

The following presenting authors have disclosed financial relationships with commercial entities.

A

Jose R. Almirall, PhD - W26

The presenting author index can provide a quick reference to find when and in what section presenting authors are scheduled to present at the 2020 Annual Scientific Meeting. The reference table below assists you in finding the section in which the presentation will be given. Letters correspond to the scientific discipline/section in which the presentation is being made while the number corresponds to the numerical sequence of the presentation within the section.
